1.4 TWO-POINT SERVICE - (Continued)

1.4.17 AT&T ONE RATE PLAN (AT&T Simplified Calling Plan-OCPKG)

A. Availability

Residential customers who are presubscribed to AT&T as their Primary Interexchange Carrier (PIC) and are currently enrolled in this plan will receive the benefits of this plan. Additional terms and conditions are contained within the AT&T Consumer Service Guide located at www.att.com/serviceguide/home.

B. Limitations

Usage from Conference Calls, 900 Services, 800 Plan P Service, calls to Directory Assistance, calls billed to a LEC calling card, AT&T CIID/891 card calls not billed to the Customer's Main Billed Account, Operator Handled calls, and mobile, marine or cellular services calls are excluded from this plan. The AT&T One Rate Plan is not available to customers who subscribe to any of the AT&T Optional Calling Plans and Discount Plans. This plan is available where billing permits.

C. Application of Rates

AT&T intrastate Dial Station calls are eligible for the rates specified below. Rates and service charges for calling card calls and operator-handled calls apply as specified in Section 1.4.6.

AT&T will use the schedule below to rate eligible calls all day, seven days a week, for both the initial and additional minutes of use in lieu of rates specified elsewhere in Section 1 of this tariff:

<u>Class of Service</u>	<u>Rate Per Minute</u>	<u>Surcharge</u>	
Dial Station			
- InterLATA	\$0.23	None	(CR)
- IntraLATA	\$0.23	None	(CR)

AT&T One Rate Plan terms, conditions and rates also apply to intrastate Direct Dial station calls when a customer is subscribed to AT&T Military Connect'N Save (OCPKN), and is not enrolled in any other domestic plan.

* Effective November 1, 2007 this plan will no longer be available to new subscribers.

MO. PUBLIC SERVICE COMMISSION

When customer premises equipment is connected to MTS, it must comply with the FCC's Registration Program. If Grandfathered customer premises equipment, test equipment or communications systems are connected, the Minimum Protection Criteria specified in this Tariff must be met.

(MT)

MTS is not represented as adapted for connection to other services or communications systems. It is designed, operated and maintained to provide satisfactory transmission only between a calling and a called service point(s) equipped with suitable customer premises equipment.

The Company is responsible for the quality of transmission for MTS from demarcation point to demarcation point. The Company is not responsible for the quality of transmission of the customer's side of the demarcation points at a premises.

(MT)

1.6.2 Responsibilities of the Customer

(CT)

When customer premises equipment or a communications system is connected to MTS, the customer assumes responsibility for the connection as follows:

(MT)

A. Interference and Hazard

The operating characteristics of customer premises equipment or communications systems connected to MTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of MTS.

The Company will take immediate action to protect its services or interests if this regulation is violated.

B. Changes to MTS

The Company is not obligated to alter or modify MTS because of additions or changes to customer premises equipment or a communications system provided by the customer or others.

C. Testing and Maintenance

If a trouble report occurs on an assembly, the customer must determine whether the fault is in (1) the connected premises equipment or communications system, or (2) MTS. The Company test and maintain only the services it provides. The testing of MTS will usually be made from a point-of-presence.

Residential Customers can subscribe to this plan by completing and returning an enrollment form provided by AT&T, by calling an 800 number designated by AT&T for this plan, or by enrolling during a marketing contact with AT&T.

This plan is an add-on to the interstate AT&T One-Rate Calling Card Plan, and is available only to Customers who subscribe to the Interstate. All the terms and conditions are contained within the consumer AT&T Service Guide CRD01002DD.

B. Eligible Calls

AT&T intrastate Customer Dialed/Automated AT&T Calling Card calls placed via 1-800-CALLATT (or other specific numbers so designated by AT&T) and billed to the Customer's Main Billed Account or billed to the Customer's Direct Billed AT&T Card are included in this plan.

C. Rates and Charges

Eligible Card calls will be rated, using the schedule below, all day, seven days a week, in lieu of the rates specified elsewhere in this tariff. These Card calls will not be further discounted by another AT&T plan or promotion unless explicitly stated otherwise. Eligible Card calls will also be excluded when determining what discount level a Customer qualifies for when subscribed to certain plans. The Public Payphone Surcharge as specified in Section 1.4.6.C., 1. does not apply to the Eligible Card calls when they are placed from a public or semi-public payphone.

<u>Class of Service</u>	<u>Rate Per Minute</u>	<u>Service Charge</u>	
Eligible Card Calls	\$.25	NONE	(CR)

The duration of a call, which involves a fractional part of a minute, will be rounded up to the next higher full minute.

For customers who enrolled in the One Rate Calling Card Special Offer (CPMSH) during the promotional period as specified in Consumer Service Guide SPO01011DD, AT&T will rate eligible AT&T calling card calls at \$.25 per minute, 24 hours a day, seven days a week. (CR)

1.6 CONNECTIONS

(CT)

1.6.1 General

MO. PUBLIC SERVICE COM. (MT)

When customer premises equipment is connected to MTS, it must comply with the FCC's Registration Program. If Grandfathered customer premises equipment, test equipment or communications systems are connected, the Minimum Protection Criteria specified in this Tariff must be met.

MTS is not represented as adapted for connection to other services or communications systems. It is designed, operated and maintained to provide satisfactory transmission only between a calling and a called service point(s) equipped with suitable customer premises equipment.

The Company is responsible for the quality of transmission for MTS from demarcation point to demarcation point. The Company is not responsible for the quality of transmission of the customer's side of the demarcation points at a premises.

1.6.2 Responsibilities of the Customer

When customer premises equipment or a communications system is connected to MTS, the customer assumes responsibility for the connection as follows:

A. Interference and Hazard

The operating characteristics of customer premises equipment or communications systems connected to MTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of MTS.

The Company will take immediate action to protect its services or interests if this regulation is violated.

B. Changes to MTS

The Company is not obligated to alter or modify MTS because of additions or changes to customer premises equipment or a communications system provided by the customer or others.

C. Testing and Maintenance

If a trouble report occurs on an assembly, the customer must determine whether the fault is in (1) the connected premises equipment or communications system, or (2) MTS. The Company will test and maintain only the services it provides. The testing of MTS will usually be made from a point-of-presence.

MO. PUBLIC SERVICE COMMISSION

Prior to reconnecting grandfathered equipment to MTS, the customer must provide the following information about the equipment to the Company:

1. Manufacturers name, model number and type
2. Ringer equivalent number and type (if known)
3. Type of standard jack (if required)
4. Service to which equipment is being connected
5. Notarized affidavit for premises wiring
6. Description of interface
7. Line or pin assignment for a multiline jack

The customer must also notify the Company when the grandfathered equipment is permanently disconnected.

1.6.3 Responsibilities of the Company

B. Changes in Minimum Protection Criteria, Operations, or Procedures (MT)

The Company is not responsible to any party if a change in its MTS components, Minimum Protection Criteria, operations, or procedures, which are consistent with the Registration Program, (1) affects any facilities, customer premises equipment or communications systems provided by others in any way, or (2) requires their modification in order to be used with MTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the MTS or render any customer premises equipment or communications system incompatible with MTS, the Company will make a reasonable effort to notify the customer in writing of the proposed change. A reasonable interval will be allowed before the change is implemented to enable the customer to maintain compatibility of its customer premises equipment or communications system with MTS.

(MT)

1.6.4 Connection to Service Provided by a Local Exchange Carrier (CT)

MTS may be connected to services provided by a Local Exchange Carrier. The connections are subject to the regulations in this Tariff and the appropriate tariff(s) of the Local Exchange Carrier.

(MT)

(MT)

1.6.5 Connection of a Communications System or MTS Equivalent Service (CT)

When a communications system or MTS equivalent service is connected to the Company's MTS, the customer must make all arrangements concerning the connected systems or service with its provider. The connection does not constitute a joint undertaking between this Company and the provider of the system or service. The system or service must be operated and maintained so it will work satisfactorily with MTS. Connections to MTS will be made in accordance with the following:

(MT)

A. Answer Supervision

When MTS is connected to a communications system which is connected to switching or terminal equipment, such equipment provide the necessary answer supervision so that chargeable time begins upon delivery of the MTS message to the equipment and ends upon termination of the message by the calling party.

1.6 CONNECTIONS

1.6.1 General

MO. PUBLIC SERVICE COMM

When customer premises equipment is connected to MTS, it must comply with the FCC's Registration Program. If Grandfathered customer premises equipment, test equipment or communications systems are connected, the Minimum Protection Criteria specified in this Tariff must be met.

MTS is not represented as adapted for connection to other services or communications systems. It is designed, operated and maintained to provide satisfactory transmission only between a calling and a called service point(s) equipped with suitable customer premises equipment.

The Company is responsible for the quality of transmission for MTS from demarcation point to demarcation point. The Company is not responsible for the quality of transmission of the customer's side of the demarcation points at a premises.

1.6.2 Responsibilities of the Customer

When customer premises equipment or a communications system is connected to MTS, the customer assumes responsibility for the connection as follows:

A. Interference and Hazard

The operating characteristics of customer premises equipment or communications systems connected to MTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of MTS.

The Company will take immediate action to protect its services or interests if this regulation is violated.

B. Changes to MTS

The Company is not obligated to alter or modify MTS because of additions or changes to customer premises equipment or a communications system provided by the customer or others.

C. Testing and Maintenance

If a trouble report occurs on an assembly, the customer must determine whether the fault is in (1) the connected premises equipment or communications system, or (2) MTS. The Company will test and maintain only the services it provides. The testing of MTS will usually be made from a point-of-presence.

D. Information A Customer Must Provide

Prior to reconnecting grandfathered equipment to MTS, the customer must provide the following information about the equipment to the Company:

1. Manufacturers name, model number and type
2. Ringer equivalent number and type (if known)
3. Type of standard jack (if required)
4. Service to which equipment is being connected
5. Notarized affidavit for premises wiring
6. Description of interface
7. Line or pin assignment for a multiline jack

The customer must also notify the Company when the grandfathered equipment is permanently disconnected.

1.6.3 Responsibilities of the Company

A. General

In addition to furnishing and maintaining its service components for MTS, the Company will provide technical information pertaining to MTS interface parameters as an aid to the customer in selecting the appropriate interface.

B. Changes in Minimum Protection Criteria, Operations, or Procedures

The Company is not responsible to any party if a change in its MTS components, Minimum Protection Criteria, operations, or procedures, which are consistent with the Registration Program, (1) affects any facilities, customer premises equipment or communications systems provided by others in any way, or (2) requires their modification in order to be used with MTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the MTS or render any customer premises equipment or communications system incompatible with MTS, the Company will make a reasonable effort to notify the customer in writing of the proposed change. A reasonable interval will be allowed before the change is implemented to enable the customer to maintain compatibility of its customer premises equipment or communications system with MTS.

1.6.4 Connection to Service Provided by a Local Exchange Carrier

MTS may be connected to services provided by a Local Exchange Carrier. The connections are subject to the regulations in this Tariff and the appropriate tariff(s) of the Local Exchange Carrier.

1.6.5 Connection of a Communications System or MTS Equivalent Service

When a communications system or MTS equivalent service is connected to the Company's MTS, the customer must make all arrangements concerning the connected systems or service with its provider. The connection does not constitute a joint undertaking between this Company and the provider of the system or service. The system or service must be operated and maintained so it will work satisfactorily with MTS. Connections to MTS will be made in accordance with the following:

A. Answer Supervision

When MTS is connected to a communications system which is also connected to switching or terminal equipment, such equipment shall provide the necessary answer supervision so that chargeable time begins upon delivery of the message to the equipment and ends upon termination of the message by the calling party.

B. Minimum Protection Criteria

(MT)

The connection at the MTS demarcation point must be made so that it continually complies with the specified Minimum Protection Criteria.

C. Communications System Failures

When a communications system fails and the connection to MTS is not through switching equipment, the communications system must be arranged to promptly return the MTS to an idle (on-hook) state. In addition, the customer must promptly notify the Company when the communications system fails.

D. Use of Satellite Facilities

If a communications system uses satellite facilities (directly or indirectly), and is connected to MTS, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for and deterioration in the quality of the through transmission of signals on such a connection. The Company will continue to furnish MTS using the service components that it considers to be appropriate. Credit allowance for impaired transmission resulting from such connection will not be granted.
