1.3.2 Rates

Rates for Customer Specific Arrangements will be based on the following factors:

- The Incremental Unit Cost.
- Construction charges.
- The contribution level.
- The payment option selected.

These factors will vary with each Customer Specific Arrangement and will, therefore, vary the rates which apply to these services or arrangements.

B. Contribution Levels

A contribution percentage will be determined for each Customer Specific Arrangement. These individual-case percentages will be set to afford the Telephone Company a maximum contribution level, yet taking into consideration the competitive alternatives for the service to be provided. At no time, will the contribution level be less than 5 percent above Increment Unit Cost.

C. Payment Options

The Telephone Company will offer the following payment options to customers subscribing to Customer Specific Arrangements:

1. Option One

A payment option that allows the customer to pay monthly recurring rates and charges, subject to Telephone Company-initiated change, plus a nonrecurring charge. A termination charge or minimum billing period may apply in those cases when, in the judgment of the Telephone Company, the nonrecoverable costs are substantial.

2. Option Two

A payment option that allows the customer to pay a fixed monthly rate for the Customer Specific Arrangement over a period not to exceed 60 months. Customers subscribing to this plan are subject to the following additional regulations:

- Customers must sign a contract for service which will remain in effect during the selected Fixed Rate Term.
- During the contract term, the Fixed Rates are not subject to rate increases initiated by the Company. Items of equipment or service not covered by the Customer Specific Arrangement Contract remain subject to Company-initiated rate changes.

In addition, the present-worth of any nonrecurring charges remaining that have been deferred must be paid in full.
