RATE E  
 RATE FOR PUBLIC WATER SUPPLY DISTRICT 2

APPLICATION – This rate is applicable to water service provided to Public Water Supply District No. 2 (“District”) in order to comply with the agreement dated August 23, 1997, between United Water Missouri (“Company”) and the District, as well as subsequent amendments to that agreement. It is recognized that in accordance with said agreement and amendments, the Company has obtained the use of storage and well facilities owned by the District in exchange for certain operational responsibilities and charges. It is also recognized that the sources of water used by the District’s customers are from its own wells and, in the course of operating the interconnected systems, also from the Company’s treatment plant.

- (A) Pursuant to Paragraph 7 of the August 23, 1977 Agreement, the rate in this tariff shall be charged by the Company to the District for the quantity of water used by the District in any month in which the quantity of water used exceeds the maximum monthly quantity used in the previous calendar year, adjusted for growth in that calendar year, as determined by the formula set forth in Paragraph 7 of the Agreement.
- (B) To the extent that charges for water service have not been made under paragraph (A) above, this tariff rate shall apply to the net flow of “treatment plant” water from the Company to the District, as measured at the interconnections between the Company’s and the District’s systems, provided that there has been a net flow of “treatment plant” water into the District during the last 12-month period.
