Long Distance Message
Telecommunications Service Tariff
5th Revised Sheet 2
Replacing 4th Revised Sheet 2

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.1 Scope-(Continued)

- (CT) E. The rules and regulations as applied to billing and collection practices for services provided to residence customers are found in the Rules and Regulations Applying to All Customers' Contracts and the Suspension of Service Sections of the Missouri General Exchange Tariff.

1.2.2 Availability of Services

- A. In case a shortage of service components exists at any time, either for temporary or protracted periods, the establishment of Long Distance Message Telecommunications Service shall take precedence over all others.
- B. Service is furnished subject to the availability of the service components required. The Telephone Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.
- (CT) C. When connections are made to customer- or interexchange customer-provided communications systems at a premises where the customer does not originate or terminate communications, the Telephone Company may require that the exchange telephone service be furnished from a Telephone Company Serving Office(s) different than the Serving Office(s) designated by the Telephone Company to serve that premises.
- D. At the option of the Telephone Company, Billed Number Screening will be furnished to control instances of fraud associated with billed to third party, station-to-station or person-to-person collect calls or in response to a customer request.

1.2.3 Limitations on Duration of Connections

The Company reserves the right to limit the duration of connection when necessary because of a shortage of service components caused by emergency conditions.

1.2.4 Liability

- A. In view of the fact that the customer has exclusive control of his communications over the services furnished him by the Telephone Company, and of the other uses for which services may be furnished him by the Telephone Company, and because of unavailability of services incident to the services and to the use of such services of the Telephone Company, the services furnished by the Company are subject to the terms, conditions and limitations specified in B., C. and D., following.

Replacing 5th Revised Sheet 3

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.4 Liability-(Continued)

- (RT)
- B. The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or failures or defects in service components furnished by the Telephone Company occurring in the course of furnishing service and not caused by the negligence of the customer, or of the Telephone Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or failure or defect in service components occurs. No other liability shall in any case attach to the Telephone Company in consideration of such interruptions.
 - C. The customer indemnifies and saves the Telephone Company harmless against claims for libel, slander or infringement of copyright from the material transmitted over its services; against claims for infringement of patents arising from, combining with or using in connection with, services of the Telephone Company, apparatus and systems of the customer and against all other claims arising out of any act or omission of the customer in connection with services provided by the Telephone Company.
 - D. When the services of other telephone companies are used in establishing connections to points not reached by the Telephone Company's services, the Telephone Company is not liable for any act or omission of the other company or companies.

1.2.5 Use of Service

- A. The service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Tariff.
- B. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 - 1. The use of the service of the Telephone Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service.

Bill to Third Number

The term "Bill to Third Number" denotes a billing arrangement by which a call may be charged to an authorized service point as determined by the Telephone Company other than the service point originating the call or the service point where the call is terminated.

Billed Number Screening

The term "Billed Number Screening" denotes an arrangement whereby at time of call origination, bill to third number, service point-to-service point or person-to-person collect calls are screened for customer-preauthorized or Company-directed nonacceptance. Screening is based on the "billed to" number.

Call Forwarding

Call Forwarding denotes that feature whereby a call placed to a customer's telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company serving office equipment on a Long Distance Message Telecommunications Service basis only to a service point designated by said customer in another exchange within the same LATA. Provision of Call Forwarding is subject to the availability of service components.

Calling Card

The term "Calling Card" denotes a billing arrangement by which a call may be charged to an authorized telecommunications company calling card number.

Collect Call

The term "Collect Call" denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third party number. In the case of a telephone which is identified as Payphone Exchange Access Service, the charges must be billed to a calling card or third number, or the call may be reoriginated from the called service point.

(RT)

Bill to Third Party

The term "Bill to Third Party" denotes a billing arrangement by which a call may be charged to an authorized station as determined by the Telephone Company other than the station originating the call or the station where the call is terminated.

Call Forwarding

Call Forwarding denotes that feature whereby a call placed to a customer's telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company central office equipment on a long distance message telecommunications service basis only to a station designated by said customer in another exchange. Provision of Call Forwarding is subject to the availability of service components.

Centrex Control Switching Equipment

The switching equipment, located on the Telephone Company premises, used to provide Centrex service furnished in accordance with Centrex service provisions of the General Exchange Tariff of the Telephone Company.

1.2 GENERAL REGULATIONS-(Continued)

1.2.13 Definitions-(Continued)

(AT)G. Conforming Answering Device

The term "Conforming Answering Device" denotes a customer-provided device which automatically answers incoming calls; transmits a prerecorded voice message or appropriate audible signal to the calling party; records a voice message from the calling party if so designed and arranged; and automatically disconnects from the line in a prearranged manner on completion of the last functions for which it was designed and arranged as described in this paragraph. The conforming answering device may include remote interrogation and/or device function control. A conforming answering device must incorporate an authorized protective connecting module and must bear a valid conformance number.

H. Connecting Arrangement

The equipment provided by the Telephone Company to accomplish the direct electrical connection of customer-provided facilities with the facilities of the Telephone Company.

CANCELLED

I. Customer

The person, firm or corporation which is responsible for the payment of charges and compliance with the regulations of the Telephone Company.

When used in connection with customer-provided communications channels or systems, denotes the point on the customer's premises where channels provided by or furnished to the customer are terminated in switching equipment used, in the normal mode of operation, for communications with stations or customer-provided terminal equipment located on the premises.

(AT) Service Terminating Arrangement

The term "Service Terminating Arrangement" denotes a telephone Company-provided equipment which terminates exchange telephone service, used for Long Distance Message Telecommunications Service (LDMTS), at a customer's premises. The "Service Terminating Arrangement" provides a clearly-delineated interface which facilitates the design, isolation and testing of LDMTS. Where a protective connecting arrangement is required, the "Service Terminating Arrangement" is provided as a part of the protective connecting arrangement.

Single Ended Terminal Device

A terminal device which terminates only one line at a given time (e.g., headset).

Station

The network control signaling unit, DATA-PHONE data set or other equipment provided by the Telephone Company at the customer's premises which enables the customer to establish the communications connection to effect communications through such connections; also denotes a termination of an individual exchange line or PBX trunk provided in accordance with the provisions of this Tariff, in Telephone Company switching equipment located in an exchange foreign to the exchange in which the customer is located.

1.2.14 Special Taxes, Fees and Charges

- A. There shall be added to the customer's bill or charge as a part of the rate for service, a surcharge, equal to the pro rata share of any franchise, occupation, business, license, excise, privilege, or other similar tax, fee or charge (hereafter called "tax") now or hereafter imposed upon the Telephone Company by any taxing body or authority, whether by statute, ordinance, law or otherwise, and whether presently due or to hereafter become due.
- B. On and after the effective date thereof, any subsequent increase, decrease, imposition or determination of liability for such taxes, fees or charges, as described above, shall be applied in the manner provided below, to the customer's bill or charge on each individual billing date.
- C. When such tax or taxes are imposed in terms of a flat sum payment of money, the surcharge applicable to each customer's bill or charge, as the pro rata share of such taxes described above, shall be determined by relating the flat sum payment to the total local exchange revenues within the jurisdiction of the taxing body; the fraction so described shall be converted to a percentage; the local exchange rate shall be increased by that percentage, and applied to the customer's bill or charge, so that the amount added, when accumulated from all customers residing in the geographic jurisdiction of the body, will equal the amount of the flat sum payment.
- D. When such tax or taxes are imposed in terms of a percentage of revenues or gross receipts, the surcharge applicable to each customer's bill or charge as the pro rata share of such taxes described above shall be determined by dividing the tax expressed as a percentage by 100% minus the tax expressed as a percentage and multiplying the decimal thus obtained by the customer's charges to which such tax applies.

$$\left(\frac{\text{Tax\%}}{100\% - \text{Tax\%}} \right) \times \text{Taxable Charges}$$

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.14 Special Taxes, Fees and Charges-(Continued)

E. The Tariff charge constituting the amount of the surcharge provided for herein shall be stated separately on each customer's bill.

F. Where more than one tax, fee or charge is imposed by a taxing body or authority, the total of such surcharge applicable to a customer may be billed to the customer as a single amount.

1.2.15 Time and charges on long distance calls may be quoted upon request from the customer. Name association with time and charge details will be provided where service components permit. The Telephone Company reserves the right to determine the service component used where there are multiple service components.

(AT)

1.2.16 Long Distance Availability Limits

A. SWBT reserves the right to limit and/or restrict inter/intraLATA toll calling on SWBT residential customer accounts deemed to be unsatisfactory credit risks for reasons including, but not limited to:

1. Poor credit history with SWBT
2. No prior credit history available to SWBT with respect to previous telecommunications service within the last two (2) years (e.g., "new connects")
3. Current delinquent toll balance

B. SWBT will establish toll limits on customer accounts in a non-discriminatory manner based on the customer's credit history with SWBT. Customers determined to be "at risk" will be assigned toll calling limits. A customer's credit classification will be determined in accordance with SWBT internal rules and regulations and Section 17, Rule and Regulations Applying To All Customers' Contracts, of the General Exchange Tariff. On existing accounts, SWBT shall notify existing customers of their toll limit at least ten (10) days in advance of the date the toll limit is to be placed on the customer's account.

An applicant for service will be advised of his toll limit at the time of application by the service representative who take his order. Customers will receive a printed notice on their bill every month stating their toll limit amount. The limit will be placed on all working telephone numbers on the customer's account.

(CT)

1.3 METHOD OF APPLYING RATES

1.3.1 Long Distance Message Telecommunications Service rates between points (cities, towns, or localities) within the same LATA are based on the air line distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.

(CP)

1.3.2 For the purpose of determining air line mileages vertical and horizontal grid lines have been established across the United States and Canada. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map projection for determining air line mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the air line mileage computed as explained in 1.3.3, following.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 GENERAL REGULATIONS-(Continued)

1.2.16 Long Distance Availability Limits – (Continued)

(AT)

- C. SWBT will monitor the toll activity on “at risk” customer accounts 24 hours per day, 7 days per week via mechanized systems. When a customer’s cumulative toll usage exceeds his designated limit, all further toll calling will be restricted. Calls attempted from restricted lines will be routed to a central office announcement system which will inform the caller that long distance calls from that line are restricted. The restriction will be placed on all working telephone numbers on the customer’s account.
- D. A customer whose toll usage is restricted due to provisions of this subsection will not be able to dial or complete inter/intraLATA toll calls, which also include the following:
 - 1. Calls preceded by a “1” or “0” (other than 800 or 888)
 - 2. Accept collect or billed to third number calls that create toll charges on working telephone numbers
 - 3. SWBT Calling Card Calls
- E. A customer whose toll usage is restricted due to provisions of this subsection will be able to dial the following:
 - 1. Any local calls (current local calling scope, including ten-digit local dialing)
 - 2. Emergency 9-1-1
 - 3. SWBT Business Office
 - 4. SWBT Repair
 - 5. 800 Service calls and Common Line 800 Service calls
 - 6. 0- Access to Directory Assistance and Local Operator Assistance
- F. SWBT may restrict toll usage pursuant to this subsection, until such time as sufficient payment is received. Restricted customers may be required to make a payment before service is restored. Rules and regulations for handling such payments will be in accordance with the current guidelines in Sections 17, Rules and Regulations Applying to All Customer’s Contracts, of the General Exchange Tariff. Customers may contact SWBT customer service 24 hours per day, 7 days per week to inquire about their long distance availability limit, restriction status or to arrange for payment.
- G. Toll limits will remain on an “at risk” customer account until such time as:
 - 1. The customer maintains on-time payment status on their account for a period of twelve (12) consecutive months, and

2. The account complies with the rules and regulations set forth in other sections of the General Exchange Tariff and/or SWBT internal rules and regulations.

(AT)

H. In the event of a billing error, dispute or emergency, SWBT customer service personnel may temporarily override toll limits/restriction on a customer’s account. The need for and duration of an override will be determined by SWBT on a case by case basis.

I. The regulations specified in this section are in addition to the regulations contained in other sections of the General Exchange Tariff or in the Local Exchange Tariff. The customer shall indemnify and save harmless SWBT from any and all claims, losses and damages that may result from toll limits/restriction being placed on his account, or from SWBT’s failure or decision not to activate toll limit/restriction. Notwithstanding SWBT’s right to activate toll limits/restriction, the customer remains responsible for all charges actually incurred on customer’s account whether or not toll limits/restriction was activated.

J. There is no charge to the customer when toll limits/restriction is placed on an account due to the provisions of this subsection, nor is there a charge to the customer for service restoral when the toll restriction is removed from the account.

K. Toll limits will not be applied to customers in those exchanges where 911 service is not available.

L. Customers who have a handicapped designation on their SWBT accounts will be exempt from TRIMS monitoring.

Replacing Original Sheet 14

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.3 METHOD OF APPLYING RATES-(Continued)

1.3.3 Determination of Airline Mileages

(MT)

(RT) A. Long Distance Message Telecommunications Service

To determine the rate distance between any two rate centers proceed as follows:

1. Obtain the (V) and (H) coordinates for each rate center.
2. Obtain the difference between the (V) coordinates of the two rate centers. Obtain the difference between the (H) coordinates. NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
3. Divide each of the differences obtained in 2. by three, rounding each quotient to the nearer integer.
4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in 3. by three and repeat step 4. Repeat this process until the sum of the squares obtained in 4. is less than 1778.
5. The number of successive divisions by three in steps 3. and 4. determines the value of "N". Multiply the final sum of the two squares obtained in step 4. by the multiplier specified in the following table for this value of "N" preceding:

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in 5. and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in 5. preceding, the minimum rate mileage corresponding to the "N" value is applicable.

Issued: December 29, 1993

Effective: January 1, 1984

By R. D. BARRON, Vice President-Missouri
Southwestern Bell Telephone Company
St. Louis, Missouri

Long Distance Message
Telecommunications Service Tariff
Original Sheet 15.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.3 METHOD OF APPLYING RATES-(Continued)

1.3.3 Determination of Airline Mileages-(Continued)

Example:

The message rate distance is required between Kansas City, Missouri and St. Louis, Missouri.

	V	H
(A) Kansas City	7027	4203
St. Louis	6807	3482
(B) Difference	220	721
(C-1) Dividing each difference by three and rounding to nearer integer = 73 AND 240		
(D-1) Squaring integers and adding, 73 X 73 = 5329		
		240 X 240 = 57600
Sum of squared integers		62929
Sum of squared integers is greater than 1777, so divide integers in (C-1) by three and repeat (D-1)		
(C-2) Dividing integers in (C-1) by three and rounding = 24 AND 80		
(D-2) Squaring integers and adding, 24 X 24 = 576		
		80 X 80 = 6400
Sum of integers		6976
Sum of squared integers is greater than 1777, so divide integers in (C-2) by three and repeat (D-2)		
(C-3) Dividing integers in (C-2) by three and rounding = 8 AND 27		
Squaring integers and adding, 8 X 8 = 64		
		27 X 27 = 729
Sum of squared integers		793

This sum of squared integers is less than 1778 and was obtained after three successive divisions by three; therefore, ~~CANCELLED~~ 3.

(E) Multiply final sum of squared integers 793 by factor 72.9 (corresponding to "N" = 3) x 72.9 = 57,809.7

(F) Square root of 57,809.7 = 240 and a fraction, which I rounded up to 241 miles (fractional miles being considered full miles). The 241 miles is larger than the minimum of 121 rate miles applicable when "N" = 3, so the message rate mileage is 241 miles.
