Holway Long Distance Company d/b/a Holway Long Distance (Holway) applied to the Missouri Public Service Commission (Commission) on May 26, 2000, for an order that (a) grants Holway a certificate of service authority to provide interexchange and local exchange telecommunications services in Missouri pursuant to Chapter 392 of the Missouri Revised Statutes; (b) designates Holway and the interexchange telecommunications services to be provided by Holway as competitive telecommunications services; and (c) waives certain Commission rules and statutory provisions pursuant to Section 392.420,

RSMo. Supp. 1999¹, in relation to Holway's provision of interexchange telecommunications services. Holway is a Missouri corporation with its principal office located at 208 Ash Street, P. O. Box 112, Maitland, Missouri 64468.

The Commission issued an order directing notice, containing a notice of applications for intrastate certificates of service authority and opportunity to intervene on June 2, 2000, directing parties wishing to intervene to file their requests by June 22, 2000. The requirement for a hearing is met when the opportunity for hearing has been provided and no proper party has requested the opportunity to present evidence. State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission, 776 S.W.2d 494, 496 (Mo. App. 1989). Since no one has asked permission to intervene or requested a hearing, the Commission may grant the relief requested based on the application.

Holway filed a proposed tariff in conjunction with its application and filed substitute sheets on June 23, 2000. The tariff's effective date is July 10, 2000. Holway's tariff describes the rates, rules, and regulations it intends to use, identifies Holway as a competitive company, and lists the waivers requested. Holway proposes to resell one plus (1+) interexchange telecommunications services and associated operator and directory assistance services to business and residential customers in the Missouri exchanges of Maitland and Skidmore.

¹ All references herein to sections of the Revised Statutes of Missouri (RSMo), unless otherwise specified, are to the revision of 1994.

Procedural History of the Transfer of Assets Portion of the Application

In the same application, Fiber Four Corporation (FFC), a Missouri corporation, joined with Holway (jointly, Applicants) in requesting the Commission to issue an order (a) granting the Applicants authority to transfer a portion of the assets of FFC, described in the asset purchase agreement attached to the application, including the name "Holway Long Distance" (HLD), the customers of HLD, and HLD's associated billed revenues and receivables, to Holway pursuant to Section 392.300; and (b) simultaneously canceling the certificate of service authority and existing tariff of FFC, granted by the Commission on August 26, 1999, in case number TA-2000-24, and approving the new tariff of Holway filed with the Applicants' joint application.

The Commission's order directing notice issued on June 2, 2000, also included an order directing parties wishing to intervene to file their requests by June 22, 2000. No party intervened in this portion of the application.

Common Procedural History

FFC stated that copies of its articles of incorporation and its certificate of corporate good standing from the Missouri Secretary of State were and directors were previously filed with in case number TA-2000-24, and are incorporated by reference.

FFC stated that in addition to the private line services offered by FFC pursuant to its authority granted in case number TA-96-376, FFC currently resells interexchange telecommunications services under, *inter alia*, the following trade name: Fiber Four Corporation d/b/a

Holway Long Distance. FFC stated that a copy of its registration of the fictitious name of "Holway Long Distance" was previously filed in case number TA-2000-24 and is incorporated by reference.

FFC stated that it currently provides long distance service to local exchange customers in the Missouri exchanges of Maitland and Skidmore.

In its memorandum filed on June 29, 2000, the Staff of the Commission (Staff) stated that, although Holway requested statewide authority to provide interexchange and local exchange telecommunication service, Holway proposed to provide service initially only to customers in the Maitland and Skidmore exchanges. Staff stated that Holway had no pending actions or final judgments or decisions against it from any state or federal agency which involved customer service or rates. Staff recommended that the Commission grant Holway the waivers listed in the joint application.

Regarding the application for transfer of assets, Staff stated that FFC proposed to transfer a portion of its assets to Holway. These assets included the name "Holway Long Distance," the customers of FFC, and the associated billed revenues and receivables. Staff stated that the asset purchase agreement was attached to the joint application as Appendix D. Staff was of the opinion that the proposed transfer of assets should have no impact on the tax revenues of the political subdivisions in which the structures, facilities and equipment of the companies are located. Staff noted that according to the joint application, Holway will provide service under the same rates, terms and conditions as are currently provided by FFC.

Staff stated that affected customers would be notified of the transfer of assets by a direct mail notice which was attached to the joint application as Appendix C. The notice, Staff said, explained the procedure for customers to use if they want to switch to another carrier.

The Staff recommended that the Commission grant Holway a certificate of service authority to provide interexchange and local exchange telecommunications services and classify the company and its services as competitive.

The Commission issued a notice requiring filing on June 27, 2000, because Holway had failed to include its registration of fictitious name with its application. Holway responded on June 29, 2000, by filing a pleading that stated that Holway does not seek a certificate using a fictitious name, but rather seeks a certificate in its corporate and legal name.

Staff also recommended that the Commission approve the proposed transfer of assets and cancel FFC's temporary certificate of service authority and accompanying tariff simultaneously with the approval of Holway's certificate and tariff. Staff stated that the transfer of assets was not detrimental to the public interest.

Findings

The Commission finds that competition in the intrastate interexchange and non-switched local exchange telecommunications markets is in the public interest and Holway should be granted a certificate of service authority. The Commission finds that the services Holway proposes to offer are competitive and Holway's

services should be classified as competitive. The Commission finds that waiving the statutes and Commission rules set out in the ordered paragraph below is reasonable and not detrimental to the public interest.

The Commission finds that Holway's proposed tariff details the services, equipment, and pricing it proposes to offer, and is similar to tariffs approved for other Missouri certificated interexchange and non-switched local exchange carriers. The Commission finds that the proposed tariff filed on May 26, 2000 shall be approved as amended to become effective on July 10, 2000.

The Commission has reviewed the application, the Staff's recommendation, and the official case file. The Commission finds that approval of the transfer is not detrimental to the public interest and the authority requested should be granted.

3.11 Calculations of Distance for IntraLATA Calls

- 3.11.1. Unless otherwise specifically stated in this tariff, all calls, regardless of time period, lasting one (1) minute or a fraction thereof, are subject to a minimum billing increment of one (1) minute. In determining usage charges, Peak/Off-Peak/Holiday rate periods, as defined in Section 5.1 of this tariff, apply, unless otherwise indicated, and are based on the time where the call originates. In cases where a call begins in one rate period and continues into another rate period, the rate in effect in each period will apply to the portion of the call occurring within the applicable rate period.
- 3.11.4. All per-call charges of fractional cents shall be rounded to the next full cent unless otherwise stated.
