RULES GOVERNING
RENDERING OF **SEWER SERVICE**

+ REC'D AUG 03 1999

SCHEDULE OF SEWER RATES

Availability:

Available to any customer located in the Company's certificated service territory.

Sewer Service Rates:

Residential and Commercial Monthly Charge (5/8" & 3/4" meters)	\$ 15.83 per Month	+
Commercial, Multi-Family & Resid. Monthly Charge (1" meter)	\$ 39.57 per Month	+
Commercial, Multi-Family & Resid. Monthly Charge (2" meter)	\$126.64 per Month	+

Aerator Service:	\$ 18.00 per Quarter	+
-------------------------	----------------------	---

Taxes: Any applicable Federal, State or local taxes computed on a billing basis shall be added as separate items in rendering each bill.

+ **Late Payment Charge:** Billings will be made and distributed at monthly intervals. Bills will be rendered net, bearing the last date on which payment will then be considered delinquent. The period after which the payment is considered delinquent is 21 days after rendition of the bill. A charge of one and one half percent (1 1/2%) per month times the unpaid balance will be added to delinquent amounts

* **Bad Check Charge:** A bad check charge of \$15 per check will be paid on all checks returned from the bank for insufficient funds.

* **NOTE:** The above sewer service rates are subject to the terms and conditions of an agreement between the Company, the Staff of the Missouri Public Service Commission and the Office of the Public Counsel, as approved by the Missouri Public Service Commission in Case No. SR-2000-69.

RULES GOVERNING
 RENDERING OF SEWER SERVICE

Missouri Public
 Service Commission

SCHEDULE OF SEWER SERVICE CHARGES

REC'D AUG 03 1999

Reconnection of Service for "Seasonal" Terminations Charge:

A charge of \$10.00 plus the monthly Sewer Service Rate times the number of months "off-system" (not to exceed 9 months) shall be charged where the same beneficial service recipient terminates and restores service to the same location within a 12-month period. Restoration of service of a non-payment after 45 days is deemed to be a seasonal reconnection of service.

Discontinuance of Service (at Company's Request) for Non-Payment of Bill

Charge: Reconnection turn-on charge \$15.00

Serviceman Collection Fee:

A fee of \$15 will be charged where during regular working hours a serviceman collects the delinquent balance of a customer's account (in lieu of discontinuance). This fee will be \$25 when such collection occurs after 5:00 p.m. and before 8:00 a.m. during weekdays and on weekends. Where the Company also renders water service, this charge will be either the \$15 or the \$25 charge, as applicable, but the customer will only be charged once where the Company provides both water & sewer service.

Service Connection Fees:

Size of Connection	Charge
Single Family Connections	\$ 400
*Commercial & Multi-Family Connections	\$ 400

The above Commercial & Multi-Family connection fee will apply up to the 7,100 gallons per month average water usage. For each additional 1,000 gallons of average water usage, the connection fee will be increased by \$60 per 1,000 gallons per month of average water usage.

The Service Connection Fee will be a one-time charge made by the Company to the customer for all sewer service connections made to the Company's sewer collection line for transportation, treatment and ultimate disposal.

Single Family Residence.....\$ 400.

* Commercial and Other Services.....\$ 400.

The above Commercial Rate will apply up to 7,000 gallons per month average water usage. Each additional 1,000 gallons of average water usage, the connection fee will be increased to \$60 per 1,000 gallons per month of average water usage.

The Sewer Connection Charge will be a one time charge made by the Company to the customer for all Sewer Service Connections made to the Company's Sewer Collection Line for transportation, treatment and ultimate disposal.

Where interim sewer service is available or could be made available by the Company, the Company shall have the right to charge the Sewer Connection Charge, to the customer for providing such interim sewer collection and treatment facility so long as the Company maintains that Sewer Connection Charge shall be a one time charge and does not charge the customer for connecting to the Company's Central Sewer Collection Line and/or when the interim sewer facilities are integrated by the Company into the Central Sewer System.

* Individual Treatment Facility (Aerator) shall not be considered as temporary sewer service, but the Company will provide Individual Treatment Facility (Aerator) subject to Rule 10.

All approved Rules and Regulations filed by the Company with the Missouri Public Service Commission, shall be applicable in respect to providing the Sewer Service Connection to the customers by the Company.

Rules and Regulations Governing Rendering
of Sewer Service

MAR 12 1974

MISSOURI

Public Service Commission

Rule 1 GENERAL

- (a) Every Customer, upon signing an application for service rendered by the Company, or upon taking of sewer service, shall be considered to have expressed consent to be bound by these rates, rules and regulations.
- (b) The company's rules and regulations governing rendering of service are set forth in these numbered sheets. The Company reserves the right, subject to authority of the Public Service Commission of Missouri, to prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may from time to time deem necessary or proper.
- (c) The sewer service made available under these rules is for the use of the Customer on his premises, and he shall not re-sell any of it without written consent of this Company. The Company's rates are predicated upon the supply of service being rendered separately for each premise and the ultimate usage in or on such separate premises.
- (d) At the effective date of these rules and regulations, all new facilities, construction contracts, and written agreements shall conform to these rules and regulations in accordance with the statutes of the State of Missouri and authority of the Public Service Commission of Missouri. However, nothing in these rules and regulations shall require reconstruction or alteration of existing facilities, contracts or written agreements to provide conformance either at the effective date or thereafter, excepting where such alteration is mutually agreeable between the Company and the customers involved or is considered necessary by the Company.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

- (a) The Customer will provide the customer service sewer at his expense and risk. As a condition of service, inside piping and building sewer construction must meet all of the requirements of the latest editions of the Plumbing Rules and Regulations of the Administrative Building Council, Volume III, at the time of connection to the system. The Company shall deny service where footing drains, downspouts, or other sources of uncontaminated water are permitted to enter the system through either the inside piping or through the building sewer.
- (b) A separate and independent Customer service sewer shall be required for every building: except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the Customer's service sewer from the front building may be extended to the rear building and the whole considered as one Customer's service sewer.
- (c) Old Customer service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.
- (d) The Customer's service sewer shall be cast iron soil pipe, ASTM specification or equal; vitrified clay sewer pipe, ASTM specification or equal; or other suitable material approved by the Company. Joints shall be tight and water proof. Any part of the customer's service sewer that is located within ten feet of a water service pipe shall be constructed

of cast iron soil pipe with leaded joints. Pipes with leaded joints may be required where the Customer's service sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's service sewer shall be of cast iron soil pipe, except that non-metallic material may be accepted if laid on a suitable concrete bed or cradle as approved by the said Company.

- (e) The size and slope of the Customer's service sewer shall be subject to the approval of the Company, but in no event shall the diameter be less than six (6) inches. The slope of such six (6) inch pipe shall not be less than one-eighth (1/8) inch per foot.
- (f) Whenever possible the Customer's service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three feet of any bearing wall. The depth shall be sufficient to afford protection from frost. The Customer's service sewer shall be laid at a uniform grade and in straight alignment.
- (g) In all buildings in which any building drain is too low to permit gravity flow to the Company's main sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used.
- (h) All excavations required for the installation of a Customer's service sewer shall be open to the street unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with ASTM specifications except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.

Rules and Regulations Governing Rendering
of Sewer Service

MAR 12 1974

MISSOURI

Public Service Commission

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWERS

- (i) The connection of the Customer's sewer service into the main shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's main is twelve (12) inches in diameter or less and no properly located "Y" branch in the Company's main at the location specified by the Company, a "Y" branch must be installed. Where the Company's main is greater than twelve (12) inches in diameter, and no properly located "Y" branch is available, a neat hole may be cut in the Company's main to receive a saddle to which the Customer's service sewer will be connected. The invert of the Customer's service sewer at the point of connection shall be at the same or at a higher elevation than the center line of the Company's main. A smooth neat joint shall be made, and the connection made secure and water tight by encasement in concrete.
- (j) It is understood that all facilities above described are to be constructed and maintained by the applicant subject to the approval of any Company authorized inspector, and in accordance with the Rules and information of the Company in force at that time.

Rule 6 IMPROPER WASTE OR EXCESSIVE USE

- (a) The following requirements for the use of the sanitary sewer system shall be observed. Violation of these requirements will result in the discontinuance of service to the Customer.
- (b) No person shall discharge or cause to be discharged, any storm water, surface water, ground water, roof runoff, sub-surface drainage, industrial cooling water to any Company's mains.

daily sewage flow of the system, shall be subject to the review and approval of the Company. Where necessary in the opinion of the Company, the Customer shall provide at his expense, such preliminary treatment as may be necessary to (a) reduce the Biochemical Oxygen Demand to 400 parts per million and the suspended solids to 450 parts per million by weight, or (b) reduce objectionable characteristics or constituents to within the maximum limits provided for in Rule 6, Paragraph (c) or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Company and of the Missouri Clean Water Commission, and no construction of such facilities shall be commenced until said approval is obtained in writing.

- (g) Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation, by the Customer at his expense.
- (h) When required by the Company, the Customer service sewer carrying industrial wastes shall include a suitable control manhole in the Customer service sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Company. The manhole shall be installed by the Customer at his expense, and shall be maintained by him so as to be safe and accessible at all times.
- (i) All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in Rule 6, Paragraph (c), and Rule 6, Paragraph (f), shall be determined in accordance with "Standard Methods of Analyses of Water, Sewage and Industrial

Wastes" as published by the American Public Health Association and shall be determined at the control manhole provided for in Rule 6, Paragraph (h), or upon suitable samples taken at said control manhole. In the event that no special manhole has been required the control manhole shall be considered to be the nearest downstream manhole in the Company main sewer to the point at which the Customer service is connected.

Rule 7 DISCONTINUANCE OF SERVICE BY THE COMPANY

- (a) In areas where the Company provides both water and sewer service, the Company reserves the right to shut off the water supply in lieu of disconnecting the sewer service for any of the following reasons:
- (1) For failure to comply with terms of sewer contract
 - (2) For nonpayment of water or sewer bill (See Rule 11)
 - (3) For resale of sewer service
 - (4) For an unauthorized sewer connection to Company sewer mains
 - (5) For violation of any rules and regulations for sewer service.
- (b) In the event that a customer is in violation of any of these rules and regulations, the Company shall, in addition to discontinuing water service, have the right to disconnect and plug the customer's service sewer at its point of connection to the collecting sewer in which event the total cost of disconnection and re-establishment of service shall be at the expense of the Customer.
- (c) Discontinuance of sewage service to a premise for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from the Customer.

Rule 7 DISCONTINUANCE OF SERVICE BY THE COMPANY (cont.)

- (d) In case the Company discontinues its service for any of these causes or is, through fault of the Customer, prevented from providing sewer service according to the provisions of any contract or agreement, then there shall forthwith become due and payable to the Company as liquidated damages, and not as penalty, the amount remaining unpaid, and also the amount which is guaranteed by the contract or agreement as a minimum payment for same.
- (e) When sewage service to a Customer has been terminated for any reason other than temporary vacancy of the premise, it will be renewed only after the conditions, circumstances or practices which caused the service to be discontinued are corrected to the satisfaction of the Company and upon payment of the applicable service charge.
- (f) The Company has the right to refuse or to discontinue sewer service to any premises to protect itself against fraud or abuse.

Rule 8 DISCONTINUANCE OF SEWER SERVICE AT CUSTOMER'S REQUEST

- (a) Service will be permanently discontinued at the Customer's request when proper notification is made as noted in Rule 4. Where sewer charges are based on water meters, the Company shall on receipt of such notification, read the Customer's meter and charges for sewer service rendered up to and including the time of cut-off shall be computed and will become due and payable immediately.

Rule 10 - Extension of Company Facilities (Cont.)

MISSOURI

Public Service Commission

- (3) Upon applicant's compliance with Rule 2, the Company shall design and construct the required service extension facilities consistent with sound engineering practices and make an estimate of the costs, including all labor, materials, engineering, supervision and other expenses as listed in the prescribed system of accounts. A main extension connection contract, including the cost estimate, will be submitted to the applicant or a designated representative provided that the Company's share of the cost of the main extension plus the connection fees are not adequate to cover the cost of the main extension.
- (4) The facilities and/or mains will be installed as soon as practicable after receipt of the executed extension connection contract provided that:
- The applicant or applicant's authorized agent has paid to the Company the required connection fee/s, as provided in Rule 2A.
 - The applicant or applicant's authorized agent has deposited with the Company a sum equivalent to the difference between the estimated cost of extension and the connection fee/s (contribution in aid of construction) provided for in Rule 2A plus the Company's share of the cost of the main extension. If the connection fee/s (contribution in aid of construction) paid for exceed the estimated cost of extension, no extension deposit will be required. In the event an extension deposit is required, the applicant or applicant's authorized agent will be entitled to a refund of the extension deposit and the refund shall be paid to the applicant or applicant's authorized agent from future connection fee/s (contribution in aid of construction) received by the Company from customers connecting to the main on which the extension deposit is made plus the Company's share of the cost of the main extension. Refund/s shall be payable for a period of ten (10) years from date of the extension-connection agreement. Refund/s under this section shall be made only on the basis of services connecting to and within the limits of the extension covered by this specific contract, or agreement. Deposits shall not bear interest.

of Sewer Service**MAR 12 1974**Rule 11 BILLS FOR SEWER SERVICE**MISSOURI**
Public Service Commission

- (a) The charges for sewer service shall be at the rates specified in the applicable rate schedules. The point of assumption of sewage shall be at the service connection. Service charges for connection (turn-on) or disconnection (turn-off) are set forth in Rule 12.
- (b) A Customer who has made application for sewer service to a premise shall be held liable for all sewer service furnished to such premise until the Customer notifies the Company in writing to discontinue service.
- (c) The Company shall have the right at any time to require the Customer to make a reasonable deposit, in amount not to exceed the estimated bill for one billing period plus thirty days in advance, to secure the prompt payment of bill; provided, however, that a minimum deposit of \$5.00 may be required. Interest at the rate of six per cent (6%), payable upon return of the deposit, will be paid for the time such deposit was held by the Company unless such period of time be less than twelve (12) months. Such deposits shall be refunded at the termination of service after all charges that may be due and payable by the Customer have been paid.
- (d) Each Customer is responsible for furnishing the Company with his correct address. Failure to receive bills will not be considered an excuse for non-payment nor reason to permit an extension of the date when the account would be considered delinquent.
- (e) Bills and notices relating to the Company or its business will be mailed or delivered to the mailing address entered in the Customer's application unless the Company is notified in writing by the Customer of a change of address.
- (f) Payments shall be made at the office of the Company or at such other places conveniently located as may be designated by the Company.

Rule 11 BILLS FOR SEWER SERVICE: (cont.)

- (f) Company will inform the customer of any changes that may be made in the designated locations for receiving payments.
- (g) The Company will not be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.
- (h) A separate bill shall be rendered for each Customer's sewer service.
- (i) Where water usage determines sewer charge and two or more separate premises are served by a single meter, the minimum charge and the quantity of water in each rate step shall be multiplied by the number of premises served.
- (j) The Company shall have the right to render bills quarterly, and such bills shall be due and payable on the due date indicated on the bill. A copy of the bill form used by the Company will be filed with the Missouri Public Service Commission and any changes thereto approved by that Commission.
- (k) Where water usage determines sewer charges and a meter fails to register, or if the Company is unable to gain access to Customer's premise, the Customer's meter reading shall be estimated from the record of meter readings for a reasonable prior period.
- (l) Prior to discontinuance of service, the Company will notify the sewer customer at least 30 days in advance by written notice by Certified Mail Return Receipt Requested and a copy of said written notice will be forwarded to the Missouri Public Service Commission before sewer service may be discontinued unless there is evidence that the use of the sewer service may be detrimental to the public health and safety or cause damage to the sewer system of the Company.

Rule 11 BILLS FOR SEWER SERVICE: (Contd.)

- (1) Penalty for nonpayment of bills may be applied as provided for in the "Schedule of Rates and Charges."
- (m) When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the monthly charge, or where water consumption is the basis for the charge, at the appropriate rate for water consumed, or a proportionate part of the minimum, whichever is greater.
- (n) All sewer customers whose sewer service charges are determined on the basis of water use who use in excess of 30,000 gallons of water per month, and can show to the satisfaction of the Company that a portion of the water as measured by the water meter or meters does not and can not enter the sanitary sewerage system, the Company may determine in such manner and by such method as it may deem practicable the percentage of metered water entering the sanitary sewerage system. Such percentage, when so determined, shall then constitute the basis of sewerage service charges; provided, however, that the Company in its discretion may require or permit the installation of additional meters at the expense of the Customer or other interested party in such a manner as to determine the quantity of water actually entering the sewerage system, in which case the quantity of water used to determine the sewerage service charge shall be the quantity of water actually entering the sanitary sewerage system as so determined.
- (o) Where customers are charged for service on a metered water use basis, all meter calculations and adjustments applicable to the water service shall also apply to sewer service and adjustments shall apply equally to water as well as sewer billings.
- (p) Where both residential and commercial classes of

SEP 27 1982

Rule 19

The Company shall provide a service to all customers for the repair and replacement of the repairable parts within the pump unit. No charge will be made for this service, but parts shall be paid for by customers. The gravity service sewer line from the building to the pump unit, the tank, the pressure service sewer from the pump unit to the collecting sewer shall be owned and maintained by the customer.

Rule 20

The Company shall be authorized to enter the premises of any customer at any reasonable time for the purpose of inspection and repair of any equipment utilized in sewer conveyance and treatment.

Rule 21

The Company shall perform at its cost two preventive maintenance calls per year on each pump unit in service. Normally, these will be made in the spring and fall seasons. Preventive maintenance shall consist of the following work:

- (a) Pull and clean liquid level control probes.
- (b) Run controls, including alarm system, through one complete cycle.
- (c) Check pressure release valve and check valves for proper operation. Clean or replace as necessary.
- (d) Check, and if necessary, remove solid waste from tank.
- (e) Check heater for proper operation.

Rule 21(a)

For every 100 pump units in service, the Company shall have on hand two pumps, two pump repair kits, two motors, 5 liquid level control units, adequate supply of check valves and pressure valves.

Rule 21(b)

The Company shall present to the customer, at the time application for service is made, information regarding services are available from the Company, and what service is provided free of charge.

MISSOURI
Public Service Commission

(A) The Company will reserve treatment plant capacity or will install additional plant facilities and will extend it's sewer mains along public highways, roadways, streets or alleys where grades have been established, or within easements acceptable to the Company, on the following terms and conditions:

- (1) A written application is required from all persons desiring service, as set forth in Rule 4. If such service requires the construction or enlargement of existing mains or other Company facilities, the Company shall supply the customer with an estimate showing the total cost of construction, providing the Company requires a deposit for main extension other than service connection fees, and/or requirements for any contributions or deposits required in accordance with these rules and regulations. This estimate or agreement shall be dated and considered as effective and binding upon the Company for a period of sixty (60) days from such date.
- (2) Before the Company designs the required facilities and provides a final cost estimate, the applicant shall:
 - (a) Provide the Company, without cost, a copy of Certificate of Title to the premises, any plats, surveys, plans or other available information requested by the Company. The applicant shall guarantee or qualify the accuracy of such data.
 - (b) Deposit with the Company a sum equal to ten percent (10%) of the estimated cost of construction to cover engineering costs. If no contract is executed by the applicant within 120 days from the date the Company provides the applicant with the final cost estimate, the deposit shall be retained by the Company for engineering costs.

Rules and Regulations Governing Rendering

of Sewer Service

DEC 21 1984

Rule 24 - Extension of Company Facilities (Cont.)

- (3) Upon applicant's compliance with Rule 2, the Company will design and construct the required service extension facilities consistent with sound engineering practices and make an estimate of the costs, including all labor, materials, engineering, supervision and other expenses as listed in the prescribed system of accounts. A main extension connection contract, including the cost estimate, will be submitted to the applicant or a designated representative provided that the Company's share of the cost of the main extension plus the connection fees are not adequate to cover the cost of the main extension.
- (4) The facilities and/or mains will be installed as soon as practicable after receipt of the executed extension connection contract provided that:
- (a) The applicant or applicant's authorized agent has paid to the Company the required connection fee/s, as provided in Rule 2A.
 - (b) The applicant or applicant's authorized agent has deposited with the Company a sum equivalent to the difference between the estimated cost of extension and the connection fee/s (contribution in aid of construction) provided for in Rule 2A. plus the Company's share of the cost of the main extension. If the connection fee/s (contribution in aid of construction) paid for exceed the estimated cost of extension, no extension deposit will be required. In the event an extension deposit is required, the applicant or applicant's authorized agent will be entitled to a refund of the extension deposit and the refund shall be paid to the applicant or applicant's authorized agent from future connection fees (contribution in aid of construction) received by the Company from customers connecting to the main on which the extension deposit is made. plus the Company's share of the cost of the main extension. Refund/s shall be payable for a period of ten (10) years from date of the extension-connection agreement. Refund/s under this section shall be made only on the basis of services connecting to and within the limits of the extension covered by this specific contract, or agreement. Deposits shall not bear interest.

Rules and Regulations Governing Rendering
of Sewer Service

SEP 27 1982

Rule 24. - Extension of Company Facilities (Cont.)

- (3) Upon applicant's compliance with Rule 2, the Company shall design the required service extension facilities consistent with sound engineering practices and make an estimate of the costs, including all labor, materials, engineering, supervision and other expenses as listed in the prescribed system of accounts. A main extension connection contract, including the cost estimate, will be submitted to the applicant or a designated representative provided that the connection fees are not adequate to cover the cost of the main extension.
- (4) The facilities and/or mains will be installed as soon as practicable after receipt of the executed extension connection contract provided that:
- (a) The applicant or applicants authorized agent has paid * to the Company the required connection fee/s, as provided in Rule 2A.
 - (b) The applicant or applicants authorized agent has deposited with the Company a sum equivalent to the difference between the estimated cost of extension and the connection fee/s (contribution in aid of construction) provided for in Rule 2A. If the connection fee/s (contribution in aid of construction) paid for exceed the estimated cost of extension, no extension deposit will be required. In the event an extension deposit is required that exceeds the credit for connection fee/s (contribution in aid of construction), the applicant or applicants authorized agent will be entitled to a refund of the extension deposit exceeding the credit for connection fee/s (contribution in aid of construction) and the refund shall be paid to the applicant or applicants authorized agent from future connection fees (contribution in aid of construction) received by the Company from customers connecting to the main on which the extension deposit is made. Refund/s shall be payable for a period of ten (10) years from date of the extension-connection agreement. Refund/s under this section shall be made only on the basis of services connecting to and within the limits of the extension covered by this specific contract, or agreement. Deposits shall not bear interest.

*Rule 24 Extension of Company Facilities (Cont.)

MISSOURI

(3) Upon applicant's compliance with Rule 2, the Company will design the required service extension on facilities consistent with sound engineering practices and make an estimate of the costs, including all labor, materials engineering, supervision and other expenses as listed in the prescribed system of accounts. A main extension connection contract, including the cost estimate, will be submitted to the applicant or a designated representative provided that the connection fees are not adequate to cover the cost of the main extension.

Public Service Commission

(4) The facilities and/or mains will be installed as soon as practicable after receipt of the executed extension connection contract provided that:

(a) The applicant has paid to the Company the required connection fee/s, as provided in Rule 2A.

(b) The applicant has deposited with the Company a sum equivalent to the difference between the estimated cost of extension and the connection fee/s provided for in Rule 2A. If the connection fee/s paid for exceed the estimated cost of extension, no extension deposit will be required. In the event an extension deposit is required that exceeds the credit for connection fee/s, the applicant will be entitled to a refund of the extension deposit exceeding the credit for connection fee/s and the refund shall be paid to the applicant from future connection fees received by the Company from customers connecting to the main on which the extension deposit is made. Refund/s shall be payable for a period of five (5) years from date of the extension-connection agreement. Refund/s under this section shall be made only on the basis of services connecting to and within the limits of the extension covered by this specific contract or agreement. Deposits shall not bear interest.

*Rule 24 Extension of Company Facilities (Cont'd)MISSOURI
Public Service Commission

- (c) Any required deposits are to be received within 90 days after submission of the contract to the applicant or designated representative. After such 90 day period the contract/s shall be null and void at the Company's option.
- (d) Applicant has entered into standard sewer disposal and maintenance agreements covering the premises to be served.
- (5) Extensions made under the rule shall be and remain the property of the Company in consideration of it's perpetual upkeep and maintenance. The Company also reserves the right to extend further the mains. Customers connected to such further extensions shall not entitle the depositor paying for the original extension to a refund for such customers.
- (6) The sizing and design of additional facilities shall be determined by the Company consistent with the applicants requirements.
- (7) If the Company desires to install mains or facilities larger in size than required by the needs of the depositor/s in accordance with sound engineering or sewerworks practices, the additional costs of the larger installations shall be borne by the Company.
- (8) The Company's share of the cost of the main extension is a minimum of \$100 for each customer connecting to and within a given collecting sewer extension.
