**ACCESS SERVICES TARIFF CONCURRENCE**

Access Services

Access services are those services which are described in the Access Services Tariff of Mark Twain Rural Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Mark Twain Rural Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Mark Twain Rural Telephone Company. Rates for these services are set out in the following pages of this concurrence. (T)  
(T)  
(T)  
(T)

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Mark Twain Rural Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Mark Twain Rural Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company. (T)  
(T)  
(T)

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

## DISCONTINUANCE OF EAS

A.. The Company will discontinue service from specified exchanges as a result of a survey as set forth following:

1. Company has received petition or petitions representing at least 20% of the customers from one of the affected exchanges or at least 10% of the customers in each of the affected exchanges, requesting that the Company conduct a survey to determine whether EAS should be discontinued.

If prior surveys have been conducted in the affected exchanges, at least two years shall have elapsed since the last survey before an additional survey is initiated.

2. A minimum of 50% of the combined total customers in the affected exchanges must vote. Then, at least two thirds (66 2/3%) of the combined total customers in the affected exchanges voting, must vote to discontinue such service.
3. The survey cards will be returned by the customers to the Secretary of the Public Service Commission for validation and tabulation. The Public Service Commission will advise the Company of the survey results and, if the appropriate requirements are met, the Company will then discontinue such service, together with the appropriate EAS Rate Component, as soon as is practicable.

# CUSTOM CALLING SERVICES

Steelville Telephone Exchange, Inc., will provide the following custom calling services in exchanges specifically equipped to provide such services.

These services will not be provided for PABX customers or for semi-public or public paystations.

## A. Feature Description

1. Call Waiting-Provides for signaling a customer, who is talking on his line, that another call has been placed to his line. He may, by switch hook operation, hold the first call, answer the second, return to the first, or converse alternately with both.
2. Speed Calling-Permits local and long distance calls to be placed by dialing an abbreviated code. This arrangement is available in an 8 number capacity and a thirty number capacity.
3. Three-Way Calling-Permits a customer to add a third party to an existing call, whether the original call was incoming or outgoing.
4. Call Forwarding-Permits the customer to have all incoming calls to automatically transfer to another dialable telephone number, while this service is activated. Where a toll message charge is applicable to a call between the customer's telephone and the telephone number to which calls are being forwarded, such charges will be billed to the Call Forwarding Customer.

- a. Fixed operation, which provides for Company establishment or change of the forwarding telephone number destination requested by the customer. In the event of an interruption in "fixed" Call Forwarding Service,

the company will re-establish the most current forwarded telephone number destination shown in its records. Feature activation and deactivation is the responsibility of the customer.

- b. A variable operation, which provides for customer establishment and change of the forwarded number destination. The customer is also responsible for feature activation and deactivation as well as re-establishing the forwarded telephone number destination upon interruption of "variable" Call Forwarding Service.

NOTE: The grade of transmission on three way calling and call forwarding may vary depending on the distance and routing necessary to complete the call. End to end transmission is not guaranteed.

EMERGENCY DIRECT CONNECT SERVICE

MISSOURI  
Public Service Commission

## A. General Information

EMERGENCY DIRECT CONNECT SERVICE is a feature which causes any residential or business line so equipped to automatically call a predetermined number (local or long distance) in the event that the receiver is removed from the hook switch causing the central office to return dial tone and no number is dialed for a predetermined waiting time. The waiting time is customer selectable from 2 seconds to 26 seconds and varies in 2 second increments.

EMERGENCY DIRECT CONNECT SERVICE is compatible with 9-1-1 Emergency Service.

Installations, changes and disconnects of EMERGENCY DIRECT CONNECT SERVICE are done by Telephone Company personnel. Charges for these activities are covered under Service Connection Charges elsewhere in this Tariff.

Customer Owned Pay Telephone Service

MISSOURI

Public Service Commission

A. General

1. Customer-Owned Pay Telephone Service is offered for use with a customer-provided pay telephone instrument. (1) All attachments of Customer-Owned Pay Telephone service to the network must be made pursuant to the rules and regulations set forth in this tariff.
2. Customer-Owned Pay Telephone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment with Selective Class of Call Screening treatment (where available), all outside plant facilities needed to connect the serving central office with the customer's premises and the network interface. These facilities are Telephone Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls from the service point to only those calls which are charged to a called telephone, a third number or a Calling Card account.
4. In the case of one-way service, intercept treatment will be provided (where available).

- (1) For purposes of this tariff section, the term "customer" is defined as the party who is responsible for payment of the Customer-Owned Telephone Service.

**MISSOURI**  
**Public Service Commission**

5. A maximum of one customer-provided pay telephone instrument may be connected to any one Customer-Owned Pay Telephone Service Access line.
6. Selective Class of Call Screening will be provided wherever available. Any customer who offers Customer-Owned Pay Telephone Service where Selective Class of Call Screening is not available, nonetheless assumes full and complete responsibility for all calls billed to such line.
7. The General Rules and Regulations as set forth in this tariff are applicable to the provision of Customer-Owned Pay Telephone Service.
8. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
9. The network interface is a device that is Telephone Company provided and maintained and is the point where the Customer-Owned Pay Telephone Service terminates and provides for connection to the customer owned pay telephone wiring.
10. For Customer-Owned Pay Telephone Service, a network interface will be installed at a location determined by the Telephone Company which is reasonably accessible to the premises to be served by the customer owned pay telephone service.

B. Responsibility of the Customer

1. The customer shall be responsible for the installation, operation and maintenance of the customer-provided pay telephone instrument used in connection with this service.

2. The customer shall be responsible for the payment of a Maintenance of Service charge for visits by a Telephone Company employee to the customer's premises when a service difficulty is caused by a customer-provided pay telephone instrument. The Maintenance of Service Charge will apply where the service difficulty is reported by the customer.
3. The customer shall be responsible for the payment of all charges for service provided to the customer pursuant to the Company's tariffs.
4. The customer-provided pay telephone instrument must be registered in compliance with Part 68 of the FCC's Registration Program or connected behind an FCC-registered coupler and have the following operational characteristics:
  - a. Must be able to access the operator at no charge and without using a coin.
  - b. Must be able to access Directory Assistance.
  - c. Must be able to complete local and toll calls.
  - d. The customer must provide on or near its phones such consumer information as required by state and federal law.
  - e. Must comply with all applicable federal, state and local laws and regulations concerning the use of this type of telephone by disabled and/or hearing impaired persons.
  - f. Must be able to access 911 emergency service, where available, at no charge and without using a coin.
