**TARIFF FORMAT**

**Sheet Numbering.** Sheet numbers appear in the upper right hand corner of the sheets. Sheets are numbered sequentially. From time to time new sheets may be added to the tariff. When a new sheet is added between existing sheets, a decimal is added to the preceding sheet number. For example, a new sheet added between sheets 5 and 6 would be numbered 5.1.

**Sheet Revision Numbers.** Revision numbers also appear in the upper right corner of sheets. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th Revised Sheet No. 24 cancels the 3rd Revised Sheet No. 24.

**Paragraph Numbering Sequence.** There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level, as shown by the following example:

2  
2.1  
2.1.1  
2.1.1.A  
2.1.1.A.1  
2.1.1.A.1.(a)  
2.1.1.A.1.(a).I  
2.1.1.A.1.(a).I.(i)  
2.1.1.A.1.(a).I.(i).(1)

**Check Sheets.** When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current one on file with the Commission.

**TARIFF FORMAT** (Cont'd)

Explanation of Symbols. When changes are made in any tariff sheet, a revised sheet will be issued replacing the tariff sheet affected. Changes will be identified on the revised sheet through the use of the following symbols:

- (C) - Identifies a changed regulation.
- (D) - Identifies a discontinued rate or regulation.
- (I) - Identifies an increase in rate.
- (M) - Identifies material moved from one tariff location to another.
- (N) - Identifies a new rate or regulation.
- (R) - Identifies a reduction in rate.
- (T) - Identifies a change in text only.

0.1 Application

This tariff contains the rates and regulations applicable to local exchange services provided by McLeodUSA between and among points within the State of Missouri. Currently, in the state of Missouri, McLeodUSA offers local exchange services to business customers only. Residential products that McLeodUSA currently maintains for the Residential customers on McLeodUSA service are located in the 'Grandfathered' section, 6.0, of this tariff.

0.2 Scope

McLeodUSA's services are provided subject to the availability of facilities and subject to the terms and conditions of this tariff. All services within the jurisdiction of the Commission provided by McLeodUSA between and among points in Missouri are governed by this tariff.

0.3 Interconnection with Other Carriers

Service provided by McLeodUSA may be connected with services or facilities of other carriers or may be provided over facilities provided by carriers other than McLeodUSA. However, service provided by McLeodUSA is not a part of a joint undertaking with any other carrier providing telecommunications channels, facilities, or services.

1.0 Explanation of Terms and Abbreviations

1.1 Definitions of Terms

Advanced In-Only Trunk with DID and Hunting

In only trunk with Direct-Inward-Dialing (DID) feature. Requires a DID trunk circuit termination.

Advanced Out-Only Trunk with Answer Supervision

Out-only trunk with supervision feature. This feature passes answer back signaling from the central office switch to the customer's PBX when a PBX call has been either completed or answered.

Advanced Two-Way Trunk with DID, Hunting and Answer Supervision

Two-way trunk with DID and answer supervision features. Requires a DID trunk circuit termination.

Authorization Code

A numerical code, one or more of which is available to Customer to enable it to access McLeodUSA's network, and which are used by McLeodUSA to prevent unauthorized access to its facilities and to identify Customer for billing purposes.

Basic In-Only

One-way trunk which allows traffic from the central office switch to be transmitted to the PBX.

Basic Out-Only

One-way trunk which only allows traffic originating in the PBX to be transmitted to the central switch.

1.0 Explanation of Terms and Abbreviations (cont'd)

1.1 Definitions of Terms (cont'd)

Customer

Any person, firm, association, corporation, agency of the federal, state, or local government, or legal entity responsible by law for payment of rates and charges and for compliance with the regulations of McLeodUSA.

Customer Contract

A written agreement between the Customer and McLeodUSA containing or referring to the rates and regulations applicable to the service being provided.

Customer Premises Equipment

All terminal equipment normally used on the Customer's premises. This equipment may be Customer-owned, or may be owned by McLeodUSA or another supplier and leased to the Customer.

Delinquent or Delinquency

An account for which an uncontested bill or payment agreement for regulated services has not been paid in full on or before the last day for timely payment. This term may also apply to a contested bill for which the Commission finds the Customer's complaint to be without merit.

DID

(Direct Inward Dialing) is a special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX station directly without an attendant's assistance.

---

1.0 Explanation of Terms and Abbreviations (cont'd)

1.1 Definitions of Terms (cont'd)

Disconnect or Disconnection

The disabling of circuitry to prevent outgoing and/or incoming calls.

Due Date

The last day for payment of a bill without unpaid amounts being considered delinquent or subject to additional collection efforts. The due date may be designated by "due by," "pay by," "if paid by," or other such language on the Customer's bill.

Exchange

A unit established for the administration of local communication services.

Exchange Service

A local communications service furnished by means of local exchange plant and facilities.

Extended Area Service or EAS

Telephone service, offered at a flat local rate, between customers located within an exchange area and all customers in an additional exchange area or areas.

Flat Rate Service

An exchange service for which a specified rate is charged, regardless of the amount of local usage.

Fraud

An attempt to procure or retain service by supplying misleading or deliberately inaccurate information, or by untruthful or unlawful means, including supplying false information on an application for service. There will be a presumption of fraud in cases where the customer's actual usage for a month, or its pro-rata usage for a partial month, is more than three times the customer's estimated usage (or the pro-rata share of estimated usage) as supplied by the customer at the time of application (which may be revised by customer based on actual experience upon notification to the Company), and that usage is in excess of \$500. In such cases, the customer may be contacted to notify the customer of the usage levels, and to discuss the reasons for the usage levels. In such cases, restrictions may be imposed upon further usage unless satisfactory payment arrangements are made.

Service

Any or all service(s) provided by McLeodUSA pursuant to this tariff.

Service Order

The written request for Network Services executed by the Customer and McLeodUSA in the format designated by McLeodUSA. The signing of a Service Order by the Customer and acceptance by McLeodUSA initiates the respective obligations of the parties as set forth herein and pursuant to the tariffs of McLeodUSA, but the duration of the service is calculated from the service commencement date.

Shared

A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Signaling

Represents the type of signaling format utilized to maintain a T1 level digital transmission from the Central Office to the customer premise. Signaling options include: AMI, ESF, SF, B8ZF; other options may be available on an individual case basis.

Standard Elements

For McLeodUSA bundled local packages, the Standard Elements consist of switched local dial tone, unlimited local calling, local number portability and mandatory EAS or EACS.

Suspend or Suspension

To disconnect or impair a service temporarily in order to disable either outgoing or incoming calls or both.

T1- Advanced

Includes In-Only Trunk with DID and Hunting, Out-Only Trunk with Answer Supervision or Two-Way Trunk with DID, Hunting and Answer Supervision.

T1 Basic or Combo

Includes In-Only Trunk, Out-Only Trunk or Two-Way Trunk. Combo is a combination of Basic and Advanced.

Terminal Interface

The method of physical connection between a McLeodUSA-provided service and a Customer's or User's transmission cable, inside wiring, or terminal equipment. Depending upon the service ordered by the Customer, there may be a choice of terminal interfaces. The Customer is responsible for ordering a terminal interface that is compatible with the Customer's or User's terminal equipment. All terminal interfaces will be provided by industry-standard connectors as specified in or authorized by Subpart F of Part 68, Title 47, Code of Federal Regulations.

Timely Payment

A payment of the Customer's account made on or before the due date shown on a current bill for rates and charges or by an agreement between the Customer and McLeodUSA for a series of partial payments to settle a delinquent account.

Two-Way

A service attribute that includes DOD (the ability to dial directly from an extension without having to go through an operator or attendant) for outbound calls and can also be used to carry inbound calls to a central point for further processing.

User

A Customer or any other person authorized by a Customer to use service provided to the Customer under a McLeodUSA tariff.

RECD NOV 13 2002

2.1 Undertaking of McLeodUSA

**Service Commission**

2.1.1 General

Pursuant to this tariff, McLeodUSA undertakes to provide within the service area in which McLeodUSA has been approved for certification the regulated intrastate, intraLATA, interexchange services, and the services described in Section 3.0.

2.1.2 Limitations

- A. Service is offered subject to the availability of the necessary facilities and equipment and subject to the provisions of this tariff in compliance with limitations set forth in the Commission's rules.
- B. McLeodUSA reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by McLeodUSA, when necessary because of lack of facilities, or due to some other cause beyond McLeodUSA's control on a non-discriminatory basis.
- C. The furnishing of service under the tariffs of McLeodUSA is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the McLeodUSA's facilities as well as facilities the McLeodUSA may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.
- D. McLeodUSA reserves the right to discontinue service when the Customer is using the service in violation of the provisions of this tariff, signed contract, or the law, with notice as required by the rules of the Commission.
- E. McLeodUSA does not undertake to transmit messages or information, but offers the use of its facilities, when available, for that purpose.

2.0 General Rules and Regulations (cont'd)

2.2 Use

2.2.1 Lawful Purpose

Services provided under this tariff may be used for any lawful purpose for which the service is technically suited consistent with the transmission and switching parameters of the telecommunications facilities utilized in the provision of the service.

2.2.2 Use of Service for Unlawful and/or Fraudulent Purposes

McLeodUSA's services are provided subject to the condition that they will not be used for any unlawful and/or fraudulent purpose. Services will not be furnished if any law enforcement agency, acting within its jurisdiction, advises McLeodUSA that such services are being used or are likely to be used in violation of the law and/or in a fraudulent manner. If McLeodUSA receives other evidence giving reasonable cause to believe that such services are being used or are likely to be used for unlawful and/or fraudulent purposes, it may either discontinue or deny the services and/or refer the matter to the appropriate law enforcement agency in accordance with law and/or Commission rules.

2.2.3 Unauthorized Use

Any individual who uses or receives McLeodUSA's services other than under the provisions of an accepted application for service and a current Customer relationship shall be liable for the appropriate rates and charges for the service received and for McLeodUSA's costs of investigation and collection.

2.2.4 Recording Devices

McLeodUSA's services are not designed for the use of recording devices, and customers who use such devices to record two-way telephone conversations do so at their own risk.

2.2.5 Use of Service Mark

No Customer shall use any service mark or trademark of McLeodUSA or refer to McLeodUSA in connection with any product, equipment promotion, or publication of the Customer without the prior written consent of McLeodUSA.

**2.0**    General Rules and Regulations (cont'd)**2.3**    Liability

McLeodUSA's liability, if any, for its willful misconduct is not limited by this Tariff. With respect to any other claim or suit, by a customer, or by any others, for damages associated with installation, provision, preemption, termination, maintenance, repair or restoration of service, or any other service, McLeodUSA's liability, if any, shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service for the period during which the service was affected. This liability shall be in addition to any amounts that may otherwise be due the customer under this Tariff or state commission regulations as an allowance for interruptions.

The services furnished by McLeodUSA, in addition to the limitations set forth preceding, also are subject to the following limitations: McLeodUSA shall not be liable for damage arising out of our mistakes, omissions, interruptions, delays, errors or defects in transmission or other injury, including but not limited to injuries to persons or property from voltages or currents transmitted over the service of McLeodUSA caused by customer provided equipment (except where a contributing cause is the malfunctioning of a McLeodUSA-provided connection arrangement, in which event the liability of the Company shall not exceed an amount equal to a proportional amount of the McLeodUSA billing for the period of service during which such, mistake, omission, interruption, delay, error, defect in transmission or injury occurs.) McLeodUSA also shall not be liable for the acts or omissions of other companies when their facilities are used to provide service.

Except for granting credit allowances for interruptions of service as provided in the last paragraph of this section, McLeodUSA shall not be liable for any claim or loss, expense or damage, for any failure of performance due to failure or malfunction of Customer-supplied equipment, acts of God, storms, fires, floods or other catastrophes, power failure, natural emergencies, insurrections, riots or wars, or any law, order, regulation, or other action of any governmental authority or agency thereof.

McLeodUSA shall not be liable for, and shall be fully indemnified and held harmless by, Customers against any claim or loss, expense or damage, for defamation, libel, slander, invasion, infringement of copyright or patent, unauthorized use of any trademark, trade name, service mark, or proprietary or creative right, or any other injury to any person, property, or entity arising out of the material, data, or information transmitted.

2.0 General Rules and Regulations (cont'd)

2.3 Liability (cont'd)

No agent or employee of any other carrier shall be deemed to be an agent or employee of McLeodUSA.

McLeodUSA's liability due to any failure of the transmission shall not exceed an amount equal to the charges provided for by the applicable tariff (for regulated services) and applicable price list, catalogue, and/or contract (for all other services) for the call. McLeodUSA shall not be liable for damages arising out of the use of McLeodUSA's services for the transmission of anything other than voice grade service.

McLeodUSA will provide a customer's correct name and telephone number to a calling party either upon request to or interception by McLeodUSA in the event there is an error or omission in the customer's directory listing. McLeodUSA's liability for any errors or omissions in any directory listings is limited to the charges made for the listing itself. McLeodUSA shall not be liable for any incidental, indirect, special or consequential damages of any kind, including loss of use, loss of business, or loss of profit, arising from errors or omissions in directory listings.

**2.0**    General Rules and Regulations (cont'd)**2.3**    Liability (cont'd)

Notwithstanding anything to the contrary in this section, if Customer's service is interrupted and remains out of service for more than twenty-four (24) hours after the earlier of being reported to McLeodUSA or being found by McLeodUSA to be out of order, and if the interruption is not the result of a negligent or willful act by the Customer, a malfunction of Customer-owned equipment, McLeodUSA's inability to gain access to the Customer's premises, or causes beyond McLeodUSA's control as described in the first paragraph of this section, McLeodUSA will make appropriate adjustments upon request. Such adjustments, in the form of direct payments or bill credits, will be the proportionate part of the monthly charge for all services and facilities rendered inoperative during the interruption, beginning with the hour of the report to McLeodUSA, or discovery by McLeodUSA, of the interruption. A service interruption may include, among other events, lawful disconnections pursuant to Section 2.11 of this tariff and when a customer's service interrupted during a move to a new Customer premise.

**2.4**    Equipment**2.4.1**    Inspection, Testing, and Adjustment

McLeodUSA may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the requirements of this tariff are being complied with in the installation, operation, or maintenance of the Customer's equipment. McLeodUSA may interrupt the service at any time, without penalty to itself, unless interruption exceeds twenty-four (24) hours.

**2.4.2**    Interference and Hazard

The operating characteristics of Customer premises equipment or communications systems connected to McLeodUSA's services must not interfere with, or impair, any of the services offered by McLeodUSA. Additionally, connected Customer premises equipment must not endanger the safety of McLeodUSA employees or the public, damage or interfere with the proper functioning of McLeodUSA's equipment, or otherwise injure the public in its use of McLeodUSA's services.

2.4 Equipment (cont'd)

2.4.3 Maintenance and Repair

A. Customer Liability

The Customer shall be responsible for damages to McLeodUSA's facilities used in the provision of regulated services caused by the negligence or willful act of the Customer or those using McLeodUSA's service through the Customer. The Customer may not physically modify or intrude upon, rearrange, disconnect, remove, or attempt to repair any of McLeodUSA's facilities except upon written consent of McLeodUSA.

B. Leased or Owned Facilities

The Customer's obligation to McLeodUSA is the same whether the facilities involved are McLeodUSA's facilities or are facilities leased by McLeodUSA from another party. If McLeodUSA incurs expenses due to the Customer's actions that result in damage or impairment of McLeodUSA's owned or leased facilities, McLeodUSA will pass on to the Customer any and all expenses to repair McLeodUSA's facilities or that the owner imposes on McLeodUSA for leased facilities.

2.0 General Rules and Regulations (cont'd)

2.5 Contract for Service

Installation of certain services may require a contractual agreement between a Customer and PAETEC. The contractual agreement specifies the terms and conditions of service not covered by this tariff. The contract does not alter the obligations of PAETEC to Customers as described in this tariff. The agreement may require the Customer to pay a minimum monthly fee ("MMF") wherein the Customer agrees, in writing, to pay for the duration of the term agreement, either the monthly recurring and usage charges, or the MMF amount, whichever is greater. Should the Customer choose to terminate their contract without cause prior to the agreed upon term, the Customer will be liable for the MMF specified in the contract multiplied by the number of months remaining in the term, unless Customer converts to another service provided by PAETEC with equal or greater term and MMF commitment. In the event PAETEC continues to provide service after the Customer contract is terminated or expires, then PAETEC shall continue to provide service to the Customer under the terms of the then applicable tariff and applicable terms of the expired contract under a month-to-month arrangement. (T)

2.6 Application for Service

2.6.1 Information Required

When applying for service, each prospective Customer will be required to furnish McLeodUSA with the following information:

- A. The name of the party who will be responsible for payment for the service provided.
- B. The address or addresses or exact location of the premises where service is to be provided and billed.
- C. Any information required to make a proper determination of appropriate creditworthiness.

2.6.2 Initiation of Service

Service shall be deemed to be initiated upon the service activation date. For multi-location customers, service shall be deemed to be initiated upon service activation at the first location.

2.5 Contract for Service

Installation of certain services may require a contractual agreement between a Customer and McLeodUSA. The contractual agreement specifies the terms and conditions of service not covered by this tariff. The contract does not alter the obligations of McLeodUSA to Customers as described in this tariff. The term of the services shall commence and will remain in effect from the service activation date for the term of the contract. In the event McLeodUSA continues to provide service beyond the end of the initial term without an additional written agreement between the parties, then McLeodUSA shall continue to provide service to the Customer under the terms of the then applicable tariff and applicable terms of the expired contract under a month-to-month arrangement. McLeodUSA may choose to renew the contract for a period equal to its original term by giving the Customer notice of the proposed renewal. If the Customer does not timely advise McLeodUSA that the Customer desires to terminate the contract at the end of the contract, then the contract will renew.

**2.0**    General Rules and Regulations (cont'd)**2.7**    Deposits**2.7.1**    Deposit Requirements

McLeodUSA may require from any Customer or prospective Customer a deposit to be held as a guarantee for the payment of charges. Any applicant who is either not a previous Customer having an established prompt payment record or whose credit record is not satisfactory may be required to pay a deposit. McLeodUSA may require separate deposits for different Services purchased by Customer, all of which must be paid before any service is installed. In its calculation of a Customer's creditworthiness, McLeodUSA will use trading banking references, credit reports, and any other information pertinent to a Customer's credit subject to applicable law.

**2.7.2**    Amount of Deposit

The amount of the deposit shall not be more than two (2) months of usage of McLeodUSA's services for any specific Customer. The amount of such usage may be estimated from past usage, the Customer's estimated anticipated usage, or McLeodUSA's state average usage considering type and nature of service. The amount of deposit may exceed this total when services are provided for shorter periods of time or special occasions.

2.7 Deposits (cont'd)

2.7.3 New or Additional Deposit

A new or additional deposit may be required to cover the amount provided in Section 2.7.2 above when a deposit has been refunded or is found to be inadequate by virtue of abnormal usage or nonpayment. Written notice shall be mailed advising the Customer of any new or additional deposit requirement, and the Customer shall have twelve (12) calendar days from the date of mailing to provide the new or additional deposit. The new or additional deposit is payable at the address specified in Section 2.7.4.

2.7.3.A Abnormal Toll Usage

For customers with at least six (6) consecutive months of service, "abnormal toll usage" is defined as at least a twenty-five percent (25%) increase in monthly usage charges amounting to at least twenty dollars (\$20). The Customer's average monthly bills for not less than the three (3) prior months shall be used in determining the increase. For customers with less than six (6) consecutive months of service, "abnormal toll usage" is defined to exist when one (1) month's service exceeds the deposit attributable to the service by twenty-five percent (25%) amounting to at least twenty dollars (\$20).

2.8 Billing

2.8.1 Monthly Billing

McLeodUSA offers a paperless billing option in lieu of distributing a monthly paper invoice, unless it is prohibited by state law. The paperless billing option allows the customer to access the McLeodUSA website to view "Your Account" at the customer's convenience. There is no charge for either billing option selected by the customer.

Bills to Customers will be issued monthly unless McLeodUSA is authorized by the Commission to bill at other than monthly intervals because of unusual circumstances. Local service charges, including installation charges, are billed in advance. Certain toll charges and NRCs are billed in arrears. If a Customer elects, McLeodUSA may issue a billing statement to a Customer in an electronic format only.

McLeodUSA shall have no responsibility with respect to billings, charges, or disputes related to services used by the Customer which are not included in the services herein including, without limitation, any local, regional, and long distance services provided by a third party vendor. The Customer shall be fully responsible for the payment of any bills for such services and for the resolution of any disputes or discrepancies with the service provider.

**2.0**    General Rules and Regulations (cont'd)**2.9**    Payment for Service**2.9.1**    Late Payment Charge

McLeodUSA may impose a one time late payment charge not to exceed 1.5% on any bill not paid by the due date listed on the invoice. Customers are obligated to drop off payment at a designated payment location or mail payment to the address contained on the invoice. Customers shall be responsible for all costs incurred in the collection of unpaid charges or in any other action to enforce payments and/or obligations arising under this tariff. McLeodUSA will also charge a check service charge if a check tendered for payment is returned to McLeodUSA as non-sufficient funds (NSF) or is not in acceptable form.

Residential customers will be granted one complete forgiveness of a late payment charge each calendar year. On one monthly bill in each period of eligibility, the net amount of such bill will be accepted as full payment for the month after expiration of the net payment period. The Customer will be notified by mailed written notice that the eligibility has been used. Such forgiveness of late payment charges will have no effect on the credit rating of the Customer.

**2.9.2**    Partial Payment

If a Customer makes a partial payment in a timely manner and does not designate the service for which payment is made, the payment shall first be applied to the undisputed balance for local service, with the remainder applied on a pro rata basis to regulated utility services and toll service. Any remainder will then be applied to deregulated and unregulated services other than toll. Any late payment penalty charge will be applied only to the outstanding balance for utility services.

**2.9.3**    Timely Payment for Residential Customers

Each residential Customer is permitted to have a last day for timely payment changeable for cause in writing.

2.0 General Rules and Regulations (cont'd)

2.10 Disputes and Complaints (cont'd)

2.10.3 Bill Insert or Notice

McLeodUSA shall notify Customers, by bill insert or notice on the bill form, of the address and telephone number where a McLeodUSA representative qualified to assist in resolving the complaint can be reached. The bill insert or notice shall also include the following statement: "If McLeodUSA does not resolve your complaint, the service may be subject to state regulation. You may contact the Missouri Public Service Commission, P.O. Box 360, Governors Office Building, 200 Madison St., Jefferson City, MO, 65101, 1-800-392-4211." The bill insert or notice on the bill will be provided no less than annually.

2.11 Service Refusal, Disconnection, and Suspension

In no event shall service be disconnected on the day preceding or day on which McLeodUSA's local business office or local authorized agent is closed.

2.11.1 Notice of Pending Disconnection

Prior to the disconnection of service, McLeodUSA shall provide a written notice to the Customer setting forth the reason for disconnection and the final date by which the account is to be settled or specific action taken. Final dates shall be no less than ten (10) calendar days with respect to an unpaid bill after the notice is rendered and no less than 12 days with respect to an unpaid or new deposit. The notice shall be considered rendered to the Customer when deposited in the U.S. Mail with postage prepaid. If delivery is by other than U.S. Mail, the notice shall be considered rendered when delivered to the last known address of the person responsible for payment for the service. The notice will specify (800-593-1177 for business customers; 800-500-3543 for residential customers) as a toll-free number at which a McLeodUSA representative can be reached to provide additional information about the disconnection.

2.11.2 Reasons for Service Refusal, Disconnection, and Suspension

Service may be refused, disconnected, or suspended:

- A. Without notice if a condition on the Customer's premises is determined by McLeodUSA to be hazardous.
- B. Without notice if the Customer uses the service in such a manner as to adversely affect McLeodUSA's equipment or McLeodUSA's service to others.
- C. Without notice if equipment furnished, leased, or owned by McLeodUSA is subject to tampering.
- D. Without notice if there is unauthorized use. Unauthorized use includes, without limitation, use or attempted use for an unlawful purpose and/or use or attempted use in any fraudulent manner.

2.11 Service Refusal, Disconnection, and Suspension (cont'd)

2.11.3 Refusal, Disconnection, and Suspension of Service for Nonpayment of Bill

Except as restricted by Section 2.11.4, service may be refused, disconnected, or suspended for nonpayment of a bill if McLeodUSA has made a reasonable attempt to effect collection and:

- A. McLeodUSA has provided the Customer with ten (10) days' prior written notice with respect to an unpaid bill or twelve (12) days' written notice with respect to an unpaid new deposit.
- B. McLeodUSA is open, at minimum, one more hour and open the following day of the scheduled disconnection.
- C. In the event of a dispute concerning the bill, McLeodUSA will require the Customer to pay a sum of money equal to the amount of the undisputed portion of the bill. Following payment of the undisputed amount, efforts to resolve the complaint using the complaint procedures in Section 2.10.2 shall continue, and service shall not be disconnected for nonpayment of the disputed amount.

2.0 General Rules and Regulations (cont'd)

2.11 Service Refusal, Disconnection, and Suspension (cont'd)

2.11.4 Insufficient Reasons for Refusal, Suspension, or Discontinuance of Service

The following reasons are not sufficient cause for refusal, suspension, or discontinuance of service to a present or prospective Customer:

- A. Delinquency in payment for service by a previous occupant of the premises to be served, unless that occupant is a Customer of the same household as the customer.
- B. Failure to pay for unregulated services or equipment purchases.
- C. Failure to pay the bill of another Customer as guarantor thereof.
- D. Failure to pay for a different type or class of public utility service or 900, 960 or 976 calls disputed by the Customer. However, if a residential customer has requested that McLeodUSA remove the free 900 or 976 call blocking service, then that Customer shall be fully responsible for payment of all such calls regardless of who made the call from the Customer's telephone line.
- E. Failure to pay for information service not regulated by the Commission.
- F. Permitting another occupant of the premises access to the telephone utility service when that other occupant owed an uncollectible bill for service rendered at a different location.

2.11.5 Medical Emergency

Notwithstanding any other provision of this tariff, McLeodUSA will postpone the disconnection of service to a residential Customer for a reasonable time, not to exceed thirty (30) days, if the Customer produces verification from a physician or a public health or social services official stating that telephone service is essential due to an existing medical emergency of the Customer, a customer of the Customer's family, or any permanent resident of the premises where service is rendered. This written verification shall identify the medical emergency and specify the circumstances. Initial verification may be by telephone if written verification is forwarded to McLeodUSA within five (5) days.

2.11.6 Temporary Service

When McLeod renders temporary service to a Customer, the Customer may be required by McLeod to bear the entire cost of installing and removing the service facilities in excess of any salvage realized.

2.12 Cancellations and Deferrals of Service

When a Customer cancels or defers an order for service before the service is activated, a charge applies that will allow McLeodUSA to recover its unrecovered costs, including but not limited to outside vendor charges, engineering, labor, materials, and equipment. Charges apply as follows:

2.12.1 Cancellation

In a cancellation situation, the charge is equal to the unrecoverable costs incurred prior to the request for cancellation and the costs of removal, restoration, and disposal, if any, to comply with the cancellation. Those costs include, but are not limited to, costs of outside vendors, engineering, labor, nonrecoverable materials, and equipment expense.

2.12 Cancellations and Deferments of Service (cont'd)

2.12.2 Deferment of Start of Service

If a request for deferment of service is received by McLeodUSA prior to the date an order for equipment or service is placed with McLeodUSA's supplier, no charge shall apply. For deferments received by McLeodUSA subsequent to the date the order for equipment or service is placed with McLeodUSA's supplier, a monthly recurring charge based upon the costs incurred prior to the request for the deferment applies. This monthly rate shall be equal to the deferred investment multiplied by the monthly prime interest rate as announced by USBank plus recurring costs resulting directly from the deferral such as storage, taxes, etc., unless otherwise ordered by the Commission.

In addition, any extraordinary nonrecurring costs resulting from the deferral, such as additional engineering, labor, and transportation, shall be billed in total. Billing shall start at the beginning of the month of deferment and extend to the start of service. Charges shall not exceed the monthly rate that would have applied had the service been established. McLeodUSA will also charge the Customer who defers service any and all rates and charges incurred by McLeodUSA for any leased facilities for which McLeodUSA is held responsible. McLeodUSA will make a good faith effort to minimize those rates and charges whenever possible.

2.13 Information Service Access Blocking

Where facilities are available, McLeodUSA shall institute call blocking to all "900", "960" and "976" prefix numbers, without charge for the first block subject to applicable law. If a customer chooses to eliminate the free call blocking service for these types of calls, the Customer shall be fully responsible for all such charges regardless of who made such calls from the Customer's telephone line. McLeodUSA will comply with all applicable rules of the Commission concerning such blocking.

2.14 Special Construction and Special Arrangements

Subject to the agreement of McLeodUSA and to all of the regulations contained in the tariffs of McLeodUSA, special construction and special arrangements may be undertaken on a reasonable efforts basis at the request of the Customer. Special arrangements include any service or facility relating to a regulated telecommunications service not otherwise specified under tariff, or for the provision of service on an expedited basis or in some other manner different from the normal tariff conditions. Special construction is that construction undertaken:

- A. where facilities are not presently available, and there is no other requirements for the facilities so constructed;
- B. of a type other than that which McLeodUSA would normally utilize in the furnishing of its services;
- C. over a route other than that which McLeodUSA would normally utilize in the furnishing of its services;
- D. in a quantity greater than that which McLeodUSA would normally construct;
- E. on an expedited basis;
- F. on a temporary basis until permanent facilities are available;
- G. involving abnormal costs; or
- H. in advance of its normal construction.

2.14.1 Basis for Charges

Where McLeodUSA furnishes a facility or service on a special construction basis, or any service for which a rate or charge is not specified in McLeodUSA's tariffs, charges will be based on the costs incurred by McLeodUSA and may include: (1) non-recurring type charges; (2) recurring type charges; (3) termination liabilities; or (4) combinations thereof. The agreement for special construction will ordinarily include a minimum service commitment based upon the estimated service life of the facilities provided.

2.14.2 Basis for Cost Computation

The costs referred to in 2.14.1 preceding may include one or more of the following items to the extent they are applicable:

- A. Installation cost of the facilities to be provided including estimated costs for the rearrangements of existing facilities. Installation cost includes the cost of:
  - 1. equipment and materials provided or used,
  - 2. engineering, labor and supervision,
  - 3. transportation,
  - 4. rights of way, and
  - 5. any other item chargeable to the capital account;
  
- B. Annual charges including the following:
  - 1. cost of maintenance,
  - 2. depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage,
  - 3. administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items,
  - 4. any other identifiable costs related to the facilities provided, and
  - 5. an amount for return and contingencies.

3.0 Description of Services Offered

3.1 Local Service

3.1.1 Nature of Service

Local Service is a service that allows customers to originate non-toll local calls at locations within the service areas in which McLeodUSA has been approved for certification for termination within the local calling area (including any applicable EAS areas) of those locations. Subject to service availability and the package selection by the customer, Local Service may include services in addition to those required for completion of non-toll local calls (including services which may not be subject to regulation under this tariff) which are purchased as part of a bundled package.

3.1.2 Availability

McLeodUSA offers local service in the areas in which it has been certified by the Missouri Public Service Commission and in which McLeodUSA has available required network facilities or is able to lease required network facilities to enable the offering of service. Some features may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package available in a given market depending on network availability or configuration.

3.1.3 Local Service Packages

The standard elements of local line packages consist of local dial tone and unlimited local calling unless otherwise noted in a Service specific description. Mandatory extended area service ('EAS') is provided where applicable for the prices set forth in the Rate Tables. Customers with multiple lines at a single location may purchase different Packages for each telephone line at a particular location. Business Customers purchasing a Business Package may select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location. **A Local Line Price Adjustment is applied to each business and residential local line (residential lines with the Preferred Advantage OneLine Package are excepted) that was established prior to January 19, 2006 and is not served via McLeodUSA local switching facilities (see Section 5.1). The Local Line Price Adjustment will not be applied to new Preferred Advantage lines added to your account on or after January 19, 2006.** Business Customers purchasing Local Service Packages are also eligible to purchase a per minute long distance service that offers reduced long distance rates due to the purchase of bundled package of local and long distance services from McLeodUSA. Residential Customers shall select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location.

3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages.

Some features included in certain Local Service Packages may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package that is available in a given market depending on network availability or configuration.

Anonymous Call Rejection

Allows customer to automatically reject all calls that have been marked anonymous by the calling party. The call is routed to a denial announcement and subsequently terminated.

Blocking Services.

Blocking Services prevent certain call types from being completed. Blocking service examples include blocking outgoing 10XXX1+ or 900 or 976 calls.

Call Forwarding Busy/Don't Answer/Variable

Call forwarding is the ability to forward an incoming call to a preselected station if the called station is unable to receive the call. "Call forwarding busy" will forward the call if the called station is in use; "call forwarding don't answer" will forward the call after a predetermined number of rings; "call forwarding variable" will forward the call regardless of the status of the called station. For Business customers, Call Forwarding Busy/Don't Answer options are only available as optional services to a location at which the customer also currently purchases Voice Mail from McLeodUSA.

Call Block

Allows customer to block incoming calls from up to a maximum of fifteen telephone numbers. (T)

Call Trace

Permits the tracing of the last call received and holds the results for later use by an authorized law enforcement agency. Results of call trace will be provided only to appropriate law enforcement personnel, and not to the customer.

Call Transfer

The ability to forward a call in progress to another station.

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages (cont'd)

Call Transfer Disconnect

Call Transfer Disconnect is the ability to transfer of calls to another line, disconnecting that call so that it frees up the original line.

Call Waiting

Call waiting is the ability of the called station to generate a tone when the called station is in use to alert the user that another call is waiting to connect with the called station.

Call Waiting ID

Call waiting ID is the ability to identify the party calling when on another call.

Caller ID Blocking

Provides a permanent indicator on a customer's line. Once the block is established on the customer's line, the private status can be deactivated by the customer by dialing a series of number before each call, to change the indicator from private to public. This one call unblock allows the name and number to be sent for that one call only.

Customers who choose per line blocking for the first time will not be charged the nonrecurring charge. New customers to the Caller ID serving area will be provided the same option. A customer requesting per line blocking will pay a nonrecurring charge for re-establishing line blocking.

The standard dialing pattern for per-call Called ID Blocking is \*67 (1167 from a rotary telephone). The standard dialing pattern for a per-call unblocking is \*82 (1182 from a rotary telephone).

Caller Identification

Allows for the automatic delivery of a calling party's name, telephone number (including non-published and non-listed telephone numbers) or both to the called customer. The number is displayed on customer provided equipment. McLeodUSA will provide the most feature rich version of caller identification in the bundled Local Service package available in a given market depending on network availability or configuration.

3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages (cont'd)

Repeat Dialing

Allows a customer to dial a code that will cause the feature to automatically redial the last number the customer dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A distinctive ring alerts the customer when the called number becomes available. This service is available on a usage or subscription basis.

(T)

Hunting

Hunting is the ability to forward an incoming call to the next number in a hunting group if the called number is busy.

Circular Hunt is an option of Hunting service that allows for hunting to start at the dialed number and continues in ascending order to the last number in the hunt group. Hunting then proceeds to the first number of the hunt group and continues through the group until an idle line is reached or the number just preceding the dialed number is reached. The rates and charges for Circular Hunt are in addition to the rates and charges for Hunting Service.

Preferential Hunt is an option of Hunting service that allows for calls to a specific number (other than the first number) within a hunt group to hunt over a unique sequence of lines within the hunt group. The Preferential Hunt sequence is different than that encountered when a caller dials the first telephone number in a hunt group.

Call Return

The customer does not have to know the number of the calling party. If the calling party's number is blocked by the calling party, the service will not return the call.

(T)

Priority Call

Provides the end user with a distinctive ring when called from pre-selected telephone numbers. Calls other than from the selected numbers are received with a standard ring pattern. Toll Free, International and 900 numbers are not programmable with Priority Call.

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages (cont'd)

Continuous Redial

Allows a customer to dial a code that will cause the feature to automatically redial the last number the customer dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A distinctive ring alerts the customer when the called number becomes available. This service is available on a usage or subscription basis.

Hunting

Hunting is the ability to forward an incoming call to the next number in a hunting group if the called number is busy.

Circular Hunt is an option of Hunting service that allows for hunting to start at the dialed number and continues in ascending order to the last number in the hunt group. Hunting then proceeds to the first number of the hunt group and continues through the group until an idle line is reached or the number just preceding the dialed number is reached. The rates and charges for Circular Hunt are in addition to the rates and charges for Hunting Service.

Preferential Hunt is an option of Hunting service that allows for calls to a specific number (other than the first number) within a hunt group to hunt over a unique sequence of lines within the hunt group. The Preferential Hunt sequence is different than that encountered when a caller dials the first telephone number in a hunt group.

Last Call Return

The customer does not have to know the number of the calling party. If the calling party's number is blocked by the calling party, the service will not return the call.

Priority Call

Provides the end user with a distinctive ring when called from pre-selected telephone numbers. Calls other than from the selected numbers are received with a standard ring pattern. Toll Free, International and 900 numbers are not programmable with Priority Call.

(Moved "No Solicitation" to Sheet No. 53 due to space limitations.)

No Solicitation

Allows a customer to deter sales and telemarketing calls received by the customer. This is accomplished via a recorded message which informs the caller that the customer does not accept telephone solicitations, and asks solicitors to hang up and to place the called party on the solicitors "do-not-call" list. No Solicitation automatically screens calls between the hours of 8:00 A.M. until 9:00 P.M. daily. A caller may press one, or stay on the line to complete the call connection.

Remote Access to Call Forward

This feature allows a user at a "remote" location to activate/deactivate the call forwarding feature. The user gains remote access to the call forwarding feature from a touch tone phone at a remote location. The RACF feature uses an announcement system to provide interactive voice message prompting, which allows customers to verify the forwarded-to directory number. Changes are accomplished by remotely calling an access number, entering the appropriate line and PIN information when prompted to do so, and making any desired changes.

Speed Calling

Permits placing calls to 8 or 30 telephone numbers dialing an abbreviated code.

Three-Way Calling

The ability to add a third line to an established conversation.

Toll Restriction

Toll Restriction provides for exchange access lines to be restricted from dialing billable toll calls. Attempted violation of the restrictions are routed to an announcement.

#### 3.3 Operator Services (cont'd)

Calling Card Surcharge – This charge applies when a 0+ or 0- call is charged to a valid calling card. In order to control fraud, the company may refuse to accept a card that it determines or suspects to be invalid.

Collect Surcharge – This charge applies when an end-user requests the operator to bill the charges to the called station or party which agrees to pay for all charges.

General Assistance Surcharge - Charge to end-user to obtain information such as time of day, day of the week, area codes, international country and/or city codes.

Operator Dialed Surcharge - In addition to the per minute usage rates, an operator dialed surcharge also applies to each type of call. This is a charge that is assessed to the customer for having the operator dial the called number for them.

Payphone Surcharge – The Payphone surcharge applies to the following state-to-state\* and international\* consumer calls placed from a public or semi-public payphone that are paid for by means other than depositing coins into the payphone: (T)

\*calls billed to a third number

\*collect calls

\*calls billed to a calling card

\*calls to Directory Assistance

\*prepaid card service calls. (T)

Person-to-Person Surcharge – Charge when the end-user specifies to the operator a particular party to be reached. If the original person, department, mobile station, extension, or office designated by the end-user is unavailable and the end-user requests or agrees to talk to any other party, the call is still charged as a Person-to-Person call.

Property Imposed Fee (PIF) – Per call charge imposed by property owner.

Third Party – The end-user requests the operator to bill the charges for a call to a number other than that of the called or calling party. The party receiving the charges agrees to pay for all charges.

\* The Commission does not regulate interstate or international calls. These are within the jurisdiction of the FCC. (N)

- B. Unattended Call: No facilitator is present, but a facilitator is available at any time by pressing \*O on the phone.

3.4.1.A. 800 Meet Me Conferencing

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. The conference fees are charged to the hosting organization.

3.4.1.B. Dial-Out Conferencing

Conference Center facilitators dial-out to all participants prior to the scheduled conference. The hosting organization is charged the long distance and conference bridging fees.

3.5 Long Distance Interexchange Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Missouri. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® long distance services, usage charges are based on the duration and time of day of each call when applicable. Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

Rates for Centrex and local exchange dedicated access, private line, non-switched services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and will be made available to the Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.

3.9 Market Expansion Line (MEL)

MEL is a service whereby a call placed from an exchange access service to a MEL customer's telephone number (the forwarded-to location) is automatically forwarded by telephone company serving office equipment to the customer's remote location. Terminating stations must have incoming call capability. MELs are available when used in conjunction with long distance or 800 Service. MELs are billed in one minute increments.

3.0 Description of Services Offered (cont'd)

3.10 Private Switch Automatic Location Identification (PS/ALI)

This service is offered subject to the availability of appropriate facilities. It enables the customer to interface with the E911 database to provide address and location information for the stations that operate behind their switch. This information includes the PBX customers' names, addresses, and other location information which are associated with specific PBX station telephone numbers. The PS/ALI customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, or a PBX owner/operator who has been required or who desires to provide PBX station specific location information to the E911 system. The PS/ALI customer must be authorized by the 911 jurisdiction to subscribe to PS/ALI service, and obtaining such authorization is the responsibility of the customer.

This service is offered as either Standard or Advanced. For Standard PS/ ALI, information is loaded and managed via McLeodUSA's existing interface to the database provider. For Advanced PS/ALI, the customer manages 911 information via a direct PC interface to the database provider.

3.11 Term and Volume Discounts

A Customer signing a term service agreement to purchase certain term discount eligible services from McLeodUSA are eligible for a Term and Volume Discount. The Term and Volume Discount percentage may change from month to month if the Customer's monthly volume of charges for certain eligible services increases or decreases. Only eligible services purchased under a single service agreement count towards the applicable Term and Volume Discount. Discounts do not apply to any non-recurring charges, federal, state and local use, excise, sales and privilege taxes; applicable surcharges related to universal service programs, emergency telephone service (911/E911), telecommunications relay service for the hearing impaired; payphone surcharges; and other similar surcharges for required programs.

If Customer's total pre-discounted monthly charges for all services are less than \$500 in a monthly billing cycle, then McLeodUSA will apply the Tier 1 discount percentage to both the Tier 1 and Tier 2-5 eligible services.

3.12 Group Billing

This service is a unique invoice option for business customers with multiple locations. Group Billing allows customers to establish a tier system in which a main or "parent" account can have multiple sub or "child" accounts and pay the "child" invoices for all locations, some locations or no locations. Summary information is available to the "parent" for all "child" accounts and "child" accounts can receive individual invoice detail regardless of who is remitting payment. Group Billing can be used in partnership with McLeodUSA's Toll Free application.

At service set-up, customer must determine the locations responsible for payment remittance. Although "child" accounts may be responsible for payment, "parent" accounts are ultimately responsible for past due balances on "child" accounts. If a "child" account disconnects service, any past due balance will be transferred to the "parent" account. Payment disputes between "parent" and "child" accounts are not the responsibility of McLeodUSA.

3.11.1.B Eligible Services and Application

(T)

Thus, the discount percentage applicable to Tier 2-5 eligible services may change (N) from month to month if the Customer's monthly charges for all services purchased under the Agreement increases or decreases. McLeodUSA will automatically apply the appropriate Tier discount percentage set forth in the table above to the Customer's monthly charges for Tier 2-5 eligible services. If Customer's total pre-discounted monthly charges for all services are less than \$500 in a monthly billing cycle, then McLeodUSA will apply the Tier 1 discount percentage to both the Tier 1 and Tier 2-5 eligible services.

Rate:

	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5
Pre-discounted Monthly Charges	\$0 to \$499	\$500 to \$2499	\$2,500 to \$9,999	\$10,000 to \$24,999	\$25,000+

3.11.2.A Eligibility for Term and Volume Discount Plan (cont'd)

3.11.2.A.2 Term and Volume Discount Plan

3.11.2.A.2.2 Application

The Term and Volume Discount percentage may change from month to month if the Customer's monthly charges for Term and Volume Discount eligible services increases or decreases in accordance with the discount table set forth in Rate Table 17.2, section 4.3.17.A. The Customer's actual pre-discounted monthly charges for Term and Volume Discount eligible services for a given monthly billing cycle will determine the applicable Term and Volume Discount percentage for that billing cycle based on that discount rate table. McLeodUSA will automatically apply that Term and Volume Discount percentage to the Customer's monthly charges for Term and Volume Discount eligible services. If Customer's total pre-discounted monthly charges for Term and Volume eligible services is less than \$2,500 but the total pre-discounted monthly charges for all discount eligible services purchased under the Agreement exceeds \$500 in a monthly billing cycle, then the Term and Volume Discount will not apply, and, instead, the "Term Discount" will be applied to both Term Discount and Term and Volume Discount eligible services.

If Customer's monthly recurring charges for discount eligible services is below \$500 in any given month, then no discount will apply. The Term Discount and Term and Volume Discount will only apply to eligible services and do not apply to any non-recurring charges, federal, state and local use, excise, sales and privilege taxes; applicable surcharges related to universal service programs, emergency telephone service (911/E911), telecommunications relay service for the hearing impaired; payphone surcharges; and other similar surcharges for required programs.

3.0 Description of Services Offered (cont'd)

3.13 Direct Trunk Overflow

(N)

The Direct Trunk Overflow (DTO) feature, where available, gives the Customer another termination option if all of their DID trunks are busy. This all-trunks-busy condition may be caused either by legitimate heavy incoming traffic or by a trouble condition where the T-1 system is down and the switch senses that trouble as an all-trunks-busy condition. During either busy condition, the incoming call attempts to terminate to the DID group. When the switch sees all trunks busy, it will choose an alternate route for the call to a telephone number that is programmed in the switch only. This telephone number has the Call Forward Remote feature assigned to it and forwards the call to a number chosen by the Customer.

Remote Access DTO enables the customer to activate and/or update the Call Forwarding on their DTO from any location. The customer uses a provided remote-access toll free number, the DTO Call Forwarding line and their four-digit PIN to review or change their call forwarding number.

Rates for DTO and Remote Access DTO can be found in Section 4.3.3.

Residential: \$2.99 per account Business: \$4.99 per account

The monthly Account Service Fee is assessed on accounts each month when the "total current charges" are below \$10.00 for the month.

4.1.11 Access Recovery Surcharge:

The Access Recovery Surcharge (ARS) is not a fixed monthly recurring charge. Rather, the ARS is a percentage of the customer bill based on the total amount spent on services, less any taxes, surcharges or other non-qualifying fees. This fee is used to offset increased McLeodUSA expenses caused by a regulatory change. Specifically, the charge will recover the costs related to recent increases in our costs of gaining access to incumbent networks and decreases to the access rates we can collect from long distance carriers. This fee is not a tax or charge imposed by a government entity. The ARS is calculated by application of a percentage to each customer's total monthly recurring charges for all services (MRC). The ARS percentage to be applied will be determined by the customer's total MRCs on its monthly invoice, based on the schedule outlined below.

Customer Account Monthly Recurring ARS

<u>MRC Revenue Tier</u>	<u>Charge %</u>
\$0.00 to \$200.00	10.00%

4.3.4 Rate Table 4: Long Distance Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls billed using the Overage Rate minutes will be billed in 6 second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service.

(N)  
|  
(N)

The long distance service minutes included in the Preferred Advantage® Long Distance Packages apply to domestic intrastate calls, and to domestic interstate and to international calls as specified by McLeodUSA pursuant to federal regulation. Long Distance Packages exclude toll free, calling card, conference calling, and international usage. Customers not subscribing to a long distance package shall pay the overage rate per minute for all calls. Customers using more than the number of minutes in their selected long distance package for that particular location shall be charged a per minute overage rate for each minute of long distance usage in excess of the total minutes in the selected long distance package. For example, if a Business Customer has selected a 1,000 anytime LD minute package at Location A, and that Customer uses 1,005 minutes of long distance services in July at Location A, then the Customer's August invoice will reflect an additional usage sensitive charge for the 5 minutes of overage long distance usage billed at the overage rate/minute set forth below. Customers may increase or decrease the size of their long distance package once a month without a non-recurring charge after having service for a minimum of ninety days. Any changes will become effective with the following billing cycle.

(N)  
(N)

Preferred Advantage® Inter/Intrastate Plan Plus provides switched outbound 1+ long distance services for Business Customers.

(T)

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

(N)

Preferred Advantage® Flat Rate Long Distance provides switched outbound 1+ long distance at one per minute rate for calls placed at any time of day. Residential customers may choose between a usage rate service without a monthly fee or a reduced usage rate service with a monthly fee.

Preferred Advantage® Long Distance Plus provides switched outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage. A "LDPromo Shortfall Charge" equal to the difference between actual usage and \$50.00 will be assessed monthly, if applicable.

This is a switched outbound 1+ long distance service for business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling usage, calling card usage and international long distance usage. For every month in which Customer's actual long distance and toll free usage charges, including conference calling, calling card and international long distance, is less than \$50.00, Customer will be assessed a "LD Promo Shortfall Charge" equal to the difference between actual usage and \$50.00.

Long Distance rates for Preferred Advantage® Switched Long Distance service require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 70% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has th right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 70% of the time to a LEC providing local service in an RBOC exchange. The Preferred Advantage® Long Distance Plus per minute usage rate is based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause. Long Distance calls to another McLeodUSA local exchange customer shall be considered an RBOC termination for purposes of this provision.

This is a switched Toll Free service that is available to business customers that do not purchase a bundled package of Preferred Advantage<sup>SM</sup> local and long distance voice service for a physical location. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. **These rates are based on an expected ratio of at least 80% of Customer's long distance in-bound minutes in a given month originating from an RBOC end-user and no more than 20% of the LD minutes originating from non-RBOC end-users.** If more than 20% of Customer's total long distance call minutes in a month originate from non-RBOC end users, then an additional charge of \$0.025/minute will be added for those long distance minutes in excess of the permitted 20% non-RBOC origination. This toll free service is not available for any locations outside of the continental United States. All incoming toll free calls will be rounded and billed in 6-second increments. Toll Free features include: listing of Customer's toll free number in the national Toll Free directory service; message referral that provides a disconnect or referral message on the toll free number; ability to restrict areas of service; geographical routing that permits multiple destinations of Toll Free based on NPA of the caller; time routing that permits customer to set multiple destination numbers based on time specifications; percent allocation routing that permits routing of calls to multiple destinations based on a percentage distribution; and route advance overflow that allow for a secondary target termination for overflow.

For every month in which Customer's actual long distance and toll free usage charges, including conference calling, calling card and international long distance, is less than \$50.00, Customer will be assessed a "LD Promo Shortfall Charge" equal to the difference between actual usage and \$50.00.

Long Distance rates for Preferred Advantage<sup>®</sup> Switched Toll Free services require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 70% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has the right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 70% of the time to a LEC providing local service in an RBOC exchange.

The Preferred Advantage<sup>®</sup> Toll Free Plus per minute usage rate is based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause. This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for **LD and Toll Free Plan w/ Local Access** long distance (T) rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24<sup>th</sup> trunk on the digital T1 facility. The customer shall be eligible for **LD and Toll Free Plan w/ Local Access** long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service. (T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

- Installation charges listed as Service Description "Non-Recurring" apply for each new PRI service configuration. If the customer were to change physical locations and need new service at the new location, these installation charges would also apply.
- DID chip-out charge applies when a DID number is requested to be removed from a sequential DID station number block. In this instance, a Change Order charge would also apply. If it were a non-sequential DID station number, only a Change Order charge would apply.
- Service Order charge applies for each new T1 and PRI facility installation.
- Change Order charge applies for each change request submitted after installation of the service.
- Channel Activation charge applies when current trunk configuration is being changed, either an increase or decrease. A Change Order charge would also apply with each channel activation charge.
- Calling Party Name & Number allows the customer to receive this information from their caller, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. 4.3.7.E.1 Product Description (cont'd)

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels (13 additional channels if the facility is a PRI facility) can be added to a single base package. No more than 1 trunk group can be associated with a PRI facility, and no more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year and taking into consideration the number of channels maintained by Customer. **Customers may agree to additional pricing for inside wiring work.** Term and volume discounts may also be applied.

(N)

If a customer disconnects an Integrated Access service base package before the end date of the contract term, an Early Termination charge will apply as follows:

- 100% of the Monthly Recurring Charges for the specific base package, times the number of months remaining on the current contract term.
- If a customer moves the location of their circuit within a LATA and the Local Loop can be served by the same Incumbent Local Exchange Carrier, then no Early Term Liability will apply. This is contingent upon the customer adding an equal or greater service with McLeodUSA at the new location for the remainder of the Agreement term. If not, an Early Termination fee will apply.
- If a customer moves the location of their circuit and the new location cannot be served by the same Incumbent Local Exchange Carrier, an Early Termination Fee may apply if McLeodUSA is charged an Early Termination Fee by the Local Exchange Carrier or other third party provider.
- If installation fees were waived for the initial sale and the customer disconnects before the end date of the contract term, the installation fees will be included in the Early Termination Fee.

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels can be added to a single base package. No more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year and taking into consideration the number of channels maintained by Customer. **Customers may agree to additional pricing for inside wiring work.** Term and volume discounts may also be applied.

(N)

If a customer disconnects an Integrated Access service base package before the end date of the contract term, an Early Termination charge will apply as follows:

- 100% of the Monthly Recurring Charges for the specific base package, times the number of months remaining on the current contract term.
- If a customer moves the location of their circuit within a LATA and the Local Loop can be served by the same Incumbent Local Exchange Carrier, then no Early Term Liability will apply. This is contingent upon the customer adding an equal or greater service with McLeodUSA at the new location for the remainder of the Agreement term. If not, an Early Termination fee will apply.
- If a customer moves the location of their circuit and the new location cannot be served by the same Incumbent Local Exchange Carrier, an Early Termination Fee may apply if McLeodUSA is charged an Early Termination Fee by the Local Exchange Carrier or other third party provider.
- If installation fees were waived for the initial sale and the customer disconnects before the end date of the contract term, the installation fees will be included in the Early Termination Fee.

4.0 Rates and Charges (cont'd)4.4 Rate Promotions (cont'd)4.4.1 Local Line with DyIA "One Call Close" Promotion

(N)

**Eligibility:** All new McLeodUSA business customers that sign up for the DyIA Line Solution base package for locations purchasing DyIA using the "One Call Close" process will be eligible for a waiver for one (1) One Line Preferred® Package. Existing McLeodUSA customers and renewals are not eligible for the waiver. To qualify for the One Line Preferred Package waiver, the DyIA must be sold using the "one call close" process and paperwork. The One Line Preferred Package must be part of the customer's initial purchase to receive the promotion. If the customer does not request that the analog line be included prior to installation of DyIA, the promotion does not apply and the standard Preferred Advantage non-recurring charges ("NRC") and monthly recurring charges ("MRC") pricing for any analog lines would apply. No Term or Volume discount, NRC waiver, vendor credit, contract assistance, or any other discount or promotion of any type may apply to the sale of the DyIA or any other service sold to the customer during the "one call close" sale process. If the customer requires two (2) or more analog phone lines or some service arrangement other than the One Line Preferred package, the "one call close" process may not be used and the MRC waiver no longer applies. Customer signature must be received on or before September 30, 2006 to be eligible for the "One Call Close" promotion.

The promotional period shall begin with the effective date of this tariff and end on September 30, 2006.

**Promotion:** This DyIA "One Call Close" Promotion includes one (1) Preferred Advantage - One Line Preferred Package with the DyIA Line Solution base package for locations purchasing DyIA using the "one call close" process. The MRC for the One Line Preferred Package offered with the DyIA Line Solution will be waived for the duration of the customer contract for the DyIA. The NRC for the One Line Preferred Package offered with the DyIA Line solution will also be waived. Once the DyIA customer contract expires, the One Line Preferred Package will be charged the MRC for that product at the time the contract expires.

There are no features included in the One Line Preferred Package, nor will any be included, in the "one call close" process. If any features are added to the One Line Preferred Package, the Preferred Advantage MRC pricing for these features will apply. Any feature changes or activity are subject to standard Preferred Advantage NRC and MRC pricing associated with the features.

## 4.4.1 Premium Package Promotion

**Eligibility:** Any new business customer that enters into a 24 month or greater Master Service Agreement with McLeodUSA that includes the purchase of at least two (2) Premium Preferred Advantage® Local Line Packages at a single customer location during the promotional period, or any existing business customer that adds at least two (2) Premium Preferred Advantage® Local Line Packages at a single customer location during the promotional period is eligible to participate in the Premium Package Promotion. The promotional period shall begin with the effective date of this tariff and end on March 31, 2005. The new Master Service Agreement or an existing business customer's order to add a minimum of two (2) Premium Preferred Advantage® Local Line packages must be executed or submitted during the promotional period. (T)

**Promotion:** Eligible customers will receive a recurring monthly promotional discount off of the non-promotional price set forth in this tariff on all Premium Preferred Advantage® Local Line Packages purchased or ordered during the promotional period for the duration of the Customer's service agreement. The promotional discount will be tied to a particular Customer phone line/number. The promotional discount will be voided if (1) Customer subsequently disconnects a particular phone line receiving the promotional discount, or (2) Customer has less than two Premium Preferred Advantage® line packages in service at a given location. The promotional discount cannot be transferred to another telephone line or location.

4.4.2 Preferred Advantage<sup>SM</sup> Dedicated Local Service Promotion

Preferred Advantage<sup>SM</sup> Dedicated Local Service provides for a communications (N) path of a specified number of channels (up to 24) with either T1 or PRI signaling. This service is offered to Business customers where appropriate facilities are available, and pricing varies depending on McLeodUSA switching facilities as set forth below. Term and volume discounts may be available based on contract commitments. A \$50.00 non-recurring Change Order charge will apply, per order, for each change request submitted after installation of the service. Non recurring charges may be waived in the cases of contracts for 3 years or more for customers served by McLeodUSA's switching facilities. The monthly recurring charges offered during the promotion shall continue throughout the term of the contracts that are signed during the promotional period.

The promotional period shall begin with the effective date of this tariff and end on December 31, 2003.

4.4.2 New Preferred Advantage® Dedicated Long Distance Plus Promotion

(D)(N)

**Eligibility:** All new McLeodUSA Preferred Advantage® Business Customers locations purchasing a DAL are eligible to receive the promotional rates. Customer will be subject to an additional port charge of \$500 for each DAL T1 circuit that falls below 50,000 minute of usage per month. This shortfall will be calculated as an overall average of the customer total inbound and outbound Long Distance minutes in relation to the total number of DAL T1 circuits. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Existing McLeodUSA customer are eligible for the new promotional Long Distance plans if: (a) they renew their Preferred Advantage contract for 24 months, or (b) purchase additional Preferred Advantage services from McLeodUSA, including any of the following: 1) Upgraded Preferred Advantage Local package; 2) Additional Preferred Advantage Local Lines; 3) Additional of two (2) or more Preferred Advantage Optional Line Features; or 4) Additional of any other McLeodUSA Preferred Advantage Local, Long Distance, Data, Internet, or Wireless product.

The promotional period shall begin with the effective date of this tariff and end on September 30, 2005. Current Term & Volume Discounts apply (Tier 1-5).

**Promotion:** Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer will be subject to an additional port charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or originating carrier. Account Codes are available to provide customers auditing functionality for all long distance calls.

4.4.2 The Great Switched Long Distance Rate Promotion Service Commission

The Inbound Intrastate **Switched** Long Distance Rate For Customers with Preferred Advantage<sup>SM</sup> Local and Toll Free Service at a location is \$0.0624 per minute. (M)(T)

The Inbound Intrastate **Switched** Long Distance Rate For Customers with Preferred Advantage<sup>SM</sup> Toll Free Service only at a location is \$0.1018 per minute. (T)(M)

Other Terms: Existing Business Customers' Great Long Distance Promotional Rates become effective on the first day of the billing cycle in the month they sign a new PA MSA. The Great Long Distance Promotional Rates are based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause.

4.4.7 New Preferred Advantage® Dedicated Toll Free Plus Promotion

(D)(N)

**Eligibility:** All new McLeodUSA Preferred Advantage Business Customers locations purchasing a DAL are eligible to receive the promotional rates. Customer will be subject to an additional port charge of \$500 for each DAL T1 circuit that falls below 50,000 minute of usage per month. This shortfall will be calculated as an overall average of the customer total inbound and outbound Long Distance minutes in relation to the total number of DAL T1 circuits. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Existing McLeodUSA customer are eligible for the new promotional Long Distance plans if: (a) they renew their Preferred Advantage contract for 24 months, or (b) purchase additional Preferred Advantage services from McLeodUSA, including any of the following: 1) Upgraded Preferred Advantage Local package; 2) Additional Preferred Advantage Local Lines; 3) Additional of two (2) or more Preferred Advantage Optional Line Features; or 4) Additional of any other McLeodUSA Preferred Advantage Local, Long Distance, Data, Internet, or Wireless product.

The promotional period shall begin with the effective date of this tariff and end on September 30, 2005.

**Promotion:** Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customers' call. Calls are billed in 6-second increments, with a 6-second minimum. Customer will be subject to an additional port charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. This toll free service is not available for any locations outside of the continental United States. Tailored Call Coverage and Route Overflow are available features.

2. Advantage Feature Package 2001A

If the following requirements are met, the customer is a "qualifying customer" for purposes of this feature package:

- a. The customer must have selected McLeodUSA as its presubscribed carrier for local, interLATA, intraLATA, and international services, and must enter into a 60-month agreement for these services on or after May 1, 2001; and
- b. The customer must purchase at least one data product (Web hosting, dial-up internet, or DSL) from McLeodUSA;

Qualifying customers who subscribe to Caller ID (Number Only) or Caller ID (Name and Number) service will receive a credit at least equal to the monthly price of the Caller ID option received, for each of the first three months of service.

This offer is limited to areas where the local, long distance, Caller ID, and data services mentioned above are available.

6.0 Grandfathered Services/Products

6.9 Local T1- St. Louis and Springfield

(M)

Section 6.9 will no longer be available to new customers as of February 19, 2004.

Business Trunks (T1) terminate into a customer-provided PBX or hybrid system, via a customer-provided DT1 or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

Transport costs are factored into the trunk rate, per band.

A. Rates

Non-Recurring Charges: \$50.000 per order plus \$50.00 per trunk

Monthly Recurring Charges:

	16 Trunks	20 Trunks	24 Trunks
Band 1 Month to month	\$900.00	\$1050.00	\$1150.00
Subsequent additions Band 1	12 Trunks Month to month		\$800.00

B. DID Charges

Trunk Group Setup	\$55.00 per trunk group (nonrecurring)
DID Station Install (nonrecurring)	\$2.50 per telephone number
DID Trunk Capability	\$80.00 per month
DID Stations	\$0.20 per 10 number block per month

C. Primary Rate ISDN

This service is provided where available, upon approval by the Company. Rates are in addition to all other rates.

PRI Installation	\$500.00 (nonrecurring)
Primary Rate Interface ISDN	\$350.00 per month

D. Federal Access Charges

In addition to trunk rates, two federal CALC charges will apply to each T1 used to deliver local service.

**Section 6.13 through 6.15 will no longer be available to new customers as of May 7, 2004.** (N)

6.13 Business Preferred Advantage<sup>SM</sup> Inter/Intra State Long Distance for Customers without Local Service. (Moved from Section 4.3.4.A, Rate Table 4.1.3, on Sheet No. 82.3) (M)

This service is available to business customers that do not purchase a bundled package of local and long distance service from McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. These rates are based on an expected ratio of at least 80% of Customer's long distance minutes in a given month terminating to an RBOC end-user and no more than 20% of the LD minutes terminating to non-RBOC end users. If more than 20% of Customer's total long distance call minutes in a month terminate to non-RBOC end users, then an additional charge of \$0.025/minute will be added for those long distance minutes in excess of the permitted 20% non-RBOC termination.

Usage Charges:  
Per Minute Usage: \$0.1683

6.14 Business Preferred Advantage<sup>SM</sup> Inter/Intra State Long Distance for Customers with Local Service Provided by McLeodUSA. (Moved from Section 4.3.4.A, Rate Table 4.1.4, on Sheet No. 82.3)

This service is available to a Customer that purchases a bundled package of Preferred Advantage<sup>SM</sup> local and long distance voice service for all lines at a Customer physical location. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. These rates are based on an expected ratio of at least 80% of Customer's long distance minutes in a given month terminating to an RBOC end-user and no more than 20% of the LD minutes terminating to non-RBOC end users. If more than 20% of Customer's total long distance call minutes in a month terminate to non-RBOC end users, then an additional charge of \$0.025/minute will be added for those long distance minutes in excess of the permitted 20% non-RBOC termination.

7.0 Wholesale Services

REC'D APR 29 2004

(N)

7.1 Wholesale Service Order Processing Service Commission

A Wholesale Service Order charge applies to all providers of telecommunications services that assess a non-recurring charge on McLeodUSA for the processing of comparable orders submitted by McLeodUSA to initiate service using network elements leased from the incumbent local exchange carrier ("ILEC"). A Requesting Carrier may submit an LSR during regular business hours of McLeodUSA. One LSR must be submitted for each retail end user switching from McLeodUSA to the Requesting Carrier. McLeodUSA will process an LSR and return a firm order commitment (FOC) to the requesting carrier within 48 hours of receipt. A Wholesale Service Order Charge shall be charged for each LSR received, whether the LSR is accepted or rejected. LSRs may be rejected for the following reasons: (1) the LSR is incomplete; (2) the LSR is for a service not available in the requesting carrier's service area; (3) the LSR is for a service not available in the requesting carrier's service area; (4) the LSR is for a service not available in the requesting carrier's service area; (5) the LSR is for a service not available in the requesting carrier's service area; (6) the LSR is for a service not available in the requesting carrier's service area; (7) the LSR is for a service not available in the requesting carrier's service area; (8) the LSR is for a service not available in the requesting carrier's service area; (9) the LSR is for a service not available in the requesting carrier's service area; (10) the LSR is for a service not available in the requesting carrier's service area.

*This page was withdrawn by Co before Eff. date. See Case No. CT-2004-0497*

7.1.1 Rates:

The Wholesale Service Order Charge (or a comparable charge assessed by the incumbent local exchange carrier for the state in which the retail end user resides) shall be assessed between McLeodUSA and the Requesting Carrier.

If the ICA does not set forth non-recurring charges identified as a Service Order Charge, Service Order Supplemental Charge, Expedite Fee, or Forced Expedite Fee charge, or comparable items, the following charges apply:

Wholesale Service Order	\$20
Service Order Supplemental Charge	\$15
Expedite Fee*	\$40
Forced Expedite Fee*	\$75

Missouri Public Service Commission  
 CT-2004-0574  
 FILED MAY 18 2004

For Expedite or Forced Expedite Request involving Loop Disconnect, the applicable charge applies in addition to a pass through of any monthly recurring charges for an unbundled loop charged by the ILEC after Customer conversion to Requesting Carrier's service.

6.15 Business Preferred Advantage<sup>SM</sup> Inter/Intra State Switched Toll Free Service (Moved (M)  
from Section 4.3.5.A, Rate Table 5.1.2, on Sheet No. 83 and 83.1)

This is a switched Toll Free service that is available to business customers that do not purchase a bundled package of Preferred Advantage<sup>SM</sup> local and long distance voice service for a physical location. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. These rates are based on an expected ratio of at least 80% of Customer's long distance in-bound minutes in a given month originating from an RBOC end-user and no more than 20% of the LD minutes originating from non-RBOC end-users. If more than 20% of Customer's total long distance call minutes in a month originate from non-RBOC end users, then an additional charge of \$0.025/minute will be added for those long distance minutes in excess of the permitted 20% non-RBOC origination. This toll free service is not available for any locations outside of the continental United States. All incoming toll free calls will be rounded and billed in 6-second increments. Toll Free features include: listing of Customer's toll free number in the national Toll Free directory service; message referral that provides a disconnect or referral message on the toll free number; ability to restrict areas of service; geographical routing that permits multiple destinations of Toll Free based on NPA of the caller; time routing that permits customer to set multiple destination numbers based on time specifications; percent allocation routing that permits routing of calls to multiple destinations based on a percentage distribution; and route advance overflow that allow for a secondary target termination for overflow.

Toll Free Directory Assistance: \$15.00/number  
Route Advance: \$20.00

A. Descriptions

Long Distance Interexchange Services (M)

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Missouri. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® long distance services, usage charges are based on the duration and time of day of each call when applicable. Where Customer’s local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer’s local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

Long Distance Preferred Advantage® Packages consist of a bucket anytime minutes used by the Customer for both incoming and outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the “overage rate per minute.” Preferred Advantage® Inter/Intrastate Plan Plus is available to Business Customers.

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

Preferred Advantage® Flat Rate Long Distance provides switched outbound 1+ long distance at one per minute rate for calls placed at any time of day.

Preferred Advantage® Long Distance Plus provides switched outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage. (M)

Holidays Rates

Holiday rates are applicable from 12:00:00 am to 11:59:59 pm on the following holidays: New Years Day; Martin Luther King Junior's Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Columbus Day; Veterans Day; Thanksgiving Day; Christmas Day.

800 Services

McLeodUSA Preferred Advantage® 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the McLeodUSA customer is billed for the calls rather than the call's originator. Unless otherwise specified, all McLeodUSA 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® toll Free services, usage charges are based on the duration and time of day of each call when applicable. Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

A. Descriptions800 Services (Cont'd)

Preferred Advantage® Inter/Intrastate Toll Free Plus is available to business Customers that subscribe to Preferred Advantage® Inter/Intrastate Plan Plus.

Preferred Advantage® Dedicated Toll Free Plus provides dedicated inbound long distance services for business customers that bill over 50,000 minutes of long distance usage (*i.e.*, both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

Preferred Advantage® Business Flat Rate Toll Free provides switched inbound 1+ long distance service for business customers at one per minute rate for calls placed at any time of day. A monthly recurring charge will be assessed per Toll Free number. This service is only available to customers subscribing to Preferred Advantage® Business Flat Rate Long Distance.

Preferred Advantage® Toll Free Plus provides switched inbound 1+ long distance service to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance. This service is only available to customers subscribing to Preferred Advantage® Long Distance Plus.

B. Products and RatesRate Table 4: Long Distance Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls billed using the Overage Rate minutes will be billed in 6 second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service.

B. Products and Rates (cont'd)Rate Table 4: Long Distance Services

The long distance service minutes included in the Preferred Advantage® Long Distance Packages apply to domestic intrastate calls, and to domestic interstate and to international calls as specified by McLeodUSA pursuant to federal regulation. Long Distance Packages exclude toll free, calling card, conference calling, and international usage. Customers not subscribing to a long distance package shall pay the overage rate per minute for all calls. Customers using more than the number of minutes in their selected long distance package for that particular location shall be charged a per minute overage rate for each minute of long distance usage in excess of the total minutes in the selected long distance package. For example, if a Business Customer has selected a 1,000 anytime LD minute package at Location A, and that Customer uses 1,005 minutes of long distance services in July at Location A, then the Customer's August invoice will reflect an additional usage sensitive charge for the 5 minutes of overage long distance usage billed at the overage rate/minute set forth below. Customers may increase or decrease the size of their long distance package once a month without a non-recurring charge after having service for a minimum of ninety days. Any changes will become effective with the following billing cycle.

Preferred Advantage® Inter/Intrastate Plan Plus provides switched outbound 1+ long distance services for Business Customers.

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (*i.e.*, both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

Preferred Advantage® Flat Rate Long Distance provides switched outbound 1+ long distance at one per minute rate for calls placed at any time of day. Residential customers may choose between a usage rate service without a monthly fee or a reduced usage rate service with a monthly fee.

Preferred Advantage® Long Distance Plus provides switched outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage. A "LDPromo Shortfall Charge" equal to the difference between actual usage and \$50.00 will be assessed monthly, if applicable.

6.23 Account Service Fee and Access Recovery Surcharge (moved from Sheets 34 and 65.1)  
**Effective January 1, 2009, these fees will no longer apply to new customers.**

A. Descriptions and Rates

(M)

An Account Service Fee will be applied to bills that do not meet a minimum 'total current charges'. See Account Service Fee listed in Section 4.1 for the applicable rates. Also, an Access Recovery Surcharge, which is used to offset increased costs associated with gaining access to incumbent networks, will be assessed monthly. This fee is not a tax or charge imposed by a government entity. The ARS is based on the percentage of the total monthly recurring charges. See Access Recovery Surcharge listed in Section 6.23 for the applicable rates.

Account Service Fee

Residential: \$2.99 per account      Business: \$4.99 per account

The monthly Account Service Fee is assessed on accounts each month when the "total current charges" are below \$10.00 for the month.

Access Recovery Surcharge:

The Access Recovery Surcharge (ARS) is not a fixed monthly recurring charge. Rather, the ARS is a percentage of the customer bill based on the total amount spent on services, less any taxes, surcharges or other non-qualifying fees. This fee is used to offset increased McLeodUSA expenses caused by a regulatory change. Specifically, the charge will recover the costs related to recent increases in our costs of gaining access to incumbent networks and decreases to the access rates we can collect from long distance carriers. This fee is not a tax or charge imposed by a government entity. The ARS is calculated by application of a percentage to each customer's total monthly recurring charges for all services (MRC). The ARS percentage to be applied will be determined by the customer's total MRCs on its monthly invoice, based on the schedule outlined below.

Customer Account Monthly Recurring ARS

<u>MRC Revenue Tier</u>	<u>Charge %</u>
\$0.00 to \$200.00	10.00%
\$200.01 to \$400.00	9.00%
\$400.01 to \$500.00	8.00%
\$500.01 to \$1,000.00	5.00%
\$1,000.01 to \$1,500.00	4.00%
\$1,500.01 to \$2,500.00	3.00%

6.25 Preferred Advantage® Calling Card and Preferred Advantage® Conference Calling (M)  
(moved from Sheets 55, 59, 59.1, 84, 85, 106, 106.1 and 106.2)

**Effective January 1, 2009, these services are no longer available to new customers or to existing customers at new locations. Existing customers will be able to request changes to services, provided the request does not conflict with state rules, regulations or laws.**

A. Descriptions

Calling Card

This service allows the Customer to make telephone calls from any non-Customer location such as a payphone by dialing an 800 access number and a personal identification number before dialing the telephone number of the called party. The charges resulting from use of the Calling Card are billed to the Customer's McLeodUSA account at the rates and charges set forth in the Rate Tables.

Preferred Advantage® Conference Calling

Conference Calling is the ability to have multiple parties listen and participate in meetings via telephone.

Anytime Conferencing

Anytime Conferencing Audio

Anytime Conferencing allows you to hold a conference call any time without operator assistance. Anytime Conferencing conference room is available 24/7 and can host up to 100 participants. Anytime Conference may be used with the Web Conferencing interface Conference Calling Control Panel to moderate a call, show a Power Point® presentation or share documents in a fully collaborative environment.

Anytime Conferencing with Web

Anytime Conferencing Anytime Conferencing Web enables a caller to share presentations, applications and documents on the Internet with other participants.

Basic Assisted and Event Conferencing

Basic Assisted

Basic Assisted provides minimal operator support. Basic Assisted Conference call is ordered for less than 45 participants. A live operator will answer to both the call organizer and participants, gather each participant's name and other information required and announces each participant as s/he is placed into conference. The operator may conduct a roll call and then turn the call over to the Chairperson. The operator is always available by pressing 'star, zero' (\*0).

Event Conferencing

Event Conferencing is a professionally managed conference call, reserved in advance, and designed specifically for large event style conference calls or calls that require the personal touch of an operator.

Participants dial in from any location or the Event Conferencing team will dial out to participants. A dedicated operator manages the call from start to finish.

A. Descriptions (cont'd)

Preferred Advantage® Conference Calling (cont'd)

Standard Services available

With each of the two following standard services, clients have two options:

- Attended Call: Facilitator monitors the conference call to add any assistance that may be needed.
- Unattended Call: No facilitator is present, but a facilitator is available at any time by pressing \*O on the phone.

Basic Assisted and Event Conferencing Products

Toll Free Meet Me

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. The conference fees are charged to the hosting organization.

Domestic Dial-Out

Conference Center facilitators dial-out to all participants prior to the scheduled conference. The hosting organization is charged the long distance and conference bridging fees.

Local Meet Me

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. Except for the LD toll charges, the conference fees are charged to the hosting organization. Each participant will be responsible for the long distance per minute charges that they incur while on the call.

Passcode

Passcode Conferencing provides an automated service that allows you to schedule a call in advance by a speaking to a reservationist. Each time a call is scheduled, a new access number and room number is provided to you.

B. Rates

Preferred Advantage<sup>SM</sup> Calling Card

Calling Card services are billed at a per minute rate. All calls will be rounded up to the next full minute. Calling Cards are available to customers that have McLeodUSA long distance, McLeodUSA local service or both. Calling Card minutes are excluded from any Preferred Advantage<sup>SM</sup> Long Distance Package bucket of minutes. No non-recurring or monthly recurring charges apply. All charges are usage sensitive and subject to certain surcharges.

A. Descriptions (cont'd)

Dynamic PRI

This product is a facility-based Local PRI product. It provides businesses advanced ISDN PRI capabilities for a variety of switched and dedicated communications applications. ISDN\_PRI consists of twenty-three 64 Kbps B channels and one 64 Kbps D channel. The D channel is used for signaling and control of the B channels. Any spare bandwidth that is not used for voice trunks, can be used to provide point-to-point data products. The Dynamic PRI terminates into a customer-provided PBX or hybrid system, via a customer-provided Digital Trunk Interface (DTI) or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

This product, ISDN-PRI, provides voice and data communications capabilities via a 1.544 Mbps central office termination and a 1.544 Mbps end user's premises. The product also provides high capacity local access services, with up to 24 channels of which 23 channels are 64 Kbps B channels and one channel is a D channel at 64 Kbps. The D channel is used for signaling and control of the B channels. When DID service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Rate elements are an ISDN Rate Element, a Local Distribution Channel Rate Element, Optional Elements, and applicable surcharges and taxes.

Dedicated Local Preferred T1 Service - On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for LD and Toll Free Plan w/ Local Access long distance rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

A Customer subscribing to this service is also prohibited from stripping, changing, or in any way manipulating the telephone number of the calling party associated with each individual call, and to maintain call records showing the originating numbers for each call, to the extent those originating numbers are passed to Customer with the call. Monthly recurring prices include up to 250 Direct Inward Dial (DID) numbers, with additional DID numbers in sequential blocks fo 20 or non-sequential singles, at the Non-Recurring and Monthly Recurring rates below. Also included in the monthly recurring price are applicable End User Common Line (EUCL), Local Measured Service (LMS), Primary Interexchange Carrier Charges (PICC), and Mandatory Extended Area Service (EAS) charges.

Dedicated Local PRI Service - On-Switch Service

(M)

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24<sup>th</sup> trunk on the digital T1 facility. The customer shall be eligible for LD and Toll Free Plan w/ Local Access long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service.

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Preferred Advantage<sup>SM</sup> Integrated Access Trunk

(M)

Product Description

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for LD and Toll Free Plan w/ Local Access pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service.

For this product, no separate charges apply for and End User Common Line (EUCL) charge, Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels (13 additional channels if the facility is a PRI facility) can be added to a single base package. No more than 1 trunk group can be associated with a PRI facility, and no more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year and taking into consideration the number of channels maintained by Customer. Customers may agree to additional pricing for inside wiring work. Term and volume discounts may also be applied.

Contract termination penalties as provided in the customer's Service Agreement will apply in the event that the customer does not maintain the Base Package for the term of the agreement. If the customer discontinues Integrated Access service with the company, McLeodUSA will retrieve the IAD and battery pack that had been deployed for the customer's use. The customer will incur additional charges in the event that the customer does not allow for the prompt retrieval of the IAD upon termination of service.

7.0 Wholesale Services

7.1 Wholesale Service Order Processing:

(M)

A Wholesale Service Order charge applies to all providers of telecommunications services that assess a non-recurring charge on McLeodUSA for the processing of comparable orders submitted by McLeodUSA to initiate service using network elements leased from the incumbent local exchange carrier ("ILEC"). A Requesting Carrier may submit an LSR during regular business hours of McLeodUSA. One LSR must be submitted for each retail end user switching from McLeodUSA to the Requesting Carrier. McLeodUSA will process an LSR and return a firm order commitment (FOC) to the requesting carrier within 48 hours of receipt. A Wholesale Service Order Charge shall be charged for each LSR received, whether accepted as valid or rejected as invalid. LSRs may be rejected for inaccurate, incomplete, or repetitive LSRs. An additional Service Order Charge applies when the Requesting Carrier cancels an LSR request. A separate Service Order Supplemental Charge applies when a Requesting Carrier submits an LSR that modifies or supplements the initial LSR. A Requesting Carrier may request expedited processing of the LSR within 24 hours for an additional Expedite Fee. A Forced Expedite Fee applies if the Requesting Carrier converts a retail customer's service before the Firm Order Commitment Date that causes McLeodUSA to expedite its required activities. An additional charge also applies to an LSR Expedite Order that involves a loop disconnect. A full set of Business Rules is available from McLeodUSA.

7.1.1 Rates:

The Wholesale Service Order charge is equal to the Service Order Charge (or a comparable charge assessed upon receipt of an order) contained in the ICA between McLeodUSA and the incumbent local exchange carrier for the state in which the retail end user resides.

If the ICA does not set forth non-recurring charges identified as a Service Order Charge, Service Order Supplemental Charge, Expedite Fee, or Forced Expedite Fee charge, or comparable items, the following charges apply:

Wholesale Service Order	\$20
Service Order Supplemental Charge	\$15
Expedite Fee*	\$40
Forced Expedite Fee*	\$75

For Expedite or Forced Expedite Request involving Loop Disconnect, the applicable charge applies in addition to a pass through of any monthly recurring charges for an unbundled loop charged by the ILEC after Customer conversion to Requesting Carrier's service.
