RE: Notice of Election and Withdrawal of Embarq Missouri, Inc. d/b/a CenturyLink Tariffs Pursuant to §392.461, RSMo.

Dear Secretary:

Section 392.461 allows telecommunications companies, upon notice to the Missouri Public Service Commission ("Commission"), to elect to be exempt from the requirement that they offer retail services to residential or business end users only through tariff, and to withdraw such tariffs.

Embarq Missouri, Inc. d/b/a CenturyLink hereby provides notice of its election to be exempt from tariff filing requirements, and of its intent to withdraw the below-listed tariffs, effective October 1, 2014.

General Exchange Tariff PSC MO. NO. 22  
Intrastate IntraLATA Message Telecommunications Service Tariff PSC MO. NO 23  
Wide Area Telecommunications Service Tariff PSC MO.NO 25  
Private Line Service Tariff PSC MO.NO 24  
Exchange Boundary Maps P.S.C. MO. NO. 10

Compliant with the requirement that electing companies publish generally available retail prices on a website, the *Local Terms of Service* containing the terms, conditions and rates for services previously provided under tariffs will be located on CenturyLink's website at [www.CenturyLink.com/tariffs](http://www.CenturyLink.com/tariffs). Affected customers were advised at least thirty days in advance of CenturyLink's withdrawal of the above referenced tariffs and of the website at which *Local Terms of Service* are available.

The withdrawal of tariffs and establishment of *Local Terms of Service* will not result in any changes to customers' current services or rates. CenturyLink will notify customers in advance if future changes are made.

If you have any questions or need additional information, you may call me at (913) 353-7087.

Sincerely,

A handwritten signature in cursive script that reads "Robyn Crichton".

EXPLANATION OF MARGINAL SYMBOLS AND CODES

**When changes are made on any Tariff page, a revised page will be issued canceling the Tariff page affected; such changes will be identified through the use of the following symbols:** (T)

- (C) - To signify a "Change" in existing rate and/or regulation.
- (D) - To signify the "Deletion/Discontinuance" of rates, regulations, and/or text.
- (I) - To signify a rate "Increase."
- (M) - To signify matter "Moved/Relocated" within the Tariff with no change to the material.
- (N) - To signify "New" text, regulation, service, and/or rates.
- (R) - To signify a rate "Reduction."
- (T) - To signify a "Text Change" in Tariff, but no change in rate or regulation.
- (Z) - To signify a correction. (T)

**The above symbols will apply except where additional symbols are identified at the bottom of an individual page.** (N)

- Sprint Simply Five<sup>SM</sup>
- Sprint Solutions<sup>SM</sup>
- Sprint SONET Ring Service<sup>SM</sup>
- Switchlink<sup>SM</sup>
- Talking Call Waiting<sup>SM</sup>
- Telesaver<sup>SM</sup>
- Translink®

**NOTE: Due to the recent legal separation of Embarq Local Operating Companies and Embarq Communications, Inc. from Sprint Corporation, all Sprint products and services referred to in this tariff, actually refer to Embarq products and services. A specific service level agreement between Embarq and Sprint allows for the continued use of the Sprint name for a limited time. As such, a reference to a product or service may be preceded with either company name. For example, "Sprint Solutions" is the same service as "Embarq Solutions" in any associated Embarq tariff.**

ADVANCE PAYMENTS AND DEPOSITS

I. ADVANCE PAYMENTS

- A. When making application for service, the applicant may be required to pay at the time the application is accepted, the service connection charge, if applicable and first months' charges for exchange service and equipment, excluding charges for local messages in excess of the monthly guarantee. In all cases, the regular monthly charges for service and equipment are payable as specified in **this tariff**. The provisions of this paragraph affect the initial payment only and not the subsequent billing and collecting practices as elsewhere provided in this tariff. (CT)
- B. The amount of the advance payment is credited to the customer's account and applied against any indebtedness under the contract.
- C. In addition to the treatment specified in Paragraph A, any applicant or one from whom an application is made, owing the Telephone Company for service furnished under a former contract, shall pay or make satisfactory arrangements for paying any bill outstanding and unpaid for such service, before any additional service will be furnished.
- D. No advance payments need be paid by present customers applying for additional service of any kind. (RT)

- B. The amount of the advance payment is credited to the customer's account and applied against any indebtedness under the contract.
- C. In addition to the treatment specified in Paragraph A, any applicant or one from whom an application is made, owing the Telephone Company for service furnished under a former contract, shall pay or make satisfactory arrangements for paying any bill outstanding and unpaid for such service, before any additional service will be furnished.
- D. No advance payments need be paid by present customers applying for additional service of any kind.
- E. For advance payments in lieu of construction charges, see the Rural Line Service Section of the General Exchange Tariff.

ADVANCE PAYMENTS AND DEPOSITS

II. ESTABLISHMENT AND MAINTENANCE OF CREDIT

A. Business

1. If it is deemed necessary by the Telephone Company in safeguarding its interests, applicants for service or present customers may be required to make a deposit of an amount not to exceed two months' exchange service charges plus two months' estimated toll usage and other charges to be applied in payment of any unpaid charges for exchange, toll, or other services which may be rendered. Simple interest will be paid on such deposit, if held one month or more. The interest rate paid on deposits will be adjusted annually on **December 1**, and will be equal to a rate of one percent (1%) above the prime lending rate as published in the Wall Street Journal on the last business day of September. (CP)
2. The fact that a deposit has been made shall in no way relieve the customer from complying with the Telephone Company's regulations as to the prompt payment of bills, nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the temporary suspension of service or the termination of the contract for non-payment of bills.
3. Service may be discontinued for failure to furnish a suitable deposit, when conditions appear to require the Telephone Company to have such credit protection, within five days after the Company has served or mailed notice requiring the customer to do so.
4. Any balance of the amount deposited, credited to the customer's account is returned to the customer at the termination of the contract, or it may be returned at any time previous thereto at the option of the Telephone Company when it is deemed that the customer has established satisfactory credit.

1. Establishment of Credit

The Telephone Company is not obligated to furnish service to any individual or firm that has an unpaid and undisputed delinquent account for service previously rendered by the Company at the same or different address, until arrangements have been made to liquidate such previous indebtedness to the Company.

2. Deposits or Guarantees

The Telephone Company may require an applicant with previous telephone service of twelve months or more to post a deposit or guarantee if he is unable to establish that all undisputed charges were satisfactorily paid for a period of at least twelve months.

The Telephone Company may require an applicant with no previous telephone service or with previous telephone service of less than twelve months to post a deposit or guarantee if the applicant has an unsatisfactory credit rating, or has an insufficient prior credit history upon which a credit rating may be based. The applicant's credit record will be accessed and evaluated by means of a mechanized retrieval system between the Telephone Company and nationally recognized credit bureaus. This process is known as Application Scoring and involves the use of empirical data and a statistical credit model in determining the applicant's credit worthiness. No security deposit will be required of those applicants who meet the Telephone Company's established credit criteria, as evaluated by the scoring model. The criteria used in assessing a score is as follows:

- Collection judgments
  - Written-off accounts
  - Outstanding collection accounts
  - Various degrees of delinquency history from 30-180 days, not paid in full or current at the time of scoring
  - Bankruptcies
  - Liens
  - Other public records
- and

4. Interest to be Paid on Deposit

On deposits held thirty days or more, simple interest shall be credited annually to the account of the customer or paid upon the return of the deposit, whichever occurs first. The interest rate paid on deposits will be adjusted annually on December 1, and will be equal to a rate of one percent (1%) above the prime lending rate as published in the Wall Street Journal on the last business day of September. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer. Records will be kept of any such efforts made to return the deposit.

5. Return of Deposit or Release of Guarantee

Upon satisfactory payment of all undisputed charges during the last twelve billing periods, the deposit, with accrued interest, will be promptly refunded or credited against **charges for** telecommunications services stated on subsequent bills, or a written guarantee shall be released. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute.

(CT)

Upon termination of the service, the amount of the deposit with accrued interest, shall be applied in payment of any unpaid charges for exchange or long distance service and the balance, if any, shall be returned to the customer within twenty-one days of the rendition of the final bill.

6. Deposit Not to Affect Regular Collection Practices

The fact that a deposit has been made, or a guarantee provided, shall in no way relieve the customer from his responsibility to pay undisputed charges prior to their becoming delinquent nor constitute a waiver or modification of the provisions set forth in this Tariff providing for the temporary suspension of service or the termination of the service for non-payment of undisputed, delinquent charges.

APPLICATION FOR SERVICE

- A. Applications for service may be made orally or in writing.
- B. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former customers of the Company who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.
- C. If telephone service is established and it is subsequently determined that either conditions in "B" above exist, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.
- D. When an application for service and facilities or requests for additions, rearrangements, relocation, or modifications of service and equipment are canceled in whole or in part prior to completion of the work involved, the applicant is required to reimburse the Company for all expense incurred in handling the request before notice of cancellation is received. Such charge, however, is not to exceed all charges which would apply if the work involved in complying with the request had been completed.
- E. When equipment has been ordered for the specific needs of a customer and the installation thereof is unduly delayed by or at the request of the customer, appropriate charges apply for such equipment for the period of the delay.
- F. When a customer requests a change in location of all or a part of the facilities covered by his application for service or request for additions, rearrangements or modifications of his existing service and equipment prior to completion of the work involved, he is required to pay the difference between the total costs and expenses incurred by the Company in completing the work involved and that which would have been incurred had the final location of facilities been specified initially.

APPLICATION FOR BUSINESS AND RESIDENCE RATES

- A. Generally business rates apply at business locations and residence rates apply at residence locations. The determination as to whether a customer's service should be classified as business or residence is based on use of the service.
- B. Business rates apply whenever the use of the service is primarily or substantially of a business, professional, institutional or otherwise occupational nature or where the listing required is such as to indicate business use. Business rates apply for:
1. Offices, stores, manufacturers, mines and all other places of a strictly business nature.
  2. Boarding houses, except as modified under paragraph C.2.; offices of hotels and apartment houses, colleges, quarters occupied by clubs and fraternal societies, except as modified under paragraph C.5; public, private or parochial schools, hospitals, nursing homes, libraries, church offices and other institutions.

NOTE: For the purpose of this tariff, a boarding house is defined as a house or apartment where rooms are rented or boarders taken or both. Such houses or apartments may obtain service at residence rates when in the judgement of the Company, they are not conducted primarily for business purposes and are listed as residences.

3. Residence locations, where the place of residence is adjacent to a place of business and is connected thereto, and it is not evident that the service located in the residence is to be employed primarily for domestic use.
4. When a business extension service or extension bell is located in residence location the business rate would apply under the provisions of this tariff.
5. Service terminating solely on the secretarial facilities of a secretarial answering service agency.
6. Any location where a business designation is provided or when any title indicating a trade or profession is listed, except as modified under paragraph C.3.

TELEPHONE ANSWERING SERVICE

SEP 17 1992

MISSOURI  
PUBLIC SERVICE COMMISSION

I. GENERAL

Telephone answering service consists of facilities and services furnished to a customer who is engaged in the business of answering calls for its patrons.

II. AVAILABLE ARRANGEMENTS

A. Alternate Call Number

The answering service arranges with the telephone company for Exchange Business Telephone Service under the name and address of the answering service.

The customer to exchange service contracts with the answering service and arranges with the telephone company for a directory listing, instructing callers to call the answering service telephone when the customer's regular telephone is not answered. The charge for alternate call listings is paid by the customer. (See "Directory Listings" section of the General Exchange tariff.)

B. Secretarial Answering Line

The answering service arranges with the telephone company for Exchange Business Telephone Service under the name and address of the answering service.

The answering service contracts with its patrons, who are not customers to Telephone Exchange Service, for directory listings in the patron's name at the address and telephone number of the answering service. No physical telephone facilities, excepting public telephone service, are provided at the premises of the patron of the answering service and the patrons may not use the telephone facilities of the answering service.

TELEPHONE ANSWERING SERVICE

II. AVAILABLE ARRANGEMENTS (Cont'd)

B. Secretarial Answering Line (Cont'd)

The answering service is billed for the telephone facilities except when a patron agrees, in writing to be billed. The business rate will be billed for the termination of facilities at the answering service location and for each secretarial listing. (See "Directory section of the General Exchange Tariff). It shall be the responsibilities of the answering service to secure and present to the telephone company such customer authorization that includes: the customer's name, address and the agreement to be responsible for all central office line or extension line charges associated with the termination of a central office line or extension at the answering service location.

C. Extension Line Service

1. Regulations

Extension line service connects answering facilities located at the answering service, with the primary exchange central office line, lines, or trunks of patrons of the answering service.

The answering service is the contracting party for the service of connecting extension lines or primary service lines thereto. The telephone company will not connect nor disconnect a primary service line or extension line without written authorization to do so by the customer. It shall be the responsibility of the answering service to secure and present to the telephone company such customer authorization that includes: the customer name, address and the agreement to be responsible for all central office charges associated with the termination of a central office line at the answering service.

Extension line service is restricted to incoming service only on extension lines or primary service lines connected.

There shall be no interconnection or switching of calls at the equipment between extension lines, or between extension lines and administrative main central office lines or trunks or secretarial answering lines of the answering service.

TELEPHONE ANSWERING SERVICE

II. AVAILABLE ARRANGEMENTS (Cont'd)

C. Extension Line Service (Cont'd)

1. Regulations (Cont'd)

The answering service is responsible for payment of all charges and rates for the service and extension lines connected.

The minimum service period for each extension line connected is one month.

Answering service will be provided only where the answering service is a customer to regular exchange service terminating in separate telephones or equipment.

Foreign Exchange Telephone Service customers may be connected to extension line answering service subject to approval of the telephone company, or companies, furnishing the Foreign Exchange Service.

2. Charges and Rates

Monthly Rate

a. Telephone Answering Service Pickup - Extension terminating in TAS Concentrator. (ATATERM)	\$1.25
--	--------

b. Extension Line Mileage

A mileage charge applies for each extension line connected to the equipment at the monthly charge specified for off-premise extensions in the "Mileage" Section of the tariff, measured as the airline distance between the answering service and the exchange central office.

c. Extension Line Service Connection Charge

Service connection charges apply for each extension line connected.

INFO-LINK

I. Service Description

INFO-LINK will provide one-way restricted dialing to Internet Service Providers (ISPs) in exchanges that are not currently served by ISPs. INFO-LINK is a one-way service that allows foreign exchange dialing only to ISPs. This service offering will allow end users to dial a seven digit number and receive connection to an Internet Service provider located in a Telephone Company specified foreign exchange<sup>1</sup>. (CT) (CT)

II. General Regulations

- A. ISPs are enhanced service providers whose service must include access to the Internet.
- B. INFO-LINK is designed and intended for the exclusive use for end user customers of the Telephone Company. INFO-LINK is not to be shared, resold or used in any configuration of customer-provided equipment with the intent of reselling this service. This service is available to interexchange carriers or other telecommunications service providers for administrative trunks only.
- C. It is the responsibility of the Telephone Company to determine what services meet the criteria of an Internet Service Provider. The sole purpose of the service offering is to allow affordable connection to the Internet. Enhanced Service Providers who provide services which do not include electronic data transfer to and from the Internet will not be considered ISPs.

1 Due to technological limitations, customers served by analog central offices will be required to temporarily dial a ten digit number until their serving central office is converted to digital switching. (N) (N)

CENTREX SERVICES

SEP 17 1992

MISSOURI  
Public Service Commission

I. GENERAL REGULATIONS

A. The Centrex Service described herein applies to customers within the Ferrelview exchange area and served by the same digital switching central office. This service offering is made available to customers with a minimum of 20 and a maximum of 200 centrex access lines. Customers applying for Centrex Service with more than 200 lines will be handled on an individual case basis.

B. The Rate Stability Plan is a payment option that allows the customer to pay a fixed monthly rate for Centrex Service over a period of 36 months. This plan covers the centrex access line, the Special Services Additive and Advanced Business Connection (ABC) "Plus" features. The plan does not cover charges for Extended Area Service. Customers subscribing to this plan will sign a termination agreement for their service.

C. Miscellaneous Service Offerings and Private Line Services found in other sections of the tariff are excluded from the Rate Stability Plan. Services and equipment not covered by the Rate Stability Plan are subject to Commission approved rate changes. Centrex customers who elect not to subscribe to this plan will pay the current centrex access line rates and ABC services and are subject to Commission approved rate changes.

CANCELLED  
AUG 10 1993  
BY J.A.R.S. #1

D. Customers subscribing to the Rate Stability Plan are subject to the terms of the termination agreement. A copy of the executed termination agreement will be furnished to the Missouri Public Service Commission upon their request.

Public Service Commission

E. Centrex customers who are covered by a Rate Stability Plan who no longer qualify as centrex customers will be subject to a termination charge as specified in the termination agreement for the remaining life of the contract.

F. Centrex customers who are not under the Rate Stability Plan and who reduce their number of centrex access lines in service, by two or more below the minimum qualifying them for Centrex Service for a period of four consecutive months, will be changed to the business one-party or trunk rates for their respective exchange rate group shown in the Local Exchange Service section of this tariff.

G. End User Common Line Charges will be billed to the Centrex Services as set forth in the Access Services Tariff.

II. DESCRIPTION OF SERVICES

A. The Centrex Service referenced in I.A. of this section consists of the following packages:

1. Centrex Access Line\*

- a. Intercommunication/Four Digit Dialing--provides for four digit dialing of calls between centrex lines without an attendant's assistance.
- b. Message Hold and Transfer--permits the holding and transferring of incoming calls to other centrex lines.
- c. Consultation Hold--permits holding of an incoming or outgoing call during a call to another station (second party) and retrieving the first party after consultation with second party.
- d. Three and Five Party Conference--allows a station user to set up conference calls between other station users and outside calls.
- e. Touch-Tone provides tone type address signaling on each centrex access line.

2. Public Network Access

- a. Direct Inward Station Connection--permits public network access lines from the local, EAS and toll networks.
- b. Extended Area Services Access to Metropolitan Services Area
- c. Local Access--access to local exchange service
- d. Toll Access--access to the toll network with automatic number identification

\* Centrex access line is restricted to access from or to centrex station lines only.

STATE OF MISSOURI COMMUNICATIONS SYSTEM

SEP 17 1992

MISSOURI  
Public Service Commission

I. GENERAL

- A. The Telephone Company provides Communications System Service for the State of Missouri in accordance with the Special Equipment and Assemblies Section and other sections of the tariff. Lease, maintenance and non-recurring charges for switching equipment are covered under a contract signed by the State of Missouri and the Company and made effective December 11, 1981. This contract is effective for twelve (12) months and was renewed August 3, 1987, and may be renewed annually for an additional one hundred and twenty (120) months.
- B. The Telephone Company will analyze and recommend to the state the necessary changes or improvement for switching equipment and distribution facilities as required for exchange and other services furnished by the Telephone Company.
- C. Customer Premise Equipment in service or in Telephone Company inventory, purchased prior to January 1, 1983, is provided in accordance with provisions of this tariff. Non-recurring charges found in Section 30 and other sections of this tariff are applicable.
- D. Customer Premise Equipment purchased after January 1, 1983, by the Telephone Company is offered under terms of the contract. Non-recurring charges for the installation, move and change of this equipment are specified in the contract.
- E. Directory Listings are furnished in accordance with the regulations set forth in the Directory Listings Section 9 of the General Exchange Tariff.
- F. Off Premises mileage monthly charges -- a charge of \$2.60 for the first one-quarter mile or fraction thereof and \$1.35 for each additional one-quarter mile or fraction thereof per month, airline measurement, apply for each station line, private line channel and intra-exchange tie line of the State of Missouri Communications System. Service Connection Charges located in Section 30 will also apply.

IV. Limitation of the Telephone Company

- A. Liability for damages arising from the inability of this service to support services of an Internet Service Provider are limited to the cost of subscribing to INFO-LINK.
- B. The Telephone Company is in no way responsible for the content of data retrieved through the Internet Service Provider. INFO-LINK only provides one-way dialing to ISPs in foreign exchanges. The Telephone Company does not have the ability to monitor or restrict data provided by ISPs.

V. Obligation of the Customer

- A. The customer is responsible for purchasing any hardware or software necessary to access or utilize services of an Internet Service Provider.
- B. Any hardware or software purchased to access or utilize the services of an Internet Service Provider should be purchased after the customer has verified that the service can be technically supported from their customer premise.
- C. The end user is responsible for monitoring data received from the Internet Service Provider.
- D. At time of order, the customer will be asked to identify their ISP to assure service functionality.

SERVICE DISCOUNTS

REC'D SEP 29 2000

(MT)

I. MISSOURI SCHOOL DISCOUNT PROGRAM

(CT)

- A. A discount from standard monthly tariffed rates for local exchange services may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature. Services provided under an Individual Case Basis (ICB) Contract are excluded from eligibility for this discount.
- B. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph C. following.
- C. An educational institution shall be defined as an accredited public or private school in the state of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federation of non-Public Schools Accrediting Association, Independent Schools Association of the Central States, North Central Association of Colleges and Schools, Accrediting Association of Bible Colleges, and/or the University of Missouri - Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
- D. The qualifying discount will be permitted only on the specific services identified in H. below. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
- E. The qualifying discount will be permitted only where the predominate use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
- F. In addition to meeting the qualification specified in Paragraph C preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.

SERVICE DISCOUNTS

SEP 17 1992

MISSOURI  
Public Service Commission

I. GENERAL

Upon proper Company approval, the Telephone Company will grant discounts from standard rates for service furnished under either one of the two following classifications.

II. OFFICIAL SERVICE

- A. Official service is service furnished for the conduct of the Company's business, and is generally furnished through telephones located in the Company's offices, or in residences of employees or agents whose duties require that they be readily accessible to call at any time.
- B. A concession from standard residence rates may be allowed in connection with service furnished at the residence of employees whose work is of such a nature that the establishment of the service might benefit the Telephone Company.

III. CONCESSION SERVICE

Regular full time and regular part time employees with over six months of service will normally be considered eligible for an employee telephone concession in connection with their rates for local telephone service.

- A. Management employees are allowed a 100% concession discount for local service, only in United Telephone Company service areas, up to a maximum of one (1) residence one-party main access line.
- B. Non-Management/Non-Bargaining employees are allowed a 50% concession discount for local service, only in United Telephone Company serving areas, up to a maximum of one (1) residence one-party main access lines.
- C. Bargaining\* employees are allowed a concession discount for residence service as determined through labor contract negotiations.
- D. Service Connection charges, U-Touch charges, and Zone charges, where applicable, are also allowed for employees described in paragraphs A, B, and C.

SERVICE DISCOUNTS

I. MISSOURI SCHOOL DISCOUNT PROGRAM (Cont'd)

G. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.

H. All local exchange business service rates contained in P.S.C Mo. No. 22 are eligible for a discount under this program with the exception of Directory Listings, Shared Tenant Service, Special Equipment and Assemblies, Operator Services, Services through Miscellaneous Common Carriers and Optional Metropolitan Calling Area (MCA) Service. United DigiLink and United TransLink rates referenced in Section 22 of this tariff and Digital Data Service and High Capacity Service (1.544 Mbps) rates contained in Section 7 of P.S.C Mo. No. 26 are also eligible for a discount under this program.

(CT)

II. SCHOOL AND LIBRARY DISCOUNTS

(CT)

A. In order to allow eligible schools and libraries to participate in the Federal Universal Service Fund, the Telephone Company offers eligible schools and libraries discounted rates on certain intrastate services as provided in the discount matrix adopted by the Commission in Case No. TO-97-552. The Federal Universal Service Fund shall provide the funding for any such discounts, and any discount shall only be available to an eligible school or library to the extent such institution receives funding from the Federal Universal Service Fund. Discounts are subject to the terms and conditions set forth in 47 CFR 54.500-54.517. Discounts on intrastate telecommunications services for eligible schools and libraries shall mirror the interstate discount as stated in the FCC Report and Order in CC Docket No. 96-45, as adopted by the Missouri Public Service Commission in Case No. TO-97-552.

IV. MISSOURI SCHOOL DISCOUNTED PROGRAM

MO. PUBLIC SERVICE COMM

- A. A discount from standard monthly tariffed rates for local exchange services may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature. Services provided under an Individual Case Basis (ICB) Contract are excluded from eligibility for this discount.
- B. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph C. following.
- C. An educational institution shall be defined as an accredited public or private school in the state of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federation of non-Public Schools Accrediting Association, Independent Schools Association of the Central States, North Central Association of Colleges and Schools, Accrediting Association of Bible Colleges, and/or the University of Missouri - Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
- D. The qualifying discount will be permitted only on the specific services identified in H. below. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
- E. The qualifying discount will be permitted only where the predominate use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
- F. In addition to meeting the qualification specified in Paragraph C preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.

II. SCHOOL AND LIBRARY DISCOUNTS (Cont'd)

B. General

The Universal Service Support Mechanism was established to ensure affordable telecommunications service to all Americans including low-income consumers and eligible schools and libraries. Public and private schools (grades Kindergarten — Twelve) and public libraries, may be eligible for discounts (Support) through the Schools and Libraries Universal Service Support Mechanism (E-Rate Program) in connection with the purchase of **Company** services and equipment (Service). In addition, these Customers may be eligible for state or local corollaries to the E-Rate Program. (T)

C. Application For Support

1. E-Rate Program

The Customer will abide by all E-Rate Program rules for receipt of Support. The Customer is responsible for applying to the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (or other authorized E-Rate Program administrator) for Support from the E-Rate program each year the Customer is eligible for the Support. The Customer will notify **the Company** in writing within 30 days of its receipt of a Funding Commitment Decision Letter from the SLD along with a copy of the notice and other relevant documentation as requested by **the Company**. (T)

2. Other Funding Sources

The Customer is responsible for applying for Support from state and/or local administrators (Funding Sources). The Customer will notify **the Company** in writing within 30 days of its receipt of a Support commitment from such Funding Sources and will include a copy of its application, Funding Source Support documentation, and other relevant documentation as requested by **the Company**. GENERAL EXCHANGE TARIFF

UNITED TELEPHONE COMPANY  
OF MISSOURI

Original Sheet 1  
RECEIVED

CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMER SEP 17 1992

MISSOURI  
PUBLIC SERVICE COMMISSION

A. GENERAL

1. Customer-provided customer premise inside wire, terminal equipment, protective circuitry, and communications systems may be used with facilities furnished by the Telephone Company for the telecommunications services as provided in the following paragraphs of this section and sections Miscellaneous Equipment and Services and Rules and Regulations applying to All Customer's Contracts of the General Exchange Tariff. In all such cases the customer-provided, customer premise inside wire, terminal equipment, or communications systems will be so constructed, maintained and operated as to work satisfactorily with the facilities of the Telephone Company.
  
2. Where telecommunications service is available under this tariff for use in connection with customer-provided customer premise inside wire, terminal equipment, protective circuitry, or communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the services offered by the Telephone Company. Such use is subject to the further provisions that the customer-provided, customer premise inside wire, equipment, or system does not endanger the safety of Telephone Company employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Telephone Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the telecommunications system or otherwise injure the public in its use of the Telephone Company's service. Upon notice from the Telephone Company that the customer-provided, customer premise inside wire, equipment, or system is causing or is likely to cause such hazard or interference the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Telephone Company charges, as specified in the Miscellaneous Equipment and Services section of this tariff, for visits by the Telephone Company to the customer's premises where a service difficulty or trouble report results from customer-provided, customer premise inside wire, equipment, or system.

A. GENERAL (Cont'd)

3. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided customer premise inside wire, terminal equipment, protective circuitry, or communications systems. Telecommunications service is not represented as adapted to the use of customer-provided, customer premise inside wire, terminal equipment or systems and where such are connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service: subject to this responsibility the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided, customer premise inside wire, equipment, protective circuitry, or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided, customer premise inside wire, equipment, protective circuitry or systems.
4. The Telephone Company will not be responsible to the customer or otherwise, if changes in the Company's communications facilities, equipment, operations or procedures renders the customer-provided premise inside wire, terminal equipment, protective circuitry, or communications systems obsolete or require modification or alteration of such equipment. The Telephone Company will give at least 90 days notice in writing if such changes can reasonably be expected to occur, allowing the customer an opportunity to maintain uninterrupted service.
5. The Telephone Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Telephone Company.
6. Satisfactory performance of the telecommunications network requires continuing functional compatibility of the network control signals and the switching equipment involved. To assure such continuing compatibility, network control signaling in the furnishing of telecommunications service shall be performed by equipment furnished, installed and maintained by the Telephone Company unless the customer-provided customer premise inside wire, terminal equipment or protective circuitry meet the requirements of the FCC Rules and Regulations.

A. GENERAL (Cont'd)

7. Where any customer-provided customer premise inside wire, equipment, protective circuitry, or communications system is used with telecommunications service in violation of any of the provisions in this tariff, the Telephone Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or systems or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such use has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in termination of the customer's service until such time as the customer complies with the provisions of this tariff.
8. Customer-provided terminal equipment or communications systems which serve a location which the Telephone Company considers impracticable to serve because of hazard or inaccessibility may be connected with telecommunications service only by means of connecting equipment.
9. The customer indemnifies and saves the Telephone Company harmless against claims for infringement of patents arising from combining such customer provided, customer premise inside wire, equipment or system with, or using it in connection with, facilities of the Telephone Company; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.
10. The customer must provide all the electrical power necessary for the operation of customer-provided communications systems equipment and associated lines to the point of interconnection.

11. Terminal equipment and/or protective circuitry lawfully connected directly to the Telephone Company's exchange facilities in each exchange as of October 17, 1977, where compatible, may continue to be connected for the life of the equipment in the same or a compatible exchange without being registered, unless subsequently modified.

12. Entire PBX or key telephone systems, including their equipment, premise wiring and protective apparatus (if any), lawfully connected directly to the Telephone Company's exchange facilities, in each exchange, as of June 1, 1978, may continue to be connected for the life of the equipment in the same or a compatible exchange without being registered, unless subsequently modified. Additions to such system may be made up to July 1, 1979, without registration of any additional equipment involved provided that:

(i) any equipment added is the type directly connected to the telephone network as of October 17, 1977.

Changes to PBX or key telephone systems covered in this paragraph may only be made by the manufacturer of the PBX or key telephone system, or a duly authorized agent of the manufacturer.

13. Terminal equipment and protective circuitry of a type lawfully connected directly to the Telephone Company's exchange facilities in each exchange as of October 17, 1977, where compatible, may be connected thereafter in the same or compatible exchange until July 1, 1979, at which time all terminal equipment and protective circuitry covered in paragraph 11. above, must be registered in accordance with the FCC Rules and Regulations.

13a. PBX or key telephone systems of a type lawfully connected directly to the Telephone Company's exchange facilities in each exchange as of October 17, 1977, where compatible, may be connected after June 1, 1978, in the same or compatible exchange until July 1, 1979, at which time all PBX or key telephone systems covered in paragraph 12. above, must be registered in accordance with the FCC Rules and Regulations.

- 13a. Changes to PBX or key telephone systems covered in this paragraph may only be made by the manufacturer of the PBX or key telephone system, or a duly authorized agent of the manufacturer.
14. Terminal equipment, protective circuitry, and PBX or key telephone systems, or a type not lawfully connected directly to the Telephone Company's exchange facilities in each exchange on October 17, 1977, where compatible, may be directly connected after July 1, 1979, in the same or a compatible exchange only if the customer-provided terminal equipment, protective circuitry or PBX or key telephone system has been registered in accordance with the FCC Rules and Regulations.
- 14a. PBX or key telephone systems of a type lawfully connected directly to the Telephone Company's exchange facilities in each exchange as of October 17, 1977, or registered in accordance with the FCC Rules and Regulations, and are presently connected to the exchange facilities by protective apparatus, may remove such protective apparatus and connect directly if the following conditions are met:
- (i) All equipments in the system are of a type directly connected to the telephone network as of October 17, 1977, or are registered in accordance with the FCC Rules and Regulations.
15. Terminal equipment not registered nor grandfathered in accordance with the FCC Rules and Regulations may be connected to the network pursuant to the tariff provisions in effect prior to October 17, 1977, requiring the use of a network control signaling unit and connecting arrangement, or customer-provided protective circuitry registered in accordance with the FCC Rules and Regulations.

B. CUSTOMER-PROVIDED TERMINAL EQUIPMENT

1. Data Transmitting and/or Receiving Terminal Equipment

Customer-provided data transmitting and/or receiving terminal equipment which involves direct electrical connection to the facilities furnished by the Telephone Company may be used with such facilities for telecommunications service either through a data set, or a data access arrangement, provided by the Telephone Company as described in a. and b. respectively. Use of such service is on a two-point basis.

a. Data Set

Where the customer elects to use a customer-provided data transmitting and/or receiving terminal equipment with a data set furnished by the Telephone Company the data set shall perform the functions of:

- (1) Network control signaling,

1. Data Transmitting and/or Receiving Terminal Equipment (Cont'd)

a. Data Set (Cont'd)

- (2) Conditioning the data signals generated by the customer-provided equipment to signals suitable for transmission by means of Telephone Company facilities and
- (3) Conditioning signals transmitted by means of Telephone Company facilities to data signals suitable for reception by customer-provided equipment.

b. Data Access Arrangement

Where the customer elects to use customer-provided data transmitting and/or receiving terminal equipment through a data access arrangement.

- (1) The customer shall furnish the equipment which performs the functions of data signal conditioning referred to under B.1.a. (2) and B.1.a. (3) above.
- (2) The Telephone Company shall furnish the data access arrangement which provides a protective connecting arrangement for use with the network control signaling unit. In lieu of the connecting arrangement the Telephone Company may provide an arrangement for use with the network control signaling unit to identify a central office line and protective facilities and procedures to determine compliance with criteria set forth in (3) following.
- (3) To protect the telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, the customer-provided data transmitting equipment must comply with the following minimum network protection criteria:

a. Direct Electrical Connection

Customer-provided voice transmitting and/or receiving terminal equipment which involves direct electrical connection to the facilities furnished by the Telephone Company for telecommunications service may be used with such facilities in accordance with (1) and (2) following, except where otherwise specified in this tariff:

- (1) The connection shall be made through a network control signaling unit and a connecting arrangement as specified in the "Rules and Regulations Applying to All Customer's Contracts" section of this tariff and
- (2) To protect the telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, the customer-provided voice transmitting equipment must comply with the following minimum network protection criteria:
  - (a) To prevent excessive noise and crosstalk in the network, it is necessary that the long term average power of the applied signal during established connections not exceed 12db below one milliwatt at the serving central office. To insure that this limit is not exceeded, the power of the signal which may be applied by the customer-provided equipment to the Telephone Company interface located on the customer's premises shall not exceed 7db below one milliwatt averaged over any three second interval.
  - (b) To protect other services, it is necessary that the signal which is applied by the customer-provided equipment to the Company interface located on the customer's premises meet the following limits.

CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMER

B. CUSTOMER-PROVIDED TERMINAL EQUIPMENT (Cont'd)

5. Connection of F.C.C. Registered Equipment (Cont'd)

(a) (Cont'd)

(3) Customers desiring to connect terminal equipment, protective circuitry, or data equipment to the Telephone Company's exchange facilities, before such connection is made, are required to notify the Telephone Company to inform the Telephone Company of:

(i) The F.C.C. Registration Number, and

(ii) The Ringer Equivalence Number of the registered terminal equipment, protective circuitry, and

(iii) The line number or directory number to which the terminal equipment, protective circuitry, or data equipment, will be connected.

(iv) Other such information that may be required to assure the compatibility of the connected equipment.

The telephone company will maintain a written record of the information provided by the customer. A customer who fails to notify the Telephone Company of such connection or is otherwise in violation of the F.C.C. Rules and Regulations will be subject to disconnection of said equipment.

(4) Customers shall give notice to the Telephone Company upon final disconnection of customer-provided terminal equipment, protective circuitry data equipment, or communications systems from the particular line or directory number (s).

D. U.S. GOVERNMENT EXECUTIVE DEPARTMENTS AND AGENCIES

Except as provided for elsewhere in this tariff, equipment of a department or agency of the Executive Branch of the U.S. Government used for the purpose of disguising or concealing the contents or meaning of communications may be connected to Telephone Company facilities subject to the regulations and conditions stated below:

1. The head of the department or agency whose equipment is to be connected, or his authorized representative, shall notify the Telephone Company in writing that such connection is necessary to safeguard official information which requires protection in the interests of national defense, or other confidential official information disclosure of which to unauthorized persons would be detrimental to the public interest.
2. The connection shall be made by means of connecting equipment or arrangements furnished by the Telephone Company.

E. POWER PIPE LINE AND RAILROAD COMPANIES

Except as provided for elsewhere in this tariff, the connection of customer-provided communications systems will be in accordance with the following provisions.

1. Facilities of an electric power company or oil products or natural gas pipe line company, or railroad company, provided primarily to communicate with points located along a right-of-way (including premises of such company anywhere in cities, towns, or villages along the right-of-way) owned or controlled by such company will be connected with facilities controlled by such company will be connected with facilities furnished by the Telephone Company to the same customer, subject to the regulations and conditions stated in I.1 to 6, inclusive, in addition to those specified in A. above. Such connections will be made by means of switching or connecting equipment furnished by the Telephone Company.

E. POWER, PIPE LINE AND RAILROAD COMPANIES (Cont'd)

2. Such customer telephone facilities may be connected to private branch exchange switchboards or other telephone switching or terminal equipment located in the same or different local service areas, for communication with stations and private line facilities associated with said switching or terminal **equipment**.

(D)

(D)

3. Facilities of the Telephone Company will be connected to telecommunications service with telephone facilities of the customer.

(a) (i) in cases of emergency involving safety of life or property,

(ii) in addition, in cases of calls originated by railroad employees under circumstances indicating need for prompt action to secure or maintain the safety, continuity, or reliability of railroad service to the public and related to the movement of passengers, mail, property, or equipment by railroad rights-of-way, structures, or equipment.

(b) where the customer's facilities serve locations where it is impracticable because of hazard or inaccessibility for the Telephone Company to furnish its facilities, or

(c) where, during an interim period, the customer has arranged for replacement of said customer's facilities with facilities of the Telephone Company.

4. Telephone circuits of the customer will be connected for exchange or message toll service only through manual switching equipment, or an attendant's position of dial PBX equipment. Such equipment or position may be located at either or both ends of the customer's circuit.

5. Connection of a customer's telephone circuit as specified in 3.(a) (ii), (b), or (c) preceding may be established at either end of such circuit, but shall not be established at both ends simultaneously.

E. POWER, PIPE LINE AND RAILROAD COMPANIES (Cont'd)

6. Facilities of the Telephone Company, when connected with facilities of the customer, will not be used for communications of other than the customer, except that such facilities may be used for the communications of, and be connected with facilities furnished by the Telephone Company to, other companies which:

- (a) are operated with the customer as parts of an integrated electric power, oil, oil products, or natural gas system or railroad system under direct or common ownership or control, or
- (b) own or operate electric power or pipe line or railroad system jointly with the customer, or
- (c) own or operate electric power or pipe line or railroad facilities interconnected with those of the customer.

Telephone Company facilities when so connected may be used for telecommunications of other companies specified in (a), (b), or (c) preceding, including calls originated by employees of such companies, only under the circumstances set forth in 1.3.(a) above.

F. CONNECTION WITH CUSTOMER-PROVIDED ALARM DETECTION AND REPORTING EQUIPMENT

1. Regulations

(a) General

- (1) Connection of customer-provided alarm detection and reporting equipment with the facilities of the Telephone Company shall be made through an alarm coupler. The alarm coupler consists of one-way interface unit which, in response to a signal from the customer's device, seizes the telephone lines, transmits dial pulses corresponding to a predetermined telephone number (all predetermined numbers will be non Telephone Company numbers) and a prerecorded voice alarm report originated by the customer's device to the line and disconnects at the end of the report.

F. CONNECTION WITH CUSTOMER-PROVIDED ALARM DETECTION AND REPORTING  
EQUIPMENT (Cont'd)

1. Regulations (Cont'd)

(a) General (Cont'd)

- (2) The alarm coupler is furnished for use in connection with telephones associated with individual lines or dial PBX and Centrex station lines.
- (3) The alarm coupler is furnished only for the purpose of reporting a condition or result of an operation of customer-provided equipment with which it is associated and shall not be used to connect any other customer-provided equipment with Telephone Company facilities.
- (4) Customer-provided alarm detection and reporting equipment connected through an alarm coupler shall not be used to interconnect any line or channel of the Telephone Company with any other line or channel of the Telephone Company or any other person.
- (5) The operating characteristics of the customer-provided alarm detection and reporting equipment shall be such that the equipment will function properly with the facilities of the Telephone Company and will not interfere with any of the services offered by the Telephone Company. Upon notice from the Telephone Company that the equipment of the customer is causing or is likely to cause hazard or interference, the customer shall make such changes as may be necessary to remove or prevent such hazard or interference.
- (6) Use of the customer-provided alarm detection and reporting equipment is permitted only on the condition that the liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission, or failures or defects in the Telephone Company facilities occurring in the course of furnishing service or other facilities and not caused by the negligence of the Telephone Company in failing to maintain proper standards of

(6) maintenance of operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, or error defect in transmission, or failure of defect in the Telephone Company facilities occurs.

G. NETWORK PROTECTION CRITERIA

To protect the telecommunications network and the services furnished to the general public of the Telephone Company from harmful effects, the signal from the customer-provided communications system to the long distance message telecommunications network must comply with the following minimum network protection criteria:

1. Where the customer-provided communications system is connected with long distance message telecommunications service through a connecting arrangement and network control signaling unit, the customer-provided communications system must comply with the following criteria:

(a) To prevent excessive noise and crosstalk in the network, it is necessary that the power of the signal at the central office not exceed 12db below one milliwatt when averaged over any three second interval. To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment to the company interface located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.

EFFECTIVE:  
November 7, 1992

GENERAL EXCHANGE TARIFF

UNITED TELEPHONE COMPANY  
OF MISSOURI

Original Page 26

CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMER

G. NETWORK PROTECTION CRITERIA (Cont'd)

1. (Cont'd)

(b) to protect other services it is necessary that the signal which is applied by the customer-provided equipment to the Company interface located on the customer's premises meets the following limits:

- (1) The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18db below the power of the signal as specified in K.1.(a) above.
- (2) The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16db below one milliwatt.
- (3) The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24db below one milliwatt.
- (4) The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36db below one milliwatt.
- (5) The power in the band above 40,000 Hertz shall not exceed 50db below one milliwatt.

(c) to prevent the interruption or disconnection of a call, or interference with network control signalling, it is necessary that the signal applied by the customer-provided equipment to the Company interface located on the customer's premises at no time have energy solely in the 2450 to 2750 Hertz Band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in 800 to 2450 Hertz band.

G. NETWORK PROTECTION CRITERIA (Cont'd)

2. Where the customer-provided communications system is connected with long distance message telecommunications service through customer-provided equipment which affects such connections externally to a network control signaling unit by means of an acoustic or inductive connection for transmitting and/or receiving the customer-provided communications system must comply with the following criteria:

(a) to prevent excessive noise and crosstalk in the network it is necessary that the power of the signal which is applied by the customer-provided equipment to the network control signaling unit located on the customer's premises be limited so that the signal power at the output of the network control signaling unit (i.e., at the input of the Company line) does not exceed 9db below one milliwatt when averaged over any three second interval.

(b) to protect other services it is necessary that the signal which is applied by the customer-provided equipment to the network control signaling unit located on the customer's premises meet the following limits at the output of the network control signaling unit (i.e., at the input to the Company line):

(1) The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18db below the power of the signal as specified in K.1.(a) above.

(2) The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16db below one milliwatt.

(3) The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24db below one milliwatt.

(4) The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36db below one milliwatt.

(5) The power in the band above 40,000 Hertz shall not exceed 50db below one milliwatt.

G. NETWORK PROTECTION CRITERIA (Cont'd)

2. (Cont'd)

(c) to prevent the interruption or disconnection of a call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the network control signaling unit located on the customer's premises be limited so that the signal at the output of the network control signaling unit (i.e., at the input to the Company line) shall at no time have energy solely in the 2450 to 2750 Hertz band. If there is signal power at the output of the network control signaling unit the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

H. CONNECTION OF CUSTOMER OWNED AND MAINTAINED RADIO - TELEPHONE SYSTEMS TO THE TELEPHONE COMPANY FACILITIES.

1. General

(a) Customer owned and maintained Radio Systems will be interconnected with telephone exchange and long distance service provided by the telephone company for interchange of telephone voice messages, subject to the provisions of this and other sections of the General Exchange Tariff and the rules and regulations of the Public Service Commission of this State.

(b) Interconnecting service will be provided to customer owned and maintained Radio Systems if the customer agrees to furnish the telephone company: (a) a copy of his Federal Communication Commission license; (b) not to allow any radio units other than his to be interconnected with telephone company equipment and facilities; and (c) to notify the telephone company within fifteen (15) days of any changes in the number of units connected to his Radio System.

TO THE TELEPHONE COMPANY FACILITIES (Cont'd)

3. Flat Rate Interconnecting Service

(a) Interconnecting service is furnished to customers who own and maintain Radio Systems for their radio units at a flat monthly charge per radio unit which covers all local message use including messages over Extended Area Service facilities when such service is furnished at the exchange of connection.

(b) See Section 32 for monthly charges.

4. Special Voice Connecting Arrangements

(a) Monthly rates set forth in this tariff contemplate use of a standard voice connecting arrangement (including switch hook control key). When at a customer's request or due to special requirements for satisfactory service, special equipment or arrangements are necessary, such may be provided subject to provisions of the General Exchange Tariff "Special Equipment and Assemblies" Section.

I. CONNECTION WITH CUSTOMER-OWNED VOICE RECORDING EQUIPMENT

Customer-owned voice recording equipment for the recording of telephone conversations may be used in connection with the facilities of the Telephone Company subject to the following conditions:

1. Connection of customer-owned voice recording equipment with the facilities of the Telephone Company shall be made only through recorder-connector equipment which contains a device automatically producing a distinctive recorder tone that is repeated at intervals of approximately fifteen seconds when the recording equipment is in use. The distinctive recorder tone described is not required:

a. When used by a Federal Communications Commission licensed broadcast station customer for recording of two-way telephone conversations solely for broadcasting over the air. (Filed in compliance with Memorandum Opinion and Order of Federal Communications Commission adopted December 13, 1972.)

CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMER

I. CONNECTION WITH CUSTOMER-OWNED VOICE RECORDING EQUIPMENT (Cont'd)

5. Connection may be made through portable recorder-connector equipment as provided in B.5.(a) of this Section. The portable recorder-connector equipment shall be connected with the telephone line through jacks on each line or at each station used for recording purposes, except that where recording is done at a cord switchboard, a portable jack box may be used.
6. Telephone service furnished by the Telephone Company is not represented as adapted to the recording of telephone conversations by means of voice recording equipment. The use of customer-owned voice recording equipment in connection with the facilities of the Telephone Company, is permitted only on the condition that the liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmissions, or failures or defects in the recorder-connector equipment, occurring in the course of furnishing service or other facilities, and not caused by the negligence of the customer, or of the Telephone Company in failing to maintain proper standards of maintenance and operation, and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, or error or defect in transmission, or failures or defects in the recorder-connector equipment occurs.
7. The operating characteristics of the customer-owned voice recording equipment shall be such as not to interfere with any of the services offered by the Telephone Company. Upon notice from the Telephone Company that the equipment of the customer is causing, or is likely to cause, hazard or interference, the customer shall make such changes as may be necessary to remove or prevent such hazard or interference. The customer indemnifies and saves the Telephone Company harmless against

claim for libel, slander or infringement of copyright arising from the improper use of material transmitted over its facilities and recorded; against claims for infringement of patents arising from combining with, or using in connection with, facilities of the Telephone Company, apparatus or systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.

J. CONNECTION WITH CUSTOMER-PROVIDED CUSTOMER PREMISE INSIDE WIRE

1. Effective January 1, 1987, the installation and maintenance of simple and complex inside wire will become deregulated. As of this date, the customer will assume responsibility for the installation and maintenance of his inside wiring subject to the conditions contained herein.
2. The connection of customer-provided, customer premise inside wire will be in accordance with the following regulations:
  - a. Customer premise inside wire provided by the customer shall be connected to the access line service furnished by the Company at the demarcation point, the network interface device if one is present, or at the point of interconnection between the Telephone Company communications facilities and the equipment, protective apparatus, or wiring at a customer's premise.

J. CONNECTION WITH CUSTOMER-PROVIDED CUSTOMER PREMISE INSIDE WIRE  
(Cont'd)

2. (Cont'd)

- c. In the event the customer provides, maintains or attempts to provide or maintain customer premise inside wire or alters, installs, connects, refigures or removes any customer premise inside wire, the customer assumes the risk of loss of service, damage to property, or death or injury of the customer or the customer's agent. The customer will save the Company harmless from any and all liability, claims, or damage suits arising out of the customer's customer premise inside wire activity.
- d. In those instances where the Company makes a repair visit to the customer's premise and the service difficulty or trouble is found to be a result of customer-provided premise wire that is not installed in accordance with the technical standards for such wire, the customer shall be responsible for the payment of the Trouble Isolation Charge found in Section 18 of the tariff.

CONSTRUCTION AND INSTALLATION CHARGES

I. GENERAL

- A. The charges and regulations specified in this section apply in addition to service connection and move charges which are specified in other sections of **this tariff**, or which may apply only in connection with a particular class of service, equipment or facility. (CT)
- B. All charges and regulations as **specified in** other sections of this tariff provide for the furnishing of service or channels when adequate and suitable facilities and equipment are available or where the construction or installation of the necessary facilities and equipment does not involve an unusual investment and/or expense. (CT)
- C. When construction is necessary to provide facilities for a new applicant, or present applicants in a new location, or a present applicant that requested a better grade of service other than their present service, the Company reserves the right to require each applicant to pay all or a portion of the construction and installation charges and/or contract for service beyond the initial minimum period in an arrangement agreeable to the Telephone Company, the Applicant, and the Commission, that shall assist in defraying construction costs beyond those of a prudent investment by the Telephone Company as specified herein.

I. GENERAL

- A. The charges and regulations specified in this section apply in addition to service connection and move charges which are specified in other sections of the General or Local Exchange Tariff, or which may apply only in connection with a particular class of service, equipment or facility.
- B. All charges and regulations as specified in the Local Exchange Tariff for each exchange or in other sections of this tariff provide for the furnishing of service or channels when adequate and suitable facilities and equipment are available or where the construction or installation of the necessary facilities and equipment does not involve an unusual investment and/or expense.
- C. When construction is necessary to provide facilities for a new applicant, or present applicants in a new location, or a present applicant that requested a better grade of service other than their present service, the Company reserves the right to require each applicant to pay all or a portion of the construction and installation charges and/or contract for service beyond the initial minimum period in an arrangement agreeable to the Telephone Company, the Applicant, and the Commission, that shall assist in defraying construction costs beyond those of a prudent investment by the Telephone Company as specified herein.

II. RULES FOR EXTENSION OF THE DISTRIBUTING PLANT

- A. WITHIN THE INITIAL RATE AREA, the Telephone Company will extend its distributing plant to furnish exchange service to any applicant without requiring a construction charge, subject to the regulations as specified in Section I above.

II. RULES FOR EXTENSION OF THE DISTRIBUTING PLANT (Cont'd)

**B.** *The* Telephone Company will extend its distributing plant to provide regular exchange classes of service to applicants in areas where facilities are not available, subject to the conditions and regulations as specified in the "Mileage" sections of this tariff. (DT)

1. Where service is requested in subdivision, as described in Missouri Public Service Commission's 4 CSR 240-30.020, all charges for facilities will be determined as prescribed in the "Underground Service Facilities" section of this tariff.

2. When in the judgement of the Telephone Company, the revenues derived from the services requested are appropriate for the investment incurred, the Telephone Company may elect to waive Advance Rental Charges

3. Service

a. Basic Service

One (1) mile of facilities to provide the minimum class of service will be provided at no charge.

b. Individual Line and Upgrades

One (1) mile of new facilities or where facilities are working at full capacity, two (2) miles of circuit or equivalent on existing facilities, will be provided at no charge.

Advance rental payment will be charged at a rate of \$50.00 per 1/10 route mile, not to exceed \$1,500.00, for new facilities provided in excess of the above distances. All costs beyond the above will be absorbed by the company.

CONSTRUCTION AND INSTALLATION CHARGES

II. RULES FOR EXTENSION OF THE DISTRIBUTING PLANT (Cont'd)

B. (Cont'd)

6. For service furnished jointly with a connecting company, the rates for facilities within the connecting company exchange are the rates of the connecting company. In such cases any construction or installation charges or long-term contracts required by the connecting company will be applied as a requirement of the connecting company.
7. If an applicant for service is so located in relation to existing and proposed permanent construction that it is necessary to utilize a private right-of-way to furnish necessary service or channels, and the Telephone Company is unable to obtain the required right-of-way without cost, the applicant for service may be required to pay the entire costs involved in securing such private right-of-way.

III. FACILITIES ON PRIVATE PROPERTY

- A. Pole leads and circuits or other facilities whether furnished at the expense of the company or the customer, are maintained by the company and ownership therein is vested in the Telephone Company or, in the case of pole leads, ownership may be vested in some other company with whom the Telephone Company has an attachment, leasing or other joint use agreement.
- B. The Telephone Company will furnish and maintain poles and associated fixtures or underground buried facilities on private property, provided suitable right-of-way can be obtained, when such poles or facilities are to be used to carry circuits serving more than one customer, the ownership of such facilities being vested in the Telephone Company.

The customer shall furnish suitable right-of-way to the Telephone Company without charge to the Telephone Company.

IV. SPECIAL CONSTRUCTION

A. When a special type of construction is desired by a customer, such as when underground service connections are desired in places where aerial drop wires are regularly used to reach customer's premises, an additional charge may be made, equal to the difference between an estimated cost of the special type of construction and the average cost of standard construction. This is not applicable to new subdivisions where 4 CSR 240 - 30.020 applies. **Additional examples of special types of construction include but are not limited to:**

- **When the Telephone Company has no other requirement for the facilities requested.**
- **When the Telephone Company provides service using a type of facility, or via a route, other than that which the Telephone Company would normally utilize in order to provide services for the customer.**
- **When the Telephone Company provides a greater quantity of facilities than that which the Telephone Company would otherwise provide.**
- **When it is requested that construction be expedited resulting in added cost to the Telephone Company.**
- **When the Telephone Company provides facilities which involve excessive or unreasonable costs (encountering natural or other barriers such as, but not limited to, lakes, rivers, rocky terrain, gas and oil fields, limited highways, bridges, dams or concrete/asphalt).**

(T)

(T)

V. TEMPORARY SERVICE

A. Where plant construction is required to provide exchange facilities to furnish service temporary in character, or which may or may not remain in a fixed location for any considerable length of time, the customer will be required to pay in advance the entire cost of new construction necessary to establish service plus the estimated cost of removal of facilities, if to be removed upon service termination, and the provisions for advance payments contained in this section will not apply.

DIRECTORY LISTINGS

I. GENERAL

- A. The rates and regulations for directory listings in this section apply only to the alphabetical directory containing the regular alphabetical list of names of customers and joint users.
- B. The alphabetical list of names of customers and joint users is designed solely for the purpose of informing calling parties of the telephone numbers of customers and those entitled to use customer's service, and special prominence or arrangement of names is not contemplated.
- C. The Telephone Company limits the length of any listing to one line in the directory by the use of abbreviations when the clearness of the listing or the identification of the customer or joint user is not impaired thereby. When the use of abbreviations impairs the clearness of the listing or the identification of the customer or joint user such additional lines are used as may be required in the judgment of the Telephone Company without additional charge.
- D. Listings must conform to the Telephone Company's specification with respect to its directories.
- E. Listings are regularly provided in connection with all classes of exchange service, except public telephone service. Ordinarily, listings are automatically included in the directory. However, a listing may be omitted upon request of a customer when in the judgment of the Telephone Company the omission of the listing is warranted by the circumstances of the particular case. (See II. C, following for rate regulations).
- F. The length of the contract period for directory listings, where the listing actually appears in the directory, is the directory period except as provided in the Termination of Contracts section of this tariff.
- G. Individuals, person, or firms whose names are associated with a telephone number appearing in the telephone directory or are a part of Directory Assistance are also responsible for paying for the telephone service and/or any outstanding debt associated with the telephone number. In a similar manner, credit history is established for the name associated with the service.

C. **Non-Published Telephone Number**

(CT)

Some customers request their telephone numbers to be omitted from the directory and the Company's information records. Such requests, when presented may be fulfilled through the assignment of a **Non-Published telephone number** subject to the regulations outlined below.

(CT)

1. Incoming calls to **Non-Published telephone numbers** will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. The acceptance by the Company of the Customer's request to furnish a **Non-Published telephone number** does not create any relationship or obligation, direct or indirect, to any person other than the customer.

(CT)

(CT)

2. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a **Non-Published telephone number** in the directory or disclosing said number to any person shall attach to the company. The customer indemnifies and saves the Company harmless against any and all claims from damages caused or claimed to have been caused, directly or indirectly, by the publication of a **Non-Published telephone number** or the disclosing of said number to any person.

(CT)

(CT)

3. Parties with Non-Published **telephone numbers** forfeit the privacy afforded by the service to the extent that the telephone number is identified through activation of a Call Trace procedure whereby the name and address of the subscriber will be provided to the authorized law enforcement agency upon request of the agency.

(CT)

4. Rates for **Non-Published telephone numbers** are found on **page 7** of this section. Rates are not applicable when the service involves data terminals where there is no voice use contemplated.

DIRECTORY LISTINGS

II. PRIMARY LISTINGS (Cont'd)

REC'D MAY 25 2004

C. Private telephone numbers (non-published): some customers request their telephone numbers to be omitted from the directory and the Company's information records. Such requests, when presented may be fulfilled through the assignment of a private telephone number (non-published) subject to the regulations outlined below.

1. Incoming calls to private telephone numbers (non-published) will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. The acceptance by the Company of the Customer's request to furnish a private telephone number (non-published) does not create any relationship or obligation, direct or indirect, to any person other than the customer.

2. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a private telephone number (non-published) in the directory or disclosing said number to any person shall attach to the company. The customer indemnifies and saves the Company harmless against any and all claims from damages caused or claimed to have been caused, directly or indirectly, by the publication of a private telephone number (non-published) or the disclosing of said number to any person.

3. *Parties with non-published or non-listed numbers forfeit the privacy afforded by the service to the extent that the telephone number is identified through activation of a Call Trace procedures whereby the name and address of the subscriber will be provided to the authorized law enforcement agency upon request of the agency.*

(N)  
|

DIRECTORY LISTINGS

II. PRIMARY LISTINGS (Cont'd)

D. Non-Listed Telephone Number

Non-Listed telephone numbers are not listed in the alphabetical section of the Company's directory, but are maintained on directory assistance records and will be furnished upon the request of the calling party. The acceptance by the Company of the subscriber's request to furnish a Non-Listed telephone number does not create any relationship or obligation, direct or indirect, to any person other than the subscriber.

The telephone number, name and address of the calling party may be displayed at a Public Safety Answering Point (PSAP) located on the premises of a customer subscribing to 911 Service on a call-by-call basis only for the purpose of responding to emergency calls from a Non-Listed number.

Further, when a call is placed from a Non-Listed telephone number, the calling name and number may be disclosed, subject to technical limitations, if the called party has the necessary equipment for receiving and/or disclosing names and numbers associated with incoming calls. The calling number will not be disclosed if the calling party blocks delivery of the name and number via per-call blocking or if the calling line is equipped with per-line blocking.

In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a Non-Listed telephone number in the directory shall attach to the Company. The subscriber indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a Non-Listed telephone number.

DIRECTORY LISTINGS

III. REGULAR ADDITIONAL (OR EXTRA) LISTINGS

- A. Business additional listings may be the names of partners or members of the firm, if the customer or joint-user is a partnership or firm; the names of officers of the corporation if the customer or joint-user is a corporation; and for any business establishment, the names of associates or employees of the customer or joint-user.

Business additional listings may be bonafide names of firms or corporations which the customer or joint-user owns or controls or is duly authorized to represent. Listings which are designed primarily to give publicity to a commodity or service are not accepted.

- B. Residence additional listings may be the names of members of the customer's family or of other persons residing in the customer's household.
- C. In connection with Payphone Line Service, residence additional listings are allowed at additional listing rates in the names of permanent guests or tenants at that location. Business additional listings are furnished under the same regulations as specified in paragraph III-A above.
- D. Ordinarily all additional listings must be of the same address and telephone number as the primary listing, except, as provided below for alternate listings. However, when in the opinion of the Telephone Company it appears necessary as an aid to the use of the directory and provided satisfactory service can be furnished, a listing may be permitted under the address of a private branch exchange telephone, or extension telephone, installed on premises of the customer but at an address different from that of the switchboard, or main telephone, using the telephone number of the primary listing.
- E. Regular additional listings are furnished for the rates found on **page 7 of this section.** (CT)

DIRECTORY LISTINGS

III. REGULAR ADDITIONAL (OR EXTRA) LISTINGS (Cont'd)

- F. Additional listing charges date from the time the listing is posted on the information records. Information records are posted at the time application for the listing is made or at any date the customer may desire.

IV. SPECIAL TYPES OF EXTRA LISTINGS

A. Alternate Listings

1. Listing of an alternate telephone number to be called in case no answer is received at the primary number or indicating alternate telephone to be called on "Nights, Sundays, and Holidays" in preference to the primary number is permitted for customers to all classes of service. A phrase directing the method of calling when a private branch exchange operator is not on duty and giving the number to call may be provided as an alternate listing.
2. The alternate number may be that of a service not under contract with the customer in connection with whose name it appears. In such a case the consent of the customer to the alternately listed service must be obtained for the alternate listing.
3. The monthly rate for each business or residence alternate listing, including the directive note, is found on **page 7 of this section.**

(CT)

B. Duplicate Listings

1. Duplicate Listings, i.e., listings of abbreviated names, names which are commonly spelled in more than one way and rearrangements of names, are permitted when, in the opinion of the Telephone Company, they are necessary for the proper identification of the customer and are not desired to obtain a preferential position in the directory or for advertising purposes.

DIRECTORY LISTINGS

V. DUAL-NAME LISTINGS (Cont'd)

- c. Dual-name listings are available only for residence subscribers.
- d. Dual-name listings may be provided as the primary listing at no monthly recurring charge for the addition of the second name to the listing.
- e. Dual-name listings may be provided as an additional listing at the customer's option at the regular additional listing rate.
- f. A service charge as specified in Section 30 applies for:
  - (1) Changing a primary single-name directory listing to a primary dual-name directory listing.
  - (2) Changing the primary or additional dual-name directory listing once established.
  - (3) Changing an additional dual-name directory listing to a primary dual-name directory listing.
- g. No nonrecurring charge applies when the dual-name listing is established with the initial establishment of service or when a change in an existing listing is requested on an order for which service charges are otherwise applicable.

VI. AUXILIARY LISTINGS

***Auxiliary listings, which provide supplemental business or residence information, will be provided without charge upon customer request when the number of auxiliary listings requested does not exceed the number of access lines billed under a single bill. If the auxiliary listing uses the same name as the primary listing, the primary listing and the auxiliary listing must be in the caption together. Auxiliary listings may not be used to reprint the main telephone number under a different name. If an auxiliary listing is published more than once, the second listing will be charged at the rate for an additional listing.***

VII. VANITY LISTINGS

- a. Where available, a subscriber may request to have the assigned telephone number published in the telephone directory in upper case alpha form, i.e., "333-THIS", rather than 333-8447. Use of Vanity Listings is not exclusive to any single subscriber. The letters "Q" and "Z" are not available nor may the "#" or "\*" symbols be used with this service. The numbers "0" or "1" may not be used to represent the letters "O" or "I", respectively, in a Vanity Listing.
- b. Prior to establishing a Vanity Listing, the Company reserves the right to require, when necessary in its sole discretion, satisfactory evidence from the subscriber that the subscriber is authorized to use any trade name, business name, or any other name or term, requested by the subscriber, which is copyrighted or otherwise reserved.
- c. Provisioning of a Vanity Listing is based upon the current availability of that telephone number. The Company reserves the right to exclude certain numbers or blocks of numbers from assignment, and will determine the availability criteria in its sole discretion. No customer waiting lists will be maintained. The Company reserves the right to reject any listing or number, which in its sole discretion, may be considered objectionable or would tend to delay or impede the use of the directory.
- d. The Company will not be a party to any controversy or conflict between customers as a result of the Vanity Listing.
- e. The customer shall have no property right in the Vanity Listing, and the number shall remain the property of the Company. The Company reserves the right to change the Vanity Listing in its sole discretion. The Company is not liable for any kind of monetary or damage claims due to errors, omissions, or customer problems associated with Vanity Listings.
- f. Vanity Listings may be listed in the Company directories white pages at the rates provided in this Section. Customers wanting the Vanity Listing will be charged the Vanity Listing rate in addition to the applicable nonrecurring rates. Customers wanting the numeric equivalent of the Vanity Listing to also be listed **as their primary listing** will **not** be charged an Additional Listing rate in addition to the applicable nonrecurring rates **but will be assessed the appropriate nonrecurring rate if the numeric equivalent is added by a subsequent order**. When listed, the numeric equivalent of the Vanity Listing will immediately follow the alpha listing in the directory. Only the numerical listing shall be available from Directory Assistance.

The numbers "0" or "1" may not be used to represent the letters "O" or "I", respectively, in a Vanity Listing.
- b. Prior to establishing a Vanity Listing, the Company reserves the right to require, when necessary in its sole discretion, satisfactory evidence from the subscriber that the subscriber is authorized to use any trade name, business name, or any other name or term, requested by the subscriber, which is copyrighted or otherwise reserved.
- c. Provisioning of a Vanity Listing is based upon the current availability of that telephone number. The Company reserves the right to exclude certain numbers or blocks of numbers from assignment, and will determine the availability criteria in its sole discretion. No customer waiting lists will be maintained. The Company reserves the right to reject any listing or number, which in its sole discretion, may be considered objectionable or would tend to delay or impede the use of the directory.
- d. The Company will not be a party to any controversy or conflict between customers as a result of the Vanity Listing.
- e. The customer shall have no property right in the Vanity Listing, and the number shall remain the property of the Company. The Company reserves the right to change the Vanity Listing in its sole discretion. The Company is not liable for any kind of monetary or damage claims due to errors, omissions, or customer problems associated with Vanity Listings.
- f. Vanity Listings may be listed in the Company directories white pages at the rates provided in this Section. Customers wanting the Vanity Listing will be charged the Vanity Listing rate in addition to the applicable nonrecurring rates. Customers wanting the numeric equivalent of the Vanity Listing to also be listed will be charged the Additional Listing rate in addition to the applicable nonrecurring rates. When listed, the numeric equivalent of the Vanity Listing shall immediately follow the alpha listing in the directory. Only the numerical listing shall be available from Directory Assistance.

GENERAL EXCHANGE TARIFF

**Embarq Missouri, Inc.  
d/b/a Embarq**

First Revised Page 1 (C)  
Cancels Original Page 1 (C)

EXPLANATION OF TERMS

**ACCESS LINE** – A telephone facility which permits access to and from both the customer's premises and the telephone exchange or serving central office.

**ACCESSORIES** – Denotes devices which are mechanically attached to, or used with the communicating devices furnished by the telephone Company and which are independent of, and not connected to the conductors in the communications part of the telecommunications system.

**ALTERNATING CURRENT SUPPLY** – Electrical energy which is used for the operation of bells and signal devices.

**BATTERY** – (See Direct Current Supply)

**BUILDING** – The term "same building" is to be interpreted to mean a structure under one roof or two or more structures which are connected by an enclosed passage way in which the wires or cables of the Telephone Company may be placed without exposure to outside electrical circuits or the weather. In no case can conduit be considered as an enclosed passage way. (See Premises)

**CALL NUMBER** - (See Telephone Number)

**CANCELLATION CHARGE** – (See Termination Charge)

**CENTRAL OFFICE** – A central office is an operating unit by means of which telephone communication is established between stations within a specified area. An essential characteristic of a central office is a switchboard and its associated apparatus to which telephone stations, by means of circuits known as customers' lines. Although from an accounting standpoint, local and long distance switchboards are considered as practically one, for the purpose of this tariff, the long distance unit and its associated apparatus should not be considered as a part of the central office.

**CENTRAL OFFICE DESIGNATION** – (See Telephone Number)

**CLASS OF SERVICE** – A description of main station service furnished customer in terms of:

Type of Rate: Flat or Measured Rate  
Primary Use: Business or Residence

EXPLANATION OF TERMS

REC'D JAN 26 2000

COMMUNICATING DEVICE - A device furnished by the Telephone Company consisting of a transmitter, receiver, network control signalling unit, and associated apparatus and so connected as to permit the sending and receiving of telecommunication messages.

COMMUNICATIONS SYSTEMS - Channels and other facilities which are capable, when not connected to telecommunication service, of 2-way communication between customer-provided terminal equipment or Company stations.

(RT)  
|  
(RT)

COMPANY STATION - (See Telephone Station)

COMPLEX BUSINESS SERVICE - Service in which more than two business access lines, data, WATS, foreign exchange or private lines terminate in telecommunication apparatus.

CONNECTING ARRANGEMENT - The term "connecting arrangement" denotes the equipment provided by the Telephone Company to accomplish the direct electrical connection of customer-provided facilities with the facilities of the Telephone Company, or of facilities of the Company with other facilities of the Company.

CONNECTING COMPANY - A corporation, association, firm or individual, owning and operating one or more central offices and with whom traffic is interchanged.

CONSTRUCTION CHARGE - A separate initial charge made for construction of polelines, circuits, facilities, etc., in excess of that contemplated under the rates quoted in the exchange tariff.

CONTIGUOUS - This refers to the geographical borders of the Petitioning Exchange and the Target Exchange's calling scope being in actual contact.

EXPLANATION OF TERMS

CORD SWITCHBOARD - (See Private Branch Exchange)

CORDLESS SWITCHBOARD - (See Private Branch Exchange)

CUSTOMER PREMISE INSIDE WIRE (CPIW) - Inside wire, including associated connectors, jacks, and miscellaneous materials located within a customer's premise and on the customer's side of the demarcation point to which terminal equipment can be connected for access to the network. CPIW can be provided by both simple and complex customers.

CUSTOMER/SUBSCRIBER - The individual, partnership, associate, corporation, or governmental agency who is furnished telephone service by the Company and is responsible for the payment of charges and compliance with the rules and regulations of the Company.

CUSTOMER-PROVIDED TERMINAL EQUIPMENT - Devices, apparatus and their associated wiring, provided by a customer, which are used with the network control signaling unit, data set or other station equipment furnished by the Telephone Company and does not include customer-provided communications system.

DATA ACCESS ARRANGEMENT - The term "data access arrangement" denotes a protective connecting arrangement for use with the network control signalling unit, or in lieu of the connecting arrangement, an arrangement for use with the network control signalling unit to identify a central office line and protective facilities and procedures to determine compliance with criteria set forth in the "Connections with Equipment or Facilities Provided by Customers" section of this tariff.

DEMARCATIION POINT OR INTERFACE - The point of interconnection between the Telephone Company communications facilities and the equipment, protective apparatus, or wiring at a customer's premises. The interface or demarcation point shall be located at the customer's side of the Telephone Company's protector, or the equivalent thereof in cases where a protector is not employed, as provided under the Company's standard operating practices; it shall be as close as feasible to where the access line enters the customer's premise. If a network interface device is present, the Telephone Company's facilities end at the customer's side of the device.

DIGITAL TRUNKING SERVICE - (DTS) is a digital intraexchange service furnished for use with PBX systems and appropriately equipped Key Systems and provides up to 24 digital channels within a single DS1 signal.

EXPLANATION OF TERMS

**DIRECT CURRENT SUPPLY** - Electrical energy for talking and signaling purposes, other than ringing, except in the case of intercommunicating systems, when direct current may be used for ringing the station bells.

**DIRECT ELECTRICAL CONNECTION** - A physical connection of the electrical conductors in the communications path.

**DIRECTORY LISTING** - The publication in the Telephone Company's directory of information relative to the customers' telephone numbers, by which telephone users are enabled to ascertain the telephone number of a desired station.

**EMBARQ LOCAL OPERATING COMPANY (a.k.a. Embarq LOC)** - The term used to describe Embarq Corporation's Incumbent Local Exchange Carrier (ILEC).

(N)  
(N)

**ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)**

- (a) Automatic Location Identification (ALI): A feature by which the name (business accounts only) and address associated with the calling party's telephone number (identified by ANI as defined below) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off-premise, etc) will be identified with the address of the telephone number at the main location.
- (b) Automatic Number Identification (ANI): A feature by which the calling party's ANI telephone number is forwarded to the E911 Control Office and to the PSAP's Display and Transfer Units.
- (c) Data Management System (DMS): A system of manual procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) and ALI features.

DIRECTORY LISTING - The publication in the Telephone Company's directory of information relative to the customers' telephone numbers, by which telephone users are enabled to ascertain the telephone number of a desired station.

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)

- (a) Automatic Location Identification (ALI): A feature by which the name (business accounts only) and address associated with the calling party's telephone number (identified by ANI as defined below) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off-premise, etc) will be identified with the address of the telephone number at the main location.
- (b) Automatic Number Identification (ANI): A feature by which the calling party's ANI telephone number is forwarded to the E911 Control Office and to the PSAP's Display and Transfer Units.
- (c) Data Management System (DMS): A system of manual procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) and ALI features.

OF MISSOURI

Original Page 5

EXPLANATION OF TERMS

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

- (d) Emergency Service Number (ESN): When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations, as well as the unique combinations of police, fire and ambulance or any other appropriate agencies responsible for providing emergency service in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Telephone Company. The customer will associate these ESN's with street address ranges or other mutually agreed upon routing criteria in the E911 serving area. The ESN's will be carried in the Data Management System (DMS) to permit routing of E911 calls to the primary and secondary PSAP's responsible for handling of calls from each telephone in the E911 serving area.
- (e) Enhanced 911 (E911) Control Office: The office providing tandem switching capability for E911 calls. It controls switching of ANI information to the PSAP and also provides the SR feature, standard ESS Speed Calling features, call transfer capability and certain maintenance functions for each PSAP.
- (f) Enhanced 911 Service Area: The geographic area in which the customer will respond to all E911 calls and dispatch appropriate emergency assistance.
- (g) Public Safety Answering Point (PSAP): An answering location for E911 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAP's respond first; Secondary PSAP's receive calls on a transfer basis only and generally serve as a centralized answering location for a particular type of emergency call. PSAP's are staffed by employees of a common bureau serving a group of such entities. This is CPE and it is the customer's responsibility to ensure it is compatible with the service(s) furnished by the Company.

EXPLANATION OF TERMS

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Cont'd)

- (h) Selective Routing (SR): A feature that routes an E911 call from a Central Office to the designated primary PSAP based upon the identified number of the calling party. It is the customer's responsibility to ensure the CPE selected to operate this feature is compatible with the service furnished by the Company.
- (i) Universal Emergency Number Service: A telephone exchange communication service for receiving telephone calls placed by persons in need of assistance who dial the number E911. Such calls are answered at PSAP's established and operated by the customer. The lines and equipment associated with the service arrangement for the answering, transferring, and dispatching of public emergency telephone calls are included.
- (j) Universal Emergency Number Service Customer: A municipality or other state or local governmental unit or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated within a defined geographic area to respond to public emergency telephone calls, at the minimum for police and fire service.

(RT)

EXCHANGE - A telephone system which provides for service within a specified area known as the "Exchange Area".

EXCHANGE AREA - The area within which the Telephone Company will furnish complete telephone service at the exchange rates applicable within that area.

EXCHANGE SERVICE - The general telephone service rendered in accordance with the **provisions in this tariff**. Exchange service is a general term describing as a whole, the facilities including a Telephone Company provided communication, together with the right to send and receive a specified or an unlimited number of local messages at charges in accordance with the provisions of **this tariff**. (CT)  
(CT)  
(CT)

- (a) Access Line: A telephone facility which permits access to and from both the customers premises and the telephone exchange or serving central office.

EXPLANATION OF TERMS

EXCHANGE SERVICE - (Cont'd)

(j) Public Service: A classification of telephone service or attended service established under tariff provisions for use at locations chosen or accepted by the Telephone Company as suitable and necessary for furnishing service to the general public.

EXCHANGE SWITCHING SERVICE - The classification of exchange service furnished to a service station.

EXCHANGE TELEPHONE - A telephone receiving exchange service.

EXTENSION BELL - An additional bell or gong on the same circuit and operating in connection with the bell at a telephone.

EXTENSION LINE - A circuit connecting an additional telephone or extension bell with the telephone circuit to which the main telephone is connected or a Private Branch Exchange telephone with a Private Branch Exchange Switchboard.

EXTENSION LINE MILEAGE - (See Mileage)

FLAT RATE SERVICE - Exchange service furnished for a specified sum without regard to the amount of use.

FOREIGN CENTRAL OFFICE MILEAGE - (See Mileage)

FOREIGN CENTRAL OFFICE SERVICE - Exchange service by means of a circuit connecting a station instrument with a central office of the same exchange but outside of the central office district in which the station is located.

FOREIGN EXCHANGE MILEAGE - (See Mileage)

FOREIGN EXCHANGE SERVICE - Exchange service furnished by means of a circuit connecting a customer's station instrument with a central office outside of the exchange area in which the station instrument is located.

HEAD SETS - A hands-free, multi-wire device containing acoustic-to-electric (transmitter) and electric-to-acoustic (receiver) transducers, normally worn on the head of the user for close talking, which provides 2-way transmission of live human speech.

INDIVIDUAL LINE SERVICE - A classification of exchange service which provides for a maximum of one customer on a line.

EXPLANATION OF TERMS

MESSAGE - (Cont'd)

- A. Local Message: A communication between telephone instruments located within the area defined as the local service area of the station from which the message originates.
- B. Toll Message: A communication between two station instruments, the called station instrument being outside of the local service area of the station instrument from which the message originates.

MILEAGE - The measurement which is the basis of rates charged for the use of circuits furnished by the Telephone Company. The various classes of mileage are as follows:

- A. Commuted Mileage: A rate quoted as a single item but made up of an initial rate, plus an average or commuted mileage or construction charge, applied uniformly to all customers to the same class of service within a defined part of the schedule area under which service is rendered.
- B. Extension Line Mileage: The measurement applying to that portion of an extension line in excess of the length provided by the Telephone Company without additional charge. (CT)
- C. Foreign Central Office Mileage: The mileage applied in establishing the rate for a customer receiving Foreign Central Office service. (CT)
- D. Foreign Exchange Mileage: The mileage applied in establishing the rate for a customer receiving Foreign Exchange service. (CT)
- E. Tie Line Mileage: The mileage applied in establishing a rate for a tie line. (CT)

MOVE - A change in the location on the same premises of the customer's equipment, which does not involve a change in the class or grade of service, the rate charged for service furnished or a break in the continuity of the contract under which the service is furnished. (MT)

NETWORK CONTROL SIGNALLING - The term "Network Control Signalling" denotes the transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charging signals), address signalling (dialing), calling and called number identification, audible tone signals (call progress signals indicating re-order or busy conditions, alerting, coin denominations, coin collect, and coin return tones) to control the operation of switching machines in the telecommunications system. MILEAGE - The measurement which is the basis of rates charged for the use of circuits furnished by the Telephone Company. The various classes of mileage are as follows:

- A. Commuted Mileage: A rate quoted as a single item but made up of an initial rate, plus an average or commuted mileage or construction charge, applied uniformly to all customers to the same class of service within a defined part of the schedule area, not a part of the initial rate area of the schedule under which service is rendered.
- B. Excess Mileage: The mileage applied in establishing the rate for service to a customer outside the initial rate area and which represents the distance from the limits of the initial rate area to the customer's station.
- C. Extension Line Mileage: The measurement applying to that portion of an extension line in excess of the length provided by the Telephone Company without additional charge.
- D. Foreign Central Office Mileage: The mileage applied in establishing the rate for a customer receiving Foreign Central Office service.
- E. Foreign Exchange Mileage: The mileage applied in establishing the rate for a customer receiving Foreign Exchange service.
- F. Tie Line Mileage: The mileage applied in establishing a rate for a tie line.
- G. Zone Mileage: A zone is a clearly defined area of an exchange located outside the initial rate area, within which one-party service shall be provided at a uniform mileage or zone charge.

EXPLANATION OF TERMS

NETWORK CONTROL SIGNALLING UNIT - The terminal equipment furnished, installed and maintained by the Telephone Company for the provision of network control signaling.

NON-POWERED CONFERENCING EQUIPMENT - Denotes a portable plug-ended device, without active elements, consisting of a multi-winding transformer and manual line switches designed to bridge two or more, but not to exceed five, of the lines appearing on four-button and six-button key telephone stations equipped with both hold and illumination features.

**NON-LISTED TELEPHONE NUMBER** - A telephone number which, at the customers request is not listed in the alphabetical section of the Company's directory, but is maintained on directory assistance records and will be furnished upon the request of the calling party.

(N)  
|  
(N)

**NON-PUBLISHED TELEPHONE NUMBER** - A telephone number which, at the customer's request is not listed in the telephone directory and the telephone number is not given out by the directory assistance.

(CT)

N11 SERVICES - Abbreviated three (3)-digit dialing codes which allow the caller to connect to a location in the local telephone network that otherwise would be accessible only through a seven (7)- or ten (10)-digit telephone number. The local telephone network must be preprogrammed to translate the three-digit code into the appropriate seven- or ten-digit telephone number and route the call accordingly. Among abbreviated dialing arrangements, "N11" codes are three-digit codes of which the first digit can be any digit other than 0 or 1, and the last two digits are both 1. 0 and 1 are unavailable because those digits are used for switching and routing. The following N11 codes have been designated by the FCC or by the telephone industry for the purpose listed below:

<u>N11 Code</u>	<u>Purpose</u>
211	Allows access to community information and referral services. Designated by the FCC.
311	Allows access to non-emergency police and government services. Designated by the FCC.
411	Traditionally allows access to local directory assistance services of local telephone companies. Not designated by the FCC.
511	Allows access to traveler information services. Designated by the FCC.
611/811	Traditionally allows access to local telephone company repair and business offices. Not designated by the FCC.
711	Allows access to Telecommunications Relay Services (TRS) for individuals with hearing or speech disabilities. Designated by the FCC.
911	Federally mandated as the National Emergency Number and allows access to emergency services. Designated by the FCC and ordered by the United States Congress.
011/111	Not available. "0" and "1" are used for switching and routing purposes.

EXPLANATION OF TERMS

PAY TELEPHONE - A telephone station equipped with a device for collecting money in payment of telephone messages.

PETITIONING EXCHANGE - The Petitioning Exchange refers to that exchange that has requested COS with the Target Exchange.

PREMISES - All of the building or the adjoining portions of a building occupied and used by the customers; or all of the buildings occupied and used by the customer as a place of residence, or business (including highway department weigh stations that are across the highway from each other), which are located on a continuous plot of ground not intersected by a public thoroughfare.

PRIVATE BRANCH EXCHANGE - Private branch exchange service is a service arrangement consisting of manual or dial switching equipment, private branch exchange stations, and facilities for terminating central office trunks and special service trunks. The switching equipment is designed to provide intercommunication between the private branch exchange stations and may provide stations access to the exchange and toll network and special service trunks.

PRIVATE BRANCH EXCHANGE TRUNK LINE - A circuit which connects a private branch exchange with the central office for the purpose of telephone communications.

RINGING - The term "ringing" refers to the method of signaling a customer's station instrument.

ROTARY TRUNK HUNT - A service that provides access to two or more Business or Residence<sup>(1)</sup> lines or trunks of a customer when the primary listed telephone number is dialed. (C)

SEASON RATE - A rate for exchange service during all or any portion of a specified season period, or during a definite part of the calendar year.

(D)  
(D)

SERVICE CONNECTION CHARGE - A charge made to a subscriber for the purpose of reimbursing the Telephone Company for the loss involved in connecting and disconnecting telephone facilities upon customer's premises.

EXPLANATION OF TERMS

STATION INSTRUMENT - (Cont'd)

- (e) Private Branch Exchange Station Instrument: For purposes of accounting, each operator's set used in connection with a Private Branch Exchange switchboard is considered a Private Branch Exchange Station instrument. There may be Private Branch Exchange main and extension station instruments connected to a Private Branch Exchange system, the relation being exactly the same as an extension station instrument from the main station instrument of an ordinary central office line. All station instruments connected to a Private Branch Exchange switchboard are accounted for as Private Branch Exchange station instruments, without separation as between operator's sets, main or extension station instruments.

SUPPLEMENTAL CONTRACT - A contract for service, equipment or facilities in addition to that provided for under the original contract.

SUSPENSION OF SERVICE - An arrangement made at the request of the customer for temporarily discontinuing service without terminating the contract or removing the telephone equipment from the customer's premises.

TARGET EXCHANGE - The Target Exchange refers to the exchange that has been requested to be included in the COS calling scope of the Petitioning Exchange.

TELECOMMUNICATIONS SERVICE - The services offered by the Telephone Company accessing the exchange switching network, including, but not limited to, those services covered by the General Exchange, **Message Telecommunications Service, Private Line Service and Wide Area Telecommunications Service** Tariffs.

(CT)  
(CT)

TELEPHONE NUMBER - A designation assigned to a customer's station instrument for convenience in operating.

TERMINATION CHARGE - A charge made to a customer if the contract is terminated prior to the expiration of the contract period.

TOLL RESTRICTION - A service that enables the customer, by means of Telephone Company operator identification, to restrict outgoing toll calls from station users and prohibits the charging of calls to the customer's telephone number(s) via alternate billing arrangements, such as third number or collect billing.

TOLL SERVICE - Toll service consists of the use of telephone facilities for telephone communication furnished in accordance with the rates and regulations of the toll tariffs.

EXTENSION SERVICE

I. GENERAL

An extension is an additional station instrument connected to the same circuit as the main station, and having the same telephone number as the main station.

II. CONDITIONS

- A. Extension service may be furnished in connection with all classes and grades of local service except Public Telephone Service and Service Station service.
- B. Mileage charges apply for each on-premise extension service outlet located over 300 feet from the main station, and for all off-premise extension outlets. See the "Explanation of Terms" Section for definition of "Premise" and the "Mileage" Section of the General Exchange Tariff.
- C. Off-Premise extension service may be furnished at any reasonable location, subject to the following conditions:
  1. It is provided to Individual Line Service only.
  2. Business extensions may be located on the premises of another business when each party has its own separate Access Line Service.
  3. Residence extensions may be located on the Premises of another customer when each has their own Access Line Service.
  4. Business extensions may be located at residence locations provided there is a separate residence Access Line Service. If a proprietor actually lives in his business establishment, a business extension will be permitted without the requires separate residence Access Line Service.
  5. If unusual construction of facilities is required, charges may apply in accordance with the "Construction and Installation **Charges**" **section** of this tariff.

FOREIGN CENTRAL OFFICE SERVICE

I. GENERAL REGULATIONS

- A. Foreign central office service is exchange service furnished to a customer in a multi-office exchange from a central office other than the one which serves the area in which he is located.
- B. Such service is not in accord with the general plan of furnishing telephone service, and it will be furnished only under special conditions where the service is warranted by the circumstances involved. The Telephone Company does not obligate itself to furnish this service, particularly when it involves undue expenses or impairment of the service furnished the general public.
- C. This service is available only in connection with one-party line or trunk service.

II. RATES

- A. A charge of **\$5.00** (MARCG) for the first one-quarter mile or fraction thereof and **\$2.40** (MARCL) for each additional one-quarter mile or fraction thereof per month, air-line measurement, applies for the channel between the central office normally serving the area in which the customer is located and the foreign central office; plus, (T)
- B. The base rate applicable to the particular service in the foreign central office area.

I. GROUP ALERTING AND DISPATCHING SYSTEMS

A. GENERAL REGULATIONS

1. The quoted rates are based upon such limitations of liability as appear below and in other applicable tariffs of the Telephone Company, and would be higher if the liability were extended or unlimited. Group alerting and dispatching systems are furnished only subject to the following conditions and regulations:
  - a. The group alerting and dispatching system is supplied only for the benefit of the customer, and no other person shall derive any rights from the furnishing of the group alerting and dispatching system by the Telephone Company. When the group alerting and dispatching system is furnished to a corporation, city, town, or municipality, no person other than the corporation, city, town, or municipality, as a legal entity or governmental body, shall be deemed to be a customer and service furnished to any legal entity or governmental body shall not be interpreted, construed, or regarded as being for the benefit of, or creating any contractual rights in or duty toward any individual connected with such corporation, or any individual resident of any city, town, or municipality. Any benefit derived from the use of the group alerting and dispatching system by persons other than the customer is to be considered as incidental.
  - b. The rates charged for the group alerting and dispatching system do not contemplate constant monitoring by the Telephone Company to discover operating defects and malfunctions. The customer shall have the responsibility of discovering such operating defects and malfunctions, and assumes the duty of, and will make such tests as are in the judgement of the customer, required to determine whether the system is functioning properly. The customer shall forthwith notify the Telephone Company whenever the system is not functioning properly.

I. GROUP ALERTING AND DISPATCHING SYSTEMS (Cont'd)

A. GENERAL REGULATIONS (Cont'd)

1. (Cont'd)

- c. The Telephone Company shall not be liable for any loss or damages arising out of interruptions, defects, failure, or malfunctions of the group alerting and dispatching system which occur during the operations of the system until after it has been duly notified by the customer that the system is not functioning properly and the Telephone Company has had a reasonable time thereafter to correct such defect or malfunction. Damages arising out of interruptions, defects, failures, or malfunctions of the system after the Telephone Company has been so notified, and has had a reasonable time to correct the same, shall in no event exceed an amount equivalent to the charges made for the system for the period following notice from the customer until service is restored. The customer indemnifies the Telephone Company against all loss or damage to persons or property occurring from the use, attempted use or failure of the group alerting and dispatching system before the Telephone Company has been notified as provided herein and before it has had a reasonable time to restore service.
2. Group alerting and dispatching system equipment is provided only after written authorization is obtained from the responsible municipal, civic or other managing official having jurisdiction over the company, service, city, municipality, group, etc., for which such equipment is proposed to be installed.
3. Customer owned equipment and facilities used in connection with group alerting and dispatching systems, i.e., fire siren relays, monitor recording devices, shall not be located on the premises of the Telephone Company's central office building.
4. Service features, other than those regularly available with the standard group alerting and dispatching systems described herein, are furnished wherever practicable, if not detrimental to the service, and additional monthly and/or non-recurring charges based on the costs incurred apply.

II. EMERGENCY NUMBER SERVICE (911)

A. GENERAL

1. Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAPs), designated by the customer, receives and answers telephone calls dialed to the telephone number 911. Emergency Number Service also includes the service provided by the lines and equipment associated with the service arrangement for the answering, transferring and dispatching of public emergency telephone calls dialed to 911.
2. 911 Service is offered subject to availability of facilities.
3. The 911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.
4. Four types of 911 Service are offered: B911, C911, D911, and E911.

B. RATES

The rates and charges for 911 Service will be determined on an individual case basis as provided for under the Special Equipment and Assemblies section of this tariff. Other charges outlined in this tariff may also apply.

II. EMERGENCY NUMBER SERVICE (911) (cont)

C. RULES AND REGULATIONS

1. This service is limited to the use of central office telephone number 911 as the universal telephone number and only one 911 service will be provided within any government agency's locality.
2. 911 Service will be provided to only one PSAP for calling from any telephone number within a central office serving area if the Selective Routing feature is furnished. When E911 Service is furnished to a customer with the Selective Routing feature for a part of a central office serving area, and a request is received from a governmental unit with police and fire public safety responsibility for other parts of the central office serving area, service will be offered under the terms and at the rates specified in this tariff.
3. The 911 emergency telephone number is not intended to be a total replacement of the telephone service of the various public safety agencies which may participate in the use of this number. The public safety agencies will subscribe to other telephone service.
4. The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.
5. 911 exchange lines are classified as Business Exchange Service and are arranged for one-way incoming service to the appropriate PSAP.
6. Application for 911 Service must be executed in writing by each customer. If application for service is made by an agent, the Telephone company must be provided in writing with satisfactory proof of appointment of the agent by the customer.
7. In addition to all other terms and conditions, the following applies:
  - a. That all 911 calls will be answered on a 24-hour, seven-day -per-week basis.

II. EMERGENCY NUMBER SERVICE (911) (cont)

C. RULES AND REGULATIONS (cont)

- b. That the customer has the responsibility for dispatching public safety police, fire and ambulance emergency service within the 911 service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such public safety emergency services, to the extent that such services are reasonably available.
  - c. That the customer will also develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the 911 PSAP by calling parties.
  - d. That the customer will subscribe to a sufficient number of interoffice facilities and 911 exchange lines, as determined by the Telephone Company, to adequately handle incoming calls. In all cases a minimum of two facilities or lines are required at any point in the 911 network including the 911 exchange lines terminating at the PSAP. For 911 exchange line groups from an E911 control office to a secondary answering location used for central office transfer purposes only, the line quantity may be determined by the customer and could result in only one line being provided.
  - e. That the customer will subscribe for additional local exchange service at the PSAP location for administrative purposes, for placing of outgoing calls and for receiving other emergency calls including any which may be relayed by Telephone Company operators.
  - f. That when the Selective Routing feature is furnished the customer subscribing to E911 Service will furnish designation of the primary and secondary PSAP for receipt of police, fire, and ambulance calls by street address as provided in Section II.C.18.
8. Compatible Customer provided equipment may be used with 911 Service in accordance with the provisions of Section 7 of this tariff.

II. EMERGENCY NUMBER SERVICE (911) (cont)

C. RULES AND REGULATIONS (cont)

- b. The Telephone Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer to respond to such calls with the customer's personnel on the customer's premises.
  - c. The rates charged for 911 Service do not contemplate and the Telephone Company does not undertake inspection or constant monitoring to discover errors, defects and malfunctions in the service. The customer shall have the responsibility of discovering all errors, defects and malfunctions, and assumes the duty of, and will make such tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Telephone Company in the event the system is not functioning properly.
  - d. The Telephone Company shall not be liable for any loss or damages arising out of errors, interruptions, defects, failures, or malfunctions of 911 Service, including any and all equipment and data processing systems associated therewith. Damages arising out of such interruptions, defects, failures, or malfunctions of the system after the Telephone Company has been so notified and has had a reasonable time for repair shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.
13. E911 data information, respecting the name, address and telephone number of nonpublished telephone customers, is confidential and the customer agrees to use such information only for the purpose of responding to emergency calls.
14. The calling party dialing 911 forfeits the privacy afforded by nonpublished service to the extent that the calling party's number, address and name are furnished to the public safety answering point.
15. Central offices that are not currently equipped to transmit ANI will not be modified to provide ANI just for 911 Services. When the Selective Routing feature is provided, in such circumstances, Default Routing and central office identification will be provided in lieu of Selective Routing and/or ANI Display.

- d. The Telephone Company shall not be liable for any loss or damages arising out of errors, interruptions, defects, failures, or malfunctions of 911 Service, including any and all equipment and data processing systems associated therewith. Damages arising out of such interruptions, defects, failures, or malfunctions of the system after the Telephone Company has been so notified and has had a reasonable time for repair shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

- 13. E911 data information, respecting the name, address and telephone number of nonpublished telephone customers, is confidential and the customer agrees to use such information only for the purpose of responding to emergency calls.
- 14. The calling party dialing 911 forfeits the privacy afforded by nonpublished service to the extent that the calling party's number, address and name are furnished to the public safety answering point.
- 15. Central offices that are not currently equipped to transmit ANI will not be modified to provide ANI just for 911 Services. When the Selective Routing feature is provided, in such circumstances, Default Routing and central office identification will be provided in lieu of Selective Routing and/or ANI Display.

II. EMERGENCY NUMBER SERVICE (911) (cont)

C. RULES AND REGULATIONS (cont)

- (D)
  - (D)
  - (T)
  - (T)
16. A minimum of two E911 Interoffice Facilities between the end office and the E911 Control Office and two E911 Exchange Lines to each primary PSAP must be provided. On B911, C911, and D911, a minimum of two 911 exchange lines to each PSAP is required.
17. When the Selective Routing feature is provided (E911), the customer is responsible for identifying the unique combinations of police, fire and ambulance, or any other appropriate agencies jurisdiction in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Telephone Company. The customer will associate these ESNs with street address ranges in the E911 serving area. These ESNs will be carried in the Data Base Management System (DBMS) to route E911 calls to the primary and secondary PSAPs with responsibility to handle the emergency telephone calls originating for each telephone in the E911 serving area.

The customer's responsibility for providing this information is as follows:

- a. The customer will provide street address and PSAP routing information for each central office area included in the E911 service area prior to establishment of service.
- b. Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria, shall be furnished by the customer to the Telephone Company on forms supplied by the Telephone Company for that purpose at a mutually agreed upon time prior to the effective date of the service.
- c. After establishment of service, it is the customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file and to advise the Telephone Company of any changes that need to be made in the routing information by reason of changes in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities and any other matters that will affect the routing of E911 calls to the proper PSAP.

(M)

(M)

D. EXPLANATION OF TERMS

Additional E911 Service Exchange Line:

An additional line terminating at a PSAP that may be ordered by the customer as an optional feature.

Alternate Routing (AR):

This feature is provided to allow 911 calls to be routed to a designated alternate location if (1) all E911 exchange lines to the primary PSAP are busy, or (2) the primary PSAP closes down for a period (night service).

Automatic Number Identification (ANI):

This forwards the calling party's telephone number to the E911 Control Office and on to the PSAP for display on the ANI Display and Transfer Unit. This is an optional feature of E911 Service.

B911:

A service that provides for routing all 911 calls originating from telephones with given central office prefix codes to a single PSAP.

C911:

A service that provides the B911 service as well as Called Party Hold, Switchhook Status, Forced Disconnect, Idle Tone Application and Emergency Ringback.

Called Party Hold (CPH):

A feature of C911 Service that enables a PSAP attendant to retain control of an incoming 911 call connection, even if the calling party hangs up.

II. EMERGENCY NUMBER SERVICE (911) (cont)

D. EXPLANATION OF TERMS (cont)

D911:

A service which provides the B911 service plus ANI and is primarily for use in single wire center exchanges.

Data **Base** Management System (**DBMS**):

The **DMBS** is a system of **manual** procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) **and/or Automatic Location Identification for E911 systems. DBMS also provides for the initial information load for the database stored in customer provided equipment, as well as the equipment of other 911 service providers and for periodic updates to this information.**

(T)  
—  
(T)

Default Routing (DR):

This feature is activated when an incoming 911 call cannot be selectively routed due to an ANI failure, garbled digits or other causes which may prevent selective routing. Such incoming calls to the E911 Control Office are routed to a default PSAP. Each incoming 911 facility group to the Control Office is assigned to a designated default PSAP.

Display and Transfer Unit:

A selector console and associated common equipment that displays ANI numbers at the PSAP attendant position and is used by the attendant to activate Fixed and/or Selective Transfer functions.

E911:

An expanded service that provides features such as Selective Routing of 911 calls to a specific PSAP selected from among those within the 911 Service Area. E911 has other standard and optional features which may or may not be available with B911, C911 or D911.

End Office:

This is the Central Office(s) in the 911 System from where the 911 calls originate.

Expanded 911 (E911) Control Office:

The Control Office provides tandem switching capability for E911 calls. It controls switching of ANI and SR information to the PSAP.

Default Routing (DR):

This feature is activated when an incoming 911 call cannot be selectively routed due to an ANI failure, garbled digits or other causes which may prevent selective routing. Such incoming calls to the E911 Control Office are routed to a default PSAP. Each incoming 911 facility group to the Control Office is assigned to a designated default PSAP.

Display and Transfer Unit:

A selector console and associated common equipment that displays ANI numbers at the PSAP attendant position and is used by the attendant to activate Fixed and/or Selective Transfer functions.

E911:

An expanded service that provides features such as Selective Routing of 911 calls to a specific PSAP selected from among those within the 911 Service Area. E911 has other standard and optional features which may or may not be available with B911, C911 or D911.

End Office:

This is the Central Office(s) in the 911 System from where the 911 calls originate.

Expanded 911 (E911) Control Office:

The Control Office provides tandem switching capability for E911 calls. It controls switching of ANI and SR information to the PSAP.

II. EMERGENCY NUMBER SERVICE (911) (cont)

D. EXPLANATION OF TERMS (cont)

Fixed Transfer:

This feature enables a PSAP attendant to transfer incoming 911 calls to secondary PSAPs by use of a single button on the Display and Transfer Unit. The PSAP equipment automatically flashes and sends out the Speed Calling code associated with the desired agency. ANI will also be transferred with the call to a secondary PSAP that is equipped to receive and display ANI data. This is done by using the Central Office Call Transfer feature of the E911 Control Office. This feature is associated with the E911 trunk unit and may not be available from all central offices. This is an optional feature of E911 Service.

Forced Disconnect:

This feature, a function of the E911 Central Office trunk circuit enables the PSAP attendant to release a 911 connection even though the 911 calling party has not hung up. This feature prevents the jamming of the E911 exchange lines. This is a standard feature of the C911 and E911 Service.

Idle Tone Application:

This feature allows the PSAP attendant to distinguish between calls that have been abandoned before they are answered and calls where the calling party is unable to speak for some reason. If the caller abandoned the line before the PSAP attendant answered, a distinct tone is heard by the attendant. If the caller is still on the line but unable to speak, no tone will be heard. This feature is available with C911 and E911 Service.

D. EXPLANATION OF TERMS (cont)

Public Safety Answering Point (PSAP):

A PSAP is an answering location for 911 calls originating in a given area. A PSAP may be designated as primary or secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; Secondary PSAPs receive calls on a transfer basis only. PSAPs are public service agencies such as police, fire, emergency medical, etc., or a common bureau serving a group of such entities.

Selective Routing (SR):

This feature routes a 911 call from a central office to the designated PSAP. This is an optional feature of the E911 Service.

Selective Transfer:

This feature transfers an incoming call to another agency by depressing a single button (e.g., "Fire" on the Display and Transfer Unit). This type of transfer is only available when the SR feature is provided. This is an optional feature of the E911 Service and may not be available from all central offices.

Service Area:

The geographical area in which the customer will respond to all 911 calls and dispatch appropriate emergency assistance.

**Service Provider:**

**An entity providing one or more of the following 9-1-1 elements: network, CPE, or data base service.**

(N)  
|  
(N)

Serving Central Office:

This is the Central Office(s) in which a PSAP, either a primary or secondary, is located.

Switchhook Status:

A feature that provides the PSAP attendant with visual indication of the calling party's switchhook status (on or off hook).

E. WIRELESS E911 PHASE 2

1. Description of Service

Wireless E911 Phase 2 is only available in combination with E911 as specified in this section of the tariff and is subject to the regulations specified herein.

In accordance with the FCC's Report and Order 94-102, Wireless E911 Phase 2 provides PSAPs with the wireless E911 caller's location and callback number (CBN) information, as specified by the FCC. The FCC has adopted specific handset-based and network-based location accuracy and reliability solutions standards for the Wireless Service Providers (WSPs).

2. General Regulations

a. The Telephone Company is not responsible for the location determination technology, the accuracy of the location determination technology, or the investigation or maintenance of said technologies. Only the data required and specified by the FCC in its Report and Order 94-102 will be delivered by the Telephone Company to the PSAP. This required data includes the cell site or sector location, the callback number, and the latitude/longitude of the caller. Each customer agrees that delivery, or lack of delivery, of additional data elements which may be provided by the WSP will not be the responsibility of the Telephone Company and the Telephone Company assumes no responsibility or liability for such information.

b. PSAPs must have all required elements of Wireless E911 Phase 1, utilizing p-ANI routing and cell site/sector location based information, in place before implementing Phase 2. This is necessary to accommodate loading of the respective p-ANIs also known as Emergency Service Routing Key/Emergency Service Routing Digit into the Company's Data Base Management System. In addition, the following requirements must be met for Phase 2 implementation:

- (1) PSAPs must order both the Telephone Company's Extended ALI Display Format and the ALI **Database for** Wireless Phase 2 to accommodate the x/y data provided by Wireless E911 Phase 2 Service. See rates in III.E.6. following.
- (2) WSPs must have Position Determining Entity (PDE) and a Mobile Position Center (MPC)/Gateway Mobile Location Center (GMLC) in their network.
- (3) WSPs or their designated database provider must have obtained an interface to the Telephone Company's ALI database that complies with the Telephone Company's existing operating standard. This interface will be used by the WSP to provide the Phase 2 data.

II. EMERGENCY NUMBER SERVICE (911) (Cont'd)

(Z)

E. WIRELESS E911 PHASE 2 (Cont'd)

3. Definition of Terms

a. Callback Number (CBN)

The wireless caller's 10-digit handset telephone number. The CBN is used by the PSAP to reestablish a call in the event the call was prematurely disconnected.

b. Interface

A reference point for a data path that exists between an MPC/GMLC and an ESME (the ALI database). The data that traverses the interface is made up of an Emergency Services Position Request and the response. The interface is not provided by and is not the responsibility of the Telephone Company.

c. Emergency Services Message Entity (ESME)

An entity in the emergency services network which serves as the point of interface to an MSC for common channel emergency services messaging. ESME is another term for the ALI database.

d. Enhanced MF Signaling (EMFS)

A signaling protocol for sending 10 or 20 digits of ANI from the 911 Tandem to the PSAP. EMF signaling is required when an interconnecting WSP selects Phase 2 NCAS mode without WLS911.

e. Mobile Position Center (MPC)

The interface between the wireless network and the Telephone Company's ALI database. The MPC serves as the wireless network entity which retrieves, forwards, stores, and controls position data within the wireless location network. The MPC is not provided by and is not the responsibility of the Telephone Company. Global System for Mobile (GSM) communication Gateway Mobile Location Centers (GMLCs) will be treated as MPCs by the Telephone Company.

f. Mobile Switching Center (MSC)

The wireless equivalent of a Central Office, which provides switching functions for wireless calls. The MSC is not provided by and is not the responsibility of the Telephone Company.

(Z)

E. WIRELESS E911 PHASE 2 (Cont'd)

3. Definition of Terms (Cont'd)

g. Phase 2 NCAS

In this mode the p-ANI and the CBN both are sent to the Selective Router. The trunk between the Selective Router and the PSAP must support transport of at least two 10-digit numbers.

h. Position Determining Entity (PDE)

The PDE determines the geographic location of a wireless handset when the wireless caller places a 911 call or while the call is in process. The PDE is not provided by and is not the responsibility of the Telephone Company.

i. Pseudo-ANI (P-ANI)

A pseudo, non-dialable telephone number assigned to a cell site or a sector of a cell site to provide location identification for wireless E911 calls.

j. WLS911

The Telephone Company solution that sends either eight or ten digits of ANI to the PSAP and dynamically updates the static cell site or sector information with the CBN as provided by the WSP. This solution when used in conjunction with a WSP's interface allows WSPs to comply with the FCC's order without requiring PSAPs to upgrade their PSAP equipment to utilize Enhanced MF signaling.

k. Wireless Service Provider (WSP)

A person or entity that provides Commercial Mobile Radio Service (CMRS). The term wireless includes service provided by any wireless real-time, two-way voice communication device, including radio-telephone communications used in cellular telephone service, personal communication service (PCS), or functional or competitive equivalent. The term does not include service providers whose customers do not have access to 911 or 911-like services.

l. Wireline Compatibility Mode

Occurs when the WSP sends only p-ANI to the Telephone Company E911 tandem and the PSAP receives eight or ten digits of ANI.

m. X,Y Coordinates

The latitude and longitude of the 911 wireless caller's location.

This solution when used in conjunction with a WSP's interface allows WSPs to comply with the FCC's order without requiring PSAPs to upgrade their PSAP equipment to utilize Enhanced MF signaling.

k. Wireless Service Provider (WSP)

A person or entity that provides Commercial Mobile Radio Service (CMRS). The term wireless includes service provided by any wireless real-time, two-way voice communication device, including radio-telephone communications used in cellular telephone service, personal communication service (PCS), or functional or competitive equivalent. The term does not include service providers whose customers do not have access to 911 or 911-like services.

l. Wireline Compatibility Mode

Occurs when the WSP sends only p-ANI to the Telephone Company E911 tandem and the PSAP receives eight or ten digits of ANI.

m. X,Y Coordinates

The latitude and longitude of the 911 wireless caller's location.

II. EMERGENCY NUMBER SERVICE (911) (Cont'd)

E. WIRELESS E911 PHASE 2 (Cont'd)

4. Enhanced MF

Enhanced MF (EMF) is a new signaling protocol from the 911 Tandem to the PSAP. Enhanced MF accommodates either ten or 20 digits of ANI. Enhanced MF is not a requirement of Wireless Phase 2 implementation but EMF must be used by PSAPs when an interconnecting Wireless Service Provider chooses the Phase 2 NCAS Mode (as defined in J-STD-036 Annex D, Table D.1.2. and/or D.2.), without WLS911. If an interconnecting WSP chooses a Phase 2 NCAS solution without WLS911, the PSAP's equipment must be 20-digit Enhanced MF capable. The PSAP must request the Telephone Company convert them to EMF signaling when preparing to accept Phase 2 calls from a WSP utilizing Phase 2 NCAS without WLS911. Once a PSAP has been converted to 20 digit EMF Signaling the functionality of WLS911 is disabled for all WSPs serving that PSAP.

5. Wireless E911 Phase 2 Service

This service is comprised of two components, Extended ALI Display Format and ALI **Database for** Wireless Phase 2. Both components are required for implementation of this service. (T)

a. Extended ALI Display Format

The PSAP's Automatic Location Identification (ALI) display format must be changed to the Telephone Company's Extended ALI Display Format to accommodate the latitude and longitude, or x,y coordinates. The provision and delivery of the x,y information to the PSAP requires an interface between the ALI database and the WSP's Mobile Position Center (MPC)/Gateway Mobile Location Center (GMLC). The provisioning of the interface is the responsibility of the WSP.

b. ALI **Database for** Wireless Phase 2 (T)

The ALI **Database for** Wireless Phase 2 enables the PSAP to query and retrieve wireless caller location information from the Telephone Company's Automatic Location Identification (ALI) database. Location information may include cell site sector location, longitude and latitude of the wireless caller's location, and the wireless caller's callback number (CBN). This **service** will enable the necessary interfaces, software, and databases to permit the wireless caller's location information to be populated in the Telephone Company's ALI database and/or retrieved when queried by the customer's PSAP equipment. (Z)

E. WIRELESS E911 PHASE 2 (Cont'd)

4. Enhanced MF

Enhanced MF (EMF) is a new signaling protocol from the 911 Tandem to the PSAP. Enhanced MF accommodates either ten or 20 digits of ANI. Enhanced MF is not a requirement of Wireless Phase 2 implementation but EMF must be used by PSAPs when an interconnecting Wireless Service Provider chooses the Phase 2 NCAS Mode (as defined in J-STD-036 Annex D, Table D.1.2. and/or D.2.), without WLS911. If an interconnecting WSP chooses a Phase 2 NCAS solution without WLS911, the PSAP's equipment must be 20-digit Enhanced MF capable. The PSAP must request the Telephone Company convert them to EMF signaling when preparing to accept Phase 2 calls from a WSP utilizing Phase 2 NCAS without WLS911. Once a PSAP has been converted to 20 digit EMF Signaling the functionality of WLS911 is disabled for all WSPs serving that PSAP.

5. Wireless E911 Phase 2 Service

This service is comprised of two components, Extended ALI Display Format and ALI Database Upgrade for Wireless Phase 2. Both components are required for implementation of this service.

a. Extended ALI Display Format

The PSAP's Automatic Location Identification (ALI) display format must be changed to the Telephone Company's Extended ALI Display Format to accommodate the latitude and longitude, or x,y coordinates. The provision and delivery of the x,y information to the PSAP requires an interface between the ALI database and the WSP's Mobile Position Center (MPC)/Gateway Mobile Location Center (GMLC). The provisioning of the interface is the responsibility of the WSP.

b. ALI Database Upgrade for Wireless Phase 2

The ALI Database Upgrade for Wireless Phase 2 enables the PSAP to query and retrieve wireless caller location information from the Telephone Company's Automatic Location Identification (ALI) database. Location information may include cell site sector location, longitude and latitude of the wireless caller's location, and the wireless caller's callback number (CBN). This upgrade will enable the necessary interfaces, software, and databases to permit the wireless caller's location information to be populated in the Telephone Company's ALI database and/or retrieved when queried by the customer's PSAP equipment.

6. Rates and Charges

	<u>Nonrecurring Charge</u>	<u>Monthly Rate</u>	<u>SAE Code</u>	
a. Enhanced MF signaling, per PSAP	\$0.00	\$0.00	-	
b. Extended ALI Display Format, per PSAP	\$3,500.00	\$0.00	-	
c. <b>ALI Database</b> for Wireless Phase 2, per PSAP	\$0.00	\$250.00	AEMDATA (WLS)	(T)

F. PRIVATE SWITCH DATABASE SERVICE

1. Description of Service

- a. Private Switch Database Service is available to companies that use a Private Branch Exchange (PBX) or Centrex to manage their individual telephones and want to provide specific location information for each of these telephones to the Public Safety Answering Point (PSAP) responsible for responding to an emergency.
- b. Private Switch Database Service allows a customer with a multi-line private switch to facilitate reception of either (1) Automatic Number Identification (ANI) or (2) a combination of ANI and Automatic Location Identification (ALI) information by a PSAP for emergency "9-1-1" calls originating from the location served by the customer's multi-line private switch. A private switch is customer premises equipment (CPE) at the end user customer's location.

2. General Regulations

- a. The customer is responsible for validating address information through Master Street Address Guide (MSAG) and for coordinating with the Telephone Company to provide the National Emergency Number Association (NENA) standard format of telephone numbers and address data. The Telephone Company will allow the customer to update records no more frequently than on a daily basis. The data may originate from the customer's private switch, when technically feasible, or from a manually created list.

II. EMERGENCY NUMBER SERVICE (911) (Cont'd)

F. PRIVATE SWITCH DATABASE SERVICE (Cont'd)

2. General Regulations (Cont'd)

b. The Telephone Company will:

- (1) Be responsible for uploading a NENA formatted data file to its ALI database;
- (2) Hold the information in confidence and protect it in accordance with state and federal rules applicable to emergency 911 services; and
- (3) Use the information only in connection with providing emergency services to PSAPs.

c. The Telephone Company may immediately terminate a customer's use of Private Switch Database Service if, in the Telephone Company's sole judgment, the customer falsifies the information provided or fails to comply with any other provisions of this tariff.

d. The Telephone Company will only provide Private Switch Database Service where the Telephone Company is the primary 911 database provider for the PSAP serving the customer's location.

e. The Telephone Company will provide a software package that will allow the customer to load the database information in the appropriate NENA format for transmission to the Telephone Company's data center.

f. The Telephone Company will charge the private switch customer a monthly recurring charge for maintenance of the data in the national ALI database for delivery upon a 911 call to the PSAP.

Original Page 15.7

FCC DESIGNATED N11 SERVICES

II. EMERGENCY NUMBER SERVICE (911) (Cont'd)  
F. PRIVATE SWITCH DATABASE SERVICE (Cont'd)

3. Limitations

- a. The Telephone Company offers no warranty or representation with respect to the accuracy or completeness of the Private Switch Database Service. The Telephone Company relies on its customers for all private switch information placed in the Telephone Company's database management system.
- b. The Telephone Company does not warrant or represent that its database management system will be compatible with every type of private switch equipment. Customers who wish to provide automated updates to the Telephone Company's database management system are responsible for acquiring their own private switch equipment and for testing the compatibility of that equipment with the Telephone Company's database management system.

4. Obligations of the Customer

- a. When implementing Private Switch Database Service, the customer must contact the Telephone Company's E-911 representative to negotiate trunking, hardware and software requirements associated with the Private Switch Database Service.
- b. The customer will be responsible for loading address information into the Private Switch Database Service software package and transmitting that information to the Telephone Company.

5. Rates and Charges

a. Installation	<u>Nonrecurring Charge</u>
(1) Initial Installation	\$900.00
(2) Subsequent addition of Station Records	0.00
b. Monthly Rate <sup>1</sup>	<u>Monthly Recurring Charge</u>
(1) Up to 1000, per 1000 Station Records	\$100.00
(2) 1001 - 4000, per 1000 Station Records	90.00
(3) Over 4000, per 1000 Station Records	80.00

<sup>1</sup> The Monthly Rate is calculated based on the total number of station records submitted by the customer at installation or at the time of the annual audit. For example, 900 station records = \$100 MRC; 3900 station records = \$90 X 4 = \$360 MRC; 4500 station records = \$80 X 5 = \$400 MRC.

F. PRIVATE SWITCH DATABASE SERVICE (Cont'd)

5. Rates and Charges (Cont'd)

- b. Separate charges, not specified in this section of the tariff, are applicable for network connectivity from the customer's private switch to the Telephone Company's central office facilities.
- c. Each Private Switch Database Service customer's Installation Charge and Monthly Rate is calculated at the time Private Switch Database Service is established and is based on the number of station records in service for the customer. The total number of station records are audited annually by the Telephone Company and applied to the account.

G. REVERSE NOTIFICATION TELEPHONE NUMBER DATABASE SERVICE

1. Description of Service

- a. The Telephone Company offers Reverse Notification Telephone Number Database Service (Reverse Database Service) to support the ability of Public Safety Answering Points (PSAPs) to make broadcast notification calls to areas under their jurisdiction in the event of emergencies.

2. General Regulations

- a. Reverse Database Service is offered solely for the purpose of permitting PSAPs to make broadcast notifications to particular geographic areas and associated local telephone numbers in the event of emergencies. PSAPs ordering Reverse Database Service must provide the Telephone Company with written certification of their authority to make public emergency notifications.
- b. PSAPs may not use Reverse Database Service information in connection with Universal Emergency Telephone Number Service (911).
- c. PSAPs subscribing to Reverse Database Service will receive CD-ROM downloads of information from the Telephone Company's Automatic Location Indicator (ALI) database. The Telephone Company will provide ten-digit telephone numbers **and** associated **addresses to** the extent that information is present in the Telephone Company's ALI database. (T)  
(T)
- d. Reverse Database Service will include ALI information obtained by the Telephone Company from other local exchange carriers serving a PSAP's jurisdiction, when there are multiple local exchange carriers in a PSAP's jurisdiction. Reverse Database Service will include ALI information obtained from customers who operate private switches and have requested that carriers maintain appropriate information in the carrier's ALI database.
- e. The Telephone Company will provide Reverse Database Service only for the jurisdictional area where a PSAP is authorized to provide emergency services. PSAPs will not be able to obtain foreign listings, foreign exchange cross-listings, foreign central office subscriptions, and multiple listings through Reverse Database Service.

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS)

A. GENERAL

1. 711 Dialing Code ("711") is a three digit local dialing arrangement for telephone voice transmission access to all certified Telecommunications Relay Services entities as a toll free call. Pursuant to Order 00-257, issued by the Federal Communications Commissions (FCC) in CC Docket 92-105, the FCC assigned 711 dialing code for nationwide access to Telecommunications Relay Services (TRS) entities, to be implemented not later than October 1, 2001.
2. 711 is available **from the Telephone Company** within the **Telephone Company's** service area only. To provide access to 711 to end users in another company service area or to a Competitive Local Exchange Carrier (CLEC) end users within the local calling area, the TRS entity must make appropriate arrangements with the other company or CLEC serving that territory. The TRS entity should work separately with competing local providers to ascertain that its end user customers will be able to reach relay services provided by dialing 711. (T)
3. This service is subject to the availability of the 711 dialing code.
4. 711 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.).
5. Limitations and use of service are as stated in Section 2 of this Tariff.
6. Directory Listings may be provided for 711 at rates and regulations as specified in Section 9 of this Tariff.
7. Access to 711 is not available to the following classes of service:
  - Hotel/Motel/Hospital Service (toll call only)
  - 1+
  - 0+, 0- (Credit Card, Third-Party Billing, Collect Calls)
  - Inmate Service
  - 101XXXX
  - Cellular - Type 2AIn addition, operator assisted calls to 711 will not be completed.

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS)

A. GENERAL

1. 711 Dialing Code ("711") is a three digit local dialing arrangement for telephone voice transmission access to all certified Telecommunications Relay Services entities as a toll free call. Pursuant to Order 00-257, issued by the Federal Communications Commissions (FCC) in CC Docket 92-105, the FCC assigned 711 dialing code for nationwide access to Telecommunications Relay Services (TRS) entities, to be implemented not later than October 1, 2001.
2. 711 is available from Sprint Missouri, Inc. (the Telephone Company) within the Company's service area only. To provide access to 711 to end users in another company service area or to a Competitive Local Exchange Carrier (CLEC) end users within the local calling area, the TRS entity must make appropriate arrangements with the other company or CLEC serving that territory. The TRS entity should work separately with competing local providers to ascertain that its end user customers will be able to reach relay services provided by dialing 711.
3. This service is subject to the availability of the 711 dialing code.
4. 711 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.).
5. Limitations and use of service are as stated in Section 2 of this Tariff.
6. Directory Listings may be provided for 711 at rates and regulations as specified in Section 9 of this Tariff.
7. Access to 711 is not available to the following classes of service:
  - Hotel/Motel/Hospital Service (toll call only)
  - 1+
  - 0+, 0- (Credit Card, Third-Party Billing, Collect Calls)
  - Inmate Service
  - 101XXXX
  - Cellular - Type 2AIn addition, operator assisted calls to 711 will not be completed.

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS) (Cont'd)

B. OBLIGATIONS OF THE TRS ENTITY

1. The TRS entity must, prior to provisioning of the service, sign a written acknowledgement of possible recall of the 711 dialing code by the FCC and an agreement to return the code upon receipt of 6 months written notice of such a recall from the Telephone Company or regulating entity and abide by all terms and conditions which may be identified by the FCC in CC Docket 92-105 regarding the use and return of the 711 dialing code. If a recall is affected, the Telephone Company will work with the TRS entity affected by such recall to transfer their service arrangements, to a 7 or 10-digit dialing arrangement within the 6-month notice period. The TRS entity will be required to migrate to any access arrangement the telecommunications relay services subsequently agreed to by the industry and approved by the FCC. The TRS entity will be charged the appropriate tariff rates for the establishment of the new access arrangement.
2. The TRS entity should work separately with wireless companies to ascertain their end user customers will be able to reach telephone relay services provided by dialing 711.
3. The TRS entity should work separately with CLECs to ascertain their end user customers will be able to reach telephone relay services provided by dialing 711.
4. The TRS entity is restricted from selling or transferring the 711 dialing code to an unaffiliated entity, either directly or indirectly.
  - a. An "affiliate" of a TRS entity is any entity that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with the TRS entity. The term "control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract, or otherwise.

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS) (Cont'd)

B. OBLIGATIONS OF THE TRS ENTITY (Cont'd)

5. The 711 Dialing Code will be provided by the Telephone Company to the TRS entity under the following conditions:
  - a. For network sizing and protection, the TRS entity must provide an estimate of annual call volumes, the expected busy hour and the expected holding time for each call to the 711 dialing code.
  - b. The TRS entity will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgement of the Telephone Company, to adequately handle calls to 711 without impairing the Telephone Company's general telephone service or telephone facilities.
  - c. The TRS entity is responsible for obtaining all necessary permission, licenses, written consents, waivers, releases and all other rights from all persons whose work, statements or performance are used in connection with the 711 dialing code, and from all holders of copyrights, trademarks, and patents used in connection with said service.
6. If a pre-recorded announcement is provided by the TRS entity, the following conditions apply:
  - a. The TRS entity will provide announcements. The Telephone Company will provide only the delivery of the call.
  - b. The provision of access to the 711 network by the Telephone Company for the transmission of announcement is subject to availability of such facilities and the requirements of the local exchange network.
  - c. The TRS entity assumes all financial responsibility for all costs involved in providing announcement including, but not limited to, the recorder-announcement equipment located on the TRS entity's premises.
  - d. The TRS entity assumes, according to other specific rates and charges under tariff, all financial responsibility for all facilities required, to connect the recorder-announcement equipment located on the TRS entity's premises.

FCC DESIGNATED N11 SERVICES

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS) (Cont'd)

C. OBLIGATIONS OF THE TELEPHONE COMPANY

1. Once the 711 Dialing Code has been assigned and the subscriber has provided the Telephone Company the appropriate toll free number, implementation of the 711 Dialing Code will begin. The Telephone Company will implement the TRS entity's request within a reasonable time, given the complexity of the order.

If, during or at the end of the provisioning period, the TRS entity has failed to establish service or decides to discontinue service establishment, the 711 code will be recalled and the number will be considered available for reassignment.

2. When a 711 Service call is placed by the calling party via interconnection with an interexchange carrier, the Telephone Company cannot guarantee the completion of said 711 Service call, the quality of the call or any features that otherwise may be provided with 711 dialing service.

D. OBLIGATIONS OF THE COMPETITIVE LOCAL EXCHANGE CARRIER (CLEC)

1. In those instances where a CLEC provides the 711 dialing code to its end user within the local calling area, terms and conditions for 711 dialing code are as defined in the appropriate Interconnection Agreement.
  - a. For purposes of providing a CLEC end user access to the TRS entity within the local calling area, appropriate arrangements must be made by the CLEC with the TRS entity serving the local calling area.
  - b. A CLEC may negotiate the provision of directory listing as defined in the Interconnection Agreement.

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS) (Cont'd)

E. LIABILITY

1. The TRS entity is responsible for, and shall indemnify, protect, defend and save harmless the Telephone Company against all suits, actions, claims, demands and judgements, and of all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith, including, but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, of any patent, trademark, copyright, or resulting from any claim of liable and slander. Unless otherwise specifically provided in this Tariff, the Telephone Company shall be authorized to disconnect any tariffed service provided to the TRS entity utilized, directly or indirectly, with the 711 dialing code, which fails to comply with regulations and conditions set forth herein, upon five (5) days of notice to the subscriber. Disconnection may be suspended at the discretion of the Telephone Company if it receives written certification that the TRS entity is in compliance with regulations and conditions of the tariffs. Continual noncompliance shall be cause for disconnection without notice at the discretion of the Telephone Company.
2. The TRS entity shall respond promptly to any and all complaints lodged with any regulatory authority against any service provided via the 711 dialing code. If requested by the Telephone Company, the TRS entity shall assist the Telephone Company in responding to complaints made to the Telephone Company concerning the 711 dialing code.
3. A written notice will be sent to any TRS entity following oral notification when their service unreasonably interferes with or impairs other services rendered to the public by the Telephone Company. If after notification the TRS entity makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Telephone Company, or if the TRS entity is unwilling to accept the modifications, or if the TRS entity continues to cause service impairment, the Telephone Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service. In an emergency situation as defined by the Telephone Company, the Telephone Company reserves the right, at any time, without notice, to institute protective measures up to and including termination of service.
4. The Telephone Company may take all legal and practical steps to disassociate itself from the TRS entity providing services whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Telephone Company's discretion generates unacceptable levels of complaints by end users.

III. 711 SERVICE FOR TELECOMMUNICATIONS RELAY SERVICES (TRS) (Cont'd)

E. LIABILITY (Cont'd)

5. In no event shall the Telephone Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission or failure of performance by the Telephone Company, or its employees, or agents, in connection with this Tariff. The Telephone Company shall not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Telephone Company facilities and equipment nor on equipment owned or leased by the TRS entity.

F. OTHER TERMS AND CONDITIONS

1. Only one 10-digit toll free number may be used as the lead number per basic local calling area.
2. The 711 Dialing Code is provided where facilities permit.
3. The 711 Service will not provide calling number information in real time to the TRS entity. If this type of information is required, the TRS entity must subscribe to compatible Caller ID Service as described in Section 43 of this Tariff.
4. The 711 Service is provided solely for the benefit of the TRS entity. The provision of the 711 Service by the Telephone Company shall not be interpreted, constructed, or regarded, either expressly or implied, as being for the benefit of or creating any Telephone Company obligation toward any third person or legal entity other than the TRS entity.

G. RATES AND CHARGES

1. The 711 Service is ordered by the F.C.C. to be provided without charge. Therefore, there are no rates or charges for the 711 Service.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE

A. GENERAL REGULATIONS

1. The 211 Service for Information and Referral Service (211 Service) is a locally assigned three digit abbreviated dialing code provided to an Approved Information and Referral Service Provider for use in making available community information and referral services to the public by way of voice grade facilities. The 211 abbreviated dialing code is available to the Approved Information and Referral Service Provider as a tariffed, local calling area based service (the "211 Service").
2. The 211 Service allows a Company subscriber to access an Approved Information and Referral Service Provider call center by dialing only the 211 abbreviated dialing code. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the Approved Information and Referral Service Provider shall be able to receive calls using the 211 Service as part of their local exchange services. The 211 Service is supplemental to and is not a replacement for either party's local exchange service.
3. All 211 abbreviated dialing code calls must be local in nature and must not result in any intraLATA toll, interLATA long distance or pay-per-call charges to Company subscribers. However, 211 Service calls may result in local measured service charges where Company subscribers' service plans include such charges as part of local measured service or home exchange service calling plans.
4. The 211 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. The 211 Service is otherwise available wherever local service is available.

B. OBLIGATIONS OF THE APPROVED INFORMATION AND REFERRAL SERVICE PROVIDER

1. The Approved Information and Referral Service Provider must submit a written application for 211 Service to the Company at the local exchange level. The Approved Information and Referral Service Provider may establish 211 Service in all or part of the Company's local exchanges. There may be only one 211 Service Provider per exchange.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd)

B. OBLIGATIONS OF THE APPROVED INFORMATION AND REFERRAL SERVICE PROVIDER (Cont'd)

2. The Approved Information and Referral Service Provider's written application to establish 211 Service in a Company local exchange must include the following:
  - a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 211 abbreviated code. If the Approved Information and Referral Service Provider desires to change the telephone number into which the 211 abbreviated dialing code is translated, the Approved Information and Referral Service Provider must pay the Number Change Charge specified in IV.F.6.
  - b. A location description of the Approved Information and Referral Service Provider call center where 211 calls made from the Company local exchange will be routed.
  - c. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 211 Service.
  - d. An acknowledgment of the possibility that the Commission's assignment of the 211 abbreviated dialing code may be recalled at any time.
3. Local Calling for Company Subscribers
  - a. The Approved Information and Referral Service Provider, in cooperation with the Company, must assure that all 211 Service calls are local in nature and do not generate intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
  - b. When the Approved Information and Referral Service Provider applies for 211 Service in a Company local exchange, the Approved Information and Referral Service Provider must supply the Company with a seven or ten digit telephone number that terminates within the Company local exchange's local calling area. The Company will translate the 211 digits into the telephone number provided by the Approved Information and Referral Service provider
  - c. When the Approved Information and Referral Service Provider applies for 211 Service in a Company local exchange and an Approved Information and Referral Service Provider call center is not located within the local exchange's local calling area, then the Approved Information and Referral Service Provider must establish foreign exchange service or supply the Company with a toll free telephone number so that Company subscribers' 211 Service calls do not incur toll charges.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd)

B. OBLIGATIONS OF THE APPROVED INFORMATION AND REFERRAL SERVICE PROVIDER (Cont'd)

4. The Approved Information and Referral Service Provider is liable for and will indemnify, protect, defend and hold harmless the Company against all suits, actions, claims, demands and judgments, plus any expenses and counsel fees incurred by the Company on account thereof, whether suffered, made, instituted or asserted by the Approved Information and Referral Service Provider or any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the Approved Information and Referral Service Provider or others, arising out of or resulting directly or indirectly from the 211 Service.
5. The Approved Information and Referral Service Provider must develop an appropriate method for responding to 211 calls directed to it out of confusion or in error by Company subscribers.
6. The Approved Information and Referral Service Provider must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public, and enable the Approved Information and Referral Service Provider to receive calls to the 211 Service during normal business hours.
7. The 211 Service is provided on the condition that the Approved Information and Referral Service Provider subscribes to termination facilities and lines in sufficient quantities to adequately handle calls to the 211 Service without interfering with or impairing any services offered by the Company. There will be one path available for each line to which the 211 Provider subscribes.
8. The Approved Information and Referral Service Provider must comply with all present and future state and federal rules pertaining to abbreviated dialing codes.
9. The Approved Information and Referral Service Provider is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 211 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.
10. The Approved Information and Referral Service Provider shall respond promptly to any and all complaints lodged with any regulatory authority against the 211 Service. If requested by the Company, the Approved Information and Referral Service Provider will assist the Company in responding to complaints made to the Company concerning the 211 Service.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd)

B. OBLIGATIONS OF THE APPROVED INFORMATION AND REFERRAL SERVICE PROVIDER (Cont'd)

11. The Approved Information and Referral Service Provider shall not promote the 211 Service with the use of an autodialer or broadcasting of tones that dial the 211 abbreviated dialing code.
12. The 211 Service is only available to end users located in Company local exchanges. To establish 211 calling to end users in non-Company local exchanges, the Approved Information and Referral Service Provider must make appropriate arrangements with the companies serving those local exchanges, even where Company subscribers may make local calls to the non-Company local exchanges.
13. The Approved Information and Referral Service Provider must work separately with competitive local exchange carriers operating and serving customers in the Company's local exchanges to ascertain whether 211 abbreviated dialing will be available to their end users.

C. OBLIGATIONS OF THE COMPANY

1. The Company will establish the 211 Service within ninety days after receipt of the Approved Information and Referral Service Provider's completed application(s) for service or the effective date of this tariff, whichever is later.
2. When a 211 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 211 Service call, the quality of the call or any features that may otherwise be provided with 211 Service.
3. The Company does not undertake to answer and forward 211 Service calls but furnishes the use of its facilities to enable the Approved Information and Referral Service Provider to respond to such calls at the Approved Information and Referral Service Provider established call centers.
4. The rates charged for 211 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The Approved Information and Referral Service Provider shall make such operational tests as, in the judgment of the Approved Information and Referral Service Provider, are required to determine whether the Company's facilities are functioning properly for its use. The Approved Information and Referral Service Provider shall promptly notify the Company in the event the Company's facilities are not functioning properly.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd)

D. LIABILITY

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 211 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the Approved Information and Referral Service Provider for the 211 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
2. The Company is not liable for losses or damages caused by the negligence of the Approved Information and Referral Service Provider.
3. The Company's entire liability to any person for interruption or failure of the 211 Service is limited to the terms set forth in this section and other sections of this Tariff.

E. OTHER TERMS AND CONDITIONS

1. The 211 Service will not provide calling number information in real time to the Approved Information and Referral Service Provider. If this type of information is required, the Approved Information and Referral Service Provider must subscribe to compatible Caller ID service as described in Section 43 of this tariff. The Caller ID service will only provide calling number information as described in Section 43 of this tariff.
2. The 211 Service is provided for the benefit of the Approved Information and Referral Service Provider. The provision of the 211 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the Approved Information and Referral Service Provider.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd)

E. OTHER TERMS AND CONDITIONS (Cont'd)

3. A written notice will be sent to the Approved Information and Referral Service Provider following oral notification when its 211 Service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of abbreviated dialing codes. If after notification the Approved Information and Referral Service Provider makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the Approved Information and Referral Service Provider is unwilling to accept the modifications, or if the Approved Information and Referral Service Provider continues to cause service impairment, the Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service.
4. In an emergency situation as determined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures, up to and including termination of service.

F. RATES AND CHARGES

1. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the Approved Information and Referral Service Provider shall be able to receive calls using the 211 Service as part of both parties' local exchange service. The 211 Service is supplemental to and is not a replacement for either party's local exchange service.
2. A nonrecurring Central Office Charge applies for each Company host central office out of which 211 Service is established, as follows:
  - a. When a Company local exchange is served by more than one host central office a Central Office Charge is applicable for each host central office in the Company local exchange.
  - b. If the Approved Information and Referral Service Provider establishes 211 Service in multiple Company local exchanges served by the same host central office, only one Central Office Charge shall apply. However, the full Central Office Charge applies whether or not the Approved Information and Referral Service Provider requests 211 Service in all the Company local exchanges served by that host central office.

IV. 211 SERVICE FOR INFORMATION AND REFERRAL SERVICE (Cont'd)

F. RATES AND CHARGES (Cont'd)

- 3. An Exclusion Charge Applies for the establishment of 211 Service as follows:
  - a. When the Approved Information and Referral Service Provider does not simultaneously establish 211 Service in every Company local exchange served by a host central office, the Approved Information and Referral Service Provider shall pay an Exclusion Charge for each Company local exchange served by the host central office where 211 Service is not established.
  - b. When a Company local exchange is once excluded, but the Approved Information and Referral Service Provider later applies to establish 211 Service in the Company local exchange, an Exclusion Charge again applies for each local exchange that continues to be excluded.
  - c. When the Approved Information and Referral Service Provider requests a different telephone number be translated to the 211 abbreviated dialing code in a participating central office than the telephone number translated to the 211 abbreviated dialing code in the host central office.
- 4. A nonrecurring Number Change Charge applies when the Approved Information and Referral Service Provider changes the telephone number into which the 211 abbreviated dialing code is translated. The Number Change Charge is applied on a per telephone number, per host central office basis.
- 5. When translating the seven or ten digit number to the 211 abbreviated dialing code, applicable Service Connection Charges as specified in Section 30 of this tariff will apply as follows, in addition to the rates listed below.
  - 1. A business rate Record Order Charge per order, as found in Section 30 of this tariff.

6. Rates

	<u>Nonrecurring Charge</u>
a. Central Office Charge (per host Central Office)	\$ 275.00
b. Exclusion Charge (per Exchange)	300.00
c. Number Change Charge (per telephone number)	40.00

FCC DESIGNATED N11 SERVICES

V. NON-EMERGENCY 311 SERVICE

A. GENERAL

1. Non-Emergency 311 Service (NE311) is a local telephone exchange communications service which allows Company subscribers to reach non-emergency local government services by dialing an abbreviated telephone number. The Federal Communications Commission (FCC) reserved the abbreviated telephone number, 3-1-1, for non-emergency access to public services. NE311 Service is an optional service which may be purchased by a local municipality, state or local governmental unit to whom authority has been lawfully delegated. The NE311 Service Provider must be granted authority by the appropriate city, county, or state officials to provide the service.
2. NE311 Service allows a Company subscriber to access an approved NE311 Service Provider by dialing only the 311 abbreviated dialing code. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the NE311 Service Provider shall be able to receive calls using the NE311 Service as part of their local exchange services. The NE311 Service is supplemental to and is not a replacement for either party's local exchange service.
3. All NE311 Service calls must be local in nature and shall not result in any intraLATA toll, interLATA long distance or pay-per-call charges to Company subscribers. However, NE311 Service calls may result in local measured service charges where Company subscribers' service plans include such charges as part of Extended Area Service (EAS) exchange calling. NE311 Service calls are not permitted where local calling is restricted.
4. The NE311 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operated assisted calling and 101XXXX calling. NE311 Service is otherwise available wherever local service is accessible.
5. Only calls originating within a NE311 Service Provider's area of jurisdiction (the "NE311 Service Area") will be routed to a call center/answering point designated by the NE311 Service Provider. There can be only one NE311 Service Provider in each geographic area. NE311 Service areas may not overlap. This assures that NE311 calls from a telephone line within a NE311 Service Area can be routed to a unique NE311 call center/answering point.
6. NE311 Service is offered subject to the availability of facilities.

V. NON-EMERGENCY 311 SERVICE (Cont'd)

B. OBLIGATIONS OF THE NON-EMERGENCY 311 SERVICE PROVIDER

1. The NE311 Service Provider must submit a written application for NE311 Service on a Company local exchange by local exchange basis. The NE311 Service Provider may establish NE311 Service in all or part of the Company's local exchanges. There may be only one NE311 Service Provider per exchange.
2. The NE311 Service Provider's written application to establish NE311 Service in a Company local exchange shall include the following:
  - a. The unpublished local telephone number into which the Company is to translate the dialed NE311 abbreviated code. If the NE311 Service Provider desires to change the telephone number into which the NE311 abbreviated dialing code is translated in an exchange, then the NE311 Service Provider must pay the Number Change Charge specified in Section 13.V.F.7.c.(3) following.
  - b. A location description of the NE311 Service Provider call center where NE311 calls made from the Company local exchange will be routed.
  - c. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the NE311 Service.
  - d. An acknowledgment of the possibility that the Commission's assignment of the NE311 abbreviated dialing code may be recalled at any time.
3. Local Calling for Company Subscribers
  - a. The NE311 Service Provider, in cooperation with the Company, shall assure that all NE311 Service calls are local in nature and do not generate local, Extended Area Service (EAS), Metropolitan Calling Area (MCA) Service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
  - b. When the NE311 Service Provider applies for NE311 Service in a Company local exchange, the NE311 Service Provider shall supply the Company with an unpublished seven or ten digit telephone number that terminates within the Company local exchange's local calling area. The Company will translate the dialed NE311 dialing code into the telephone number provided by the NE311 Service Provider.
  - c. When the NE311 Service Provider applies for NE311 Service in a Company local exchange and a NE311 Service Provider call center is not located within the local exchange's local calling area, then the NE311 Service Provider shall establish foreign exchange service or supply the Company with a toll free telephone number so that Company subscribers' NE311 Service calls do not incur toll charges.

V. NON-EMERGENCY 311 SERVICE (Cont'd)

B. OBLIGATIONS OF THE NON-EMERGENCY 311 SERVICE PROVIDER (Cont'd)

4. The NE311 Service Provider is liable for and will indemnify, protect, defend and hold harmless the Company against all suits, actions, claims, demands and judgments, plus any expenses and counsel fees incurred by the Company on account thereof, whether suffered, made, instituted or asserted by the NE311 Service Provider or any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the NE 311 Service Provider or others, arising out of or resulting directly or indirectly from the NE311 Service.
5. The NE311 Service Provider must develop an appropriate method for responding to NE311 calls directed to it out of confusion or in error by Company subscribers. This includes calls from customers that reside within the Company local exchange but outside the legally designated jurisdiction of the NE311 Service Provider (i.e. exchange boundaries that cross county borders.)
6. The NE311 Service Provider must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public, and enable the NE 311 Service Provider to receive calls to the NE 311 Service during normal business hours.
7. NE311 Service is provided on the condition that the NE311 Service Provider subscribes to termination facilities and lines in sufficient quantities to adequately handle calls to the NE311 Service without interfering with or impairing any services offered by the Company. There will be one path available for each line to which the NE 311 Service Provider subscribes.
8. The NE311 Service Provider must comply with all present and future state and federal rules pertaining to abbreviated dialing codes, including any and all requirements to relinquish the 311 abbreviated dialing code in the event of a national assignment contrary to that made by the Missouri Public Service Commission.
9. The NE311 Service Provider is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 311 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.
10. The NE311 Service Provider must respond promptly to any and all complaints lodged with any regulatory authority against the NE311 Service. If requested by the Company, the NE311 Service Provider shall assist the Company in responding to complaints made to the Company concerning the NE311 Service.
11. The NE311 Service Provider shall not promote the NE311 Service with the use of an autodialer or broadcasting of tones that dial the NE311 abbreviated dialing code:

V. NON-EMERGENCY 311 SERVICE (Cont'd)

B. OBLIGATIONS OF NON-EMERGENCY 311 SERVICE PROVIDER (Cont'd)

12. NE311 Service is only available to end users located in Company local exchanges. To establish NE311 calling to end users in non-Company local exchanges, the NE311 Service Provider must make appropriate arrangements with the companies serving those local exchanges, even where Company subscribers may make local calls to the non-Company local exchanges.
13. The NE311 Service Provider must work separately with competitive local exchange carriers operating and serving customers in the Company's local exchanges to ascertain whether NE311 abbreviated dialing will be available to their end users.
14. In the event that an end user mis-dials and reports an emergency by dialing 311, the NE311 Service Provider agrees to release, indemnify, defend, and save harmless the Company from claims, suits, actions, damages, costs, judgments, actions of every name and description arising out of or due to acts or omissions of the NE311 Service Provider, its agents and its employees while answering and dispatching 311 calls.

C. OBLIGATIONS OF THE COMPANY

1. The Company will establish the NE311 Service within ninety days after receipt of the NE311 Service Provider's completed application(s) for service or of the effective date of the tariff, whichever is later
2. When an NE311 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said NE311 Service call, the quality of the call or any features that may otherwise be provided with NE311 Service.
3. The Company will route NE311 calls originating from end users on the Company's local exchange network whether they purchase service directly from the Company or from another provider reselling Company service. Otherwise, the Company is not responsible for establishing NE311 Service for calls originating from other telecommunications providers.
4. The Company does not undertake to answer and forward NE311 Service calls but furnishes the use of its facilities to enable the NE311 Service Provider to respond to such calls at NE311 Service Provider established call centers.

FCC DESIGNATED N11 SERVICES

V. NON-EMERGENCY 311 SERVICE (Cont'd)

C. OBLIGATIONS OF THE COMPANY (Cont'd)

5. The rates charged for NE311 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The NE311 Service Provider shall make such operational tests as, in the judgment of the NE311 Service Provider, are required to determine whether the Company's facilities are functioning properly for its use. The NE311 Service Provider shall promptly notify the Company in the event the Company's facilities are not functioning properly.
6. NE311 Service is furnished subject to all operating failures and interruptions, including, but not limited to, equipment breakdowns, errors, defects, malfunctions and interruptions of service experienced in the regular telephone exchange system. The rates provided for this service are subject to the limitations which appear in this section and in other applicable sections of this and other tariffs. The Company does not undertake to provide a higher level of service reliability and quality than the telephone exchange service being provided in the exchange that NE311 Service is offered.

D. LIABILITY

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing NE311 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the NE311 Service Provider for the NE311 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs. The Company has no liability for losses or damages caused by the negligence of the NE311 Service Provider.
2. The Company's entire liability to any person for interruption or failure of the NE311 Service shall be limited to the terms set forth in this section and other sections of this Tariff.
3. The Commission's local assignment and the NE311 Service Provider's use of the 311 abbreviated dialing code is subject to preemption by the Federal Communications Commission. The Company shall not be liable to the NE311 Service Provider for any damages the NE311 Service Provider may incur that results from a national assignment of the 311 abbreviated dialing code.
4. The Company accepts no responsibility for obtaining subscriber record information from telephone end users.
5. The Company will make every effort to route NE311 calls to the appropriate NE311 Service Provider calling center, however, the Company will not be held responsible for routing mistakes or errors.

V. NON-EMERGENCY 311 SERVICE (Cont'd)

E. OTHER TERMS AND CONDITIONS

1. The NE311 Service will not provide calling number information in real time to the NE311 Service Provider. If this type of information is required, the NE311 Service Provider must subscribe to compatible Caller ID service as described in Section 43 of this tariff. The Caller ID Service will only provide calling number information as described in Section 43 of this tariff.
2. The NE311 Service is provided solely for the benefit of the NE311 Service Provider. The provision of the NE311 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the NE311 Service Provider.
3. A written notice will be sent to the NE311 Service Provider following oral notification when its NE311 Service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of abbreviated dialing codes. If after notification the NE311 Service Provider makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the NE311 Service Provider is unwilling to accept the modifications, or if the NE311 Service Provider continues to cause service impairment, the Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service. In an emergency situation as defined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures, up to and including termination of service.

F. RATES

1. The nonrecurring charges associated with the initial NE311 Service establishment are specified in Section 13.V.F.7 following. These are one-time charges which apply only when the NE311 Service Provider establishes or modifies NE311 Service.
2. The NE311 Service Provider shall pay a nonrecurring Central Office Charge for each Company host central office out of which NE311 Service is established.
  - a. Some Company local exchanges are served by more than one host central office. In order to establish NE311 Service in such an exchange, the NE311 Service Provider shall pay a Central Office Charge for each host central office in the Company local exchange.

F. RATES (Cont'd)

2. (Cont'd)

- b. Some host central offices serve more than one Company local exchange. If the NE311 Service Provider makes applications to establish NE311 Service in multiple Company local exchanges served by the same host central office, then only one Central Office Charge shall apply. However, the full Central Office Charge applies whether or not the NE311 Service Provider requests NE311 Service in all the Company local exchanges served by that host central office.
3. An Exclusion Charge Applies in lieu of a Central Office Charge for the establishment of NE311 Service as follows:
  - a. When the NE311 Service Provider does not simultaneously establish NE311 Service in every Company local exchange served by a host central office, the NE311 Service Provider shall pay an Exclusion Charge per host central office if any local exchange(s) are excluded from the transaction.
  - b. When a Company local exchange is once excluded, but the NE311 Service Provider later applies to establish NE311 Service in the Company local exchange, than an Exclusion Charge applies per host central office when a local exchange continues to be excluded from the translation.
  - c. When the NE311 Service Provider requests a different telephone number be translated to the 311 abbreviated dialing code in a participating Company local exchange than the telephone number translated to the 311 abbreviated dialing code in the host central office, then an Exclusion Charge applies per host central office.
4. A nonrecurring Number Change Charge applies when the NE311 Service Provider changes the telephone number into which the NE311 abbreviated dialing code is translated. The Number Change Charge shall be applied on a per telephone number, per host central office basis.
5. When translating the seven or ten digit number to the 311 abbreviated dialing code, applicable Service Connection Charges as specified in Section 30 of this tariff will apply in addition to the rates listed below.
  - a. A business rate Record Order Change per order, as found in Section 30 of this tariff.
6. The minimum service period for NE311 Service is one month.

VI. 511 SERVICE FOR TRAVEL INFORMATION SERVICES

A. GENERAL

1. 511 Dialing Code ("511") is a three digit local dialing arrangement for telephone voice transmission access to all certified Travel Information Service entities as a toll free call. The Federal Communications Commission (FCC) assigned the 511 dialing code for nationwide access to Travel Information Services.
2. The three digit 511 abbreviated dialing code is assigned to the Approved Travel Information Service Provider ("511 Provider") for use in providing community Travel Information services to the public by way of voice grade facilities.
3. 511 is available from Sprint Missouri, Inc. d/b/a Sprint within the Company's service area only. To provide access to 511 to end users in another company service area or to a Competitive Local Exchange Carrier (CLEC) end users within the local calling area, the 511 Provider must make appropriate arrangements with the other company or CLEC serving that territory. The 511 Provider should work separately with competing local providers to ascertain that its end user customers will be able to reach relay services provided by dialing 511.
4. All 511 abbreviated dialing code calls must be local in nature and will not result in any intraLATA toll, interLATA long distance or pay-per-call charges to Company subscribers. However, 511 Service calls may result in measured service charges where Company subscribers' service plans include such charges as part of local measured service or home exchange service calling plans.
5. The 511 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. 511 Service is otherwise available wherever local service is accessible.
6. 511 Service is offered subject to the availability of facilities..

VI. 511 SERVICE FOR TRAVEL INFORMATION SERVICES (Cont'd)

B. OBLIGATIONS OF THE APPROVED TRAVEL INFORMATION SERVICES PROVIDER

1. The 511 Provider must submit a written application to the Company for 511 Service at the local exchange level. The 511 Provider may establish 511 Service in all or part of the Company's local exchanges. There may be only one 511 Provider per exchange.
2. The 511 Provider's written application to establish 511 Service in a Company local exchange must include the following:
  - a. The local, foreign exchange or toll free telephone number into which the Company should translate the dialed 511 abbreviated code. If the 511 Provider desires to change the telephone number into which the 511 abbreviated dialing code is translated, the 511 Provider must pay a Number Change Charge as found in Section 13.VI.F.6. following.
  - b. A location description of the 511 Provider call center where 511 calls made from the Company local exchange will be routed.
  - c. For network sizing and protection, an estimate of annual call volumes and holding time for calls to the 511 Service.
  - d. An acknowledgment of the possibility that the Commission's assignment of the 511 abbreviated dialing code may be recalled at any time.
3. Local Calling for Company Subscribers
  - a. The 511 Provider, in cooperation with the Company, will assure that all 511 Service calls are local and do not generate intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
  - b. When the 511 Provider applies for 511 Service in a Company local exchange, the 511 Provider must supply the Company with a seven or ten digit telephone number that terminates within the Company local exchange's local calling area. The Company will translate the 511 digits into the telephone number provided by the 511 Provider.
  - c. When the 511 Provider applies for 511 Service in a Company local exchange and a 511 Provider call center is not located within the local exchange's local calling area, the 511 Provider must establish foreign exchange service or supply the Company with a toll free telephone number so that Company subscribers' 511 Service calls do not incur toll charges.

VI. 511 SERVICE FOR TRAVEL INFORMATION SERVICES (Cont'd)

B. OBLIGATIONS OF THE APPROVED TRAVEL INFORMATION SERVICES PROVIDER  
(Cont'd)

12. The 511 Service is available only to end users located in Company local exchanges. To establish 511 calling to end users in non-Company local exchanges, the 511 Provider must make appropriate arrangements with the companies serving those local exchanges, even where Company subscribers may make local calls to the non-Company local exchanges.
13. The 511 Provider must work separately with competitive local exchange carriers ("CLECs") operating and serving customers in the Company's local exchanges to ascertain whether 511 abbreviated dialing will be available to their end users.

C. OBLIGATIONS OF THE COMPANY

1. The Company will establish the 511 Service within ninety days after receipt of the 511 Provider's completed application(s) for service or the effective date of this tariff, whichever is later.
2. When a 511 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 511 Service call, the quality of the call or any features that may otherwise be provided with 511 Service.
3. The Company will route 511 calls originating from end users on the Company's local exchange network whether they purchase service directly from the Company or from another provider reselling Company service. Otherwise, the Company is not responsible for establishing 511 Service for calls originating from other telecommunications providers.
4. The Company does not undertake to answer and forward 511 Service calls but furnishes the use of its facilities to enable the 511 Provider to respond to such calls at the 511 Provider established call centers.
5. The rates charged for 511 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The 511 Provider must conduct such operational tests as, in the judgment of the 511 Provider, are required to determine whether the Company's facilities are functioning properly for its use. The 511 Provider must promptly notify the Company in the event the Company's facilities are not functioning properly.

VI. 511 SERVICE FOR TRAVEL INFORMATION SERVICES (Cont'd)

D. LIABILITY

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 511 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the 511 Provider for the 511 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
2. The Company is not liable for any losses or damages caused by the negligence of the 511 Provider.
3. The Company's entire liability to any person for interruption or failure of the 511 Service is limited to the terms set forth in this and other sections of this Tariff.
4. The Commission's local assignment and the 511 Service Provider's use of the 511 abbreviated dialing code is subject to preemption by the Federal Communications Commission. The Company shall not be liable to the 511 Service Provider for any damages the 511 Service Provider may incur that results from a national assignment of the 511 abbreviated dialing code.
5. The Company will make every effort to route 511 calls to the appropriate 511 Service Provider calling center, however, the Company will not be held responsible for routing mistakes or errors.

E. OTHER TERMS AND CONDITIONS

1. The 511 Service will not provide calling number information in real time to the 511 Provider. If this type of information is required, the 511 Provider must subscribe to compatible Caller ID service as described in Section 13 of this tariff. The Caller ID service will only provide calling number information as described in Section 43 of this tariff.
2. The 511 Service is provided for the benefit of the 511 Provider. The provision of the 511 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the 511 Provider.

VI. 511 SERVICE FOR TRAVEL INFORMATION SERVICES (Cont'd)

E. OTHER TERMS AND CONDITIONS (Cont'd)

3. A written notice will be sent to the 511 Provider following oral notification when its 511 Service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of abbreviated dialing codes. If after notification the 511 Provider makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the 511 Provider is unwilling to accept the modifications, or if the 511 Provider continues to cause service impairment, the Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service.
4. In an emergency situation as determined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures, up to and including termination of service.

F. RATES AND CHARGES

1. A Central Office Charge applies for each Company host central office out of which the 511 Provider orders 511 Service, as follows:
  - a. When a Company local exchange is served by more than one host central office, a Central Office Charge is applicable for each host central office in that local exchange.
  - b. If the 511 Provider establishes 511 Service in multiple Company local exchanges served by the same host central office, only one Central Office Charge applies. However, the full Central Office Charge applies whether or not the 511 Provider requests 511 Service in all the Company local exchanges served by that host central office.
2. An Exclusion Charge applies in the lieu of a Central Office Charge for the establishment of 511 Service as follows:
  - a. When the 511 Provider does not make simultaneous applications to establish 511 Service in every Company local exchange served by a host central office, the 511 Provider must pay an Exclusion Charge per host central office if any local exchange(s) are excluded from the translation.
  - b. When a Company local exchange is once excluded, but the 511 Provider later makes application to establish 511 Service in the Company local exchange, then an Exclusion Charge applies per host central office when a local exchange continues to be excluded from the translation.

F. RATES AND CHARGES (Cont'd)

- 2. An Exclusion Charge applies in the lieu of a Central Office Charge for the establishment of 511 Service as follows: (Cont'd)
  - c. When the 511 Provider requests a different telephone number be translated to the 511 abbreviated dialing code in a participating Company local exchange than the telephone number translated to the 511 abbreviated dialing code in the host central office, than an Exclusion Charge applies per host central office.
- 3. A Number Change Charge applies when the 511 Provider established service or applies to change the telephone number into which the 511 abbreviated dialing code is translated. The Number Change Charge is applied on a per telephone number, per host central office basis.
- 4. When translating the seven or ten digit number to the 511 abbreviated dialing code, applicable Service Connection Charges as specified in Section 30 of this tariff will apply as follows, in addition to the rates listed in Section 13.VI.F.6 below.
  - 1. A business rate Record Order Charge per order, as found in Section 30 of this tariff.
- 5. The minimum service period for 511 Service is one month.
- 6. Rates:

	Non-Recurring Charge
Central Office Charge (per host Central Office)	\$ 275.00
Exclusion Charge (per host Central Office)	300.00
Number Change Charge (per telephone number)	40.00

VII. 811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS

A. GENERAL

1. 811 Dialing Code ("811 Service") is a three digit local dialing arrangement for telephone voice transmission access to all certified "One Call" notification systems entities as a toll free call. The Federal Communications Commission (FCC) assigned 811 dialing code for nationwide access to One Call Notification Systems.
2. The three digit 811 abbreviated dialing One Call Notification code is assigned to the Approved "811 Provider" for use in providing One Call notification services to the public by way of voice grade facilities.
3. 811 Service is available from Embarq Missouri, Inc (the Company) within the Company's service area only. To provide access to 811 to end users in another company service area or to a Competitive Local Exchange Carrier (CLEC) end users within the local calling area, the 811 Provider must make appropriate arrangements with the other company or CLEC serving that territory. The 811 Provider should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.
4. All 811 abbreviated dialing code calls must be local in nature and will not result in any intraLATA toll, interLATA long distance or pay-per-call charges to Company subscribers. However, 811 Service calls may result in local measured service charges where Company subscribers' service plans include such charges.
5. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. 811 Service is otherwise available wherever local service is accessible.

VII. 811 SERVICE FOR "ONE CALL" NOTIFICATION SYSTEMS (Cont'd)

B. OBLIGATIONS OF THE APPROVED "ONE CALL" NOTIFICATION SYSTEMS PROVIDER

1. Local Calling for Company Subscribers
  - a. The 811 Provider, in cooperation with the Company will assure that all 811 Service calls are local and do not generate Local Extended Area Service (EAS), Metropolitan Calling Area Service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
  - b. When the 811 Provider applies for 811 Service from the Company, the 811 Provider must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by the 811 Provider.
2. If requested by the Company, the 811 Provider must assist the Company in responding to complaints made to the Company concerning the 811 Service.
3. The 811 Provider must work separately with competitive local exchange carriers ("CLECs") operating and serving customers in the Company's exchanges to ascertain whether 811 abbreviated dialing will be available to their end users.

C. OBLIGATIONS OF THE COMPANY

1. The Company will route 811 calls originating from end users on the Company's local exchange network whether they purchase service directly from the Company or from another provider reselling company service. Otherwise, the Company is not responsible for establishing 811 Service for calls originating from other telecommunications providers.
2. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable the 811 Provider to respond to such calls at the 811 Provider established call centers
3. The rates charged for 811 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility.

D. LIABILITY

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the 811 Provider for the 811 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
2. The Company is not liable for any losses or damages caused by the negligence of the 811 Provider.
3. The Company's entire liability to any person for interruption or failure of the 811 Service is limited to the terms set forth in this and other sections of this Tariff.
4. The Company shall not be liable to the 811 Service Provider for any damages the 811 Service Provider may incur that results from any changes, modifications or rulings made by the Federal Communications Commission.
5. The Company will make every effort to route 811 calls to the appropriate 811 Service Provider calling center, however, the Company will not be held responsible for routing mistakes or errors.

VI. 811 SERVICE FOR TRAVEL INFORMATION SERVICES (Cont'd)

E. RATES AND CHARGES

1. A Central Office Charge applies for each Company host central office out of which the 811 Provider orders 811 Service, as follows:
  - a. When a Company exchange is served by more than one host central office, a Central Office Charge is applicable for each host central office in that exchange.
  - b. If the 811 Provider establishes 811 Service in multiple Company exchanges served by the same host central office, only one Central Office Charge applies.
2. A Number Change Charge applies when the 811 Provider established service or applies to change the telephone number into which the 811 abbreviated dialing code is translated. The Number Change Charge is applied on a per telephone number, per host central office basis.
3. When translating the seven or ten-digit number to the 811 abbreviated dialing code, applicable Service Connection Charges as specified in Section 30 of this Tariff will apply, in addition to the rates listed in Section VI.F.4.

4. Rates:	Nonrecurring <u>Charge</u>
Central Office Charge <sup>(1)</sup>	\$275.00
Number Change Charge (per Telephone Number)	40.00

<sup>(1)</sup> This is applied at the host central office only, and covers all offices that are part of that host complex with a single translated number. If more than one translated number is desired, apply the charge as many times as there are numbers. Any given office must have one number translated to – this cost does not cover cases where the Local Agency wants two or more translated numbers. Such a case would require class marking or a database.
