SEMI-PUBLIC TELEPHONE SERVICE

The Semi-Public Telephone Service, Section 18 of the General Exchange Tariff, P.S.C. Mo.-No. 35, has been withdrawn, in its entirety, and the contents completely removed.

Issued: January 15, 1997

Effective: April 15, 1997

By KAREN JENNINGS, President-Missouri
Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

General Exchange Tariff Section 18

Replacing ~~in~~ **RECEIVED** Sheet 1

SEMI-PUBLIC TELEPHONE SERVICE

JUN 9 1995

18.1 Semi-Public Telephone Service will be furnished at the rates shown in the Local Exchange Tariff at locations accessible to transients and collective groups of the general public. Semi-Public Telephone Service is furnished at the following types of locations where the customer desires a directory listing and inward service: clubs, fraternal organizations, educational institutions, hospitals, boarding houses, cigar stores, candy stores and other small places of business. Coin Telephone Service is excluded from the provisions of Docket 20828. Therefore the Telephone Company will continue to own and provide terminal equipment associated with Coin and non-Coin Public and Semi-Public Service.

As of January 26, 1992, all public pay phones will be equipped with Touch-Tone Service, where capabilities exist, as mandated in the American Disabilities Act (ADA) 1990.

In addition, volume control is required on 25 percent of all, but not less than one, semi-public telephones per customer location. Rates and charges for the volume control feature are found in Paragraph 18.13 of this Tariff.

- 18.2 Not more than one semi-public telephone will be installed on the same premises except, when in the judgment of the Telephone Company, additional semi-public telephones are warranted.
- 18.3 Semi-Public Telephone Service is furnished on an individual-line basis.
- 18.4 Semi-Public Telephone Service may be furnished as paralleling service to any other business service, at locations chosen by the customer and agreed to by the Telephone Company, where there is sufficient public and customer need to warrant furnishing combinations of these services.
- 18.5 In a location where there is frequent or material use of slugs, or foreign or mutilated coins, and after the customer has been notified that such practice must be discontinued, the customer shall be required to redeem, at the value for which it was tendered, each slug or foreign or mutilated coin found in the coin receptacle.
- 18.6 Semi-Public Telephone Service is not primarily intended for the use of data service. However, some Semi-Public Telephones allow for the connection of a data terminal and for data transmission. The Telephone Company does not guarantee that all data services will be compatible with this service.

Regulations

A Custom Telephone Unit is a combination of electrical and mechanical telephone parts within a customer-provided telephone enclosure assembled to function as a regular telephone instrument.

The Telephone Company assumes no responsibility for maintenance, repairs or replacement of the customer-provided enclosure used with the Telephone Company Custom Telephone Unit.

Ownership of the Custom Telephone Unit will remain with the Telephone Company. The Telephone Company will continue to provide maintenance subject to availability of replacement parts. No new equipment can be purchased by the Telephone Company to provide this maintenance. Customers may not remove or permit others than the Telephone Company to remove Telephone Company Custom Telephone Units from the customer-provided enclosure.

SERVICE CONNECTION CHARGES

19.1 SERVICE CHARGES

19.1.1 General

The charges specified in this Section for the connection, move or change of service, contemplate work being performed by the Telephone Company employees involved at a time when overtime wages do not apply.

If the customer requests that overtime labor be performed at hours of the day or days of the week other than normal work hours or days, or on holidays, or interrupts work once begun, an additional charge based on the additional costs involved applies.

All changes in location of customers' service from one premises to another, except as otherwise provided in this Section, are treated as new service connections with Service Charges applying. For a definition of the term "Premises," refer to Section 8 of this Tariff.

Service Charges are in addition to other rates and charges normally applying under the Tariffs. They apply in addition to construction charges made because of unusual costs in establishing service and are not in lieu of mileage charges.

For regulations covering the payment of Service Charges, refer to Section 17 of this Tariff.

19.1.2 Installment Billing

(CP) (RT)

Residence service charges may be billed in equal amounts over periods not exceeding eight months

Installment Billing allows business customers to negotiate payment of nonrecurring charges for up to four (4) months. Only two such arrangements at any one time will be provided to non-incorporated accounts. This service will only be applicable to those products and services not specified for deferred payment in other sections of this Tariff.

An amount of five dollars (\$5.00) will be applied to the first monthly payment for business customers only for each installment billing arrangement. This charge will only be applied once when multiple orders are issued for one customer, at one location, with one due date.

19.1 SERVICE CHARGES-(Continued)

19.1.3 Premises Work Charges-(Continued)

B. Rules

1. Premises wire may be provided and maintenance performed by either the Telephone Company or the customer and must be in accordance with the technical standards established by the Telephone Company.
2. In the event that the customer provides, maintains or attempts to maintain inside wire, the customer assumes the risk of loss of service, damage to property or death to or injury of the customer or the customer's agent. The customer will save the Telephone Company harmless from any and all liability, claims or damage suits arising out of the customer's wire provision or maintenance activity.
3. The Telephone Company will make the technical standards and installation guidelines for customer provision of inside wire available to customers at designated locations.
4. The Network Interface for the connection of customer premises inside wire consists of a standard jack or its equivalent and is provided as part of the Exchange or Wide Area Telecommunications Service (WATS) Access Line. This Network Interface will be installed at the customer's premises at a location determined by the Telephone Company which is accessible to the customer. The normal location of the Network Interface would be in close proximity to the protector or equivalent where the Telephone Company facilities enter the customer's premises, wherever practicable.
5. Premises Work Charges are based on the cost of recovering the labor and materials used to complete the premises wiring work orders. They apply to all customer-requested installations, moves, changes, removals, rearrangements and replacements of customer premises inside wire performed by the Company on the customer's premises. These charges apply separately for each service call when billable premises work is performed on premises wire.
6. Title to any wire, cable or materials used shall remain with the Company.

D. Definitions (Applicable to this Tariff section only)

1. Billable Premises Work - work performed on a customer's premises by a Company employee or representative at the customer's request and not covered by other charges. This includes work preparation, actual work and cleanup. Any work required to establish or reestablish network access to the Company-provided network interface is excluded.
2. Estimate - a broad statement of expected price which is not necessarily the price the customer will be billed.
3. Intrabuilding Network Cable - cable in a building that extends the outside plant distribution facilities from the building entrance to equipment rooms, cross connection points, or other distribution points.
4. Move - a customer-requested move of premises wiring from one location to another on the same premises.
5. Premises - (See Section 8 for definition).
6. Customer Premises Inside Wire - all wire within a customer's premises including connectors, jacks and miscellaneous materials associated with its installation. Premises wiring is located on the customer's side of the Telephone Company-provided Network Interface. Premises wiring may be installed by the Telephone Company or by others.(1)
7. Rearrangement - work required to unfasten and refasten premises wiring to accommodate a customer's need for temporary relocation of the wire.
8. Service Call - a premises visit or series of visits by an installer for purposes of performing billable premises work requested at one time by the customer or customer's representative.

SERVICE CONNECTION CHARGES

Missouri Public

19.1 SERVICE CHARGES (cont'd)

REC'D NOV 01 2002

19.1.4 Travel Charge(1)

Service Commission

A. Regulations

Travel Charge - applies when a trip to the customer's premises is required to install a network interface or provide service on the Telephone Company's side of the network interface as a result of a customer's request and no other service activity is performed. This includes but is not limited to the installation of a network interface at an existing location or the moving of a protector or aerial drop. The Travel Charge applies for the inside move of a single network interface associated with a single line service. The inside move of a network interface associated with multiple lines or the move of multiple interfaces for the same customer on the same order will be charged as specified in Paragraph 19.2.1.

B. Charges

Time-Sensitive Charge Plan

Nonrecurring Charge

(CT)	- Initial Travel Charge - Residence - First 15 minutes or fraction thereof billable work.....	\$39.50
(AT) (AT)	- Initial Travel Charge - Business - First 15 minutes or fraction thereof billable work.....	42.65(CR)
(CT)	- Additional Travel Charge - Residence - Each additional 15 minutes or fraction thereof billable work.....	14.25
(CT)	- Additional Travel Charge - Business - Each additional 15 minutes or fraction thereof billable work.....	15.35(CR)

19.1.5 No distinction is made between a "New Installation or Connection" and an "Outside Move." All changes in location of customer's equipment or service from one premises to another, except as otherwise provided in this Section, are treated as new service connections with Service Charges applying.

SERVICE CONNECTION CHARGES

19.1 SERVICE CHARGES (cont'd)

19.1.6 Non-application of Service Charges

A. Service Charges do not apply to:

1. Exchange access lines for which no basic exchange rates apply, including public telephones.
2. Service re-established, once, after the destruction or partial destruction of the customer's premises by means beyond the control of the customer, e.g., fire, flood or other acts of God, whether at the same or another location, except as provided pursuant to the Major Disaster Relief Plan as shown in Section 17, Sheet 31 of this Tariff. (1)
3. Changes of telephone numbers and associated listing changes for service reasons or Company-initiated reasons, e.g., continuing annoying and anonymous calls, etc.
4. Any activity required for the proper maintenance of equipment or service.
5. Partial or full disconnection of service.
6. Changing grade of service when customers are upgraded after having to take a lower grade of service initially due to facilities not being available.
7. Restoral of Services suspended at the customer's request. (The appropriate Service and Equipment Charge applies when the service is suspended.)
8. Reassociation of party-line service when the change is made due to Company reasons, e.g., regrouping to maintain party-line fill or clearing cable pair for other service or facility requirement.
9. Orders issued for record purposes.
10. On the "from" portion of work involved in a transfer of service and equipment from one premises to another.

19.1.6 Nonapplication of Service Charges

MISSOURI
Public Service Commission

A. Service Charges do not apply to:

1. Exchange access lines for which no basic exchange rates apply, including public telephones.
2. Service re-established, once, after the destruction or partial destruction of the customer's premises by means beyond the control of the customer, i.e., fire, flood or other acts of God, whether at the same or another location. (1)
3. Changes of telephone numbers and associated listing changes for service reasons or Company-initiated reasons, e.g., continuing annoying and anonymous calls, etc.
4. Any activity required for the proper maintenance of equipment service.
5. Partial or full disconnection of service.
6. Changing grade of service when customers are upgraded after having to take a lower grade of service initially due to facilities not being available.
7. Restoral of Services suspended at the customer's request. (The appropriate Service and Equipment Charge applies when the service is suspended.)
8. Reassociation of party-line service when the change is made due to Company reasons, e.g., regrouping to maintain party-line fill or clearing cable pair for other service or facility requirement.
9. Orders issued for record purposes.
10. On the "from" portion of work involved in a transfer of service and equipment from one premises to another.

19.3.1 General

Public Service Commission
MISSOURI

A. All registered terminal equipment and systems, whether customer-provided or Telephone Company-provided, must be directly connected to the telecommunications network through Telephone Company-provided standard jacks as specified in, or authorized by, the Federal Communications Commission's Registration Program.

(CT)

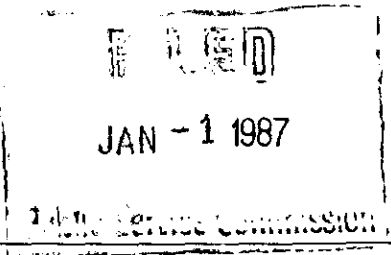

B. The Network Interface is the point of connection where the Telephone Company's installation and maintenance responsibility, on a tariffed basis, ends and the customer's installation and maintenance responsibility begins. It is a Telephone Company-provided jack or its equivalent. See demarcation point in Section 8.

For Standard (non-Key) Services, it is located at the customer's premises as close as possible to the protector and utility entrance at a location which is accessible to the customer. For Complex Services, it is located at a point immediately inside the customer's premises or, where the customer-provided equipment involves "common equipment," at an alternate premises in the same building, if requested by the customer and agreed to by the Telephone Company, and at the end of the network distribution facility, generally within 25 feet (or, with one extension, within 50 feet) of the multiline terminating equipment.

19.3.2 Charges

A. Network Interface Jacks are provided as part of an Exchange Access Line for Standard and Complex Services.

SERVICE LINE SERVICE(1)

20.1 STANDARD ARRANGEMENT

20.1.1 Service lines may be connected with the Telephone Company's facilities in a central office through circuits provided by the Telephone Company at a rate of \$1.10 per month, per line.

20.2 GENERAL REGULATIONS

20.2.1 The primary service area for service lines connected to a central office is the same as that for customers within the exchange in which the service lines are located. Service lines may be connected with only one central office and may not be extended across exchange area boundaries.

20.2.2 Contracts are executed with an agent representing all service line customers on the line, and the agent is responsible for the payment in full of all charges to the account. Contracts are executed with the agent for a period of one year, terminable thereafter upon 30-days written notice. All charges are payable in advance, except toll charges which are payable monthly in arrears.

20.2.3 Under the service line rates shown in Paragraph 20.1.1, the Telephone Company provides pole leads and circuits from the central office to a junction point at or near the initial rate area boundary. Beyond this junction point, customers are required to furnish and maintain the pole lead or both, as the case may be.

EXTENSION SERVICE

RECEIVED
MISSOURI
Public Service Commission

- 21.1 Extension Service provides the user with the capability for originating calls from or receiving calls at locations in addition to the location of the main station where such services are connected to the same exchange access line as the main station.
- 21.2 Extension Service consists of an extension station line. An extension station line consists of wiring on a customer's premises to the jack or outlet of the extension station location other than the inside wiring associated with the telephone jack or outlet of a main station location.
- 21.3 An extension station line component is associated with each Extension Service location to which a customer-provided instrument is connected.
- (CT) 21.4 For charges applicable to circuits between different buildings or different premises, see Section 2 of the Private Line Service Tariff.
- 21.5 Extension Service is furnished in accordance with such standard wiring plans as may be adopted by the Company.
- 21.6 Extension Service is not furnished in connection with Service Line Service as covered in Section 20 of this Tariff.
- 21.7 Extension Service may be furnished in connection with Suburban Line Service provided it is located on the same premises as the main station. Extension Service on suburban lines is provided subject to the right of the Telephone Company to remove such service whenever it interferes with the satisfactory operation of the line.
- 21.8 Separate telephone numbers or other distinctive designations are not assigned to extension stations nor is code ringing permitted. Extension stations are not listed, except as provided in Section 6 of this Tariff, and no additional free listings are allowed in connection with the main station on account of the extension stations.

SUSPENSION OF SERVICE

22.1 CUSTOMER'S SERVICE MAY BE SUSPENDED

22.1.1 By the Telephone Company(l)

A. Residence Service

A customer's service may be suspended for nonpayment of all undisputed, delinquent charges for services furnished the customer, authorized users, and any other charges for which the customer has agreed to be responsible, including but not limited to charges for services originated or charges accepted at the customer's telephone for exchange service; intrastate or interstate long distance service charges billed by the Telephone Company; any FCC-approved end user charge; any charges transferred to the customer's account from terminated accounts billed to the same customer; and charges pursuant to Section 17, Paragraph 17.4., of this Tariff, where the customer has executed a Contract of Guaranty, after a written notice has been furnished to the customer. Basic local telecommunications service may not be disconnected for customer non-payment of a delinquent charge for other than basic local telecommunications service. The customer's written notice shall be sent or delivered to the customer at least ten days prior to the date of the proposed discontinuance. Basic telecommunications service shall not be suspended on a day when the offices of the Telephone Company are not available to facilitate reconnection of service or on a day immediately preceding such day. A customer shall have at least 21 days from the rendition of a bill to pay the charges stated.

SUSPENSION OF SERVICE

RECEIVED

DEC 9 1991

22.1 CUSTOMER'S SERVICE MAY BE SUSPENDED

22.1.1 By the Telephone Company(1)

A. Residence Service

MO. PUBLIC SERVICE COMM.

A customer's service may be suspended for nonpayment of all undisputed, delinquent charges for services furnished the customer, authorized users, and any other charges for which the customer has agreed to be responsible, including but not limited to charges for services originated or charges accepted at the customer's telephone for exchange service; intrastate or interstate long distance service charges billed by the Telephone Company; any FCC-approved end user charge; any charges transferred to the customer's account from terminated accounts billed to the same customer; and charges pursuant to Section 17, Paragraph 17.4., of this Tariff, where the customer has executed a Contract of Guaranty, after a written notice has been furnished to the customer. Notwithstanding the foregoing, the Telephone Company shall not suspend a customer's service for charges not originating with the Telephone Company, interexchange carriers, or other local exchange companies unless otherwise authorized by the Missouri Public Service Commission. The customer's written notice shall be sent or delivered to the customer at least five days prior to the date of the proposed discontinuance. Service shall not be suspended on a day when the offices of the Telephone Company are not available to facilitate reconnection of service or on a day immediately preceding such day. A customer shall have at least 21 days from the rendition of a bill to pay the charges stated except when the customer has had service discontinued by the Company within the last months or where the customer incurs toll or other charges at any time during the billing period which are equal to at least 400 percent of the amount of the deposit or guaranty previously required from the customer, in which case payment may be demanded for the toll charges by a telephone call to the customer followed by written notification of such demand.

At least 24 hours preceding a suspension, the Telephone Company shall make reasonable efforts to contact the customer to advise him of the proposed discontinuance and what steps must be taken to avoid it.

When a customer incurs charges not covered by a deposit or guaranty and evidences an intent not to pay such charges when due, service may be suspended at any time after written notice has been sent, certified mail, to such customer at his last known address and at the address where the service to be suspended is provided. The written notice shall state how a customer has evidenced an intent not to pay charges when due.

(1) For provisions and charges associated with restoring service after suspension, see Section 16 of this Tariff.

SUSPENSION OF SERVICE

22.1 CUSTOMER'S SERVICE MAY BE SUSPENDED-(Continued)

22.1.2 At Their Own Request-(Continued)

B. Temporary Suspension of Customer's Entire Service

- (RT)
1. Complete temporary suspension of service is available to customers for any grade of business and residence service, individual line (flat, measured), party-line and Private Branch Exchange Service, except Service Line Service. Neither outward nor inward service is provided during the period of suspension.
 2. Temporary suspension of service with reduction in charges is permitted for any period of one month or more.
 3. The reduction in rate for the period of suspension is equal to 50 per-cent of the Exchange Service charges, including charges for Directory Listings and mileage.
 4. At the request of the customer, calling parties are advised of the telephone number of a telephone designated by the customer at which he may be reached or his calls received. Customers requesting to initiate, change or discontinue this transfer arrangement during the temporary suspension period will be charged one-half (1/2) of the Service and Equipment Charge for temporary suspension. In view of the possibility of errors, arrangements for advising calling parties of the telephone number of a telephone at which the customer may be reached or his calls received are made with the understanding that the customer assumes all risks in connection therewith, and that no liability attaches to the Telephone Company by reason of failure to complete a particular call.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.1 REGULATIONS

23.1.1 Telephone Answering and Secretarial Service consists of intraLATA facilities and services furnished to business customers enabling them to use their patron's service in the provision of answering and secretarial service to the patron. Such service, as described in Paragraphs 23.1.4 and 23.1.7, may be provided under the following arrangements:

A. One-Way Inward Service

Provides for answering of patron's incoming calls. The Telephone Answering and Secretarial Service cannot place outgoing calls over the patron's line.

B. Two-Way Service

Provides for answering of patron's incoming calls and the placing of outgoing calls over the patron's line. Patron's residence lines may not be used as two-way service.

C. Outward WATS Service

Provides for an extension of the patron's outward WATS line. The patron must submit a letter to the Telephone Company authorizing the Telephone Answering and Secretarial Service to place calls on this line.

23.1.2 Unless otherwise stated herein, the minimum contract period is one month.

23.1.3 The necessary floor space, power, wiring, power outlets and commercial power for the operation of these services are furnished by the customer who assumes all responsibility for the safe condition of such floor space, wiring, outlets and power.

23.1.4 Telephone Answering and Secretarial Service may be furnished to both flat and message rate business and residence customers by the following arrangement:

A. Extension Station Line

Connects the patron's serving office line, Foreign Exchange line, Inward WATS line, Outward WATS line, PBX station lines, Centrex station lines or similar services with facilities located at a telephone answering or secretarial service location. Two-way service will be provided except in the case of Outward WATS lines where only one-way service is provided.

Issued: December 29, 1983

Effective: January 1, 1984

By R. D. BARRON, Vice President-Missouri
Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.1 REGULATIONS-(Continued)

23.1.4 Telephone Answering and Secretarial Service may be furnished to both flat and message rate business and residence customers by the following arrangements:-(Continued)

B. Secretarial Answering Line

An arrangement whereby patron's main service, Foreign Exchange service or Inward WATS service is terminated at a Telephone Answering and Secretarial Service location. Two-way service will be provided except in the case of Inward WATS where only one-way service is provided.

C. Secondary Line Termination on Concentrator Unit

An arrangement whereby patron's serving office line, Foreign Exchange line or Inward WATS line is bridged to the concentrator unit, located in the same or a different serving office, in addition to the main point of termination. Only one-way inward service is provided.

D. Primary Line Termination on Concentrator Unit

An arrangement whereby patron's main service, Foreign Exchange service and Inward WATS service may be terminated directly on the concentrator unit in the same or a different serving office. Only one-way inward service is provided.

E. Occasional Telephone Answering Service

An arrangement whereby patron's serving office line is bridged to occasional answering service equipment in the same serving office. Concentrator-Identifier equipment cannot be used in conjunction with occasional service equipment.

F. Alternate Call Number Listings and Secretarial Listings - See the Directory Listings Section of this Tariff.

G. Temporary Suspension of Service at the request of the customer, either partial or complete, is not applicable to equipment provided under this Tariff.

23.1.5 Communication Between the Telephone Answering and Secretarial Service and Patrons

A. Telephone communication between the Telephone Answering and Secretarial Service and its patron may be accomplished in one of the following ways:

1. Through the Local Exchange network.
2. PBX or Centrex station lines from the premises of the patron.
3. Private Lines contracted for by either the answering and secretarial_service or the patron.

1st Revised Sheet 3
Replacing Original Sheet 3

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.1 REGULATIONS-(Continued)

23.1.6 The patron's service may be used only for communication in which the patron has a direct interest.

23.1.7 The Local or Foreign Exchange Telephone Service of a patron extended to a Telephone Answering and Secretarial Service will always be arranged for two-way service except when provided in connection with a Telephone Company-provided concentrator-identifier or electronic concentrator. When the patron's telephone service is extended to a Telephone Answering and Secretarial Service as two-way service, the patron is responsible for all local and long distance charges. A Telephone Answering and Secretarial Service may not originate calls, either local or long distance, over extensions of a patron's residence service even when service has been arranged for two-way operation.

23.1.8 Where it is necessary to provide facilities over and above those normally provided to a Telephone Answering and Secretarial Service location or other specified location that requires unusual expenditures, such costs will be assessed against the Telephone Answering and Secretarial Service.

(RT) 23.1.9 Touch-Tone Calling Service is available with Telephone Answering and Secretarial Service.
(RT)

23.1.10 Outward WATS service of a patron can, after written authorization to the Telephone Company, only be terminated at a Telephone Answering and Secretarial Service as an extension line.

23.2 RATES

23.2.1 Patron Line Termination Charges

A. Extension Station Line

Refer to Section 2 of the Private Line Service Tariff for private line charges applicable to extension station line service.

B. Secretarial Answering Line(1)(2)

The patron will be billed the applicable business or residence rate as provided for in the Local Exchange Tariff or WATS Tariff. In addition, Private Line Charges as specified in Section 2 of the Private Line Tariff may apply.

- (1) Refer to the Service Connection Charges Section of this Tariff for applicable Service Charges.
- (2) Primary Line Terminations are not applicable to customer-provided concentrators.

C. Line Terminations on Concentrator-Identifier

In cases involving connection to Telephone Company-provided concentrator equipment, the patron will be billed the following charges in addition to tariffed charges for the facilities terminated:

Patron located in same serving office as that of the concentrator
- Primary or Secondary Line Termination as specified in this Tariff.

Patron located in different serving office than that of the concentrator
- Primary or Secondary Line Termination as specified in this Tariff, interoffice channel and interoffice channel terminals as specified in Section 2 of the Private Line Service Tariff.

In cases involving connection to customer-owned and maintained concentrator equipment, the patron will be billed the following charges in addition to tariffed charges for the facilities terminated(1):

Patron located in same serving office as that of the concentrator
- Secondary Line Termination as specified in this Tariff, Type 416 local channel as specified in Section 2 of the Private Line Service Tariff. The private line is measured from the patron's serving office or theoretical serving office to the concentrator.

Patron located in different serving office than that of the concentrator.
- Secondary Line Termination as specified in this Tariff, Type 416 local channel measured from the serving office or theoretical serving office to the concentrator, interoffice channel and interoffice channel terminals as specified in Section 2 of the Private Line Service Tariff.

(1) Primary Line Terminations are not applicable to customer-provided concentrators.

23.2.2 Termination of Patron Services

- A. The flat rate or message rate one-party or two-party telephone service of business and residence patrons, PBX or Centrex station lines, secondary line terminations of a patron's PBX trunk line extensions and private lines may be terminated at Telephone Answering and Secretarial Services subject to the availability of suitably registered terminating equipment.
- B. One-party service or two-party service may be terminated in Telephone Company-provided concentrator-identifier or electronic concentrator equipment.
- C. Four-party service, mobile service and private lines terminated in Telephone Company-provided concentrator-identifier or electronic concentrator equipment require Special Service Arrangement Requests.
- D. Rates and charges for exchange telephone service provided to the Telephone Answering and Secretarial Service are specified in the Local Exchange Tariff. When equipment offered in this Tariff is arranged for station switching or call distribution, rates equivalent to Private Branch Exchange trunk rates are applicable.

23.2.3 Telephone Answering and Secretarial Equipment(1)

The Telephone Answering and Secretarial Service will be billed by the Telephone Company for all equipment provided by the Telephone Company located on the Telephone Answering and Secretarial Service premises, and for identifiers and concentrator equipment located in the Telephone Company's serving office.

Section 23
Original Sheet 6

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.2 RATES-(Continued)

23.2.3 Telephone Answering and Secretarial Equipment(1)-(Continued)

A. Concentrator-Identifier Equipment

1. Concentrator-Identifier equipment is available for use in conjunction with compatible switchboard equipment to enable the identification and answering of calls to patrons. The concentrator equipment is normally installed in the same Telephone Company serving office in which the Telephone Answering and Secretarial Service is located. However, at the request of the customer, it may also be installed in Telephone Company serving offices remote from the Telephone Company serving office in which the Telephone Answering and Secretarial Service is located.
2. Where a concentrator is located in a Telephone Company building which has two or more central office codes serving different serving office areas, the Telephone Answering and Secretarial Service will specify which serving office area is to be served by the concentrator. An additional concentrator(s) may be contracted for by the Telephone Answering and Secretarial Service to serve the other serving office area being served by the different switching equipment.(2)

B. Occasional Telephone Answering Service

Occasional Telephone Answering Service equipment as described in this Tariff may be used to facilitate the part-time answering of telephone answering and secretarial patron facilities. Concentrator-Identifier service cannot be used in conjunction with occasional service equipment.

- (1) Refer to the Service Connection Charges Section of this Tariff for applicable Service Charges.
- (2) Patrons connected to the concentrator unit must be located in the same serving office area that the concentrator serves or Private Line charges as described previously in this Tariff and in Section 2 of the Private Line Service Tariff, shall be applicable.

23.3 MOVE AND CHANGE CHARGES

23.3.1 Changes

When changes of patron's lines terminating in Telephone Answering and Secretarial Service equipment are made at the request of the Telephone Answering and Secretarial Service customer, charges for changes will be billed to the Telephone Answering and Secretarial Service customer. When such changes will effect the monthly charges applicable to the patron(s), the Telephone Company will notify each patron before the change is made, so that the patron may elect either to assume the new charges or discontinue the service.

23.3.2 Outside Moves of Telephone Answering and Secretarial Service - A Move to a New Premises

A. In-Service Move

When a Telephone Answering and Secretarial Service requests a move of its system to a new address, and the move is made by the installation of new switchboards, attendants' position, key equipment or identifiers and the removal of switchboards, attendants' positions, key equipment or identifiers at the old location, the Telephone Answering and Secretarial Service will be billed based on cost for patrons' lines terminating in the new system. Existing termination agreements shall be paid, if they have not expired at the old location. Appropriate Service Charges will apply for reterminating all individual central office lines, trunk lines and other circuits(1).

B. Out-of-Service Move

When the Telephone Answering and Secretarial Service requests an out-of-service move of all or part of its attendants' positions and identifiers, it will be given an option of moving the out-of-service portion on a cost basis. This option can be exercised in lieu of paying the outstanding termination charges and Service Charges, as explained in Paragraph 23.3.2, A. The Telephone Answering and Secretarial Service will be billed based on cost for patrons' lines terminating in the new system. The cost of this move will include the cost of making the change in location, including the cost of removing all of the Telephone Company-provided facilities from the old location and the cost of installing the same facilities at the new location. In this case, the existing termination agreement will be made applicable to the new service address.

- (1) The Telephone Answering and Secretarial Service is not given the option to pay for the change in location on a cost basis for an in-service move. Charges will be applied as provided in the Service Connection Charges Section of this Tariff.

Issued: December 29, 1983

Effective: January 1, 1984

By R. D. BARRON, Vice President-Missouri
Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

23.3 MOVE AND CHANGE CHARGES-(Continued)

23.3.2 Outside Moves of Telephone Answering and Secretarial Service - A Move to a New Premises-(Continued)

B. Out-of-Service Move-(Continued)

Concentrator equipment can only be moved on an out-of-service basis during the period covered by the existing termination agreement. The identifier equipment can be moved within the exchange on an out-of-service basis whether or not the termination agreement has expired.

23.3.3 Inside Moves of Telephone Answering and Secretarial Service Equipment - A Move on the Same Premises

A. In-Service Move

In-service moves on the same premises of Telephone Answering and Secretarial Service equipment will be provided on a cost basis only. The cost of the move includes the cost of installing Telephone Company-provided facilities at a new location, including the cost of material, the cost of removal of Telephone Company-provided facilities at the old location, less the salvage value.

B. Out-of-Service Move

Charges for out-of-service moves of Telephone Answering and Secretarial Service equipment on the same premises will be applied in the manner as provided in Paragraph 23.3.2, B.

23.3.4 Retermination Charges

When the Telephone Answering and Secretarial Service requests all of its patron lines be reterminated from a Bell-provided or customer provided concentrator for use in a Bell-provided or customer-provided concentrator, the patron lines will be reterminated, based on cost, and billed to the Telephone Answering and Secretarial Service.

General Exchange Tariff Section 23

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.4 AUTOTAS* CONCENTRATOR SERVICE

23.4.1 General

AUTOTAS Concentrator Service is available to any subscriber who has AUTOTAS premises equipment and a need to concentrate incoming calls to patron's Central Office exchange line(s). The service is provided by the Telephone Company through the use of concentrator(s) located in the Company's Central Office. The concentrator(s) concentrates incoming calls to some number of patron lines to some smaller number of channels connected to the Telephone Answering and Secretarial Service customer's AUTOTAS premises equipment.

AUTOTAS Concentrator Service, upon detecting a ringing signal to the patron's line, will process the call, with unique identification, to the subscriber's AUTOTAS premises equipment.

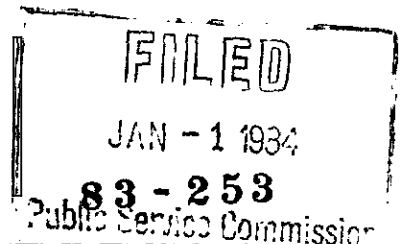

23.4.2 Rules and Regulations

- A. The following rules and regulations are in addition to other rules and regulations as stated in this Tariff.
- B. Provision of this service, or a portion thereof, is subject to the availability and operational limitations of the equipment.
- C. The rates and charges for AUTOTAS Concentrator Service are in addition to the established monthly and nonrecurring charges applicable to services terminated in or used in conjunction with AUTOTAS Concentrator Service.
- D. Channels connecting the concentrator with the customer's premises shall be provided at rates specified in the Private Line Service Tariff.

K. Plan I and Plan II Service

1. As a condition to providing service under Plan I and Plan II, a written Service Application will be required from the customer for the equipment provided.
2. The monthly rates under Plan I will consist of the sum of the Fixed and Variable Rates and will apply from the date the equipment is placed in service. The Fixed Rate will apply only for the selected payment period and will not be subject to changes by the Telephone Company during that period, but remain subject to the regulation of the Public Service Commission. The Variable Rate will apply for the time the equipment to which it applies is in service. Variable Rates are subject to change.
3. In the event that a part or all of the equipment provided under Plan I is disconnected prior to the expiration of the Fixed Rate Term, the customer will be billed the sum of the present worth amount of the Fixed Monthly Rates for the unexpired portion of the Fixed Rate Term.
4. Monthly charges for Plan II apply from the date the equipment is placed in service and are subject to change.
5. Subject to prior written consent of the Telephone Company, service provided under Plan I may be transferred to others upon payment of a transfer charge of \$250.00, provided that the assignment does not require the Telephone Company to remove the equipment provided under Plan I from the premises where located. In addition, the assignee shall establish financial responsibility to the Telephone Company's satisfaction.
6. Additional equipment provided under ~~Plan I~~ ^{Plan I and Plan II} and Plan II may be added, subsequent to the initial installation of the service, upon payment of applicable Installation/Move Charges and subject to conditions and rates then in effect in the Telephone Company's Tariffs. The customer may select any Plan I or Plan II payment option for the equipment added. If a Plan I payment option is selected, the customer will be given a choice of a separate or coterminous Fixed Rate Term. A coterminous Fixed Rate Term will expire within the same billing period as that of the Fixed Rate Term of the Initial Service Application. For the equipment added under a coterminous agreement, Fixed Rates will be adjusted on a present-worth basis.

- 7. All equipment provided on a single customer order and offered under this section of the Tariff under Plan I must be provided under the terms of the same Plan I Fixed Rate Term.
- 8. Plan I customers may elect to prepay all of the unexpired portion of the Fixed Rates during the Fixed Rate Term. The amount billed to the customer will be the present-worth amount of the sum of the remaining monthly payments.
- 9. Plan II customers may elect to change to any Plan I payment period. In this event, initial Plan I Installation/Move Charges will not apply, and the Fixed Rate Term will commence as of the date the customer elects to make the change.
- 10. Where present-worth amount or basis is referred to in regulations stated for this offering, the percentage to be used will be 9 percent per annum.

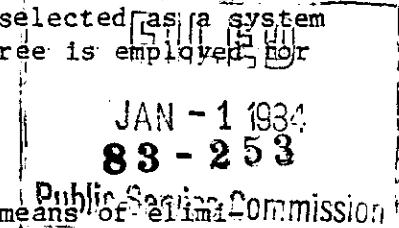

23.4.3 Service Features

Standard

Ring Counting - This feature allows the patron's line to be answered immediately or after three or five rings; an option is also provided for no answer. This allows patrons flexibility in having their calls answered as described. Ring counts may be varied for a patron by time-of-day using the system administrative management console. The no-answer option would be employed for non-24 hour customers and would effectively deactivate their service as desired. ~~CALLS ARE~~ **CANCELLED** displayed to the operator position by the traffic distributor only when the appropriate ring count is reached. If the management console is not selected ^{as a system} option, a nonoptional default ring count of three is employed for all patron lines.

Optional

BY LR 5.14
PUBLIC SERVICE COMMISSION
OF MISSOURI

Patron Line Control - This feature provides a means of eliminating possible interference between the TAS bureau operator and the patron when they both attempt to answer an incoming call that is processed through a concentrator.

23.5 CENTRAL OFFICE CONCENTRATOR SERVICE

23.5.1 General

- A. Central Office Concentrator Service is available to any subscriber who has a need for concentration of incoming calls to patron's central office exchange lines. The service is provided by the Telephone Company through the use of concentrator(s) located in the Company's central office. The concentrator(s) concentrate incoming calls to patron lines to some smaller number of channels connected to the subscriber's premises equipment.
- B. Central Office Concentrator Service, upon detecting a ringing signal to the patron's line, will immediately process the call, with unique identification, to the subscriber's premises equipment. A variable ring count feature whereby the patron's ring count can be changed from the customer premises is also provided. The signaling arrangement employed in processing the call from the concentrator to the subscriber's premises equipment is Standard Bell System Direct Inward Dialing (DID)-type signaling.
- C. Central Office Concentrator Service is available for use in conjunction with compatible equipment located on the subscriber's premises.

23.5.2 Regulations

- A. Channels connecting the concentrator with the subscriber's premises equipment shall be provided at rates set forth in the Private Line Service Tariff.
- B. Patron line terminations on the concentrator shall be billed to the patron by the Company at the monthly rate equivalent to the sum of 1/200th of the rate for the 200 pair Dedicated Cable for Customer Operating Center Service within 1/4 mile (USOC: ILZ2A) plus the monthly rate for a Type 416 Intraexchange Local Channel activated within 1/4 mile (USOC: ILLHZ) as found in the Private Line Service Tariff.

The charge to connect the patron line termination will be billed at the rates set forth in Paragraph 23.4.4, D., of this Tariff.

- C. Central Office Concentrator Service is designed to work with all premises equipment which is capable of receiving Standard Bell System DID-type signaling. However, the Telephone Company does not guarantee the compatibility of Central Office Concentrator Service with any particular manufacturer's premises equipment.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.5 CENTRAL OFFICE CONCENTRATOR SERVICE-(Continued)

23.5.3 Plan I and Plan II Service-(Continued)

- E. Subject to prior written consent of the Telephone Company, service provided under Plan I may be transferred to others upon payment of a transfer charge of \$250.00, provided that the assignment does not require the Telephone Company to remove any of the equipment provided under Plan I from the premises where located. In addition, the assignee shall establish financial responsibility to the Telephone Company's satisfaction.
- F. Additional equipment provided under Plan I and Plan II may be added, subsequent to the initial installation of the service, upon payment of applicable Installation/Move Charges and subject to conditions and rates then in effect in the Telephone Company's Tariffs. The customer may select any Plan I or Plan II payment option for the equipment added. If a Plan I payment option is selected, the customer will be given a choice of a separate or coterminous Fixed Rate Term. A coterminous Fixed Rate Term will expire within the same billing period as that of the Fixed Rate Term of the initial Service Application. For the equipment added under a coterminous agreement, Fixed Rates will be adjusted on a present-worth basis.
- G. All equipment provided on a single customer order and offered under this section of the Tariff under Plan I must be provided under the terms of the same Plan I Fixed Rate Term.
- H. Plan I customers may elect to prepay all of the unexpired portion of the Fixed Rates during the Fixed Rate Term. The amount billed to the customer will be the present-worth amount of the sum of the remaining monthly payments.
- I. Plan II customers may elect to change to any Plan I payment period. In this event, initial Plan I Installation/Move Charges will not apply, and the Fixed Rate Term will commence as of the date the customer elects to make the change.
- J. Where present-worth amount or basis is referred to in regulations stated for this offering, the percentage to be used is the discount rate listed in Section 17.6.5 (Rules and Regulations Applying to All Customer's Contracts, Payments for Service) of the General Exchange Tariff.

Section 23
Original Sheet 22

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.5 CENTRAL OFFICE CONCENTRATOR SERVICE-(Continued)

23.5.4 Type A

A. Description of Service Elements

1. Master Concentrator - The Master Concentrator provides for up to 256 patron line terminations and 16 outgoing channels to the subscriber's premises.

Variable Ring Count is also provided as a feature which allows the patron's line to be answered immediately or after three or five rings; selection is also provided for no-answer. The no-answer alternative would be employed for non-24-hour customers and would effectively deactivate service as desired. Also required for operation with each Master Concentrator, when using the Variable Ring Count feature, are 108-type data sets and a 313B-type channel. If the Variable Ring Count is not desired, the Master Concentrator can be set to answer all patron lines immediately or after three rings, as determined by the customer. All patron lines terminated in the concentrator will have the same ring count, unless the Variable Ring Count is employed.

2. Slave Concentrator - Slave Concentrators must be located in the same Central Office as the host Master Concentrator. Up to two Slave Concentrators can be connected to a Master Concentrator.

Each Slave Concentrator provides for up to 256 additional patron line terminations. When a Master Concentrator and two Slave Concentrators are employed, there is capacity for 768 patron line terminations and 16 outgoing channel terminations.

3. Concentrator Line Card - The Concentrator Line Card provides for connection of up to 32 patron lines to the concentrator/matrix switch. Eight of these cards may be connected for a single 256-line concentrator assembly. This card is used in both the Master and Slave Concentrators.
4. Patron Line Control - Patron Line Control provides capability for the concentrator to transfer control of a completed call from the answering service attendant back to the patron (originally called party) if the patron goes off-hook, thus eliminating any possible interference between the answering service attendant and the patron.

TOUCH-TONE CALLING SERVICE

24.1. GENERAL REGULATIONS

**MISSOURI
Public Service Commission**

24.1.1 Touch-Tone Calling Service provides for the origination of calls by means of instrumentalities equipped for tone-type address signaling. The service is provided utilizing special central office facilities and is furnished subject to the availability of the central office facilities.

24.1.2 The service is furnished in connection with individual and party-line service and semi-public service where facilities are available. The service may be furnished to one or more customers on the same party line.

24.1.3 Where Touch-Tone Calling Service is furnished in connection with party-line service, the monthly rate applies to each Touch-Tone Calling Service customer on the same party line.

24.1.4 Unless otherwise specified herein, the minimum contract period is one month.

24.1.5 All dial-type lines that terminate in an instrumentality equipped for tone-type address signaling shall be equipped for Touch-Tone Calling Service, except for such of those dial-type lines as are served from a central office where the special facilities for Touch-Tone Calling Service are not available. To provide outward-dial capability on such non-Touch-Tone dial-type lines from said instrumentality, a TOUCH-TONE to Dial Pulse Converter is required as provided for in Section 13 of this Tariff.

24.1.6 Other facilities and miscellaneous service offerings requested by customers and not detrimental to this service or other services of the Telephone Company will be furnished in accordance with regulations and at the rates specified in the applicable sections of this Tariff.

(AT) 24.1.7 Touch-Tone Calling Service is not applicable with SmartTrunk Service.
