SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

- 3.1.1 The Customer's monthly usage charges for the Company service are based upon the total number of minutes the Customer uses and the service options to which the Customer subscribes. Chargeable time begins at the time the called party answers (*i.e.* when two-way communications is possible), and ends when either party hangs up.
- 3.1.2 No charges apply if a Call is not completed.
- 3.1.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum Call duration is 1 minute for a connected Call.
- 3.1.4 Where applicable, charges will be rounded up to the nearest penny.
- 3.1.5 Usage begins when the called party picks up the receiver (*i.e.* when two-way communication is possible). The Company utilizes software answer supervision, which permits up to 60 seconds of ringing before the Call becomes billed usage. A Call is terminated when the calling or called party hangs up.
- 3.1.6 The Company will not knowingly charge for Incomplete Calls. Upon the Customer's request and proper verification, the Company shall promptly adjust or credit the Customer's account for charges or payments for any unanswered Call inadvertently billed due to the unavailability of Feature Group D or due to another carrier's failure to provide answer supervision. Where answer supervision is not available, any Call for which the duration exceeds one (1) minute shall be presumed to have been answered.

3.2 Start of Billing

Billing will begin upon the earlier of (i) connection of the facility to the customer network and commencement of services (service activation) or (ii) within 15 days after delivery of the applicable facility to the customer premises by the facility provider, unless the delay in connection of the facility is due to the fault of or requested by Cbeyond. Emergency Services (Enhanced 911) allow Customers to reach appropriate emergency services, including: police, fire and hospital medical services. Enhanced 911 Service has the ability to selectively route an emergency Call to the primary 911 provider so that it reaches the correct emergency service located closest to the Caller. In addition, Enhanced 911 Service enables the Customer's address and telephone information to be displayed to the person handling the 911 Call. The Company will provide access to 911 and E911 services either directly or through arrangements with other telecommunications carriers.
