**TARIFF FORMAT**

**MAY 20 1996**

**A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, Missouri Pages are occasionally added to the tariff. When a Public Service Commissioner between Pages already in effect, a decimal is added. For example, a new Page added between Pages 14 and 15 would be 14.1.

**B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current Page version on file with the PSCM. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the PSCM follows in its tariff approval process, the most current Page number on file with the Commission is not always the tariff page in effect.

**C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.

3.3 Calculation of Distance

Usage charges for mileage sensitive services vary based on the type of service subscribed to by the Customer. For services utilizing switched access, mileage measurements for rate schedules are based on the distance in airline miles between rate centers associated with the originating and terminating stations. For services utilizing dedicated access, mileage measurements for rate schedules are based on the distance in airline miles between the LDWC network access point associated with the station utilizing Dedicated Access Origination/Termination and the rate center associated with the called/calling station.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center or network access point serving the Customer's location and the called/calling station.
- Step 2: Obtain the difference between the "V" coordinates. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating locations of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.6 Customer Referral Program

MAY 20 1996

Customers who have selected LDWC as their primary interexchange carrier or who access LDWC service via dialing are eligible to participate in the Customer Referral Program. Participants in the Customer Referral Program will receive a discount equal to 5% of the monthly LDWC long distance usage generated by customers whom they refer to LDWC.

For the purposes of this program, "usage" is defined as charges for interstate, interLATA and intraLATA long distance calls placed over the LDWC network. Directory assistance, non-recurring or recurring fees and taxes are not considered usage and are therefore not eligible for the monthly discount.

The discount will be calculated monthly and applied to the Referral Program Customer's monthly bill in the form of an electronic credit or a check made payable jointly to the Customer and the LEC.

3.6.1 In order to receive Referral Program discounts, the following conditions must be observed:

- (A) Customer must maintain a LEC account in an area within LDWC's originating service area.
- (B) Customer must make at least one billable LDWC long distance call per month or they forfeit that month's referral discount.
- (C) Customer's Referral Customer must make at least one billable LDWC long distance call every 3 months. Should a Referral cease using LDWC for a period longer than 3 months, the Referral may be purged from the LDWC billing database and disassociated from the Customer's account.
