LOCAL EXCHANGE SERVICE

RECEIVED

MAY 21 1992

A. GENERAL

1. The rates for Local Exchange Service as shown in the following rate schedules are subject to the conditions set forth in the Missouri Public Service Commission Rules and Regulations governing provision of such service. The General Rules and Regulations are set forth in Section No. 3 of this Company's Tariff.

B. SERVICE UPGRADES

1. Business service is offered only on an individual line (1-Party) basis in both urban and rural areas.
2. Residence service is provided on individual line (1-Party) or two-party line maximum in urban areas. Rural areas are also provided individual line services with two-party maximum or four-party maximum being allowed on party lines, depending upon the exchange.

C. TAXES

1. Applicable taxes levied by Federal, State, County, and local taxing authorities are in addition to the rates set forth in this tariff.

D. BOUNDARY LINE MAPS

Individual local exchange boundary line maps, which reflect the Base Rate Areas (BRA) and Zones for each exchange operated by the Company in Missouri are filed with the Missouri Public Service Commission as part of this Tariff. Refer to sheets 15.2 and 15.3 of this Section.

(C)
(T)

E. LOCAL EXCHANGE SERVICE COMPONENTS

1. Local Exchange Service consists of two components. They are the Local Exchange Rate Component and the Extended Area Service Additive component in exchanges which have extended area service. These two components must be added together to determine the total rate for each Class of Service in an exchange. The Local Exchange Component rates are determined by class and grade of service as set forth on Sheet 16. If applicable, a Zone or Rural Rate must be added to the basic Business or Residence Service in order to determine the total Local Exchange Component rate. The rates shown on Sheet 16 do not constitute availability of all specific classes or grades of service in all exchanges.

NOTE: The EAS additive component is not added to the Interexchange Pay Access Line Rate.

2. Extended Area Service Additive Component - Two-Way Service **Public Service Commission**

a. The rate for exchanges which presently have Extended Area Service are listed on Sheets 17-20, with the appropriate monthly Extended Area Service additive for each grade and class of service.

Extended Area Service connections are included on Sheets 10-15 of Section I.

b. New Extended Area Service will be added in conformance with General Order No. 11, using the following method:

(1) Additive rates for Extended Area Service are computed by using tables 1 through 3 (See Sheet 7). To compute rates the following must be determined:

(a) The number of central office access lines available for calling in the local home exchange calling area.

(b) The total number of central office access lines which will be available for calling through Extended Area Service.

(c) The total Extended Area Service route miles (using V and H coordinates) of all extended area from the home exchange.

(d) The class of service for which the rate is to be computed.

(2) The rate groups to be used for both the central office access lines available in the local home exchange calling area and the central office access lines available through Extended Area Service are as follows:

<u>Calling Area Size</u>	<u>Central Office Access Lines</u>
1	1 to 500
2	501 to 1,000
3	1,001 to 2,000
4	2,001 to 5,000
5	5,001 to 10,000
6	10,001 to 17,000
7	17,001 to 35,000
8	35,001 to 60,000
9	60,001 and over

E. LOCAL EXCHANGE RATE COMPONENTS (Cont'd)

2. Extended Area Service Additive Component - Two-Way Service (Cont'd)

MISSOURI
Public Service Commission

b. (Cont'd)

(3) The Extended Area Service Additive rate is to be determined by the following formula:

$$A \times B \times C = \text{EAS Rate}$$

A is the value from Table 1 (See Sheet 7) based on the calling area size determined from E.2.b.(2), (Sheet 5). To determine A, find the row in the left column to correspond to the proper calling area of the local home exchange. Follow this row across the table to the column which corresponds to the proper calling area of the central office access lines in the Extended Area Service calling area.

In the formula B is the multiplier from Table 2 (See Sheet 7) based on the total Extended Area Service route miles of all EAS routes from the exchange.

In the formula C is the multiplier from Table 3 (See Sheet 7) based on the class of service for which the rate is to be computed.

WORKSHEET FOR CALCULATION OF TWO-WAY EAS ADDITIVES FOR NEW EAS ROUTES **RECEIVED**

OCT 4 1991

EXCHANGE: From _____ to _____
(Home Exchange)

MISSOURI

INSTRUCTION: When EAS Additives are to be Calculated for Two GTE North Public Service Commission Incorporated Exchanges, Additives Must be Determined for Each of the Two Exchanges

- 1) Central Office Access Line Count for Home Exchange Only (From Latest Telephone Statistics AB10) _____
- 2) Central Office Access Line Count for All EAS Exchanges Including the Exchange for Which This Calculation is Being Made, Exclude Home Exchange Central Office Access Line Count (Note: Check for any Pending EAS Points) _____
- 3) Home Exchange Calling Area (Based on #1 Above) (From Sheet 5) _____
- 4) EAS Exchange Calling Area (Based on #2 Above) (From Sheet 5) _____
- 5) Accumulative EAS Miles Including the Exchange for which this Calculation is being made. (Mileage is Rounded to Tenths of a Mile for each Individual exchange. When rounding the total of these distances, if the total is .5 miles or greater round up, if less round down.) _____
- 6) Go to Sheet 7. Determine A, B, & C of the EAS Rate Equation based on the Information above. (Note: for C use Entire Table)

Calculation:

A X B X C = EAS Additive A= _____ B= _____

Class of Service	EAS Additive			Local Rate Component (1)	New Rate	Pres. Rate (2)	Amount of Increase If EAS Est.
	A	B	C				
B1	X	X	2.00 =	+	=	-	=
Pay Tel.							
CO Line	X	X	2.00 =	+	=	-	=
Trunk	X	X	3.00 =	+	=	-	=
R-1	X	X	1.00 =	+	=	-	=
R-2	X	X	.88 =	+	=	-	=
R-4	X	X	.80 =	+	=	-	=

- (1) This column is determined by calculating the Local Exchange Rate from sheet 16.
- (2) This column is determined by calculating the Local Exchange Rate from sheet 16 and adding any applicable EAS Additive from sheets 17-20.

(REQUESTS FOR EAS ADDITIVES AND NEW RATES ARE TO BE MADE THROUGH THE REGULATORY AFFAIRS DEPARTMENT - DO NOT TRY TO FIGURE THEM YOURSELF - THIS SHEET FOR INFORMATION PURPOSE ONLY.)

MO. PUBLIC SERVICE COM

ACCESS SERVICE (INADEQUATE EAS)

RECEIVED

OCT 4 1991

A. GENERAL

MISSOURI

Public Service Commission

Access Service exists between two or more exchanges when connections may be made between customers of such exchanges without the use of toll facilities and the interexchange circuits provided for such service are inadequate to permit completion of the connections without unreasonable delay. A list of these exchanges, along with the Access Service points is provided on Sheets 10-15 of Section I. Additive rates are not applied for this service.

It is the intent of the Company to conduct EAS surveys in those exchanges having Access Service connections and upgrade to full EAS (Two-Way) Service, using the rate additive components as set forth on Sheets 17-20 in Section I of this tariff, or determine if the service should be discontinued and the inadequate circuits removed. These surveys will be conducted in accordance with the Commerce Rules and Regulations as set out in 250-22.8 (476) Nontoll interexchange trunking service (EAS) survey procedure. The one exception to this is that due to the nature of this service, point-to-point usage studies will not be made.

BRADYVILLE, IOWA EXCHANGE - MISSOURI PORTION

A. GENERAL

1. The rates shown below are net rates and entitle the customer and other authorized users to connections with all stations bearing the designation of the Braddyville exchange and to extended area service connections with stations in the Clarinda exchange.
2. Regular service charges are applicable to this exchange.

B. RATES

1. Within the Base Rate Area:

<u>Monthly Exchange Rates</u>	<u>1-Party</u>	<u>2-Party</u>
Business	\$31.47	
Residence	15.74	\$13.85
Pay Tel. Svc:		
C.O. Line	31.47	
IXC Line	23.24	
Trunk	47.22	

2. Outside the Base Rate Area, but within the Exchange Area:

<u>Monthly Rates</u>	<u>Zone 1 1-Party</u>	<u>Zone 2 1-Party</u>	<u>Rural 2-Party</u>	<u>Rural 4-Party*</u>
Business	\$33.77	\$36.42		
Residence	18.04	20.69	\$15.96	\$14.29
Pay Tel. Svc:				
C.O. Line	33.77	36.42		
IXC Line	25.54	28.19		
Trunk	49.52	52.17		

3. The above rates are increased appropriately for service within municipalities having in effect a fee or tax described in Section No. III.

*Rural 4-Party service is not available to new subscribers. Existing Rural 4-Party customers will be moved to Rural 2-Party service as facilities become available.

LIFELINE ASSISTANCE SERVICE

(N)

A. General

Lifeline Assistance Service is a basic single line residential service that provides voice grade access to the public switched network and includes touch calling, a standard white page listing, access to emergency services (e.g. 911, E911), access to operator services, access to interexchange services, access to directory assistance, and toll blocking service. A low-income customer is any customer who requests or receives residential essential local telecommunications service and who has been certified by the Department of Social Services (DSS) as economically disadvantaged. Qualified individuals will receive discounted services under either the low-income assistance or the disabled assistance program.

B. Low-Income Assistance

1. Low income assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they are eligible for support by participation in:
 - a. Medicaid
 - b. Food Stamps
 - c. Supplementary Security Income (SSI)
 - d. Federal Public Housing Assistance or section 8
 - e. Low Income Home Energy Assistance Program (LIHEAP)
 - f. Temporary Assistance to Need Families (TANF)
 - g. National School Lunch (NSL) free lunch program
2. The customer shall request low income assistance through completion of a form provided by the company. The customer is responsible for notifying the Company if the customer ceases to participate in any of the qualifying assistance programs.

LIFELINE ASSISTANCE SERVICE (Cont'd)

B. Low-Income Assistance (Cont'd)

(N)

- 3. Low income assistance can only be associated with the primary residential connection.
- 4. Toll Blocking is available to low income assistance customers at no charge.
- 5. Deposit requirements do not apply to a low income assistance customer if the customer voluntarily elects Toll Blocking Service.
- 6. Customers eligible under the established criteria will receive credit amounts on their monthly statement as follows:

a.	Federal Baseline Amount	\$6.50
b.	Federal Supplemental Amount	1.75
c.	Missouri Baseline Amount	3.50
d.	Additional Federal Supplemental Amount	1.75

Total Amount	\$13.50
--------------	---------

C. Disabled Assistance

- 1. A disabled customer, or a dependent, is a customer who requests or receives basic single line residential service, as defined in A. above and meets the eligibility requirements set forth below.
- 2. Disabled assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they, or a dependent living in their household, are totally and permanently disabled or blind and receiving any of the following:
 - a. Federal Social Security Disability benefits
 - b. Federal Supplemental Security income benefits
 - c. Veterans Administration benefits

- f. State supplemental payments pursuant to Section 208.030
RSMo Section 660.100.2 RSMo2000

- 3. Customers eligible under the established criteria can receive a discount equal to the amount approved by the Missouri Public Service Commission from their bill for basic single line residential service, as defined in A. above. The amount of state lifeline support will be as follows:

Missouri Baseline Amount	\$3.50
--------------------------	--------

D. Missouri Universal Service Fund

- 1. The company will place on each retail end-user customer's bill, a surcharge equal to the Missouri Universal Service Fund percentage assessment ordered by the commission.
- 2. The surcharge will appear as a separate line item detailed as "Missouri Universal Service Fund"
- 3. The surcharge percentage will be applied to the total of each customer's charges for intrastate regulated telecommunications services that meet the definition of net jurisdictional revenues at 4 CSR 240-31.010(12).

APPLICATION AND EXPLANATION OF SYMBOLS

A. APPLICATION

MISSOURI
Public Service Commission

These Tariffs apply to the Exchange Services of GTE North Incorporated, hereinafter referred to as the Telephone Company, in the Missouri portion of the Braddyville exchange of the Telephone Company in Iowa. In the event of any conflict between any rate, rule or regulation contained in these General Exchange Service Tariffs and any rate, rule or regulation contained in the Local Exchange Service Tariffs, the rate, rule or regulation contained in the Local Exchange Service Tariffs shall apply.

The provision of services and facilities, as provided herein, is subject to the General Rules and Regulations of the Telephone Company, which General Rules and Regulations as they now exist or as they may be revised, added to or supplemented by superseding issues are hereby made a part of these General Exchange Service Tariffs.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (M) Signifies a move of text from one area of the tariff to another but no change in rate, treatment or regulation.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rate.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

SERVICE CHARGES

A. GENERAL

MISSOURI

Public Service Commission

1. A service charge consisting of one or more of the charges shown in this section is applicable for the following activities undertaken at customer's request:

- a. Connections
- b. Changes

2. Service charges are in addition to all other applicable rates and charges associated with the service being provided unless otherwise stated for specific items.

3. Payment of Service Charges

See Section III - "Billing and Payment for Services and Facilities."

4. The charges specified herein do not contemplate work being performed by Company employees at a time when overtime wages apply due to the request of the customer nor do they contemplate work begun interrupted by the customer. If the customer requests overtime labor, being performed or interrupts work once begun, a charge in addition to the specified charges will be made equal to the additional cost involved.

5. Service charges are the following:

a. Service Ordering Charge

Applicable for work done in receiving, recording, and processing information necessary to execute a customer's request for connections of service, or changes or additions to existing service.

b. Record Change Charge

Applicable for customer requested changes which only involves changing the Company's records.

c. Line Connection Charge

(1) Central Office

Applicable to work done in the central office to provide a central office access line to a customer or making changes thereto.

5. Service Charges are the following: (Cont'd)

c. Line Connection Charge (Cont'd)

(2) Outside Plant

Applicable on a per order basis for any work on same customer premise completed outside of the central office building to provide a central office access line to a customer including work done at customer premises for installation of drop wire, grounding, and station protection or making changes thereto.

d. Travel Charge

Applicable on a per order basis whenever a Company employee is dispatched to connect, move or change a service (up to the demarcation point) at the request of the customer on same customer premise.

e. Restoral Charge

Applicable for work associated with reconnecting a service that is temporarily disconnected for nonpayment.

6. Service charges are not applicable to changes in grade of basic exchange service with the exception of service downgrade.

B. DEFINITIONS

1. Central Office Access Line

The term "Central Office Access Line" denotes the line between the serving Central Office and the demarcation point at the customer's premises.

2. Change

The term "Change" denotes the substitution of a different telephone number or party line assignment made at the request of the customer that is not required to maintain adequate service. Change also denotes move of service drop, or station protector.

3. Connection

The term "Connection" denotes the establishment of telephone service. A move of existing service to a different premises requires a connection.

4. Restoral Charge

MISSOURI
Public Service Commission

The term "Restoral Charge" denotes the reconnection of a service that is temporarily disconnected for nonpayment.

C. APPLICATION OF CHARGES

1. Service Ordering Charge

Service order activity is classified as either initial (establishment of service) or subsequent (modification to an existing service). Only one service ordering charge is applicable for all items ordered at the same time for completion on the same date.

- a. One initial service ordering charge is applicable to each order for connection of the service.
- b. One subsequent service ordering charge is applicable to each order for change or addition and the following:
 - (1) Customer initiated change of telephone number.
 - (2) Only one charge is applicable per order if more than one change is requested on the order.
- c. A service ordering charge is not applicable to restoral of service that is disconnected for nonpayment.

2. Line Connection Charge - General

- a. One central office line connection charge is applicable to the provision of each central office access line and an outside plant line connection charge may be applicable to the provision of each access line in association with any of the following services:

- Individual or Multi-Party Residence
- Individual Business
- A or B Trunks, Business
- Information System Access Lines
- Off Premises Stations
- Telephone Answering Service Lines
- Pay Telephone Service Lines
- Long Distance Terminals
- Foreign Exchange Service
- Tie Line
- Local Private Line Service
- Leased Circuits

b. Line Connection Charges are not applicable when service is assumed by a customer prior to discontinuance by another customer (supersedure) and there is no change of telephone number.

c. A Central Office and an Outside Plant Line Connection Charge are applicable to each change of party-line assignment made at the request of the customer.

d. Line Connection Charge - Central Office

(1) Applicable to work being done in the Central Office to provide service to a customer or making changes thereto.

(2) A Central Office Line Connection Charge is applicable to each change in telephone number made at the request of the customer.

e. Line Connection Charge - Outside Plant

(1) This charge is for any work completed outside of the Central Office Building. Applicable to customer premises installation of drop wire, grounding, and station protection, or making changes thereto.

(2) An Outside Plant Line Connection Charge is applicable per order for a move of the service drop and/or the associated station protection device on the same customer premise.

3. Travel Charge

a. One travel charge is applicable on per order on the same customer premise whenever a Company employee is dispatched to connect, move or change a service at the request of the customer.

b. No travel charge is applicable for subsequent dispatches required to complete an order to which a travel charge has been applied.

4. Restoral Charge

a. A restoral charge is applicable to each reconnection of service that is temporarily disconnected for nonpayment.

G. LOW INCOME CONNECTION ASSISTANCE PROGRAM – LINK UP IOWA

1. General

The Low Income Connection Assistance Program – Link Up Iowa is a plan to assist qualified low income applicants by providing a credit to the service connection charge applicable to the provisioning of a single telephone line per household at the applicant's principal place of residence. A deferred payment schedule for the remainder of the charge is also available under this program.

2. Eligibility Requirements

To be eligible for assistance, an applicant must participate in one of the following programs:

- a. Medicaid (e.g., Title XIX/Medical, state supplemental assistance);
- b. Food stamps;
- c. Supplemental Security Income
- d. Federal Public Housing Assistance Section 8
- e. Low-income Home Energy Assistance Program;
- f. Temporary Assistance to Needy Families;
- g. National School Lunch Program's free lunch program.

(C)
|
(C)

3. Application for Program

An applicant for Low Income Connection Assistance – Link Up Iowa shall request connection assistance through completion of a form provided by the Telephone Company.

The applicant shall receive the benefit of the Link Up Service program for a second or subsequent time only for a principal place of residence with an address different from the residence address at which Link Up Service assistance was provided previously.

SERVICE CHARGES (Cont'd)

G. LOW INCOME CONNECTION ASSISTANCE PROGRAM – LINK UP IOWA (Cont'd)

4. Verification of Eligibility

- a. The customer, who is requesting Link Up Service, must provide a signed form, provided by the Company certifying under penalty of perjury that he or she is receiving benefits from one of the programs specified in (2) preceding. The applicant must identify the program or programs from which he or she is receiving benefits, and agree to notify the Company when they no longer participate in the program or programs. For customer certifying under the Federal Poverty Guidelines, the customer shall provide the financial documentation to support the number of members of the household and the household annual income. (C)

5. Rate Application

- a. All tariffed charges applied in initiating telephone service to residential customers shall either be reduced by one half of the amount required to connect the customer to the local telephone network or thirty dollars (\$30), whichever is less.
- b. At the customer's option, a deferred payment schedule subject to a minimum payment of five dollars (\$5) per month, will be established to pay remaining tariffed connection charges and any security deposit. The customer will have a maximum of six months in which to make these payments. Interest will not be charged on the deferred payment.

G. LOW INCOME CONNECTION ASSISTANCE PROGRAM (Cont'd)

MISSOURI
Public Service Commission

4. Verification of Eligibility

- a. The applicant shall provide proof of participation in, or eligibility to participate in, a public assistance program or that the applicant's total household income from all sources qualifies the applicant to participate in the State's Low-Income Home Energy Assistance Program.
- b. The proof provided by the applicant may include, but is not limited to, any one of the following:
 - (1) A Title XIX medical card;
 - (2) A gas or electric bill showing participation in the Low-Income Home Energy Assistance Program (LHEAP)
 - (3) A copy of a current AFDC, SSI, VA, or Iowa Department of Employment Services check;
 - (4) A state or federal income tax return; or
 - (5) Other appropriate documentation showing eligibility for or participation in a public assistance program, or the Low-Income Home Energy Assistance Program.

5. Rate Application

- a. All tariffed charges applied in initiating telephone service to residential customers shall either be reduced by one half of the amount required to connect the customer to the local telephone network or thirty dollars (\$30), whichever is less.
- b. GENERAL EXCHANGE
SERVICE TARIFFS

ADJACENT EXCHANGE SERVICE

RECEIVED
OCT 4 1991

A. GENERAL

Adjacent Exchange Service is a form of rural telephone service offered to meet certain customer requirements for rural telephone service from a contiguous exchange in addition to service from the exchange in which the customer is located.

MISSOURI
Public Service Commission

B. DEFINITIONS OF TERMS

- 1. Primary Exchange - the exchange in which the customer is located.
- 2. Secondary Exchange - an exchange which is contiguous to the customer's primary exchange and from which the customer desires to receive rural telephone service.

C. REGULATIONS

- 1. Primary exchange service may not be discontinued without also discontinuing secondary exchange service.
- 2. Adjacent Exchange Service will be furnished between any primary and Adjacent Exchange in the state of Iowa, whether the customer is located in an exchange of this Company or in an exchange of another company, with the exception of Adjacent exchanges that are a part of a metropolitan calling plan arrangement. However, the other company must have a comparable tariff on file with the Iowa Commerce Commission or concur in this tariff.
- 3. Adjacent Exchange Service will only be provided to rural customers of this Company who are located within one airline mile of the Adjacent Exchange boundary line from which service is desired.
- 4. Adjacent Exchange Service is provided to meet a customer's local calling needs and is not provided if Extended Area Service is available between the two exchanges.
- 5. All long distance (toll) messages must be placed through the primary exchange unless there is a service outage on this line. Violations of this regulation will be cause for suspension or termination of the Adjacent Exchange Service.
- 6. Grades and classes of service available to rural customers in the primary or secondary exchange shall be determined by the serving company. Adjacent Exchange Service is not provided with pay telephone service.
- 7. Violation of any Rules and Regulations of this Company will be cause for suspension or termination of the Adjacent Exchange Service.

ADJACENT EXCHANGE SERVICE (Cont'd)

RECEIVED

OCT 4 1991

C. REGULATIONS (Cont'd)

8. Installation, maintenance and ownership of telephone plant up to the demarcation point shall be the responsibility of the telephone company whose exchange area such plant is located.
9. Construction Charges
 - a. Construction charges of each Telephone Company participating in provision of facilities for Adjacent Exchange Service shall apply for their portion of such facilities provided by that Company.
 - b. An applicant located within the exchange area of this Company who requests Adjacent Exchange Service to another exchange shall be required to pay, in advance, the estimated cost of all construction associated with the provision of facilities from the applicant's premises to the Adjacent Exchange boundary. Any excess or deficit of estimated costs to actual completed costs will be refunded or billed to the customer.
 - c. Applicants located within the area of another exchange that request Adjacent Exchange Service from an exchange of this Company shall be required to pay, in advance, all of the estimated cost of required construction within the exchange area of this Company. Any excess or deficit of estimated costs to actual completed costs will be refunded or billed to the customer.

D. RATES

1. The applicable rural central office access line rate(s) in effect in the Adjacent Exchange shall apply, plus any mileage outside plant maintenance charges applicable by the primary exchange company.
2. When the customer is located within the primary exchange of this Company, mileage charges based on route measurement from the customer's location to the Adjacent Exchange boundary shall apply as follows:

	<u>Monthly Charge</u>
First mile or fraction thereof (minimum charge) (AESMLG)	\$7.60
Each additional one quarter mile or fraction thereof (AESMLGADDL)	2.00

3. Rates for supplemental service not associated with the customer's central office access line shall be as specified in the local and general exchange tariff of the secondary Adjacent Exchange Company.
4. It is the intent of this Company that each Company shall bill the customer for their costs and for the services they render.

BILLED NUMBER SCREENING SERVICE

RECEIVED
OCT 4 1991

A. GENERAL

1. Billed Number Screening Service is available to subscribers of the Company's local exchange services. This service prevents the billing of collect calls, third number billed calls or both to a customer's telephone account. *Public Service of the Missouri Commission*
2. The Company makes no guarantee and assumes no liability for the accuracy of Billed Number Screening Service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Billed Number Screening Service.
3. Billed Number Screening Service is offered subject to the availability of suitable facilities.
4. The minimum contract period for Billed Number Screening Service is one month.

B. RATES

1. The following rates and charges apply to the provisioning of Billed Number Screening Service and are in addition to all other applicable charges as specified elsewhere in the Company's tariffs.

	<u>GSEC</u>	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
a) Option 1 - No Collect or Third Number Billing, per line screened	IN SCREEN	\$1.00	\$ *
b) Option 2 - No Third Number Billing, per line screened	IN SCREEN	\$1.00	\$ *
c) Option 3 - No Collect Billing, per line screened	IN SCREEN	\$1.00	\$ *

* The Nonrecurring Charge associated with Billed Number Screening Service does not apply when this service is ordered in conjunction with the establishment of exchange telephone service or is ordered in conjunction with another service from this tariff. A Subsequent Service Order charge, as shown elsewhere in this section of the Tariff, applies when this service is ordered by itself.

BLOCKING SERVICE

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. Blocking Service provides residence and business customers with the ability to block access from a particular network access line to all telephone numbers for which a certain Numbering Plan Area (NPA) or prefix must be dialed.
2. The two types of Blocking Service available are 900 Blocking Service and 976 Blocking Service.
 - a) 900 Blocking Service blocks access to all telephone numbers for which the 900 NPA must be dialed.
 - b) 976 Blocking Service blocks access to all telephone numbers for which the prefix 976 (1+NPA+976 or 1+976) must be dialed.
3. The service is classified as a local exchange telecommunications service.

B. CONDITIONS

1. The Company's obligation to furnish network facilities for Blocking Service is dependent upon the availability of suitable facilities. Because of central office and other facility limitations, it may not be possible for the Company to provide all of the services that may be requested.
2. Blocking Service is available only for blocking access to all NPA or prefix telephone numbers from a particular network access line, and not for blocking access to a specific NPA or prefix telephone number.

CUSTOM CALLING SERVICES

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. Custom Calling Services are limited to those areas served by central offices specifically equipped to provide such services.
2. These services may be provided only in connection with individual line residence and business service. Party line customers, PBX customers, and pay telephone services are excluded.

B. FEATURE DESCRIPTIONS

1. Call Waiting- provides for signaling a customer, who is talking on his line, that another call has been placed to his line. He may, by switch-hook operation, hold the first call, answer the second, return to the first or converse alternately with both.
2. Speed Calling - permits local and long distance calls to be placed by dialing an abbreviated code. This arrangement is available in an eight-number capacity and a thirty-number capacity.
3. Three-Way Calling* - permits a customer to add a third party to an existing conversation, whether the original call was incoming or outgoing.
4. Call Forwarding* - permits the customer to have all incoming calls to his line automatically transferred to another dialable telephone number, while this service feature is activated. Where a toll message charge is applicable to a call between the customer's central office access line and the telephone number to which calls are to be forwarded, such charges will be billed to the Call Forwarding customer. Call Forwarding may be arranged for:
 - a. Fixed operation, which provides for Company establishment or change of the forwarded telephone number destination requested by the customer. In the event of an interruption in "fixed" Call Forwarding Service, the Company will reestablish the most current forwarded telephone number destination shown in its records. Feature activation and deactivation is the responsibility of the customer.

*The grade of transmission on three-way calling and call forwarding may vary depending on the distance and routing necessary to complete the call. Therefore, the normal grade end-to-end transmission is not guaranteed.

CUSTOM CALLING SERVICES (Cont'd)

OCT 4 1991

MISSOURI
Public Service Commission

B. FEATURE DESCRIPTIONS (Cont'd)

4. Call Forwarding* (Cont'd)

b. Variable operation, which provides for customer establishment and change of the forwarded telephone number destination. The customer is also responsible for feature activation and deactivation as well as reestablishing the forwarded telephone number destination upon interruption of "variable" Call Forwarding service.

5. Camp On/Busy Number Redial Service - permits the customer to dial a camp-on code when a busy station is reached. The call is retried automatically through the central office until both parties are available. A special tone alerts the customer that a successful camp-on has been activated. When both parties are available the calling party's telephone will ring and when the customer answers, the called party's line is rung, and the two parties are connected in a normal two-way call. Only busy calls within the central office are retried automatically.

6. Last Number/Saved Number Redial Service - permits the customer to dial a code which initiates the switch to automatically place a call to the last called number stored. Each time the customer dials, the most recent number is stored. Saved Number Redial allows the customer to store the called number by dialing a code at any point during a call, or upon encountering a busy or no answer condition when placing a call. The customer may place and receive any number of calls in the normal manner after a number is stored. A customer wishing to reinitiate a call to the party whose number was stored dials a code and the call is placed automatically.

7. Cancel Call Waiting Service - permits the customer with Call Waiting to inhibit the operation of call waiting for one call. Call Waiting is automatically restored to the customer's line upon a disconnect.

C. SPECIAL PROMOTIONS

1. Effective with the date of this tariff, customers will be offered, subject to the availability of adequate facilities in exchanges providing Custom Calling Service features, a one time thirty-day free trial period for Custom Calling Service features offered within the serving central office, provided they are not currently subscribing to any Custom Calling Service features. No charge will be made during the trial period for the amount of Custom Calling Service monthly rate and the amount of any service or installation charges solely applicable to the installation of the Custom Calling Service. Customers retaining service after the trial period will only be responsible for payment of monthly charges.
2. Customers changing from an existing Custom Calling Service feature(s) to the Smarter Call^R Pak or the Smartest Call^R Pak or, from the Smarter Call^R Pak to the Smartest Call^R Pak will receive a waiver of any service or installation charges solely applicable to the installation of Custom Calling Service.

SERVICE TARIFFS

DIRECT INWARD DIAL (DID) PBX STATION NUMBERS
AND TRUNK TERMINATIONS

RECEIVED

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. Direct Inward Dialing (DID) permits incoming dialed calls from the exchange network to reach a specific number within a customer system without the assistance of an attendant.
2. This service is subject to the availability of existing equipment and facilities. Construction charges will apply if additional equipment or facilities are required in the Central Office to provide this service. When equipment or service of a special type is requested and provided, rates and charges based on the additional costs involved to meet the requirements of each case shall apply.
3. Electro-Mechanical Central Offices

The Telephone Company assigns station numbers for DID in blocks of 100 numbers in all Electro-Mechanical Central Offices. When additional numbers are required, they will be made available as soon as the Telephone Company has equipment available for this purpose. The Telephone Company cannot guarantee that station numbers will be made available in all cases.
4. Stored Program Control Central Offices

The Telephone Company assigns station numbers for DID in blocks of 20 numbers or in blocks of 100 numbers in all Stored Program Control Central Offices.
5. Customers to DID shall be responsible for the mechanical or manual interception of calls placed to station lines or numbers not connected for service.
6. The rates and charges specified are in addition to the applicable trunk rate or other rates and charges for other services or facilities with which this service is associated. It is the customer's responsibility to ensure that the CPE selected is compatible to operate with DID service.

EMPLOYEES' TELEPHONE SERVICE

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

Regular full-time and qualified part-time employees of the Company are granted a concession in the rates for local exchange service furnished in connection with telephone service at their place of residence, and for retired employees of all companies of the General Telephone System who are receiving pensions under established pension plans of the System companies.

B. CONDITIONS

1. Management support and qualified part-time employees must have at least six months of service with the Company. To qualify, a part-time employee must have 1,040 hours of service.
2. The employee's place of residence must be within the territory served by an exchange of the Company and so located that it may be served by means of available facilities or without undue cost.
3. Concession rates are not allowed when the employee resides in a boarding and/or rooming house unless the transmission service is installed in the employee's private room and it is not available to other occupants of such a house.
4. The primary listing must be a published listing and must be in the name of the employee as it appears on the personnel records of the Company, except that the listing of a married individual may be in the name of the individual, in the name of the spouse, or dual listed.
5. Concession service shall not be installed or upgraded at the expense of regular customers.

C. RATES

1. Salaried employees and all regular full-time and qualified part-time hourly paid employees with 20 or more years of accredited service are provided 100% concession on rates for residence local service, flat rate or usage sensitive (where available), and for service charges to establish local service.

GENERAL EXCHANGE
SERVICE TARIFFS

RECEIVED

FOREIGN EXCHANGE SERVICE

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

- 1. Foreign Exchange Service is exchange service from an exchange other than the one which would normally serve. This service is offered only to those customers located within the foreign exchange area.
- 2. Foreign Exchange Service does not come within the Telephone Company's general undertaking, nor does the Telephone Company obligate itself to furnish such service generally, but will do so where facilities of such a character are available as will permit satisfactory telephone transmission. It will not be provided when there may be a resulting impairment of service or when undue expense is involved.

B. REGULATIONS

- 1. Foreign Exchange Service is offered between all exchanges of this Company and between exchanges of this Company and other companies located within the boundaries of the state of Iowa. It will be furnished jointly with other companies only when those companies agree to furnish service in accordance with the provisions contained in this tariff.
- 2. Only individual central office access line or A-trunk foreign exchange service is furnished.
- 3. Off-premises services, will be furnished in accordance with the tariff provisions of the local exchange provided that facilities and operating conditions permit. Off-premises service will be furnished only for the use of the foreign exchange customer.

FOREIGN EXCHANGE SERVICE (Cont'd)

MISSOURI
Public Service Commission

C. RATES

1. The central office connection at the foreign exchange and the individual central office access line or A-trunk at the exchange in which the customer is located are provided at the established monthly rates for that exchange.
2. Applicable service charges at the rates of the exchange in which the foreign exchange central office connections and/or the central office access line is located, will apply.
3. Supplemental service and associated service charges are provided at the charges, monthly and/or nonrecurring, of the exchange in which the central office access line is located.
4. Applicable Special Transport rates from GTE North's Iowa No. 2 Tariff, Facilities for Intrastate Access, Section 5, will apply for interexchange mileage.

GTE DIAL DATALINK^R SERVICE

RECEIVED

OCT 4 1991

A. GENERAL

1. GTE Dial DataLink^R Service is an enhancement to Residential and Business single line service to provide higher quality transmission standards than normally provided for voice transmission. It is designed for customers requesting a better grade of service for data transmission. Lines conditioned with this level of service may also be used for normal voice communication. This service is offered subject to the availability of suitable facilities.

MISSOURI
Public Service Commission

B. REGULATIONS

1. The parameters of GTE Dial DataLink^R Service are designed to support transmission of data up to 4800 bits per second on the local loop from the point of demarcation to the serving central office switch.
2. The quality of the line is guaranteed only between the customer point of demarcation and the serving central office switch. No guarantee is made for a transmission level over the entire circuit.
3. GTE Dial DataLink^R Service may not be compatible with other services offered in this Tariff, such as Call Waiting and Smart Ring^R, and is not offered in conjunction with the following:

- Party Line Service
- PBX trunks or stations
- Foreign Exchange Service
- CentraNet^R Service
- Off-Premise Extensions
- Foreign Central Office Service
- Outward WATS
- Residence or Business service provided by analog station carrier (e.g. 82A & 84A)

LINE HUNT SERVICE

RECEIVED

OCT 4 1991

A. GENERAL

MISSOURI

1. A Line Hunt line is any one-party service so arranged at the central office, that if the number called is busy, the central office equipment selects another line in the customer's group that is idle. Line Hunt lines may be terminated on telephones, multi-line systems, PBX equipment or other equipment. Special central office facilities or arrangements are required to provide line hunt service.
2. Line Hunt Service is available on Business One-Party and Trunk lines only.

MILEAGE CHARGES

RECEIVED

OCT 4 1991

A. OFF PREMISES STATION SERVICE MILEAGE

MISSOURI

Public Service Commission

1. Off premises mileage charges apply to additional stations not located on the same contiguous property as the central office access line or PBX frame.
2. If the loop of the additional station is bridged at the central office with the loop of the central office access line, the airline distance between the central office and the additional station is the mileage measurement. If the additional station is connected with the central office access line by a nonloop, the airline distance between the central office access line and additional station is the mileage measurement.
3. If the circuit connecting a PBX station with a PBX frame is routed through the central office in a loop, the airline distance between the PBX station and PBX frame via the central office is the mileage measurement. If the circuit connecting the PBX station and PBX frame is not routed through the central office, the airline distance between the PBX station and PBX frame is the mileage measurement.

MILEAGE CHARGES (Cont'd)

RECEIVED
OCT 4 1991

MISSOURI
Public Service Commission

A. OFF PREMISES STATION SERVICE MILEAGE (Cont'd)

4. Mileage charges are made on the basis of quarter mile airline units between the station and the central office access line or PBX frame, with each fractional quarter mile unit counting as an additional full quarter mile unit.

5. Rates

Monthly
Rate

- a. For the first 1/4 mile unit(MIOFFPX1Q) \$8.60
- b. For each additional quarter mile unit(MIOFFPXAQ) 6.95

B. CENTRAL OFFICE LOOP EXTENDERS

1. Central office loop extenders serve to enhance the clarity and transmission quality for customers served by circuit facilities which are greater in length than typical business one-party (B1) or PBX loops due to the existence of one or several off premises stations.

2. Rates

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
--	-------------------------	--------------------------------

Per central office loop extender (COLX)	\$7.30 (R)	\$39.70
---	------------	---------

C. PRIVATE LINES - LOCAL

1. Mileage charges are assigned to communications services which meet the following conditions:

- a. The service cannot access nor be accessed by message services provided to the general public.
- b. The service is furnished for the exclusive use of a customer and the customer's authorized users between specified points in the same Local Exchange Service Area.
- c. The service does not qualify for intrastate toll or interstate toll regulation.

NONPUBLISHED DIRECTORY SERVICE

RECEIVED

OCT 4 1991

A. GENERAL

MISSOURI

Public Service Commission

1. Nonpublished directory service is a telephone number which is not listed in the telephone directory or the Telephone Company's directory assistance records at the request of the customer.
2. Incoming calls to nonpublished numbers will be completed by the Telephone Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency which the calling party may present.
3. Information concerning nonpublished numbers will not be disseminated except to telephone companies as deemed necessary for business operations or to law enforcement agencies upon lawful demand.
4. The Company reserves the right to forward name and address information of nonpublished telephone number service customers to governmental agencies subscribing to Enhanced 911 Service.
5. Acceptance by the Telephone Company of the customer's request to furnish nonpublished service does not create a relationship or obligation, direct or indirect, to any person or entity other than the customer.
6. The Telephone Company shall not be held liable for any damages which might result because of the customer's telephone number(s) being nonpublished.

Public Service Commission

A. GENERAL (Cont'd)

7. In the absence of willful misconduct, no liability for damages arising from publishing the telephone number of a Nonpublished Service customer in the directory or disclosing a nonpublished service telephone number to any calling party shall attach to the Company. Where such a number is published or is disclosed by a Telephone Company employee, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have levied for the service.

B. RATES

1. Nonpublished exchange service will be furnished at the following rate:

Nonpublished exchange service, each nonpublished number
(NPUB) \$1.30 Per Month

2. Nonpublished Service rates will not apply in the following cases:

- a) Additional local exchange service furnished the same customer at the same address in the same exchange so long as the customer has local exchange service listed in the directory.
- b) Local exchange service for customers living in a hotel, hospital, retirement complex, apartment house, boarding house or club if the customer is listed under the telephone number of phone service furnished to the establishment.
- c) A customer requests nonpublished service due to unusual circumstances, such as harassing calls, threats, or other acts adversely affecting the health, welfare, security, or service of the customer. (This service will not be provided for a period of more than one month.)

SPECIAL CIRCUITS

A. GENERAL

MISSOURI
Public Service Commission

1. If a Special Circuit requested by the customer is outside the Base Rate Area, such circuit is furnished in accordance with the regulations contained under "Construction Charges" in the General Rules and Regulations.
2. The magnitude and the character of the voltages and currents impressed on the Telephone Company channel by the customer premises equipment and wiring and the operation and maintenance of such equipment and wiring shall be such as not to interfere with any of the services offered by the Telephone Company or interfere with others. The characteristics of the customer premises apparatus shall be such that its connection to the Telephone Company channel does not interfere with service over other Telephone Company circuits or channels. In cases in which additional protective equipment is required, this shall be provided by the customer, at the customer's expense. Such equipment shall be suitable to avoid hazard or damage to Telephone Company plant or of injury to Telephone Company employees or to the public because of the character or location of customer premises apparatus and of sources of power to which it is connected.

The Telephone Company may, upon suitable notification to the customer, make such tests and inspections as may be necessary to determine that the above requirements are being complied with in the installation, operation, and maintenance of customer premises equipment. The Telephone Company may interrupt the channel if at any time such action should become necessary in order to protect any of its services because of departure from these requirements.

SPECIAL REVERSED CHARGE TOLL SERVICE

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. In order that customers may permit customers located in selected areas to call them without incurring a toll charge and without specifically requesting the reversal of the charges, a service known as "Special Reversed Charge Toll Service", may be arranged for.
2. Each customer to this service is assigned a special number different from the regular exchange numbering scheme. A regular listing in the alphabetical section of the directory at the other exchange is furnished without additional charge.
3. Toll calls from the exchange in which the special number is assigned to the customer of the service are billed at the established operator sent paid rates.
4. The customer must be responsible for all toll charges billed as a result of calls being placed to the special number. The contract period is the period of the directory in which the listing, including the special number, appears.

TELEPHONE ANSWERING BUREAU SERVICE

OCT 4 1991

MISSOURI
Public Service Commission

A. GENERAL

1. The Telephone Company will provide facilities, as outlined herein, to customers for their use in providing telephone answering service for other telephone customers who subscribe to individual central office access line business, individual residence, or A-trunk service when they are absent or do not desire to answer their calls personally.
2. Telephone answering bureau switchboards provide facilities for terminating a number of station lines connected to customer central office access lines, so that an attendant may answer incoming calls to the lines of customers who contract with the telephone answering bureau to do so during periods when customers leave their telephones unattended.
3. The patron receiving telephone answering service shall contract with the telephone answering bureau for the equipment and facilities which may be required to furnish service.
4. An application for connection of a line to a telephone answering bureau switchboard shall be signed by (1) the client to the service and (2) an authorized representative of the telephone bureau. A copy of this authorization shall be furnished to the Telephone Company's Business Office prior to the connection of the customer line to the telephone answering bureau's switchboard.
5. Charges for telephone answering bureau line mileage and service charges will be billed to the client of the telephone answering bureau. All other charges in connection with the establishment of telephone answering service will be billed to the customer furnishing the telephone answering facilities.
6. Telephone answering bureau service will be furnished for incoming calls. Outgoing calls will be permitted only over the central office access lines in the name of the customer contracting for the telephone answering bureau switchboard. No outgoing calls will be permitted over station lines or central office access lines of clients of the telephone answering bureau nor will such lines be interconnected to the station lines or central office access lines in the name of the telephone answering bureau customer.

TOLL RESTRICTION

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. Toll Restriction is a central office service that restricts one plus (1+), International (011+), zero plus (0+) and/or zero minus (0-) calling. Restricted calls are directed to a central office announcement.

2. Two Toll Restriction options are available:

a) Option 1* - Any direct dialed one plus (1+) or direct dialed International (011+) call. This includes directory assistance (1 + 411, 1 + 555-1212, 1 + NPA + 555-1212). Calls to Inward WATS will not be restricted (1 + 800 + XXX-XXXX). Examples of this option are:

- 1 + NPA + XXX-XXXX
- 1 + XXX-XXXX
- 5-digit carrier access code + 1 + NPA + XXX-XXXX
- 5-digit carrier access code + 1 + XXX-XXXX

b) Option 2 - Includes Option 1 and any local or long distance zero plus (0+) or zero minus (0-) call. Zero minus (0-) calls will only allow calls to official emergency agencies. Examples of this option are:

- 1 + NPA + XXX-XXXX
- 1 + XXX-XXXX
- 5-digit carrier access code + 1 + NPA + XXX-XXXX
- 5-digit carrier access code + 1 + XXX-XXXX

and

- 0 + NPA + XXX-XXXX
- 0 + XXX-XXXX
- 5-digit carrier access code + 0 + NPA + XXX-XXXX
- 5-digit carrier access code + 0 + XXX-XXXX
- 0- (Official emergency agencies only)

FILED

DEC 4 1991

MISSOURI PUBLIC SERVICE COMMISSION

3. Toll Restriction will be provided only to Residence One-Party and Business One-Party customers. Toll Restriction will not be provided on party lines, trunks or CentraNet lines.

* Includes Originating Line Screening which allows outgoing intralata toll calls to be charged to the called telephone, a third number, or a Telephone Company credit card account.

TOUCH CALLING SERVICE

MISSOURI
Public Service Commission

A. GENERAL

1. Touch Calling service provides for the origination of telephone calls through the use of Touch Calling buttons in lieu of a rotary dial.
2. Touch Calling is available only where the Company's central office facilities have been arranged for this service.
3. If available, Touch Calling will be offered for all classes and grades of central office access lines, provided there are no technical limitations and there is no impairment of service to other customers.
4. Customers installing Touch Calling Service in conjunction with the Custom Calling Service thirty-day free trial, or customers installing Touch Calling Service at the time they change from an existing Custom Calling Service feature(s) to the Smarter Call^R Pak or the Smartest Call^R Pak or from the Smarter Call^R Pak to the Smartest Call^R Pak will receive a waiver of any service charges solely applicable to the installation of Touch Calling Service. The monthly recurring charge for the Touch Calling Service will be applicable from the date of installation.

B. RATES

1. The following rates and charges are in addition to the established monthly rates and service charges (if applicable) for the services and facilities with which it is associated.

	<u>Monthly Rate</u>	<u>Installation Charge</u>
2. Touch Calling Service		
Business, per line (TCLB)	\$1.50	(1)
Residence, per line (TCLR)	1.00	(1)
Trunk, per trunk (TCT)	1.50	(1)
Pay Tele. Svc. C.O. Line, per line (TCPTS)	1.50	(1)

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

RECEIVED
OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communications service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive and answer telephone calls placed by dialing the number 911. This service provides for the answering and dispatching of public emergency telephone calls dialed to 911.
2. Equipment used in conjunction with 911 Service located at the PSAP must be provided by the customer.
3. 911 Service is offered wherever feasible and subject to the availability of facilities.
4. The 911 Service customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully designated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police and fire and other services within the telephone central office areas arranged for 911 Service calling.

B. RULES AND REGULATIONS

1. This service is limited to the use of central office telephone number 911 as the universal emergency telephone number. Only one 911 Service will be provided within any government agency's locality.
2. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other exchange telephone service as provided in Section No. I of this tariff.
3. The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.
4. 911 Service is a telephone exchange communications service and is arranged for one-way incoming service to an appropriate PSAP.

UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Cont'd)

RECEIVED
OCT 4 1991

B. RULES AND REGULATIONS (Cont'd)

MISSOURI
Public Service Commission

5. 911 Service is provided solely for the benefit of the customer operating the PSAP; the provision of such service shall not be interpreted, construed, or regarded either expressly or implied, as being for the benefit of, or creating any Company obligation toward, or any right of action on behalf of, any third person or legal entity other than the customer.
6. The Company does not undertake to answer and forward 911 Service calls, but furnishes the use of its facilities to enable the customer's personnel to accept such calls on the customer's designated premises.
7. The Company's entire liability to any person for interruption or failure of 911 Service shall be limited by the terms set forth in this section and other sections of this tariff.
8. The customer will have the responsibility to determine whether the service is functioning properly for its use and shall promptly notify the Company in the event the system is not functioning properly.
9. 911 Service will be designed by the Company to provide at least the same level of service reliability and quality as local exchange telephone service in the exchanges where 911 Service is offered.
10. Because the Company's serving boundaries and political subdivision boundaries may not coincide, the customer must make arrangements to handle all calls received on its 911 Service lines that originate from all telephones served by central offices within the 911 service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
11. Application for 911 Service must be executed in writing by each customer and must be accompanied by satisfactory proof of authorization to provide 911 Service in the exchanges where service is requested. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 Service request.

MISSOURI
Public Service Commission

12. In addition to all other terms and conditions, the following requirements will apply:

- a. The customer will answer all 911 Service calls on a 24-hour day, seven-day week basis.
- b. The customer has the responsibility for dispatching the appropriate emergency service within the 911 Service area, or will undertake to forward all 911 Service calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
- c. The customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to a 911 Service PSAP by calling parties.
- d. The customer will subscribe to a sufficient number of 911 exchange lines to maintain an adequate grade of service as determined by the Company.
- e. The customer will subscribe to additional local exchange service at the PSAP location for administrative purposes, for placing of out-going calls and for receiving other emergency calls including any which may be relayed by Telephone Company operators.

13. With respect to any claim or suit, by a customer or any others, for damages arising out of mistakes, omissions, interruptions, delays or errors, or defects in transmission occurring in the course of furnishing service hereunder, the Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error, or defect in transmission of service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the customer under this tariff as an allowance for interruptions. However, any such mistakes, omissions, interruptions, delays, errors, or defects in transmission of service which are caused or contributed to by the negligence or willful act of the customer or authorized user, or which arise from the use of customer provided facilities or equipment shall not result in the imposition of any liability whatsoever upon the Company.

C. RATES AND CHARGES

1. Universal Emergency Number Service (911) lines will be furnished at rates and charges for business access lines or trunks, as appropriate, as set forth in Section No. I of this tariff. *MISSOURI PUBLIC SERVICE COMMISSION*
2. Applicable service charges, as set forth in Section No. II of this tariff, apply for installation, moves, or changes of the access lines or trunks for 911 Service.
3. Equipment and facilities not specifically offered elsewhere in this tariff, including central office modifications, will be provided by the Company to customers contracting for 911 Service, when practical, at rates based on costs. Costs shall include material, engineering and maintenance labor plus the authorized rate of return.

(911)

RECEIVED

ENHANCED EMERGENCY NUMBER SERVICE (E911)

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

1. Enhanced Emergency Number Service, also referred to as E911 Service, is a telephone exchange communications service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive and answer telephone calls placed by dialing the number 911. It includes the services provided by the lines and equipment associated with the service arrangement, for the answering, transferring, and dispatching of public emergency telephone calls dialed to 911.
2. Equipment used in conjunction with Enhanced 911 Services located at the PSAP must be provided by the customer.
3. E911 Service is offered subject to the availability of facilities.
4. The E911 Service customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police and fire and other services within the telephone central office areas arranged for E911 Service calling.
5. Enhanced 911 Service is available in four elements as follows:
 - a. Dedicated 911 Central Office Circuits - Arranged for incoming use only in conjunction with an E911 Service.
 - b. ANI Spill - Provides for the telephone number of the calling party to be forwarded to the PSAP.
 - (1) ANI Spill does not guarantee the capability of forwarding the number of a multi-party line; off premise or stations behind business systems will possess the identity of the main billing number.
 - (2) ANI Spill can only be provided with the use of dedicated facilities from the central office serving the end user to the PSAP.

ENHANCED EMERGENCY NUMBER SERVICE (E911) (Cont'd)

OCT 4 1991

A. GENERAL (Cont'd)

MISSOURI
Public Service Commission

5. Enhanced 911 Service is available in four elements as follows: (Cont'd)

b. (Cont'd)

(3) The PSAP's premises equipment used in conjunction with E911 ANI Spill Service must be reviewed by the Telephone Company to determine the compatability of the unit with the E911 Service requested.

c. PSAP Data Base Update Service - Provides the PSAP with an initial list, as well as periodic updates, of customer names, telephone numbers, and addresses for exchanges served by GTE. This update will be accomplished by using a dial-up service.

d. Selective Routing Service - Available when an E911 System is served by more than one PSAP or when a central office is split by a political boundary and one of the political areas does not subscribe to 911 Services. This service routes the call to the correct PSAP or to a recording/operator, as appropriate, based on the caller's telephone number. Selective routing is available only in central offices equipped for digital operation.

B. RULES AND REGULATIONS

1. This Service is limited to the use of central office telephone number 911 as the universal emergency telephone number. Only one E911 Service will be provided within any government agency's locality.

2. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other exchange telephone service as provided in Section No. I of this tariff.

3. The Service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.

4. E911 Service is a telephone exchange communications service and is arranged for one-way incoming service to an appropriate PSAP.

Public Service Commission

5. E911 Service is provided solely for the benefit of the customer operating the PSAP; the provision of such service shall not be interpreted, construed, or regarded either expressly or implied, as being for the benefit of, or creating any Company obligation toward, or any right of action on behalf of, any third person or legal entity other than the customer.
6. The Company does not undertake to answer and forward E911 Service calls, but furnishes the use of its facilities to enable the customer's personnel to accept such calls on the customer's designated premises.
7. E911 Service information consisting of the name, address, and telephone numbers of telephone customers whose listings are not published in directories or listed in directory assistance offices is confidential, however, such information may be provided for the purpose of responding to emergency E911 Service calls or as otherwise required.
8. Any party residing within the E911 Service district forfeits the privacy afforded by nonpublished service to the extent that the telephone number and the address associated with the originating station location are furnished to the PSAP.
9. The customer releases, indemnifies, and holds harmless the Company from any and all loss, claims, demands, suits or other action or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person caused, or claimed to have been caused, directly or indirectly by its publication of such number or the disclosing of said number to any person.
10. The Company's entire liability to any person for interruption or failure of E911 Service shall be limited by the terms set forth in this section and other sections of this tariff.
11. The customer will have the responsibility to determine whether the system is functioning properly for its use and shall promptly notify the Company in the event the system is not functioning properly.

ENHANCED EMERGENCY NUMBER SERVICE (E911) (Cont'd) OCT 4 1991

B. RULES AND REGULATIONS (Cont'd)

MISSOURI
Public Service Commission

- 12. E911 Service will be designed by the Company to provide at least the same level of service reliability and quality as local exchange telephone service in the exchanges where E911 Service is offered.
- 13. Because the Company's serving boundaries and political subdivision boundaries may not coincide, the customer must make arrangements to handle all calls received on its E911 Service lines that originate from all telephones served by central offices within the E911 Service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- 14. Application for E911 Service must be executed in writing by each customer and must be accompanied by satisfactory proof of authorization to provide E911 Service in the exchanges where service is requested. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any E911 Service request.
- 15. In addition to all other terms and conditions, the following requirements will apply:
 - a. The customer will answer all E911 Service calls on a 24-hour day, seven-day week basis.
 - b. The customer has the responsibility for dispatching the appropriate emergency service within the E911 Service area, or will undertake to transfer all E911 Service calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
 - c. The customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to an E911 Service PSAP by calling parties.

B. RULES AND REGULATIONS (Cont'd)

MISSOURI
Public Service Commission

15. In addition to all other terms and conditions, the following requirements will apply: (Cont'd)

- d. The customer will subscribe to a minimum of two dedicated E911 circuits per exchange for adequate handling of incoming E911 Service calls.
- e. The customer will subscribe to additional local exchange service at the PSAP location for administrative purposes, for placing of out-going calls and for receiving other emergency calls including any which may be relayed by Telephone Company operators.

16. The Telephone Company will load and establish the initial Data Base into the PSAP customer's equipment from the Company's master list. A special form will be sent to all GTE North Incorporated customers by the Company on which they can record emergency and address information for use by the PSAP customer to be entered into their data base for response to emergency calls. Data Base Update Service for the Company's exchange(s) will be provided to the PSAP customer on a cycle basis. A hard copy of the complete Data Base will be furnished by the Company to the customer on request for verification of telephone number, name, and address.

17. When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations as well as the unique combinations of police, fire, and ambulance or any other appropriate agencies responsible for providing emergency service in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique agency by the Telephone Company. The customer will associate these ESN's with street address ranges or other mutually agreed upon routing criteria in the E911 serving area. These ESN's will be carried in the PSAP's system to permit routing of E911 calls to the primary and secondary PSAP's responsible for handling of calls from each telephone in the E911 serving area. The following terms define the customer's responsibility in providing this information.

17. (Cont'd)

- a. Initial and subsequent ESN assignments by street name, address range, and area or other mutually agreed upon routing criteria shall be furnished by the customer to the Telephone Company prior to the effective date of service.
- b. After establishment of service, it is the customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file and to advise the Telephone Company of any changes in street names, establishment of new streets, closing and abandonment of streets, changes in police, fire, ambulance, or other appropriate agencies' jurisdiction over any address, annexations, and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of E911 calls to the proper PSAP.
- c. The Telephone Company will provide to the customer on request a complete hard copy of the master address file to permit the customer to verify accuracy of the police, fire, and ambulance PSAP routing designations, at charges as provided for under Records Conversion Charges.
- d. Changes which the customer desires to have made in the master address file should be submitted on an "as occurred" basis.

- 18. The customer will agree to release, indemnify, and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the telephone used by the party or parties accessing E911 Service hereunder.
- 19. The Company's liability, if any, for its gross negligence or willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a customer or any others, for damages arising out of mistakes, omissions, interruptions, delays or errors, or defects in transmission occurring in the course of furnishing service hereunder, the Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error, or defect in transmission of service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the customer under this tariff as an allowance for interruptions. However, any such mistakes, omissions, interruptions, delays, errors, or defects in transmission of service which are caused or contributed to by the negligence or willful act of the customer or authorized user, or which arise from the use of customer provided facilities or equipment shall not result in the imposition of any liability whatsoever upon the Company.

C. RATES AND CHARGES (Cont'd)

5. Program Development Charges

These charges are applicable to the work necessary to design, develop, test, and maintain any special programming required to support E911 Service, its billing and its data base management. The rate will be designed to at least recover the costs of providing such service.

6. Records Conversion Charges

These charges are applicable to the work necessary to design, review, modify, and maintain any Company customer records keeping systems in order to support E911 Service, its billing and data base management. The rate will be designed to at least recover the costs of providing such service.

7. Changes to Orders

When a customer requests changes for a pending order for the provision of emergency service in writing, the changes will be undertaken if they can be accommodated by the Company personnel and will be billed to the customer at the appropriate hourly charges.

8. Cancellation of Order

Cancellation of the service, in whole or in part, by the customer prior to establishment thereof, will require payment of an amount equal to the costs incurred up to the time of cancellation resulting from the customer's order for service in writing, but not to exceed the total nonrecurring charges.

A. STATEMENT

- 1. This class of service will be furnished insofar as the ability and facilities of this Company permit in accordance with the following concurrence and statement of liability.

B. CONCURRENCE IN RATES AND CHARGES OF U S WEST COMMUNICATIONS, INC.

- 1. GTE North Incorporated concurs in the rates and regulations governing Wide Area Telephone Service as filed by U S WEST Communications, Inc. with the Iowa State Utilities Board.
- 2. GTE North Incorporated extends this concurrence to any and all charges which may be made subsequent to this date by U S WEST Communications, Inc.
- 3. GTE North Incorporated hereby expressly reserves the right to cancel and make void this statement of concurrence at any and such time as it appears that such cancellation is to the best interest of GTE North Incorporated, but only after compliance has been made with such orders of the Iowa State Utilities Board as may be required in lieu of such cancellation.

Exception: 800 ServiceLine

GTE North Incorporated does not concur in the offering of 800 ServiceLine Service as referenced in the U S WEST Communications, Inc. Iowa Tariff No. 7.

Exception: Late Payment Charge

GTE North Incorporated does not concur in the application of the late payment charge as referenced in the U S WEST Communications, Inc. Iowa Tariff No. 7.

C. LIABILITY OF GTE NORTH INCORPORATED

- 1. GTE North Incorporated shall not be liable for any act or omission of any other company or companies furnishing a portion of such service.

CONNECTIONS WITH CUSTOMER PREMISES
EQUIPMENT TARIFFS

A. GENERAL

Customer premises equipment and wiring may be used with the facilities furnished by the Telephone Company for telecommunications service as set forth in this tariff section and Section III, General Rules and Regulations.

These tariffs shall not be construed as to prohibit connection of registered or grandfathered customer premises equipment or protective circuitry which may be directly connected to the telecommunication network in accordance with Part 68 of the F.C.C. Rules and Regulations.

RECEIVED

B. GENERAL REGULATIONS

OCT 4 1991

1. Liability

MISSOURI

a. In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Telephone Company, and of the other uses for which facilities may be furnished him by the Telephone Company, and because of unavailability of errors incident to the services and the use of such facilities of the Telephone Company the services and facilities furnished by the Telephone Company are subject to the terms, conditions, and limitations herein specified.

b. The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in facilities furnished by the Telephone Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission, or failure or defect in facilities occurs.

c. The Telephone Company shall be indemnified and saved harmless by the customer or customers against claims for libel, slander, or the infringement of copyright arising directly or indirectly from the material transmitted over the facilities or the use thereof, against claims for infringement of patents arising from combining with, or using in connection with, facilities furnished by the Telephone Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with the facilities provided by the Telephone Company.

B. GENERAL REGULATIONS (Cont'd)

2. Responsibility of the Telephone Company

- a. The Telephone Company shall not be responsible for the installation, operation or maintenance of any customer premises equipment. Subject to the provisions of the General Rules and Regulations, telecommunications service is not represented as adapted for use with all customer premises equipment and, where such equipment is connected to Telephone Company facilities, the responsibility of the Telephone Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such telecommunications service. Subject to this responsibility, the Telephone Company shall not be responsible for (1) the transmission of signals through or generated by customer premises equipment or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-premises equipment.
- b. The Telephone Company shall not be responsible to the customer or otherwise if changes in the Network Protection criteria as set forth in this tariff section, or in any of the facilities, operations or procedures of the Telephone Company render any customer premises equipment obsolete or require modification or alteration of such equipment or otherwise affect its use or performance.

3. Responsibility of the Customer

- a. Where telecommunications service is available under this tariff for use in connection with customer premises equipment, the operating characteristics of such equipment shall be such as not to interfere with any of the services offered by the Telephone Company.
- b. The customer shall subscribe to Telephone Company facilities which are in parity with the operating characteristics of the customer premises facilities.
- c. Such use is subject to the further provisions that the customer premises equipment does not endanger the safety of Telephone Company employees or the public; damage, require change in or alteration of the facilities of the Telephone Company; interfere with the proper functioning of such facilities; impair the operation of the telecommunications system or otherwise injure the public in its use of the Telephone Company's services.

OCT 4 1991

B. GENERAL REGULATIONS (Cont'd)

3. Responsibility of the Customer (Cont'd)

MISSOURI

Public Service Commission

- d. Upon notice from the Telephone Company that the customer premises equipment or wiring is causing or is likely to cause such hazard or interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. (Reference to Section III - General Rules & Regulations)
- e. The customer shall be responsible for the payment of all Telephone Company charges for visits by the Telephone Company to the customer's premises where a service difficulty or trouble report results from the customer premises equipment or wiring.

4. Violation of Regulations

Where any customer premises equipment is used with telecommunications service in violation of any of the provisions set forth herein, the Telephone Company will take such immediate action as necessary for the protection of the network, and will promptly notify the customer of the violation. Refer to Rules and Regulations in Section III of this tariff.

C. NETWORK PROTECTION CRITERIA

To protect the telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, the customer premises equipment must comply with the following minimum network protection criteria:

1. To prevent excessive noise and crosstalk in the network, it is necessary that the power of the signal which is applied by the customer premises equipment to the network be limited so that the signal power at the output to the network (i.e., at the input to the Telephone Company line) does not exceed 9db below one milliwatt when averaged over any three-second interval. However, to permit each customer, independent to distance from the central office, to supply signal power which at the central office approximates 12db below one milliwatt when averaged over any three-second interval, the Telephone Company, at the customer's request, will specify, for each customer location, the signal power at the output of network control signaling unit (i.e., at the input to the Telephone Company line), which shall in no case exceed one milliwatt.

C. NETWORK PROTECTION CRITERIA (Cont'd)

**MISSOURI
Public Service Commission**

- 2. To protect other services, it is necessary that the signal which is applied by the customer premises equipment to the network control signaling unit located on the customer's premises meet the following limits at the output of the network control signaling unit (i.e., at the input to the Telephone Company line):
 - a. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18db below the power of the signal as specified in C.1. preceding.
 - b. The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16db below one milliwatt.
 - c. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24db below one milliwatt.
 - d. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36db below one milliwatt.
 - e. The power in the band above 40,000 Hertz shall not exceed 50db below one milliwatt.
- 3. To prevent the interruption or disconnection of a call, or interference with network control signaling, it is necessary that the signal applied by the customer premises equipment to the network control signaling unit located on the customer's premises be limited so that the signal at the output of the network control signaling unit (i.e., at the input to the Telephone Company line) shall at no time have energy solely in the 2450 to 2750 Hertz band. If there is signal power at the output of the network control signaling unit in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

D. REGULATIONS APPLYING TO SPECIFIC TYPES OF EQUIPMENT AND FACILITIES

- 1. Recording Equipment
 - a. General

Telecommunications service furnished by the Telephone Company is not represented as adapted to the recording of telephone conversations. However, customer premises recording equipment may be used in connection with telecommunications service subject to the following conditions:

D. REGULATIONS APPLYING TO SPECIFIC TYPES OF EQUIPMENT AND FACILITIES (Cont'd)

1. Recording Equipment (Cont'd)

b. Recording of Two-Way Telephone Conversations

MISSOURI
Public Service Commission

Recording equipment shall be equipped with or connected to a recorder tone device automatically producing a distinctive recorder tone that is repeated at intervals of approximately fifteen seconds when the recording equipment is in use, except as follows:

- such distinctive recorder tone need not be produced when the recording equipment is used by a Federal Communications Commission licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air.
- recorder connector equipment without the recording tone device is allowed in connection with public fire and/or police service for the recording of two-way telephone conversations, provided that proper public authority certifies that the service will be used exclusively for receipt of emergency fire and police calls.
- the distinctive recorder tone need not be produced when the recording equipment is being used by the United States Secret Service of the Department of Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds.
- such distinctive recorder tone need not be produced when the recording equipment is being used for recording at United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to Long Distance Message Telecommunications Service.

2. Automatic Announcement Equipment

a. General

Customers providing automatic announcement service must subscribe to a sufficient number of central office access lines to handle adequately the volume of telephone calls received without interfering with any of the services offered by the Telephone Company. In the event that the use of such customer premises equipment causes such interference, the Telephone Company shall have the right to discontinue service. (See Section III, General Rules and Regulations)

GENERAL

- A. Operator Services is the provision of certain types of operator assistance features for the convenience of the Telephone Company's customers. These features include, but are not limited to, such items as busy verification service, local operator assisted calls, selective class of call screening, and directory assistance calls. The types of available features offered may be expanded or deleted from time to time when determined to be in the best interest of the Telephone Company or its customers.
- B. The Telephone Company does not undertake to actually provide the services as set forth in this section. As a service to its customers the Telephone Company has contracted with third parties to make the offerings contained herein available for those customers requiring them. The rates and charges apply only when costs are passed on to the Telephone Company by contractor(s).
- C. No liability shall accrue to the Telephone Company for errors or omissions during the use of operator services except for the rates and charges for each type of service, in which case its liability shall be limited to a refund at the applicable nonrecurring charge or monthly rate for the time the error or omission occurred, after reasonable notice in writing to the Telephone Company.
- D. The customer indemnifies and holds the Telephone Company harmless from any and all liability, damages, losses, claims or demands arising from any actions, omissions, mistakes, or negligence of any kind occurring from the use of operator services.

BUSY VERIFICATION SERVICE

OCT 4 1991

MISSOURI
Public Service Commission

A. GENERAL

1. Busy Verification Service is furnished to customers upon request to provide Line Status or Busy Interrupt for a requested line or trunk.
2. This service is provided where facilities exist for Line Status or Busy Interrupt through a Telephone Company operator.
3. The provision of Line Status involves an operator determining the condition of a line or trunk that a customer requests to be checked. The status of this line or trunk is verified to the customer for a charge as listed below.
4. The provision of Busy Interrupt involves an operator interrupting a line or trunk that a customer requests to be checked. Information concerning the Busy Interrupt to this line or trunk is passed to the customer for a charge as listed below.
5. No request will be processed on a collect or reversal of charge basis.

B. CHARGES

1. The charges listed below are in addition to the rates and charges associated with local or Long Distance Message Telecommunications Service.

Per request:	<u>Charge</u>
(a) Line Status	\$1.55
(b) Busy Interrupt	2.15

2. No charge will apply if the line situation indicates a trouble condition. No charge applies when the request is identified as an emergency request by the customer and originates from or to emergency agencies, such as police, fire, rescue, or ambulance.

DIRECTORY ASSISTANCE SERVICE

MISSOURI

Public Service Commission

A. GENERAL

Directory Assistance service is defined as furnishing aid in obtaining telephone numbers. The Directory Assistance charges specified in this tariff apply when a customer within an Iowa Number Plan Area (NPA) requests the telephone numbers of customers within the same Iowa Number Plan Area (NPA).

B. RATES

1. An allowance of two direct dialed calls per month is provided without charge for each:
 - (a) Exchange Service Line
 - (b) Wide Area Telecommunications Service Line
 - (c) Mobile Telephone Service Line
 - (d) Trunk Line
2. Direct dialed calls (maximum of two requests per call) \$.45
3. Requests placed through the operator (when normal DA Service is available - maximum of two requests per call) will be billed the \$.45 rate.
4. Call allowances are not transferable between accounts.
5. For the purposes of administering this tariff the full allowance will apply for service on record as of the customer's billing date.
6. Rates specified in B.2 and B.3 preceding are not applicable to:
 - (a) Calls placed from hotels and motels.
 - (b) Calls placed from hospitals.

LOCAL OPERATOR ASSISTANCE

MISSOURI
Public Service Commission

A. GENERAL

1. Local Telecommunications Service is that of furnishing telephone communications within local service areas.
2. Local operator assistance is furnished to customers upon request in order to complete local calls.
3. For the purpose of rate application, local operator assistance charges are categorized as follows: Calling Card, Operator Station, and Person-to-Person calls.
 - a. Calling Card calls - The customer dialed Calling Card rate is applicable to "0+" calls which are completed by the caller or the operator and are billed to the caller's calling card or special billing number. This rate is also applicable when no automatic recording equipment for operator assisted calls is available in order to complete a calling card or special billing number call.
 - b. Operator Station calls - The Operator Station rate is applicable when calls are completed with the assistance of a Company operator, except as specified for the customer dialed Calling Card or Person-to-Person type calls. Customer dialed "0-" calls where the operator completes the call and arranges billing are charged the Operator Station rate. The call can be billed to the originating telephone number, a calling card, the called number (collect), or to a third number.

Operator Station calls also include "0+" calls when the customer is placing a collect or billed to third number call.
 - c. Person-to-Person calls - The Person-to-Person rate applies to customer dialed "0-" calls where the operator completes the call to a designated person or extension. The call can be billed to the originating telephone number, calling card, the called number (collect), or to a third number.
4. Dial Station-to-Station class of service applies to operator station-to-station calls placed sent paid from residence service lines or trunks which are certified by a qualified authority as services of persons who are disabled and unable to dial telephone numbers. All station-to-station calling card calls charged to the certified line are subject to the charges in B.1. following.

LOCAL OPERATOR ASSISTANCE

RECEIVED

OCT 4 1991

A. GENERAL

MISSOURI
Public Service Commission

4. (Cont'd)

Certification is provided upon the customer's written application to the Telephone Company for each residence line or trunk to be included. Certification becomes effective with the bill following approval of the application. Requests to change to or from certification are not subject to charge. Customers may verbally identify themselves as being unable to dial a call because of their disability. Only the Dial Station-to-Station charges will apply to these sent-paid calls.

- 5. Customers who verbally identify themselves as being unable to dial a call because of their disability will not be required to pay the operator assisted charge for sent-paid station-to-station calls from pay telephones.
- 6. When an operator is used to complete a local call, the charges appearing in B.1., 2., and 3., following apply.

B. RATES

	<u>Charge</u>
1. For customer dialed Calling Card calls	\$.65
2. For all other Operator Station calls	1.30
3. For Person-to-Person calls	2.75
4. Local Operator Assistance charges are in addition to any local usage charges and any local service charges.	
5. Local Operator Assistance charges do not apply to calls placed to the Telephone Company Business Office, Telephone Company Repair Service, or to emergency agencies such as 911 service, police, fire, rescue or ambulance.	
6. These charges are not subject to any discounts.
