Mr. Morris Woodruff, Secretary  
Missouri Public Service Commission  
P.O. Box 360  
Jefferson City, MO 65102

**RE: The Empire District Electric Company d/b/a Liberty  
Commission Case No. ER-2021-0312**

Dear Judge Woodruff:

On May 2, 2022, and to comply with the Commission's *Order Approving Stipulations and Agreements* issued March 9, 2022, effective March 19, 2022, and the Commission's *Report and Order* issued April 6, 2022, effective April 16, 2022, in Liberty's general rate case (ER-2021-0312), Liberty submitted certain tariff sheets consisting of revised and original rate schedules. The general rate case compliance tariff sheets, designed to implement Liberty's authorized annual revenue requirement increase of \$35,515,913, bear an effective date of June 1, 2022 (30 days after submission).

Substitutes for certain tariff sheets were submitted on May 12, 2022, and Staff alerted Liberty of the need for an additional correction. In this regard, attached hereto for filing is a substitute for PSC Mo. No. 6, Section 2, Sheet No. 8. The version filed on May 2 mistakenly referenced "Rider DSIM for residential service." The attached substitute properly refers to "Rider DSIM for non-residential service."

Please do not hesitate to contact me with any questions or concerns regarding this substitute tariff submission.

Sincerely,

*Diana Carter*
