Mr. Morris Woodruff  
Secretary/Chief Regulatory Law Judge  
Missouri Public Service Commission  
200 Madison Street, Suite 100  
Jefferson City, MO 65102

**Re: Tariff Schedule to Adjust Demand Side Investment Mechanism Rider Rate  
of KCP&L Greater Missouri Operations Company**

Dear Mr. Woodruff:

Pursuant to 4 C.S.R. 240-3.163(8) of the regulations of the Missouri Public Service Commission (“Commission”), KCP&L Greater Missouri Operations Company (“GMO” or the “Company”) hereby submits proposed rate schedules to adjust charges related to the Company’s approved Demand Side Investment Mechanism Rider (“DSIM Rate”). The proposed rate schedules bear an issue date of December 1, 2016, and an effective date of February 1, 2017.

Please provide a copy of all correspondence, notices, orders, and other communications that relate to this filing to the following as well as undersigned counsel:

Tim Rush  
Director – Regulatory Affairs  
Kansas City Power & Light Company  
1200 Main Street – 19<sup>th</sup> Floor  
Kansas City, Missouri 64105  
Phone: (816) 556-2344  
Fax: (816) 556-2110  
Email: Tim.Rush@kcpl.com

The DSIM rate components consist of projected Program Costs and projected Throughput Disincentive associated with Cycle 2 for January 2017 through June 2017 and the reconciliation of expected Program Costs and expected Throughput Disincentive for both Cycles 1 and 2 through December 2016. Also included in this DSIM filing are the results of the performance incentive from Cycle 1. The performance incentive is to be recovered over a two

year period, therefore; one-fourth of the performance incentive is reflected in the proposed DSIM rate in this filing. These amounts are divided by the projected retail sales, excluding opt-out sales from customers, to develop a rate to be used in the DSIM rate.

At this time, based on actual performance experienced through September 2016 and forecasts through June 2017, the residential DSIM rate will be lower than the current rate of \$0.00162 per kWh and will become \$0.00139 per kWh. For a residential customer using 1,000 kWh's, this would mean a decrease of \$0.23 per month.

As explained in the Direct Testimony and supporting schedules of Tim Rush, which are submitted concurrently herewith, the overall DSIM Rate reflects progress towards achievement of energy and demand savings originally established in the MEEIA filing made in File No. EO-2012-0009. Also provided herewith are schedules containing the information required by 4 C.S.R. 240-3.163(8), including all work papers that support the proposed rate schedules.

Copies of the proposed DSIM Rate schedules and all supporting materials described in this letter will be served electronically, this date, on the Commission's General Counsel, the Office of Public Counsel, and each party to File No. EO-2012-0009 and EO-2015-0241.

Respectfully submitted,

*/s/ Roger W. Steiner*
