

**SECTION 8.0 - DEDICATED ACCESS SERVICE\*, (CONT'D.)**

(T)

**8.1 Service Description, (Cont'd.)**

**DS-1** - a channel for the transmission of nominal 1.544 Mbps isochronous serial data. The actual bit rate is a function of the channel interface selected by the Customer.

(M)

**DS-3** - a channel for the transmission of nominal 44.736 Mbps isochronous serial data. A DS-3 channel has capacity for 28 DS-1 channels.

(M)

Service may be provided as two-point service only. A two-point channel or facility connects a Customer designated Premises on a directly connected basis to a Company Point of Presence (POP) or designate. Applicable rate elements are:

- (A) Access Channel
- (B) Optional Features and Functions (when applicable)
- (C) Central Office Connection
- (D) Access Coordination Fee

A Customer may request that the facilities used to provide BellSouth® Dedicated Access service be specially routed. Special Facilities Routing (i.e., Avoidance, Diversity and Cable-Only) will be provided on an Individual Case Basis ("ICB") as set forth under Section 11, Contracts For Service of this tariff.

Customers selecting the Company as their Primary Carrier may purchase BellSouth® Dedicated Access service for any location on an Individual Case Basis. The Dedicated Access services offered in this tariff are available only in conjunction with Complex Voice services and Private Line facilities offered by the Company.

The minimum service period for all Dedicated Access services is three (3) months unless specified elsewhere in this tariff. The minimum service period for ICB services is specified in the Individual Case Basis contract.

\* *This service has been grandfathered effective April 27, 2007. No new customers will be provisioned under this service after this date.*

**(T)**

**8.2 Rate Elements**

Generally, a BellSouth<sup>®</sup> Dedicated Access service facility consists of the following rate elements: Access Channel, Optional Features and Functions, Access Coordination Fee and Central Office Connection. Each of these elements is described below in more detail.

**8.2.1 Access Channels**

An Access Channel provides for the communications path between a Customer premises and the Company Point of Presence (POP) or designate. Included as part of the Access Channel is a standard channel interface arrangement which defines the technical characteristics associated with the type of facilities to which the access service is to be connected at the Point of Termination (POT) and the type of signaling capability, if any. The signaling capability itself is provided as an optional feature as set forth in Section 8.2.2. One Access Channel charge will apply per Customer-designated Premises at which the channel is terminated.

Rates and charges for Access Channels are specified by facility type in Section 8.5. In addition to the rates found in this tariff, other charges associated with Access Channels will apply and will be determined on an Individual Case Basis (ICB).

**SECTION 8.0 - DEDICATED ACCESS SERVICE\*, (CONT'D.)**

**(T)**

**8.2 Rate Elements, (Cont'd.)**

**8.2.2 Optional Features and Functions**

Optional Features and Functions provide for capabilities which may be added to a basic BellSouth® Dedicated Access service facility to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of performance characteristics, which may be obtained. These characteristics may be obtained by using various combinations of equipment.

Although the equipment necessary to perform a specified function may be installed at various locations along the path of the service, they will be charged for as a single rate element.

**(A) DS-0 Analog Service**

When service is used for voice applications, signaling is typically required. Additionally, when service is used for data transmission, the Access Channels may require special conditioning (e.g. C-type and/or D-type conditioning).

**(1) Signaling**

Signaling capability provides for the process by which one Customer Premises alerts another customer premises on the service with which it wishes to communicate.

**(2) Conditioning**

Conditioning provides more specific transmission characteristics for analog DS-0 access services. C-Type conditioning controls attenuation distortion and envelope delay distortion. D-Type conditioning provides transmission characteristics suitable for data communications. D-Type conditional also provides for the control of "Signal to C-Notch Noise Ratio" and intermodulation distortion.

Clear Channel Capability (CCC) is an arrangement that alters a DS-1/1.544 Mbps signal with unconstrained information bits. This will allow a Customer to transport an all-zero octet over a DS-1/1.544 Mbps channel and will provide an available combined maximum 1.536 Mbps data rate.

CCC is provided on DS-1/1.544 Mbps channels between two Customer designated premises and is subject to the availability of facilities. This optional feature may be ordered at the same time the DS-1/1.544 Mbps channel is ordered, or it may be ordered as an additional feature of an existing channel.

**8.2.3 Central Office Connection (COC)**

A Central Office Connection consists of monthly and non-recurring charges to telecommunications users for the access connection between the local central office and Company facilities. The charges are on a per channel and speed of circuit basis.

**8.2.4 Access Coordination Fee (ACF)**

An Access Coordination Fee consists of monthly and non-recurring charges to a telecommunications Customer to compensate for internal labor costs of ordering, provisioning, installing and maintaining end-to-end service by the Company. The charges are on a per access channel and speed of circuit basis.

BellSouth<sup>®</sup> Dedicated Access services which are terminated as set forth in Section 8.4.1 will be exempted from the Special Access Surcharge if the Customer provides the Company with a written notification certifying exemption. Such notification shall be provided by the Customer (1) at the time the Dedicated Access service is ordered or installed; (2) at such time as the Dedicated Access service is reterminated to a device not capable of interconnecting to the local exchange network, or (3) at such time as the Dedicated Access service becomes associated with a LEC-provided Feature Group A service that is subject to Carrier Common Line charges.

If written certification is not received at the time the Dedicated Access service is obtained, the surcharge will be applied. Exempt status will become effective on the certification date indicated by the Customer.

The exemption certification is to be provided by the Customer ordering the service. The certification must be signed by the Customer or authorized representative and include the category of exemption, as set forth in Section 8.4.1, for each termination, and the date which the exemption is effective.

The Customer shall also notify the Company when an exempted Dedicated Access service is changed or reterminated such that the exemption is no longer applicable.

**SECTION 8.0 - DEDICATED ACCESS SERVICE, (CONT'D.)**

**8.4 Special Access Surcharge, (Cont'd.)**

**8.4.2 Exemption Certification**

BellSouth<sup>®</sup> Dedicated Access services which are terminated as set forth in Section 8.4.1 will be exempted from the Special Access Surcharge if the Customer provides the Company with a written notification certifying exemption. Such notification shall be provided by the Customer (1) at the time the Dedicated Access service is ordered or installed; (2) at such time as the Dedicated Access service is reterminated to a device not capable of interconnecting to the local exchange network, or (3) at such time as the Dedicated Access service becomes associated with a LEC-provided Feature Group A service that is subject to Carrier Common Line charges. (T)

If written certification is not received at the time the Dedicated Access service is obtained, the surcharge will be applied. Exempt status will become effective on the certification date indicated by the Customer.

The exemption certification is to be provided by the Customer ordering the service. The certification must be signed by the Customer or authorized representative and include the category of exemption, as set forth in Section 8.4.1, for each termination, and the date which the exemption is effective. (T)

The Customer shall also notify the Company when an exempted Dedicated Access service is changed or reterminated such that the exemption is no longer applicable.

**SECTION 8.0 - DEDICATED ACCESS SERVICE\*, (CONT'D.)**

(T)

**8.4 Special Access Surcharge, (Cont'd.)**

**8.4.3 Crediting the Surcharge**

The Company will cease billing the Special Access Surcharge when certification that the BellSouth<sup>®</sup> Dedicated Access channel has become exempt from the surcharge, as set forth in Section 8.4.1 is received. If the status of the Dedicated Access service was changed prior to receipt for the exemption certification, the Company will credit the Customer's account, not to exceed ninety (90) days, based on the effective date of the change specified by the Customer in the letter of certification.

**8.4.4 Surcharge Rates**

The monthly Special Access Surcharge applies to Dedicated Access services on a per voice equivalent basis as shown in the following example.

Voice Grade	1 x \$25.00	= \$ 25.00
DS-1	24 x \$25.00	= \$600.00

In the case of multipoint Dedicated Access service, one Special Access Surcharge will apply for each termination at a Customer designated premises except that no surcharge applies at the Customer designated premises at which the Access service is connected to interstate service.

The Company will bill the surcharge to the Customer who orders the Dedicated Access service unless the Service is exempt as set forth in Section 8.4.1.
