5.2 Toll-Free Service

1. Description

- A. Toll-Free Service is an inbound service originating on feature group facilities provided by the Local Exchange Carrier (LEC) and terminating on a Regular Business Line or a Special Access Line (SAL). This service enables the Customer to receive toll-free service calls at their residence or place of business.
- B. The Company reserves the right to require an applicant for the Company's Toll-Free Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company also reserves the right to withdraw service without notice in the event the Customer is using the service to commit unlawful acts. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.
- C. Toll-Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish Toll-Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

5.2 Toll-Free Service (Cont.)

1. Description (cont.)

D. The Customer must obtain an adequate number of access lines for Toll-Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Toll-Free Service to any Customer that fails to comply with these conditions.

E. Use of numbers: Each Toll-Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any toll-free telephone number associated with Toll-Free Service that has not been placed in actual and substantial use during the first 60 day period after service activation may be redesignated as a spare number in the SMS toll-free database by the Company upon written notice to the Customer.

REC'D SEP 09 1999

1. Description (Cont'd)

F. If the Customer requests assignment of a specific Toll-Free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than 10 numbers reserved. Any reservation shall be for no more than 60 days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after Toll-Free Service has been in actual and substantial use for a consecutive 60 day period.

Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved toll-free telephone numbers hereunder or Customers who subscribe to and use Toll-Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular toll-free number; however, upon placing a number actually and substantially in use, as defined above, Toll-Free Service Customers do have a controlling interest in this toll-free number(s). Toll-Free Service Customers may retain the use of their toll-free number assignments, even following changes in their toll-free carrier and/or Resp. Org.

A. Inward Calling Service

This service permits intrastate calls to be delivered to a customer's location from stations throughout the state. The Toll-Free Service customer is billed for the calls rather than the calling party. Different service options are available depending on the type of access connection between the customer and the Company.

The applicable usage rate depends upon the customer's service option, the distance between originating and terminating points and the rate period(s) in which the call occurs. Calls are billed in increments of six seconds and subject to a minimum average requirement of 30 seconds per call during a billing period. Discounts are given based upon the customer's usage volume and the applicability of any optional billing plan discounts. A minimum usage requirement applies to Dedicated Termination arrangements. Service ordering charges and access and installation charges apply to this service, as well as a monthly charge for the Toll-Free Service number (s) provided.

3. OnLine Calling Card

A. Description

OnLine calling card is available to residential and commercial customers. Travel Cards previously issued to Military Communications Center, Inc. ("MCC") will be provided service under the terms and rates of this section. Non-Company customers may also subscribe to OnLine as a stand alone service. Customers may place domestic and international long distance calls using this service. Enhanced services such as voice mailbox and message delivery are available as an option of this service.

OnLine access can be from either a tone generating or rotary-dial telephone and is gained by dialing the Company's toll-free access number. Calls originating from rotary phones will be completed with the assistance of operators. Incremental usage rates apply. Total monthly usage contributes to volume discount. The volume discount is applied retroactively to peak usage only.

As an introductory offer, new customers of OnLine card service may redeem a coupon for credit off their first full month's invoice. Coupons have no cash value and cannot be rolled over to the next month. Coupons must be redeemed prior to its expiration date.

The time of day rate periods for OnLine Service will be Peak and Off-Peak. Peak rates apply to all calls that occur between 8AM and 5PM Monday through Friday, except on Company-recognized holidays. Off-Peak rates apply to all other calls.
