VII. Measurement of Service (Cont'd.)

or misuse by customer or by any member of customer's family, or by an officer, agent, or employee of customer, then the costs of the necessary repairs or replacements shall be paid by customer.

Meter Testing

Company's meters shall be tested for accuracy in accordance with the method for sample testing of in-service gas meters authorized by the Commission in Case No. GO-98-25 and amended by Case No. GE-2017-0164 in which the Commission granted the company a variance from the requirements of $4\ \text{CSR}\ 240-10.030(19)$ related to the removal, testing and inspection of gas meters. If a customer requests a meter test within 12 months of any previous testing of such meter, the indicated charge on Sheet No. 19 will be assessed for meters found to have an average meter error of 2 percent or less.

G. Billing Adjustments

- Residential For all residential billing errors, the Company will determine from all related and available information the probable period during which the error condition existed and shall make billing adjustments for the estimated period involved as follows:
 - a. In the event of an overcharge, an adjustment shall be made for the entire period that the overcharge can be shown to have existed not to exceed sixty (60) consecutive monthly billing periods calculated from the date of discovery, inquiry or actual notification of the Company whichever comes first;
 - b. In the event of an undercharge, an adjustment shall be made for the entire period that the undercharge can be shown to have existed not to exceed twelve (12) monthly billing periods calculated from the date of discovery inquiry or actual notification of the Company, whichever was first and the Company will offer a repayment period of double the period covered by the adjusted bill though the customer may elect a shorter repayment period;
 - c. Where, upon test, an error in measurement is found to be within the limits prescribed by Commission rules, no billing adjustment will be made;

2nd Revised SHEET No.

UNION ELECTRIC COMPANY **GAS SERVICE**

Applying to

MISSOURI SERVICE AREA

VII. Measurement of Service (Cont'd.)

- *d. When evidence of tampering or obstruction is found, or there are misrepresentations of the use of service by the customer, the Company will calculate the billing adjustment period in accordance with the applicable statute of limitations for the prosecution of such claim after determining the probable period during which such condition existed from all related and available information; and
- Non-Residential For all non-residential billing errors, the Company will determine from all related and available information the probable period during which the error condition existed and shall make billing adjustments for the estimated period involved as follows:
 - a. No billing adjustment will be made where the dollar amount of the adjustment is less than \$15.00. No interest shall be paid or collected on any billing adjustment provided for herein.
 - b. Where upon test an average meter error is found to be greater than 2 percent, a billing adjustment will be made to compensate customer where the meter reads fast, and to compensate Company where the meter reads slow. However, any such billing adjustment will be applicable only for the probable period during which the meter error existed and shall be limited to the twenty-four (24) billing periods preceding the one in which the error was determined plus the elapsed period in the current billing period during which the test was made. No adjustment will be made for meters found to have an average meter error of 2 percent or less.
 - c. Where a non-registering meter is found, Company will determine from all related and available facts the probable period during which such inaccuracy existed and render adjusted bills for the period involved, provided, however, that such period shall not exceed the preceding six (6) billing periods plus the elapsed time in the current billing period during which such inaccuracy was determined.
