Dear Secretary of the Commission:

Southwestern Bell Telephone Company, d/b/a AT&T Missouri, is revising its General Exchange Tariff (P.S.C. Mo. - No. 35). The attached tariff filing is being made in conjunction with the FCC's Second Report and Order in WC Docket No. 17-84 (FCC 18-74) released June 8, 2018 (Zero Demand Forbearance). The language being added to AT&T Missouri's tariff by this filing provides that AT&T Missouri is no longer required to offer certain services in geographic areas where there are no customers subscribing to those services. To be clear, no existing customers are affected by this filing, nor are any areas affected in which AT&T Missouri is already providing services to existing customers. The only change occasioned by this tariff filing is that, in the event a potential customer requests one of the affected intrastate services in an area where AT&T Missouri is not already providing the service and has no existing customers, AT&T Missouri may decline the request for service.

The issued and effective dates of this revision are July 18, 2019 and August 17, 2019, respectively.

Please refer any questions on this matter to Matt Pritchard on 573.638.0261.

Very truly yours,

/s/ Matt Pritchard

I certify that a copy of the foregoing, including attachments, is being sent via e-mail to the Office of Public Counsel at opcservice@ded.mo.gov this 18th day of July 2019.
