SYMBOLS

The following are the only symbols used for the purposes indicated below:

- (C) To signify changed regulation or rate (See note below)
- (D) To signify discontinued rate or regulation or deleted material
- (I) To signify increase
- (M) To signify material moved to another location within the tariff
- (N) To signify new rate
- (R) To signify reduction
- (S) To signify reissued matter
- (T) To signify a change in text
- (Z) To signify a correction

Note: When used in reference to a rate, the symbol (C) indicates that a changed rate will result in either an increase or a decrease for certain customers.

TARIFF FORMAT

A. Sheet Numbering Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. When new sheets are added between sheets already in effect, a decimal is added (e.g. new sheet added between effective sheets 2 and 3 would be 2.1).

B. Sheet Revision Numbers Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the MO.P.S.C. For example, the 2nd revised Sheet No. 10, replaces 1st revised Sheet No. 10. Consult the Check Sheet for the sheet currently in effect.

1. General Description of Service

1.1 For purpose of this tariff, the service provided by the Company is the exclusive resale of interLATA and intraLATA, long distance telecommunications services, using services and facilities of other certified carriers, certified to operate in the state of Missouri.

1.2 Company offers its services subject to the provisions of this tariff.

1.3 Company's services are offered to customer on a monthly basis.

1.4 Company's services are offered to customers twenty-four (24) hours per day, seven (7) days per week.

1.5 All service shall remain in effect for a minimum of thirty (30) days.

1.6 Company offers its services subject to the availability of the necessary facilities and/or equipment. Company reserves the right to refuse to provide service to or from any location where the necessary facilities and/or equipment are not available.

1.7 A call communicated by the use of a telecommunications device for the deaf (TDD), by or to a certified hearing or speech impaired person, will receive, upon request, credit on charges for all intrastate toll calls placed between TDDs. The credit to be given on a subsequent bill for such calls placed between TDDs and calls will be rated at rates equal to evening rates for daytime calls and night rates for evening and night calls. This would apply to certified business establishments or individuals equipped with TDDs for communicating with hearing or speech impaired persons. Credit would be equal to not more than 50% of the intrastate toll charges placed between TDDs.

2. Calculation of Charges and Distance

2.1 Usage charges are based on the actual usage of Company's leased facilities.

2.2 Charges for Company's services are based on the distance and duration of the call, monthly usage, and the rate period (Day, Evening, Night/Weekend) when the call is placed.

2.3 Long distance usage charges are based on the actual usage of Company's network. Usage begins when the called party answers and ends when either party hangs up. Calls in duration of more than 60 seconds will be presumed to have been answered. If a call is disputed as an unanswered call, credit will be given to the customer for the call.

2.4 A customer can expect a call completion rate of at least 95% during peak use periods.

Public Service Commission2. Calculation of Charges and Distance (Continued)

2.5 Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. For the purpose of determining airline mileage, vertical and horizontal grid lines have been established across the United States and Canada. The spacing between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each local exchange company primary serving office or servicing office for determining airline mileage, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two primary serving offices is the airline mileage which is computed as follows:

FORMULA:

$$\frac{[(V)^2 - (V2)^2] + [(H1)^2 - (H2)^2]}{10}$$

3.6 International calling is available to customers using an authorized carriers' network for transmission. International calls are billed by COMPANY, at rates equal to current AT&T MTS rates.

3.7 Directory Assistance calls are processed on a per call basis. The Directory Assistance charge applies whether or not the Directory Assistance Bureau is able to furnish the requested telephone number. A charge of \$.75 will apply for each call placed with the Directory Assistance Bureau.

3.8 Telecare will from time to time offer promotional rates and services to attract new business. Such promotions may include reductions and/or waiving of processing fees and discounts on existing rates. This tariff will be amended as appropriate to reflect these promotions allowing sufficient notification and approval by the Commission and effected customers. A special promotion will not exceed 90 days in duration in any given 12 month period, and will have specific beginning and ending dates.

3.9 When a monthly usage requirement applies, the product option selection will be based on the total dollar usage including intrastate and interstate usage in a billing period as follows:
