1.10 CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMERS - (Continued)

1.10.1 General Provisions-(Continued)

F. Violation of Regulations-(Continued)

(AT) The Telephone Company will take such immediate action as necessary for the protection of the network, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such use has ceased or the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in disconnection of the customer's service until such time as the customer complies with the provisions of this Tariff.

G. Minimum Protection Criteria

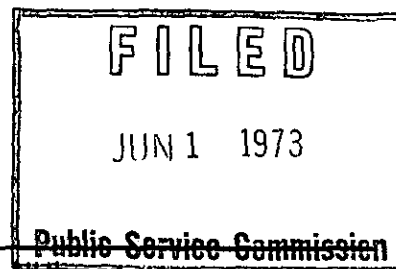

(AT) 1. Direct Electrical Connections

(AT) a. To protect telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, customer-provided terminal equipment or communications system must comply with the following minimum network protection criteria:

- (1) to prevent excessive noise and crosstalk in the network, it is necessary that the power of the signal at the central office not exceed 12db below one milliwatt when averaged over any three second interval.

1.11 COMMUNITY OPTIONAL SERVICE (COS) - (Continued)

F. Revenue Neutrality

MISSOURI
Public Service Commission

The Telephone Company will implement a revenue recovery mechanism based upon anticipated subscription to the COS qualifying routes as provided for herein. This revenue recovery mechanism is designed to recover the actual net revenue loss associated with the provisioning of COS. A review will be conducted after the Commission has completed an audit of COS losses and the revenue recovery mechanism gains, as a result of COS service implementation. The audit will compare the difference between the net revenue loss projections and the actual net revenue loss experienced. If the actual net revenue loss is found to be less than the revenue collected under the revenue recovery mechanism interim rates, the Telephone Company will provide a single credit to all the customers charged pursuant to the revenue recovery mechanism, on their regular monthly billing or, in the case of customers who have discontinued service during the period the interim rates are in effect, to their last known address, to reflect the difference between the actual net revenue loss and the revenue collected under this revenue recovery mechanism. This credit will include interest at the rate of 9% per annum. If the actual net revenue loss is found to be more than the revenue collected under the revenue recovery mechanism, then the revenue recovery mechanism will be adjusted to reflect revised additional revenues sufficient to recover the actual net revenue loss. At this time, the additional revenues sufficient to recover the net revenue loss would be made permanent.

To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12db below one milliwatt limit at the central office, the power of the signal which may be applied by the customer-provided equipment to the Telephone Company interface located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.

(2) to protect other services it is necessary that the signal which is applied by the customer-provided equipment to the Telephone Company interface located on the customer's premises meet the following limits:

The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18db below the power of the signal as specified in 1.10.1-G-1a (1).

The power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16db below one milliwatt.

The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24db below one milliwatt.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.12 OPTIONAL CALLING PLANS (cont'd)

1.12.1 General (cont'd)

C. Calling Options

(AT) 1. Business 1+ Saver[®], TOLL SAVER and Business – Deluxe Optional Calling Plans

(CT) Business customers can choose to subscribe to one of thirteen options. Rates and discounts are listed in Section 1.12.3 of this tariff, and are in addition to the established charges for the service with which the optional calling plan is associated. The optional calling plan rates and discounts apply to usage for all rate periods.

a. Discount Options: Business Options A, B, C and D are Discount Options. These options give the subscriber a specified percent discount on qualified usage for a flat monthly rate, except in the case of Option D which is provided free of charge when the customer also subscribes to either The WORKS[®], BizSaverSM or the BASICSSM vertical services package.

(AT) b. Block-of-Time Options: Business Options E, F, G, I, J, K, L and M are Block-of-Time Options. These options allow subscribers a specified amount of qualified usage per month at a flat rate. Subscribers are charged the full monthly rate even if the specified block of time is not used. An additional hourly rate applies to usage exceeding the initial specified block of time, prorated for fractional hours of usage. For Options I, J, K, L and M an additional per minute rate applies. Time of day and holiday discounts are not applicable to the monthly rate or the hourly or per minute rate for additional usage.

(AT) c. Single Rate Option: Business Option H is a Single Rate Option. This option allows subscribers to pay a recurring monthly rate and receive all of their usage for a specified per-minute rate. Time of day and holiday discounts are not applicable to the monthly rate or the per-minute rate. This option is available to one (1) to five (5) line business customers who agree to purchase the service for a period of twelve (12) months.

(AT)

1. Business 1+ Saver® and TOLL SAVER Optional Calling Plans

(CT)

Business customers can choose to subscribe to one of nine options. Rates and discounts are listed in Section 1.12.3 of this tariff, and are in addition to the established charges for the service with which the optional calling plan is associated. The optional calling plan rates and discounts apply to usage for all rate periods.

(CT)

a. Discount Options: Business Options A, B, C and D are Discount Options. These options give the subscriber a specified percent discount on qualified usage for a flat monthly rate, except in the case of Option D which is provided free of charge when the customer also subscribes to either The WORKS®, BizSaverSM or the BASICSSSM vertical services package.

(AT)

b. Block-of-Time Options: Business Options E, F, G, and K are Block-of-Time Options. These options allow subscribers a specified amount of qualified usage per month at a flat rate. Subscribers are charged the full monthly rate even if the specified block of time is not used. An additional hourly rate applies to usage exceeding the initial specified block of time, prorated for fractional hours of usage. For Option K, an additional per minute rate applies. Time of day and holiday discounts are not applicable to the monthly rate or the hourly or per minute rate for additional usage.

(AT)

(CT)

c. Single Rate Option: Business option H is a Single Rate option. This option allows subscribers to pay a recurring monthly rate and receive all of their usage for a specified per-minute rate. Time of day and holiday discounts are not applicable to the monthly rate or the per-minute rate. This option is available to one (1) to five (5) line business customers who agree to purchase the service for a period of twelve (12) months.

JUN 01 1994

1.12.1 General-Continued

MISSOURI
Public Service Commission

C. Calling Options

1. Business 1+ SaverSM Options

Business customers can choose to subscribe to one of four 1+ Saver options. Rates and discounts are listed in Section 1.12.3 of this tariff, and are in addition to the established charges for the service with which the 1+ Saver Plan is associated. The Business 1+ Saver Plan rates and discounts apply to usage for all rate periods.

- a. Discount Options: Business Options A, B and C are Discount Options. These options give the subscriber a specified percent discount on qualified usage for a flat monthly rate.
- b. Block-of-Time Options: Business Option D is a Block-of-Time Option. This option allows subscribers one hour of qualified usage per month at a flat rate. Subscribers are charged the full monthly rate even if the one-hour block of time is not used. An additional hourly rate applies to usage exceeding the initial one-hour block of time, prorated for fractional hours of usage. Time of day and holiday discounts are not applicable to the monthly rate. The hourly rate for additional usage.

CANCELLED

2. Residence 1+ SaverSM Options

Residence customers can choose to subscribe to one of three 1+ Saver options. Rates and discounts are listed in Section 1.12.3 of this tariff, and are in addition to the established charges for the service with which the 1+ Saver Plan is associated. The Residence 1+ Saver Plan rates and discounts apply to usage for specified rate periods, as indicated below.

- a. Discount Options: Residence Options A and B are Discount Options. These options give the subscriber a specified percent discount on qualified usage for a flat monthly rate.

Under Residence Option A, the percent discount applies to qualified usage for the Evening and Night/Weekend rate periods.

Under Residence Option B, the percent discount applies to qualified usage for all rate periods.

1.10 CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMERS - (Continued)

1.10.1 General Provisions-(Continued)

G. Minimum Protection Criteria-(Continued)

2. Acoustic, Inductive Connections

a. To protect the telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, (AT) customer-provided terminal equipment or communications system must comply with the following minimum network protection criteria:

(1) to prevent excessive noise and crosstalk in the network, it is necessary that the power of the signal which is applied by the customer-provided equipment to the network control signaling unit located on the customer's premises be limited so that the signal power at the output of the network control signaling unit (i.e., at the input to the Telephone Company line) does not exceed 9db below one milliwatt when averaged over any three second interval.

(2) to protect other services, it is necessary that the signal which is applied by the customer-provided equipment to the network control signaling unit located on the customer's premises meet the following limits at the output of the network control signaling unit (i.e., at the input to the Telephone Company line):

The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18db below the power of the signal as specified in 1.10.1-G-2a(1).

JUL 10 2002 MO. PUBLIC SERVICE COMMISSION By SHRS47 MISSOURI

Designated Number Optional Calling Plan is available to residence and business customers for one-way calling to a designated telephone number within the LATA. Customers subscribing to this calling plan receive unlimited calling to the designated number at a fixed monthly rate. Calling to additional designated telephone numbers within the LATA may be purchased at an additional, fixed monthly rate for each such designated number selected.

1.12.2 Regulations

A. This service is furnished under the guidelines contained in the General Regulations section of this tariff. In addition, the following regulations apply:

- 1. This service is available to all classes and grades of residence and business customers located in the state of Missouri.
- 2. This service is not offered in conjunction with Foreign Exchange, Foreign Serving Office, Customer-Owned Pay Telephone, or Cellular Services, or comparable services offered by other local exchange companies in their exchanges listed in the Schedule of Rates and Specific Regulations section in the front of this tariff.
- 3. This service may only be used for the communications of a single end user. It may not be used to aggregate the long distance communications of multiple end users for resale (including, but not limited to, arrangements using services such as Simultaneous Call Forwarding or TeleBranch to aggregate long distance calling capability for resale or to provision communications services for others).
- 4. Only one option of the Business and Residence 1+ Saversm Optional Calling Plans may apply to any single account.
- 5. The Business and Residence 1+ Saversm Optional Calling Plans are available to multi-line customers on a per account basis only.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED

1.12 OPTIONAL CALLING PLANS-Continued

JUN 22 1999

1.12.2 Regulations-Continued

- 6. Designated Number Optional Calling Plan (OCP) subscribers are not required to purchase Cumulative Designated Number OCP on all access lines of a multiline account except in cases where customer dialed, station-to-station minutes of use cannot be billed on a per line basis. Such exceptions include, but are not limited to, the following:
 - a. When a single working telephone number is used for multiple access lines, Designated Number OCP must be purchased on all access lines associated with the single working telephone number.
 - b. For Plexar II, Plexar Custom, Centrex or similar type services which are billed on a PBX trunk equivalent basis, as specified in the General Exchange Tariff and/or Local Exchange Tariff of the local exchange company providing basic local service to the subscriber, Designated Number OCP must be purchased on all Outward and Combination PBX-equivalent trunks (it need not be purchased on Inward PBX-equivalent trunks).
- 7. The minimum service period of subscription to any particular option of this service is one month per option.
- 8. Customers may subscribe to more than one Optional Calling Plan where the necessary telecommunications facilities and the required billing capabilities exist, subject to the restriction in paragraph 1.12.2.A.5 preceding. In addition, Optional Calling Plans are available to customers subscribing to Outstate Calling Area (OCA) Service. If a customer subscribes to more than one of these plans, only one of the plans' rates apply to any given call. First, Designated Number Optional Calling Plan (OCP) rates apply to applicable usage under the Designated Number OCP; second, the OCA rates apply to any remaining applicable usage under the OCA plan; and last, Business and Residence 1+ Saver Optional Calling Plan rates apply to any remaining applicable usage under those plans.

A. Application of Rates and Discounts

BY Public Service Commission MISSOURI

- 1. 1+ Saver rates and charges are in addition to all other rates and charges paid by a subscriber for all other services of the local exchange company providing basic local service to the 1+ Saver subscriber.
- 2. For the Discount Options, after a subscriber's monthly intrastate intraLATA Long Distance Message Telecommunications Service bill is determined, including applicable rate period discounts, an additional percent discount will be applied to the total qualified portion of the bill, as defined previously. When the application of the discount results in a fractional charge, the amount will be rounded to the nearest cent. The monthly rate applies per customer account.
- 3. For the Block-of-Time Options, the monthly rate applies per customer account. The additional hourly rate applies to usage exceeding the specified block of time, and is prorated by minute of use for fractional hours of usage.
- 4. Rates and discounts apply to usage accumulated from all lines of a customer's account per class of service.
- 5. During the period beginning on the effective date of this tariff and ending 90 days after the effective date of this tariff, customers subscribing to specified 1+ Saver options will receive a waiver of the Monthly Recurring Rate for the first month of subscription, providing that they remain subscribed to their selected option for at least three months. Customers who discontinue their 1+ Saver service prior to the end of the third month of subscription are not eligible to receive the promotional waiver. The 1+ Saver options which are included in this promotion are Business Options A, B, C and D, and Residence Options A, B, C and D. (See Section 1.12.3.B, following).

2. DATA-PHONE Data Sets-(Continued)

b. Teletypewriter equipment when used with a DATA-PHONE data set may be provided by the customer or the Telephone Company, at the option of the customer, except as follows:

(CP) During the period April 1, 1971, to April 1, 1976, teletypewriters operating at speeds under 300 bits per second and substantially identical in function to those sold to the Western Union Telegraph Company on March 31, 1971, in connection with the Telephone Company's sale of its Teletypewriter Exchange Service are not offered in connection with DATA-PHONE service. However, the Telephone Company will continue to offer in connection with its DATA-PHONE service (1) to customers to whom teletypewriters are being furnished by the Telephone Company pursuant to its DATA-PHONE service immediately prior to March 31, 1971, teletypewriters (including replacements thereof) in the same quantities and of the same models so furnished and (2) to any customers, teletypewriters operating at speeds of 300 bits per second or more and (3) to any customers, teletypewriters to be used temporarily with DATA-PHONE service upon failure of private line service, and to be used on a regular and continuing basis with private line service.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.10 CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMERS-

1.10.2 Connections With Customer-Provided Terminal Equipment (Continued)

A. Data Transmitting and/or Receiving Terminal Equipment- (Continued)

2. DATA-PHONE Data Sets-(Continued)

(AT) c. Teletypewriter equipment and DATA-PHONE Data sets will be provided by the Telephone Company at the rates and charges "and in accordance with the regulations" specified in Paragraph 5.1.6-A of Section 5 of the General Exchange Tariff.

3. Data Access Arrangements

Where the customer elects to use customer-provided data transmitting and/or receiving terminal equipment through a data access arrangement:

- a. The customer shall furnish the equipment which performs the functions of data signal conditioning referred to under 1.10.2-A-2.
b. To protect the telecommunications network and the services furnished to the general public by the Telephone Company from harmful effects, the customer-provided data transmitting equipment must comply with the minimum network protection criteria, as stated in Paragraph 1.10.1-G.

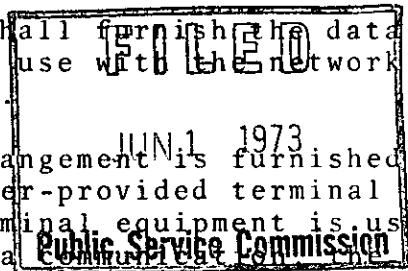

c. The Telephone Company shall furnish the data access arrangement for use with the network control signaling unit.

(AT) d. Where a data access arrangement is furnished in connection with customer-provided terminal equipment and such terminal equipment is used for both voice and data, the data access arrangement may be used to connect the customer-provided equipment for voice communication.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE
MAR 3 1976

1.10 CONNECTIONS WITH EQUIPMENT OR FACILITIES PROVIDED BY CUSTOMERS
-(Continued)

1.10.2 Connections With Customer-Provided Terminal Equipment
-(Continued)

B. Voice Transmitting and/or Receiving Terminal Equipment
-(Continued)

1. General-(Continued)

a. The connection shall be made through a Telephone Company network control signaling unit and a connecting arrangement which shall be furnished, installed and maintained by the Telephone Company. As provided in accordance with the regulations set forth in 1.10.2 B.3 and 1.10.2 B.6. following, a connecting arrangement is not required for the connection of certain classes of attested customer-provided terminal equipment or of conforming answering devices.

Where a data access arrangement is furnished in connection with customer-provided terminal equipment and such terminal equipment is used for both voice and data communication, the data access arrangement may be used to connect the customer-provided equipment for voice communications.

b. To protect the telecommunications network and the services furnished the general public by the Telephone Company from harmful effects the customer-provided voice transmitting equipment must comply with the minimum network protection criteria as stated in Paragraph 1.10.1.G.

(CP) 2. Connection of Customer-Provided Voice Transmitting and/or Receiving Terminal Equipment for Recording of Two-Way Telephone Conversations.

The telecommunications network is not represented as adapted to the recording of telephone conversations. However, customer-provided recording equipment may be used in connection with the telecommunications network subject to the following conditions:
