A. General

1. Enhanced Emergency Number Service, also referred to as E911 Service, is a telephone exchange communication service whereby a Public Safety Answering Points (PSAP) designated by the customer may receive and answer telephone calls placed by dialing 911. It includes the services provided by the lines and equipment associated with the service arrangement, for the answering, transferring, and dispatching of public emergency telephone calls dialed to 911.
2. Equipment used in conjunction with Enhanced 911 Services located at the PSAP is the responsibility of the customer.
3. E911 Service is offered subject to availability of facilities.
4. The E911 service customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police and fire and other services within the telephone Central Office areas arranged for E911 Service calling.
5. Enhanced 911 Service is available in four elements as follows:

 - (1) ANI Spill does not guarantee the capability of forwarding the number of an off premise extension; or stations behind business systems will possess the identity of the main billing number.
 - (2) ANI Spill can only be provided with the use of dedicated facilities from the central office serving the end user to the PSAP.
 - (3) The PSAP's premises equipment used in conjunction with E911 ANI Spill Service must be reviewed by the Telephone Company to determine the compatibility of the unit with the E911 Service requested.

Federal Communications Commission ("FCC") Docket 92-105 mandates that incumbent local exchange carriers in each local calling area make the 811 abbreviated dialing code available to a SOCS as a tariffed, local calling area based service (the "811 Service").
2. The 811 Service allows a Company subscriber to access a SOCS call center by dialing only the 811 abbreviated dialing code. Subject to other terms and conditions of this tariff, Company subscribers shall be able to make, and the SOCS shall be able to receive, calls using the 811 Service as part of their local exchange service.

 - c. The SOCS is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.

3. The Company is not liable for any losses or damages caused by the negligence of the SOCS.
4. The Company shall not be liable to the SOCS for any damages the SOCS may incur that result from any changes, modifications or rulings made by the FCC.
5. The Company will make every effort to route 811 calls to the SOCS call center, however, the Company will not be held responsible for routing mistakes or errors.
