REC'D DEC 26 2002

TARIFF FORMAT Service Commission

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the MOPSC. For example, the 4th revised Sheet 14 cancels the third revised Sheet 14. Because of various suspension periods, deferrals, etc. the MOPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a tariff filing is made with the MOPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the MOPSC.

MISSOURI

This tariff contains the regulations and rates applicable to intrastate resale telecommunications services provided by Matrix for telecommunications between points within the State of Missouri. Resale services are furnished subject to the availability of facilities and subject to the terms and conditions of this tariff in compliance with limitations set forth in the Commission's rules. The Company's services are provided on a statewide basis and are not intended to be limited geographically. The Company offers service to all those who desire to purchase service from the Company consistent with all of the provisions of this tariff. Customers interested in the company's services shall file a service application with the Company which fully identifies the Customer, the services requested and other information requested by the Company. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the Customer, to allow connection of a Customer's location to a service provided by the Company. The Customer shall be responsible for all charges due for such service arrangement. The Company does not own any switching, transmission or other physical facilities in Missouri.

- 2.1.1 The services provided by Matrix are not part of a joint undertaking with any other entity providing telecommunications channels, facilities, or services, but may involve the resale of the Message Toll Services (MTS) and Wide Area Telecommunications Services (WATS) of underlying common carriers subject to the jurisdiction of this Commission.
- 2.1.2 The rates and regulations contained in this tariff apply only to the resale services furnished by Matrix and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other common carriers for use in accessing the services of Matrix.
- 2.1.3 The Company reserves the right to limit the length of communications, to discontinue furnishing services, or limit the use of service necessitated by conditions beyond its control, including, without limitation: lack of satellite or other transmission medium capacity; the revision, alteration or repricing of the Underlying Carrier's tariffed offerings; or when the use of service becomes or is in violation of the law or a provision of this tariff.

SECTION 3 - DESCRIPTION OF SERVICE3.1 Timing of Calls

- 3.1.1 The Customer's long distance usage charge is based on the actual usage of Matrix Telecom, Inc.'s network. Usage begins when the called party picks up the receiver. When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when either the called or calling party hangs up. There will be no charges for incomplete calls.
- 3.1.2 The minimum call duration and initial billing period is 60 seconds for all intrastate direct dialed calls unless otherwise specified by this tariff. Any additional period is measured and rounded to the next higher 60 second increment unless otherwise specified by this tariff.

## 3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4

FORMULA:

$$2 \sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

EXAMPLE: Distance between Miami and New York City -

VH

Miami	8,351	529
New York	4,997	1,406
Difference	3,354	-879

Square and add: 11,249,316 + 772,641 = 12,021,957

Divide by 10 and round: 12,021,957 / 10 = 1,202,195.70

Public Service Commission  
MISSOURI**4.5.1 Discount for Hearing Impaired Customers:**

A telephone toll message which is communicated using a telecommunications device for the deaf (TDD) by properly certified hearing or speech impaired persons or properly certified business establishments for individuals equipped with TDDs for communicating with hearing or speech impaired persons will receive, upon request, a discount for calls placed between TDDs. The credit to be given on a subsequent bill for such calls placed between TDDs will result in the application of the evening rate for calls made during daytime hours and night rates for calls made during evening and night hours. Discounts do not apply to surcharges or per call add on charges for operator service when the call is placed by a method that would normally incur the surcharge.

**4.5.2 Operator Assistance for Handicapped Persons:**

Operator station surcharges will not be charged by the Company for operator assistance provided to a caller who identified him or herself as being handicapped and unable to dial the call because of a handicap.

**4.5.3 Directory Assistance for Handicapped Persons:**

There is no charge for Directory Assistance calls from handicapped persons. Such persons must contact the Company for credit on their directory assistance calls.
