Service Commission

Type of Service: ElectricFor: All Territory Served**GENERAL SERVICE****Availability:**

Available to general service use where the maximum demand is less than 100 kilowatts, subject to the General Rules and Regulations of the Corporation as filed with and approved by the Missouri Public Service Commission.

Character of Service:

- + Single-phase available at 120/240 volts or three phase available at 208, 240 or 480 volts, 60 hertz.

The Corporation shall not be required to supply three phase service to installations which, in its judgement, do not so require, nor where in its judgement, the revenue to be derived therefrom will not justify the cost of providing it.

The consumer shall be required to furnish and maintain at his own expense any transformers which may be necessary for lighting or other applications at voltages or phasing other than those at which the service is metered.

When a customer's monthly usage exceeds 25,000 kWh for two consecutive months, or the Corporation has reason to believe that customer's demand may exceed 100 kW, the Corporation will install a demand meter for purposes of measuring customer's kW demand.

Net Monthly Rate:

	Customer charge:	Single phase service	\$9.00
		Three phase service	\$20.00
+	Energy Charge:	First 500 kWh	\$.0926/kWh
+		Next 500 kWh	\$.0796/kWh

Name of Issuing Corporation

CANCELLED

OCT 29 2004

By ED 2004-0273
Public Service Commission
MISSOURI

GENERAL SERVICE

RECEIVED

JUL 13 1981

MISSOURI
Public Service CommissionApplicable to:

All service for any purpose where the customer's end use electric requirements are supplied by the Corporation.

Character of Service:

Alternating current, 60 hertz, at 115 volts 2-wire or 115/230 volts 3-wire, single-phase or, at the Corporation's option, at 230 or 460 volts, three-phase. The Corporation shall not be required to supply three-phase service to installations which in its judgement do not so require, nor where in its judgment the revenue to be derived therefrom will not justify the cost of providing it.

The consumer shall be required to furnish and maintain at his own expense any transformers which may be necessary for lighting or other applications at voltages or phasing other than those at which the service is metered; otherwise each such separate voltage and phasing shall be separately metered and billed as separate service under this classification.

* Rates per Month, per Meter: (a)

Customer charge:	Urban areas	\$2.13
	Rural areas	\$3.53
Demand charge:	For the first 10 kW of demand, per kW	None
	For all over 10 kW of demand, per kW	\$3.17
Energy charge:	For the first 100 kWh used, per kWh	12.175¢
	For the next 400 kWh used, per kWh	7.583¢
	For the next 1,500 kWh used, per kWh	5.817¢
	For all over 2,000 kWh used, per kWh	
	in the months of June through September	4.546¢
	in the months of October through May	3.982¢

Minimum bill per meter, per month: The customer charge

- * (a) Interim rates subject to refund pending final decision by the Missouri Public Service Commission in Case No. ER-81-79 and by the FERC in Docket No. ER-81-450-000.

Service Commission

Type of Service: Electric

For: All Territory Served

LARGE POWER SERVICE

Availability:

Available for general service use where the maximum demand is 100 kilowatts or more, subject to the General Rules and Regulations of the Corporation as filed with and approved by the Missouri Public Service Commission. In purely industrial installations where the use of lighting is incidental to the use of power such lighting may be included with the power provided, however, that the Consumer shall furnish any transformers which may be necessary to supply any voltage other than that at which the service is metered.

If customer's measured demand is less than 100 kW for twelve consecutive billing periods, the customer may be removed from this rate and placed under another applicable rate schedule.

Character of Service:

- + Three-phase, 60 hertz, at 12.47 kV primary, or 208, 240 or 480 volts secondary.

The consumer shall be required to furnish and maintain at his own expense any transformers which may be necessary for lighting or other applications at voltages or phasing other than those at which the service is metered.

Net Monthly Rate:

Customer charge: **CANCELLED** \$50.00

Demand Charge: All Summer kW Demand **OCT 29 2004** \$11.31/kW
All Winter kW Demand **ED-2004-0223** \$8.94/kW

- + Energy Charge: All kWh **Missouri Public Service Commission** \$0.0286/kWh
MISSOURI

Summer/Winter Definition:

- + Summer season charges shall apply to the four monthly billing periods of July
+ through October. Winter season charges shall apply to the eight monthly billing
+ periods of November through June.

GENERAL SERVICE - DEMAND

MO. PUBLIC SERVICE COMMApplicable to:

- * The use of service for power installations whose monthly maximum demand load is 25 kilowatts (25 kWd) or more. Installations having less than 25 kw monthly demand may be permitted this rate, but such installations shall be billed on a 25 kWd basis. In purely industrial installations where the use of lighting is incidental to the use of power such lighting may be included with the power provided, however, that the Consumer shall furnish any transformers which may be necessary to supply any voltage other than that at which the service is metered.

Character of Service:

- * Alternating current, 60 hertz, at nominal voltage of 120 volts 2-wire or 120/240 volts 3-wire, single-phase or, at the Corporation's option, 240 or 480 volts, three-phase. The Corporation shall not be required to supply three-phase service to installations which in its judgement do not so require, nor where in its judgement the revenue to be derived therefrom will not justify the cost of providing it.

The consumer shall be required to furnish and maintain at this own expense any transformers which may be necessary for lighting or other applications at voltages or phasing other than those at which the service is metered; otherwise each such separate voltage and phasing shall be separately metered and be a separate service under this classification.

Rates per Month:

Customer Charge:	\$48.06
Demand Charge: In the months of June through September, per kW	9.19
In the months October through May, per kW	8.47
Energy Charge, per kWh	.0240
Minimum bill per month, per meter: The customer and demand charge for 25 kW	
Primary Service Credit:	
When the consumer furnishes transformers and service is metered at a primary voltage of 2,400 volts or higher, the per kW demand charge shall be reduced by	.30

APR 22 1988

Applicable to:

The use of service for power installations whose monthly maximum demand load is 10 kilowatts (10 KWD) or more. Installations with less than 10 kW monthly demand may be permitted this, but such installations shall be billed on a 10 KWD basis. In purely industrial installations where the use of lighting is incidental to the use of power such lighting may be included with the power provided, however, that the Consumer shall furnish any transformers which may be necessary to supply any voltage other than that at which the service is metered.

Character of Service:

Alternating current, 60 hertz, at 115 volts 2-wire or 115/230 volts 3-wire, single-phase or, at the Corporation's option, at 230 or 460 volts, three-phase. The Corporation shall not be required to supply three-phase service to installations which in its judgement do not so require, nor where in its judgment the revenue to be derived therefrom will not justify the cost of providing it.

The consumer shall be required to furnish and maintain at his own expense any transformers which may be necessary for lighting or other applications at voltages or phasing other than those at which the service is metered; otherwise each such separate voltage and phasing shall be separately metered and be a separate service under this classification.

Rates per Month: (a)

Customer charge:

Demand charge:

In the months June through September, per kW

In the months October through May, per kW

Energy charge, per kWh

Minimum bill per month, per meter: The customer ^{or missing} and demand charge
for 10 kW

Primary Service Credit:

When the consumer furnishes transformers and service is metered at a primary voltage of 2,400 volts or higher, the per kW demand charge shall be reduced by

(a) Interim rates subject to refund pending final decision by the FERC in Union Electric Company's wholesale rate case, Docket No. ER-81-450-000.

LARGE POWER SERVICE (Continued)

Minimum Bill:

The minimum bill shall be the customer charge.

Primary Service Credit:

Primary Service Credit: All kW Demand \$.30/kW

The credit is available when the consumer furnishes transformers and service is metered at a primary voltage of 12,470 volts or higher.

Definition of kW Demand

The kW Demand shall be the maximum kilowatt demand measured for any fifteen consecutive minutes during the period for which the bill is rendered, as indicated or recorded by a demand meter.

Tax Adjustment:

There shall be added to the customer's bill, as a separate item, an amount equal to the proportionate part of any license, occupation, franchise, or other similar fee or tax now or hereafter imposed upon the utility by any municipality or other governmental authority.

Terms of Payment:

The above rates are net. All bills are payable within twenty-one (21) days of the date of the bill, and are subject to discontinuance of service for nonpayment within six (6) days thereafter.

Term of Contract:

Initial term of one year, terminable upon 90 days written notice thereafter.

+ The minimum bill shall be the customer charge.

Primary Service Credit:

+ Primary Service Credit: All kW Demand \$.30/kW

+ The credit is available when the consumer furnishes transformers and
+ service is metered at a primary voltage of 12,470 volts or higher.

+ **Definition of kW Demand**

+ The kW Demand shall be the maximum kilowatt demand measured for any
+ fifteen consecutive minutes during the period for which the bill is rendered,
+ as indicated or recorded by a demand meter.

Tax Adjustment:

There shall be added to the customer's bill, as a separate item, an amount equal to the proportionate part of any license, occupation, franchise, or other similar fee or tax now or hereafter imposed upon the utility by any municipality or other governmental authority.

Terms of Payment:

The above rates are net. All bills are payable within twenty-one (21) days of the date of the bill, and are subject to discontinuance of service for nonpayment within six (6) days thereafter.

Term of Contract:

Initial term of one year, terminable upon 90 days written notice thereafter.

* The rates in this schedule are being charged on an interim basis pending the final resolution of Case No. ER-2001-217 and are subject to refund pursuant to the terms of a stipulation and agreement approved by the Missouri Public Service Commission in that case.

Term of Contract:

One year, terminable upon 30 days' written notice.

Optional Non-Demand Rate:

Consumers with a maximum monthly demand not exceeding 75 kilowatts may elect to be served from a non-demand rate. The consumer shall pay the demand rate customer charge (Sheet 7); plus kWh charges as billed from the General Service Non-Demand rate schedule (Sheet 5). There shall be no charge for kW demand under this option. Any consumer electing to be billed under this option must remain for at least a twelve month period. Any consumer who exceeds 75 kW demand after being placed on this rate may be transferred back to the regular demand rate.

GENERAL SERVICE - DEMAND (Optional)

MISSOURI

Public Service Commission

Applicable to:

- * The use of service for power installations whose monthly maximum demand load is 75 kilowatts (75 kWd) or less. Installations having less than 75 kWd monthly demand may elect to receive service under this rate, for a minimum term of at least one (1) year. Any General Service Customer served under this tariff whose monthly metered demand exceeds 75 kWd may be placed on the General Service-Demand Tariff.

Character of Service:

- * Alternating current, 60 hertz, at nominal voltage of 120 volts 2-wire or 120/240 volts 3-wire, single-phase or, at the Corporation's option, 240 or 480 volts, three-phase. The Corporation shall not be required to supply three-phase service to installations which in its judgement do not so require, nor where in its judgement the revenue to be derived therefrom will not justify the cost of providing it.

The consumer shall be required to furnish and maintain at his own expense any transformers which may be necessary for lighting or other applications at voltages or phasing other than those at which the service is metered; otherwise each such separate voltage and phasing shall be separately metered and be a separate service under this classification.

Rates per Month, per Meter:

* Customer Charge:	Single Phase Service	\$40.00
	Three Phase Service	48.06
Energy Charge:	For the First 500 kWh used, per kWh	.0910
	For all over 500 kWh used, per kWh	.0751
	Except that during the months of October through May, usage in excess of 1,000 kWh	.0420

Minimum bill per month, per meter: The customer charge

FA_N = Fuel Adjustment (¢/kWh) for Month N

FC_{PP} = Fuel Cost (\$) of Power Purchased in N-2 Adjusted to Exclude Costs Relating to Generation by Oil

FC_{NJS} = Fuel Cost (\$) of Non-Jurisdictional Sales in N-2

FC_{SCC} = Fuel Cost (\$) of Special Contract Customer Sales in N-2

S_E = Jurisdictional System Sales (kWh) Estimated for Month N (Excluding Non-Jurisdictional and Special Contract Sales)

C = Correction (\$) for Over or Under Estimation of Sales During Recovery Period (N-2)

$$\text{Calculation of } C = .01 \left[FA_{(Base)} + FA_{N-1} \right] \left[S_E - S_A \right]$$

FA_{N-1} = FA (¢/kWh) Calculated for Previous Period

S_A = Actual Sales (kWh) During Recovery Period (N-2)

$FA_{(Base)}$ = Fuel Adjustment Base (¢/kWh)
A value such that FA_N for June 1976 is zero.

FC_{PP} = Kilowatthours Purchased in N-2 Multiplied by a Rate per Kilowatthour Representing Union Electric's Fuel Adjustment Rate to Citizens Electric in N-2 Adjusted to Exclude Costs Relating to Generation by Oil.

Public Service Commission

CONDITIONS OF APPLICATION:

1. The fuel adjustment will be effective for billings commencing June 1, 1976, and will have a value of 0.000¢ per kWh for the first month.

2. In the event that the Missouri Public Service Commission finds, by formal hearing, that the company has applied this fuel adjustment clause in an inappropriate manner so as to cause an overcharge to its customers, it will refund to said customers an amount of 1.06 times the amount of the overcharge found by the Public Service Commission.

3. This fuel adjustment shall expire on May 31, 1978, unless cancelled, changed or extended by order of the Missouri Public Service Commission.

FUEL ADJUSTMENT SURCHARGE

Rider C

JUL 10 1976

Applicability

The following electric rate schedules are subject to the provisions of this tariff sheet: P.S.C. Mo. No. 7, Sheets 1, 3, 5 and 7.

Terms and Conditions

All sales under the above listed rate schedules will be subject to a surcharge to recover the unrecovered fuel cost resulting from changing the lag in the fuel adjustment procedure pursuant to the Commission's Order in Docket No. 17,730. As a result of this change, the fuel charges to Citizens for the month of February and March 1976 would not be recovered. The amount of such unrecovered charges applicable to tariff customers is \$36,933.

The above amount will be recovered through a surcharge of .20 mills/kWh (\$.00020), applied to sales during the period August 1, 1976 through July 31, 1977, extended if necessary.

The progress of the recovery will be monitored and the surcharge may be adjusted toward the end of the above period to reduce the amount of any underrecovery or overrecovery. In the event the amount actually recovered differs from the amount to be recovered by \$500 or less, the difference will be absorbed into the capital credits account.

* EMERGENCY ENERGY CONSERVATION PROCEDURE

MISSOURI
Public Service Commission

The following is an energy usage reduction program to be followed in the event a shortage of purchased power occurs or is threatened. Prevailing conditions will be reviewed daily, and appropriate actions under each step will be taken as conditions warrant.

Citizens Electric Corporation receives all its electric energy from the Union Electric Company. CEC's energy usage reduction program will accordingly be based upon the energy generation conditions experienced by Union Electric and the resulting availability of electric energy from this source.

Step 1

- 1.1 Industrial customers will be surveyed to determine anticipated reductions in energy use. Information will also be gathered regarding the magnitude of non-critical load they could shed, should the need arise.

Step 2

- 2.1 CEC will reduce its own use of electric energy in any way that will not jeopardize essential operations.
- 2.2 CEC shall make public appeals through appropriate news media, asking customers to voluntarily reduce their use of electric energy because of the fuel shortage.
- 2.3 CEC will notify large industrial customers of the request for voluntary curtailment of energy use because of the fuel shortage.
- 2.4 The contractually interruptible portion of "Interruptible" customer loads shall be curtailed.

Step 3

- 3.1 The State regulatory commission or other appropriate authorities will be requested to authorize CEC to implement the various actions of Step 3 as they become necessary to preserve CEC's ability to provide essential services.

* EMERGENCY ENERGY CONSERVATION PROCEDURE (Cont'd)

MISSOURI

Public Service Commission

Step 3 (Cont'd)

- 3.2 Eliminate all outdoor flood and advertising lighting except for the minimum level necessary to protect life and property, and a single illuminated sign advertising commercial facilities that are open after dark.
- 3.3 Reduce non-essential uses of electricity in residences, stores, offices, and factories as close to minimum functional and safety levels as possible. For example: reduce general lighting levels; eliminate all show window, display, and decorative lighting; reduce the number of elevators operating during non-peak hours; etc.
- 3.4 Reduce parking lot lighting, street and alley lighting, and dusk-to-dawn lighting where practicable to minimum functional and safety levels.
- 3.5 Minimize energy use by maintaining a temperature of no more than 66°F during operation of heating equipment and no less than 80°F during operation of cooling equipment. Also, minimize use of electrically heated hot water.
- 3.6 Adjust work schedules, as for building cleaning and maintenance, restocking, etc., which would require office or industrial facilities to be lighted, heated or cooled beyond normal office or plant hours.
- 3.7 Curtail sports, entertainment, and recreational activities consistent with saving energy; for example, eliminate sports requiring lighting and close theaters requiring energy for heating or cooling of facilities, etc.
- 3.8 Close all public museums, art galleries, historic buildings, etc. requiring lighting, heating or cooling.
- 3.9 Require commercial establishments to operate on a schedule not exceeding six days per week with a maximum of 48 hours of operation per week (except essential services to the public).

- 4.1 The State regulatory commission or other appropriate authorities will be requested to authorize CEC to implement the various actions of Step 4 as they become necessary to preserve CEC's ability to provide essential services.
- 4.2 Each industrial user of electric energy will be asked to immediately curtail its monthly usage on a continuous basis by at least 30% of its average monthly usage during the previous 12 months. CEC will make available to such authorities a current list of its industrial customers and will, at the direction of such authorities, transmit orally or in writing to such customers the directive on behalf of the authorities.
- 4.3 Each commercial customer to immediately curtail usage to a maximum 40 hours of operation a week.
- 4.4 Each residential customer to immediately curtail usage to the minimum amount possible.

Customers providing the essential services generally described in the attached Appendix "A" shall be exempt from full compliance with the above requirements.

Steps 5 & 6

The State regulatory commission or other appropriate authorities will be requested to authorize CEC to implement the various actions of Steps 5 and 6 as they become necessary to preserve CEC's ability to provide essential services. CEC will take such technical measures in connection with its facilities as are necessary and feasible to implement these steps and to assure continuous electric supply to essential services.

Step 5: Actions to be implemented as necessary.

- 5.1 Implement a progressive reduction of industrial and commercial customer use down to levels required for basic plant and employee safety and security.

APPENDIX "A"

ESSENTIAL SERVICES

The group of customers recommended to be exempt as essential services from full compliance with Steps 4 through 6 are listed below.

Industrial and commercial establishments of the types listed below must strive to meet, but are not mandated to meet, the requirements of the several steps. In doing so, such customers should undertake the reduction of electric energy consumption to the fullest practical extent consistent with continued operation of the services, functions, or activities for which the customer is responsible.

1. Any facility whose function is known to CEC to be necessary to the support of life.
 - A. Certain hospital services and nursing homes.
 - B. Non-hospital facilities, such as iron lung, kidney machine, and shaker beds.
2. Any facility whose function is known to CEC to be necessary for national, state or local security.
 - A. Defense communication network centers
 - B. Civil defense facilities
 - C. Prisons
 - D. Other governmental activities essential to national defense.

TEMPORARY EMERGENCY SURCHARGE

MAR 20 1978

MISSOURI
Public Service CommissionGENERAL

This "Temporary Emergency Surcharge Rider" is filed for the purpose of allowing the Company to apply a surcharge to all kilowatthours (kWh) used under all rates to recover certain extraordinary fuel costs from its own generation and extraordinary purchased power costs where such costs are not recovered in Company's fuel adjustment clause.

Fuels and electrical energy purchases not included in the existing fuel adjustment clause include:

1. Oil used in Union Electric power plants for the generation of electricity.
2. Natural gas used in Union Electric power plants for the generation of electricity.
3. Union Electric's purchased power cost from power plants using oil as a fuel.

The effective term of this rider is for a temporary period. The temporary surcharge rate shall start with service rendered on and after the effective date of the Rider and shall end with service rendered to and including seven (7) days after Union Electric's Coal Suppliers resume coal shipments.

TEMPORARY EMERGENCY SURCHARGE (CONT'D) **MAR 20 1978**RATE**MISSOURI
Public Service Commission**

The surcharge rate shall be \$.0148 per kWh on all Company sales.

For billing purposes, the temporary surcharge will be applied to all kWh sales and shall be billed as follows:

- A. Residential - 50% of the surcharge rate shall be applied to service rendered on and after the effective date of this rider until the expiration of this surcharge rate. The unrecovered surcharge amount shall be applied to an equal number of succeeding billing cycles immediately following the expiration of the surcharge rate.
- B. All other - 100% of the surcharge rate shall be applied to all service rendered during the period commencing with the effective date of this rider and ending with the expiration date of the surcharge rate.

The surcharge amount will be calculated and shown separately on the bills. The bills shall state the applicable per kWh surcharge depending on the class of service.

At the conclusion of this Temporary Emergency Surcharge Rider and audit by the Missouri Public Service Commission, the Company shall refund or credit any overcollection to its customers. Such refund shall be rendered during the next complete billing cycle after audit by the Missouri Public Service Commission.

This Rider and Surcharge shall be subject to all conditions as reflected by Missouri Public Service Commission Order in Case No.

Public Service CommissionApplicability

This tariff applies to purchases of electricity from qualifying facilities under the provisions of Rule 4 CSR 240-20.060 of the Missouri Public Service Commission. Citizens' Electric Corporation shall not be obligated to purchase any electricity unless the customer executes a valid contract and complies with all safety, procedural and operational requirements specified by the Corporation. These requirements shall be specified by contract and include, but not be limited to, the terms in Rule 4 CSR 240-20.060.

Charge to Customer for Metering

\$4.00 per month -- single phase

\$6.00 per month -- three phase

CANCELLED

MAY 03 1987

Payment to Customer for Energy1.75¢ per kilowatt hour^(a)BY 221 RS #13
Public Service Commission
MISSOURI

If the aggregate output of facilities selling under this tariff will enable Citizens' Electric Corporation to reduce its demand charges under the Union Electric wholesale rate (as determined by the Corporation) then the payment to Customer shall include an additional amount for this demand cost savings. The determination of this amount will be made based on the load characteristics of each facility.

If the energy delivered by Customer is metered at the low side of the transformer, then the above rates shall be adjusted to reflect appropriate transformation losses.

(a) Rates subject to refund with interest as defined in 18CFR35.19A, pending final decision by the FERC in Docket Number NO. ER84-560-000 and the Missouri PSC in Case Number ER-85-143.

OUTDOOR LIGHTING SERVICE - COMPANY OWNED LAMP FIXTURE**Availability:**

To any customer at any point on Corporation's secondary distribution lines, subject to the General Rules and Regulations of the Corporation as filed with and approved by the Missouri Public Service Commission.

Application:

To unmetered, automatically controlled outdoor lighting service. The Corporation will install, own, operate and maintain lamp fixtures, including any necessary lamp replacements. All necessary service, maintenance and lamp renewals will be furnished at the Corporation's expense as soon as practical following notice by customer.

Not applicable for seasonal service. Applicable to temporary service when the customer pays in advance of construction the estimated gross cost of providing, installing and removing the temporary facilities required to provide service less the estimated salvage value of such facilities upon removal.

Net Monthly Rate:

+	100 watt high pressure sodium lamp	\$6.16
+	250 watt high pressure sodium lamp	\$10.79

The above charge is applicable when lamp fixture is installed on an existing pole and connected to an existing secondary circuit. The Corporation will extend its secondary conductor one span not to exceed 175 feet in length and install one wood pole including guy and anchor where needed for an additional ONE-TIME charge of \$150.00 for a 100 watt fixture and \$175.00 for a 250 watt fixture. If it is necessary to install a transformer for outdoor lighting service, the monthly rate shall be increased by \$2.90/month.

Tax Adjustment:

There shall be added to the customer's bill, as a separate item, an amount equal to the proportionate part of any license, occupation, franchise, or other similar fee or tax now or hereafter imposed upon the utility by any municipality or other governmental authority.

STREET LIGHTING SERVICE

Availability:

To the City of Ste. Genevieve, Missouri and the City of Perryville, Missouri for street lighting service, subject to the terms of the applicable Street Lighting Contract between the Corporation and the customer; and to the tariffs of the Corporation as filed with and approved by the Missouri Public Service Commission.

Net Monthly Rate:

+ All kWh \$.0737/kWh

Character of Service:

The Corporation shall furnish, own and operate the overhead street lighting circuit.

The Corporation shall install additional overhead street lights at the request of the customer as per the terms and conditions established in the applicable Street Lighting Contract between the Corporation and the customer.

The customer shall assume the maintenance cost of the street light fixtures, including photo-electric control, ballast and lamp.

The Corporation will furnish labor, fixtures and other materials for installation of 100 watt high pressure sodium fixtures on previously unlit streets or subdivisions.

Underground Service:

The customer shall own and maintain all street lighting equipment in subdivisions with underground facilities, except the Corporation will install and maintain underground street light cable to each street light standard owned by the customer at the time the subdivision is first developed.

The customer shall furnish all easement rights and is responsible for cost of damages resulting from installation and use of underground street light cable.

OUTDOOR LIGHTING SERVICE - COMPANY OWNED 250 W HPS LAMP FIXTURE

RECEIVED

MAY 1 1992

AVAILABILITY:

To any customer at any point on Company's secondary distribution lines.

MO. PUBLIC SERVICE COMM.

APPLICATION:

To unmetered automatically controlled outdoor lighting service burning all night. Company will install, own, operate and maintain lamp fixtures, including any necessary lamp replacements. All necessary service, maintenance and lamp renewals will be furnished at Company's expense as soon as practical following notice by consumer.

Not applicable for seasonal service. Applicable to temporary service when the Customer pays in advance of construction the estimated gross cost of providing, installing and removing the temporary facilities required to provide service less the estimated salvage value of such facilities upon removal.

NET MONTHLY RATE

250 watt high pressure sodium lamp

\$10.01

The above charge is applicable when lamp fixture is installed on the existing pole and connected to an existing secondary circuit. The Company will extend its secondary conductor one span not to exceed 175 feet in length and install one wood pole including guy and anchor where needed for an additional ONE-TIME charge of \$5.00. If it is necessary to install a transformer for an outdoor lighting service, the monthly rate shall be increased by \$2.60/month.

TAX ADJUSTMENT

There shall be added to the Customer's bill, as a separate item, an amount equal to the proportionate part of any license, occupation, franchise, or other similar fee or tax now or hereafter imposed upon the utility by an municipality or other governmental authority.
