Personal 800

This service provides a toll free telephone number and a 4-digit security code to which calls may be received from any location within the state. The account will be billed for these in-state long distance and local toll calls at the per-minute rate set forth below. A 6-digit Rerouting Code will also be provided, which will allow the customer to use the "Follow Me" Routing feature.

A personal 800 customer shares access to a toll free number with other customers. The customer may not retain the toll free number to any right therein if the Personal 800 service is discontinued. There is a limit of ten Personal 800 numbers per customer telephone number. The standard Holiday discounts do not apply to these calls.

Follow-Me Routing: This feature allows a Personal 800 customer to change the telephone number to which calls to his or her Personal 800 number will be terminated. To make a Follow-Me change, a customer may use his or her Personal 800 number and the 6-digit Rerouting Code. There is no limit on the number of changes a customer may make.

The following per-minute rate will apply to all Personal 800 calls: \$0.45 per min.

Personal 800

This service provides a toll free telephone number and a 4-digit security code to which calls may be received from any location within the state. The account will be billed for these in-state long distance and local toll calls at the per-minute rate set forth below. A 6-digit Rerouting Code will also be provided, which will allow the customer to use the "Follow Me" Routing feature.

A personal 800 customer shares access to a toll free number with other customers. The customer may not retain the toll free number to any right therein if the Personal 800 service is discontinued. There is a limit of ten Personal 800 numbers per customer telephone number. The standard Holiday discounts do not apply to these calls.

Follow-Me Routing: This feature allows a Personal 800 customer to change the telephone number to which calls to his or her Personal 800 number will be terminated. To make a Follow-Me change, a customer may use his or her Personal 800 number and the 6-digit Rerouting Code. There is no limit on the number of changes a customer may make.

The following per-minute rate will apply to all Personal 800 calls: \$0.45 per min.

1/Effective November 1, 2001, this plan will no longer be available to new customers.

2/Customers who installed before July 1, 2001 will be charged a per minute rate of \$0.49, and a per-call surcharge of \$0.49 for interLATA and intraLATA calling card calls.

3. METERED USE SERVICE (Cont.)

.03 Option B (Credit Card)<sup>1</sup>

(T)

Metered Use Service Option B is a one-way, dial-in-dial-out multipoint service. Credit Card customers may originate calls from, and terminate calls to every city within the State of Missouri. Subscribers who originate calls from the locations listed in Section C-7, Table III can access MCI by dialing a 7 digit access number (950-1022). Subscribers who originate calls from locations other than those listed in Section C-7, Table III can access MCI via resold facilities by dialing a toll free 800 number. Two-tier pricing for both usage charges and surcharges is applicable and is based upon the two separate types of access. Option B may be provided as a Stand alone Service or as an Enhanced Service. If a customer subscribes solely to Option B he will be designated as a Standalone Credit Card Customer and will be assessed a one time \$10 initiation-of-service charge (Section C-3.0331). If a customer chooses Credit Card in conjunction with, or as an enhancement to, his or her existing MCI Service (any MCI Service other than Option B), he or she will be designated as an Enhanced Credit Card customer. All credit card calls are rounded to the next higher full minute.

.031 Monthly Recurring Charges

.0311 Interexchange Facilities Usage Charges: The per minute rates set forth in Section 3.0341 will apply to all Option B calls. The Tier 1 rates apply to all calls that originate from the cities set forth in Section C-7, Table III.

<sup>1</sup> Effective September 26, 2012, all residential Calling Card service and Toll Free / 800 service will no longer be available to new customers of this service.

P800

This service provides a toll free telephone number and a 4-digit security code to which calls may be received from any location within the state. The account will be billed for these in-state long distance and local toll calls at the per-minute rate set forth below. A 6-digit Rerouting Code will also be provided, which will allow the customer to use the "Follow Me" Routing feature."

"A personal 800 customer shares access to a toll free number with other customers. The customer may not retain the toll free number to any right therein if the Personal 800 service is discontinued. There is a limit of ten Personal 800 numbers per customer telephone number. The standard Holiday discounts do not apply to these calls."

"Follow-Me Routing: This feature allows a Personal 800 customer to change the telephone number to which calls to his or her Personal 800 number will be terminated. To make a Follow-Me change, a customer may use his or her Personal 800 number and the 6-digit Rerouting Code. There is no limit on the number of changes a customer may make."

The following per-minute rate will apply to all Personal 800 calls:  
\$0.45 per min.

## SECTION C - SERVICE DESCRIPTIONS AND RATES (Cont.)

3. METERED USE SERVICE (Cont.).04 Option C (MCI WATS)

Option C involves the provision of interexchange communications channels. Option C is a one-way, multipoint service requiring the customer to originate calls via dedicated facilities between his premises and MCI terminal location and allowing the termination of calls via a combination of MCI-provided interexchange facilities and local business telephone lines, and the resold facilities of other carriers. All Option C calls are subject to a one minute average connect time (i.e. total monthly minutes of use divided by total monthly calls must equal at least one minute). All Option C calls are rounded to the next higher 6-second increment.

The Company does not invoice charges in fraction of a cent; the minimum charge for any charge element is \$.01.

N  
N.041 Monthly Recurring Charges

.0411 Interexchange Facilities Usage Charges: Option C is available on the basis of usage charges and is subject to a monthly Minimum Charge.

.04111 Minimum Charge: \$75 for all usage

.04112 Usage Charges: Usage Charges are determined by such variables as Rate Periods, Rate Schedules and Service Areas. The charges are billed according to the average monthly use for each rate period of each dedicated access line within a service group. <sup>1/</sup>(See definition of "Service Group" in Section A preceding.) The rate period is determined by the day and time at the Option C dedicated access line location.

<sup>1/</sup>The average monthly minutes of use for each rate period per access line will be deemed to be the same as the average monthly minutes of total traffic (including traffic to Canada) for each rate period. The resulting effective per minute rate will then be applied to the customers Tier 1 and Tier 2 usage, respectively.

Service Areas (S.A.'s) represent broad geographical areas which encompass specific locations to which the customer subscribes. The Service Areas are designated S.A. one through S.A. five and each higher Service Area includes service to all lower numbered Service Areas. See Section C-7, Table IV, Part C, for complete geographical coverage of Service Areas.

.041121 Rate Step Table:

The following Rate Step Table is used to determine the usage rates that apply to Option C. To use the table, locate the number in the column under the selected service area. This number is referred to as the Rate Step. Then locate the same Rate Step number on the Monthly Usage Table (Section C-3.041122). The rates listed on that line will apply to the service provided for that Originating State and Service Area.

.0412 Method of Determining Usage Charges

Based upon the hourly rates set forth in Section C-3.041122, MCI WATS usage charges are calculated as described below: 1/

- a) Determine the total minutes of monthly usage for each rate period over all dedicated access lines in a service group.
- b) Determine the total number of access lines in service during the month (access lines in service for a partial month will be pro-rated).
- c) Determine the average usage for each rate period per access line by dividing the minutes for each rate period from (a) above by the number of lines from (b) above.
- d) Determine the effective rate step for the desired service area from the appropriate originating state.
- e) Determine the effective Tier 1 hourly rate for each rate period by: 1) Multiplying the total hours in each tapered usage increment for that rate period by the associated hourly rate for that increment; 2) totaling these charges for each rate period; and 3) dividing the total by the average usage per line from (c) above.

Option D (MCI Prism I)

Option D is a one-way, multipoint service requiring the customer to originate calls via dedicated facilities between the customer's premises and MCI terminal location and allowing the termination of calls via a combination of MCI-provided interexchange facilities and local business telephone lines. Prism I has two pricing Ranges from each originating area code with total coverage on every line. These Ranges, as determined for each originating and terminating area code are shown in Table IV. All Option D calls are subject to a one minute average connect time (i.e. total monthly minutes of use divided by total monthly calls must equal at least one minute). All Option D calls are rounded to the next higher 6-second increment.

The Company does not invoice charges in fraction of a cent; the minimum charge for any charge element is \$.01.

3. METERED USE SERVICE (Cont.)

.08 Option G (Prism Plus)

Option G is a one-way, multipoint service allowing the customer to originate calls via customer-provided local business telephone lines, and allowing the termination of calls via a combination of MCI - provided interexchange facilities and local business telephone lines. All Prism Plus calls are subject to a 60-second minimum initial period and additional 60-second increments. A customer who subscribes to Option G but does not pay for usage when billed (as prescribed under Section B-7), will be terminated as a Prism Plus customer. If the party then continues to access the MCI network, it will be billed for its usage at the rates specified in Section C-3.02 and will be treated in all respects as a customer of that service.

The Company does not invoice charges in fractions of a cent; the minimum charge for any charge element is \$.01.

By subscribing to this service, Customer understands that use of this service is restricted in the following manner: Customer may not resell the services in any manner, including but not limited to as a wholesaler or aggregator.

.0816 Friends of the Firm

.08161 A variation of Option G (Prism Plus), the Friends of the Firm Program permits a customer or Subscriber to form a Calling Circle as defined in Section A of this Tariff. Once a Calling Circle is established, the following calls qualify for the Friends of the Firm discounts 1/:

- direct-dialed calls from the Subscriber to a Member of his or her Calling Circle; operator-assisted calls from the Subscriber to a Member which are billed to the Subscriber's account; collect calls placed to the Subscriber by a Member; third-party calls made to a Member and billed to the Subscriber's account;
- Prism Plus Calling Card calls placed to a Member of the Subscriber's Calling Circle and billed to the Subscriber's Calling Card account 2/.

1/ A Friends of the Firm Subscriber who subscribes to Credit Card in conjunction with his or her Prism Plus account will also have the Friends of the Firm discount applied to his or her Credit Card qualifying calls. Qualifying calls are those placed to a Member of the Subscriber's Calling Circle and billed to the Subscriber's Credit Card account.

2/ Only those Prism Plus Calling Card calls made by a Subscriber whose Prism Plus account is presubscribed to MCI WORLDCOM will qualify for the Friends of the Firm discounts.

.09 Option H (MCI 800 Service)

MCI 800 Service is an inward WATS service which permits intrastate calls to a customer's station in one location from stations in diverse geographical service areas, and in which the MCI 800 customer is billed for the calls rather than the call originators. 800 Service has one pricing Range for each terminating area code, with total intrastate coverage on every line. Range designation, determined by originating and terminating area code, is shown in Section C-7, Table IV, Part D.

The Company does not invoice charges in fraction of a cent; the minimum charge for any charge element is \$.01. N  
N

MCI may require that a customer provide calling pattern information necessary for MCI to evaluate whether it anticipates network blockage, and MCI reserves the right to suspend installation of service until adequate facilities are available to meet such traffic. All Option H calls will be subject to an 18-second minimum initial period and additional 6-second increments. All Option H calls are rounded to the next higher 6-second increment. A call begins when call termination is received by or passes through customer premises equipment. It is the customer's responsibility to pass appropriate answer supervision back to the MCI point of connection. For rules regarding the reservation of MCI 800 Service telephone numbers, refer to Section B-16.

Unless otherwise indicated herein, the terms "MCI 800 Service," "888 Service," and/or "Toll Free Service"; and the terms "800 number," "888 number," and/or "Toll Free number" can be used interchangeably when used throughout this tariff.

.104 Basic Feature Package Charge

The Basic Feature Package, to which all Vnet customers subscribe, includes the availability of Dedicated and Shared Access and Termination; usage rates with associated Volume Discounts; Directory Assistance; plus the following:

7 digit customer-defined private dialing plan, used for:

- direct termination of calls dialed as 7-digit to customer locations
- optionally, for convenience in dialing locations reached via 10 digit numbers, Vnet converts the 7 digit number to the appropriate 10 digit number.

10-Digit Private Dialing Plan - used for direct termination of calls dialed as 10 digits, to customer locations.

10-digit Exclusion - Customer specifies individual called 10-digit phone numbers to be blocked.

Consolidated Invoice - A single consolidated billing statement for all calls placed via Vnet from all locations. Invoice includes call detail on paper at the customer's option.

.104 Basic Feature Package Charge

Universal Range Privilege - A customer can specify the type of Vnet calls allowable for users on each Dedicated Access Line group, for each Vnet Card authorization code and for each Dial "1" ANI (originating telephone number) band for each ID code (see Section C-3.1055 regarding ID codes). The range privileges are defined as follows:

- 0 = no calls allowed
- 1 = on Vnet numbers (7- and 10- digit private dialing plan numbers)
- 2 = Range 1 plus 10-digit off-Vnet numbers

Accounting Codes - A customer can specify that Accounting Codes are to be dialed from specific dedicated access line groups or from Dial "1" telephone numbers (ANIs). For Dial "1" access, the code must be two digits and cannot be used in combination with an ID Code (see Section C-3.1055). If the ANI is equipped for the code, the code will be dialed on all Vnet calls originated at that ANI. For Dedicated Access, the code may be dialed in combination with an ID Code and both the ID and Accounting Code may be of customer-specific length so long as the total number of digits of both does not exceed seven. If the dedicated access line group is equipped for the code(s), the customer can select, on that line group, that either all originations must dial the code(s), or that only 10-digit originations must dial the code(s). .1058 Switched 56 kbps Service

Switched 56 kbps Service offers dial-up service for transmitting data at a speed of 56 kbps. This service will require that a separate account number be established for each 56 kbps line. Customer access is available using either T-1 Digital or DDS local loops (See Section C-2.0231 for DDS access charges) at Switched 56 kbps service locations. Vnet customers who subscribe to this service are subject to a minimum monthly usage charge of \$50 per 56 kbps line. For those customers who exceed this minimum, the charge will not apply. This service is available to and from all locations listed in Table I, Part B.

.105 Optional Features (Cont.)

.1059 Vnet Market Area Calling: 1/ Offers intralata, outbound, voice only calling within the customer's Market Area for calls using dedicated access-switched termination and dedicated access-dedicated termination. This call type is not available to customer locations that fall within the local service area as defined in MCIMetro Local Exchange Tariffs.

The rates specified in section C-3.1031 (Dedicated-Switched and Dedicated-Dedicated) will apply to all Market Area calls originating and terminating within the customer's Market Area. A customer's Market Area is defined as the dominant Local Exchange Carrier's (LEC) local calling area specified in the LEC's Local Exchange Tariff for the customer's exchange area for the specific location implementing Market Area Calling.

In addition, Vnet discounts as outlined in MCI WORLDCOM's FCC Tariff No. 1, Section C-3.097 will apply. If a customer subscribes to a Special Customer Arrangement with intrastate discounts or rates then those rates and discounts will apply to Market Area Calling. SCA Types 1 and 4 are not eligible for Market Area Calling.

.1059 Vnet Market Area Calling (Cont.)

Customers must have Branch Exchange (PBX) or Hybrid Key System and originate Market Area Calling traffic via dedicated access facilities to use this feature.

The Market Area Calling feature cannot be used to originate 911, Directory Assistance, operator service calls, toll free or to terminate inbound local calls.

Customers must maintain LEC-provided lines or trunks to originate and terminate these call types. This feature is subject to the Company's existing capacity and network availability.

.106 Network Savings Plan

The Network Savings Plan offers discounts to customers based on Transport volume (minutes) and on whether customers commit to taking one to three years of service, or make no such commitment. The percentage discount under each option is determined based on the Vnet customer's entire Transport volume during the month. The discounts are applied against call type specific usage charges and DTO charges. The resultant amount is subtracted, before taxes, from the tariff charges. Customer's selecting these plans commit to the minimums specified below.

The Network Savings Plan commences either in the month the order is received, if the order is placed before the 15th day of the month, or, if the order is placed after the 15th day of the month, the month immediately following the order.
