VI. DISCONTINUANCE OF EAS

First Revised Page 18
Cancels Original Page 18

(CT)

A. The Company will discontinue service from specific EAS routes between exchanges as a result of a survey as set forth following:

1. Company has received petition or petitions representing at least 20% of the customers from one of the affected exchanges or at least 10% of the customers in each of the affected exchanges, requesting that the Company conduct a survey to determine whether EAS should be discontinued.

If prior surveys have been conducted in the affected exchanges, at least two years shall have elapsed since the last survey before an additional survey is initiated.

2. A minimum of 50% of the combined total customers in the affected exchanges must vote. Then, at least two thirds (66 2/3%) of the combined total customers in the affected exchanges voting, must vote to discontinue such service.
3. The survey cards will be returned by the customers to the Secretary of the Public Service Commission for validation and tabulation. The Public Service Commission will advise the Company of the survey results and, if the appropriate requirements are met, the Company will then discontinue such service, together with the appropriate EAS Rate Component, as soon as is practicable.

LOCAL EXCHANGE SERVICE RATE GROUPS

VII. TERM DISCOUNT PLAN (TDP)

A. GENERAL

1. A Term Discount Plan (TDP) provides business customers, who have five (5) or more lines/trunks at the same location and billed under a single bill or who have five (5) or more lines/trunks at different locations and billed under a single bill, with discounted rates for **flat rated** Business One Party lines and Trunks. Fewer than five (5) lines/trunks billing under a single bill are not eligible for the TDP rates, regardless of whether the customer in total subscribes to five (5) or more lines/trunks. The discount on Local Exchange Service Rate Component does not apply for the EAS Rate Component. **Local Measured Service lines/trunks are not eligible for this plan.** (T)
(T)
2. Business One Party lines and Trunks may be ordered under a TDP for fixed periods of two (2) years and three (3) years.
3. The customer must specify the length of the initial service period at the time the service is ordered.
4. At the end of the TDP commitment period the customer may subscribe to a new TDP at discounts on the prevailing rates as set forth in VII.C. following. If the customer does not specify renewal terms in writing 90 days prior to the expiration of the TDP, the commitment period and the discount in effect at the time of expiration will automatically be extended for 12 months. The customer can terminate service at the end of the minimum commitment period with no penalty or obligation to continue the service.
5. Rate increases or decreases will automatically be applied to the monthly term plan rates for the remaining term of the TDP. If a Company initiated rate increase causes the services under the TDP to increase by 10% or more annually, then the customer may cancel the TDP without incurring termination liability charges provided the customer notifies the Company within 30 days after the effective date of the rate increase.
6. The customer can extend TDP commitment periods at any time during the term of the plan, up to a maximum of three years. The number of remaining months in the original term plan will apply toward the new term plan selected.

VII. TERM DISCOUNT PLAN (TDP) (Continued)

B. TERMINATION LIABILITY CHARGES

1. If a business customer under a Term Discount Plan (TDP) disconnects any portion of the Business One Party lines and Trunks TDP service prior to the expiration of the TDP, then a Termination Liability Charge will apply to those services that are disconnected. The Termination Liability Charge will be a one-time charge equal to the sum of 50% of the payments for the remainder of the TDP. Should a customer drop below the line/trunk minimum requirement, the customer will no longer qualify for the TDP, and the remaining lines/trunks will default to the standard month-to-month rates effective with the disconnect date.

VIII. **RESERVED FOR FUTURE USE** (Z)

IX. **LOCAL MEASURED SERVICE (LMS)** (Z)

A. Application and Regulations

1. Customers will have under this tariff offering the option of subscribing to Local Measured Service which provides for measured calling to all points within the existing non-toll calling area.
2. Business and residence one-party customers will have the option of maintaining their current telephone service or changing to local measured service.
3. Normal service connection charges for existing customers will not apply for one customer conversion to and/or from the local measured service offering within the six month period commencing with the offering date of LMS in an exchange. Any conversion to or from LMS in excess of this allowance will be billed at the following rates.

Simple customers \$10.25

Complex customers \$14.70

4. All customer lines equipped for outward calling at a given location must be arranged for local measured service. Group billing shall be provided on rotary and PBX trunks.
5. Local usage charges will not apply to calls to the Company Business Office or Repair Service, Long Distance Carrier Access Trunks or for Emergency Service as found in the local exchange telephone directory.
6. Local measured service will not be provided for Foreign Exchange, Payphone Line Service, and Centrex lines.
7. Local Measured Service access line charges are billed one month in advance with usage charges billed under the bulk bill plan one month in arrears. Optional detail billing is available at an additional charge as specified under C.3.c. of this tariff.

MILEAGE

I. ZONE MILEAGE

A. In connection with circuits extending beyond the initial rate area boundary, the following monthly zone mileage charges apply. These charges are in addition to the initial rates specified in the "Local Exchange Service" Section for each exchange, and construction charges where applicable:

ZONE	<u>I</u>	<u>II</u>	<u>III</u>	<u>IV</u>
Monthly Rate	\$2.35	\$4.65	\$7.00	\$9.30
S&E Code	(MAZAZA1)	(MAZAZB1)	(MAZAZC1)	(MAZAZD1)

- B. For circuits not connected with local exchange service, see the "Private Lines and Equipment" section of the General Exchange Tariff.
- C. (Reserved for future filing)
- D. All Foreign Exchange service terminating outside the initial rate area shall have the zone additive added to each circuit or channel required.
- E. In those cases where zone boundaries follow the center line of a street or highway all dwellings or structures within 150 feet of the center line of the street or highway shall be considered within the lower zone.

MISCELLANEOUS EQUIPMENT AND SERVICE

A. TROUBLE ISOLATION CHARGE

The customer shall be responsible for the payment of Telephone Company charges for visits by the Telephone Company to the customer's premises where a service difficulty or trouble report results from customer provided equipment and facilities including inside wire. A one time waiver of this charge per customer per address is allowed. The waiver does not apply, however, to customers who are equipped with a Network Interface Device (NID).

<u>Per Trouble Isolation Call</u>	<u>During Normal Working Hours</u>	<u>After Normal Working Hours</u>
Simple Business/Residence	\$31.32	\$31.32
** Complex Business: (First 1/4 hour)	\$26.46	\$34.56
(Each Add'l. 1/4 hour)	\$10.80	\$16.20

B. SPECIAL TOLL BILLING PLAN

Special Billing Codes, provided by the Telephone Company, may be used by customers to allocate long distance messages to specific stations, departments or accounts.

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
149 Codes, each (ASBSTCC)	\$.45	SCC
50 and above, in groups of 50 codes (ASBFFTY)	\$20.00	SCC

C. RETURNED CHECK CHARGE

A Returned Check Charge is applied to checks returned by the bank for insufficient funds, unable to locate account, account closed, balance held, drawn against uncollected funds, two signatures required, account garnisheed, endorsement incorrect, or payment stopped. A Returned Check Charge will not apply to checks returned by the bank when they are returned because of a Telephone Company error.

Service charge, per check returned **\$25.00** (R)

This charge shall be in addition to any other charges found in this or any other section of this tariff.

The customer shall be responsible for the payment of Telephone Company charges for visits by the Telephone Company to the customer's premises where a service difficulty or trouble report results from customer provided equipment and facilities including inside wire. A one time waiver of this charge per customer per address is allowed. The waiver does not apply, however, to customers who are equipped with a Network Interface Device (NID).

<u>Per Trouble Isolation Call</u>	<u>During Normal Working Hours</u>	<u>After Normal Working Hours</u>	
Simple Business/Residence	\$29.00	\$29.00	(1)
** Complex Business:			
(First 1/4 hour)	\$24.50	\$32.00	
(Each Add'l. 1/4 hour)	\$10.00	\$15.00	

B. SPECIAL TOLL BILLING PLAN

Special Billing Codes, provided by the Telephone Company, may be used by customers to allocate long distance messages to specific stations, departments or accounts.

	<u>Monthly Rate</u>	<u>NRC</u>
149 Codes, each (ASBSTCC)	\$.45	SCC
50 and above, in groups of 50 codes (ASBFFTY)	\$20.00	SCC

C. RETURNED CHECK CHARGE

A Returned Check Charge is applied to checks returned by the bank for insufficient funds, unable to locate account, account closed, balance held, drawn against uncollected funds, two signatures required, account garnisheed, endorsement incorrect, or payment stopped. A Returned Check Charge will not apply to checks returned by the bank when they are returned because of a Telephone Company error.

Service charge, per check returned	\$27.00	(1)
------------------------------------	---------	-----

This charge shall be in addition to any other charges found in this or any other section of this tariff.

D. SUBSCRIBER TRANSFER SERVICE

	<u>Monthly Rate</u>	<u>Installation Charge</u>
To transfer calls from one straight line service to another. (AAASBTR)	\$6.50	Per SCC Section

E. TOLL RESTRICTION⁽¹⁾

(C)

1. General

Toll Restriction service provides a means of restricting access to the Long Distance Message Telecommunications Network by direct dial or operator handled.

The service may be provided to individual line customers in exchanges equipped to program the service without alteration of the central office equipment. Toll Restrictions may be provided on access lines in connection with PBX or Centrex services.

1+710 Government Emergency Telecommunications Service Calls will not be blocked in the central office and will be completed.

Lifeline subscribers may receive toll restriction **services** without paying a monthly or non-recurring charge.

(T)

Restriction of access to operator services prevents the customer from dialing an operator for all purposes including emergencies, assistance and the placing of toll calls. The customer indemnifies and saves harmless the Telephone Company from any and all claims, losses or damages caused by restriction of access to operator services.

2. Rates and Charges

These rates and charges are in addition to the established monthly and non-recurring charges applicable to services or equipment associated with Toll Restriction service.

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
Toll Restriction (FCE1TLL)	\$4.00	Per SCC Section (Service Order Charge Applies)

⁽¹⁾ **Toll Restriction is limited to existing customers at existing locations as of May 1, 2009.**

To transfer calls from one straight line service to another. (AAASBTR)	\$6.50	Per SCC Section

E. TOLL RESTRICTION

1. General

Toll Restriction service provides a means of restricting access to the Long Distance Message Telecommunications Network by direct dial or operator handled.

The service may be provided to individual line customers in exchanges equipped to program the service without alteration of the central office equipment. Toll Restrictions may be provided on access lines in connection with PBX or Centrex services.

1+710 Government Emergency Telecommunications Service Calls will not be blocked in the central office and will be completed.

Lifeline subscribers may receive Toll Restriction Service without paying a monthly or non-recurring charge.

Restriction of access to operator services prevents the customer from dialing an operator for all purposes including emergencies, assistance and the placing of toll calls. The customer indemnifies and saves harmless the Telephone Company from any and all claims, losses or damages caused by restriction of access to operator services.

2. Rates and Charges

These rates and charges are in addition to the established monthly and non-recurring charges applicable to services or equipment associated with Toll Restriction service.

F. BILLED NUMBER SCREENING

1. General

Billed Number Screening is a service which through operator screening prevents the receipt of incoming collect and/or third number billed calls from being billed to the customer. The customer's telephone number is included in the data base that is made available to companies which provide validation services. Inclusion in the data base indicates these calls will not be allowed for billing to the customer's line. The customer benefits from Billed Number Screening as the service eliminates nuisance third party calls and blocks the receipt of collect calls.

Operator screening of incoming collect, international collect and third number billed calls is limited to Local Exchange Companies or Carriers which access the validation data base and cannot be guaranteed. Therefore, charges for any such calls received from a Local Exchange Company or Carrier not accessing the validation data base will be the responsibility of the customer.

Billed Number Screening is available to all classes of service which utilize the public switched network for long distance calling. The monthly recurring rate is not applicable for Payphone Line Service.

2. Rates and Charges

A Service Order Charge as specified in Section 30 of this Tariff is applicable per main billing number when this service is installed or changed subsequent to the service with which it is associated or for any change in options. The Service Order Charge is not applicable for termination of the service.

3. Direct Inward Dialing Service (Cont'd)

A. Regulations

1. Direct Inward Dialing (DID) is available only in those central offices that are equipped for such service and is furnished for use with PABX systems equipped for DID.
2. As outlined in Section 8 of this tariff, construction charges may apply where equipment or facilities required to provide a requested service are not available.
3. The charges applicable to DID service contemplate the use of standard service and arrangements. When special services are required, additional rates based upon the additional costs incurred to provide the service will apply.
4. One primary directory listing will be provided with each account subscribing to DID. Additional listings will be provided at charges and in accordance with regulations found in Section 9 of this tariff.
5. The rates specified in this section are in addition to rates for other services with which this is associated.
6. Station numbers for DID will be assigned in blocks of 100 (or 10 in digital central offices) by the telephone company. Numbers assigned shall not exceed 99 vacant numbers. As additional station numbers are required, they will be made available as soon as the telephone company has equipment available for this purpose. No guarantee is made that station numbers will be available in all cases.
7. The customer shall be responsible for the interception of calls placed to non-working station numbers.
8. DID service is available in exchanges equipped to provide the service.
9. Requests for DID service in exchanges not equipped will be considered on an individual basis.

L. PRIVATE BRANCH EXCHANGE SERVICE (Cont'd)

4. Tie Lines

- a. Tie lines are furnished subject to the availability of circuits and provided no unusual expense is involved.
- b. Tie lines may terminate in private branch exchange systems of the same or different customer and on the same or different premises. For mileage charges applicable to tie lines, see the "Mileage" Section of this tariff.
- c. Regulations pertaining to the use of tie lines.
 1. Tie lines connecting switchboards located on premises of the customer (except where the systems are on the same premises or on different premises in the same building where standard operation and transmission can be obtained on all connections) are furnished for communications between stations directly connected to and located on the same premises as the system involved; accordingly tie lines are used in connection with trunks, off-premises station lines or other tie lines only subject to the condition that in some cases standard operation and transmission may not be obtained when such connections are established.
 2. Tie lines connecting systems of different customers are furnished with the understanding that such tie lines are to be used only for communication between telephones directly connected to and located on the same premises as the customers involved. Such tie lines are provided only if each of the systems involved is connected to the central office by trunks.

M. 900 SERVICE ACCESS RESTRICTION

1. General

900 Service Access Restriction is a central office service furnished to customers, upon request, which allows for access restriction to all telephone numbers preceded by a 900 NPA from being placed over their exchange access line. This service is not for restricting service access to a specific 900 NPA telephone number. When a 900 NPA telephone number is dialed, the call will be diverted to a Company-provided intercept announcement.

900 Service Access Restriction is offered in those Missouri exchanges where it is technologically and economically feasible. This restriction service enables customers to prohibit dialing of calls to 1+900. Calls which are placed using alternative dialing patterns cannot be restricted. The customer indemnifies and saves harmless the Telephone Company from any and all claims, losses of damages caused by restriction of 900 service access.

The minimum service period for subscribing to 900 Service Access Restriction is one (1) month.

Any request to remove 900 Service Access Restriction Blocking must be made in writing.

2. Rates and Charges

These rates and charges applicable for 900 Service Access Restriction. Service Connection Charges will not apply to customers applying for this service.

MISCELLANEOUS EQUIPMENT AND SERVICE

N. REMOTE CALL FORWARDING

(C)

1. General

Remote Call Forwarding (RCF) service is a service whereby a call placed from the originator to a customer's Remote Call Forwarding telephone number is automatically forwarded by Telephone Company digital central office equipment to the customer's (1) Local Exchange Service, (2) Inward Wide Area Telecommunications Service (800 Service) and Long Distance Message Telecommunications Service, or (3) Foreign Exchange Service (FX).

2. Regulations

- a. Remote Call Forwarding service is offered subject to availability of suitable facilities and provided no unusual expense is involved.
- b. Remote Call Forwarding service is not offered where the terminating station is a coin telephone.
- c. The Telephone Company will not provide identification of the originating telephone number to the Remote Call Forwarding customer.
- d. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.
- e. Remote Call Forwarding service is not represented as suitable for satisfactory transmission of data.
- f. Remote Call Forwarding service is available when used in connection with Local Exchange service, interstate or intrastate Long Distance Message Telecommunications Service, interstate or intrastate 800 Service, and Foreign Exchange service.
- g. Remote Call Forwarding service is provided on the condition that the customer subscribe to sufficient facilities to adequately handle calls to the Remote Call Forwarding customer without interfering with or impairing any services offered by the Telephone Company. See Section 25 of this tariff.

SEP 17 1992

M. 900 SERVICE ACCESS RESTRICTION

1. General

Remote Call Forwarding (RCF) service is a service whereby a call placed from the originator to a customer's Remote Call Forwarding telephone number is automatically forwarded by Telephone Company digital central office equipment to the customer's (1) Local Exchange Service, (2) Inward Wide Area Telecommunications Service (800 Service) and Long Distance Message Telecommunications Service, or (3) Foreign Exchange Service (FX).

2. Regulations

- a. Remote Call Forwarding service is offered subject to availability of suitable facilities and provided no unusual expense is involved.
- b. Remote Call Forwarding service is not offered where the terminating station is a coin telephone.
- c. The Telephone Company will not provide identification of the originating telephone number to the Remote Call Forwarding customer.
- d. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.
- e. Remote Call Forwarding service is not represented as suitable for satisfactory transmission of data.
- f. Remote Call Forwarding service is available when used in connection with Local Exchange service, interstate or intrastate Long Distance Message Telecommunications Service, interstate or intrastate 800 Service, and Foreign Exchange service.
- g. Remote Call Forwarding service is provided on the condition that the customer subscribe to sufficient facilities to adequately handle calls to the Remote Call Forwarding customer without interfering with or impairing any services offered by the Telephone Company. See Section 25 of this tariff.

N. REMOTE CALL FORWARDING SERVICE (continued)

3. Rates and Charges

- a. The following charges are for the Remote Call Forwarding service only and are in addition to applicable charges for service and equipment with which it is used.

	<u>Monthly Rates</u>		<u>Service & Equipment Nonrecurring Charges⁽¹⁾</u>		(T)
	<u>Business</u>	<u>Residence</u>	<u>Business</u>	<u>Residence</u>	(D)
Remote Call Forwarding, per access path					(T)
Ferrelview					(T)
Kearney					
Norborne	\$16.95	\$16.95	\$8.85	\$8.85	
Platte City					
Rolla					
St. Robert	\$16.95	\$18.30	\$8.85	\$9.55	(T)
Waynesville					
Weston	\$18.30	\$16.95	\$9.55	\$8.85	
All Other Exchanges	\$18.30	\$18.30	\$9.55	\$9.55	(T)

b. Usage Charges

Any applicable usage charges to remotely forwarded calls shall include a rate for that portion of the call from the call forwarding location to the answering location. The Remote Call Forwarding customer is responsible for any applicable local usage unit charge specified in this tariff and/or customer-dialed station-to-station charges or interstate and intrastate charges specified in the Message Telecommunications Service Tariff. The aforementioned charges apply to all calls answered at the call forwarding location, including person-to-person and collect calls, if accepted.

(1) The Service and Equipment **Nonrecurring** Charge(s) will not apply on outside moves of customer's other service if there is no telephone number change. **The Service and Equipment Nonrecurring Charge does apply to change the number at the call-forwarding location; to change the number to which calls are forwarded at the request of the customer; or to change both numbers as stated above, at the same time.**

O. LIFELINE ASSISTANCE

1. General

The Lifeline Assistance is designed to increase the availability of telecommunications services to low-income subscribers by providing a credit on monthly recurring local service to qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in Order No. 97-157, Docket No. 96-45, which adopts the Federal-State Joint Board's recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996. Specific rates are as prescribed by the Missouri Commission and are set forth in this Tariff. Lifeline Assistance is a federal support program that provides eligible customers with the following benefits:

- a. *A waiver of the Federal Subscriber Line Charge.*
- b. *A federal credit of \$1.75 off the customer's monthly basic local service charges.*
- c. *A waiver of the Federal Universal Service Fund End User Charge.*
- d. *A credit of \$3.50 provided by the State of Missouri.*
- e. *A second federal credit of \$1.75 which matches 50% of the state credit.*
- f. *Toll Restriction, upon the customer's request, will be provided at no charge.*
- g. *A waiver of the Telephone Company's service deposit requirement, if the customer elects to receive toll blocking. However, acceptance of toll blocking services will not be a condition for receiving service under Lifeline.*
- h. *Residence Lifeline Assistance consists of the following tariffed standard features and optional customer elected services at the applicable rates, charges and regulations for each feature and service provided:*
 - (1) *One-Party Residence Line Rate, including touch-tone dialing*
 - (2) *One standard white page directory listing*
 - (3) *Access to Directory Assistance and Operator Services*
 - (4) *Access to Emergency Services, including, but not limited to, 9-1-1- dialing*

O. LIFELINE SERVICE

The Lifeline Service (Lifeline) program, sponsored by the FCC, is a means of maintaining and preserving universal service by providing a reduction in the price of basic local residential exchange access service to qualifying low-income subscribers.

A. GENERAL

1. Lifeline is a Federally funded reduction of the subscriber line charge (SLC) and a reduction of local service. Eligible applicants will receive a reduction of **\$8.25** on their local telephone bill. (1)
2. Federal Universal Service Fund End User Charge will not be billed to Lifeline customers.
3. Local service for Lifeline subscribers may not be disconnected for non-payment of toll charges.
 - a. Toll Restriction Service will be provided to Lifeline subscribers at no charge.
 - b. Lifeline subscribers are not required to accept Toll Restriction Service as a condition to avoid disconnection of local service for non-payment of toll.
 - c. Lifeline subscribers are not required to pay a service deposit in order to initiate service if the subscriber voluntarily elects to receive Toll Restriction Service.
4. Partial payments from Lifeline subscribers will be applied first to local service charges and then to toll charges.
5. Lifeline subscribers will not be denied re-establishment of service on the basis that the subscriber was previously disconnected for non-payment of toll charges.
6. Lifeline will not be furnished on a Foreign Exchange.

O. LIFELINE ASSISTANCE (Cont'd)

2. Regulations

a. Lifeline Assistance is available to residential customers who are currently participating in one of the following Federal assistance programs and who have been certified by the Department of Social Services (DDS) as economically disadvantaged:

(1) Low income assistance is available to all residential customers who demonstrate, by self certifying with the Telephone Company under penalty of perjury, that they are eligible for support by participation in:

- (a) Medicaid (MO HealthNet);
- (b) Supplemental Security Income (SSI);
- (c) **Supplemental Nutrition Assistance Program (SNAP);**
- (d) Federal public housing assistance, or Section 8;
- (e) Low Income Home Energy Assistance Program (LIHEAP);
- (f) Temporary Assistance For Needy Families (TANF);
- (g) National School Lunch's free lunch programs (NSL); or

(T)

b. State funded Lifeline Assistance is available to customers who are currently participating in one of the Federal programs outline above in O.2.a.(1), or in one of the following State programs. Eligible disabled Missouri customers who do not participate in the above referenced Federal programs, but who do participate in any of the following state programs, will only receive state support of \$3.50 per month.

(1) Disabled Assistance

A disabled customer, or a dependent, is a customer who requests or received residential local telecommunications service and meets the eligibility requirements set forth below. Disabled assistance is available to all residential customers who demonstrate, by self certifying with the Telephone Company under penalty of perjury, that they or a dependent, are totally and permanently disabled or blind and receiving any of the following:

- (a) Federal Social Security Disability benefits;
- (b) Federal Supplemental Security income benefits;
- (c) Veterans Administration benefits;
- (d) State blind pension pursuant to Section 209.010 to 209.160, RSMo;
- (e) State aid to blind persons pursuant to Section 209.240 RSMo; or
- (f) State supplemental payments pursuant to Section 208.030, RSMo Section 660.100.2 RSMo 2000.

O. LIFELINE SERVICE (Cont'd)

DEC 1 1997

B. ELIGIBILITY REQUIREMENTS

1. Lifeline will be provided for one (1) telephone line per household, at the subscriber's principle place of residence, to those individuals who meet the following two requirements:

- a. The applicant must have only one local exchange access line to his/her residential premises or dwelling place¹.
- b. The applicant's total household gross income does not exceed 150% of the Federally established poverty levels set forth for the number of persons in applicant's household.

2. Verification of the first requirement (a) will be accomplished through self-certification.

3. Verification of the second requirement (b) will be accomplished by the Telephone Company. A service order to enact Lifeline Service will not be issued until proof of the applicant's income level has been obtained and verified. As proof of income eligibility, an applicant can:

a. Show that he/she is currently a recipient of benefits from one of the following public assistance programs:

(1) The specified programs are as follows:

- Aid to Families with Dependent Children (AFDC)
- Food Stamps
- Home Energy Assistance Program (HEAP)
- Medicaid
- Supplemental Security Income (SSI)
- Federal Public Housing Assistance

CANCELLED
MAY 01 2005
1st RSK
Missouri Public Service Commission

¹ A residential premises or dwelling place is intended to be that location where an applicant resides, even if such residential premises or dwelling place is only a single room. Lifeline will not be provided if the applicant has access to other local exchange access telephone service within the residential premises or dwelling place, provided/owned by himself/herself or owned/provided by others. If, however, it can be determined by the Telephone Company that access to such other existing local exchange telephone service, owned/provided by others is virtually denied, or is inaccessible to the applicant, then Lifeline Service will be provided to the applicant.

O. LIFELINE ASSISTANCE (Cont'd)

2. Regulations (Cont'd)

- c. The Access Line must be in the Lifeline recipient's name.
- d. At no time shall a customer's Lifeline rate go below zero.
- e. A Lifeline customer may subscribe to any local service offering available to other residence customers, **except suspension** of service which **is** not available on Lifeline Assistance. (C)
- f. The applicant must have only one local exchange access line to his/her residential premises or dwelling place¹.

3. Obligations of the Telephone Company

- a. Participants in Lifeline Assistance shall not be disconnected from local service for non-payment of toll charges. In addition, the Telephone Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges.
 - (1) Any Lifeline customer who has a past due balance in toll message charges will be automatically restricted from access to toll services until the outstanding balance is paid. The Restoral of Service charge applies to Lifeline customers who message toll service has been restricted for non-payment. If a Lifeline customer is toll restricted for a second occurrence, the Telephone Company may, at its discretion, place the Lifeline customer on a permanent toll restriction.
- b. Partial payments that are received from Lifeline customers will first be applied to local service charges and then to any outstanding toll charges.

¹ A residential premises or dwelling place is intended to be that location where an applicant resides, even if such residential premises or dwelling place is only a single room. Lifeline will not be provided if the applicant has access to other local exchange access telephone service within the residential premises or dwelling place, provided/owned by himself/herself or owned/provided by others. If, however, it can be determined by the Telephone Company that access to such other existing local exchange telephone service owned/provided by others is virtually denied, or is inaccessible to the applicant, then Lifeline Assistance will be provided to the applicant.

O. LIFELINE SERVICE (Cont'd)

B. ELIGIBILITY REQUIREMENTS (Cont'd)

3. (Cont'd)

a. (Cont'd)

(2) Individuals choosing this option are required to obtain and mail to the Telephone Company a photocopy of a valid identification card or the appropriate documents that are issued to them by the agency administering the program.

b. Provide a copy of the most recent Individual Income Tax Return that was submitted to the Internal Revenue Service.

(1) Individuals choosing this option are required to obtain and mail to the Telephone Company a photocopy of the most recent U.S. Individual Tax Return (Form 1040, 1040A or 1040EZ) that was submitted to the Internal Revenue Service.

c. The Telephone Company will look at the number of exemptions reported to determine the size of the family unit and the dollar amount reported on the adjusted gross income line. These figures will then be compared to current federal poverty income level guideline tables, as published in the Federal register, to determine if the applicant meets the income criteria.

C. CERTIFICATION

1. The applicant will certify eligibility for Lifeline Service. Recertification is required annually or at any time the qualifying criteria for recipients changes.

Recipients of Lifeline Service must notify the Telephone Company when they no longer qualify for Lifeline Service. Upon receipt of the notification, the Telephone Company will discontinue Lifeline Service.

If the Telephone Company discovers that conditions exist that disqualify the recipient of Lifeline Service, local service will be billed at the full rate. The customer will be billed retroactively to whichever is the most recent of the dates Lifeline Service commenced or the recipient no longer qualifies for the service not to exceed 12 months.

4. Obligations of the Customer

The Telephone Company shall require, as proof of eligibility for Lifeline Assistance, a document signed by the customer, certifying under penalty of perjury that the customer is receiving benefits from one of the programs identified; identifying the specific program or programs from which the customer receives benefits, and agreeing to notify the carrier if the customer ceases to participate in such program or programs. If a customer is simultaneously applying for both Lifeline and Link Up, such customer may utilize the same document to verify eligibility for both programs.

5. State Universal Service Assessment

Beginning May 1, 2005, the Telephone Company will assess a surcharge to support low income/disabled universal services in Missouri. This surcharge, equal to the Missouri Universal Service Fund (USF) percentage assessment ordered by the commission, will be a percentage of the regulated customer's retail revenues that meet the definition of net jurisdictional revenues at 4 CSR 240-31.010(12). The surcharge will appear as a separate line item detailed as "Missouri Universal Service Fund". The surcharge will not be assessed on Lifeline, coin, wireless or resold accounts, or on unregulated services including, but not limited to, maintenance and inside wiring charges.

MISCELLANEOUS EQUIPMENT AND SERVICE

P. TOLL AND CASUAL DIALING RESTRICTION SERVICE

1. Description

Where central office facilities permit, Toll and Casual Dialing Restriction prevents the completion of certain types of calls. Toll and Casual Dialing Restriction may be provided with individual line residence and business exchange services in exchanges equipped to program Toll and Casual Dialing Restriction without alteration of the central office equipment.

2. Terms and Conditions

- a. Toll and Casual Dialing Restriction Options 1 and 2 restrict access to 1+, 0+ 0-, and 00-, and restrict access to 01/011+ numbers outside of the North American Numbering Plan. Access to 900, 976, 500 and 700 numbers is also restricted in addition to Directory Assistance and the casual dialing of toll calls (by preceding the telephone number with 101XXXX+). Option 1 additionally restricts access to Toll Free Code numbers.
- b. Restriction of access to operator services prevents the customer from dialing an operator for all purposes, including emergencies, assistance and the placing of toll calls. Operator Services will not be accessible from a line with Toll and Casual Dialing Restriction Option 1 or 2. The customer indemnifies and saves harmless the Company from any and all claims, losses, or damages caused by restriction of access to operator services.
- c. Directory Assistance (411, 1411, 555-1212, 1-555-1212, or 1-NPA-555-1212) will not be accessible from a line with Toll and Casual Dialing Restriction Option 1 or 2.
- d. All local calls and non-chargeable calls to Company numbers (such as repair service) will be permitted.
- e. Where facilities allow, N11 (except 411) will only be restricted with Option 1 and 2 if the call terminates outside the local calling area or to a non-toll-free number.
- f. Toll and Casual Dialing Restriction does not restrict calls to 911 emergency reporting service or to 1+710 Government Emergency Telecommunications Service Calls.
- g. Customers are responsible for calls charged to their number via third number billing, collect or credit card.

MISCELLANEOUS EQUIPMENT AND SERVICES

Q. CALL LINE IDENTIFIER

1. General

- a. Call Line Identifier is used to attempt to trace and identify, at the request of a subscriber, the source or origin of obscene, harassing, and/or other nuisance type of telephone calls. Call Line Identifier service is intended for situations where subscribers require extended trace for a specified length of time on a per line basis. The Call Trace feature, as specified in Section 43 of this tariff, differs from Call Line Identifier service in that Call Trace is activated on a per call basis.

2. Regulations

- a. Subscribers initiate requests for Call Line Identifier service by contacting the Annoyance Call Center.
- b. Requests for Call Line Identifier service will be evaluated by the Annoyance Call Center. The Telephone Company will trace calls when requested based upon the availability of line identification equipment.
- c. Call Line Identifier service will apply per line upon request at the rates and for the time periods specified in Section 18.Q.3. following.
- d. The Telephone Company does not guarantee successful call trace results when line identification equipment is placed. When call trace results are successful, the identity of the offending line subscriber will only be furnished to the appropriate law enforcement agency, pursuant to signed Disclosure Authorization by the offended subscriber.
- e. In the event a customer requested call trace is unsuccessful, the customer will be given the option of changing the telephone number at no charge.
- f. The Telephone Company will not be liable for any damages or injuries of whatever kind to property or to any individuals, which may, in any manner, result from the provision of this service, or from any mistakes, interruptions, delays, or errors by the Telephone Company in connection with Call Line Identifier service which were not caused by the Telephone Company's failure to maintain proper standards of maintenance and operation or by the Telephone Company's failure to exercise reasonable supervision (i.e., willful neglect).

R. SATISFACTION GUARANTEE PROGRAM

1. General

- a. A Satisfaction Guarantee Program is provided for business customers who subscribe to any business service provided under this tariff. Under this program, a customer may cancel service within 90 days of the service installation date without incurring a contractual termination liability or payment of any minimum service period amounts when the customer is not satisfied with the service provided by the Telephone Company. To qualify the customer must submit the cancellation notice to the Telephone Company via a web based on-line form within 90 days of the service installation date and at least 48-hours before the Telephone Company receives a disconnection request from the customer or its new Local Telephone Service Provider.
- b. If the customer had service at the same location from another Local Telephone Service Provider prior to obtaining service from the Telephone Company and returns to that provider, the customer may be eligible for reimbursement of up to \$500 per customer location by the Telephone Company of the installation charges assessed by the provider. To be eligible, the service must be of the same type, level, and under the same contractual period as was provided by that provider immediately prior to obtaining service from the Telephone Company.
- c. All reimbursements will be issued in the form of a check. The customer is responsible for payment of all invoices issued prior to the date of disconnection and for payment of the final invoice rendered by the Telephone Company. Credits against past due invoice amounts will not be issued. The reimbursement check will be issued upon the Telephone Company's receipt of payment of all invoices.

2. Regulations

- a. The customer must provide the Telephone Company with notice of cancellation prior to contacting the former Local Telephone Service Provider to have service re-connected. When re-connecting with a former Local Telephone Service Provider the customer must allow the Telephone Company a maximum of 30 days from the date the customer's cancellation notice is received prior to having the service(s) disconnected.
- b. To receive reimbursement under this program, the customer must submit in writing a completed Satisfaction Guarantee Program reimbursement claim form to the Telephone Company within three months of the customer's service disconnect date. Reimbursements will be processed within 60 business days from the date the Telephone Company receives the reimbursement claim form. The reimbursement claim form must contain the following:
 - (1) Notice that the customer is invoking the Satisfaction Guarantee Program;
 - (2) Identification of prior service(s) that were disconnected by the Telephone Company;
 - (3) Reasons for disconnecting service(s);

MISCELLANEOUS EQUIPMENT AND SERVICES

R. SATISFACTION GUARANTEE PROGRAM (Cont'd)

2. Regulations (Cont'd)

b. To receive the reimbursement under this program... (Cont'd)

- (4) Signature of a customer representative requesting the Satisfaction Guarantee Program including telephone number and address;
- (5) A copy of an invoice from the customer's former Local Telephone Service Provider listing the applicable installation charges;
- (6) A copy of the customer's last invoice with the Telephone Company; and
- (7) A copy of the customer's last invoice for services received from the former Local Telephone Service Provider immediately prior to switching to the Telephone Company.

3. Limitations

- a. This program is not available to customers who cancel service(s) and replace the service(s) with another service provided by the Telephone Company. This program also is not available to customers for whom installation of the Telephone Company's tariffed services required special construction or special configurations.
- b. If the customer did not previously have service at the same location to which the service was provided, or if the former Local Telephone Service Provider will not or cannot provide service of the same type, level, and under the same contractual period as previously provided, the Telephone Company will not reimburse the customer for installation charges.
- c. If the customer who cancels the service(s) provided by the Telephone Company obtains service from a Local Telephone Service Provider other than the former Local Telephone Service Provider, the Telephone Company will not reimburse the customer for any installation charges passed on by that provider to establish service.
- d. The reimbursement of installation charges is limited to a maximum of \$500 per customer location for each customer location that qualifies under the program.

4. Liability Limitations

The Telephone Company is not liable for any outage, damages or inconvenience encountered by the customer when switching service back to its former Local Telephone Service Provider.

MISCELLANEOUS EQUIPMENT AND SERVICES

S. VOICE BUSINESS CONTINUITY

1. General

- a. Voice Business Continuity allows the subscriber to establish predetermined alternate routing plans for incoming voice traffic. Voice Business Continuity can be used as a disaster recovery service. The alternate routing plan, referred to hereafter as "Routing Plan," is created by the subscriber working with a Company representative when Voice Business Continuity is established. The Routing Plan is then loaded into the central office which serves the customer location, where it remains dormant until activated. This service is available with T1 based voice channel service such as ISDN-PRI II and Digital Trunking Service.
- b. The subscriber must establish a Routing Plan for each location included in the serving arrangement for which traffic is to be rerouted. The Voice Business Continuity subscriber must then contact the Company to activate the Routing Plan(s). This will route traffic to number(s) preselected by the Voice Business Continuity subscriber. In order to restore the original call routing, the subscriber must contact the Company to deactivate the alternate routing plan.
- c. Voice Business Continuity is designed to be a disaster recovery service and is not available for routine call routing such as after hours call forwarding. The Company reserves the right to deny activation if this service is used for non-emergency situations.

2. Definitions

ARRANGEMENT

Consists of one or more Routing Plans that have been identified by the subscriber.

BACKUP NUMBER

The number that calls are rerouted to when the Routing Plan is activated.

REDIRECTED NUMBER

Any subscriber number at the customer location included in the Routing Plan for which incoming calls will be rerouted when the plan is activated.

ROUTING PLAN

The alternate call routing plan established by the subscriber that can be activated at the subscriber's request. The Routing Plan handles any quantity of telephone numbers at one customer location. Additional Routing Plans are required for each additional customer location.

MISCELLANEOUS EQUIPMENT AND SERVICES

S. VOICE BUSINESS CONTINUITY (Cont'd)

3. Regulations

- a. Voice Business Continuity is available where facilities or arrangements permit. The Company has the right to deny a request due to other operational priorities or the nature of the request.
- b. The Voice Business Continuity subscriber must specify one or more primary points of contact and password which will be used by the Company representative to verify a request to activate, deactivate, or modify a subscriber's Routing Plan.
- c. If the subscriber requests a Routing Plan with three or more Backup Numbers, requests assignment of a Redirected Number with more than one Backup Number, or requires that the Routing Plan handle more than twelve simultaneous calls to the Redirected Number, the Route Complexity Charge will apply. A Route Complexity Charge may also apply for other complex scenarios as identified by the Company. Provisioning of such requests is subject to approval of the Company and acceptance of the subscriber of the additional charge prior to provisioning by the Company.
- d. A subscriber must identify one Backup Number for each Redirected Number in the Routing Plan or one Backup Number for multiple Redirected Numbers in the Routing Plan.
- e. Upon request of the Voice Business Continuity subscriber, the Company will work with the subscriber to test the operation of the Routing Plan after initial establishment. Also upon request by the subscriber, the Company will test normal service before initiating recovery from an activated Routing Plan.
- f. After initial establishment of the Routing Plan the subscriber may change the plan for a given location up to five times per contract year, at no charge. A Plan Update Charge will apply for all subsequent changes. Changes include, but are not limited to, adding or dropping a number or changing a Backup Number(s).
- g. The Voice Business Continuity subscriber is responsible for payment of usage charges (toll, expanded local, or other) for each call routed to a subscriber location not included in the same local calling area as the original subscriber location.
- h. Unless the Voice Business Continuity subscriber identifies a different Interexchange Carrier (IC) for any traffic routed to an out of LATA location, the Routing Plan will use their existing IC.
- i. This service is not eligible for Temporary Suspension of Service (Vacation Service) as specified in Section 34 of this Tariff.

Original Page 24

MISCELLANEOUS EQUIPMENT AND SERVICES

S. VOICE BUSINESS CONTINUITY (Cont'd)

3. Regulations (Cont'd)

- j. Each of the Voice Business Continuity subscriber's Redirected Numbers must reside in a Company central office.
- k. The Voice Business Continuity subscriber is responsible in ensuring that the Backup Number(s) have adequate facilities to support the increase in call volume.
- l. The activated Routing Plan will remain active until the Voice Business Continuity subscriber requests to have original call routing restored.

4. Limitation of Liability

The following provisions apply in addition to the Limitation of Liability provisions specified elsewhere in this Tariff.

- a. Voice Business Continuity is intended to allow a subscriber to reroute incoming calls. It may provide help during some network affecting problems, such as a cut cable between the end office and the subscriber's location by rerouting incoming calls to an alternate location. However, the Company does not guarantee the availability or reliability of Voice Business Continuity in the event of a network affecting disaster. In the event of a network affecting disaster, Voice Business Continuity may function normally, may not function at all, or it may function unpredictably depending on what part of the network is affected and how serious the affect is.
- b. Activation of subscriber plans will be performed on a first come, first served basis. When the subscriber requests that Voice Business Continuity be activated, every effort will be made to activate the service as rapidly as possible. However, the length of the delay between the time that the subscriber requests activation and the time that activation actually occurs depends on a number of factors including the number of other Voice Business Continuity activations being processed when a particular request is received as well as the network load at the time the Voice Business Continuity activation command is received. In the case of an area-wide crisis, if many subscribers call at the same time to request service activation, those calling last may have a considerably longer waiting period for activation to be completed. As a result, no representation is made as to the length of time it will take to implement a particular activation request.

MISCELLANEOUS EQUIPMENT AND SERVICES

S. VOICE BUSINESS CONTINUITY (Cont'd)

4. Limitation of Liability (Cont'd)

- c. In no event shall the Company, nor its agents, be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, or its employees, or agents, in connection with this Tariff. Neither the Company, nor its agents, shall be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment, nor on equipment owned or leased by the subscriber.
- d. Neither the Company, nor its agents, assume liability for any loss of revenues, increased costs, expenses, liabilities, or inconvenience experienced by the subscriber due to any unsatisfactory performance of Voice Business Continuity. Further, neither the Company, nor its agents, shall assume any liability for consequential, indirect, or incidental damages.

5. Restrictions

A Voice Business Continuity alternate routing number cannot be a subscriber Redirected Number in another active routing plan within the LATA.

6. Rates and Charges

a. Application of Rates

- (1) The Voice Business Continuity Nonrecurring Charge and Monthly Rate apply for each Routing Plan established by the subscriber.

6. Rates and Charges (Cont'd)

a. Application of Rates (Cont'd)

- (2) The Route Complexity Charge may apply as deemed by the Company and is dependent upon the complexity of the Routing Plan. Charges will be communicated to and accepted by the customer prior to establishing the Routing Plan.
- (3) A Voice Business Continuity monthly rate will apply per subscriber location based on the length of customer commitment will be 12, 24, 36, and 60 months. Subscribers who terminate prior to the expiration of the commitment period will incur termination charges. Termination charges will be calculated by multiplying the number of months remaining in the commitment period times 50 percent of the applicable monthly rate for each Routing Plan prematurely disconnected.
- (4) The Plan Update Charge applies for subscriber-initiated changes to a Routing Plan in excess of the five changes allowed per contract year. Also, a subscriber may incur additional charges if requested changes to the Routing Plan warrant a Route Complexity Charge.
- (5) Customers who request activation of a Routing Plan within three business days of establishing the service will incur a Priority Setup Request Charge, although there is no guarantee that the Company will meet the requested date.
- (6) Service Connection Charges as specified in Section 30 of this Tariff will not apply.

T. EXTENSION SERVICE

(T)

1. GENERAL

(M) (T)

An extension is an additional station instrument connected to the same circuit as the main station, and having the same telephone number as the main station.

2. CONDITIONS

(T)

a. Extension service may be furnished in connection with all classes and grades of local service except Public Telephone Service and Service Station service.

(T)

b. Mileage charges apply for each on-premise extension service outlet located over 300 feet from the main station, and for all off-premise extension outlets. See the "Explanation of Terms" Section for definition of "Premise" and **Section 17 "Mileage," of this** Tariff.

(T)

(T)

(T)

c. Off-Premise extension service may be furnished at any reasonable location, subject to the following conditions:

(T)

(1) It is provided to Individual Line Service only.

(T)

(2) Business extensions may be located on the premises of another business when each party has its own separate Access Line Service.

(T)

(3) Residence extensions may be located on the Premises of another customer when each has their own Access Line Service.

(T)

(4) Business extensions may be located at residence locations provided there is a separate residence Access Line Service. If a proprietor actually lives in his business establishment, a business extension will be permitted without the requires separate residence Access Line Service.

(T)

(5) If unusual construction of facilities is required, charges may apply in accordance with the "Construction and Installation Charges" section of this tariff.

(T)

(M)

(M) Material now appearing on this page previously appeared in Section 11 on First Revised Page 1.
