I. DEFINITIONS

REC'D SEP 09 1999

For the purpose of this Tariff, the following definitions will apply:

Access Coordination

Provides for the design, ordering, installation, coordination, pre-Service testing, Service turn-up and maintenance on a Company or Customer provided Local Access Channel.

Administrative Change

A change in Customer billing address or contact name.

Aggregator

Any person, partnership, association, joint stock company, trust corporation, governmental agency, or any other entity that in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for intrastate telephone Calls using Company as the provider of its Operator Services.

Alternate Access

Alternate Access is a form of Local Access except that the provider of the Service is an entity, other than the Local Exchange Carrier, authorized or permitted to provide such Service. The charges for Alternate Access may be subject to private agreement rather than published or special Tariff if permitted by applicable governmental rules.

AMI

Alternate Mark Inversion.

Ancillary Charges

Charges for supplementary Services as set forth in Section IV herein which may consist of both nonrecurring and monthly recurring charges.

Annual Commitment

The required level of aggregate charges for each consecutive twelve month period in the Service Commitment Period beginning with the First full bill cycle following the earliest Start of Service Date and each subsequent anniversary.

Application for Service

A standard Company order form which includes all pertinent billing, technical and other descriptive information which will enable Company to provide a communication Service as required.

I. DEFINITIONS (Cont'd)

REC'D SEP 09 1999

Cancellation of Order

A Customer initiated request to discontinue processing a Service order, either in part or in its entirety, prior to its completion. Cancellation charges will be assessed for each Circuit-end or Dedicated Access line canceled from an order prior to its completion by Company, under the following circumstances: (1) if the LEC has confirmed in writing to Company that the Circuit-end or Dedicated Access line will be installed; or (2) if Company has already submitted facilities orders to an interconnecting telephone company.

Channel or Circuit

A dedicated communications path between two or more points having a bandwidth or Transmission Speed specified in this Tariff and selected by a Customer.

Collect Call

A billing arrangement whereby the Called Station accepts the charges for the Call placed over the Company's Service. The person at the Called Station who accepts the Call is responsible for all charges and is subject to the provisions of this Tariff. Collect Calls cannot be placed to a public or semi-public payphone.

Company

MCI WorldCom Network Services, Inc., the issuer of this tariff.

Concentration and Segregation

In the DCS Concentration/Segregation application the DCS equipment located in a Company Point-of-Presence is used to electronically multiplex/demultiplex DS-0 or DDS level channels from a Customer's DS-1 level Interexchange Service or Local Access circuit and then electronically cross-connect those channels to DS-0/DDS level Interexchange Service or Local Access facilities. This application is Company's required alternative to the use of DS-1/DS-0 channel banks and DS-0 level electrical distribution frames within Company Points-of-Presence. The exact cross-connection of the DS-0/DDS channels must be specified at the time of order.

I. DEFINITIONS (Cont'd)

Missouri Public
Service Commission

REC'D SEP 09 1999

Consumer

A person initiating any intrastate interLATA telephone Call at an Aggregator location using Operator Services.

Corporate Bill

An optional billing feature associated with Measured Service which provides additional information on the Customer location or department making Call(s) on the monthly invoice for Measured Service.

Customer

The person, firm, corporation, or other entity which uses, caused the use of, or allows the use of the Company's communication network and/or services and is thereby responsible for the payment of charges and for compliance with the Company's Tariff regulations. A Customer is considered to be an account for billing purposes. If an entity orders Service in more than one city or requests the assignment of multiple account numbers, each such account is a separate Customer for billing purposes. The term Customer also includes an entity that (1) has not presubscribed to Company Service, but accesses Company by dialing the access number 10555, or any other Company carrier identification code, (2) remains presubscribed to Company Service after its account(s) are removed from Company's billing system, subsequently continues to use Company's network, and is billed by a local exchange carrier for such use, (3) accepts responsibility for the charges associated with an Operator Services Call, or (4) otherwise uses Service for which no other Customer is obligated to compensate Company. A Consumer may be considered to be a Customer.

Customer Premises/Customer's Premises

Locations designated by a Customer where Service is originated/terminated whether for its own communications needs or for the use of its resale customers.

DCS

DCS means Digital Cross-Connect System.

I. DEFINITIONS (Cont'd)

REC'D SEP 09 1999

Dedicated Access/Special Access

Dedicated Local Access between the Customer's Premises or serving wire center and the Company's Point-of-Presence for origination or termination of Calls.

Diversity

Customer-designated routing which indicates a Customer designated departure from a Company primary route.

Drop and Insert

In this application, the multiplex equipment is used to electronically cross-connect DS-0/DDS level channels between Customer DS-1 circuits or cross-connect DS-1 level circuits between Customer DS-3 circuits at a common multiplex location and may also provide for the dropping and/or inserting of DS-0/DDS level channels at that common location for connection to DS-0 level Local Access or Interexchange facilities. The DS-1 circuits may be a combination of DS-1 level Interexchange Services as DS-1 level Local Access facilities. The exact cross-connection of the channels between the Customer's circuits must be specified at the time of order.

DS-0

DS-0 means Digital Signal Level 0 Service and is a 64 Kbps signal.

DS-1

DS-1 means Digital Signal Level 1 Service and is a 1.544 Mbps signal.

DS-0 with VF Access

DS-0 Service with VF Local Access facilities provides for the transmission of analog voice and/or data within 300 Hz to 3000 Hz frequency range.

DS-0 with DDS Access

DS-0 Service with DDS Local Access facilities provides for the transmission of digital data at speeds of 2.4, 4.8, 9.6 or 56 Kbps.

II. RULES AND REGULATIONS

REC'D SEP 09 1999

1. Description and Limitations of Services

- .01 Intrastate Telecommunications Service is the furnishing of Company communication Services contained herein between specified locations under the terms of this Tariff.
- .02 Any member of the general public (including any natural person or legally organized entity such as a corporation, partnership, or governmental body) is entitled to obtain Service under this Tariff, provided that Company reserves the right to deny Service: (A) to any Customer that, in Company's reasonable opinion, presents an undue risk of nonpayment and refuses to comply with the deposit requirements set forth in Section II.7.03, (B) herein circumstances in which Company has reason to believe that the use of the Service would violate the provisions of this Tariff or any applicable law or if any applicable law restricts or prohibits provision of the Service, or (C) if insufficient facilities are available to provide the Service (in such cases Company shall take reasonable efforts to accommodate the needs of all potential Customers by means of facility improvements or purchases of capacity, if such efforts will, in Company's opinion, provide Company with a reasonable return on its expenditures), but only for so long as such unavailability exists.
- .03 Company, when acting at the Customer's request and as its authorized agent, will make reasonable efforts to arrange for Service requirements such as special routing, Diversity, Alternate Access, or circuit conditioning.
- .04 Service is offered in equal access exchanges subject to the availability of facilities and the provisions of this Tariff. Company reserves the right to refuse to provide Service to or from any location where the necessary facilities and/or equipment are not available.
- .05 Service may be discontinued upon written notice to the Customer if:
 - a. the Customer is using the Service in violation of this Tariff; or
 - b. the Customer is using the Service in violation of the law or Commission regulation.

1. Description and Limitations of Services (Cont'd)

- .06 Service begins on the date that billing becomes effective and is provided on the basis of a minimum period of at least one month, 24 hours per day. For the purposes of computing charges in this Tariff, a month is considered to have 30 days.
- .07 Service will be provided until canceled, by the Customer on not less than thirty (30) days' written notice from the date of postmark on the letter giving notice of cancellation.
- .08 Nothing herein, or in any other provision of this Tariff, or in any marketing materials issued by the Company shall give any person any ownership, interest, or proprietary right in any code or 800 number issued by the Company to its Customers.
- .09 The Company reserves the right to discontinue furnishing Services or billing options, upon written notice, when necessitated by conditions beyond its control. Conditions beyond the Company's control include, but are not limited to, a Customer's having Call volume or a calling pattern that results, or may result, in network blockage or other Service degradation which adversely affects Service to the calling party, the Customer, or other Customers of the Company.
- .10 Service may be discontinued by the Company, without notice to the Customer, by blocking traffic to or from certain cities, or NXX exchanges, or by blocking Calls using certain Customer authorization codes such as Calling Card codes, when the Company deems it necessary to take such action to prevent unlawful use of its Service. The Company will restore Service as soon as it can be provided without undue risk. Customers of the Company's Voice Card Service will be provided a replacement code in the event their initial code is canceled. A maximum of 1 replacement code will be issued. Company may refuse to accept Voice Card, LEC Card, Collect Calling, or Third Number Calls which it determines to be invalid and/or may limit the use of these billing options to or from certain areas, cities or NXX exchanges in order to control fraud.

- .11 Toll access will not be provided to local 976 numbers because the proprietors of the Services offered through such numbers have not provided Company with a schedule of their charges.
- .12 Except as otherwise provided in this Tariff or as specified in writing by the party entitled to receive Service, notices may be given orally or in writing to the persons whose names and business addresses appear on the executed Service order and the effective date of any notice shall be the date of delivery of such notice, not the date of mailing. By written notice, Company or Customer may change the party to receive notice and/or the address to which such notice is to be delivered. In the event no Customer or Company address is provided in the executed Service order, notice shall be given to the last known business address of Customer or Company, as appropriate.

2. Other Terms and Conditions

- .01 The name(s) of the Customer(s) desiring to use the Service must be stipulated in the application for Service.
- .02 The Customer agrees to operate the Company provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void the Company liability for interruption of Service and may make Customer responsible for damage to equipment pursuant to Section II.2.03 below.
- .03 Customer agrees to return to the Company all Company-provided equipment delivered to Customer within five (5) days of termination of the Service in connection with which the equipment was used. Said equipment shall be in the same condition as when delivered to Customer, normal wear and tear only excepted. 4. Cancellation of Service by a Customer

- .01 If a Customer cancels a Service order before the Service begins, before completion of the minimum period, or before completion of some other period mutually agreed upon by the Customer and the Company, a charge will be levied upon the Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the Customer by the Company and not fully reimbursed by installation and monthly charges. If, based on a Service order by a Customer, any construction has either begun or been completed, but no Services provided, the nonrecoverable costs of such construction shall be borne by the Customer.
- .02 Except as otherwise provided under Section II.3 of this Tariff, if an order for installation is delayed for more than 30 days beyond the Service Due Date, and such delay is not requested or caused by the Customer, the Customer may cancel the Service order without incurring cancellation charges.
- .03 Customers who subscribe to Private Line Service are subject to the following cancellation charges upon cancellation of Service. In addition, the Customer is also liable for any charges, expenses, fees, or penalties incurred by Company or its affiliated companies due to cancellation of local access plus any costs, expenses, or additional charges reasonably incurred by Company on behalf of Customer as Customer's agent.
 - a. If the Service Commitment Period is one (1) year or less, then the termination charge shall be an amount equal to the balance of the monthly charges in effect at the time of cancellation for such canceled Service that otherwise would have become due for the unexpired balance of the Service Commitment Period.

4. Cancellation of Service by a Customer (Cont'd)

d. As Company's damages in the event of a cancellation are difficult or impossible to ascertain, the foregoing provisions or any provisions set forth in Section II. herein providing for a cancellation charge are intended to establish liquidated damages in the event of a cancellation of a Service and do not represent a penalty of any kind.

5. Cancellation for Cause by the Company

.01 Upon nonpayment of any sum owing to the Company, or upon a violation of any of the provisions governing the furnishing of Service under this Tariff, the Company may, upon written notification to the Customer, without incurring any liability, immediately discontinue the furnishing of such Service. Customer shall be deemed to have canceled Service as of the date of such disconnection and shall be liable for any cancellation charges set forth in this Tariff.

.02 Without incurring any liability, the Company may discontinue the furnishing of Service(s) to a Customer immediately and without notice if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or Services under the following circumstances:

- a. if the Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier communications Services or its planned use of Service(s);
- b. if the Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of Customer communications Services, or its planned use of the Company Service(s);
- c. if the Customer states that it will not comply with a request of the Company for reasonable security for the payment for Service(s);
- d. if the Customer has been given written notice by the Company of any past due amount (which remains unpaid in whole or in part) for any of the Company's communications Services to which the Customer either subscribes or had subscribed or used;

- h. if the Customer refuses to pay for continued use of Company Services either via 10555 or another carrier access code once the Customer's account has been canceled.

.03 The discontinuance of Service(s) by the Company pursuant to this Section does not relieve the Customer of any obligations to pay the Company for charges due and owing for Service(s) furnished up to the time of discontinuance. The remedies set forth herein shall not be exclusive and the Company shall at all times be entitled to all rights available to it under either law or equity.

6. Use of Service

.01 The Services offered herein may be used for any lawful purpose, including residential, business, governmental, or other use. There are no restrictions on sharing or resale of Services. However, the Customer remains liable for all obligations under this Tariff notwithstanding such sharing or resale and regardless of the Company's knowledge of same. The Company shall have no liability to any person or entity other than the Customer and only as set forth in Section II.3 herein. The Customer shall not use nor permit others to use the Service in a manner that could interfere with Services provided to others or that could harm the facilities of the Company or others.

b. All charges for the Service will be computed as if the Service were to be billed to one Customer. The joint user or authorized user which has been designated as the Customer will be billed for all components of the Service and will be responsible for all payments to the Company. In the event that the designated Customer fails to pay the Company, each joint user or authorized user shall be liable to the Company for all charges incurred as a result of its use of the Company's Service. Each joint or authorized user must submit to the designated Customer a letter accepting contingent liability for its portion of all charges billed by the Company to the designated Customer. This letter must also specify that the joint or authorized user understands that the Company will receive a copy of the guaranty from the designated Customer. The Customer shall be responsible for allocating charges to each joint user or authorized user.

7. Payment Arrangements (Cont'd)

- .08 If a Customer whose account has been closed has a credit balance remaining, the Company will transfer the credit to another account of the Customer, if there is one, or will mail a check for the balance to the Customer. An account maintenance charge of \$5.00 per month will be charged to those accounts which do not respond within 30 days to the Company's notification either on the final invoice or by letter of the credit balance or if the post office returns the final invoice or letter as undeliverable. The Company will continue to assess this charge until the Customer requests a refund or the balance is exhausted.
- .09 Promotional and other credits offered by Company in marketing its Services cannot be assigned. Such credits must be used by the person to whom they were offered or the person who earned them under the provisions of the offer.
- .10 The Installation charges set forth in this Tariff for Channel terminations contemplate Installations made in normal locations and under normal working conditions. Any Installations made under other circumstances are subject to additional charges.
- .11 In the event that a check or draft tendered by a Customer is returned, a fee of \$15 will apply. The fee will be assessed when a check or instrument issued by a Customer is returned without payment for any reason whatsoever, unless the return is a bank error, in which case documentary evidence is required to waive the fee.

8. Assignment

The obligations set forth in this Tariff shall be binding upon and inure to the benefit of the parties hereto and their respective successors or assigns, provided, however, that the Customer shall not assign or transfer its rights or obligations without the prior written consent of the Company.

9. Tax Adjustments

- .01 All stated charges in this Tariff are computed by the Company exclusive of any federal, state, or local use, excise, gross receipts, sales or privilege taxes or duties, whether charged to or against the Company or its Customer. Such taxes, etc. shall be paid by the Customer in addition to the charges stated in this Tariff. All such taxes and duties shall each be shown as a separate line item on the Customer's monthly invoice.

9. Tax Adjustments (Cont'd)

.02 A surcharge is imposed on all charges for Service originating at addresses in states which levy a gross receipts tax on Company's operations. This surcharge is composed of a factor of the gross receipts tax and taxes imposed directly or indirectly upon Company as measured by the gross receipts payments or revenues of interstate access charge will be shown as a separate line item on the Customer's monthly invoice. Pending the conclusion of any litigation challenging a jurisdiction's right to impose any tax, Company may elect to impose and collect a surcharge covering such tax, unless otherwise constrained by court order or direction, or it may elect to waive any surcharge. If it has collected a surcharge or tax and the challenged surcharge or tax is found to have been invalid and unenforceable, Company will credit or refund such sums to each affected Customer if either Company has retained such funds or Company has remitted such funds to the collecting jurisdiction and the funds have been returned to Company. The surcharge will be shown as a separate line item on the Customer's monthly invoice.

10. Allowance for Interruptions

.01 For WilPlus I, WilPlus II, WilPlus III, Vysta One Plus, Voice Card, Vysta Direct Service, Network Service, SwitchNet, Legend, Profit 800 Switched, Profit USA, Virtual Network, Profit Lines, CustomOne, WilMAX and WilPlus IV a credit allowance will be made for that portion of a call which is interrupted due to poor transmission (e.g., noisy Circuit), one-way transmission (one party is unable to hear the other), or involuntary disconnection caused by Defects in the Company's Service. A Customer may also be granted credit for reaching a wrong number. To receive a credit, the Customer must notify a Company Customer Service Representative and furnish information, including the Called Station, the Service subscribed to, the Defect experienced, and the approximate time the Call was placed.

.011 Where a Call has been disconnected, the Customer will be given a credit allowance equivalent to the charge for the initial minute of the Call made to reestablish communications with the other party. Where a Call has been interrupted by poor transmission or one-way transmission, the Customer will be given a credit allowance up to an amount equivalent to the charge for the last three minutes of the interrupted Call, or for the entire Call if it lasted less than three minutes. A Customer who has reached a wrong number will be given a credit allowance equivalent to the charge for the initial minute of the Call to the wrong number if it reports the situation promptly to a Customer Service Representative of the Company.

.012 From time to time, the Company will grant credits against usage charges in an amount not to exceed one month's average billing not to exceed \$7.00 per Customer or account whenever the Company determines that such a credit is warranted due to considerations involving the delivery of past Service to the Customer or account receiving the credit.

10. Allowance for Interruptions (Cont'd)

- .04 Company warrants that its Private Line Services will conform to the Technical Standards as set forth in Company's FCC No. 4 Tariff, Section III. Following Start of Service Date, if the Customer reports an Interruption in Service to Company at Company's Network Control Center and the affected Service is not Restored as warranted within one-half hour of such report, Customer shall, upon request directed to the Customer's designated Company Customer Service representative, receive a credit at the rate of 1/1440 of the monthly recurring charges applicable to Service directly affected by such Interruption of Service for each half hour or major fraction thereof in excess of the first half hour during which such Service fails to conform to the Technical Standards. If a portion of the Service fails to conform to the Technical Standards over a period of thirty (30) days, the Customer may notify Company in writing of its conditional intent to cancel such Service in accordance with the cancellation provisions herein. If, over a period of thirty (30) days after receipt of such notice, the Service fails to conform to the Technical Standards, the Customer may terminate the affected portion of the Service without a cancellation charge at the expiration of the notice period. (See Cancellation of Service by a Customer).
- .05 An interruption period begins when the Customer reports to the Company's Customer Service Representatives or for an Interruption in Private Line Services, the Network Control Center that the Service has been interrupted and releases it for testing and repair. An interruption period ends when the Service is Restored. If the Customer reports the Service to be inoperative but declines to release it for testing and repair, the Service is deemed to be impaired, but not interrupted.
- .06 If the Customer elects to use another means of communication during the period of interruption, the Customer is solely responsible for payment of the charges for the alternate Service used.

11. Directory Assistance

Directory Assistance is available to Customers of the Company's WilPlus I, WilPlus II, WilPlus III, Vysta One Plus, Vysta Direct, Voice Card, Network Service, SwitchNet, Legend, Profit USA, Virtual Network, Profit Lines, CustomOne, WilMAX, Prepaid Calling Card and WilPlus IV. An undiscounted charge will be applied to each Call for information as to any telephone number within the state. Up to two requests may be made on each Call to Directory Assistance. The Directory Assistance charge applies to each Call regardless of whether the Directory Assistance Bureau is able to furnish the requested telephone number. The surcharge for Voice Card Calls will not be applied to Directory Assistance Calls.

12. Method for Calculation of Airline Mileage

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 according to the following formula:

$$\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}$$

where V₁ and H₁ correspond to the V&H coordinates of City 1 and V₂ and H₂ correspond to the V&H coordinates of City 2.

Example:

	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

$$\frac{(5004 - 5987)^2 + (1406 - 3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

- .03 Customers shall not in any manner or form disclose, provide, or otherwise make available, in whole or in part, these Systems, documentation, any related material or any other confidential material except to those who have a need to know incident to the operation of the Customer's telecommunications system. These Systems remain the property of Company and may not be copied, reproduced or otherwise disseminated without the prior written permission of Company.
- .04 Customers shall take all reasonable precautions to maintain the confidentiality of Company Systems. Such precautions shall include the use of Personal Identification Numbers (PINs) and passwords selected by and known only to the Customer's individual authorized users. Telephone numbers and dial-up access numbers assigned to the Customer by Company, PINs or any aspect of access and sign-on methodology used to access these Systems shall not be posted or shared with others under any circumstances. Customers shall follow normal logoff procedures prior to leaving a terminal unattended. Customers should report any known or suspected attempt by others to unauthorized access of these Systems.
- .05 In the event that a security access device assigned to a Customer for dial-up access is lost, stolen, or misplaced, the Customer must notify Company immediately. Access into these Systems beyond that authorized may result in civil and/or criminal penalties.

17. Change in Service Arrangement

When a change in Service arrangement involves the continued use by the Customer of Channels furnished by the Company, Installation charges do not apply to the Channels continued in use. The minimum Service period for the Channels continued in use is determined from the Start of Service Date.

18. Inspection

The Company may, upon notice, make such tests and inspections as may be necessary to determine that the requirements of this Tariff are being complied with in the Installation, operation or maintenance of Customer or the Company equipment. The Company may interrupt the Service at any time, without penalty to the Company, because of departure from any of these requirements.

19. Testing and Adjustment

Upon reasonable notice, the Channels provided by the Company shall be made available to the Company for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

IV. PRIVATE LINE SERVICE OFFERINGS

REC'D SEP 09 1999

1. Private Line Service is offered in the form of communication facilities dedicated to the use of a specific Customer. Private Line Service is billed at predetermined monthly rates. Recurring charges are billed in advance of the month in which Service is performed. Nonrecurring Charges are billed in the month in which Service is performed. The various types of Private Line Service are listed below. Depending on the term discount plan selected as well as the optional features, other recurring and Nonrecurring Charges may apply as described herein. Customers subscribing to Company's Private Line Service may order Service on a monthly basis or for periods of 1, 2, 3, 4 or 5 years. Customers of each type of Private Line Service who subscribe for terms ranging from 1 to 5 years, inclusive, will receive a term discount in addition to an aggregate dollar volume discount as described herein. Upon expiration of the selected Service Commitment Period, Service will continue on a monthly basis at the current charges for such monthly Service as set forth herein unless canceled by the Customer or Company in accordance with the provisions of this Tariff. See Sections II.4 and II.5 herein for cancellation provisions.

2. DS-0 (DIGITAL SIGNAL LEVEL 0) SERVICE

.01 DS-0 Service With VF Access

DS-0 Service is a 64 Kbps dedicated digital Interexchange Channel Service. With analog Voice Frequency (VF) Local Access facilities, DS-0 Service will support the transmission of analog voice and/or data within the frequency range of 300 - 3000 Hz. DS-0 Service with VF Access combines digital long-haul transmission with analog Private Line Local Access.

.02 DS-0 Service With DDS Access

Company's DS-0 Service is a 64 Kbps dedicated digital Interexchange Channel Service. With DDS digital Local Access facilities, Company's DS-0 Service may be utilized for the synchronous transmission of full duplex digital data at 2.4, 4.8, 9.6 or 56 Kbps. DS-0 Service with DDS digital Local Access provides End-to-End digital Service. In providing this Service, the source of synchronization for the End-to-End Circuit is Customer provided equipment. Therefore, synchronization for the End-to-End Circuit is the responsibility of Customer.

9. PRICE PROTECTION PLAN

REC'D SEP 09 1999

Customers who select a Service Commitment Period for Interexchange Service of one, two, three, four, or five years after July 4, 1996 are automatically enrolled in the Price Protection Plan as described below. During the Service Commitment Period, Customer shall have the option to obtain the discount schedule for such IXC Service which is equal to the Company's then-current discount under this Tariff for IXC Service ("Published Price") upon the following conditions of the Price Protection Plan.

Under the Price Protection Plan, if at any time during the Service Commitment Period any discount rate on the applicable discount schedule is decreased ("New Discount Schedule") for that Service the Customer will continue to be charged the discount in effect at the time the Service Commitment Period was initially selected. If any discount rate on the applicable discount schedule is increased ("New Discount Schedule"), the Customer may obtain the affected Service with the New Discount Schedule by executing a new Service Order for the Service in question subject to a Service Commitment Period which is equal to or greater than the Service Commitment Period of the original Service arrangement ("Revised Service Commitment Period").

Any New Discount Schedule available to the Customer pursuant to the foregoing provisions shall become effective with the commencement of the Revised Service Commitment Period as of a date not later than the first day of the latest calendar month/billing period occurring within the sixty (60) days next following Customer's execution and submission of the above-referenced new Service Order to the Company.

Customers who selected a Service Commitment Period for Interexchange Service of one, two, three, four, or five years on or before May 31, 1996 are automatically enrolled in the Existing Customer Price Protection Plan as described below. During the Service Commitment Period, the Customer shall have the option to obtain pricing for such IXC Service which is equal to the Company's then-current pricing (i.e., base rates and discounts) under this Tariff for IXC Service ("Published Price") upon the following conditions of the Existing Customer Price Protection Plan.

Under the Existing Customer Price Protection Plan, if at any time during the Service Commitment Period the base rates are increased for that Service the Customer will continue to be charged at the base rate in effect at the time the Service Commitment Period was initially selected.

Under the Existing Customer Price Protection Plan, if at any time during the Service Commitment Period any discount rate on the applicable discount schedule is decreased ("New Discount Schedule") for that Service the Customer will continue to be charged the discount in effect at the time the Service Commitment Period was initially selected. The Existing Customer Price Commitment Period for Interexchange Service that the Customer selected before or on July 4, 1996, shall not apply to renewals of same.

REC'D SEP 09 1999

.01 Installation Charges

Charges apply when the Customer requests new or additional Service.

.02 Expedite Charges

Company charges for the Expedited handling of the Service order. Company will pass along to the Customer any LEC Expedite charges associated with the Customer's request for Expedited Installation.

.03 Change of Requested Service Date

A change of Requested Service Date charge applies when a change of Requested Service Date is the only requested modification to the original DSD.

- A. If the first requested change of the Requested Service Date is received more than ten (10) working days prior to the Requested Service Date, there will be no charge.
- B. If the Requested Service Date has been changed once already, or if the request is made within ten (10) days of the original Requested Service Date, a charge will apply.
- C. An ASR charge will be assessed whenever a change of Requested Service Date is requested on Service orders including Company-ordered Local Access.
- D. When the Customer requests that its Requested Service Date be extended, the new Requested Service Date must be within thirty (30) days of the previously set Requested Service Date. If the new Requested Service Date is more than thirty (30) days beyond the existing Requested Service Date or unknown, the Service order must be canceled and re-issued when a confirmed date is set. A charge for a change of Requested Service Date also applies when the Customer requests an earlier Requested Service Date that does not require an Expedite. Should an Expedite be required, the Expedite Charge supersedes the change of Requested Service Date charge.

.04 Change of Order Charges

A. Charges apply when a Customer requests a modification to the information contained in the original Service order prior to Customer acceptance of the Circuit other than a change of Requested Service Date.

B. Administrative Charges

If an ASR must be submitted to the Local Access Provider as a result of changes to Customer records such as billing address change, billing contact change, etc., then the Customer will be charged an ASR charge.

C. Interexchange Service Charges

Charges apply if the change necessitates a modification of the interexchange portion of the Circuit.

D. Local Access Service Charges

Charges apply if the change requires a change in the original ASR or if a new ASR must be submitted.

.05 Order Cancellation Charges

Charges apply for Service orders canceled prior to Customer acceptance. These charges are intended to supplement any Service Cancellation charges set forth in Section II. Order cancellation charges are in addition to standard Installation charges.

.06 Change of Service Charges

Charges apply to changes made after a Circuit has been accepted by the Customer.

.06 Change of Service Charges (Cont'd)

A. Administrative Charges

If an ASR must be submitted to the Local Access Provider as a result of Customer-requested changes in Service, the Customer will be charged an ASR charge.

B. Re-engineering Charges

Charges apply for orders that are re-engineered due to a Customer-requested change in local Service type. Changes which require only modification of Local Access, but do not affect Interexchange Service will only be charged for the ASR. Any LEC charges incurred because of the change will be passed on to the Customer.

C. Multiplexing Re-arrangement Charges

Charges apply when a Customer requests additional cross-connections, within a DCS or on the low side of an M13, after Installation of initial equipment or changes to existing cross-connects.

.07 Roll-up Charges

When Customers roll multiple DS0's over to a new DS-1 Interexchange or Local Access Service, or multiple DS-1's over to a new DS-3 Interexchange or Local Access Service, Company will apply a single re-engineering and/or ASR charge, rather than charging for the re-engineering of each of the existing Circuits individually.

.08 Additional Installation/Maintenance

A. Charges apply when the Customer requests Installation or Circuit changes during non-business hours.

B. Charges apply when the Customer requests a technician at the Customer Premises or trouble that results from problems in the Customer's equipment.

C. Charges apply when the Customer requests the provision of engineering design or other activities which are not normally provided as a part of the design and Installation of Service.

.01 Cross-Connect Charges:

A cross-connect is an electrical connection made between two DS-1 Circuits on a DSX-1 cross-connect panel or two DS-3 Circuits on a DSX-3 cross-connect panel in a Point-of-Presence. Cross-connections between non-Company facilities and other facilities will be provided only for use with Company facilities and in conjunction with Interexchange Services provided by Company to the same Customer.

Cross-connect charges are determined by the level and type of facilities being connected. Initial cross-connections will be provided at no additional charge when there is associated Interexchange Service of the same level. Charges for additional cross-connects after initial installation, or reconfiguration of existing cross-connects, are covered under Nonrecurring Charges. For cross-connects within a DCS or MUX see Digital Cross-connect Service and M13 Multiplexing Service descriptions.

.02 DS-1/DS-0 (D4) Multiplexing

DS-1/DS-0 (D4) Multiplexing is a Service provided by the Local Exchange Carrier at the Local Exchange Carrier wire center that allows for the Multiplexing/Demultiplexing of DS-0 level (analog or digital) Channels into or from DS-1 Channels.

D4 Multiplexing charges are Local Exchange Carrier specific and are based on charges billed by the Local Exchange Carrier. Different charges apply for DS-1 to DS-0 analog and DS-1 to DS-0 digital Multiplexing.

.03 M13 Multiplex Charges

The M13 Multiplexing Service provides for the provision of M13 Multiplex equipment in a Company Point-of-Presence to perform the function of Multiplexing or Demultiplexing up to 28 DS-1 level Interexchange or Local Access Circuits out of or into a single DS-3 level Interexchange Service or Local Access facility.

Pricing is on a per M13 basis. M13s will not be provided without associated IXC. Initial cross-connections necessary to establish this Service are included in the M13 pricing. Charges for additional cross-connects after initial Installation, or reconfiguration or existing cross-connects, are covered under Nonrecurring Charges. Pricing for DS-3 and DS-1 Drop and Insert applications is based on the number of M13s utilized. When the Customer requires that Company be able to isolate and test individual DS-1 Channels on a DS-3 IXC connected to M13 Multiplexing, a separate DS-3 subrate administration charge will also apply. M13 Multiplexing Service is only available at approved Company, M13 equipment locations.

.04 Digital Cross-Connect Service (DCS)

DCS can be used within the Company network for two basic applications, DS-1/DS-0 Drop and Insert Service and DS-1/DS-0 Concentration and Segregation. DCS equipment located in a Company Point-of-Presence is used to electronically multiplex/demultiplex DS-0 level Channels from a DS-1 level IXC or Local Access Circuit and then electronically cross-connect those DS-0 level Channels to either DS-0 level IXC or Local Access or to a different DS-1 level Interexchange Service or Local Access. This application is Company's required alternative to the use of DS-1/DS-0 Channel banks and DS-0 level electrical distribution frames within Company Points-of-Presence. The exact cross-connection of the DS-0 subrate Channels between the Customer's facilities must be specified at the time of Service order. Any change in the specified cross-connection shall result in an additional Nonrecurring Charge. The charges for this Service reflect the DS-0 level administration and maintenance necessary to support the Service adequately.

.04 Digital Cross-Connect Service (DCS) (Cont'd)

The charges for Digital Cross-Connect Service are applied per Customer DS-1 Interexchange Service or Local Access DCS termination. Initial DS-0 Cross-connections within the DCS necessary to establish this Service are included in the pricing. Charges for additional cross-connects after initial Installation, or reconfiguration of existing cross-connects, are covered under Nonrecurring Charges. In cases where DS-1 Interexchange is terminated in DCS for connection to DS-0 level Local Access facilities, or when DCS is used for DS-1 Drop and Insert, a special DS-1 subrate administration charge will also apply. Charges for DCS Service must carry the same contract term as the associated DS-1 and/or DS-0 Level Service. Normal pricing applies for all associated Interexchange Services and Local Access. In cases where DS-1 Interexchange Services are terminated in DCS for connection to DS-0 level Local Access facilities, the Subrate Administration charge will apply for each DS-0 Channel.

.05 Sub-Rate Administration Charges

Sub-rate administration charges reflect the additional administration and maintenance burdens when higher capacity Service is broken down into lower level Channels which require individual tracking, testing and maintenance. It is required on DS-3 level Interexchange Service with M13 Multiplexing and DS-1 level Interexchange with attached DCS except when the Customer signs a waiver acknowledging that Company will not be responsible for testing and maintenance of the lower level Interexchange Channels. DS-3 sub-rate administration charges will apply when a DS-3 level Interexchange has associated M13 Multiplexing equipment and the Customer requires Company to be able to test and maintain individual DS-1 level Channels within the DS-3 level Interexchange Service. DS-1 sub-rate administration charges are mandatory when a DS-1 level Interexchange Service is connected to multiple DS-0 level Local Access Channels either through Company DCS or through LEC provided D4 Channel banks.

DS-1 sub-rate administration charges will also apply when Company DCS equipment is used to Drop and Insert Channels between DS-1 level Interexchange Service and the Customer requires Company to be able to test and maintain individual DS-0 level Channels within the DS-1 level Interexchange Service.

Charges for DS-3 and DS-1 sub-rate administration is per sub-rate Channel with a maximum charge per DS-1 or DS-3 level Interexchange Service. Where M13 or DCS connections are to be made between different Customer's Services, the Customer ordering the connection will be charged.

.06 Echo Cancellation Service

With this Service option, Company provides the echo cancellation equipment necessary to cancel the echo caused by the total cumulative physical length that Calls routed over the Circuit travel from origination to termination. Echo cancellation only applies to voice applications of DS-0 Service with VF Access and DS-1 Service. Company will employ echo cancellation equipment free of charge on DS-0 and DS-1 Services to be used for voice applications and with a Primary Route greater than 1,200 route miles. In cases where Customer-requested routing, or other arrangements cause the Circuit length to exceed 1,200 miles, the Customer will be charged for echo cancellation Service if such Service is ordered. Echo cancellation charges are applied per canceler and must carry the same contract term as their associated DS-0 or DS-1 Interexchange Services. Echo cancellation Service provided on a temporary basis due to re-route around network blockage or disaster, will not be charged to the Customer.

.07 Collocation Charges

Collocation charges apply when a Customer contracts with Company to utilize space in Company Point-of-Presence locations for placement of Customer owned and maintained equipment associated with Services Company provides. All pricing for collocation including: floor space, power, rack space, DSX-1 or DSX-3 cross-connect panels, etc., is priced on an Individual Case Basis dependent on Customer requirements and is subject to the provisions of Section II.15.

.08 Integrated Service Digital Network Services

Integrated Services Digital Network ("ISDN") Service integrates voice, data, and video communications Services via standard interfaces, allowing the Services to travel over common network channels. Through Primary Rate Interface ("PRI"), a Customer may share Local Access facilities between Company Message Telecommunications Services. PRI establishes Call-by-Call Service Configuration, which dynamically allocates individual circuits within the PRI. Company's ISDN PRI connects DS-1 level Local Access facilities to the Company network. The interface provides 24 channels of 64 kbps each; the channels may be designated as either bearer ("B") or signaling ("D") channels. The B channels are used to access Company Services supported over the PRI. The D channels are used to carry signaling and control information for the associated B channels. Backup D channels may also be designated to ensure multiple routes for signaling and control information.

DS-1 level Local Access facilities are required to obtain ISDN Service. When ordering ISDN Service, a Customer must designate which channel will serve as the D Channel as well as which channel will serve as the Backup D Channel, if applicable. The Customer also has the option to specify which channels will receive ISDN Service and those which will not receive ISDN Service.

After initial installation of the PRI, a Customer may add or delete groups of B channels in the DS-1 Local Access facility or may re-designate the D channel and/or the Backup D channel. Each time the configuration of the channels within the DS-1 access facility is changed a Channel reconfiguration charge will be assessed. These charges are in addition to normal DS-1 Local Access charges and other Company recurring and non-recurring charges. Charges relating to ISDN Service are shown in IV.13.7. and are not eligible for any volume or term discounts.

Information on how to contact the Local Exchange Carrier is provided on the display cards provided. Company does not block access to other carriers. Access to the End Users preferred carrier is available through the use of the carriers access codes and/or calling sequences provided to their customers.

Incomplete calls will not be billed where answer supervision is available. If an incomplete call is inadvertently billed, Company will provide the customer with a full adjustment.

All calls originating from aggregator locations will be double-branded.

Rate quotes will be given on request at no charge.

Calls will be transferred to other carriers on request, but Company will not engage in call splashing, unless the consumer requests to be transferred, is informed prior to incurring any charges that the rates for the call may not reflect the rates from the actual origination location of the call, and the consumer consents to be transferred..

Each location shall post instructions on how to reach the nearest emergency service provider at no charge.

REC'D SEP 09 1999

Person-to-Person

Charges apply when the Consumer specifies to the operator a particular party to be reached. That party may be a:

- (a) a person
- (b) a department
- (c) a mobile station
- (d) an extension
- (e) an office

If the original person, department, mobile station, extension, or office designated by the Consumer is unavailable and the Consumer requests or agrees to talk to any other party, the Call is still classed as a Person-to-Person Call.

Station-to-Station

Charges apply when the Consumer specifies to the operator a particular telephone number to be reached. The only Station-to-Station Service offered is Station-to-Station Collect.

Collect

The Consumer requests the operator to bill the charges to the Called Station or party who agrees to pay for all charges. Collect Calls can be either Person-to-Person or Station-to-Station.

Third Party

The Consumer requests the operator to bill the charges for a Call to a number other than that of the Calling or Called Station. The party at the number charges are to be billed to agrees to pay for all charges.

In addition to the per minute usage rates specified below, an Operator Handling Fee also applies to each type of Call described above. Operator Handling Fees are set forth in Section V.10.02 herein. When an operator-assisted Call includes the elements of more than one class of Call, the Call is charged at the highest rated class. Coin sent paid Calls are not accepted by the Company.

.02 Operator Handling Fee

In addition to per minute charges, Calls are subject to an Operator Handling Fee. This charge will be included with usage charges on a Customer's monthly invoice as set forth below:

LEC Card	\$0.65
Operator Station Calls	\$1.47
Person-to-Person Calls	\$2.95
Third Party Billed	\$1.47
Operator Station Collect	\$1.47
Person-to-Person Collect	\$2.95

11. Local Access Charges

Local Access charges are based on what the Customer would otherwise pay the LEC pursuant to such Carrier's intrastate access Tariffs for the same interconnection and/or Service. This rate information is obtained from the applicable LEC Tariff.

12. Network Service 1/

Network Service is a telecommunications service designed for direct dial outward calling from multiple customer locations to stations throughout the state and arranged so the customer receives a single bill for all locations. This service is only available to customers of Company's interstate Switched Origination, Switched Termination, or 800 Origination Service. This service has two options from which the Customer may choose. Option 1 uses switched access arrangements on both the originating and terminating ends. Option 2 uses dedicated access arrangements on the originating end and switched access on the terminating end. All calls are billed in 6 second increments and subject to a minimum connect time of 6 seconds. All calls are rounded to the next highest 6 second increment, i.e. 7 seconds would be billed as 12 seconds.

CustomOne Enhanced 800 consists of the following components: Dialed Number Identification Service, Message Referral, 800 Ensure Service Restoration, Real Time ANI ("RTA"), Call Area Selection, Call Zone Routing, Exchange Routing, Time of Day Routing, Day of Week Routing, Day of Year Routing, Call Allocation, Call Distributor, and Route Completion.

1. Dialed Number Identification Service("DNIS")

DNIS enables the identification of each 800 number called for Customers who have multiple 800 numbers. Customers receiving the destination call can identify the 800 number called and answer the call appropriately. DNIS delivers up to 10 Customer specified digits per 800 number to the Customer's site. The Customer may designate up to 1500 DNIS per DS-1 level connection.

DNIS Pricing

Installation Charge \$400 per Service Group
(Nonrecurring)

Charge for Change \$40

2. Message Referral

Message referral provides a message to inform callers the 800 number has been disconnected and/or has been changed. Callers are referred to the new 800 number when service is terminated on an existing 800 number. Message referral delivers the pre-recorded message to all incoming 800 calls for a maximum duration of six months.

3. 800 Ensure Service Restoration

i. 800 Ensure Service Restoration is available only on calls carried on Company's Network. 800 Ensure Service Restoration guarantees 800 Service restoration within 30 minutes after a Service disruption. The Customer's downtime in the case of a Service disruption is minimized by routing calls to alternate destinations.

If a CustomOne 800 number is unable to receive calls due to Service disruption, the Customer must notify Company's Network Control Center. Company will then respond within 30 minutes, by providing routing to a pre-selected alternate route for the 800 number experiencing failure. This guarantee is not applicable unless Customer has pre-selected alternate routing.

Company's liability with respect to this guarantee is limited to rerouting Company Enhanced 800 Service exclusively, and does not include 800 services offered by other carriers in a multi-carrier configuration.

ii. 800 Ensure Service Restoration Guarantee

If Company cannot restore 800 Service within 30 minutes of Customer's notification to Company's Network Control Center, Company will, in addition to providing the routing to a pre-selected alternate route for the 800 number experiencing failure, credit Customer for portions of Enhanced 800 recurring charges which will be calculated and applied to the next invoice following Customer's request for credit.

A credit of one full day (24 hours) of Enhanced 800 recurring charges will be given for each reported outage of 24 hours or less.

- i. RTA transmits the calling party number to the Customer's equipment when the call is answered. This feature requires either Feature Group D, IMT, PRI-ISDN or T-1 connection. Company will not provide RTA if the calling phone subscriber has requested RTA blocking.
- ii. Pursuant to state and/or FCC regulations, the Customer may use the ANI or billing information for billing and collection, routing, screening and completion of the originating telephone subscriber's call or transaction, or for services directly related to the originating telephone subscriber's call or transaction.

Further, the Customer may not reuse or resell the ANI or billing information without first (a) notifying the originating telephone subscriber and (b) obtaining the affirmative consent of such subscriber for such reuse or sale.

Finally, the Customer may not disclose, except as permitted in this Section V.22..02.B.4.ii., any information derived from the ANI for purposes other than (a) performing the services or transactions that are the subject of the originating telephone subscriber's call, (b) ensuring network performance security and the effectiveness of call delivery, (c) compiling, using and disclosing aggregate information, and (d) complying with applicable law or legal process.

A. Switched 56/64 Kbps Service

1. CustomOne Switched 56/64 Kbps Service is a dial-up service for transmitting data at speeds of 56 Kbps and 64 Kbps and is designed for applications that require intermittent high speed transmission or switched capability by providing end-to-end digital transmission. CustomOne Switched 56/64 Kbps Service calls can originate on dedicated or switched access facilities. The access types used with CustomOne Switched 56/64 Kbps Service include DS-1, FT-1, and Company Integrated Services Digital Network Primary Rate Interface (Company PRI), and where available Local Exchange Carrier Switched Digital Access (SDA), Local Exchange Carrier Integrated Services Digital Network Basic Rate Interface (BRI) and Local Exchange Carrier Integrated Services Digital Network Primary Rate Interface (LEC PRI).

Switched 56/64 Kbps Service calls which originate via switched access facilities must utilize SDA, BRI or LEC PRI access. Customer must order such Local Access directly from the Local Exchange Carrier. SDA, BRI and LEC PRI are subject to availability from the Local Exchange Carrier and may not be available in all locations.

SDS calls which originate via dedicated facilities must utilize DS-1, FT-1, or Company PRI access. Customer may choose to obtain Local Access directly from the Local Exchange Carrier, or Customer may designate Company to act as its agent in providing Local Access for Customer. Dedicated access to CustomOne Switched 56/64 Kbps Service is available at Company Points of Presence. Company PRI is an ancillary charge described in Section IV.13 herein.

CustomOne Switched 56/64 Kbps Service terminates to Customer Premise Equipment ("CPE"). The CPE must have the capability of dialing SDS calls, answering SDS calls, and allowing Customer to onnect the applications into the SDS Service.

1. CustomOne Multirate ISDN SDS is a dial-up service for transmitting data at a speed of N times 64 Kbp; where N equals 1 to 24, resulting in a total bandwidth from 64 Kbps to 1.536 Mbps in 64 Kbps increments.

CustomOne Multirate ISDN SDS calls can originate only on switched access facilities. The only access type available for use with CustomOne Multirate ISDN SDS is Local Exchange Carrier Primary Rate Interface (LEC PRI). Customer must order such Local Access directly from the Local Exchange Carrier. LEC PRI is subject to availability from the Local Exchange Carrier and may not be available in all locations.

CustomOne Multirate ISDN SDS terminates to Customer Premise Equipment ("CPE"). The CPE must have the capability of interfacing with the Local Exchange Carrier PRI access line, dialing SDS calls, answering SDS calls, and allowing Customer to connect the applications into the SDS Service.

2. CustomOne Multirate ISDN Rates

Usage charges will be on a per call basis with 6 second initial and 6 second additional billing periods per call. Call origination and termination is limited to locations with LEC PRI availability. Rates for CustomOne Multirate ISDN SDS are calculated by multiplying the Switched Data Service 56/64 Kbps Rate in Section V.22..04.A.2 times the number of 64 Kbps channels utilized during each call. For example a call using 384 Kbps would be priced at 6 times the 64 Kbps rate because 384 Kbps is the equivalent of 6 64 Kbps channels.

3. CustomOne Multirate ISDN SDS Discounts

CustomOne Multirate ISDN SDS charges will contribute to and are eligible for Discounts listed in Section V.22..05. Both voice and data CustomOne revenue will aggregate to determine a CustomOne Customer's discount level.

C. Pricing Plans (Cont'd)

- ii. CustomOne Cross Product Pricing Plan - As set forth below, and in lieu of Volume Discounts and Pricing Plans described in Sections V.22.05.B. and C.i., discounts are available to CustomOne Customers based upon Customer's aggregate billing amount of CustomOne and Private Line Service, as described in Section IV herein. This CustomOne Cross Product Pricing Plan is available for new CustomOne Customers and existing CustomOne Customers who increase their Annual Commitments.

To qualify for the Cross Product Pricing Plan, Customer must commit to (i) a minimum of \$6,000 annual charges which may be any combination of CustomOne and Private Line Services, and (ii) a minimum of a CustomOne one year Service Commitment Period. Company reserves the right to aggregate the Customer account for Private Line Service and the Customer and its affiliates accounts for Switched Service.

To receive the Cross Product Pricing Plan, Customer must commit in writing to an Annual Revenue Commitment ("ARC"). The ARC is calculated by adding the Customer's anticipated annual discounted (net) private line recurring Interexchange charges multiplied by 1.25 to the Customer's anticipated CustomOne annual nondiscounted (gross) charges. The discount table in Section V.22.05.C.i. is used to determine the discount using Customer's ARC and the Service Commitment Period.

The discount will be applied to Customer's monthly CustomOne invoice. Customer's actual billing will be reviewed annually to determine if Customer has met or exceeded the ARC. If upon annual review the sum of Customer's actual gross CustomOne usage plus net Interexchange charges is less than the ARC, Company will add an adjustment for the difference, the Under Utilization Fee as described in Section V.22.05.F., to Customer's next invoice.

Customer may increase the ARC, and must meet the new ARC by the end of the original Service Commitment Period. No decrease in the ARC will be allowed during the CustomOne Service Commitment Period.

D. Early Termination Charges

- i. Cancellation Without Liability - A Customer may cancel a CustomOne Pricing Plan prior to its expiration without liability if the Customer subscribes to a new CustomOne Pricing Plan of equal or greater Annual Commitment and Service Commitment Period.
- ii. Cancellation with Liability - Discontinuance of all Services furnished under the CustomOne Pricing Plan prior to its expiration is considered a cancellation of the Pricing Plan, and the Customer will be billed and required to pay an Early Termination Fee equal to the Under Utilization Fee as described in Section V.22..05.F. for the year of termination plus 35% of the Annual Commitment for each additional year of the Pricing Plan that remains unfulfilled.

E. Service Commitment Period and Renewal Options - A Customer committing to a Pricing Plan may choose between 1,2, or 3 years. The Service Commitment Period will commence with the first full bill cycle following the earliest Start of Service Date for any Service, whether Inbound, Outbound or Travel Service and will automatically renew for an equivalent Service Commitment Period and Annual Commitment upon expiration of the Pricing Plan unless the Customer provides written notification to cancel the Pricing Plan, which must be received by Company, not less than 30 days prior to the expiration of the Service Commitment Period. A Customer may renew or extend a Pricing Plan prior to expiration of the current Pricing Plan in accordance with the provisions in Section V.22..05 D.i.

F. Under Utilization Fee - At the end of any twelve month period of the Service Commitment Period, if a Customer has not met the Annual Commitment of the subscribed Pricing Plan the Customer must pay the difference between the Customer's actual usage and the Annual Commitment net of any Pricing Plan Discount for the Customer's subscribed Service.

A. Switched 56/64 Kbps Service

1. WILMAX Switched 56/64 Kbps Service is a dial-up service for transmitting data at speeds of 56 Kbps and 64 Kbps and is designed for applications that require intermittent high speed transmission or switched capability by providing end-to-end digital transmission. WILMAX Switched 56/64 Kbps Service calls can originate on dedicated or switched access facilities. The access types used with WILMAX Switched 56/64 Kbps Service include DS-1, FT-1, and Company Integrated Services Digital Network Primary Rate Interface (Company PRI), and where available Local Exchange Carrier Switched Digital Access (SDA), Local Exchange Carrier Integrated Services Digital Network Basic Rate Interface (BRI) and Local Exchange Carrier Integrated Services Digital Network Primary Rate Interface (LEC PRI).

Switched 56/64 Kbps Service calls which originate via switched access facilities must utilize SDA, BRI or LEC PRI access. Customer must order such Local Access directly from the Local Exchange Carrier. SDA, BRI and LEC PRI are subject to availability from the Local Exchange Carrier and may not be available in all locations.

SDS calls which originate via dedicated facilities must utilize DS-1, FT-1, or Company PRI access. Customer may choose to obtain Local Access directly from the Local Exchange Carrier, or Customer may designate Company to act as its agent in providing Local Access for Customer. Dedicated access to WILMAX Switched 56/64 Kbps Service is available at Company Points of Presence. Company PRI is an ancillary charge described in Section IV.13 herein.

WILMAX Switched 56/64 Kbps Service terminates to Customer Premise Equipment ("CPE"). The CPE must have the capability of dialing SDS calls, answering SDS calls, and allowing Customer to connect the applications into the SDS Service.

B. WiiMAX Multirate ISDN Switched Data Service ("Multirate ISDN SDS")

1. WiiMAX Multirate ISDN SDS is a dial-up service for transmitting data at a speed of N times 64 Kbp; where N equals 1 to 24, resulting in a total bandwidth from 64 Kbps to 1.536 Mbps in 64 Kbps increments.

WiiMAX Multirate ISDN SDS calls can originate only on switched access facilities. The only access type available for use with WiiMAX Multirate ISDN SDS is Local Exchange Carrier Primary Rate Interface (LEC PRI). Customer must order such Local Access directly from the Local Exchange Carrier. LEC PRI is subject to availability from the Local Exchange Carrier and may not be available in all locations.

WiiMAX Multirate ISDN SDS terminates to Customer Premise Equipment ("CPE"). The CPE must have the capability of interfacing with the Local Exchange Carrier PRI access line, dialing SDS calls, answering SDS calls, and allowing Customer to connect the applications into the SDS Service.

2. WiiMAX Multirate ISDN Rates

Usage charges will be on a per call basis with 6 second initial and 6 second additional billing periods per call. Call origination and termination is limited to locations with LEC PRI availability.

Rates for WiiMAX Multirate ISDN SDS are calculated by multiplying the Switched Data Service 56/64 Kbps Rate in Section V.24..03.A.2 times the number of 64 Kbps channels utilized during each call. For example a call using 384 Kbps would be priced at 6 times the 64 Kbps rate because 384 Kbps is the equivalent of 6 64 Kbps channels.

26. LEC Billed Measured Service

REC'D SEP 09 1999

LEC Billed Measured Service calling includes calls made by Customers without an established account with the Company. Customers may access Measured Service by means of casual calling. 1/ For purposes of this tariff, the Company considers a call to be "casual" if dialed:

- 1) Using an accepted company access code (e.g., 10XXX) from a line not presubscribed to the Company; or
- 2) From a line presubscribed to the Company (i.e., when the Customer does not have an established account and billing relationship with the Company or another carrier using the Company network).

Such LEC Billed Measured Service calls may be routed to the Company network when placed within the 48 contiguous United States. Billed Measured Service calls accepted by the Company will be billed at the rates listed below. LEC Billed Measured Service calls will not be subject to a minimum monthly requirement, will not be subject to any recurring or non-recurring Ancillary charges and will not receive any type of discount.

In addition to the service rates listed below, Customers who access measured service by means of casual calling will be charged a Per Call Surcharge of \$0.80.

The Company will credit any LEC Billed Measured service surcharge reported by a newly presubscribed WorldCom Customer during the period between the presubscription and administrative processing of the new Customer. To receive this credit, the Customer must contact the Company through the 800 number designated for billing inquiries.

27. Prepaid Calling Card

Prepaid Calling Card Service allows Customers who pay in advance to complete calls via a Company-provided 800 number printed on the Prepaid Calling Card. Calls to 700, 900, 950 or 800 numbers, other than the 800 number printed on the card, may not be completed with the card.

Prepaid Calling Card Service card balances will be reduced and depleted based upon customer usage. Customer will be given notice one minute before the available card balance is depleted, based on the terminating location of the call. When the available balance is depleted, the call will be terminated.

Prepaid Calling Card Service cards are non-refundable and will expire on the date specified on the card, carrier or package in which the card is included.

Three types of Prepaid Calling Cards are offered: Basic Promotional Prepaid Calling Card, Enhanced Promotional Calling Card and Standard Prepaid Calling Card.

.01 Basic Promotional Prepaid Calling Card

A. Basic Promotional Prepaid Calling Card ("Promotional Card") Service offers direct dial Outbound Service and Directory Assistance. Promotional Card Service will be used for Customer's promotional purposes only, and the cards will be distributed through Customer's outlets and products. All advertising and promotional materials which refer to the Customer and the Company shall be jointly approved.

B. Promotional Cards are available in whole dollar denominations up to \$100. Calls placed via Promotional Card Service are billed in one minute increments with a one minute minimum initial period. A standard per minute rate is charged with no time-of-day discount. No Operator Service calls may be completed with the card. Rates are as follows.

28. Classic 1/

Classic Service is a telecommunications Service designed for calling from multiple Customer locations to stations throughout the state and arranged so the Customer receives a single bill for all locations. This service is only available to Customers who subscribe to Company's interstate Classic Service and who are authorized by the Missouri Public Service Commission to provide telecommunication Service in the state to the general public on a public utility basis.

.01 Classic Services

Classic Service is comprised of 1+ and Inbound Toll Free Service, Termination Service, Origination Service, Switched Service, Dedicated Access Service, Travel Card Service, and Directory Assistance Service. All services are available to Carrier Customers. Termination Service and Origination Service are not available to Reseller Customers.

Switched and Dedicated Access Service

Switched and Dedicated Access Service provide both Call Origination and Call Termination. Switched Service has switched access arrangements on both the originating and terminating ends; Dedicated Access Service has dedicated access arrangements on the originating end and switched access on the terminating end. The Customer may choose between these two Services. All Calls are billed in 6 second increments and are subject to a minimum connect time of 6 seconds. All Calls are rounded to the next highest 6 second increment, e.g. 7 seconds would be billed as 12 seconds. Intrastate Classic rates are subject to term or volume discounts.
