3.7 Custom Business Services (continued)

REC'D OCT 28 2003

3.7.10 Business Domestic Saver

Service Commission

Business Domestic Saver is a custom combination inbound, outbound, and calling card optional pricing plan available to Business Customers. This optional pricing plan is not available prior to May 1, 2001. This optional pricing plan is available to new and existing Business Customers that:

- (1) use Switched Access to reach the long distance network for outbound calling and/or to receive calls from the long distance network for TFS;
- (2) request to be provisioned under this optional pricing plan; and
- (3) commit to an MMC of \$5.95 per month.

For rules and regulations regarding the MMC, see Section 2.26 of this Tariff.

Outbound and TFS calls and calls billed to the Calling Card - Option 2, category 11, are billed in increments of six (6) seconds subject to a minimum connect time (initial period) of sixty (60) seconds. For rates and charges, see Section 4.7.10 of this Tariff.

REC'D DEC 07 2001 M

3.7.10 Business Domestic Saver (continued)

Service Commission

For Customers subscribing to Business Domestic Saver with one BTN, all qualified usage generated under all of the Customer's WTNs billed under that BTN will be totaled to determine if the minimum monthly usage charge applies. For Customers subscribing to TFS with one BTN, all qualified usage generated under all of the Customer's TFS Numbers associated with that BTN will be totaled to determine if the minimum monthly usage charge applies. Multiple BTN aggregation is not available with this Service.

The minimum monthly usage charge will be prorated for the first billing cycle after subscribing to the optional calling plan. For each billing cycle thereafter, Customers whose usage revenue is less than or equal to the monthly minimum usage charge specified in Section 4.7.10 of this Tariff will be billed the difference between actual usage revenue and the minimum monthly usage charge. Customers that generate usage revenue in excess of the minimum monthly usage charge specified in Section 4.7.10 of this Tariff in any given billing cycle will not incur the minimum monthly usage charge for that billing cycle. Customers subscribing to Business Domestic Saver may be LEC-billed or direct-billed. The method of billing is determined by the Company.

## 3.7 Custom Business Services (continued)

## 3.7.12 SBC Long Distance Virtual Private Network (VPN)

## (A) General

SBC Long Distance Virtual Private Network (VPN) is an outbound only long distance Service that provides the functionality and capabilities of a private network through the use of shared transmission facilities. VPN is operated by a software-controlled management system. This Service is available to Business Customers or Applicants that:

- .1 sign a term plan for a minimum commitment period of one year;
- .2 access the VPN network via one or more of the access methods described in Section 3.7.12 (B) of this Tariff;
- .3 subscribe to VPN for the provision of interstate, intrastate IntraLATA, and intrastate InterLATA calling (VPN is not available for intrastate calling on a stand alone basis); and
- .4 commit to a MAC of \$240,000. See Section 2.26 of this Tariff for rules and regulations applicable to MACs and term plan agreements.

3.7.12 SBC Long Distance Virtual Private Network (VPN) (continued)

**Service Commission**

(B) Access

Access to the Customer's VPN network may be provided via one or more of the following methods:

- .1 by subscribing to one of the Company's High Volume Dedicated Outbound Calling plans, as described in Section 3.7.1 or 3.7.2 of this Tariff, with DVA access or PRI-ISDN access (term plan, MAC, and MMC commitments required to subscribe to High Volume Dedicated Outbound Calling Service will be waived for Customers subscribing to VPN Service);
- .2 by presubscribing one or more of the Customer's Switched Access lines to the Company for the provision of outbound long distance service and identifying those lines to be associated with the Customer's VPN Service; or
- .3 by remote access using a toll-free number. Remote access enables VPN members to access their VPN network from remote, non-VPN locations (e.g., while traveling). The VPN member dials a toll-free number to access the VPN Service and is prompted for a VPN Authorization Code, a PIN number, and the called party number. The remote access toll-free number, the VPN member's authentication code, and PIN are printed on a VRA card, available as part of the VPN Service.

- .2 by presubscribing one or more of the Customer's Switched Access lines to the Company for the provision of outbound long distance service and identifying those lines to be associated with the Customer's VPN Service; or
- .3 by remote access using a toll-free number. Remote access enables VPN members to access their VPN network from remote, non-VPN locations (e.g., while traveling). The VPN member dials a toll-free number to access the VPN Service and is prompted for a VPN Authorization Code, a PIN number, and the called party number. The remote access toll-free number, the VPN member's authentication code, and PIN are printed on a VRA card, available as part of the VPN Service.

SECTION 3 - DESCRIPTION OF SERVICES

3.7 Custom Business Services (continued)

3.7.12 SBC Long Distance Virtual Private Network (VPN) (continued)

(E) Commence of Service

Once Service is implemented and tested, billing for the Service will begin upon receipt of Customer's acceptance of the Service. This applies to both the initial VPN Service(s) and additional VPN Service(s).

(F) Billing

Customers subscribing to VPN will be direct-billed by the Company. The VPN Service is identified with the Corporate BAN of a Billing Hierarchy, and as such, there can only be one VPN per Billing Hierarchy and vice versa. The Corporate BAN is always an invoice point, but VPN Customers may request multiple invoice points throughout the Billing Hierarchy, such that different corporate organizations, divisions, groups, etc. are billed individually for the VPN charges that they incur.

SECTION 3 - DESCRIPTION OF SERVICES Missouri Public

3.7 Custom Business Services (continued)

REC'D JAN 28 2004

3.7.14 Business Block of Time 200<sup>1</sup>

Service Commission<sup>C</sup>

- (A) Business Block of Time 200 is a custom combination outbound, switched toll free, and calling card long distance optional pricing plan for calls that originate and terminate within the State. This optional pricing plan is established at the BTN level. Multiple BTN Aggregation is not available with this Service. If a Customer or Applicant selects a different price plan for specific WTN(s), the Customer or Applicant is required to establish a separate BTN for each variation. Outbound calls, TFS calls, and fully automated, operator assisted, and operator dialed calls billed to the Calling Card - Option 2, category 11, calls are billed in increments of six (6) seconds subject to a minimum connect time (initial period) of sixty (60) seconds.
- (B) For a specified monthly recurring charge, the Customer receives a 200 minute (block) of interstate and/or intrastate time for a line presubscribed to the Company. The block of time may be used (1) for placing one plus (1+) Direct-Dialed outbound calls that originate from a line presubscribed to the Company and (2) for receiving TFS calls on the same presubscribed line. Calls billed to the Calling Card - Option 2, category 11, are not included in the block of time. All usage in excess of the 200 minute block of time will be billed at a fixed rate per minute. See Section 4.7.14 of this Tariff for the per minute rate after the block of time has been used. Any minutes not used in a billing cycle will not be carried over to the next billing cycle. No credits will be given for any unused minutes.

<sup>1</sup> This service is no longer available to new Customers or existing Customers at new locations effective April 1, 2004.

REC'D JAN 28 2004

3.7.14 Business Block of Time 200<sup>1</sup> (continued)

C  
Service Commission

- (H) The block of time will remain in effect until cancelled or changed by the Customer. Changes to a block of time plan will be effective on the day the Customer's change order is processed. If an existing Customer initially subscribes to the Business Block of Time 200 in the middle of its billing cycle, the change will be effective on the first day after the Customer's change order is processed.
- (I) Reserved for future use.
- (J) If a Customer fails to maintain the products, services or features described in Section 3.7.14 (D).5 and 3.7.14 (E) or Section 3.7.14 (F) of this Tariff that initially qualified the Customer for Business Block of Time 200, the Customer will no longer qualify for Business Block of Time 200. Unless the Customer selects an alternative optional calling plan, the Customer will be moved to Long Distance for Business and the rates and charges in Section 4.7.7 of the Tariff will apply in lieu of the rates and charges in Section 4.7.14 of this Tariff.

<sup>1</sup> This service is no longer available to new Customers or existing Customers at new locations effective April 1, 2004.

SECTION 3 - DESCRIPTION OF SERVICES Missouri Public

3.7 Custom Business Services (continued)

REC'D JAN 28 2004

3.7.15 Business Block of Time 400<sup>1</sup>

C  
Service Commission

(A) Business Block of Time 400 is a custom combination outbound, switched toll free, and calling card long distance optional pricing plan for calls that originate and terminate within the State. This optional pricing plan is established at the BTN level. Multiple BTN Aggregation is not available with this Service. If a Customer or Applicant selects a different price plan for specific WTN(s), the Customer or Applicant is required to establish a separate BTN for each variation. Outbound calls, TFS calls, and fully automated, operator assisted, and operator dialed calls billed to the Calling Card - Option 2, category 11, calls are billed in increments of six (6) seconds subject to a minimum connect time (initial period) of sixty (60) seconds.

(B) For a specified monthly recurring charge, the Customer receives a 400 minute (block) of interstate and/or intrastate time for a line presubscribed to the Company. The block of time may be used (1) for placing one plus (1+) Direct-Dialed outbound calls that originate from a line presubscribed to the Company and (2) for receiving TFS calls on the same presubscribed line. Calls billed to the Calling Card - Option 2, category 11, are not included in the block of time. All usage in excess of the 400 minute block of time will be billed at a fixed rate per minute. See Section 4.7.15 of this Tariff for the per minute rate after the block of time has been used. Any minutes not used in a billing cycle will not be carried over to the next billing cycle. No credits will be given for any unused minutes.

<sup>1</sup> This service is no longer available to new Customers or existing Customers at new locations effective April 1, 2004.
