VIA ELECTRONIC FILING

Mr. Morris Woodruff, Secretary
Missouri Public Service Commission
P.O. Box 360
Jefferson City, MO 65102

**RE: Liberty Utilities (Midstates Natural Gas) Corp.
File No. GT-2020-0055**

Dear Judge Woodruff:

I am providing herewith to the Missouri Public Service Commission for filing, in electronic form, the following substitute/replacement tariff sheets:

P.S.C. MO. No. 3, Revised Sheet Nos. 67.2 – 67.5

These revised tariff sheets were initially submitted on August 30, with a proposed effective date of October 1 (Tariff No. JG-2020-0040). The Staff of the Commission noted a methodology error which resulted in rate errors in the initial tariff submission. The errors are being corrected with this substitute tariff sheet filing. Redlined tariff sheets have been provided to Staff.

Please bring this filing to the attention of the Commissioners and the appropriate Commission personnel.

Sincerely,

Diana Carter

Re: *Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty Utilities*
Case No. _____; Tariff Tracking No. _____

Dear Secretary Woodruff:

On behalf of Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty Utilities ("Liberty Utilities" or "Company"), enclosed herewith for filing with the Missouri Public Service Commission are the revised tariff sheets, P.S.C. MO. No. 3, Revised Sheet Nos. 67.2 – 67.5.

These revised tariff sheets, which have an issue date of August 30, 2019, and an effective date of October 1, 2019, are designed to reflect the October adjustment made pursuant to the Company's Weather Normalization Adjustment Rider ("WNAR") for the six month period ending June, 2019 as provided by Sheet Nos. 67.2 to 67.5 of the Company's tariffs. The WNAR adjustment is (\$0.03895) for residential customers in the Company's Northeast and West District; (\$0.00178) for residential customers in the Company's Southeast District; (\$0.01635) small general service customers in the Northeast and West District and (\$0.00062) for small general service customers in the Southeast District. The rates are calculated semiannually to adjust for actual heating degree days as they differ from the normal levels and are effective for twelve (12) months.

The Company's initial WNAR rates went into effect on October 1, 2018. The Company's WNAR tariff states that the Company shall determine the Semiannual Reconciliation Rate ("SRR") based on the over- or under-billing during the twelve (12) month billing of each CSWNA and SRR using the effective CSWNA and SRR rates and nine (9) months actual sales and three (3) months projected sales. As the Company's initial CSWNA and SRR rates were zero (\$0.00000) and reconciliation for the 12-month period ending September 30, 2019 would result in a zero SRR, the Company has not provided such reconciliation in this filing.

Compared to currently existing rates, and assuming normal usage, the WNAR adjustment would decrease the average monthly bill of the typical residential customer by about \$1.60 per month, or 2.61 % in the Company's Northwest and West Districts and would increase the average monthly bill of the typical residential customer by about \$0.01 or 0.002% in the Company's Southeast District. Such bill impacts may be less or more depending on a customer's actual usage, which is primarily affected by weather.

Thank you for bringing this matter to the attention of the appropriate Commission personnel.

Sincerely,

/s/ Greg Tillman
