GENERAL RULES AND REGULATIONS

MAR 23 1977

FILING AND POSTING

A copy of the rates and regulations under which water service will be supplied is on file with the Public Service Commission of the State of Missouri. A copy is available for inspection at the office of the company, I. H. Utilities, Inc., Star Route, Cuba, Missouri.

MISSOURI
Public Service CommissionSUPPLY OF SERVICERule 1

An application for meter installation and/or supply of service shall be made by each customer before Service is turned on to any premises. This application may be made by mail or at the Company office. This application when accepted by the Company constitutes the contract between the Company and the customer, provided, however, that the Company shall have the right to reject any such application for the reason the applicant may have failed to comply.

GUARANTEE OF PAYMENTRule 2

A deposit or suitable guarantee to cover payment of bills may be required from all new or existing customers. Conditions under which such deposit or guarantee may be required are prescribed in 4CSR 240-13.030, a copy of which is on file at the company's office.

PAYMENT RULESRule 3

All charges for water service are payable either at the Company office or at a designated collection agency, or by mail addressed to the Company.

- A. Bills for flat rate service will be rendered by the Company quarterly on the first day of January, April, July, and October and shall cover the service furnished for the three month period preceding the billing date. Bills for April 5 1977.

GENERAL RULES AND REGULATIONS

MAR 23 1977

rate service shall be due 21 days after the date distributed

MISSOURI
Public Service Commission

- B. Between the first and fifth of each month each customer having metered service shall read the meter and, using the table and billing forms furnished by the Company, shall calculate the charges and tax for water service and submit a completed billing form with payment to the Company at its office or a designated collection agency by the 27th day of the month. The Company shall read the meters at least once each six months at which time the readings of all remote readers shall be verified.

Rule 4

Failure of the customer to receive bill shall not, however, relieve him from the obligation of paying the amount owed by him to the Company. It is the intent that the customer shall call at the Office of the Company for the statement when not receiving the same.

Rule 5

After giving a water customer five (5) days written notice that he is in arrears in the payment of bills rendered by the Company for service or he has failed to comply with the terms of the contract, agreement, or the Rules and Regulations contained herein, the Company may discontinue all service supplied to such customer. In case the Company discontinues his service for any of these causes or is, through the fault of the customer, prevented from supplying water according to the provisions of the contract and agreement, then there shall forthwith become due and payable to the Company as liquidated damages, not as a penalty, the amount remaining unpaid, and also the amount which is guaranteed by the contract and agreement as a minimum payment for same. Also, in case the Company discontinues its water service for any of these causes, it shall require a charge of ten dollars (\$10.00) for the cost of each reconnection before water is again supplied to the customer. Temporary turn off and on at curb stop, for the customer's repairing convenience may be subject to a service charge not to exceed ten dollars (\$10.00).

GENERAL RULES AND REGULATIONS

MAR 23 1977

Rule 6

All charges for service shall be due by the 27th day of the month.

MISSOURI
Public Service CommissionADJUSTMENT OF METER ERRORRule 7

The customer shall accept the meter installed by the Company as a standard of measurement. Should the meter become defective or fail to register correctly, the quantity used shall be determined by the amount used during a corresponding period of the preceding year, or by an estimate based on the average amount of water used during the preceding twelve months proportioned to the period during which the meter is shown to have been inaccurate.

Rule 8

The Company at its own expense, will make periodic tests and inspections of its meters in order to maintain them at a high standard of accuracy. Upon request, the Company will test any water meter, free of charges, provided that the meter in question has not been tested within twelve months previous to such request. If the meter has been tested within said twelve months period and the test reveals the meter to be accurate within a range of 95% to 105%, a charge of \$10.00 will be made.

Rule 9

In the event of the stoppage or the failure of any meter to register the full amount of water used, the customer will be billed for such period on estimated usage based upon his use of water in a similar period of like time.

Rule 10

Each meter will be billed separately except in cases where additional meters are installed solely for the convenience of the Company, in which case the usage shown by the separate meters may be combined for billing purposes.

Public Service Commission

Rule 11

All meter installations are to be made by the Company. The Cost to the customer for bringing the water to the property line, the installation of a remote reader, and inspection of the customers construction, shall be \$300.00 and shall be payable with the application for service.

Rule 12

The point of delivery of water shall be at the meter, to be located at the discretion of the Company either inside the premises or at a point at or within 5 feet of the front lot line.

Rule 13

The customer's service line from the water main to the customer's property line will be constructed, owned and maintained by the Company. Said service line from the main to the customer's property line shall be constructed of copper pipe having an inside diameter of at least 3/4 of an inch or plastic pipe with a minimum rating of 160 psi having an inside diameter of at least 3/4 of an inch, and a curb cock, box, and meter will be installed by the Company at the property line. The customer's service line from the property line into the customer's buildings will be constructed, owned and maintained by the customer, and this portion of the service line will also be constructed of copper pipe having an inside diameter of at least 3/4 of an inch or plastic pipe with a minimum rating of 125 psi having an inside diameter of at least 3/4 of an inch. Construction done by the customer shall not be covered until the Company has had the opportunity to inspect the work. Customer shall be responsible for the cost of repairing any damage to the Company's lines, meters, meter box, meter box cover or remote reader caused by the Customer or his agent.

Rule 14

Each water service line, applicable above, must be placed in a trench separate from any other utility services.

Rule 15

Separate premises must have separate service pipes, curb codes and boxes and meters.

GENERAL RULES AND REGULATIONS

MAR 23 1977

MISSOURI
Public Service CommissionRule 16

Customers will not be permitted to extend service lines along public or private streets, or roadways, or through property of others in order to obtain connection to a water main.

Rule 17

Service pipes must be installed at least 2 feet below surface of the ground.

Rule 18

Customer must take necessary precautions to prevent any damage to the Company's property and will bear the cost of repairing or replacing any equipment which is damaged through the consumer not exercising due care and judgment.

Rule 19

No person without permission of the Company or other person duly authorized by the Company shall set, change, remove or interfere with or make any connection to the Company's meter or appurtenances thereto.

MAINTENANCE AND USE OF SERVICERule 20

The Company shall use reasonable diligence in providing a regular and uninterrupted supply of water, but in case the supply of water is interrupted by reason of strike, riot, invasion, storm, fire, accident, breakdown, legal process, state or municipal interference or any cause beyond its control the Company shall not be liable for damages to the consumer for interruptions in service due to any of the aforesaid causes.

Rule 21

The manager of the Water Company shall be authorized to regulate or limit, any unusual, unnecessary or wasteful use of water, where such use of water may affect service to other customers, and to restrict or regulate the quantity of water used by customers in

case of scarcity or whenever in his judgment an emergency affecting public health and welfare may require such restrictions

MISSOURI
Public Service CommissionRule 22

It is forbidden for customers to open any large valves or other openings and thereby to fill any tank, basin, reservoir, swimming pool or other large receptacle, except after first making arrangements with the Manager of the Company for filling the same and then observing and conforming to the instructions of the Manager about the hours, the size of pipes or hose, and other proper details as to the manner of filling any such tanks, receptacles, etc. In the event it is necessary to utilize water from a fire hydrant, the consumer will pay for the estimated water use at the proper rate.

Rule 23

The inspectors or other authorized agents of the Company shall have access to the premises at all reasonable hours to read meters, make repairs, and see if the rules are observed.

Rule 24

Plumbers are not allowed to turn water off or on at a corporation cock to any service pipe except to make repairs and test their work after which they will leave the cock as they found it. Other persons not connected with the Company are strictly forbidden to turn the water on or off at the corporation or stop cock. Water may be turned on to any premises only by any employee of the Company.

CONSUMER'S INSTALLATIONRule 25

Customers will not be permitted to use water for purposes other than those stated in the application or agreement, nor will they be allowed to supply water in any way to other persons without permit from the Company, or permit others to use their hose or attachments or leave them exposed to use by others.

GENERAL RULES AND REGULATIONS

MAR 23 1977

Rule 26

Customers will be required to prevent the waste of water and keep all plumbing fixtures in good condition at their own expense and all waterways closed when not in use.

MISSOURI
Public Service Commission

Rule 27

No physical connection will be allowed between a service line from the mains of the Company and any pipe or tank which shall contain water of polluted or otherwise questionable character, or which is not a water supply approved by the Missouri Department of Natural Resources. Should such a crossconnection be found, the Company will discontinue service to the customer in question, after a 24-hour notice, unless all physical connections between the two water supplies have been severed.

Rule 28

Service will be discontinued upon request of the customer, provided notice of 24-hours or more is given the Company during its regular office hours. Final bill for service shall become due and payable on presentation of bill. Guarantee deposit will be refunded after the Company has had an opportunity to remove and test the meter, provided, the final bill has been paid.

DISCONTINUANCE OF SERVICE BY COMPANY

Rule 29

If a customer violates any of the Rules and Regulations of the Company, the Company reserves the right, after due notice has been given to the customer, as provided in 4 CSR 240-13.010 of the Public Service Commission of Missouri to annul the contract of water supply and discontinue service.

APR 25 1977

Rule 30

In all cases of non-payment of bill within twenty-one days after the same becomes due, and due notice is given, the supply will be cut off and not turned on again except upon payment of the amount due together with an additional fee of ten dollars (\$10.00) for turning on the water.
