ADOPTION NOTICE

Effective July 5, 1996, United Telephone Company of Missouri registered the fictitious name Sprint. Effective May 2, 1997, the Articles of Incorporation were amended to change the corporation name to Sprint Missouri, Inc. Sprint Missouri, Inc. d/b/a Sprint, hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Public Service Commission, State of Missouri, by United Telephone Company of Missouri prior to May 2, 1997.

By this notice it also adopts and ratifies all supplements or amendments to any of the above schedules, etc., which the United Telephone Company of Missouri has heretofore filed with said Commission.

WIDE AREA TELECOMMUNICATIONS SERVICE

1. Application of Tariff

This Tariff applies to Intrastate Wide Area Telecommunications Service (WATS) furnished or made available by Sprint Missouri, Inc. d/b/a Sprint, hereinafter referred to as the Company, over service components wholly within, or partly within, the State of Missouri and between points within the State of Missouri.

(T)(D)

(T)(D)

2. General Regulations

2.1 Definitions

The following definitions pertain to WATS:

CHANGE: The substitution of 800 Service for Outward WATS or vice versa.

COMPANY: Sprint Missouri, Inc. d/b/a Sprint.

HUNTING ARRANGEMENT: A grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.

(T)

INTEREXCHANGE CARRIER (IC): Denotes any individual, partnership, association, joint-stock company, trust, governmental agency, corporation or any other entity engaged for hire in intrastate communications by wire or radio, between two or more exchanges, whether on their own facilities or by reselling the facilities or services of others, which subscribes to services offered under the Intrastate Access Service Tariff to provide intrastate telecommunications services for its own use or for the use of its customers (End users).

INTRALATA: Where the originating service point location and the terminating service point location are all within the same Local Access and Transport Area (LATA).

JOINTLY PROVIDED WATS SERVICE: Jointly provided WATS Service is an arrangement between the Company and an IC. This arrangement provides end user billing of intrastate intraLATA Outward WATS or 800 Service usage at the intrastate intraLATA Outward WATS or 800 rates found in this Tariff. InterLATA usage will be billed at the rates of the IC. If the calling scope of the WATS Access Line is limited to calling within the state of Missouri, the WATS Access Lines found in this tariff will be used to provide the intrastate intraLATA portion of the Outward WATS or 800 service.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)

2.1 Definitions (Continued)

LOCAL ACCESS AND TRANSPORT AREA (LATA): Denotes a geographical area established for the administration of communications service. It encompasses one or more designated exchanges which are grouped to serve common social, economic and miscellaneous purposes.

MOVE: A change in location on the same premises of the customer's WATS access line.

MULTILINE TERMINATING SYSTEM: Switching equipment (i.e., PBX, Centrex, ACD, tandem switching equipment) and Key Telephone-type systems which are capable of terminating more than one central office line, WATS access line, Private Line Service or communications system.

NETWORK DATA REPORT: ICs providing 800 service jointly with the Company must provide to the Company an 800 Network Data Report. This report shall reflect all 800 telephone numbers that may originate and terminate in the same state within the Company's territory. Each 800 telephone number provided in the 800 Network Data Report will reflect a ten digit Plain Old Telephone Service (POTS) telephone number (for calls completing on jointly provided WATS Access Line Service) to which the 800 Access Service traffic will complete. This report shall also reflect any time or day sensitive routing information which the Company requires to accurately bill and an indicator of the type of termination that will be used in the completion of the 800 call, i.e., common line, WATS Access Line, or other. The IC is required to provide this report before initial 800 Access Service is established. The IC is required to provide an updated 800 Network Data Report on a weekly basis unless the Company and the IC agree that the IC's 800 service activity requires provision of the report on either a more frequent or less frequent basis. (T)(D)

NON-JOINTLY PROVIDED WATS SERVICE: At the option of the IC providing interLATA service to the end user, the IC may choose to not jointly provide WATS Service with the Company. If the WATS Service is not jointly provided, the Company will bill long distance message rates for intraLATA calls originated on interLATA-only WATS Access Lines. For intraLATA 800 Service calls, the rates found in the Intrastate Access Tariff apply.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)2.1 Definitions (Continued)

OPPORTUNITY 800™ SERVICE: The furnishing of service for the termination of dial-type telephone communication services to a local exchange access line from intraLATA service points within the state of Missouri. An Opportunity 800 Service™ customer is provided an 800 service number which, through translations in the national 800 database is terminated to the customer's local exchange access line.

(N)

SERVICE POINT: When used in connection with customer-provided communication channels or systems, denotes the point on the customer's premises where channels provided by or furnished to the customer are terminated in switching equipment used in the normal mode of operation, for communications with service points or customer premises equipment located on the premises.

(N)

(M)

WIDE AREA TELECOMMUNICATIONS SERVICE (WATS): The furnishing of service for dial-type telephone communications between a WATS access line and intraLATA service points within the State of Missouri. This service is provided only in conjunction with participating IC's for the provision of intrastate WATS or WATS-like Services. The WATS charges set forth in this Tariff are in payment for the intrastate intraLATA service furnished between the originating service and terminating service points. ICs with which the Company will jointly provide intrastate WATS and WATS-like Services are those carriers certificated by the Missouri Public Service Commission in this state. The term WATS refers to both Outward WATS and 800 INWATS) Service unless otherwise specified. The two service offerings (Outward WATS and 800 (INWATS) Service) are defined as follows:

800 (INWATS) SERVICE: The furnishing of service components for dial-type telephone communication to an 800 Service access line from intraLATA toll service points within the State of Missouri in accordance with the regulations and schedules of charges as specified herein, except as provided in the following:

InterLATA dial-type telephone communication to an 800 Service access line provided by the Company is furnished by an IC. Any IC may provide interLATA service using the Company-provided 800 Service access line, subject to the availability and compatibility of the service components of the Company and of the IC.

Since interLATA calls cannot be prevented from reaching an 800 Service number, the customer subscribing to intraLATA 800 Service must also subscribe to an interLATA 800 Service or similar service provided by an IC.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)

2.1 Definitions (Continued)

WIDE AREA TELECOMMUNICATIONS SERVICE (WATS) (Continued)

OUTWARD WATS: The furnishing of service components for dial-type telephone communications from an Outward WATS access line to intraLATA local and toll service points within the State of Missouri in accordance with the regulations and schedule of charges as specified herein, except as provided in the following:

InterLATA dial-type telephone communications from the Outward WATS access line provided by the Company is furnished by an IC. Any IC may provide interLATA service using the Company-provided Outward WATS access line, subject to the availability and compatibility of the service components of the Company and of the IC.

If the subscriber to interLATA Outward WATS does not subscribe to intraLATA Outward WATS, calls made within the same LATA over service components wholly provided by the Company over Company-provided Outward WATS access lines will be billed at charges for toll calls as specified in the Company's Tariffs, and local calls as specified in the governing local exchange carrier's Tariffs.

WATS ACCESS LINE: A line from the customer's premises to a service office which is provided for the purpose of completing intraLATA WATS calls. Each such line will be arranged at the customer's option for either Outward WATS or 800 Service, but not for both.

2.2 Undertaking of the Company

- (A) Transmitting Messages - The Company does not transmit messages but furnishes the use of its services to its customers for communications.
- (B) The design, maintenance and operation of WATS envisions that communications will originate or terminate at a WATS service point for the purpose of communicating with service points in the specified service areas.
- (C) Connections of customer premises equipment or communications systems or IC-premises equipment or communications systems to WATS may be made. However, the Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)2.3 Availability of Service

Service is furnished subject to the availability of the service components required. The Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.

2.4 Liability of the Company

- (A) In view of the fact that the customer has exclusive control of his communications transmitted over the facilities furnished or used by the Company, and of the other uses for which services may be furnished him by the Company and because of unavoidsableness of errors incident to the services and to the use of such facilities of the Company, the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions and limitations herein specified.
- (B) The Company's failure to provide or maintain service under this Tariff shall be excused by labor difficulties, governmental orders, civil commotions, acts of God and other circumstances beyond the Company's reasonable control, subject to the interruption allowance provisions of this Tariff.
- (C) With respect to any claim or suit, by a customer or by any others, for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission or service occurring in the course of furnishing service, channels or other service components, the Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period during which such mistake, omission, interruption, delay, error or defect in transmission or service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the customer under this Tariff as an allowance for interruptions. However, such mistakes, omissions, interruptions, delays, errors, or defects in transmission or service which are caused or contributed to by the negligences or willful act of the customer or which arise from or in connection with the use of customer premises equipment or service components shall not result in the imposition of any liability whatsoever upon the Company.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Cont'd)2.4 Liability of Service (Cont'd)

- (D) The Company shall be indemnified and saved harmless by the customer or customers against claims for libel, slander or the infringement of copyright arising directly or indirectly from the material transmitted over the service components or the use thereof, against claims for infringement of patents arising from combining with, or using in connection with, service components furnished by the Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with service components provided by the Company.
- (E) The Company will not be liable for any consequential, incidental or indirect damages for any cause of action, whether in contract or tort. Consequential, incidental and indirect damages include, but are not limited to, lost projects, lost revenues and loss of business opportunity, whether or not the Company was aware or should have been aware of the possibility of these damages. (N)
- (F) When the services or facilities of other companies or carriers are used in establishing connections to service points not reached by the Company's lines, the Company is not liable for any act or omission of the company or carrier. (N)
- (G) The Company does not guarantee nor make any warranty with respect to service components provided by it for use in an explosive atmosphere. The customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer, or by any other party or person for any personal injury to or death of any person or persons and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said service components so provided. (T)

The Company may require each customer to sign an agreement for the furnishing of such service components as a condition precedent to the furnishing of such equipment.

The customer shall furnish, install and maintain sealed conduit with explosive proof fittings between the service components provided in an explosive atmosphere and points outside the hazardous area where connection may be made with regular service components of the Company. The customer may be required to install and maintain these service components within the hazardous area if, in the opinion of the Company, injury or damage to Company employees or property might result from installation or maintenance by the Company.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Cont'd)

2.4 Liability of the Company (Cont'd)

(H) The charges specified in this Tariff do not contemplate work being performed by the Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.

(I) The Company will make reasonable efforts to cure any material failure to provide service caused solely by year 2000 defects in the Company hardware, software or systems. Due to the interdependence among telecommunications providers and the interrelationship with non-Company processes, equipment and systems, the Company is not responsible for failures caused by circumstances beyond its control, including, but not limited to, failures caused by: 1) the Customer; 2) other telecommunications companies as defined by Missouri statute; or 3) customer premises equipment. In addition, the Company does not ensure compatibility between the Company and non-Company services used by the Customer.

2.5 Limitation of Service

WATS does not include person-to-person, collect, conference or other calls requiring operator handling, except that an operator will reach the called telephone number where service components are not available for customer dial completion.

WATS is not represented as adapted for connection to other services of the Company or to customer-provided systems. The service contemplates the provision of satisfactory transmission only between the access line and the calling or called station. The access line will be terminated only at the customer's premises located in the same exchange of the same state as that for which the rate applies.

2.6 Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

2.7 Suspension and Termination of Service for Cause

(A) The WATS Access Line may be suspended by the Company in accordance with the Missouri Public Service Commission's Rules and Regulations applicable to the Discontinuance of Service and the governing local exchange carrier's General Exchange Tariff. For the purpose of administering this provision, the WATS Access Line is considered business service.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)2.7 Suspension and Termination of Service for Cause (Continued)

- (B) Upon non-payment of any sum due the Company, or upon a violation of any of the conditions governing the furnishing of service, the Company may, by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service. This written notice shall be sent or delivered to the customer five (5) days prior to the date of the proposed discontinuance. If in the judgement of the Company, unusual risk of financial loss exists, service may be discontinued after 48 hours' written notice has been furnished to the customer.
- (C) 800 Service is furnished upon the condition that the customer obtain adequate service to permit the use of this service without injurious effects upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish 800 Service to any customer without incurring any liability if the use of the service would interfere with or impair WATS or any other service rendered by the Company, provided that in the case of a termination of service, at least five days have elapsed following written notification to the subscriber by mail or in person of the Company's intention to terminate the service for such cause.
- (D) The rules and regulations as applied to billing and collection practices for services provided to customers are found in the Rules and Regulations Applying to All Customers' Contracts, Suspension of Service, and Restoration of Service sections (or equivalent sections) of the governing local exchange carrier's General Exchange Tariff.
- (E) The WATS Access Line may not be suspended at the customer's request.

2.8 Use of the Service by the Customer

Service is provided for use by the customer and may be used by others when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Tariff.

2.9 Abuse and Fraudulent Use

Service is furnished subject to the condition that there will be no abuse or fraudulent use of service including, but not limited to:

- (A) The placing or acceptance of a WATS call in response to any long distance message call which was not completed in order to transmit or receive intelligence without the payment of the applicable long distance message charge.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)

2.9 Abuse and Fraudulent Use (Continued)

- (B) The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain WATS by rearranging, tampering with or making connection with any service components of the Company or by any trick, scheme, false representation or false credit device, or by or through any other fraudulent means or device whatsoever with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- (C) The use of the service or service components of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably expected to frighten, abuse, torment or harass another.
- (D) The use of profane or obscene language.
- (E) The use of the service in such a manner as to interfere unreasonably with the use of service by other customers.

2.10 Advance Payments

Applicants for service who do not have an account with the Company or whose financial responsibility is not a matter of general knowledge may be required to make an advance payment at the time of application equal to applicable installation charges, and at least one month's estimated charges for the service desired.

The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the terms of this Tariff.

2.11 Payment of Charges

The customer is responsible for payment of all charges for service furnished. Charges are based on tariffed rates and regulations in effect at the time the service is furnished. Usage charges are billed at the end of the billing cycle. All other recurring charges are billed monthly in advance. All charges are due in compliance with billing and collection practices of the governing local exchange carrier's General Exchange Tariff.

The rules and regulations applicable to billing and collection practices for service provided to customers are in accordance with the Missouri Public Service commission's Rules and Regulations and the governing local exchange carrier's General Exchange Tariff.

WIDE AREA TELECOMMUNICATIONS SERVICE

2. General Regulations (Continued)

2.12 Deposits

The company may require an applicant or a present customer to post a deposit in accordance with the provisions outlined in the Missouri Public Service Commission's Rules and regulations and the standards outlined in the governing local exchange carrier's General Exchange Tariff.

2.13 Defacement of Premises

The Company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of service or the installation of the service components and associated wiring furnished by the Company on such premises or by the installation or removal thereof when such defacement or damage is not the result of negligence of the agents or employees of the Company.

2.14 Theft of Service Components

The customer is required to reimburse the Company for any loss through theft for the service components on the customer's premises.

2.15 Cancellation of Application for Service

Where an application for service is cancelled by the applicant prior to the start of installation of service components, no charge applies.

Where installation of service components has been started prior to the cancellation, appropriate installation charges apply.

2.16 Minimum Contract Period

The minimum contract period is one day.

2.17 Rates for Fractional Periods

Charges for a fractional part of a month will be a proportionate part of the monthly recurring charges based on the actual number of days the service is furnished. To determine charges for a fractional part of a month, every month is considered to have thirty (30) days.

2. General Regulations (Continued)2.18 Maintenance and Repairs

The Company undertakes to maintain and repair the service components which it furnishes to customers. The customer shall be responsible for damages to service components of the Company caused by negligence or willful act of the customer. The customer may not rearrange, disconnect, remove or attempt to repair any service components owned by the Company or the governing local exchange carrier except upon the written consent of the Company.

A nonrecurring Maintenance of Service Charge (MOSC) of \$25.00 or the governing local exchange carrier's applicable tariff, will apply for each repair visit to a customer's premises or the premises of any other customer where the service difficulty or trouble results from the use of customer premises equipment or service components.

2.19 Access to Customers' Premises

The agents and employees of the Company shall have the right to enter the premises of a customer at any reasonable hour for the purpose of installing, inspecting or repairing the service components of the Company or upon termination of the service for the purpose of removing such service components.

2.20 Allowance for Interruptions

Credit is allowed for interruption of the access line of 24 consecutive hours or more after being reported out of order. Interruption to the access line, not due to the negligence of the customer, is credited at one-thirtieth of the monthly charge for the access line for each 24 hours or major fraction thereof of interruption. The refund may be accomplished by a credit on a subsequent bill for WATS Service.

Message Telecommunication Service furnished at the customer's request when his WATS is interrupted is charged for at the Message Telecommunications rates contained in the Company's Message Telecommunication Service Tariff.

2. General Regulations (Continued)

2.21 Special Construction

- (A) Rates and charges for special construction will be provided as set forth in the governing Intrastate Access Services Tariff of the local exchange carrier providing the closed end.
- (B) Special construction is that construction undertaken:
 - (1) Where service components are not presently available, and there is no other requirement for the service components so constructed.
 - (2) Of a type other than that which the Company would normally utilize in the furnishing of its services.
 - (3) Over a route other than that which the Company would normally utilize in the furnishing of its services.
 - (4) In a quantity greater than that which the Company would normally construct to serve the customer's needs.
 - (5) On a temporary basis until permanent service components are available.
 - (6) Involving abnormal costs.
 - (7) In advance of the normal construction on an expedited basis.
 - (8) A request for charges for special construction will be subject to a special Quotation Charge for the direct administrative and engineering costs associated with the preparation of that particular quotation. The amount of such charges will be credited to the account of the customer when an order for that particular special construction is received within 90 days of the quotation. The customer will authorize, through a designated representative, the request for a quotation before the Company undertakes any work involved in developing such quotations.

2. General Regulations (Continued)2.22 Billing Information

When WATS or a WATS-like service is provided by an IC, the IC is required to provide sufficient billing information so that the Company can bill the end user for intraLATA usage as provided for in this Tariff. If sufficient billing information is not provided by the IC, the IC will be liable for the revenue associated with the intraLATA usage.

2.23 Telecommunications Service Priority (TSP) System

Priority Installation, Restoration, Changes and Maintenance Services shall be provided under Section 13.3.9 of the United Telephone Company of Missouri's Access Tariff P.S.C. MO.-No. 15.

3. Connections of Customer Premises Equipment and Communications Systems

Customer premises equipment and communications systems may be connected at the customer's premises to WATS Service furnished by the Company when such connections are made in accordance with the provisions of the Connections of Terminal Equipment Section (or its equivalent section) of the governing local exchange carrier's General Exchange Tariff.

4. Rates4.1 General

- (A) Each WATS access line will be arranged, at the option of the customer, for either Outward WATS or 800 Service, but not both.
- (B) Rates for the 800 Service access line in Paragraph 4.4, (A), (1) and the Outward WATS Access line in Paragraph 4.4, (B), (1), following, are for the intrastate intraLATA portion only.
- (C) Applicable Service Connection Charges are found in the governing local exchange carrier's General Exchange Tariff.

4. Rates (Continued)4.3 Minimum Average Time Requirement (MATR)

Usage is subject to an average of one minute per completed call in each rate period for each billing period. This means that if the average duration per call in any rate period during each billing cycle is less than one minute, billing will be based on an average duration of one minute per call.

4.4 Access Lines and Usage Rates

The following rates are for intrastate intraLATA Outward WATS or 800 Service. Installation/non-recurring charges outlined in Section 4.8 apply in addition to the access line and usage rates for the installation of each WATS access line.

(A) <u>800 Service (1)</u>		<u>S&E Code</u>	<u>Monthly Rate</u>
(1)	800 IntraLATA Access Line,	WTMNO UTS	\$35.50
	each...		
(2)	800 IntraLATA Monthly		
	Usage Rate Table	<u>Business Day</u>	<u>Evening</u> <u>Night/Weekend</u>
	First 9 hours, each hour..	\$18.70	\$14.96 \$12.15
	Next 9 hours, each hour..	18.47	14.78 12.00
	Next 17 hours, each hour..	18.18	14.54 11.81
	Over 35 hours, each hour..	18.00	14.40 11.70
(3)	800 Service Non-Jointly Provided IntraLATA Usage Rate		
	Under this option, it is not required that the IC jointly provide 800 service with the Company.		

- (1) In addition, apply the appropriate Special Access Service Surcharge rate (USOC: S25) as found in Section 7 of the governing local exchange carrier's Intrastate Access Service Tariff.

WIDE AREA TELECOMMUNICATIONS SERVICE

4. Rates (Continued)4.5 Method of Determining Monthly Charges for Usage

For all WATS access lines on which usage is recorded by the Company by time-of-day rate periods, the usage charge is determined separately for Outward WATS and 800 Service, using steps (A) through (E), following:

- (A) Determine the total number of completed calls for each rate period for each service arrangement.
- (B) Apply the Minimum Average Time Requirement of one minute by dividing the number of completed calls for each rate period in each service arrangement by 60. (one call = one minute.)
- (C) Determine the total actual hours used for each rate period for each service arrangement.
- (D) Determine the total chargeable hours for each rate period for each service arrangement. This is the greater of (B) or (C), above, rounded to the nearest tenth (one decimal place).
- (E) Determine the total usage charge for all rate periods in each service arrangement by applying the rates shown in the appropriate rate table for Outward WATS or 800 Service.

4.6 Timing of Calls

- (A) Chargeable time begins when connection is established between a service point associated with the WATS access line and the calling or called service point and ends when the calling service point "hangs up", thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- (B) When a connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period.
- (C) The rate charged is determined by the day and time (standard or daylight savings) at the WATS access line location.

WIDE AREA TELECOMMUNICATIONS SERVICE

4. Rates (Continued)4.6 Timing of Calls (Continued)

(D) When 800 Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time begins when the 800 Service call terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the 800 Service so that chargeable time may begin.

4.7 Access Line Extension

Extensions of individual WATS access lines are provided at locations within the intrastate intraLATA territory as provided for in the governing local exchange carrier's General Exchange Tariff and/or Private Line Service Tariff.

4.8 Installation/Nonrecurring Charges

(A) The following charges apply for the installation of each WATS access line:

	<u>NRC</u>
Outward WATS.....	\$106.00
800 Service.....	\$121.00

(B) Discontinuance of WATS at one premise and its installation at another premise, all within the same exchange, is considered as an outside move and is subject to regular Installation/Nonrecurring Charges.

4.9 Directory Listings

Directory listings will be provided upon request for WATS Service in directories within the State of Missouri. Rates for business regular extra listings as contained in the directory services section of the governing local exchange carrier's General Exchange Tariff are applicable for all directory listings.

5. Miscellaneous Charges

Rates, charges and regulations applicable to the business class of service, as found in the governing local exchange carrier's Local and/or General Exchange Tariff, apply in addition to the established WATS charges in this Tariff, for services that are regularly furnished with WATS. Additional services includes such items as a change in telephone number, change from loop start to ground start or vice-versa, inside move of Network Interface, etc., provided at the customer's request.

6. Special Taxes, Fees and Charges

When any legally constituted governmental body imposes a franchise, occupation, business sales, license, excise, privilege, or similar tax of any kind on the Company, the amount thereof, shall be charged on a proportionate basis to all customers receiving service within the boundaries of the governed taxed area. This tax will be in addition to the regular charges for service, and will appear on the customer's regular bill, identified as such.

7. Special Service Arrangements

Special Service Arrangements consist of modifications of service components offered under this Tariff. They will be furnished, when practicable, by the Company at charges equivalent to the cost of providing such arrangements if in connection with and not detrimental to any of the other services furnished under the Company's Tariffs. Refer to the Rules and Regulations Applying to All Customers' Contract Section (or its equivalent section) of the governing local exchange carrier's General Exchange Tariff for computation of rates.

8. Directory Assistance Service

The Company furnishes Directory Assistance Service whereby customers may request assistance in determining telephone numbers of customers who are located within the same local calling area or LATA. Rates and regulations applicable to Directory Assistance service may be found in the governing local exchange carrier's Local and/or General Exchange Tariff.

9. Interim Regulations - 800 Service

9.1 General

The following rules and regulations will apply to intraLATA calls terminated over 800 Service WATS access lines if the Company is unable to mechanically bill end users the rates as found in Section 4 of this Tariff. When the mechanized billing system to bill end users is developed and deployed, the Company will cease applying the rules and regulations found in Section 9 of this tariff.

9.2 Application of Rates

- (A) The rates for intraLATA 800 Service will apply to 47 percent of the total intrastate 800 service usage. Rates for the remaining 53 percent will be at the rates as found in the tariffs of the Interexchange Carrier. Intrastate usage over multi-jurisdictional WATS access lines will be determined as described in Section 2, Paragraph 2.3.16 of the Access Services Tariff.
- (B) The rates for intraLATA 800 Service, as found in Section 4, will be billed to the Interexchange Carrier if they cannot be mechanically billed to the end user. This billing plan will continue until the company has the ability to mechanically bill the end user for the current IntraLATA 800 Service rates.

WIDE AREA TELECOMMUNICATIONS SERVICE

(N)

11. Opportunity 800SM Service11.1 Description of Service

- A. Opportunity 800SM Service is a Common Line Termination Service that provides, where facilities are available, for the termination of IntraLATA 800 calls on residence or business access lines.
- B. Opportunity 800SM Service provides reverse charge dial-type telecommunications to a Local Exchange Access Line provided by the Company, arranged by the Telephone Company utilizing the Company's 800 data base to receive calls from other stations within the customer's LATA using the public switched network.
- C. If a customer wants Opportunity 800SM Service in an area which is larger than a single LATA, the customer must subscribe to local exchange telephone service in each LATA where Opportunity 800SM Service is desired, or arrange for an interexchange carrier to provide transport of the interLATA calls.

11.2 Regulations

- A. Unless otherwise specified in these regulations, Opportunity 800SM Service is subject to the rules and regulations of Wide Area Telecommunications Service specified elsewhere in this service, as well as the rules and regulations for Local Exchange Access Lines as specified in the Telephone Company's General Exchange Tariff.
- B. The Opportunity 800SM Service is furnished an 800 service number to be associated with an individual line or trunk. Opportunity 800SM Service is not an access line.
- C. An Opportunity 800SM Service customer may not have more than one 800 telephone number terminating on the same Local Exchange Access Line telephone number.
- D. Opportunity 800SM Service is not available on Payphone Line Service.
- E. Opportunity 800SM Service provides for the termination of calls only.
- F. Opportunity 800SM Service calls must be dialed and completed without the assistance of a Company operator except when the facilities or conditions do not allow customer dial completion. Person-to-person, collect, conference, or other calls requiring operator handling, except as previously specified are not permitted to be completed to the Opportunity 800SM Service telephone number.
- G. An Opportunity 800SM Service call must originate and terminate within the same LATA.
- H. Opportunity 800SM Service can be provided to a customer by the Telephone Company on a complimentary basis with an interexchange carrier (IXC) in order to furnish a statewide or national 800 service. The rates and charges for the 800 number(s) and intraLATA usage are billed as specified herein. All interLATA usage is subject to the rates and charges specified in the tariff of the IXC.

WIDE AREA TELECOMMUNICATIONS SERVICE

(N)

11. Opportunity 800SM Service (Cont'd)11.2 Regulations (Cont'd)

- I. Connection of Opportunity 800SM Service to other services is permitted on a switched basis only. No permanent connection between Opportunity 800SM and other services may be established.
- J. An Opportunity 800SM Service customer must subscribe to and make use of a sufficient number of Local Exchange Access Lines so that use of the service does not interfere with another customer's service or proper operation of the public switched network.
- K. One primary directory listing will be provided to each Opportunity 800SM Service number, at the customer's option, without charge. This listing will appear in the exchange directory of the customer. Additional directory listings will be provided at the rates applicable for residence or business additional or foreign listings as specified in the Telephone Company's General Exchange Tariff.

11.3 Rate Regulations and Charges

- A. Monthly Opportunity 800SM Service IntraLATA usage rates are based upon the total number of minutes of use for each Opportunity 800SM customer according to a discounted rate schedule (See Section 11.3h.). Each Opportunity 800SM Service customer will pay \$.21 per minute for the first 5 hours of usage. For the next 20 hours of usage, each Opportunity 800SM Service customer will pay \$.20 per minute of use. Usage greater than 25 hours will be rated at \$.19 per minute of use. There are no time of day discounts. There is no minimum usage requirement.
- B. Chargeable time begins when a connection is established between a station associated with Opportunity 800SM Service and the calling station.
- C. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telecommunications network.
- D. Opportunity 800SM Service usage will be aggregated monthly per Opportunity 800SM Service customer and rounded up to the nearest tenth of a minute. This aggregated usage will be rated in accordance with the regulation in 11.3.A preceding.
- E. Each Opportunity 800SM Service number will have a recurring monthly charge of \$5.00, in addition to the rates and charges for each Local Exchange Access Line specified in the Telephone Company's General Exchange Tariff.
- F. In addition to the monthly recurring rate and the monthly usage rate, a service order charge for simple residence/business will apply, as specified in the Telephone Company's General Exchange Tariff, to establish or change Opportunity 800SM Service.
