.21 Option T (500 Personal Number Service)

500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within the state of Missouri to a station at one location, or to a set of stations at more than one location based upon pre-established priorities.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this tariff which pertain to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate MCI WORLDCOM as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that MCI WORLDCOM is the provider of the service.

Users of 500 Personal Number Service may have access to non-tariffed enhancements (e.g., information services) provided by MCI WORLDCOM. Terms and conditions will be applied in accordance with MCI WORLDCOM's F.C.C. Tariff No. 1.

Option U is an outbound, customized telecommunications service which may include an inbound service option using a Business Line, WATS Access Line, or Dedicated Access Line Termination. Option U provides service for single and multi-location customers using switched and/or dedicated access origination and switched and/or dedicated termination. Option U may be used for long distance calls between customer locations and to other locations within the state. Upon enrollment a customer must commit to a term plan option and is bound by all terms and conditions as described in MCI WORLDCOM's F.C.C. Tariff No. 1. All intrastate Option U calls are subject to an 18-second minimum initial period and are rounded to the next higher six second increment. If the computed charge for a call includes a fraction of a cent, the fraction is rounded to the nearest whole cent. When a hospitalityMCI call is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the call occurring during that rate period. The rate for inbound calls is the rate for the time of day at the terminating location. To be eligible for service, a customer must subscribe to outbound service at all of its locations.

In addition to the usage charges set forth below, charges for terminating access lines will be billed in accordance with MCI WORLDCOM's F.C.C. Tariff No. 1.
