LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

FEB 7 1996

A. COMMUNITY OPTIONAL SERVICE (COS)

**MISSOURI  
Public Service Commission**

1. General

a. Community Optional Service (COS) is an optional plan that allows customers in a qualifying COS Petitioning Exchange to purchase intraLATA interexchange calling with customers in designated exchanges, known collectively as their COS Calling Scope, under terms, conditions and rates as found in the Company Tariff(s). The COS Calling Scope consists of the COS Target Exchange to which COS Petitioning Exchange customers have qualified for COS calling, plus all other exchanges with which customers in the COS Target Exchange have Extended Area Service (EAS).

2. Qualification Process

a. In order to qualify, customers in one exchange, known as the COS Petitioning Exchange, must demonstrate that a community of interest exists with customers in the exchange with which they desire COS calling, known as the COS Target Exchange. Consideration of eligibility for COS calling is initiated by a petition filed with the MPSC by any or all of the following parties:

- 1) By 25 or more customers in the COS Petitioning Exchange;
- 2) By the presiding official(s) of a city, town, village or county, within the COS Petitioning Exchange;
- 3) The Office of the Public Counsel on behalf of the customers in the COS Petitioning Exchange;
- 4) The company serving the customers in the COS Petitioning Exchange.

b. If the petitioning COS Exchange has failed the calling study criteria, the exchange can reapply or repetition for the service after two (2) years.

c. COS will not be offered between Metropolitan Calling Area (MCA) exchanges as defined in the Missouri Public Service Commission (MPSC) Order, effective January 5, 1993, in Case #TO-92-306.

d. Petitions requesting COS must specify the COS Target Exchange with which COS calling is requested. The COS Target Exchange may be served by another local exchange company.

2. Qualification Process (Cont'd)

MISSOURI  
Public Service Commission

- e. Upon issuance of a MSPC Order directing a calling study, the Company will conduct a study covering a one month billing period of Long Distance Message Telecommunications Service Dialed Station-to-Station traffic from the COS Petitioning Exchange to the COS Target Exchange.
- f. The MPSC has ruled that a community of interest is found to exist when the traffic studies show that both of the following criteria are met:
  - 1) Customers in the COS Petitioning Exchange make an average of at least six calls per access line per month to the COS Target Exchange;
  - 2) Two-thirds of the customer in the COS Petitioning Exchange make two or more calls per month to the COS Target Exchange.
- g. If the above criteria have been satisfied and/or the MPSC determines that a community of interest exists, the COS Petitioning Exchange will be certified as a COS qualifying exchange and the service will be implemented on a time schedule approved by the MPSC.

3. Conditions

- a. COS will be offered as a two-way optional flat rate service. Two-way optional flat rate service allows customers to make unlimited calls to and receive unlimited calls from the COS Target Exchange Calling Scope for a recurring monthly flat rate.
- b. The Calling Scope of the two-way COS route shall be to the COS Targeted Exchange plus its EAS exchanges. Any EAS additives applicable in the COS Target Exchange would apply to the COS subscriber in addition to the COS monthly flat rate.
