WIDE AREA TELECOMMUNICATIONS SERVICE

1. APPLICATION OF TARIFF

This Tariff applies to WATS furnished or made available by the Telephone Company over service components wholly within, or partly within, the State of Missouri and between points within the State of Missouri.

(CT) The services in this Tariff are competitively classified.

2. GENERAL REGULATIONS

2.1 Definitions

The following definitions pertain to Wide Area Telecommunications Service. Other terms used in this Tariff are found in the Explanation of Terms section of the General Exchange Tariff or in the definition portion of the Access Tariff.

CHANGE: The substitution of 800 Service for Outward WATS or vice versa.

COMPLEMENTARY SERVICE: (See Jointly Provided WATS Service)

HUNTING ARRANGEMENT: A grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.

INTRALATA: Wide Area Telecommunications Service (WATS) where the originating service point location and the terminating service point location are all within the same Local Access and Transport Area (LATA).

JOINTLY PROVIDED WATS SERVICE: Jointly provided WATS Service is an arrangement between the Telephone Company and an interexchange carrier (IXC). In this arrangement the intraLATA usage will be carried by the Telephone Company and billed at the rates found in this Tariff, and the interLATA usage will be carried by the IXC and billed at the rates of the IXC. Outward WATS service may originate on a WATS Access Line, and 800 Service may terminate to a WATS Access Line or to local exchange lines. Jointly provided WATS service is also referred to as complementary service.

LOCAL ACCESS AND TRANSPORT AREA (LATA): The Local Access and Transport Area denotes a geographical area established for the administration of communications service. It encompasses designated local operating Telephone Company exchanges which are grouped to serve common social, economic and miscellaneous purposes.

MISSOURI

1. APPLICATION OF TARIFF

This Tariff applies to WATS furnished or made available by the Telephone Company over service components wholly within, or partly within, the State of Missouri and between points within the State of Missouri.

 (AT) The services in this Tariff were classified as transitionally competitive (AT) effective January 10, 1993.

- 2. GENERAL REGULATIONS
 - 2.1 Definitions

MAY 1 1993 BY 12 4 R.S. 4

The following definitions pertain to Wide Area Telecommunications Service Commission Other terms used in this Tariff are found in the Explanation of Terms section of the General Exchange Tariff or in the definition portion of the Access Tariff.

CHANGE: The substitution of 800 Service for Outward WATS or vice versa.

HUNTING ARRANGEMENT: A grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.

INTRALATA: Wide Area Telecommunications Service (WATS) where the originating service point location and the terminating service point location are all within the same Local Access and Transport Area (LATA).

JOINTLY PROVIDED WATS SERVICE: Jointly provided WATS Service is an arrangement between the Telephone Company and an interexchange customer (IC). This arrangement provides end user billing of intraLATA WATS/800 usage at the intra LATA WATS/800 rates found in this Tariff. End user billing may be subject to interim regulations found in Section 10 of this Tariff. InterLATA usage will be billed at the rates of the IC. If the calling scope of the WATS Access Line is limited to calling within the state of Missouri, the WATS Access Lines found in this Tariff will be used to provide the WATS/800 Service.

LOCAL ACCESS AND TRANSPORT AREA (LATA): The Local Access and Transport Area denotes a geographical area established for the administration of communications service. It encompasses designated local operating Telephone Company exchanges which are grouped to serve common social, economic and miscellaneous purposes.

MaxiMizer 800SM: A service mark of Southwestern Bell Telephone Company which denotes a family of intraLATA 800 services which utilize the telephone company's 800 data base.

NETWORK DATA REPORT: Interexchange Customers providing non-joint 800 Service have the option of providing an 800 Network Data Report or an 800 Access Service jurisdictional report as described in the Access Tariff, Section 6, Paragraph 6.6.1. Interexchange customers (ICs) providing 800 service jointly with the Telephone Company must provide to the Telephone Company an 800 Network Data Report. This report shall reflect all 800 telephone numbers that may originate and terminate in the same state within

Telephone Company territory. Each 800 telephone number provided in the 800 Network Data Report will reflect either an NPA-NXX code (for calls completing according to the provisions of non-joint provided WATS Access Line Service) or a ten digit POTS telephone number (for calls completing on joint provided WATS Access Line Service to which the 800 Access Service traffic will complete. This report shall also reflect any time or day sensitive routing information which the Telephone Company requires to accurately bill and an indicator of the type of termination that will be used in the completion of the 800 call, i.e., common line, WATS Access Line, or other. The IC is required to provide this report before initial 800 Access Service is established. The IC is required to provide an updated 800 Network Data Report on a weekly basis unless the Telephone Company and the IC agree that the ICs 800 service activity requires provision of the report on either a more frequent or less frequent basis.

NON-JOINTLY PROVIDED WATS SERVICE: At the option of the interexchange customer (IC) providing interLATA service to the end user, the IC may choose to not jointly provide WATS Service with the Telephone Company. If the WATS Service is not jointly provided, the Telephone Company will bill long distance message rates for intraLATA calls originated on interLATA-only WATS Access Lines.

(AT) NETWORK DATA REPORT: Interexchange customers (ICs) providing 800 service either jointly with the Telephone Company or on a non-joint provisional basis must provide to the Telephone Company an 800 Network Data Report. This report shall reflect all 800 telephone numbers that may originate and terminate in the same state within Telephone Company territory. Each 800 telephone number provided in the 800 Network Data Report will reflect either an NPA-NXX code (for calls completing according to the provisions of non-joint provided WATS Access Line Service) or a ten digit POTS telephone number (for calls completing on joint provided WATS Access Line Service to which the 800 Access Service traffic will complete. This report shall also reflect any time or day sensitive routing information which the Telephone Company requires to accurately bill and an indicator of the type of termination that will be used in the completion of the 800 call, i.e., common line, WATS Access Line, or other. The IC is required to provide this report before initial 800 Access Service is established. The IC is required to provide an updated 800 Network Data Report on a weekly basis unless the Telephone Company and the IC agree that the ICs 800 service activity requires provision of the report on either a more frequent or less frequent basis.

> NON-JOINTLY PROVIDED WATS SERVICE: At the option of the interexchange customer (IC) providing interLATA service to the end user, the IC may choose to not jointly provide WATS Service with the Telephone Company. If the WATS Service is not jointly provided, the Telephone Company will bill long distance message rates for intraLATA calls originated on interLATA-only WATS Access Lines. For intraLATA 800 service calls the rates found in Section 5.4, Paragraph 5.4.A.3, of this tariff apply.

CANCELLED DEC 14 1988 FILED BY PARSIOZ OCT 16 1987 Public Service Commission TO-87-42 Public Service Commission MISSOURI Issued: OCT 1 4 1987 Effective: OCT 1 6 1987. By R. D. BARRON, President-Missouri Division Southwestern Bell Telephone Company

SERVICE GROUP: The term "service group," as used in-connection with Outward WATS, denotes one or more Outward WATS access lines terminated in the same multiline terminating system. When used in connection with 800 Service, it denotes the access lines arranged in the serving office equipment furnished by the Telephone Company as part of a given hunting arrangement.

TELEPHONE COMPANY: The Southwestern Bell Telephone Company.

WATS: The furnishing of service for dial-type telecommunications between a WATS access line and points within the State of Missouri. The WATS charges set forth in this Tariff are in payment for the service furnished between the calling and called stations.

WATS ACCESS LINE: A line from the customer's premises to a Telephone Company serving office which is provided for the purpose of completing WATS calls. Each such line will be arranged at the customer's option for either Outward WATS or 800 Service, but not for both.

. 2.2 Undertaking of Telephone Company

Transmitting Messages - The Telephone Company does not transmit messages but furnishes the use of its services to its customers for communications.

The design, maintenance and operation of Wide Area Telecommunications Service envisions that communications will originate or terminate at a WATS station for the purpose of communicating with stations in the specified service areas. Connections of communications systems provided by the customer or Other Common Carrier to WATS may be made. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

2.3 Availability of Service

Service is furnished subject to the availability of the service components required. The Telephone Company Will (1) determine which of those com-ponents shall be used and (1) make modifications to those components at its option. JAN - 1 1984

WIDE AREA TELECOMMUNICATIONS SERVICE

GENERAL REGULATIONS-(Continued)

2.1 Definitions-(Continued)

800 SERVICE: The furnishing of service components for dial-type telephone communication to an 800 Service access line from intraLATA toll service points within the State of Missouri in accordance with the regulations and schedules of charges as specified herein, except as provided in the following:

InterLATA dial-type telephone communication to an 800 Service access line provided by the Telephone Company is furnished by an interexchange customer. Any interexchange customer may provide interLATA service using the Telephone Company-provided 800 Service access line, subject to the availability and compatibility of the service components of the Telephone Company and of the interexchange customer.

Since interLATA calls cannot be prevented from reaching an 800 Service number, the customer subscribing to intraLATA 800 Service must also subscribe to an interLATA 800 Service or similar service provided by an interexchange customer.

OUTWARD WATS: The furnishing of service components for dial-type telephone communications from an Outward WATS access line to intraLATA local and toll service points within the State of Missouri in accordance with the regulations and schedules of charges as specified herein, except as provided in the following:

InterLATA dial-type telephone communication from the Outward WATS access line provided by the Telephone Company is furnished by an interexchange customer. Any interexchange customer may provide interLATA service using the Telephone Company-provided WATS access line, subject to the availability and compatibility of the service components of the Telephone Company and of the interexchange customer.

If the subscriber to interLATA WATS does not subscribe to intraLATA WATS, calls made within the same LATA over service components wholly provided by the Telephone Company over Telephone Company-provided WATS access line will be billed at charges for local and toll calls specified in the Company's Tariffs.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.2 Undertaking of Telephone Company

Transmitting Messages - The Telephone Company does not transmit messages but furnishes the use of its services to its customers for communications.

(CP) The design, maintenance and operation of Wide Area Telecommunications Service envisions that communications will originate or terminate at a WATS service point for the purpose of communicating with service points in the specified service areas. Connections of customer premises equipment or communications systems or interexchange customer-provided premises equipment or communications systems to WATS may be made. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

2.3 Availability of Service

Service is furnished subject to the availability of the service components required. The Telephone Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.4 Liability of Telephone Company-(Continued)

- (CP) E. When the lines of other telephone companies are used in establishing connections to service points not reached by the Telephone Company's lines, the Telephone Company is not liable for any act or omission of the other company or companies.
- (CP) F. The Telephone Company does not guarantee nor make any warranty with respect to service components provided by it for use in an explosive atmosphere. The customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer, or by any other party or person for any personal injury to or death of any person or persons and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said service components so provided.

The Company may require each customer to sign an agreement for the furnishing of such service components as a condition precedent to the furnishing of such equipment.

The customer shall furnish, install and maintain sealed conduit with explosion-proof fittings between the service components provided in an explosive atmosphere and points outside the hazardous area where connection may be made with regular service components of the Company. The customer may be required to install and maintain these service components within the hazardous area if, in the opinion of the Company, injury or damage to Company employees or property might result from installation or maintenance by the Company.

(CP) G. The charges specified in this Tariff do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.

2.5 Limitation of Service

A. WATS does not include person-to-person, collect, conference or other calls requiring operator handling, except that an operator will reach the called telephone number where service components are not available for customer dial completion.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.9 Advance Payments

Applicants for service who do not have an account with the Telephone Company or whose financial responsibility is not a matter of general knowledge may be required to make an advance payment at the time of application equal to the Installation Charges, if applicable, and at least one month's estimated charges for the service desired.

The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

- 2.10 Payment of Charges
 - A. The customer is responsible for payment of all charges for service furnished. Charges are based on Tariff rates and regulations in effect at the time the service is furnished. Usage charges are billed at the end of the billing cycle. All other recurring charges are billed monthly in advance. All charges are due when the bill is rendered.
- B. The rules and regulations as applied to billing and collection practices for services provided to customers are found in the Rules and Regulations Applying to All Customer's Contracts, Suspension of Service and Restoration of Service Sections of the General Exchange Tariff.
- 2.11 Deposits

(AT)

The Telephone Company may require an applicant or a present customer to post a deposit in accordance with the provisions of the Rules and Regulations Applying to All Customers' Contracts Section of the General Exchange Tariff.

2.12 Defacement of Premises

The Telephone Company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of service or the installation of the service components and associated wiring furnished by the Telephone Company on such premises or by the installation or removal thereof when such defacement or damage is not the result of negligence of the agents or employees of the Telephone Company.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. GENERAL REGULATIONS-(Continued)

2.13 Theft of Service Components

The customer is required to reimburse the Telephone Company for any loss through theft of the service components on the customer's premises.

- 2.14 Cancellation of Application for Service
 - A. Where an application for service is canceled by the applicant prior to the start of installation of service components, no charge applies.
 - B. Where installation of service components has been started prior to the cancellation, Installation Charges apply.
- 2.15 Call Handling and Destination Features

The Call Handling and Destination Features described in the Common Line 800 Service section of this Tariff are also available for use with IntraLATA 800 Service that is terminated to a WATS Access Line.

(AT)
 Call Handling and Destination Features are call routing features that are available for use with intraLATA 800 Service that utilizes the 800 Database of the Telephone Company. These features, excluding Originating Location Service, may not be used to make call routing decisions on an Interexchange Carrier's interLATA 800 Service.

If the Telephone Company has been authorized by the Interexchange Carrier to accept orders for the Interexchange Carrier's call routing features, the Telephone Company may add the Interexchange Carrier's interLATA call routing information to the 800 database record. Authorization will be granted via a written agreement between the Telephone Company and the Interexchange Carrier. A copy of the agreement is available upon request.

1.2.10 Payment of Charges

The customer is responsible for payment of all charges for service furnished the customer. Installation charges are payable upon establishment of service. All other charges from time to time in force and effect are payable monthly in advance, except additional hourly charges and any fractional hour charges for measured-time service which are payable upon rendition of a bill by the Telephone Company.

1.2.11 Deposits

The Telephone Company may, in order to safeguard its interests, require an applicant or a customer to make a suitable deposit to be held by the Telephone Company as a guarantee of the payment of charges. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the service is terminated, the amount of the deposit is credited to the customer's account and any credit balance which may remain is refunded. the option of the Telephone Company, such a deposit may be refunded or credited to the customer at any time prior to termination of the service. In case of a cash deposit, simple interest at the legal rate is paid for the period during which the deposit is held by the Telephone Company, provided the period is thirty days or more.

Service may be discontinued for failure to furnish a suitable deposit, when conditions appear to require the Telephone Company to have such credit protection, within five days after the Telephone Company has served or mailed notice to the customer at the billing address appearing on the Telephone Company's period for the customer to furnish such deposit.
