| Rules Governing Rendering of<br>Sewer Service  |    |  |  |  |  |  |  |  |  |  |
|--|----|--|--|--|--|--|--|--|--|--|
| Rule 1 DEFINITIONS   |    |  |  |  |  |  |  |  |  |  |
| A. An "APPLICANT" is a person, firm, corporation, governmental body, or other entity which has applied for service or a sewer extension; two or more such entities may make one application for a sewer extension, and be considered one APPLICANT.  |    |  |  |  |  |  |  |  |  |  |
| B. "B.O.D" denotes biochemical oxygen demand. It is the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory conditions expressed in milligrams per liter.   |    |  |  |  |  |  |  |  |  |  |
| C. C. A "COLLECTING SEWER" is a pipeline, including force lines, gravity sewers, interceptors, laterals, trunk sewers, manholes, lampholes, and necessary appurtenances, including service wyes, which is owned and maintained by the company, located on public property or on private easements, and used to transport sewage waste from the customer's service connection to the point of disposal. |    |  |  |  |  |  |  |  |  |  |
| D. The "COMPANY" is Holtgrewe Farms Sewer Company, LLC, acting through its officers, managers, or other duly authorized employees or agents.   |    |  |  |  |  |  |  |  |  |  |
| E. A "CUSTOMER" is any person, firm, corporation or governmental body which has contracted with the company for sewer service or is receiving service from company, or whose facilities are connected for utilizing such service.  |    |  |  |  |  |  |  |  |  |  |
| F. The "DATE OF CONNECTION" shall be the date the permit for a service connection is issued by the company. In the event no permit is taken and a service connection is made, the date of connection shall be determined based on available information, such as construction/occupancy permits, or water or electric service turn-on dates.   |    |  |  |  |  |  |  |  |  |  |
| <ul> <li>G. A "DEVELOPER" is any person, firm, corporation, partnership or any entity that, directly or indirectly, holds title to, or sells or leases, or offers to sell or lease, or advertises for sale or lease, any lots in a subdivision.</li> </ul>   |    |  |  |  |  |  |  |  |  |  |

Service Commission YS-2011-0288

Name of Utility: Holtgrewe Farms Sewer Company, LLC

|       | Rules Governing Rendering of<br>Sewer Service  |            |           |                  |  |  |  |  |  |  |
|-------|--|------------|-----------|------------------|--|--|--|--|--|--|
| H.    | "DISCONTINUANCE OF SERVICE" is intentional cessation of t<br>by action of the company not at the request of the customer. Such<br>OF SERVICE may be accomplished by methods including physic<br>service sewer, or disconnection of water service by the water util<br>company.   | DISCON     | NTINU/    | ANCE<br>of the   |  |  |  |  |  |  |
| I.    | I. "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from<br>normal household activities; and, "NON-DOMESTIC SEWAGE" is all sewage other<br>than DOMESTIC SEWAGE including, but not limited to, commercial or industrial<br>wastes. (See Rule 6 pertaining to Improper Waste and Excessive Use.)         |            |           |                  |  |  |  |  |  |  |
| J,    | A "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.  |            |           |                  |  |  |  |  |  |  |
| K.    | K. "pH" is the relative degree of acidity or alkalinity of water as indicated by the hydrogen<br>ion concentration. PH is indicated on a scale reading from 1-14, with 7 being neutral,<br>below 7 acid, and above 7 alkaline; more technically defined as the logarithm of the<br>reciprocal of the hydrogen ion concentration. |            |           |                  |  |  |  |  |  |  |
| L.    | L. A "SERVICE CONNECTION" is the connection of a service sewer to the company collecting sewer either at the bell of a wye branch or the bell of a saddle placed on the barrel of the collecting sewer.  |            |           |                  |  |  |  |  |  |  |
| М.    | M. A "SERVICE SEWER" is a pipe with appurtenances installed, owned and maintained by<br>the customer, used to conduct sewage from the customer's premises to the collecting<br>sewer, excluding service wyes or saddles.   |            |           |                  |  |  |  |  |  |  |
| N.    | A "SUBDIVISION" is any land in the state of Missouri which is be divided into two or more lots or other divisions of land, whether uniform in size or not, for the purpose of sale or lease, and i thereof.  | er contigu | ious or i | not, or          |  |  |  |  |  |  |

| Rules Governing Rendering of<br>Sewer Service |   |  |  |  |  |  |  |  |  |
|---|---|--|--|--|--|--|--|--|--|
| Rule 2  | GENERAL RULES AND REGULATIONS   |  |  |  |  |  |  |  |  |
| А.  | Every customer, upon signing an application for service or accepting service rendered<br>by the company, shall be considered to have expressed consent to be bound by these<br>rates and rules.   |  |  |  |  |  |  |  |  |
| В.  | The company's rules governing rendering of service are set forth in the numbered sheets of this tariff. The rates applicable to appropriate class of service are set forth in rate schedules and constitute a part of this tariff.  |  |  |  |  |  |  |  |  |
| C.  | The company reserves the right, subject to the authority from the Public Service<br>Commission of Missouri, to prescribe additional rates or to alter existing rates or<br>rules as it may deem necessary or proper.  |  |  |  |  |  |  |  |  |
| D.  | At the effective date of these rules, all new facilities, construction contracts and written agreements shall conform to these rules in accordance with the statutes of the State of Missouri and authority of the Public Service Commission of Missouri. Pre-existing facilities which do not conform with these rules may remain, if said facilities do not cause any service problems and reconstruction is impractical. |  |  |  |  |  |  |  |  |
| E.  | The company shall have the right to enter upon the customer's premises for the purpose of inspecting for compliance with these rules. Company personnel shall identify themselves and such inspections shall be conducted during reasonable hours.  |  |  |  |  |  |  |  |  |

#### Rules Governing Rendering of Sewer Service

## Rule 4 APPLICATIONS FOR SEWER SERVICE

- A. A written application for service, signed by the customer, and accompanied by the appropriate fees as provided in the Schedule of Rates, Service Charges, or Rule 11 Extension of Collecting Sewers, and other information required by these rules, must be received from each customer before service is provided to any unit. Said application must be filed in writing 24 hours in advance stating the street, house number, name of the applicant, name of the property owner, and the time, at which connection is to be made. The company shall have the right to refuse service for failure to comply with the rules herein, or if the customer owes a past due bill not in dispute for sewer service at any location within the company's service area. In any case where a sewer extension, or unusual construction or equipment expense is necessary to furnish the service, the company may require a contract for service specifying a reasonable period of time for the company to provide the service. If the customer is a tenant, the company shall notify the owner of the property that the owner may be responsible for payment of the sewer service bill.
- B. A prospective commercial or industrial customer shall, upon request of the company, present in writing to the company a list of devices which will discharge to the collecting sewers, the amount and specifications of any discharge, and the location of any buildings. The company will then advise the customer of the form and the character of the waste water collection facilities available. If a sewer extension as provided for in Rule 11 Extension of Collecting Sewers will be necessary, or if the customer will be required to own, operate, and maintain a pretreatment facility, the customer will also be so advised.
- C. When sewer charges are based on water usage, the company reserves the right to refuse sewer service to any applicant unless said applicant agrees to install a water meter accessible by the company, so that there will be a basis for sewer charges. The company and customer may agree to an estimated water use amount, on an interim basis for a period not to exceed six (6) months, to allow time to install suitable metering equipment.

## Rules Governing Rendering of Sewer Service

#### Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

- A. The customer is obligated to construct, repair, and maintain the service sewer from the collecting sewer to the building, and make the connection to the collecting sewer. The customer shall notify the company prior to cleaning or repairing the service sewer.
- B. Construction of the service sewer, and connection to the collecting sewer shall be subject to the inspection and approval of the company. No backfill shall be placed until the work has been inspected by the company. In the event the customer or the customer's agent shall damage a wye branch or saddle, or cause damage to the collecting sewer, then the customer shall be responsible for the cost to repair any such damage, including replacement of pipe or appurtenances as necessary.
- C. Plumbing specifications of all governmental agencies having jurisdiction, and the company's rules, in effect at the time of connection must be met. The company may deny service or may discontinue service where foundation drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.
- D. A separate and independent service sewer shall generally be required for every building. Exceptions are:

a. When one building stands at the rear of another building on an interior lot where a proper service sewer cannot be constructed through an adjoining easement. In that situation, the service sewer from the front building may be extended to the rear building and it will be considered as one service sewer.

- b. When two or more buildings are a part of a complex which cannot be subdivided.
- E. The service sewer shall be one of the following: ductile iron pipe, vitrified clay sewer pipe (VCP), or polyvinyl chloride pipe (PVC), ASTM specification or equal; or other suitable material approved by the company. Only those jointing materials and methods which are approved by the company may be used. Joints shall be tight and waterproof.

Name of Utility: Holtgrewe Farms Sewer Company, LLC

Service Area: Holtgrewe Farms Subdivision, Washington, MO

## Rules Governing Rendering of Sewer Service

# Rule 6 IMPROPER OR EXCESSIVE USE

- A. The following requirements for the use of sewer service provided by the company shall be observed. Violation of the requirements will result in the discontinuance of service to the customer or an additional charge where discharge limits are exceeded.
- B. The company may require a customer discharging non-domestic sewage to install a pretreatment facility, grease trap or other device on the premises, to prevent exceedence of discharge limits or other adverse impacts upon the company's system. The installation of any such device as well as its operation and maintenance shall be the responsibility of the customer, and subject to approval and inspection by the company.
- C. No customer shall discharge or cause to be discharged any storm water, surface water, ground water, swimming pool water, roof runoff, sub-surface drainage, or cooling water into the collecting sewers.
- D. The customer shall be required to take any action necessary to meet the following described waste water limits before the wastewater is discharged into the collection sewer:
  - (1) Maximum temperature of 150 degrees Fahrenheit.
  - (2) Maximum strength of 400 parts per million Biological Oxygen Demand (B.O.D.).

# Rules Governing Rendering of Sewer Service

## Rule 7 DISCONTINUANCE OF SERVICE BY COMPANY

- A The company reserves the right of discontinuance of service for any of the following reasons:
  - (1) For failure to comply with these rules.
  - (2) For nonpayment of the sewer utility bill (see Rule 9).
  - (3) For resale of sewer service.
  - (4) For an unauthorized service connection to the company's collecting sewer.
- B For purposes of this rule, discontinuance of sewer service for non-payment of a sewer bill may be accomplished either by physical disconnection, or by discontinuance of water service by the customer's water utility at the request of the company. In such cases, customers will be notified by the terms of these rules, and not by those of any water utility.
- C Discontinuance of service to a customer for violation of these Rules shall not prevent the company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from the customer.
- D In the event of discontinuance of service by the company for any violation of these rules, then any monies due the company shall become immediately due and payable.
- E The company reserves the right of discontinuance of service to a customer, or to refuse service to any applicant or for any unit to protect itself against fraud or abuse.
- F At least thirty (30) days prior to discontinuance of service, the company will mail a written notice to the customer, and to the property owner if different than the customer, by certified mail, return receipt requested, with a copy of the notice sent to the Public Service Commission. Said notice shall state the nature of the violation, the amount of

#### Rules Governing Rendering of Sewer Service

## Rule 8 INTERRUPTIONS IN SERVICE

- A The company reserves the right to limit sewer service in its collecting sewers at any time, in a reasonable and non-discriminatory manner, for the purpose of making repairs to the sewer system.
- B Whenever service is limited for repairs, all customers affected by such limitation will be notified in advance whenever it is possible to do so. Every effort will be made to minimize limitation of service.
- C No refunds of charges for sewer service will be made for limitations of service unless due to willful misconduct of the company.

## Rules Governing Rendering of Sewer Service

#### Rule 9 BILLS FOR SERVICE

- A The charges for sewer service shall be at the rates specified in this tariff, which is on file with the Missouri Public Service Commission and at the company's office. The point of assumption of sewer service shall be at the service connection. Service charges for connection or disconnection are set forth in the Schedule of Service Charges.
- B A customer who is or has been taking sewer service at one or more units connected to the collecting sewer shall be held liable for payment of any applicable charges for service furnished to such units from the date of connection until the date requested by the customer in writing for service to be terminated, or until service is discontinued by the company. If termination of service must be accomplished by physical disconnection, the customer shall notify the company of the date and time of the disconnect in writing at least five days prior to the disconnection. If termination is accomplished by discontinuance or termination of water service, such notice shall be on or before the date of the water turnoff. Service may not be terminated for one unit of a multi-unit building if the building is served by one service sewer, unless accomplished by discontinuance or termination of water service. The method used for termination of service shall be determined by the company.
- C Bills for sewer service will be mailed or delivered to the customer's last address as shown by the records of the company, but failure to receive the bill will not relieve the customer from the obligation to pay the same.
- D Payments shall be made at the office of the company or at a convenient location designated by the company, or by mailing to the company's office.
- E Separate bills shall be rendered for each location at which sewer service is provided, even though one entity may be the customer at such separate locations.
- F The company shall have the right to render bills monthly in advance. Bills shall be due twenty-one (21) days after rendition, and such due date shall be indicated on the bill. The company shall have the right to charge customers on a monthly basis in arrears when the

# Rules Governing Rendering of Sewer Service

#### Rule 10 SPECIAL CONTRACT FOR EXCESSIVE CAPACITY

A In the event that the customer to be served proposes to discharge into the company's system an abnormally high volume or strength of waste as to require an enlargement of the company's existing sewage treatment plant or the construction of a temporary sewage treatment plant, and/or the construction or reconstruction of sewer lines or pump facilities, service shall be provided to such customer under the terms and conditions of a mutually satisfactory contract, in a form approved by the Public Service Commission, pursuant to which the cost of such improvements will be financed in such a manner as to be fair and reasonable to both parties and so as not to constitute a burden upon the company or the existing customers of the company.

## Rules Governing Rendering of Sewer Service

## Rule 11 EXTENSION OF COLLECTING SEWERS

- A Collecting sewers will be extended within the company's certificated service area, at the applicant's cost, if service is requested by the applicant at a location where facilities do not exist (the "applicant" is sometimes referred to in this rule as the "original applicant"). The applicant shall enter into a contract with the company. The applicant may choose to have the company perform all work under the terms and conditions of Paragraph C, following, or have a private contractor perform the work under the terms and conditions of Paragraph D, following. For purposes of this rule, an extension could include, in addition to a collecting sewer, one or more pump station or treatment plant facilities, as necessary to provide the service.
- B The pipe used in making extensions shall be of a type and size which will be reasonably adequate for the area to be served. Such determination as to size and type of pipe shall be left solely to the judgment of the company. If the company desires a pipe size, lift station, treatment plant, or any other facility larger than reasonably required to provide service to the applicant, the additional cost due to larger size shall be borne by the company.
- C The company will extend collecting sewers for the applicant under the following terms and conditions:
  - (1) Upon receipt of written application for service as provided in Rule 4, Applications for Service, the company will provide the applicant an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required, including reconstruction of existing facilities if necessary, and the direct costs associated with supervision, engineering, permits, and bookkeeping. Applicable income tax cost calculated at the maximum rate will be added to this estimate.
  - (2) The applicant shall enter into a contract with the company for the installation of said extension and shall tender to the company a contribution-in-aid-of-construction equal

|     | to the amount determined in Paragraph C (1) above, plus any appropriate fees as provided in the Schedule of Rates or the Schedule of Service Charges.   |
|     | (3) If, as a result of reasonably unforeseen circumstances, the actual cost of the extension exceeds the estimated cost of the extension, the applicant shall pay the additional cost.  |
| D   | When the applicant elects to construct an extension, the company will connect said extension to its existing collecting sewers under the following terms and conditions:  |
|     | (1) Applicant shall enter into a contract with the company which provides that the applicant construct said collecting sewers and/or other facilities to meet the requirements of all governmental agencies and the company's rules. Plans for the extension shall be submitted to the company for approval prior to construction. Applicant's choice of construction contractor is subject to approval by the company. Applicant shall contribute said facilities to the company with a detailed accounting of the actual cost of construction, and contribute to the company the estimated reasonable cost of the company's inspection. |
|     | (2) The company, or its representative, shall have the right to inspect and test the extension prior to connecting it to the existing collecting sewers and acceptance of ownership.  |
|     | (3) Connection of the extension to existing company collecting sewers shall be made by, or under direct supervision of, the company or its representative.  |
|     | (4) The company shall have the right to refuse ownership and responsibility for the sewer<br>extension until applicant has met the contractual obligations as provided in Paragraph<br>D (1).   |
| Е   | The cost to additional applicants connecting to the sewer contributed by the original applicant shall be as follows:  |

Service Commission YS-2011-0288

Name of Utility: Holtgrewe Farms Sewer Company, LLC

|     | Rules Governing Rendering of<br>Sewer Service  |
|-----|--|
|     | (1) For a single-family residential applicant applying for service in a platted subdivision,<br>the company shall divide the actual cost of the extension, including income tax<br>impact if any, by the number of lots abutting said extension to determine the per lot<br>extension cost. When counting lots, corner lots which abut existing sewers shall be<br>excluded.           |
|     | (2) For a single-family residential applicant requesting service to areas that are not platted in subdivision lots, the applicant's cost shall be equal to the total cost of the extension times 100 feet divided by the total length of the extension in feet.  |
|     | (3) For an industrial, commercial, or multi-family residential applicant, the cost will be equal to the amount calculated for a single-family residence in E (1) above or E (2) above, as appropriate, multiplied by a water usage factor. The water usage factor shall be determined by dividing the average monthly usage in gallons by 7,000 gallons, but shall not be less than 1. |
| F   | Refunds of contributions shall be made to the original applicant as follows:   |
|     | (1) Should the actual cost of an extension constructed by the company under Paragraph<br>C, or actual costs for inspection by the company under Paragraph D, above, be less<br>than the estimated cost, the company shall refund the difference as soon as the actual<br>cost has been ascertained.  |
|     | (2) During the first ten years after the extension is completed, the company will refund to<br>the original applicant who paid for the extension monies collected from additional<br>applicants in accordance with Paragraph E above.  |
|     | (3) The sum of all refunds to the applicant shall not exceed the total contribution, including income tax and inspection costs associated with the extension, which the applicant has paid.  |
|     | (4) If two or more entities are considered an original applicant, the refund shall be<br>distributed to each entity based upon the percentage of the actual extension cost<br>contributed by each entity.  |
