47.2.1 Call Waiting

Missouri
Public Service Commission

Alerts a customer using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call by dialing a code. Call Waiting is automatically reactivated for the next originating or terminating call.

47.2.2 Call Forwarding

Enables the customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded.

47.2.4 Speed Calling

Enables a customer to place calls to other telephone numbers by dialing a code rather than the complete telephone number. The 8-code capacity and/or the 30-code capacity may be provided on the same line; however, duplicate code capacities may not be provided. The combination of code capacities is not available on multiline hunting lines.(1)

This service was classified as competitive effective May 14, 1993.

47.2.5 Call Return

Enables the customer to automatically redial the telephone number of the last incoming call. If that telephone number is busy, the Telephone Company's equipment will keep trying to call the number being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of Call Return, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

47.2.6 Auto Redial

Enables the customer to automatically redial the last outgoing telephone number. When the recalled telephone number is busy, the Telephone Company's equipment will keep trying to call the number being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of Auto Redial, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

47.2.7 Priority Call

Provides the customer with a distinctive ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify the telephone number screening list by dialing a unique code. The Telephone Company's equipment will screen incoming calls against the screening list and provide a distinctive ring for telephone numbers on the list.

47.2.8 Call Blocker

Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Telephone Company recorded announcement.

47.2.9 Call Trace

Enables the customer to initiate a trace of the origin of the last incoming call by dialing an activation code. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer should follow the instructions received after a successful trace activation.

Enables a customer who has also subscribed to Call Forwarding (described in Paragraph 47.2.2) with the ability to transfer incoming calls simultaneously between switching entities. The number of calls transferred simultaneously is limited to the number of hunting lines/trunks subscribed to by the customer at the originating end. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the equipped line and the telephone number to which the call is being forwarded. Simultaneous Call Forwarding is limited to customers served by No. 1 or 1A Electronic Switching Systems and may be established only on another line which is not part of the hunting group.

47.2.12 Call Forwarding - Busy Line

Allows incoming calls that encounter a busy condition to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

47.2.13 Call Forwarding - Don't Answer

Allows incoming calls which are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

47.2 SERVICE DESCRIPTIONS-(Continued)

47.2.16 Personalized Ringsm

- A. Allows a customer to establish up to three telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ring. The billing telephone number is called the Primary Number and additional associated telephone numbers are called Personalized Ring Numbers. A customer may subscribe to a maximum of two Personalized Ring Numbers. The standard ringing pattern is provided for the Primary Number. Distinctive ringing is provided for each Personalized Ring Number.
- B. In addition to the regulations provided in Paragraph 47.1, the following additional regulations apply:
1. The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Services section of this Tariff. No additional call allowances are provided with Personalized Ring.
 2. A directory listing is provided for each telephone number associated with Personalized Ring Service. NonListed Service and NonPublished Service is available for all telephone numbers associated with Personalized Ring. NonListed Service rates and NonPublished Service rates shown in the Directory Services section of this tariff apply to the Primary number only. There is no charge for NonListed Service or NonPublished Service furnished for Personalized Ring numbers.
 3. Additional listing rates and Residence Signature Listing rates shown in the Directory Services section of this Tariff apply to Primary and Personalized Ring numbers.
 4. If a customer requests a change in the listings for telephone numbers associated with Personalized Ring Service, the Directory Listings Service Connection Charge specified in the Directory Services section of this tariff is applicable.
 5. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.

- 6. Personalized Ring customers who subscribe to Call Forwarding can choose one of two forwarding arrangements. The first arrangement forwards the Personalized Ring number(s) along with the Primary number when it is forwarded. The second arrangement provides no forwarding of the Personalized Ring number(s). A forwarding arrangement must be selected at the time Personalized Ring is ordered. If a customer later requests a change in forwarding, the Personalized Ring Service Connection Charge will apply.
- 7. If a customer requests a number change for a Personalized Ring number, the Personalized Ring Service Connection Charge applies. If a customer requests a number change for the Primary number, the Service and Equipment Charge specified in the Local Exchange Tariff is applicable.

47.2.17 ComCallSM

- A. Enables single line customers to set up internal (intercom) communications between multiple telephone extensions. By dialing a code and hanging up the telephone handset, the code activates distinctive ringing to alert intercom users of an intercom call.
- B. In addition to the regulations provided in Paragraph 47.1, the following regulations apply:
 - 1. Three-Way Calling is necessary for the operation of ComCall. (See Paragraph 47.4 for Three-Way Calling rates.)
 - 2. If ComCall and Call Waiting are on the same line, the Call Waiting feature is deactivated for the duration of the intercom connection. During this time, an incoming call will receive a busy signal.
 - 3. Some customer-provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.

47.2.18 Caller ID Service

A. Caller ID Service is the general category of the following services which assist customers in the management of incoming calls:

1. Calling Number Delivery - Provides for the transmission of Calling Party Number (CPN) to the customer's access line(s). When the equipped line is on-hook, the CPN is transmitted across the line during the silent interval between the first and second ring. Caller ID customers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.
2. Calling Name Delivery - Enables the terminating customer to identify the calling party by a displayed name before the call is answered. The displayed name is the name associated with the CPN. Calling Name Delivery subscribers must provide and connect their own compatible CPE to process the Calling Name Delivery transmission. Some call information may be blocked or otherwise not displayed, including information for some calls originating outside of AT&T's network and calls carried over facilities that do not transmit Caller ID information.

B. In addition to the regulations provided in Paragraph 47.1, the following additional regulations apply:

1. Any Southwestern Bell Telephone calling party may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.
2. If the calling party activates blocking, the name and/or number will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of their name and telephone number.
3. Line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with Southwestern Bell Telephone a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. 47.3 APPLICATION OF RATES AND CHARGES

**MISSOURI
Public Service Commission**

47.3.1 The Telephone Company may, during certain promotional periods, waive or discount the Service & Equipment Charge and/or monthly rates as provided for in Section 17 of the General Exchange Tariff.

47.3.2 The rates are in addition to the established rates for the associated services.

47.3.3 Moves and Changes

- A. The Service and Equipment Charge will apply per line when changing Speed Calling from the 8-code capacity to the 30-code capacity, or vice versa.
- B. A Service and Equipment Charge will apply per line when the Speed Calling codes are changed by the Telephone Company at the customer's request.
- C. Relative to Call Forwarding - Busy Line and Call Forwarding - Don't Answer, the Service and Equipment Charge will apply per line when the forwarded number and/or the customer designated number of rings is changed at the customer's request.
- D. A Service and Equipment Charge will apply per line when the customer's telephone number is changed for the customer's convenience.
- E. The Service and Equipment Charge does not apply for outside moves of service if there is no telephone number change.

47.3.4 When a single service is ordered, the "first" monthly service rate applies. When multiple services are ordered, one "first" monthly service rate applies and the "additional" monthly services rate applies to the remaining services. The services are listed in priority order, (i.e., if multiple services are ordered, they will be priced in the sequence order as listed in Paragraph 47.4.)

47.2.22 Internet Caller ID Service(1)

- A. Internet Caller ID Service allows a customer to be notified of an incoming call via a pop-up dialog box on their personal computer while logged on to the Internet. The customer will see the Caller ID information and will have the following disposition options available for handling the incoming call.
1. Taking the call.
 2. Sending the call to CallNotes® (when available).
 3. Redirecting or forwarding the call to another telephone number.
 4. Responding with an announcement. The customer will be able to select from two different announcements that may be played to the calling party. The first announcement will inform the caller that the called party is busy and instruct the caller to call back later. The second announcement will inform the caller that the called party is busy, but will call them back later.
 5. Ignoring the call.
- B. In addition to the regulations provided in paragraph 47.1, the following additional regulations apply:
1. Customers must also subscribe to Calling Name Delivery and Calling Number Delivery.
 2. Customers wishing to route new calls to a voice mailbox must also subscribe to voice mail and the appropriate Call Forwarding service.
 3. Customers wishing to redirect or forward the caller to a voice mail system other than CallNotes® will be responsible for programming their alternative voice mail system's terminating number (as one of their forward-to number selections).

- (1) Internet Caller ID is obsolete, except for existing customers at existing locations who subscribe to the service prior to June 30, 2003. This service will be withdrawn effective December 31, 2003.

47.2.23 Distinctive Ring

A. Description

Distinctive Ring permits a residence customer to designate a distinctive ring on up to 5 telephone numbers from which calls have been forwarded. The customer will designate the distinctive ring telephone numbers on the initial service order. The customer may designate distinctive ring for calls forwarded from a cellular service. Forwarded calls will activate the distinctive ring pattern, while retaining any characteristics present with the original incoming call, such as Caller Name and Number.

B. Service Interactions

1. Privacy Manager and Anonymous Call Rejection will take priority over Distinctive Ring on lines equipped with these features.
2. If the forwarded call is "unknown" and the customer has Privacy Manager, then Privacy Manager will take priority and intercept the call, the call will be completed without the distinctive ring tone.
3. If the customer subscribes to Call Waiting, a distinctive ring tone is heard on the forwarded call.
4. The customer must call the Business office to change the designated Distinctive Ring number.

47.3 APPLICATIONS OF RATES AND CHARGES

47.3.5 The Telephone Company reserves the right to periodically provide certain EasyOptions services without charge to customers in return for their participation on a consumer panel. The consumer panel will be established for the purpose of gathering market research. The Service and Equipment Charges and recurring monthly rates will be waived only for the EasyOptions services designated by the Telephone Company as pertinent to the research and only for the duration of the consumer panel and the customer's participation on that panel. As a condition to participation on the consumer panel, customers will be obligated to provide specific feedback (e.g., respond to surveys, participate in focus groups, etc.) concerning the services to the Telephone Company. Panel participants will be selected by the Company to represent a cross section of Missouri customers.

47.3.6 Beginning on January 1, 1995, and continuing until disbanded or December 31, 1996, whichever occurs first, the Telephone Company will provide the following services to customers participating on a consumer panel subject to conditions specified in Paragraph 47.3.5.
