<u>Maintenance of Service Periods</u>	<u>USOC</u>	<u>First Half Hour or Fraction Thereof</u>	<u>Each Additional Half Hour or Fraction Thereof</u>
Premium Time, outside of scheduled work day, per technician	MVV	\$68.00*	\$40.00*

13.3.2 Restoration Priority#

The Telephone Company will arrange a Special Access Service for Restoration Priority on receipt of certification in conformance with Part 64, Subpart D, Appendix A of the Federal Communications Commission's Rules and Regulations. A charge applies when a request to provide or change a Restoration Priority is received subsequent to the issuance of an Access Order to install the service. No charge applies when a Restoration Priority is discontinued.

* A call-out of a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to minimum charge of four hours.

In compliance with the Federal Communications Commission rules, the rates and regulations for the provision of Restoration Priority, will expire March 10, 1993.

13.3.3 Presubscription

- (A) Presubscription is a procedure whereby an end user may select and designate to the Telephone Company an IC to access, without dialing an access code, for interLATA and/or intraLATA calls. This IC is referred to as the end user's primary IC. The presubscription procedure also allows the agent* representing a pay telephone to select and designate to the Telephone Company an IC to access, without dialing an access code, for intrastate calls only. InterLATA Presubscription is available only to End Users served by end offices that have been converted to provide Feature Group D (equal access). IntraLATA Presubscription is available only to End Users served by end offices that have been converted to provide Feature Group D (equal access) and are technically equipped.
- (B) Presubscription of residence and business lines and/or trunks is furnished in accordance with the detailed provisions of the Federal Communications Commission's Allocation Plan. The plan with all appendices is available for inspection at the main building of the Federal Communications Commission in the Public Reference Room of the Tariff Division. Copies may be obtained from the Federal Communications Commission's Commercial Contractor.

The same detailed provisions also apply to pay telephone InterLATA presubscription for end offices converting to equal access after February 10, 1990.

1+ IntraLATA Equal Access will not be available in Community Optional Service (COS) target exchanges and their associated EAS exchanges until the Missouri Public Service Commission issues its Final Order in Case No. TW 97-333.

Pay telephone InterLATA presubscription for end offices converted to equal access prior to February 10, 1990, will follow a transition schedule. After that date, pay telephone lines will be included in the standard presubscription time line for the end office.

Principal provisions of the Allocation Plan and associated Telephone Company provisions are as follows:

13.3.3 Presubscription (Cont'd)
(B) (Cont'd)

- (1) End User and Agent Notification, Equal Access Balloting Process and Interexchange Carrier End User and Agent Lists.

The Telephone Company will notify end users and agents of the availability of InterLATA equal access (Feature Group D) and after August 8, 1997 notify end users of the availability of IntraLATA equal access through the mailing of an Equal Access Ballot or a direct mail piece if InterLATA equal access was previously available. The mailing of the initial ballots will occur approximately 90 days, but in no case later than 85 days, prior to the conversion of the end office serving the end users and agents. End users and agents will be encouraged to return their respective ballot to the Telephone Company or to their selected primary IC within 30 days of its receipt.

(C)
|
(C)

A single line end user may select only one IC as a primary InterLATA IC and only one IC as a primary IntraLATA IC. A single line end user also has the option to select one IC as a primary InterLATA and IntraLATA IC, provided that the IC selected is authorized to carry InterLATA calls.

(N)
|
(N)

Multi-line end users and multi-line hunt group end users have two options in selecting a primary IC. Under option one, an end user may select one IC for all its lines. Under option two, an end user may indicate a desire to designate specific lines to different ICs. When option two is selected, the end user will be contacted by the Telephone Company, or provided a special ballot which will allow a line-by-line designation of ICs. For each line under either option, only one IC may be selected as a primary InterLATA IC and only one IC as a primary IntraLATA IC. However, one IC may be selected as primary InterLATA and IntraLATA IC for each line, provided that the IC selected is authorized to carry InterLATA calls.

(C)
|
(C)
|
(C)
|
(N)
|
(N)

Agents have the same options as multi-line and multi-line hunt group end users for selecting a primary IC.

(N)
|
(N)

An IC obtaining service commitments from end users and agents directly must provide an IC End User and Agent List to the Telephone Company accompanied by document certifying that the IC does have end user and agent signed statements, or has taken steps to obtain signed letters of agency, containing the required information or a signed ballot from each end user and agent on the list. The Telephone Company will process all IC End User and Agent Lists that are received 20 days prior to conversion of an end office to equal access.

and agents of the IC cancellation, request that the end users or agents select a new IC, and state that the cancelling IC will pay the Change Charge.

For a period of two (2) years following the IC's discontinuance of Feature Group D service, the Telephone Company will bill the cancelling IC the change charge for each end user and agent that is currently designated to the IC at the time of discontinuance.

- (4) The Telephone Company will make post conversion changes in the end user's or agent's PIC assignment pursuant to an IC provided list of customers, accepted by the Telephone Company under the conditions set forth preceding. Should an end user or agent dispute authorization of the change in primary IC assignment, the Telephone Company will place the end user or agent on the previous carrier's network where possible and the carrier will be billed in accordance with 13.3.3(D) following.

(D) Unauthorized PIC Carrier Restoral

An Unauthorized PIC Carrier Restoral is a change in the preferred PIC assignment that the end user or agent denies authorizing. If an end user or agent denies requesting the change in PIC assignment as submitted by the IC, the alleged unauthorized IC will be assessed the PIC change charge as set forth in 13.3.3(E) for the following:

- Changing the end user or agent to the disputed IC, and;
- Placing the end user or agent back on their previous IC's network.

13.3.3.A Equal Access End User Restriction Service

- (A) Equal Access End User Restriction Service is an offering whereby an end user's ability to access the facilities of an Interexchange Carrier (IC) may be restricted at the request of the IC. This service blocks an end user from making 1+ and 101XXXX calls on the subscribing IC's facilities, but does not restrict the end user's ability to reach other ICs by 101XXXX dialing. An end user's local exchange service is not affected by this service, nor is the end user's ability to direct dial intraLATA calls or to make 1+ TFC and 1+ 900 calls. (CT)

(B) Undertaking of the Telephone Company

The Telephone Company will provide Equal Access End User Restriction Service only in suitably equipped equal access end offices. Due to technical limitations, this service is limited to three (3) interexchange carriers per end user access line and will be provided on a first come-first served basis.

Equal Access End User Restriction Service is available only where a corresponding interstate offering has been approved.

Equal Access End User Restriction Service is not available to ICs who have full billing and collection services contracts in effect with the Telephone Company.

The Telephone Company will activate Equal Access End User Restriction Service only upon written request from the subscribing IC.

The Telephone Company will restore an end user's access to the subscribing IC upon the verbal request of the IC which requested activation of Equal Access End User Restriction Service. Such verbal restore request shall be confirmed in writing by the IC.

(D) Obligations of the Interexchange Carrier

Equal Access End User Restriction Service will be provided only in situations where the IC has represented to the Telephone Company that nonpayment, bad credit, or toll fraud is involved.

The IC must contact the Telephone Company to review initial implementation time frames and operational procedures for provision of Equal Access End User Restriction Service.

The IC is responsible for compliance with any applicable regulations concerning service restriction and must notify the end user in writing by Certified U.S. Mail at least five (5) days prior to implementation of Equal Access End User Restriction Service. Such notification shall include specific information to enable the end user to contact the IC for additional information concerning service restriction.

The IC shall process end user payments upon receipt and, if service restoral is desired, shall submit request for end user service restoral to the Telephone Company. In the event that the IC elects to continue blocking an end user's access to its facilities, it is the responsibility of the subscribing IC to notify the end user in writing by Certified U.S. Mail of such continued service restriction.

SEP 17 1992

13.3.5 Testing Services (Cont'd)

MO. PUBLIC SERVICE COMM.

The offering of Testing Services under this section of the tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in (A), (B) and (C) following.

(A) Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which are performed during the installation of a Switched Access Service, (b) tests which are performed after acceptance of such access services by a customer which are without charge, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (No Telephone Company or customer technicians involved), on a cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises), or a manual basis (Telephone Company technician(s) involved at Telephone Company office(s) and at customer premises).

Nonscheduled tests are performed by the Telephone company "on demand", which result in the measurement of Switched Access Services. Nonscheduled tests may involve Telephone Company technicians at Telephone company offices and at the customer's premises.

(1) Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of Switched Access Service involves the Telephone Company provision of a technician at its office(s) and the

13.3.5 Testing Services (Cont'd)

(A) Switched Access Service (Cont'd)

(1) Additional Cooperative Acceptance Testing (Cont'd)

customer provision of a technician at its premises, with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for example, consist of the following tests:

- . Impulse Noise
- . Phase Jitter
- . Signal to C-Notched Noise Ratio
- . Intermodulation (Nonlinear) Distortion
- . Frequency Shift (Offset)
- . Envelope Delay Distortion
- . Dial Pulse Percent Break

(2) Automatic Scheduled Testing

Automatic Scheduled Testing (AST) of Switched Access Service (Feature Groups B, C, and D), where the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent, will consist of monthly loss and C-message noise tests and annual balance tests. However, the customer may specify a more frequent schedule of tests. In addition to the loss/noise/balance test, the customer may also order, at additional charges, gain-slope and C-notched noise testing.

13.3 Miscellaneous Charges (Cont'd)

MO. PUBLIC SERVICE COMM.

13.3.5 Testing Services (Cont'd)

(A) Switched Access Service (Cont'd)

(2) Automatic Scheduled Testing (Cont'd)

With Feature Group B Switched Access Service, AST is only provided to customer who orders it, i.e., AST is provided on an optional basis as tests are not normally conducted for Feature Group B services. Charges in 13.3.5(C) apply. However, with Feature Groups C and D, AST for basic test is provided on a nonoptional basis and at no charge. With Feature Group C, where AST is not available in a Telephone Company office. Cooperative Scheduled Testing (CST) will be provided on a nonoptional basis at no charge. With Feature Group D, CST or Manual Scheduled Testing (MST) may be specified by the customer in lieu of AST and provided by the Telephone Company at no charge. Trunks from a Telephone Company digital switch to a customer digital switch to a customer digital switch utilizing digital facilities are excluded from mandatory routine testing.

The Telephone Company will provide a monthly AST report that lists the trunks within each exchange access group that failed to meet established requirements. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis. On an optional basis, a monthly report that lists the test results for each trunk tested may be provided to the customer at an additional charge as set forth in 13.3.5(C)(1)(f) following.

(3) Cooperative Scheduled Testing.

Cooperative Scheduled testing (CST) of Switched Access Services (Feature groups B, C, and D and Directory Access Service not routed through an access tandem), where the Telephone company provides a technician at its office (s) and the customer provides a technician at its

premises, with suitable test equipment to perform the required tests, will consist of quarterly loss and C-message noise tests and annual balance tests. However, the customer may specify a more frequent schedule of tests. In addition to the loss/noise/balance measurements, the customer may also order, at additional charges, gain-slope and C-notched noise testing.

With Feature Group B Switched Access Service CST is only provided to customers who order it, i.e., CST is provided on an optional basis as test are not normally conducted for Feature Group B services. Charges in 13.3.5(C)(1)(c) apply. However, with Feature Groups C and D, CST for basic test may be provided as an alternative to the nonoptional AST at no charge. Trunks from a Telephone Company digital switch (e.g., 4E, 5E or DMS10) to a customer digital switch utilizing digital facilities are exclude form mandatory routine testing.

The Telephone Company will provide, on a quarterly basis, a CST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.

(4) Manual Scheduled Testing

Manual Scheduled Testing (MST) of Switched Access Services (Feature Groups B, D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s) and at the customer's premises, will

consist of quarterly loss and C message noise tests, and annual balance tests. However, the customer may specify a more frequent schedule of test. In addition to the loss/noise/balance tests, the customer may also order, at additional charges, gain-slope and C-notched noise testing.

With Features Group B Switched Access Service, MST is only provided to customer who order it, i.e., MST is provided on an optional basis as tests are not normally conducted for Feature Group B service. Charges in 13.3.5(C)(1)(d) apply. However, with Feature Group D, MST for basic tests may be provided as an alternative to the nonoptional AST at no charge. Trunks from a Telephone Company digital switch (e.g., 4E, 5E, or DMS10) to customer's digital switch utilizing digital facilities are excluded from mandatory routine testing.

The Telephone company will provide, on a quarterly basis, a MST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.

(5) Nonscheduled Testing

Nonscheduled Testing (NST) of Switched Access Services is where:

- the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent ("automatic testing"), or

(5) Nonscheduled Testing (Cont'd)

- the Telephone Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s) and/or at the customer's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled Tests may consist of any tests, e.g., loss, noise, slope, envelope delay, which the customer may require.

(6) Obligations of the Customer

- (A) The customer shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in 13.3.5(A)(2) preceding or as set forth in 13.3.5(A)(5) preceding.
- (B) The customer shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.

(B) Special Access Service

The Telephone company will, at the request of a customer, provide assistance in performing specific test requested by the customer.

(1) Additional Cooperative Testing (ACT)

When a customer provides a technician at its premises, or at an end user's premises, with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Testing on voice grade services. At the customer's request, the Telephone Company will provide a technician at the customer's premises or at the end user's premises. These tests may consist of the following:

- Attenuation Distortion (i.e., Frequency Response)
- Intermodulation Distortion (i.e., Harmonic Distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay Distortion
- Frequency Shift
- Echo Control

(2) Nonscheduled Testing (NST)

When a customer provides a technician at its premises with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the customer's request, the Telephone Company will provide a technician at the customer's premises. Nonscheduled tests may consist of any tests, e.g., loss, noise, slope, envelope delay, which the customer may require.

(3) Obligation of the Customer

When the customer subscribes to Testing Service as set forth in this section, the customer shall make the facilities to be tested available to the Telephone Company at time mutually agreed upon. NOV 7 1992

(III) Example

A customer schedules 13 1004 Hz Loss Tests, 13 C-Message Noise Tests and 2 Return Loss tests on one trunk for a year. The charges will be computed as follows:

$$\begin{array}{r} 13 \times .04 = .52 \\ + 13 \times .04 = .52 \\ + 2 \times .04 = .08 \end{array}$$

\$1.12 per month, per trunk

(c) Cooperative Scheduled Testing (CST)

The three tests as set forth in (I) following represent the minimum offering; i.e., an order for testing must, at a minimum, consist of four 1004 Hz Loss Tests per transmission path, four C-Message noise Tests per transmission path and one Return Loss (Balance) Test per transmission path, per year. The Additional Tests as set forth in (II) following may be ordered by the customer at additional charges, 60 days prior to the start of the customer prescribed schedule. The customer also may specify a more frequent schedule of tests 60 days prior to the start of the customer prescribed schedule.
