SECTION 1- DEFINITIONS, (CONT'D.)

Multi-Frequency or ("MF"): An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, that continue for the agreed upon duration of the service.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service that does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute Service Commencement Date.

Service Order: The written request for Network Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Session Initiation Protocol (SIP) - a signaling communications protocol, widely used for controlling multimedia communication sessions such as voice and video calls over Internet Protocol (IP) networks. (N)  
(N)

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Speed Calling: Permits a station line user to dial selected numbers by using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. The speed calling list is Customer-changeable.

System: Allows shared use of speed calling list. A control station will add, change or delete telephone numbers from the list for the group.

## SECTION 2 - REGULATIONS, (CONT'D.)

## 2.18 Additional Rules Relating to Resale of Service

All local voice services provided by the Company are intended for retail end user purposes only. The Company does not support any Customer's resale of local services to another end user that has not contracted with the Company. Unless otherwise agreed upon in writing by the Company, Customers must abide by the following requirements when purchasing any local services:

- 2.18.1 Customer must use Company owned telephone numbers or numbers that are officially ported to the Company in connection with the services.
- 2.18.2 The Company does not support the inclusion of individual names and/or locations for each telephone number used in connection with the services for Emergency 911 purposes. Customer must utilize PS/ALI\* (Private Switch/Automatic Line Identifier) software to support each individual location for each ANI (Automatic Number Identification) transmitted by the Company to the applicable Emergency 911 PSAP (Public Safety Answering Position). The Company does not provide PS/ALI software.
- 2.18.3 The Company does not support CARE record information for each of Customer's end users and Customer must choose a single primary interexchange carrier for Customer and all of its end users. The Customer and all of its end users must utilize the same interexchange carrier.
- 2.18.4 The Company does not support the populating of the individual end user's caller name for Caller ID purposes. Only one Caller Name will be supported for each Billing Telephone Number provided to the Customer for the services purchased.
- 2.18.5 The Company does not support individual directory listings for each of the Customer's end users. Customers may only purchase directory listings that are representative of their own business name.
- 2.18.6 The Company will bill only Customer for both Customer's and its end users use of the services. Usage may be detailed by Billing Telephone Number (BTN), but the Company will not bill Customer's end users for the services nor does the Company provide billing media to assist Customer in billing its end users.

\*PS/ALI software cannot be used with Converged Voice Services, FlexVoice<sup>SM</sup> Services, SIP Trunking Service and Remote Telephone Numbers (RTNs).

SECTION 4 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

4.21 Converged Voice Service, (Cont'd.)

4.21.1 General, (Cont'd.)

Additional Toll Services are provided pursuant to the Company's published tariffs and rate schedules.

The Customer must purchase a minimum of 4 and a maximum of 50 voice channels, which may be a combination of analog business lines and digital trunks, or analog business lines and PRI channels. Combinations of digital trunks and PRI channels are not available. Only one trunk group may be provisioned per service location. The Customer must select a call package based upon the desired number of simultaneous calls (voice channels). The remaining available bandwidth, including excess bandwidth available when all voice services are not in use, will be dynamically allocated to Internet access and/or VPN services depending on the bundle purchased. Some combinations of voice services may be unavailable due to equipment limitations. Applications where more than 10% of daily call volume is used for faxing or other modem related activities are not supported.

The Customer who adds VPN service to a Converged Service bundle will have the option of upgrading to a Premium bundle by adding Class of Service (CoS), as described in the Company's Private Line tariff, for an additional charge. Adding CoS will reduce the number of voice channels available at a given bandwidth.

For the Customer who selects line based channels, the Deluxe Feature Package defined in Section 5.22.3 is available at no additional charge. The Customer is also eligible to purchase the Custom Feature Package as defined in Section 5.22.3. The Customer will also receive the first 100 telephone numbers (Individual Telephone Number (ITN), Virtual Telephone Number (VTN) and Remote Telephone Number (RTN)) per service location at no charge. Additional ITNs will be charged as described in Section 5.19. Additional VTNs will be charged as described in Section 5.23. Additional RTNs are charged as described in Section 5.24.

(T)  
(T)  
(T)  
(T)

Three distinct bundles are available:

A. Voice + Internet

The Customer designates the number of voice channels to be configured as described above. The remaining available bandwidth, including excess bandwidth available when all voice services are not in use, will be dynamically allocated for Internet access service.

SECTION 4 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

4.25 FlexVoice<sup>SM</sup> Service, (Cont'd.)

4.25.4 Line Features

- A. For the Customer who selects line based channels, the Deluxe Feature Package defined in Section 5.22 is available at no additional charge. The Customer is also eligible to purchase the Custom Feature Package as defined in Section 5.22.
- B. The Customer is eligible for one Basic Voice Mailbox per FlexVoice line at no additional charge.

4.25.5 Telephone Numbers

The Customer receives the first 100 telephone numbers (Individual Telephone Number (ITN), Virtual Telephone Number (VTN) and Remote Telephone Number (RTN)) per service location at no charge. Additional ITNs are charged as described in Section 5.19. Additional VTNs are charged as described in Section 5.23. Additional RTNs are charged as described in Section 5.24. (T)

4.25.6 Rates and Charges

A. Application of Rates

FlexVoice Service is a flat rated service. A Monthly Recurring Charge applies for the service and calls made within the local calling area are included at no additional charge. To the extent facilities are available, services offered under this tariff are provided by the Company on an On-Net basis. Unless otherwise noted, prices for services offered under this tariff reflect the On-Net price for such services. Where service is provided on an Off-Net basis, additional charges may apply. (T)

B. Rates

All rates are applied per FlexVoice Service arrangement at each service location:

LOCAL EXCHANGE SERVICES

---

SECTION 4 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

4.26 SIP Trunking Service

(N)

4.26.1 General

SIP (Session Initiation Protocol) Trunking Service offers voice channels over Ethernet or TDM services which enable a Customer to originate and terminate calls using IP format. Service is offered in increments of 5 call paths (5 DS0 equivalents) with a minimum of 25 call paths and a maximum of 2,000. All services utilizing TDM-based transport require the installation of a Company-provided managed router to convert the interface from TDM to Ethernet.

The demarcation between the Customer's switch or network and the Company's network is a Company-provided Session Border Controller (SBC) installed at the Customer's premises. The compatibility of the make, model and release of the Customer premises equipment must be verified prior to purchase of the SIP Trunking Service.

Upon disconnection of the services, all Company-provided equipment must be returned to the Company.

4.26.2 Service Limitations

SIP Trunking Service is not designed for, but may be compatible with, faxing, remote metering, supervisory control and alarm signaling. Customer is responsible for ensuring compatibility when using SIP Trunking Service for these purposes.

SIP Trunking Service is designed to support 911 addressing only at the Customer's physical service location, or at eligible remote locations validated by the Company.

The Customer is solely responsible for the acquisition, repair and maintenance of any back-up power system that the Customer deems necessary to support its telecommunications systems. In the event of a power failure, the absence or failure of a battery back-up system will result in the loss of use of the SIP Trunking Service, including 911 service. The Company has no liability or responsibility for such loss of service.

(N)

LOCAL EXCHANGE SERVICES

SECTION 4 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

4.26 SIP Trunking Service, (Cont'd.)

(N)

4.26.3 Long Distance Calling Allowance

The Customer receives a long distance allowance, which may be used for direct dialed and/or toll free services, based on the call paths purchased.

Call Paths	Monthly Long Distance Allowance Minutes of Use
25-45	6,500
50-70	13,000
75-95	19,500
100-120	26,000
125-145	32,500
150-170	39,000
175-195	45,500
200-220	52,000
225-245	58,500
250-2,000	65,000

Additional Toll Services are provided pursuant to the Company's published tariffs and rate schedules. The Customer who does not select the Company as their long distance provider is not eligible to receive the monthly allowance of long distance minutes of usage.

4.26.4 Telephone Numbers

The Customer receives the first 100 telephone numbers (Individual Telephone Number (ITN), Virtual Telephone Number (VTN) and Remote Telephone Number (RTN)) per service location at no charge. Additional ITNs are charged as described in Section 5.19. Additional VTNs are charged as described in Section 5.23. Additional RTNs are charged as described in Section 5.24.

4.26.5 Rates and Charges

A. Application of Rates

SIP Trunking Service is comprised of two rate elements; a transport charge and a call path bundle. There is no additional charge for the managed router required for TDM or Off-Net provisioning. To the extent facilities are available, services offered under this tariff are provided by the Company on an On-Net basis. Unless otherwise noted, prices for services offered under this tariff reflect the On-Net price for such services. Where service is provided on an Off-Net basis, additional charges may apply.

SECTION 5 - SUPPLEMENTAL SERVICES, (CONT'D.)

5.3 Busy Verification, Interrupt, and Customer Originated Trace Services - Services no longer available as of January 9, 2014. (T)  
 (T)

5.3.1 General

Upon request of a calling party, the Company will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

Customer Originated Trace allows a Customer to originate a trace to track harassing callers that they otherwise cannot identify via Caller ID. The feature “marks” the calling records in the Company’s switch so that if and when they are requested by law enforcement the Company can easily identify the call within the call records. The Company will not release caller identification records directly to the Customer. This information will only be released to law enforcement at their request.

5.3.2 Rate Application

A. A Verification Charge will apply when:

1. The operator verifies that the line is busy with a call in progress, or
2. The operator verifies that the line is available for incoming calls.

B. Both a Verification Charge and an Interrupt Charge will apply when the operator verifies that a called number is busy with a call in progress and the Customer requests interruption. The operator will interrupt the call advising the called party of the name of the calling party and the called party will determine whether to accept the interrupt call. Charges will apply whether or not the called party accepts the interruption.

C. No charge will apply when the calling party advises that the call is from an official public emergency agency.

5.3.3 Rates and Charges

	<u>Per Call</u>
Verification Charge, each request	\$1.20
Interrupt Charge, each request	\$1.85
Customer Originated Trace, each traced call	\$2.00

SECTION 5 - SUPPLEMENTAL SERVICES, (CONT'D.)

5.24 Remote Telephone Numbers Service

(N)

5.24.1 Description

Remote Telephone Numbers (RTN) Service supports Customer remote locations by allowing a Customer to assign a telephone number from a rate center in which it has a physical location and associate it to a different physical service location in a rate center other than where the telephone number is natively associated for the purposes of centralizing its PBX. The RTN Service Customer is responsible for transporting all calls between the PBX and the remote site via its Wide Area Network (WAN), which can be provided by the Company or by another carrier. Calls made to the RTN are charged to the caller and rated based upon the caller's local calling area. Should the Customer transmit an RTN on an outbound call, the call is assigned a local calling area based on the remote site address. The remote site address is transmitted on 911 calls, see paragraph 5.24.2 below.

5.24.2 Limitations

RTNs are assigned only from suitably equipped Company switches. The RTN Service Customer must subscribe to an eligible voice service. Unless the Customer purchases multiple trunk groups, all RTNs, VTNs and ITNs share all call paths associated with the eligible service to which calls are terminated in the order in which calls are received. Should the Customer transmit an RTN on a call made to 911, authorities will respond to the remote site address as provided by the Customer at the time service is ordered unless changed in writing. The Customer is responsible for notifying the Company should the address associated with an RTN change.

5.24.3 Rates and Charges

Rates are based upon the remote site address. The Customer receives the first 100 RTNs at each remote site at no additional charge.

Monthly Recurring Charge Per Number	\$0.15
Nonrecurring Charge Per Number	\$0.35

Note: PS/ALI services are not currently supported with RTNs. Available with Converged Voice Services (with trunks), FlexVoice (with trunks) or SIP Trunking.

LOCAL EXCHANGE SERVICES

SECTION 7 – GRANDFATHERED SERVICES, (CONT'D.)

7.3 Channel 12 Service, (Cont'd.)

7.3.2 Rates and Charges

The Customer who selects line based channels may order the following features at no additional charge (Included basic monthly fee): Additional supplemental services may be order pursuant to Section 5.

	12 Month <u>Term</u>	24 Month <u>Term</u>	36 Month <u>Term</u>	Per Order <u>Nonrecurring</u>
<u>Channel 12 Integrated</u>				
DS1/PRI access facility base rate (includes up to 12 channels)	\$506.00	\$456.00	\$430.00	\$250.00
Each Additional Channel	\$ 16.00	\$ 16.00	\$ 16.00	\$ 16.00
	12 Month <u>Term</u>	24 Month <u>Term</u>	36 Month <u>Term</u>	Per Order <u>Nonrecurring</u>
<u>Channel 12 Voice Only</u>				
DS1/PRI access facility base rate (includes up to 12 channels)	\$506.00	\$456.00	\$430.00	\$250.00
Each Additional Channel	\$ 16.00	\$ 16.00	\$ 16.00	\$ 16.00

Customers served on on-net facilities may receive up to a 10% discount.

7.3.3 Expiration of Term Agreement

(T)

Upon expiration of the initial term, the Customer who retains the Company’s service must select a current Company service offering, which may include a new term agreement.

7.3.4 Termination Fees

(T)

Consistent with the Customer’s agreement, a termination liability charge will be applicable for service rate elements provided under the Channel 12 Service term payment Plan when service is canceled prior to the end of the chosen Term Plan. The termination fee is equal to the number of months remaining under the term agreement multiplied by the monthly rate for the Services multiplied by twenty (20) percent. The Customer is obligated to pay such charges within thirty (30) days of termination. In the event service is provided via a third party, the Customer is responsible for all cost incurred for such early termination with our service provider.

7.17 Business Line Service (M) (T)

This service is grandfathered and is only available to existing Customers at existing locations without modification as of January 9, 2014. (T) (T)

7.17.1 Description (T)

Business Line Service provides a Customer with voice grade telephonic communications channels that can be used to place or receive one call at a time. Local calling is available on a flat rate basis (one monthly charge regardless of call volume). Business Lines are provided for connection of Customer-provided single line terminal equipment such as station sets or facsimile machines.

The Business Line Customer is also eligible to purchase the Premium Feature Package defined in Section 5.22.

Business Line Service is subject to minimum and maximum order quantities as described below:

Service Delivery Type	Minimum DS0s per T1 per service location	Maximum DS0s per T1 per service location
On-Net Service	12	24
Off-Net Service	16	24

7.17.2 Rates and Charges (T)

7.18 Analog PBX Trunk Service (M) (T)

This service is grandfathered and is only available to existing Customers at existing locations without modification as of January 9, 2014. (T) (T)

7.18.1 Description (T)

Analog PBX Trunk Service provides a Customer with a voice-grade telephonic communications channel that can be used to place or receive one call at a time. Local calling is available on a flat rate basis (one monthly charge regardless of call volume). Analog PBX Trunk Service provides a connection from a Customer-provided PBX to the public switched telecommunications network.

Each Analog PBX trunk can be configured as an Inward, Outward, or Two-way trunk and may be equipped with Individual Telephone Numbers for an additional charge as described in section 5.22. Individual Telephone Numbers enable a PBX to switch an incoming call directly to the intended extension number without the need for an attendant.

Analog PBX Trunk Service may be configured into a hunt group with other Company-provided Analog PBX Trunks.

Analog PBX Trunk Service is subject to minimum and maximum order quantities as described below:

<u>Service Delivery Type</u>	<u>Minimum DS0s per T1 per service location</u>	<u>Maximum DS0s per T1 per service location</u>
On-Net Service	12	24
Off-Net Service	16	24

The Company will consider requests for large quantities, i.e. 101 or more trunks, on an individual case basis only.

7.18.2 Rates and Charges (T)

A. Per Trunk Charge

<u>Term</u>	<u>Monthly Recurring Charge</u>	<u>Nonrecurring Charge</u>
12 Month Term	\$12.16	\$20.00
24 Month Term	\$11.60	\$20.00
36 Month Term	\$11.05	\$20.00
60 Month Term	\$10.50	\$20.00

7.19 Business Terminals Service

(M) (T)

This service is grandfathered and is only available to existing Customers at existing locations without modification as of January 9, 2014.

(T)

(T)

7.19.1 Description

(T)

Business Terminal Service is generally used in a hunting arrangement or a multi-line hunt group. The group may have a main telephone number assigned to the first terminal in the group or they may have individual telephone numbers assigned to each terminal. Common applications include modem pools and large hunting applications for analog lines. Business Terminals have a physical appearance in the switch and are assigned to a unique channel. Business Terminals may or may not have a telephone number assigned to them. Additionally, whereas Business Lines can have separate and unique features per line, Business Terminals may or may not take on characteristics of the group. Local calling is available on a flat rate basis (one monthly charge regardless of call volume).

The Business Terminals Customer is also eligible to purchase the Premium Feature Package as defined in Section 5.22.

Business Terminal Service is subject to minimum and maximum order quantities as described below:

<u>Service Delivery Type</u>	<u>Minimum DS0s per T1 per service location</u>	<u>Maximum DS0s per T1 per service location</u>
On-Net Service	12	24
Off-Net Service	16	24
