Billing, Collection, Discontinuance of Service and Deposit Standards

DISCONTINUED

OCT 28 1980

1. Billing Standards:

- A. Bills for telephone service are issued monthly, in advance, are due when rendered. The Telephone Company shall render a bill during each billing period except when there is a zero balance.
- B. The subscriber shall receive a bill during each billing period. Failure to receive a bill does not relieve the subscriber of the responsibility for payment for telephone service.
- C. Billing cycles may be altered if the affected customers are sent an insert or other written notice explaining the alteration not less than thirty (30) days prior to the effective date of the alteration.

2. Collection Standards:

- A. Residential subscribers shall have at least twenty-one (21) days from the rendition of the bill to pay the charges stated thereon. Payment shall be made at the office of the Telephone Company, an authorized collection agency, or by mail.
- B. Demand for payment of toll charges may be made on less than twenty-one (21) days in the event a customer's service has been discontinued in accordance with "Discontinuance of Service" (3.A.1 or 2), as reflected elsewhere in this tariff, within the last twelve (12) months or where the customer incurs toll or other charges at any time during the billing period which are equal to at least 400% of the amount of the deposit or guarantee previously required. Such demand may be made by a telephone call to the customer followed by written notification by first class mail.

RULES AND REGULATIONS

June 14 1963

A. GENERAL

1. The Company will furnish Long Distance Service when it can secure suitable facilities and right for construction and maintenance of necessary pole lines, wires and equipment, or suitable connections with other Telephone Companies at established rates.
2. Local Exchange Service is classified as Business or Residence based upon the character of usage. It is for use by the subscriber, his family, his employees, associates and guests.

3. Deposits

The amount of deposit required for the purpose of establishing a subscriber's credit shall not exceed his estimated bill for exchange service and toll charges for one normal billing period plus forty-five days. The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

4. Deposit not to Affect Regular Collection Practices

The fact that a deposit has been made shall in no way relieve the applicant or subscriber from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation; nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the discontinuance of service for non-payment of any sums due the Telephone Company for services rendered. The Company may discontinue service to any subscriber failing to pay current bills without regard to the fact that such subscriber has made a deposit with the Company to secure payment of such bills or has furnished the Company with a guarantee in writing of such bills.

5. Interest to be Paid on Deposits

Interest at the rate of 6% per annum shall be paid by the Company on deposits made for the purpose of establishing credit. This applies to deposits retained by the Telephone Company for a period of 6 months or longer. Simple interest shall be computed from the date of payment of the deposit and shall be paid annually or at the

1. The Company will furnish Long Distance Service when it can secure suitable facilities and right for construction and maintenance of necessary pole lines, wires and equipment, or suitable connections with other Telephone Companies.
2. Local Exchange Service is classified as Business or Residence based upon the character of usage. It is for use by the subscriber, his family, his employees, associates and guests.
3. NEW SUBSCRIBER PAYMENTS: Applicants for service are required to pay three (3) months billing rental in advance.
4. DEPOSITS: The Company may require, at any time, a cash deposit, or a personal guaranty of a responsible person, at its option, from any Subscriber. The amount so required shall not exceed the estimated bill for both local exchange and toll service covering one billing period plus thirty (30) days. Interest at the rate of six per cent (6%) per annum will be paid annually (or upon the return of the deposit if returned before the current year is closed,) upon the deposit required, provided, said cash deposit has been held for a period of at least six months. Such interest may at the Company's option be paid in cash or credited upon the subscriber's bill for service. The deposit does not relieve the subscriber from the duty of prompt payment of bills when due, but is to be deemed a guaranty or a prepayment as the Company may desire. Local Exchange Service will be discontinued for failure to furnish a suitable deposit after five (5) days written notice to that effect. The deposit plus interest less the bills due will be returned to the subscriber at the termination of service.
5. MINIMUM SERVICE PERIOD: No telephone will be installed for a shorter period than three (3) months after which time the service may be terminated at any time upon five (5) days written notice to the Company, whereupon all bills for service rendered

- d. If within the first six (6) months of establishing service, the customer incurs toll or other charges in any one (1) billing period which are greater than 400% of the amount of the deposit previously required, an additional deposit may be required.
- e. In lieu of a deposit the Telephone Company may accept a written guarantee. The guarantee shall be limited to an amount not exceeding the cash deposit provided for in these tariffs.
- f. No deposit or guarantee shall be required by the Telephone Company because of race, sex, creed, national origin, marital status, age, number of dependents, source of income, condition of physical handicap or geographical area or residence of the subscriber.
- g. A deposit shall be subject to the following terms:

It shall not exceed estimated charges for two (2) months service based on the average bill during the preceding twelve (12) months or in case of new applicants for service the average monthly bill for all subscribers within a customer class.

It shall bear interest of nine (9) percent per annum which shall be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer.

The deposit along with the accrued interest shall be promptly refunded or credited against charges stated on subsequent bills upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods. The Telephone Company may withhold the refunding of a deposit pending the resolution of dispute with respect to charges secured by such deposit.

C. Amount of Deposit or Guarantee

The deposit or guarantee shall not exceed estimated charges for two (2) months service based on the average bill during the preceding twelve (12) months or estimated for the next twelve (12) months by the customer and the Company. Concurrent with the establishment of new service, the customer may post a deposit in two (2) equal monthly installments or as otherwise agreed upon.

D. Interest to be Paid in Deposit

The deposit will bear interest of six (6) percent per annum which will be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer. Records will be kept of any such efforts made to return the deposit.

E. Return of Deposit or Release of Guarantee

Upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods, the deposit, with accrued interest, will be promptly refunded or credited against charges stated on subsequent bills, or a written guarantee shall be released. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute.

g. (continued)

OCT 28 1980

The deposit shall be credited with accrued interest to the charge stated on the final bill and the balance if any shall be returned to the subscriber within twenty-one (21) days after the rendition of a final bill upon the discontinuance or termination of service.

The Telephone Company shall permit a customer concurrent with the beginning of service, to post a deposit in two (2) equal monthly installments or as otherwise agreed upon by the subscriber and the Telephone Company.

A guarantor as provided for by the above shall be released upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods. Payment of a charge is satisfactory if received prior to the date upon which the charges become delinquent provided it is not in dispute.

h. Deposit not to Effect Regular Collection Practices:

The fact that a deposit has been made shall in no way relieve the applicant or subscriber from complying with the Telephone Company's regulations as to advance payments and the prompt payments of bills on presentation; nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the discontinuance of the service for non-payment of any sums due the Telephone Company for service rendered. The Company may discontinue service to any subscriber failing to pay current bills without regard to the fact that such subscriber has made a deposit with the Company to secure a payment of such bills or has furnished the Company with a guarantee in writing of such bills.

F. Deposit Not to Affect Regular Collection Practices

The fact that a deposit has been made shall in no way relieve the applicant or subscriber from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation; nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the discontinuance of service for non-payment of any sums due the Telephone Company for services rendered. The Company may discontinue service to any subscriber failing to pay current bills without regard to the fact that such subscriber has made a deposit with the Company to secure payment of such bills or has furnished the Company with a guarantee in writing of such bills.

G. Discontinuance of Service for Failure to Establish Credit

Service may be discontinued for failure to establish, or maintain, credit, as authorized above. At least five (5) days prior to the date of the proposed discontinuance, the Company will mail, by first class mail, or deliver to the customer, a written notice containing a statement of the reasons for the proposed discontinuance, how the customer may avoid the discontinuance and the cost of reconnection.

9. DIRECTORY: The Company will prepare and furnish to each subscriber at each station an alphabetically arranged list of the names of all subscribers of the Local Exchange. Extra name listings of subscribers will be furnished when desired by any subscriber under the tariffs governing such extra listings. Such alphabetically arranged lists shall constitute the Company's Telephone Directory. The Directory is the property of the Company, furnished for the purpose of expediting service, and may be taken up by the Company at the termination of the Contract for service or when new Directories are issued. The Telephone Company reserves the right to change the subscriber's number when necessary.

The Telephone Company's liability for damages arising from errors or omissions in the making up or printing of its Directories or in accepting listings as presented by customers or prospective customers shall be limited to the amount of actual impairment of the customer's service, and in no event shall it exceed the amount paid for the service during the period covered by the Directory in which the error or omission occurs.

RULES AND REGULATIONS

27. LATE PAYMENT OF SERVICE AND RETURNED CHECK CHARGE

Bills are due as specified on the bill and may be paid at the Business Offices of the Company or at any agency authorized to receive such payments. All bills paid after the due date specified on the bill shall have a service charge added. Failure to receive a bill does not relieve the subscriber of the responsibility for payment in accordance with the provision set forth herein.

(D)

A Returned Check Charge will be applied for each customer check returned by the bank for insufficient funds, unable to locate account, account closed, balance held, drawn against uncollected funds, two signatures required, account garnished, endorsement incorrect or payment stopped. These charges are to compensate for the additional administrative expenses associated with these accounts.

(D)

Information regarding Late Payment of Service and Returned Check Charge is available at Fidelity's website:

29. BILL REPRINT SERVICE

Bills from the Company may be requested to be reprinted on an exception basis. A service charge of \$5.00 will be added per request. This fee will be waived if the customer requests the bill within 30 days of the issuance of the original bill or find a discrepancy in the Company billing.

30. LINE TRAP SERVICE

Line trap service provides the capability of capturing and recording the telephone number of the calling party for each local telephone call to the customer's telephone number. Information relating to the calling party's number and the time of the call is captured by telephone company switching equipment and is provided to a local law enforcement agency. Line traps will not be installed unless requested by the customer or by a law enforcement agency of the local, state, or federal government. Results of the line trap will only be disclosed to appropriate law enforcement agencies in accordance with applicable law. A trap will be established for a maximum period of fifteen days after which it will be removed unless requested by the customer to remain. One free trap per year will be established for a customer. If the customer requests an extension of the trap beyond the fifteen day period or if the customer requests a new trap within one year of requesting the initial trap, a charge of \$10.00 will apply for each fifteen day period or portion thereof.

A. GENERAL

700, 900 and 976 Blocking Service provides residence and business customers with the ability to block access from a particular network access line to all telephone numbers for which the 700, 900 and 976 NPA must be dialed.

The service is classified as a local exchange telecommunications service.

B. CONDITIONS

- 1. The Company's obligation to furnish network facilities for 700, 900 and 976 Blocking Service is dependent upon the availability of suitable facilities. Because of central office and other facility limitations, it may not be possible for the Company to provide all of the services that may be requested.
- 2. 700, 900 and 976 Blocking Service is available only for blocking access to all 700, 900 and 976 NPA telephone numbers from a particular network access line, and not for blocking access to a specific 700, 900 and 976 NPA telephone number.

C. RATES AND CHARGES

- 1. The charges as stated in this section are applicable to the initial line blocked and each additional line is subject to an additional charge as follows:

	Nonrecurring Charge
Business, 1st access line	\$10.00

MO. PUBLIC SERVICE COMM

12.1 Toll Access Restriction

- A. Toll Access Restriction provides a means of restricting access to the Long Distance Message Telecommunications Network. Three options are available to the customer:
 - 1. Restriction of 1+ calls only.
 - 2. Restriction of 1+ calls and 0+ and 0- (operator handled) calls, except 8XX IN-WATS.
 - 3. Restriction of 1+, 0+, 0- and 8XX IN-WATS where facilities allow.
- B. Restriction of 0+ and 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service.
- C. Customers must apply in writing for the establishment of Toll Access Restriction.

LINK UP MISSOURI

NOV 19 1997

1. Link Up Missouri

MO. PUBLIC SERVICE COMM

A. Applicability of Link Up Missouri Service Connection Program

1. The Link up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.

a. Service Connection Charges, as set forth in this tariff¹, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent , or \$30.00, whichever is less. These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence.

+
+

b. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period.

*

c. A qualifying low-income customer may choose with a or b, or both a and b as described above.

d. Link Up assistance is available for a second or subsequent time only for a principal place of residence with an address different form the residence address where assistance was previously provided.

e. The premises at which the residence service is requested must be the applicant's principal place of residence.

f. There is only one telephone line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.

2. Link Up will not be furnished on a Foreign Exchange service.

*

¹These do not include other charges that may be required at the initiation of service such as security deposit, contributions in and of construction, customer advances, etc.

LIFELINE SERVICE

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single-party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.

RECEIVED

A. GENERAL

FEB 23 1990

1. Direct Inward Dialing (DID) permits incoming dialed calls from the exchange network to reach a specific number within a customer system without the assistance of an attendant.
Public Service Commission
2. This service is subject to the availability of existing equipment and facilities. Construction charges will apply if additional equipment or facilities are required in the Central Office to provide this service. When equipment or service of a special type is requested and provided, rates and charges based on the additional costs involved to meet the requirements of each case shall apply.
3. Nondigital Central Offices

The Telephone Company assigns station numbers for DID in blocks of 100 numbers in all nondigital central offices. When additional numbers are required, they will be made available as soon as the Telephone Company has equipment available for this purpose. The Telephone Company cannot guarantee that station numbers will be made available in all cases.
4. Digital Central Offices

The Telephone Company assigns station numbers for DID in blocks of 20 numbers in all digital central offices.
5. Customers to DID shall be responsible for the mechanical or manual interception of calls placed to station lines or numbers not connected for service.
6. The rates and charges specified are in addition to the applicable trunk rate or other rates and charges for other services or facilities with which this service is associated. It is the customer's responsibility to ensure that the CPE selected is compatible to operate with DID service.

1.1.4 ADVANCE PAYMENTS

- A. Where, due to the manner in which a subdivision is developed, the Telephone Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Telephone Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced. If in the judgment of the Telephone Company an advance is required under the above described conditions, the Telephone Company has the right to refuse installation of the underground system until the required advance is paid to the Telephone Company.
- B. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro rata basis as the permanent service connection is made to each building or multiple-occupancy building.
- C. Any portion of an advance remaining unrefunded ten years from the date the Telephone Company is first ready to render service with the extension will be retained by the Telephone Company and credited to the appropriate construction account.

B. Where it is necessary to place temporary facilities in advance of the permanent underground telephone system in order to provide telephone service, the Telephone Company may require the applicant to pay the estimated non-recoverable costs of the temporary facilities. If the required costs under the above described conditions apply, the Telephone Company has the right to refuse installation of the temporary facilities until the required costs are paid to the Telephone Company.

1.1.6 SPECIAL CONDITIONS

- A. In circumstances, where the application of these rules appears impracticable or unjust to applicant or the Telephone Company, or discriminatory to other customers, e.g., difficult rock conditions, the Telephone Company or applicant shall refer the matter to the Missouri Public Service Commission for special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.
- B. In the event of a conflict between this tariff and the company's existing tariffs, then the provisions of this tariff will apply.

Access Services

Access services are those services which are described in Section 1.1, et seq., of the Access Services Tariff of Southwestern Bell Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules, regulations and system of charges specified in the Access Services Tariff filed by Southwestern Bell Telephone Company and approved by the Missouri Public Service Commission.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provision has been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Southwestern Bell Telephone Company's Access Services Tariff at the rates and charges and pursuant to the terms and conditions specified therein. The Company's concurrence in Southwestern Bell Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

SMARTFEATURES SERVICES

RECEIVED

JAN 15 1997

A. General Regulations

SmartFeatures Services are optional telephone services individually described in these services allow customers to efficiently manage the call flow generated by their Missouri Public Service Commission Access Line(s). SmartFeatures Services are subject to the availability of facilities and compatibility with central office equipment, customer access line and premises equipment. SmartFeatures Services will be furnished only at locations where adequate and suitable facilities are available to residential and business customers, excluding some multi-line hunting arrangements. SmartFeatures Services are not available to customers having Payphone service, Mobile, Remote Switching System WATS, Centrex telephone services and trunk facilities associated with Direct Inward Dialing. When multiple services are activated on the same line, certain services may take precedence over others.

B. Service Descriptions

1. Call Forwarding - Enables customer to redirect all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for payment of all charges (e.g., toll charges) for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. This service uses a courtesy call to notify a party at the "forward to number" that the customer will be forwarding calls to their number.
2. Call Forwarding with Remote Activation - Provides a customer that also subscribes to Call Forwarding service the ability to activate, deactivate or change the Call Forwarding feature from a remote location by dialing a Telephone company-provided remote access number. This feature can only be activated by using a touch tone telephone. Any charges incurred in accessing remote number will be billed as appropriate.
3. Call Forwarding/Busy Line - Allows incoming calls that encounter a busy condition to be automatically forwarded to a predesignated telephone number with the exchange, the Long distance Telecommunications Network or to Voice Mail service. The Call Forwarding customer is responsible for the payment of all charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

CUSTOM CALLING SERVICE

**MISSOURI
Public Service Commission**

A. General

Custom Calling Service consists of one or more of the following features which provide special kinds of customer-controlled communications features on individual service lines. Custom Calling Service is available only through central offices which, at the Company's option, are appropriately equipped. Operating specifics may vary by central office equipment type but can be described generally as:

1. Call Waiting--Provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call.

2. Call Forwarding--Permits all calls directed to a customer number to be routed on to another dialable number, predetermined and activated by the customer.

Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate on every call answered at the "forwarded to" number.

3. Three-Way Calling--Allows for the addition of a third number to a connection made between two numbers without the assistance of an operator.

4. Speed Calling--Permits customer calling to other telephone numbers through the dialing of an abbreviated code rather than an entire telephone number. Two capacities are available: 8- or 30- number code lists.

1. GENERAL

Public Service Commission

- A. This tariff applies to Mobile Dial Telephone service provided by the Fidelity Telephone Company, hereinafter called the "Telephone Company", from its base station in Sullivan area between mobile units or between wire telephone and mobile units. This Tariff also applies to Paging Service.
- B. Local Service. Flat rate local service is provided within the dialing range of the telephone company's base station and individual mobile dial telephones.
- C. Roamer Service. This is service provided by the Telephone Company to Mobile Unit customers of other telephone companies and by other telephone companies to the Telephone Company's customers. The Telephone Company's customers will be equipped for this service as they indicate the need for not to exceed eleven channels. Receipt of such service by the Telephone Company's customer shall be subject to the regulations and charges of such other telephone companies.
- D. Long Distance. This service will be provided to roamers as well as local customers, except roamer calls will be accepted on a sent collect or credit card basis only.
- E. Paging Service. This service is provided through the use of a shirt-pocket tone signalling unit which can be activated by the Telephone Company.

 (N)

7. Selective Call Forwarding – Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. Selective Call Forwarding customers are responsible for the payment of charges (e.g., toll charges) for each call between their line and the telephone numbers to which the call is being forwarded.

8. Call Waiting – Alerts a customer using his telephone that another caller is trying to reach him. Call Waiting customers may deactivate Call Waiting for the duration of one call by dialing a code. Call Waiting is automatically reactivated for the next originating or terminating call.

1. GENERAL (continued)

H. Liability of the Telephone Company. In view of the fact that the customer has exclusive control of the communications over the facilities furnished by the Telephone Company and of the other uses for which facilities may be furnished by the Telephone Company and because of unavoidableness of errors incident to the services and to the use of such facilities of the Telephone Company, the services and facilities furnished by the company are subject to the terms, conditions and limitations herein specified.

In the event of an interruption to the service, which is not due to the negligence or willful act of the customer, there will be allowed a pro rata adjustment of the monthly charge involved for the service and facilities rendered useless and inoperative by reason of the interruption, during the time said interruption continues in excess of forty-eight hours from the time it is reported to the telephone company or detected by the company. For the purpose of administering this regulation, every month is considered to have thirty days.

The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing service or facilities and not caused by the negligence of the customer, or of the Telephone Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error defect in transmission occurs.

The Telephone Company is not liable for damages for any accident or injury occasioned by the mobile or paging unit or by supplementary apparatus provided in connection therewith when such accident or injury is not due to the negligence of the Telephone Company.

When the lines of other telephone companies are used in establishing connections to points not reached by the Telephone Company's lines, the Telephone Company is not liable for any act or omission of the other company or companies.

- 9. Multi-Distinctive Ring - Allows a customer to establish up to four telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ring. The billing telephone number is called the Primary Number and additional associated telephone numbers are called Distinctive Ring Numbers (DRN). A customer may subscribe to a maximum of three Distinctive Ring Numbers. The standard ringing pattern is provided for the Primary Number. Distinctive ringing is provided for each Distinctive Ring Number.
 - a. The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Services Section of this Tariff. No additional call allowances are provided with Personalized Ring.
 - b. One directory listing is provided for each telephone number associated with Distinctive Ring Service. Additional listing rates shown in the Directory Listings section of this Tariff apply to primary and Distinctive Ring numbers. NonListed Service and NonPublished Service is available for all telephone numbers associated with Distinctive Ring.
 - c. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.
 - d. Multi-Distinctive Ring customers who subscribe to Call Forwarding can choose one of two forwarding arrangements. The first arrangement forwards the Distinctive Ring number(s) along with the Primary number when it is forwarded. The second arrangement provides no forwarding of the Distinctive Ring numbers(s). A forwarding arrangement must be selected at the time Multi-Distinctive Ring is ordered. If a customer later requests a change in forwarding, the Multi-Distinctive Ring Service installation charge will apply.
 - e. If a number change is requested by the customer, for a Distinctive Ring number, the Distinctive Ring Service installation charge will apply.

At various times throughout the year, the Company may propose various exchanges equipped to provide Custom Calling services to offer a special promotion in order to increase the number of features in service. Such promotion shall be subject to the approval of the Missouri Public Service Commission.
2. If a customer, not currently subscribing to any Custom Calling features, elects to subscribe to any of the various Custom Calling services available during the trial period, no monthly recurring or installation charges associated with Custom Calling shall apply for the promotional period.
3. For the period beginning October 1, 1993 and ending December 31, 1993, the Company will waive monthly recurring and installation charges for the following Customer Calling services:

Call Waiting/Cancel Call Waiting
 Call Forwarding
 Three-Way Calling
 Speed Calling 8
 Speed Calling 30
 Features 1, 2, 3, and
 Speed Call 8 or Speed Call 30

B. Service Descriptions (Cont'd)

- 10. Three-Way Calling – Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation.
- 10.a. Six-Way Calling enables a customer to establish a multi-party conference (up to 6 participants) without the aid of an operator. Conferences are initiated via dialed access code. Additional parties (up to 5) are then added by dialing their telephone numbers. The initiating caller is responsible for all appropriate toll charges.
- 11. Speed Calling – Enables a customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The 8-code capacity and/or the 30-code capacity may be provided on the same line; however, duplicate code capacities may not be provided. The combination of code capacities is not available on multi-line hunting lines.
- 12. Automatic Callback – Enables the customer to automatically redial the telephone number of the last incoming call whether the call was answered or not. If that telephone number is busy, the Telephone Company’s equipment begins a queuing process, where it will keep trying to call the number being redialed for up to thirty minutes. When the line becomes available the Automatic Callback subscriber is notified by a distinctive ring. When the subscriber picks up the telephone, the call is automatically placed.
- 13. Automatic Redial – Enables the customer to automatically redial the telephone number of the last outgoing telephone number. If the redialed number is busy, the Telephone Company’s equipment begins a queuing process, where it will keep trying to call the number being redialed for up to thirty minutes. When the line becomes available the Automatic Redial subscriber is notified by a distinctive ring. When the subscriber picks up the telephone, the call is automatically placed.
- 14. Basic Home Intercom Service – Allows customers with an individual residence or business line to provide an intercom system between their telephones. This is accomplished by the customer dialing his/her own number and hanging up the receiver. All telephone numbers at that number will then ring and when one of the other telephone numbers goes off-hook, the initiator of the call can go off-hook and engage in conversation.

Enhanced Home Intercom Service – Enables single line customers to set up internal (intercom) communications between multiple telephone extensions. The customer establishes intercom calls by dialing a code and hanging up the telephone handset. The code activates distinctive ringing to alert intercom users of an intercom call.

15. Hot Line-Automatically routes the customer's telephone to a predetermined trunk or telephone number when the handset is removed. The Hot Line is routed immediately after picking up the handset.

16. Caller ID Service – Caller ID Service is the general category of the following services which assist customers in the management of incoming calls:

- a. Calling Number Delivery-allows the subscriber, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. During the time the incoming call is placed, the calling number is forwarded from the Telephone Company, to a compatible Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.
- b. Calling Number Delivery-allows the subscriber, with the use of a display phone or adjunct display device, to view the name and number of the calling party. During the time the incoming call is placed, the calling name and number are forwarded from the Telephone Company, to a compatible Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The caller name and number are then delivered to the display device during the first silent interval of ringing.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, at its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors, omissions, or mistakes. The Company's sole and only obligation shall be to correct errors in names when notified in writing of such errors.

The calling telephone name and number is not available from calls made from most cellular phones or units and currently from some interexchange carriers and other local exchange carrier calls. The calling name and number are also not available when incoming calls have been handled by an operator or charged to credit cards. Name and number delivery for calls originated from a PBX will display the main PBX name and number only.

- c. Caller ID Blocking – Any subscriber may prevent the delivery of their telephone number and/or calling name to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

If the calling party activates blocking, the name and/or number will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of their name and/or telephone number.

Per line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with the Telephone Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies.

Per line blocking for the delivery of the calling name and/or number is available upon request to all others at the rate specified on sheet 28.7 of this tariff.

16. Caller ID Service (Cont'd)

- e. Caller ID Service information may not be sold or given to another party without the caller's consent. Calling name and number information may only be used for: (a) routing or completion of calls, (b) billing of calls, (c) account management purposes, (d) services directly related to the call or transaction, (e) verification of calling party identity and (f) marketing products or services that are directly related to those previously acquired by the customer from the name and number delivery services subscriber. This applies if the name and number delivery service subscriber has an existing relationship with the customer. Caller ID customers failing to comply with any of these conditions will have their service terminated.
- f. In addition to the other provisions specified in this section, Fidelity Telephone Company shall not be liable for any claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a Caller ID customer of a name or telephone number which the calling party or the Caller ID customer finds erroneous, offensive, embarrassing, or misleading for any reason, including but not limited to the way in which the calling party's name has been abbreviated.

17. Selective Call Acceptance - Enables the customer to selectively accept incoming calls, through a predesignated list of telephone numbers. All incoming calls not on the customer's Selective Call Acceptance list will be forwarded to a Telephone Company announcement, informing the caller that the customer is not receiving calls at this time. If the customer has a call forwarding feature, these screened calls may be forwarded to another telephone number or to a voice mail system.

18. Selective Call Rejection - Enables the customer to reject calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To reject specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Callers whose telephone numbers are blocked are directed to a Telephone Company recorded announcement that informs them that the customer is not receiving calls at this time.

The customer can construct or modify the telephone number screening list by dialing a unique code. The Telephone Company's equipment will screen incoming calls against the screening list and provide a distinctive ring for telephone numbers on the list.
- 20. Customer Originated Trace-Enables the customer to initiate an automatic trace of the last incoming call received, regardless of the time lapse since that call, providing there have been no intervening outgoing calls. This service is activated by the customer dialing an access code. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer should follow the instructions received after successful trace activation.
- 21. Unidentified Call Rejection-Enables the Customer the ability to automatically reject calls if the calling number has been marked private. The customer will only receive calls for which the identity of the calling party is available. If facilities are unavailable to provide incoming call screening, standard call completion will occur. Callers whose numbers have been marked private will be directed to Telephone Company equipment which announces that the called party is not accepting calls from parties with private numbers. The called party is not alerted when calls are directed to the Telephone Company announcement.
- 22. Call Forwarding variable Feature Button – Allows calls attempting to terminate to a Directory Number (DN) to be redirected to another DN without regard to the busy/idle status of the called DN. D. Conditions

1. The Call Forwarding, Selective Call Forwarding, Call Forwarding-Busy Line, Call Forwarding -Don't Answer and Call Forwarding - Busy Line/Don't Answer features are offered for use with two-way PBX trunks, subject to the following limitations:
 - a. May be provided when compatible with the equipment configuration at the customer's premises.
 - b. Available only with two types of hunting arrangements, multi-line and series completion, subject to limitations of these hunting arrangements.

2. When the Three-Way Calling, Call Forwarding, Call Forwarding-Busy Line, Call Forwarding - Don't Answer and Call Forwarding -Busy Line/Don't Answer or Selective Call Forwarding are activated, the transmission may vary depending on the distance and routing necessary; therefore, transmissions may not meet normal standards.

3. The following features only apply to calls within the same central office and across central offices that have Signaling System 7 (SS7) connectivity: Selective Call Forwarding, Automatic Callback, Automatic Redial, Caller ID, Customer Originated Trace, Selective Call Acceptance, Selective Call Rejection, Selective Distinctive Alerting.

4. In addition to the provisions of the General Exchange Tariff, Section , the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of SmartFeatures Services or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has had reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

5. When multiple services are activated on the same line, certain services may take precedence over others.

Public Service Commission

1. Long Speed Calling and Short Speed Calling are mutually exclusive for a given EBS line. Only one of the two services can be subscribed to.
2. Long Speed Calling and Group Speed Calling or Convenience Calling are mutually exclusive for a given EBS line. Only one of these services can be subscribed to. However, Group Speed Calling or Convenience Calling and Short Speed Calling can be subscribed to simultaneously.

C. DESCRIPTION OF SERVICE FEATURES

1. Basic Features

- a. Direct Inward Dialing(EBS-I/EBS-II) - Calls to individual EBS lines may be dialed directly to the line from an outside line.
- b. Direct Outward Dialing:
 1. EBS-I - Calls to outside lines may be dialed using the standard calling sequence.
 2. EBS-II - Calls to outside lines may be dialed by dialing 9 and the standard calling sequence.
- c. Station to Station Dialing(EBS-II) - This feature allows an EBS subscriber to complete a call to other lines within the same EBS group by dialing the last one to four digits of the line number. The EBS customer selects the number of digits to be dialed.

2. Add-on Features

- a. Busy Transfer(EBS-I/EBS-II) - Allows calls routed to a busy station to be rerouted automatically to another station within the group.
- b. Call Forwarding(EBS-I/EBS-II) - When activated all, incoming calls to the line are forwarded to another preselected line.

C. DESCRIPTION OF SERVICE FEATURES (Continued)

MISSOURI
Public Service Commission

- c. Call Hold(EBS-I/EBS-II) - This feature allows an EBS subscriber to place an established call on hold freeing the subscriber's line to originate another call, use call pickup, retrieve a waiting call, or return to a previously held call.
- d. Call Pickup(EBS-I) - Allows the EBS-I subscriber to answer any ringing phone within the group by dialing a code.
- e. Call Pickup Group(EBS-II) - This feature allows the EBS-II subscriber to answer a call to an unattended station in the same call pickup group. With EBS-II a customer can establish up to 50 call pickup groups within the subscriber's total call group. Each EBS line can belong to only one call pickup group and can only answer calls to other lines within that pickup group.
- f. Call Transfer(EBS-I/EBS-II) - Allows a subscriber to transfer a call to another line either within or outside the EBS customer group.
- g. Call Waiting(EBS-I/EBS-II) - Alerts a subscriber who is using his EBS line that another call is waiting. Audible ringback is returned to the calling party instead of a busy tone. This feature also allows the subscriber to dial a code before placing a call to cancel Call Waiting for the duration of that call. Once the call has been terminated the Call Waiting feature is automatically reactivated.
- h. Directory Number Hunt(EBS-I/EBS-II) - Permits incoming calls to be switched to an idle line based upon a predesignated hunting sequence.

C. DESCRIPTION OF SERVICE FEATURES (Continued)

MISSOURI
Public Service Commission

- i. Distinctive Ringing(EBS-I/EBS-II) - Provides the subscriber with different ringing patterns for calls originating inside or outside the EBS customer group. In addition a different signal is provided on Call Waiting, if the customer subscribes, for calls originating inside or outside the EBS customer group.
- j. Don't Answer Transfer(EBS-I/EBS-II) - Automatically transfers terminating calls encountering no answer to a predesignated line within the group if the call is not answered within a preselected number (two to ten) of ring cycles.
- k. Intercom(EBS-I) - Allows the subscriber to EBS-I to dial other lines in the EBS group, by dialing the pound sign (#) and a single digit.
- l. Restricted Station Options(EBS-I/EBS-II) - Allows the EBS subscriber to predesignate limitations on incoming and outgoing calls to/from an EBS line. Incoming calls may be restricted to calls from the EBS group. Each EBS line may have two different levels of outgoing restrictions. Outgoing restrictions might include EBS group only, local calling only, intraLATA calling only, or interLATA calling only, for example. Limitations may apply and specific restrictions desired must be discussed with the Telephone Company. Each requested restriction is counted as a separate basic feature.
- m. Three Way Conference Calling(EBS-I/EBS-II) - This feature allows an EBS subscriber to form a three-way conference call with two other parties, located either within or outside the EBS group.

3. Abbreviated Dialing Features

- a. Convenience Dialing(EBS-I) - This feature allows an EBS-I group to use a Convenience Dialing List which associates each of 30 frequently called numbers (up to 15 digits each) with a two digit code. These numbers can be dialed by dialing an asterisk (*) and the two digit code.
- b. Group Speed Calling(EBS-II) - This feature allows the EBS-II customer to assign the access lines in his total group to up to 20 speed calling groups. Each user within a group can then use the Group Speed Calling List for that group which associates each of 30 frequently called numbers (up to 15 digits each) with a two digit code. The frequently called numbers can be dialed by dialing an asterisk (*) and the two digit code.
- c. Short Speed Calling(EBS-I/EBS-II) - This feature allows any individual line of an EBS customer to establish a speed calling list of eight frequently used numbers (up to 15 digits each) with a single digit index code. The subscriber can then dial these frequently called numbers by dialing an access code (usually *74) and the index code.
- d. Long Speed Calling(EBS-I/EBS-II) - This feature allows any individual line of an EBS customer to establish a speed calling list of thirty frequently used numbers (up to 15 digits each) with a two digit index code. The subscriber can then dial these frequently called numbers by dialing an access code (usually *74) and the index code.
- e. See paragraph B(5)c above for restrictions related to Abbreviated Dialing Features.

1. Payphone Service includes lines to which coin, coinless, card reader coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed to the Payphone Service Provider without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

CUSTOMER OWNED PUBLIC TELEPHONE SERVICE

FEB 10 1989

A. GENERAL

MISSOURI
Public Service Commission

1. Customer Owned Public Telephone Service is offered for use with a customer-provided telephone instrument available for use by the public. All attachments of the customer provided telephones to the Telephone Company's network for public use must be made pursuant to the rules and regulations set forth in this section of the Tariff.
2. For purposes of this section of the Tariff the term "customer" is defined as the party who is responsible for payment of the Customer Owned Public Telephone Service charges.
3. Customer Owned Public Telephone Service is a two-way, or optionally, a one-way originating only, business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises and the network interface. These facilities are provided and maintained by the Telephone Company and provide access to and from the Telephone Company's telecommunications network long distance service and for local calling.
4. Wherever available, the customer must subscribe to Selective Class of Call Screening. Selective Class of Call Screening enables the customer to restrict outgoing operator-handled calls from the service point to only those calls which are charged to called telephone, a third number, or a Calling Card account. Any customer who offers Customer Owned Public Telephone Service where Selective Class of Call Screening is not available, nevertheless assumes full and complete responsibility for all calls billed to his line.
5. In the case of one-way service, intercept treatment will be provided.
6. A maximum of one customer provided telephone may be connected to any one Customer Owned Public Telephone Service access line.

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

SPECIAL SERVICE ARRANGEMENTS

DEC 20 1989

1. GENERAL

MISSOURI

Public Service Commission

Special Service Arrangements consist of modifications of standard equipment or services offered under this Tariff. They will be furnished, when practicable, by the Telephone Company at charges equivalent to the cost of providing such arrangements if in connection with and not detrimental to any of the services furnished under the Company's tariffs.

2. RATES

A. Rates for Special Service Arrangements are equivalent to the costs of furnishing the special arrangement or service.

B. The costs consist of an estimate of the total cost to the Telephone Company in providing the special modification including:

- 1. Cost of maintenance
- 2. Cost of operation
- 3. Depreciation on the estimated cost installed of any facilities used to provide the special modification based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
- 4. Administrative expenses, including taxes on the basis of average charges for these items.
- 5. Any other item of expense associated with the particular arrangement or service.
- 6. An amount, computed on the estimated cost installed of the facilities used to provide the special modification, for return on investment.

C. Estimated cost installed mentioned above includes cost of equipment and materials provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and other items which are chargeable to the capital accounts.

D. In computing the rates for special service arrangements, the Telephone Company will, at its option, use one of the following three rate treatments: (1) a recurring monthly rate and termination contract with or without an installation charge; (2) a recurring monthly rate with an installation charge; (3) an installation charge only.

ENHANCED EMERGENCY NUMBER SERVICE (E911)

MISSOURI

Public Service Commission

A. GENERAL

1. Enhanced Emergency Number Service, also referred to as E911 Service, is a telephone exchange communications service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive and answer telephone calls placed by dialing the number 911. It includes the services provided by the lines and equipment associated with the service arrangement, for the answering, transferring, and dispatching of public emergency telephone calls dialed to 911.
2. Equipment used in conjunction with Enhanced 911 Services located at the PSAP is the responsibility of the customer.
3. E911 Service is offered subject to the availability of facilities.
4. The E911 Service customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police and fire and other services within the telephone central office areas arranged for E911 Service calling.
5. Enhanced 911 Service is available in four elements as follows:
 - a. Dedicated 911 Central Office Circuits - Arranged for incoming use only in conjunction with an E911 Service.
 - b. ANI Spill - Provides for the telephone number of the calling party to be forwarded to the PSAP.
 - (1) ANI Spill does not guarantee the capability of forwarding the number of an off premise; or stations behind business systems will possess the identity of the main billing number.
 - (2) ANI Spill can only be provided with the use of dedicated facilities from the central office serving the end user to the PSAP.

A. GENERAL (cont'd)

5. Enhanced 911 Service is available in four elements as follows: (cont'd)

b. (cont'd)

(3) The PSAP's premises equipment used in conjunction with E911 ANI Spill Service must be reviewed by the Telephone Company to determine the compatibility of the unit with the E911 Service requested.

c. PSAP Data Base Update Service - Provides the PSAP with an initial list, as well as periodic updates, of customer names, telephone numbers, and addresses. Procedures and timing will be mutually agreed upon by the Customer and the Company.

d. Selective Routing Service - Available when an E911 System is served by more than one PSAP or when a central office is split by a political boundary and one of the political areas does not subscribe to 911 Services. This service routes the call to the correct PSAP or to a recording/operator, as appropriate, based on the caller's telephone number. Selective routing is available only in central offices equipped for digital operation.

B. RULES AND REGULATIONS

1. This Service is limited to the use of central office telephone number 911 as the universal emergency telephone number. Only one E911 Service will be provided within any government agency's locality.
2. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other exchange telephone service as provided in this tariff.
3. The Service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.

B. RULES AND REGULATIONS

4. E911 Service is a telephone exchange communications service and is arranged for one-way incoming service to an appropriate PSAP.
5. E911 Service is provided solely for the benefit of the customer operating the PSAP; the provision of such service shall not be interpreted, construed, or regarded either expressly or implied, as being for the benefit of, or creating any Company obligation toward, or any right of action on behalf of, any third person or legal entity other than the customer.
6. The Company does not undertake to answer and forward E911 Service calls, but furnishes the use of its facilities to enable the customer's personnel to accept such calls on the customer's designated premises.
7. E911 Service information consisting of the name, address, and telephone numbers of telephone customers whose listings are not published in directories or listed in directory assistance offices is confidential, however, such information may be provided for the purpose of responding to emergency E911 Service calls or as otherwise required.
8. Any party residing within the E911 Service district forfeits the privacy afforded by nonpublished service to the extent that the telephone number and the address associated with the originating station location are furnished to the PSAP.
9. The customer releases, indemnifies, and holds harmless the Company from any and all loss, claims, demands, suits or other action or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person caused, or claimed to have been caused, directly or indirectly by its publication of such number or the disclosing of said number to any person.
10. The Company's entire liability to any person for interruption or failure of E911 Service shall be limited by the terms set forth in this section and other sections of this tariff.

11. The customer will have the responsibility to determine whether the system is functioning properly for its use and shall promptly notify the Company in the event the system is not functioning properly.
12. E911 Service will be furnished by the Company to provide at least the same level of service reliability and quality as local exchange telephone service in the exchanges where E911 Service is offered.
13. Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.
14. Application for E911 Service must be executed in writing by each customer and must be accompanied by satisfactory proof of authorization to provide E911 Service in the exchanges where service is requested. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any E911 Service request.
15. In addition to all other terms and conditions, the following requirements will apply:
 - a. The customer will answer all E911 Service calls on a 24-hour day, seven-day week basis.
 - b. The customer has the responsibility for dispatching the appropriate emergency service within the E911 Service area, or will undertake to transfer all E911 Service calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.

MISSOURI SCHOOL DISCOUNT PROGRAM

1. A discount from all Missouri intrastate tariffed items may be allowed in connection with service through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
2. Upon the customer's request, a discount of Fifty percent (50%) from all Missouri intrastate tariffed items may be allowed to educational institutions within the Company's certificated area, as determined in Paragraph 3., following.
3. An educational institution shall be defined as an accredited public or private school in the State of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federal or non-Public Schools Accrediting Association, Independent Schools Association of the Central States, North Central Association of Colleges and Schools, and/or the University of Missouri-Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
4. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
5. The qualifying discount will not apply to any federal, state, county, local taxes, Subscriber Line Charges, E911, taxes, and Relay Missouri Surcharge.
6. In addition to meeting the qualification specified in the preceding Paragraph 3, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
7. The customer should request to receive the discount on all subsequent additions of eligible services, which are ordered. There will be no additional affidavits required.

Three-Digit Dialing Service (811)

A. General Regulations

1. The 811 Service is a locally assigned three digit abbreviated dialing code provided to a state One Call System (“SOCS”) for use in providing advance notice of excavation activities to underground facility operators by way of voice grade facilities. Federal Communications Commission (“FCC”) Docket 92-105 mandates that incumbent local exchange carriers in each local calling area make the 811 abbreviated dialing code available to a SOCS as a tariffed, local calling area based service (the “811 Service”).
2. The 811 Service allows a Company subscriber to access a SOCS call center by dialing only the 811 abbreviated dialing code. Subject to other terms and conditions of this tariff, Company subscribers shall be able to make, and the SOCS shall be able to receive, calls using the 811 Service as part of their local exchange service.
3. All 811 Service calls shall be local in nature and shall not result in any expanded area calling, intraLATA toll or interLATA long distance or pay-per-call charges to Company subscribers.
4. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. The 811 Service is otherwise available wherever local service is available.
5. 811 Service is available from the Company within the Company’s service area only. To provide access to 811 to end users in another company’s service area or to a Competitive Local Exchange Carrier (“CLEC”) end user within the local calling area, the SOCS must make appropriate arrangements with the other company or CLEC serving that territory. The SOCS should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.

B. Obligations of the SOCS

1. The SOCS may, but is not required to, submit a written application for 811 service to the Company which will include:
 - a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 811 abbreviated code.
 - b. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 811 Service.
 - c. Complete contact information.

Three-Digit Dialing Service (811), Cont'd

2. If requested by the Company, the 811 provider shall assist the Company in responding to complaints made to the Company concerning 811 Service.
3. Local Calling for Company Subscribers
 - a. The SOCS, in cooperation with the Company, will assure that all 811 Service calls are local and do not generate Extended Area Service (“EAS”), Metropolitan Calling Area (“MCA”) service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
 - b. The SOCS must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by SOCS.
 - c. The SOCS is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.

C. Obligations of the Company

1. The Company shall provision the 811 Service in accordance with FCC directives and the terms of this tariff.
2. When an 811 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 811 Service call, the quality of the call or any features that may otherwise be provided with 811 Service.
3. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable SOCS to respond to such calls at SOCS established call centers.
4. The rates charged for 811 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The SOCS is responsible for making such operational tests as, in the judgment of the SOCS, are required to determine whether the Company’s facilities are functioning properly for its use. The SOCS is responsible for promptly notifying the Company in the event the Company’s facilities are not functioning properly.

D. Liability

1. The Company's entire liability to any person for interruption or failure of the 811 Service shall be limited to the terms set forth in this section and other sections of this Tariff.
2. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the SOCS for the 811 Service and local exchange service for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
3. The Company is not liable for any losses or damages caused by the negligence of the SOCS.
4. The Company shall not be liable to the SOCS for any damages the SOCS may incur that result from any changes, modifications or rulings made by the FCC.
5. The Company will make every effort to route 811 calls to the SOCS call center, however, the Company will not be held responsible for routing mistakes or errors.
6. The 811 Service is provided solely for the benefit of the SOCS. The provision of the 811 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity.

211 Service for Information and Referral Service

A. General Regulations

1. The 211 Service for Information and Referral Service (211 Service) is a locally assigned three digit abbreviated dialing code provided to an Approved Information and Referral Service Provider for use in making available community information and referral services to the public by way of voice grade facilities. The 211 abbreviated dialing code is available to the Approved Information and Referral Service Provider as a tariffed, local calling area based service (the "211 Service").
2. The 211 Service allows a Company subscriber to access an Approved Information and Referral Service Provider call center by dialing only the 211 abbreviated dialing code. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the Approved Information and Referral Service Provider shall be able to receive calls using the 211 Service as part of their local exchange services. The 211 Service is supplemental to and is not a replacement for either party's local exchange service.
3. All 211 abbreviated dialing code calls must be local in nature and must not result in any intraLATA toll, interLATA long distance or pay-per-call charges to Company subscribers.
4. The 211 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. The 211 Service is otherwise available wherever local service is available.

B. OBLIGATIONS OF THE APPROVED INFORMATION AND REFERRAL SERVICE PROVIDER

1. The Approved Information and Referral Service Provider must submit a written application for 211 Service to the Company at the local exchange level. The Approved Information and Referral Service Provider may establish 211 Service in all or part of the Company's local exchanges. There may be only one 211 Service Provider per exchange.
2. The Approved Information and Referral Service Provider's written application to establish 211 Service in Company local exchange must include the following:

211 Service for Information and Referral Service, (Cont'd)

B. Obligations of the Approved Information and Referral Service Provider (Cont'd)

- a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 211 abbreviated code. If the Approved Information and Referral Service Provider desires to change the telephone number into which the 211 abbreviated dialing code is translated, the Approved Information and Referral Service Provider must pay the Number Change Charge specified in Section F.6.
- b. A location description of the Approved Information and Referral Service Provider call center where 211 calls made from the Company local exchange will be routed.
- c. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 211 Service.
- d. An acknowledgment of the possibility that the Commission's assignment of the 211 abbreviated dialing code may be recalled at any time.
- e. Complete billing and contact information.

3. Local Calling for Company Subscribers

- a. The Approved Information and Referral Service Provider, in cooperation with the Company, must assure that all 211 Service calls are local in nature and do not generate intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
- b. When the Approved Information and Referral Service Provider applies for 211 Service in a Company local exchange, the Approved Information and Referral Service Provider must supply the Company with a seven digit telephone number that terminates within the Company local exchange's local calling area or to a toll free number. The Company will translate the 211 digits into the telephone number provided by the Approved Information and Referral Service Provider.
- c. When the Approved Information and Referral Service Provider applies for 211 Service in a Company local exchange and an Approved Information and Referral Service Provider call center is not located within the local exchange's local calling area, then the Approved Information and Referral Service Provider must establish foreign exchange service or supply the Company with a toll free telephone number so that Company subscribers' 211 Service calls do not incur toll charges.

211 Service for Information and Referral Service, (Cont'd)

B. Obligations of the Approved Information and Referral Service Provider (Cont'd)

4. The Approved Information and Referral Service Provider is liable for and will indemnify, protect, defend and hold harmless the Company against all suits, actions, claims, demands and judgments, plus any expenses and counsel fees incurred by the Company on account thereof, whether suffered, made, instituted or asserted by the Approved Information and Referral Service Provider or any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the Approved Information and Referral Service Provider or others, arising out of or resulting directly or indirectly from the 211 Service.
5. The Approved Information and Referral Service Provider must develop an appropriate method for responding to 211 calls directed to it out of confusion or in error by Company subscribers.
6. The Approved Information and Referral Service Provider must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public, and enable the Approved Information and Referral Service Provider to receive calls to the 211 Service during normal business hours.
7. The 211 Service is provided on the condition that the Approved Information and Referral Service Provider subscribes to termination facilities and lines in sufficient quantities to adequately handle calls to the 211 Service without interfering with or impairing any services offered by the Company. There will be one path available for each line to which the 211 Service Provider subscribes.
8. The Approved Information and Referral Service Provider must comply with all present and future state and federal rules pertaining to abbreviated dialing codes.
9. The Approved Information and Referral Service Provider is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 211 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.
10. The Approved Information and Referral Service Provider shall respond promptly to any and all complaints lodged with any regulatory authority against the 211 Service. If requested by the Company, the Approved Information and Referral Service Provider will assist the Company in responding to complaints made to the Company concerning the 211 Service.

211 Service for Information and Referral Service, (Cont'd)

B. Obligations of the Approved Information and Referral Service Provider (Cont'd)

11. The Approved Information and Referral Service Provider shall not promote the 211 Service with the use of an autodialer or broadcasting of tones that dial the 211 abbreviated dialing code.
12. The 211 Service is only available to end users located in Company local exchanges. To establish 211 calling to end users in non-Company local exchanges, the Approved Information and Referral Service Provider must make appropriate arrangements with the companies serving those local exchanges, even where Company subscribers may make local calls to the non-Company local exchanges.
13. The Approved Information and Referral Service Provider must work separately with competitive local exchange carriers operating and serving customers in the Company's local exchanges to ascertain whether 211 abbreviated dialing will be available to their end users.

C. Obligations of the Company

1. The Company will establish the 211 Service within ninety days after receipt of the Approved Information and Referral Service Provider's completed application(s) for service or the effective date of this tariff, whichever is later.
2. When a 211 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 211 Service call, the quality of the call or any features that may otherwise be provided with 211 Service.
3. The Company does not undertake to answer and forward 211 Service calls but furnishes the use of its facilities to enable the Approved Information and Referral Service Provider to respond to such calls at the Approved Information and Referral Service Provider established call centers.
4. The rates charged for 211 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The Approved Information and Referral Service Provider shall make such operational tests as, in the judgment of the Approved Information and Referral Service Provider, are required to determine whether the Company's facilities are functioning properly for its use. 211 Service for Information and Referral Service, (Cont'd)

D. Liability

1. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 211 Service, or of the Company in failing to maintain proper standards of maintenance and operation, or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the Approved Information and Referral Service Provider for the 211 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
2. The Company is not liable for losses or damages caused by the negligence of the Approved Information and Referral Service Provider.
3. The Company's entire liability to any person for interruption or failure of the 211 Service is limited to the terms set forth in this section and other sections of this Tariff.

E. Other Terms and Conditions

1. The 211 Service will not provide calling number information in real time to the Approved Information and Referral Service Provider. If this type of information is required, the Approved Information and Referral Service Provider must subscribe to compatible Caller ID service as described in the SmartFeatures section of this tariff. The Caller ID service will only provide calling number information as described in the SmartFeatures section of this tariff.
2. The 211 Service is provided for the benefit of the Approved Information and Referral Service Provider. The provision of the 211 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the Approved Information and Referral Service Provider.

E. Other Terms and Conditions (Cont'd)

3. A written notice will be sent to the Approved Information and Referral Service Provider following oral notification when its 211 Service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of abbreviated dialing codes. If after notification the Approved Information and Referral Service Provider makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the Approved Information and Referral Service Provider is unwilling to accept the modifications, or if the Approved Information and Referral Service Provider continues to cause service impairment, the Company reserves the right, at any time, without further notice, to institute protective measures, up to and including termination of service.
4. In an emergency situation as determined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures, up to and including termination of service.

F. Rates and Charges

1. Subject to other terms and conditions of this Tariff, Company subscribers shall be able to make and the Approved Information and Referral Service Provider shall be able to receive calls using the 211 Service as part of both parties' local exchange service. The 211 Service is supplemental to and is not a replacement for either party's local exchange service.
2. A nonrecurring Central Office Charge applies for each Company host central office out of which 211 Service is established, as follows:
 - a. When a Company local exchange is served by more than one host central office a Central Office Charge is applicable for each host central office in the Company local exchange.
 - b. If the Approved Information and Referral Service Provider establishes 211 Service in multiple Company local exchanges served by the same host central office, only one Central Office Charge shall apply. However, the full Central Office Charge applies whether or not the Approved Information and Referral Service Provider requests 211 Service in all the Company local exchanges served by that host central office.

F. Rates and Charges (Cont'd)

3. An Exclusion Charge applies in lieu of a Central Office Charge for the establishment of 211 Service as follows:
 - a. When the Approved Information and Referral Service Provider does not simultaneously establish 211 Service in every Company local exchange served by a host central office, the Approved Information and Referral Service Provider shall pay an Exclusion Charge for each Company local exchange served by the host central office where 211 Service is not established.
 - b. When a Company local exchange is once excluded, but the Approved Information and Referral Service Provider later applies to establish 211 Service in the Company local exchange, an Exclusion Charge again applies for each local exchange that continues to be excluded.
 - c. When the Approved Information and Referral Service Provider requests a different telephone number be translated to the 211 abbreviated dialing code in a participating central office than the telephone number translated to the 211 abbreviated dialing code in the host central office.
4. A nonrecurring Number Change Charge applies when the Approved Information and Referral Service Provider changes the telephone number into which the 211 abbreviated dialing code is translated. The Number Change Charge is applied on a per telephone number, per host central office basis.
5. For each telephone number used in the translation of the 211 abbreviated dialing code to the seven or ten digit number provided by the Approved Information and Referral Service Provider the applicable Monthly recurring charges put forth in the Rates section of this tariff will apply (for example, the Business One-Party, Federal Subscriber Line Charge and all applicable taxes and surcharges).
