SPECIAL PROMOTIONS (Continued)****RECEIVED****FEB 22 2001****6.2 Special Promotions (Continued)****30-60-90 Free Minutes**

This promotion is available to new, existing and returning residential Customers who presubscribe to Company's domestic intrastate, interstate, and international service through Company-designated sales channels for Company-designated marketing campaigns. Minutes will be awarded to Customer in the form of a credit beginning with Customer's first partial or next full month of service following enrollment in this promotion and continuing for three months.

Company-forecasted spending levels for the residential Customer, or the residential Customers reported spending levels, qualify Customer for one of the following levels of free minutes credits.

All intrastate, interstate, international direct dialed usage, calling card, operator services, and toll free usage - up to the limits detailed below - contribute toward calculation of free minutes credits. Free minutes credits are calculated at tariffed rates, prior to the application of any other credits. Free minutes must be used in the month granted and will not carry over from month-to-month except for any unused minutes in the first partial month, which will be carried over to the next month.

The residential Customer who discontinues Company's service, or whose service is discontinued by Company prior to exercising earned free minutes, forfeits remaining eligibility.

**SECTION 5 - RATES AND CHARGES (Continued)**

(N)

**5.38 Frame Relay IV Service**

Unless otherwise noted, the following rates and charges will remain in effect for the full term of Customer's contract.

**A. Local Access Facilities**

Carrier will establish access arrangements on behalf of Customer when Full Service Frame Relay IV Service is purchased.

Under the terms of the Full Service Agreement, Carrier will order access facilities. Coordination of installation, maintenance, repair, test and turn-up will be coordinated by Carrier with the company(ies) supplying the access services. Customer will be billed for the access at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer.

**1. Local Access Coordination Charges**

?? Access Coordination Charges are applied on a per-access line basis.

?? Access Coordination Charges are waived for contract terms greater than one year.

**Nonrecurring Local Access Coordination Charges**

|      |       |
|------|-------|
| DS-0 | \$ 25 |
| DS-1 | 50    |
| DS-3 | 100   |

**B. Low Speed Frame Relay Rate Schedules (DS-1 speed and below)****1. Low Speed National UNI Port**

Charges include a Monthly Recurring Charge (MRC) based on the speed of the port connection (i.e., 56 Kbps to 1.536 Mbps). Charges apply per UNI port for each frame relay access facility to the network supporting Frame Relay IV Service. Each port can accommodate multiple PVCs. A port added to the network after initial installation will be considered a new element and the total network MRC will be adjusted incrementally for that port. This interface transports data traffic to and from Customer's facilities to Carrier's network for transport to, for example, other Customer facility locations.
