OCT 11 1996

3.3 Calculation of Distance

3.3.1 Usage charges for all mileage sensitive products are based on the air mileage distance between rate centers associated with the originating and terminating points of the call.

3.3.2 The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers.

3.3.2.A Formula:
$$\sqrt{\frac{(V1-V2)^2 + (H1-H2)^2}{10}}$$

3.4 Minimum Call Completion Rate

3.4.1 Customers can expect a call completion rate of 98% during peak use periods for all Feature Group D Equal Access 1+ and 0+ Services. The call completion rate is calculated as the number of calls completed (including calls completed to a busy line or to a line which remains unanswered by the called party) divided by the number of calls attempted.

3.5 Timing of Calls

3.5.1 Billing Increments

3.5.1.A **ExcelPLUS, ExcelPLUS II, Prepaid, Operator, Excel Calling Card, and My 800 Services:** Each call completed will have an initial minimum of one minute and any time beyond that minimum will be billed in addition using one minute using one minute increments, rounded up to the next whole minute. If the computed charge includes a fraction of a cent, the fraction is rounded up to the next whole cent.

4.1.11 PREPAID SERVICE

The service enables callers to place calls using Excel Telecommunications, Inc. Public Service on a prepaid basis. Customers subscribe to the service by purchasing a prepaid card from an authorized Excel representative. Access to the service is available seven (7) days per week, twenty four (24) hours per day. Charges for telephone calls will be deducted from the Customer's prepaid account balance. Prepaid calling cards will be valid until the Customer's prepaid balance is depleted. Customers access the Company's network using a 1-800 access code arrangement. A voice prompt will instruct the caller to dial the called telephone number and authorization code displayed on the card.

Prepaid Service is provided to the holder of the card and is available in all locations throughout the State. Customers must maintain a sufficient balance to cover the cost of the call in process. Failure of the card holder to maintain a positive balance may result in the disconnection of a call in process; an announcement will advise the caller one minute prior to the disconnection of the call. Under some arrangements, callers may utilize a commercial credit card to increase a prepaid balance or renew the prepaid card.

Call duration will be measured in whole minute increments, unless otherwise specified. Credit for interruptions are limited to one minute; no other refunds, credit, or other remittances shall be permitted. All applicable state and federal taxes and fees, including, but not limited to, sales tax, gross receipts tax, municipal tax, and other similar assessments are the responsibility of the card holder. Such charges may be deducted from the Customer's prepaid calling card balance. Prepaid calling cards are provided at the unit prices and fees set forth herein.

Calls placed using Prepaid Calling Card Service are charged against the card holder's balance at a rate of \$.29 per minute.

4.9 Excel Operator Services

MO. PUBLIC SERVICE COMMISSION

The Company's Operator Services is available throughout the State of Missouri. Callers access the Company's Operator Services by dialing 0+ a 10 digit telephone number, 00 or a Company-provided access code or other Company-authorized access method plus the telephone number of the called station. Upon receipt of the call, the Company may verify the credit-worthiness of the designated billed party. When a payment method cannot be validated, or is unacceptable, callers may be required to select an alternative and acceptable means of payment. Total charges for use of this service include usage charges and an Operator Assistance Service Charge, as set forth below. An Operator Dialed Service Charge also applies to calls in which the caller has the capacity to dial the number, but has the operator dial instead. Usage charges are based upon the duration of a call, and are flat per minute based, 24 hours per day, 7 days per week, during all Time-of-Day Rate Periods. The Time-of-Day Rate Periods are defined as follows:

- **Day Rates** are applicable to calls placed Monday through Friday from 8:00 AM to, but not including, 5:00 PM.
- **Evening Rates** are applicable to calls placed Sunday through Friday from 5:00 PM to, but not including, 11:00 PM; and on Carrier Recognized Holidays, unless a lower rate would normally apply.
- **Night/Weekend Rates** are applicable to calls placed Sunday through Friday from 11:00 PM to, but not including, 8:00 AM the following day, and all day Saturday.

Chargeable time begins when the Company receives signaling to detect that the network connection between the calling station and the called station has been established. Chargeable time ends when either party "hangs up" thereby releasing the network connection. For collect calls, chargeable time begins when the called station accepts responsibility for payment of the charges associated with the call. All calls are measured and billed in one minute increments; fractional minutes of use are rounded up to the next full minute.

MO. PUBLIC SERVICE COMMISSION (N/C)

4.9.1 Operator Assistance Service Charges and Surcharge Descriptions: (Continued)

- c. Busy Line Verification - refers to those instances where the Company will provide operator assistance to determine if there is conversation ongoing on a called station. A Service Charge is applied to all attempts to verify the condition of a customer line, busy talking, busy not talking (e.g., off hook), except attempts which are unsuccessful due to network equipment failure.
- d. Busy Line Interruption - refers to those instances where the Company operator will interrupt an ongoing conversation on a called station. A charge will apply each time the Company operator attempts the emergency interruption whether or not the interruption is successful. A Busy Line Verification must be made and its service charge applied before an Emergency Interruption can be attempted. Once an operator has verified the line, and the called party has agreed to accept the interruption, the Customer is provided the option of completing an operator assisted call to the called station without hanging up or originating a separate call. Customers may accept or refuse the operator's offer to complete the call. Calls completed with the operator's assistance will be charged an additional Service Charge under Station-to-Station or Person-to-Person, as applicable. If the operator dials or completes the call to the verified telephone number for the Customer, the Operator Dialed Surcharge will also apply.
- e. Operator Dialed Surcharge - will apply to Station-to-Station and Person-to-Person calls when the Customer has the ability to dial all the digits necessary for call completion but dials instead "0", "00" or another Company-provided access code or other Company-authorized access method to reach a Company operator to have the operator place the call. This surcharge will be incurred by the Customer in addition to the applicable Service Charge. However, the surcharge will not apply to: (1) calls which cannot be completed by the Customer due to equipment failure or trouble on the Company's network; (2) calls placed by parties identified as handicapped and who cannot complete the calls due to the handicap; and (3) calls made on a 0- basis in which a company operator places a call for a calling party after a Busy Line Verification and Busy Line Interruption process has been successfully completed.

MO. PUBLIC SERVICE COMMISSION

T

Prepaid Calling Card Service is provided to the holder of the card and is available in all locations throughout the State, subject to technical limitations. Customers must maintain a sufficient balance to cover the cost of the call in process. Failure of the card holder to maintain a positive balance may result in the disconnection of a call in process; an announcement will advise the caller one minute prior to the disconnection of the call. Under some arrangements, callers may utilize a commercial credit card to increase a prepaid balance or renew the prepaid card.

Rates and charges vary depending upon the arrangement selected by the Customer. Call duration will be measured in whole minute increments, unless otherwise specified. Credit for interruptions are limited to one minute; no other refunds, credit, or other remittances shall be permitted. All applicable state and federal taxes and fees, including, but not limited to, sales tax, gross receipts tax, municipal tax, and other similar assessments are the responsibility of the card holder. Such charges may be deducted from the Customer's prepaid calling card balance. Prepaid calling cards are provided at the unit prices and fees set forth herein. Excel's Prepaid Long Distance Services provide an outbound voice grade communications service for Customers who subscribe to certain Prepaid Local Exchange Services as described in Section 3.7 of Excel's P.S.C. MO No. 4 - Local Exchange Services Tariff on file with the Commission. Prepaid Long Distance Services provide a predetermined amount of toll usage during each of the Customer's regular billing cycles.
