FILING VIA EFIS

Mr. Morris L. Woodruff
Secretary of the Commission
Missouri Public Service Commission
200 Madison Street
P.O. Box 360
Jefferson City, MO 65102

**Re: *Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty Utilities
Tariff Tracking No. JG-2019-0046***

Dear Mr. Woodruff:

On behalf of Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty Utilities ("Liberty Utilities" or "Company"), transmitted herewith for electronic filing with the Missouri Public Service Commission ("Commission") is the following substitute revised tariff sheet which sets forth the Red Tag Repair Program: 1st Revised Sheet No. 69.

The substitute revised tariff sheet corrects a typographical error in the original filing made on September 17, 2018 related to the installation of a 85% or higher (rather than 90% or higher) energy efficient furnace .

Copies are being served electronically on the General Counsel's Office and the Office of the Public Counsel. Please contact me at 573-636-6758 or by email at jfischerpc@aol.com if there are any questions.

Sincerely,

James M. Fischer

Red-Tag Repair Program

Terms and Conditions: The Company will credit customers or reimburse qualified social service agencies within its service territory that can provide or arrange to provide and pay for such emergency service work consistent with the terms set forth herein and at an administrative cost not to exceed 10% of the funds provided. No customer shall receive assistance greater than \$1,000 under this Program, with no more than \$700 going towards a PSHE and no more than \$450 going toward each other gas appliance or piping. Energy efficiency being preferred, where a furnace qualifies for replacement under the health and safety provisions of the federal Low-Income Weatherization Assistance Program, the furnace will be replaced with a 90% or higher efficiency unit, when feasible. In cases where a PSHE is being replaced at cost to the customer, prior to installation the customer shall be offered an opportunity to use red tag funding toward the purchase and installation of a 85% or higher energy efficient furnace. If the customer declines, then the customer shall be informed that they may use any licensed or qualified repair service provider or appliance seller that is willing to accept payment according to the terms of the program. Liberty Utilities will work with its Energy Efficiency Advisory Group to determine what data shall be gathered and reported to evaluate this program.
