Section C - SERVICE Descriptions and Rates (Cont'd)3. Metered Use Service.134 Verizon Prepaid Phone Cards¹

(T)

Verizon Prepaid Phone Cards represent a prepaid calling card service that allows consumers to acquire and use cards to originate outbound direct dial calls via Company-provided 800 numbers. Verizon Prepaid Phone Cards can be used for both interstate and intrastate (intraLATA and interLATA) calls and are classified as either MCI Branded Phone Cards, or Verizon Branded Phone Cards, or cards co-branded with a third party (typically a distributor) (hereinafter "Verizon Branded Phone Cards") where the calling service is provided by MCI Communications Services, Inc. ("MCI")

There are two methods of providing Verizon Prepaid Phone Card services to consumers, as follows:

- Physical format which includes a preprinted phone number and a Personal Identification Number, hereinafter referred to as a "PIN", delivered on a plastic card typically measuring 3-1/2" x 2-1/4"; or,
- Virtual format, which is delivered as a PIN printed on a cash register receipt when purchased at a retail location, or delivered as a PIN when purchased via the World Wide Web.

Consumers can purchase Verizon Prepaid Phone Cards as follows:

- Verizon Branded Phone Cards directly from distributors.
- Verizon Branded Phone Cards via the World Wide Web or via a toll-free telephone number.

When sold through a distributor, prices for Verizon Branded Phone Cards and recharge minutes are established by the distributor. When sold by the Company, prices for Verizon Branded Phone Cards recharge minutes are established by the Company.

This tariff provides terms and conditions applicable to in-state calls made using Verizon Prepaid Phone Cards. The terms and conditions set forth herein for such calls made with Verizon Prepaid Phone Cards supplements the terms and conditions applicable to the sale and use of such cards as set forth in the Consumer Service Agreement located at http://prepaid.Verizon.com/e-commerce/service_agreement.jsp.

Card Values:

Verizon Prepaid Phone Cards are available under two options, the Minute/Unit based cards and the Dollar based cards, as follows:

- Dollar based cards display the initial dollar value of the card and a per minute rate for interstate calls, or the initial number of minutes available for interstate calls at the time of purchase. Dollar based cards deduct the applicable charge for a call or other service in dollars and cents.

Regulations:

Use of Verizon Prepaid Phone Cards is available by calling the Company toll free number printed on the card.

- A completed call may only be charged to a Verizon Prepaid Phone Card that has a balance sufficient to cover the charges assessed for the call. The Verizon Prepaid Phone Card balance will be reduced by the appropriate minutes/units or dollars charged for the completed call.
- After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A Verizon Prepaid Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute/unit, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.
- Credit allowances for interruptions - MCI will credit one minute/unit on a consumer's Verizon Prepaid Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MCI Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the Verizon Prepaid Phone Card, for wrong telephone numbers or other causes outside the control of MCI.
- Activated Verizon Prepaid Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a Verizon Prepaid Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.
