INTRODUCTION

This tariff applies to the Company's resale and facilities-based offering of local exchange telecommunications services, upon receiving a customer request for service, within the State of Missouri in the exchanges served by and as listed in the tariffs of Southwestern Bell Telephone Company ("SWBT"), CenturyTel of Missouri, LLC ("CenturyTel") and Sprint Missouri, Inc. ("Sprint").

All Services in this tariff are grandfathered and available to existing Customers only.
Services are not available for new installations.

SECTION 5 – LOCAL EXCHANGE SERVICE

All Services listed in this Section are grandfathered and available to existing Customers only. Services are not available for new installations.

(N)**(N)****5.1 General**

Local exchange service is offered to business and residential Customers on a presubscription basis from equal access originating end offices only. Usage rates, per call charges and monthly fees may apply. In addition, applicable Service Order and other non-recurring charges may apply. Call timing is defined in the description for each service. Service is available 24 hours a day, 7 days a week. Service is available where technically feasible and where facilities permit.

Local Exchange services cannot be used to originate calls to caller-paid information services (e.g., 900, 976) provided by other companies. Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company switch.

5.2 Call Timing for Usage Sensitive Services

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 5.1.1** Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.
- 5.1.2** Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).
- 5.1.3** Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- 5.1.4** Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 5.1.5** All times refer to local time.

Issued: January 3, 2017
