    6.1   <u>CLASS Service</u> (Cont'd)

        B.   Descriptions of CLASS Features (Cont'd)

           3.   Customer-Originated Trace (COT) – Allows the customer to originate a trace on the last incoming call by dialing an activation code. The call is traced automatically, and the identity of the originating directory number and the time the call was made is forwarded to a predetermined location. Information recorded will be released by the Company only to an authorized representative of a law enforcement agency and, in no event, other than as provided by applicable state and federal law. If the customer makes or receives another call or if the call waiting feature is activated prior to activating the trace, COT will not record the correct number. Touch tone service activation code *57. Rotary service activation code 1157. This feature is only compatible with calls originating in and terminating to a network equipped with the appropriate signaling connections.

           4.   Customer Originated Trace Usage Sensitive (COTU) – Allows customers to be billed for Customer Originated Trace on a usage sensitive basis, where facilities permit.

    6.1   CLASS Service (Cont'd)

        B.   Descriptions of CLASS Features (Cont'd)

           5.   Calling Party Identity (CPI)   (D)

           Allows customers to receive the calling number and calling   (N)
name on incoming calls. The CPI will not be displayed if the call
originates from an area that does not have the appropriate
network signaling connections. The CPI may also not be
displayed on calls made from most cellular phones, calls made
through some interexchange carriers, and calls originated from
other local exchange carriers. CPI for calls originated from a
PBX will display the main PBX number only. If the caller's
number is a multi-party line, or is blocked, the CPI will not be
displayed.

Telephone numbers or names transmitted via CPI may not be
sold or given to another party without the caller's consent.
Calling number and name information may only be used for: a)
routing or completion of calls, b) billing of calls, c) account
management purposes, d) services directly related to the call or
transaction, e) verification of calling party identity and f)
marketing products or services that are directly related to those
previously acquired by the customer from the number delivery
services subscriber. CPI customers failing to comply with any of
these conditions will have their service terminated.   (N)

    6.1   <u>CLASS Service</u> (Cont'd)

        B.   Descriptions of CLASS Features (Cont'd)

            6.   Calling Party Identity Delivery Blocking (CPIB)-Allows the   (N)
customer to prevent the delivery of CPI on a per call basis or per
line basis whether or not CPI is subscribed to or available. Per
call blocking is provided to all customers without charge and is
activated by dialing an activations code (*67) from a touch tone
phone or 1167 from a rotary phone immediately prior to placing a
call. Activation is initiated for one call only.

                Per line blocking will automatically block delivery of the CPI on
all calls. Per line blocking is available upon request, at no
charge, to established shelters of domestic violence intervention
agencies, state and county departments of human resource
shelters, law enforcement agencies, their employees and
volunteers, or individuals where it is certified that the personal
safety of these employees or individuals will be jeopardized
without CPI blocking. The CPI will not be transmitted from a
line equipped with this feature.   (N)

            7.   Anonymous Call Rejection (ACR) – Allows customer to reject   (T)
calls for which call name/number has been intentionally blocked.
Rejected calls are sent to a recording. This feature is only
compatible with calls originating in and terminating to a network
equipped with the appropriate signaling connections. This
feature is available only where switching equipment is
compatible.

OPTIONAL SERVICES AND FEATURES

6.   Optional Services and Features (Cont'd)

6.1   CLASS Service (Cont'd)

B.   Descriptions of CLASS Features (Cont'd)

8.   Selective Call Forwarding (SCF) – Allows customer to have certain   (T)
terminating calls forwarded to a designated remote directory number.
This activity occurs when a call is received from a directory number
which has been indicated on a list of up to 32 numbers. Terminating
calls which are from telephone numbers that are not on the list are given
the standard terminating treatment. To access menu via touch tone
service dial *63; rotary service dial 1163. This feature is only compatible
with calls originating in and terminating to a network equipped with the
appropriate signaling connections.

9.   Selective Call Rejections (SCR) – Allows customer to define a list of up   (T)
to 32 calling directory numbers to be screened. Any calling numbers on
this list are routed to announcements and rejected. All other calls are
treated normally. To access menu via touch tone service dial *60; rotary
service dial 1160. This feature is only compatible with calls originating in
and terminating to a network equipped with the appropriate signaling
connections.

10.   Call Waiting Calling Party Identity – Provides the customer with the   (T)
"Calling Party Identity" of a caller attempting to reach the customer while
the customer is on another call. This service requires the customer to
also have Call Waiting and Calling Party Identity to operate.

11.   Selective Call Acceptance (SCA) – Allows customers to define a list of   (T)
up to 32 directory numbers from which calls will be accepted. Any calling
numbers that are not on that list are routed to a recording and rejected.
To access menu via Touch Tone dial *64; rotary service dial 1164. This
feature is only compatible with calls originating in and terminating to a
network equipped with the appropriate signaling connections.

12.   Distinctive Ringing Call Waiting (DR/CW) – Allows customer to define a   (T)
list of up to 32 calling directory numbers that will be signaled by a
distinctive ring or call waiting tone (short-long-short). Any calling
numbers not on that list will be signaled by the normal ring. To access
menu via Touch tone dial *61, rotary code 1161. This feature is only
compatible with calls originating in and terminating to a network
equipped with the appropriate signaling connections.

OPTIONAL SERVICES AND FEATURES

6.   Optional Services and Features (Cont'd)

   6.1   CLASS Service (Cont'd)

      B.   Descriptions of CLASS Features (Cont'd)

         13.   Privacy Control – Privacy control allows customers to use a web-based   (T)
                portal to manage telephone service and selectively intercept
                telemarketers, unknown numbers and calls that have their number
                blocked from displaying on Caller ID unless they have a 4 digit PIN
                override access number.

         14.   Do Not Disturb – Do Not Disturb allows customers to designate quiet   (T)
                times when callers will be blocked from calling unless they have a 4 digit
                PIN override access number.
