2nd Revised Sheet 21.4
Replacing 1st Revised Sheet 21.4

MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED

1.4 TWO-POINT SERVICE - (Continued)

JAN 23 1998

1.4.6 Rates - (Continued)

E. Timing of Messages

1. On Dial Station-to-Station, Dial Calling Card Station-to-Station, Customer Dialed Calling Card Station or Operator Dialed Calling Card Station calls billed to Consumer Calling Cards, or Operator Station-to-Station messages, chargeable time begins when connection is established between the calling service point and the called service point.
2. On Person-to-Person messages, chargeable time begins when connection is established between the calling person and the particular person or service point specified or an agreed upon alternate.
3. Chargeable time ends when the calling service point "hangs up" thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
4. Chargeable time does not include time lost because of faults or defects in service.
5. When exchange telephone service used for Message Telecommunications Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communication's system, chargeable time for all classes of messages begins when a message from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.
