Capacity Charge Definition and Purpose:

A Capacity Charge is a charge employed to assign to future customers the capital cost responsibility of backbone facilities, such as treatment facilities, lift stations, and major trunk sewers providing capacity that is available for and caused by future customers. This Capacity Charge is a charge applied in addition to the Connection Charge addressed in Rule 4.

Determination of The Capacity Charge:

The appropriate Capacity Charge shall be determined by the following schedule of Capacity Charges or by the terms of a written contract governing the rendering of service to a commercial premise.

Schedule of Capacity Charges:

- (1) Single Family Residence: \$1,500
- (2) Mobile Home: \$1,435
- (3) Multi-Family Apartment (per unit): \$1,369
- (4) Commercial Premise (per unit): Capacity Charge is based on the multiplication of \$4.05 per gallon per day, by the estimated water consumption, as determined from the Estimated Daily Water Consumption Table below:

Taverns, Bars, Cocktail Lounges	gallons per seat	10	*
	Gallons per bar stool	10	*

The Capacity Charge for any commercial customer not of a type listed in the above table shall be determined individually based on quantity of flow and strength of waste.

The Capacity Charge for a commercial premise may be adjusted to conform to actual water usage after the first full year of commercial operations. The customer may request such an adjustment within two years of connecting to the Company's collecting sewer. Failure to request in writing an adjustment within this period shall establish the Capacity Charge paid for a commercial premise as the proper Capacity Charge for that commercial premise.

Determination of When Payment of the Capacity Charge is Due:

The Capacity Charge is due and payable at the time of application for service.

Taxes:

All applicable Federal, state and local taxes shall be added to the above charges.

CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge in the amount of twelve dollars (12.00) will be assessed to cover the cost of processing this transaction.

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option, when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the Customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

Rule 1 DEFINITIONS

MO. PUBLIC SERVICE COMM

- (a) The "COMPANY" is GARY L. SMITH d/b/a INCLINE VILLAGE SEWER acting through its officers, managers, or other duly authorized employees or agents.
- (b) The "CUSTOMER" is any person, individual, partnership, association, corporation or governmental body which has contracted with the Company for sewer service or is receiving sewer service from the Company, or whose facilities are connected for utilizing sewer service.
- (c) The word "UNIT" shall be used herein to define the standard user or property served and shall include mobile homes or any building, residential, commercial, or industrial, owned or leased and each unit of any multi-unit structure.
- (d) A "COLLECTING SEWER" is a pipeline, including force lines, gravity sewers, interceptors, laterals, trunk sewers, manholes, lampholes and necessary appurtenances, including service wyes, which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage waste from the Customer's service connection to the point of disposal.
- (e) A "CUSTOMER'S SERVICE SEWER" is a pipe with appurtenances installed, owned and maintained by the customer, used to conduct sewage from the customer's premises to the collecting sewer, excluding service wyes or saddles.

Rule 1 DEFINITIONS (continued)

MO. PUBLIC SERVICE COMM

- (f) A "SERVICE CONNECTION" is the connection of a service sewer to the Company collecting sewer either at the bell of a "Y" branch or the bell of a saddle placed on the barrel of the collecting sewer.
- (g) The "DATE OF CONNECTION" shall be the date the permit for a service connection is issued by the Company. In the event no permit is taken and a service connection is made, the date of connection shall be determined based on available information, such as construction/occupancy permits, or water or electric service turn-on dates.
- (h) "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal household activities.
- (i) "NON-DOMESTIC SEWAGE" is all sewage other than domestic sewage including, but not limited to, commercial or industrial wastes. (See Rule 6 pertaining to Improper Waste and Excessive Use.)
- (j) A "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.
- (k) "PH" is the relative degree of acidity or alkalinity of water as indicated by the hydrogen ion concentration. PH is indicated on a scale reading from 1-14, with 7 being neutral, below 7 acid, and above 7 alkaline; more technically defined as the logarithm of the reciprocal of the hydrogen ion concentration.

Rule 4 APPLICATIONS FOR SEWER SERVICE

(a) A written application for service, signed by the customer and accompanied by the appropriate fees and other information required by these rules and regulations, must be received from each Customer before service is provided to any premises. Said application must state the name of the owner of said premises and, in the case of a commercial or industrial Customer, must also state the quantity and strength of effluent to be discharged from said premises into Company's sewer system. Every Customer, upon signing an application for any service rendered by the Company or upon taking of service, shall be considered to have expressed consent to the Company's rates, rules and regulations. The Company shall have the right to refuse service for failure to comply with the rules and regulations herein, or if the customer owes a past due bill not in dispute for sewer service at any location within the Company's area. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract specifying a reasonable period of time for the Company to provide the service. The Company shall notify the owner of property served and what the Company's billing rules are.

(b) A commercial or industrial Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company's lines, giving the location of any buildings. The Company will then advise the Customer of the form and the character of the waste water collection facilities available.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

- (a) The Customer will provide the service sewer at his expense and risk. As a condition of service, inside requirements of all governmental units having jurisdiction and the Company's rules and regulations must be met at the time of connection to the system. The Company may deny service or may discontinue service where footing drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.
- (b) A separate and independent Customer service sewer shall be required for every building, except when one building stands at the rear of another building on an interior lot where no private service sewer is available and cannot be constructed to the rear building through an adjoining alley, courtyard, or driveway; in that situation, the Customer's service sewer from the front building may be extended to the rear building and it will be considered as one Customer's service sewer.
- (c) Existing service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE MO. PUBLIC SERVICE COMMISSION
SEWER (continued)

- (d) The Customer's service sewer shall be one of the following: cast iron soil pipe, ASTM specification or equal; vitrified clay sewer pipe, ASTM specification or equal; PVC, ASTM specification or equal; or other suitable material approved by the Company. Joints shall be tight and waterproof. Any part of the Customer's service sewer that is located within ten (10) feet of a water service pipe shall be constructed of cast iron soil pipe with leaded joints. Cast iron pipes with leaded joints may be required where the Customer's service sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's service sewer shall be of cast iron soil pipe, but nonmetallic material may be accepted if laid on a suitable bed or cradle as approved by the said Company.
- (e) The size and slope of the Customer's service sewer shall be subject to the approval of the Company, but in no event shall the diameter be less than four (4) inches. The slope of such four (4) inch pipe shall not be less than one-eighth (1/8) inch per foot.
- (f) Whenever possible the Customer's service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall. The depth shall be sufficient to afford protection from frost. The Customer's service sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipes and fittings.

SEWER (continued)

- (g) In all buildings in which any building drain is too low to permit adequate gravity flow to the collecting sewer, sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used.
- (h) All excavations required for the installation of a Customer's service sewer shall be open trench work unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published engineering specifications of the manufacturer of the materials used and all applicable local plumbing codes, except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.
- (i) The connection of the customer's service sewer into the collecting sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's collecting sewer is vitrified clay pipe of 12" diameter or less and there is no properly located "Y" branch at a suitable location, a "Y" branch shall be installed at a location specified by the Company. If the Company's collecting sewer is greater than 12" in diameter, or is PVC of any size, a neat hole may be cut at a location specified by the Company, and a saddle installed

Rule 9 BILLS FOR SERVICE (continued) MO. PUBLIC SERVICE COMMISSION

- (g) The Company shall have the right to render bills monthly in advance and such bills shall be due and payable on the due date indicated on the bill. The Company shall have the right to charge Customers on a monthly basis in arrears when the sewer charges are based on water usage.
- (h) Neither the Company nor the Customer will be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.
- (i) All bills for sewer service become delinquent after the due date stated on the bill. Service may be discontinued thirty (30) days after written notice by certified mail from the Company. The Company shall have the right to charge to the customer's account reasonable costs and fees incurred in collecting the delinquent amount.
- (j) When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the monthly charge, or where water usage is the basis for the charge, at the appropriate rate for water used, or a proportionate part of the residential rate, whichever is applicable. Customers terminating with less than one month's service shall pay not less than the monthly minimum.
- (k) If a Customer is a tenant, the Company may require the owner of the property to be ultimately responsible for payment of bills for service, provided the Company has made reasonable and timely efforts to collect bills due from the Customer. All notices of delinquent bills or disconnection shall also be sent to the owner of the property.

RULE 11 Extension of Collecting Sewers

A. This rule shall govern the extension of collecting sewers by the Company in areas where there are no collecting sewers in the streets and/or roadways. The Company will extend its collecting sewers along streets or roads within its certified area to serve new customers under the following terms and conditions:

1. Upon receipt of written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required, including manholes, cleanouts, lift stations, reconstruction of existing sewers (if necessary), and the direct costs associated with supervision, engineering, permits, and bookkeeping. Applicable income tax cost will be added to this estimate calculated at the maximum rate.
2. Applicant(s) shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution in-aid-of construction equal to the amount determined in A.1, plus the appropriate customer connection fee(s). Applicant(s) shall have the option of installing the main extension under the provisions of Rule 12B in lieu of entering into said contract.

RULE 11 Extension of Collecting Sewers (continued)

- 3. If, as a result of reasonably unforeseen circumstances, the actual cost of the extension exceeds the estimated cost of the extension, the Applicant(s) shall pay the added cost.
- 4. The cost to an Applicant or Applicants connecting to a sewer that was contributed by other Applicants shall be as follows:
 - (a) For single-family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension (including income taxes) by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing mains shall be excluded.
 - (b) For single-family residential Applicants that are applying for service in areas that are unplatted in subdivision lots, the Applicants' cost shall be equal to the total cost of the extension divided by the total length of the extension in feet times 100 feet.
 - (c) For industrial, commercial, or multi-family residential Applicants, the cost will be equal to the amount calculated for a single-family residence in Paragraphs 3a or 3b above multiplied times a water usage factor.

MO. PUBLIC SERVICE COMM

RULES AND REGULATIONS FOR CUSTOMERS SERVED BY THE PRESSURIZED COLLECTION SYSTEM

- A. Rates schedules as incorporated in these rules and regulations, and rules not applying specifically to gravity sewers are hereby incorporated by reference and shall be applicable to pressure sewer Customers.
- B. Definitions
 - 1. "Pump Unit" - A self contained device which grinds solids or separates solid from liquid waste, retaining the solids or reducing them so they may be pumped with the liquid waste under pressure to collecting sewers. The device also contains level controls for interim storage of liquid waste and intermittent pump operation as a function of liquid level with appropriate malfunction alarms, pressure controls and check valves to insure cooperative operation with similar units.
 - 2. "Repairable Parts" - One motor, one pump, one liquid level control, one heater, if applicable, one pressure-release valve, two check valves, one gate valve and one alarm system.
- C. All components utilized in a pump unit must be either purchased from the Company or meet its specifications which shall be on file at the Company's office.
- D. The Customer must furnish at his own expense, one pump unit or equal of suitable capacity which must either be furnished through or be approved by the Company prior to installation on the Customer's premises. Installation costs of the pump unit, electrical service and service sewers between the dwelling and the pump unit at Company's collecting sewers shall be the responsibility of the Customer. Electricity costs for pump operation shall be the responsibility of the Customer.

- E. The Company will locate the point to which the service connection will be made and the Customer shall furnish materials for connection from the pump unit to the Company's collecting sewers, which shall be located in a public street or easement. All taps are to be done by the Company. Application, accompanied by any authorized service line tap fee, must be filed in writing 24 hours in advance, stating the street, house number, name of applicant, name of property owner and time at which tap is to be made, and the Company shall not be required to supply sewer service unless this condition is met. One connection shall not service more than one property without the written consent of the Company.
- F. Upon the installation of any pump unit a stop cock shall be placed on the Customer's service sewer within three (3) feet of the Company's collecting sewer. Said stop cock shall include a provision for locking said stop cock in the closed position. Said stop cock will be furnished, owned and maintained by the Company.
- G. In all cases of discontinuance of sewer service pursuant to the Company's approved rules, sewer service may be disconnected by the Company by locking the stop cock in the closed position. Service shall not be resumed again except upon payment of all delinquent charges, plus any applicable approved service charge to cover the costs of effectuating resumption of service.
- H. The gravity service sewer from the building to the pump unit, the tank, and the pressure service sewer from the pump unit to the collecting sewer shall be owned and maintained by the Customer.

MO. PUBLIC SERVICE COMMISSION

RULE # 12 (continued)

- I. The Company shall perform two preventive maintenance calls per year on each pump unit in service. Normally, these will be made in the spring and fall seasons. Preventive maintenance shall consist of the following work:
 - 1. Pull and clean liquid level control device,
 - 2. Run controls, including alarm system, through one complete cycle,
 - 3. Check pressure release valve and check valves for proper operation. Clean or replace as necessary,
 - 4. Check, and if necessary, remove solid waste from tank,
 - 5. Check heater for proper operation where applicable.
- J. For every 100 pump units in service, the Company shall have on hand two pumps, two pump repair kits, two motors, five (5) liquid level control units, and an adequate supply of check valves and pressure valves.
- K. The Company shall be responsible for maintenance of the repairable parts, and shall perform emergency repairs on said parts. At the Company's option, an emergency service call may constitute a preventive maintenance call if a reasonable amount of time has elapsed since the last preventive maintenance call, and if all other maintenance checks are performed.
- L. Preventive maintenance call, service calls for repairable parts, and repairable parts shall be provided at no extra charge to the Customer for replacement or repair of defective parts or parts damaged by lightening. However, the Company shall not be liable for parts or labor necessary for damage caused by misuse of the pump unit.
