Section 38
3rd Revised Sheet 12
Replacing 2nd Revised Sheet 12

DIGITAL LOOP SERVICE

38.3 SUPERTRUNK® (cont'd)

(CT)

38.3.3 Application of Rates (cont'd)

- D. If additional SuperTrunk Ports are ordered at a location where the customer has an existing SuperTrunk Port term pricing agreement, the additional service(s) may be added to that agreement, so that the monthly rate and expiration date specified in the original agreement apply. As an alternative, the customer may choose the month-to-month payment option or a different term option for the service additions. Note that additions to an agreement are subject to the provisions described in Paragraph 38.3.2.2.
- E. Upon expiration of the 12-, 24-, 36-, 48- or 60-month service term, the customer may:
1. Continue service without establishing a new service term. Service will be provided on a month-to-month basis at the then current rate. This monthly rate will be subject to any rate changes approved by the Commission.
 2. Continue service by selecting a new service term of 12, 24, 36, 48 or 60 months. The new service term will commence on the day following the expiration of the previous service term.
 3. Discontinue the service.
- F. If a service term agreement expires and the customer has not notified the Company regarding which option they elect, service will continue at the monthly rate in effect at that time for the month-to-month option.

Issued: January 30, 2007

Effective: March 1, 2007

By CINDY BRINKLEY, President – Missouri
St. Louis, Missouri

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

DIGITAL LOOP SERVICE

38.3 SUPERTRUNK® – (cont'd)

(CT)

38.3.5 Promotions

A. Digital Plus

1. Customers who purchase SuperTrunk with Local Plus between September 15, 2000 and December 31, 2000, and commit to a three or five year contract for the service combination will receive discounted SuperTrunk Port rates. The month-to-month price for the SuperTrunk Port rates will be discounted as follows:
 - a. Three year contract: 28% off the month-to-month rate
 - b. Five year contract: 32% off the month-to-month rate

This arrangement will be referred to as a Digital Plus arrangement.

2. A customer who connects a new SuperTrunk port, as a part of this arrangement is also eligible for a waiver of installation charges associated with the port and a credit payable in the third month of their contract. The credit will be equal to the number of new ports (associated with a Digital Plus arrangement) times \$225 for three-year contracts or time \$500 for five-year contracts. Existing ports are not eligible for credits. Existing ports must have been disconnected for a period of nine months before they may be re-connected and qualified as new ports for this promotion.
3. Subscribers under the Digital Plus promotion are also eligible for promotional pricing of their Local Plus Service (see Section 48, Sheet 6 for a detailed explanation).
4. If a customer discontinues a Digital Plus arrangement prior to the contract expiration, the customer is liable for a termination payment. The payment associated with SuperTrunk service is equal to the lesser of:
 - a. All credits issued and charges waived in association with a new connection plus the number of months the customer had SuperTrunk service times the difference between the tariff rate for the highest completed Term and the Digital Plus rate, or
 - b. The remaining contract obligation.

Issued: January 30, 2007

DIGITAL LOOP SERVICE

38.3 SUPERTRUNK® (cont'd)

(CT)

38.3.5 Promotions (cont'd)

B. Super Trunk I

1. A promotional period will begin December 23, 2002 and end December 22, 2003 for business customers who established service with another local exchange carrier within the Company's service area and who now wish to establish service with the Company. Business customers will receive a waiver of the nonrecurring Installation Charges associated with the Digital Transmission Loop Arrangements.
2. Service must be installed by January 31, 2004.
3. Business customers who have past due bills for regulated services owed to the Company are eligible for this promotion as long as they have established mutually acceptable payment arrangements with the Company.
4. This promotion is only available where facilities permit.

C. Super Trunk II

1. A promotional period will begin April 9, 2001 and end April 8, 2002 for business customers who wish to upgrade their established local access service, have received a competitive local access offer and are considering changing their local access service to the competitive carrier. Business customers who remain with the Company, add to their existing SuperTrunk service or upgrade to SuperTrunk service, and commit to minimum two-year term for the service receive a waiver of the nonrecurring Installation Charges associated with the Digital Transmission Loop Arrangement.
2. Service must be installed by May 31, 2002.
3. If a customer terminates a SuperTrunk Arrangement prior to the contract expiration, the customer is liable for the waived Installation Charges in addition to the termination charges specified in Section 38 of the General Exchange Tariff.
4. The business customer must not have had: 1) service disconnected for nonpayment; or 2) any past due bills for regulated service owed to the Company.

DIGITAL LOOP SERVICE

(CT) 38.3 SUPERTRUNK (cont'd)

38.3.5 Promotions (cont'd)

B. Super Trunk I

- (CT) 1. A promotional period will begin December 23, 2002 and end December 22, 2003 for business customers who established service with another local exchange carrier within the Company's service area and who now wish to establish service with the Company. Business customers will receive a waiver of the nonrecurring Installation Charges associated with the Digital Transmission Loop Arrangements.
- (CT) 2. Service must be installed by January 31, 2004.
- 3. Business customers who have past due bills for regulated services owed to the Company are eligible for this promotion as long as they have established mutually acceptable payment arrangements with the Company.
- 4. This promotion is only available where facilities permit.

C. Super Trunk II

- (CT) 1. A promotional period will begin April 9, 2001 and end April 8, 2002 for business customers who wish to upgrade their established local access service, have received a competitive local access offer and are considering changing their local access service to the competitive carrier. Business customers who remain with the Company, add to their existing SuperTrunk service or upgrade to SuperTrunk Service, and commit to minimum two-year term for the service receive a waiver of the nonrecurring Installation Charges associated with the Digital Transmission Loop Arrangement.
- 2. Service must be installed by May 31, 2002.
- (MT) 3. If a customer terminates a SuperTrunk Arrangement prior to the contract expiration, the customer is liable for the waived Installation Charges in addition to the termination charges specified in Section 38 of the General Exchange Tariff.
- (MT) 4. The business customer must not have had: 1) service disconnected for nonpayment; or 2) any past due bills for regulated service owed to the Company.

D. Digital Loop Service / SuperTrunk Promotion III

1. A promotional period will begin on September 9, 2003 and end on December 8, 2003 for eligible business customers who order SuperTrunk service and who commit to a 36-, 48-, or 60-month service term. This promotion is available to customers who are ordering new SuperTrunk circuits, and/or who are renewing existing SuperTrunk service term agreements which expire during the promotional period. Business customers will receive a waiver of all associated installation charges on the Digital Transmission Loop Arrangement (DTLA) and Direct Inward Dialing (DID) 100 number calling block. Monthly recurring charges will be discounted as follow:

Product Name	Service Term		
	<u>36 Months</u>	<u>48 Months</u>	<u>60 Months</u>
Transport Element (DTLA)	\$171.00	\$162.00	\$153.00
SuperTrunk Port	198.00	189.00	180.00
Switch Use With DID, per channel	12.00	12.00	12.00
Switch Use Without DID, per channel	12.00	12.00	12.00
DID 100 number calling block	10.00	10.00	10.00

2. To be eligible for this promotion, the business customer must not currently have any past due bills for regulated service owed to the Company, except in those cases where the customer and the Company have established mutually acceptable payment arrangements for collection of past due amounts. Termination liability charges as specified in this Tariff Section will apply in the event of early termination of contract.

3. Service must be installed on or before February 15, 2004.

CALL CONTROL OPTIONS

AUG 03 1993

39.1 GENERAL REGULATIONS

MISSOURI
Public Service Commission

- A. Call Control Options are a group of features individually described under Section 39, Paragraph 39.2, which allow customers to manage the calls on their Exchange Access Line(s). Call Control Option features are functional only when the calling party's telephone number can be forwarded from the central office originating the call to the terminating central office serving the called party, or when both the calling party and the called party are served from the same central office.
- B. Call Control Options are available to single line, residence and business customers, excluding some multiline hunting arrangements, where technology and facilities (such as central office capacity) are available.

Call Control Options are not available to customers having party line, Public, Semi-Public, Customer-Owned Pay Telephone Service, Mobile, Remote Switching System, WATS, Centrex, PLEXAR^R telephone services and trunk facilities associated with Direct Inward Dialing.

(RT)

- C. A monthly rate applies to all Call Control Option features except for CALL TRACE. CALL TRACE is billed on a "per successful activation" basis and may be purchased by itself or in conjunction with other Call Control Option features.
- D. Service charges as found in Paragraph 39.3.2 and 39.3.3 following, are applicable.
- E. In addition to the provisions of the General Exchange Tariff, Section 17, Sheet 20, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of Call Control Options or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

RECEIVED

39.2 FEATURES

AUG 03 1993

39.2.1 The Call Control Options feature are:

**MISSOURI
Public Service Commission**

A. CALL TRACE

Enables the customer to initiate a trace of the origin of the last incoming call completed by dialing an activation code immediately after terminating the call. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer is required to contact the Telephone Company Service Center during normal business hours.

(RT) B. CALL BLOCKER

(CP)

Enables a customer to avoid receiving, i.e., block, incoming calls from previously selected telephone numbers. To block telephone numbers, the customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment screens incoming calls against the customer's list and blocks those on the list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. To block future calls from unknown telephone numbers, a customer can activate a code after receiving an unwanted call. The unknown number will then be added to the customer's telephone number screening list. Telephone numbers that are blocked are directed to a Telephone Company recorded announcement.

39.2 FEATURES

Call Control Options are optional telephone service arrangements that are designated as either noncompetitive or transitionally competitive. MISSOURI Public Service Commission

39.2.1 The noncompetitive Call Control Options feature is:

A. CALL TRACE

Enables the customer to initiate a trace of the origin of the last incoming call completed by dialing an activation code immediately after terminating the call. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer is required to contact the Telephone Company Service Center during normal business hours.

39.2.2 The transitionally competitive Call Control Options features are:

A. CALL BLOCKERSM

Enables a customer to avoid receiving, i.e., block, incoming calls from a maximum of six telephone numbers. To block telephone numbers, the customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment screens incoming calls against the customer's list and blocks those on the list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. To block future calls from unknown telephone numbers, a customer can activate a code after receiving an unwanted call. The unknown number will then be added to the customer's telephone number screening list. Telephone numbers that are blocked are directed to a Telephone Company recorded announcement.

39.2 FEATURES--(Continued)

AUG 03 1993

(RT) C. CALL RETURN

**MISSOURI
Public Service Commission**

Enables the customer to automatically redial the telephone number of the last incoming call. If the last incoming call's telephone number is busy, the Telephone Company's equipment will monitor the status of the line being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of CALL RETURN, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed. This feature cannot be activated for calls originating from a line that is forwarded or from a line or trunk not associated with a telephone number, e.g., multiline hunting groups.

(CT) D. AUTO REDIAL

Enables the customer to automatically redial the last outgoing telephone number by dialing an activation code. When the recalled telephone number is busy, the Telephone Company's equipment will monitor the status of the line being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of AUTO REDIAL, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

(RT) E. PRIORITY CALL

Provides the customer with a distinctive alerting signal, ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify the telephone number screening list by dialing a unique code.

(CT) SIMPLELINK ENHANCEDSM

(CT) 40.1 GENERAL

SimpleLink Enhanced is an optional access and usage volume discount plan for SBC Missouri business customers which is available in all rate groups except Rate Group A. Customers subscribing to SimpleLink Enhanced receive monthly discounts on selected services based on the customer's Minimum Monthly Revenue Commitment (MMRC). SimpleLink Enhanced also provides an optional access line with Caller ID bundle at a flat rate.

(CT) 40.2 DEFINITIONS

40.2.1 **Minimum Monthly Revenue Commitment (MMRC)**

(AT) The minimum monthly revenue commitment that the customer must commit to, per month, based on their selected term in order to receive the volume discount.

40.2.2 **Contributory Services**

Those services whose revenue is counted towards achievement of the customer's selected MMRC.

40.2.3 **Eligible Services**

Those services that are eligible for discounts based on achievement of a specified MMRC.

40.2.4 **Maximum Monthly Allowable Discount**

The maximum monthly allowable discount that the customer can receive in a given month based on their selected MMRC.

40.3 TERMS AND CONDITIONS

40.3.1 Minimum Monthly Revenue Commitment

MMRC revenue is the sum total of the customer's monthly billed charges, for services specified in the Company's SimpleLink Enhanced tariff, for all eligible business accounts located in the state, before discounts are applied.

Services contributing towards the MMRC include all SBC Missouri regulated services except stand alone Business Flat Rate 1-Party access lines and Business Multiline) service (See Section 40.3.2 for bundle options).

PERSONALIZED RINGSM

40.1 GENERAL REGULATIONS

MISSOURI

Public Service Commission

- A. Personalized Ring allows a customer to establish up to three telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ringing pattern. The billing number is called the Primary Number and additional associated telephone numbers are called Personalized Ring Numbers. A customer may subscribe to a maximum of two Personalized Ring Numbers. The standard ringing pattern is provided for the Primary Number. Distinctive ringing is provided for each Personalized Ring Number.
- B. Personalized Ring is available in conjunction with compatible residence and business service where technology, facilities and telephone numbers are available.
- C. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.
- D. In addition to the provisions of the General Exchange Tariff, Section 17, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of Personalized Ring or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.
- E. The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Services section of this Tariff. Additional call allowances are provided with Personalized Ring.
- F. A directory listing is provided for each telephone number associated with Personalized Ring Service. NonListed Service and NonPublished Service is available for all telephone numbers associated with Personalized Ring. NonListed Service rates and NonPublished Service rates shown in the Directory Services section of this Tariff apply to the Primary number only. There is no charge for NonListed Service or NonPublished Service furnished for Personalized Ring numbers.
- G. Additional listing rates and Residence Signature Listing rates shown in the Directory Services section of this Tariff apply to Primary and Personalized Ring numbers.

(CT)

SIMPLELINK ENHANCEDSM

(AT)

40.3 TERMS AND CONDITIONS (cont'd)

40.3.1 Minimum Monthly Revenue Commitment (cont'd)

SimpleLink Enhanced service is available with one-year, two-year or three-year term plans. The one-year term also has a one-year renewable option. If the customer selects the one-year renewable option, the plan will automatically renew for a subsequent one-year term unless the customer advises SBC Missouri prior to the expiration of the term that it does not wish to renew. A maximum of two one-year renewal terms are available after the first one-year term. The customer will be sent written notification of the term selected and subsequent notifications regarding renewal options prior to the expiration of each one-year term. Additionally, three MMRC levels will be available for customers to choose from: \$45.00, \$85.00, and \$200.00. Customers subscribing to a two- or three-year SimpleLink Enhanced term plan will be required to sign a written order confirmation form, in order to qualify for the applicable plan discounts.

SimpleLink Enhanced customers who fail to meet their selected MMRC will be billed the difference between the selected MMRC and the monthly revenue billed.

The following eligible services will receive a discount using the Price schedule listed below in 40.4A:

- | | |

40.1 GENERAL REGULATIONS (Continued)

- H. If a customer requests a change in the listings for telephone numbers associated with Personalized Ring Service, the Directory Listings Service Connection Charge specified in the Directory Services section of this tariff is applicable.
- I. Personalized Ring customers who subscribe to Call Forwarding can choose one of two forwarding arrangements. The first arrangement forwards the Personalized Ring number(s) along with the Primary number when it is forwarded. The second arrangement provides no forwarding of the Personalized Ring number(s). A forwarding arrangement must be selected at the time Personalized Ring is ordered. If a customer later requests a change in forwarding, the Personalized Ring Service Connection Charge will apply.
- J. If a customer requests a number change for a Personalized Ring number, the Personalized Ring Service Connection Charge applies. If a customer requests a number change for the Primary number, the Service and Equipment Charge specified in the Local Exchange Tariff is applicable.

40.3 TERMS AND CONDITIONS (cont'd)

40.3.1 Minimum Monthly Revenue Commitment (cont'd)

Nonrecurring charges for the above services are not eligible for discounts or waivers unless specifically stated in the SimpleLink Enhanced tariff.

* An additional 30% discount will be applied to the Company calling features as indicated above and will apply in addition to Total Volume Discount percentage listed in 40.4.A.

Caller ID Name and Number will not receive the additional 30% discount when part of the Simple Link Enhanced Access Line Bundle package.

Local and state additional charges, taxes, the End User Common Line Charge and nonrecurring charges are not discount eligible.

An eligible SimpleLink Enhanced customer may include up to, but not exceed, ten of its accounts under one SimpleLink Enhanced agreement. A customer may have only one SimpleLink Enhanced agreement in SBC Missouri's service area.

A SimpleLink Enhanced plan is not transferable to, or may not be assumed by, a customer or customers other than the customer of record without prior written consent of the Company.

The customer's term commences the day after the service is activated by the Company. The date activated shall be the date the order installing the plan is completed in the Company's billing system.

Any account with an existing product agreement for a service which is included as a SimpleLink Enhanced eligible service, or on an optional calling plan (including but not limited to, The WORKS, BizSaver, Business Access Line Term Pricing, Custom BizSaver, Feature Select or CompleteLink) may not be included in a new SimpleLink Enhanced agreement.

MISSOURI
Public Service Commission

41.1 GENERAL REGULATIONS

- A. ComCall allows single line customers to set up internal (intercom) communications between multiple telephone extensions. The customer establishes intercom calls by dialing a code and hanging up the telephone handset. The code activates distinctive ringing to alert intercom users of an intercom call.
- B. ComCall is available in conjunction with compatible residence and business service where proper technology and facilities are available.
- C. Three-Way Calling is necessary for the operation of ComCall. Three-Way Calling rates are shown in the Custom Calling Services section of this Tariff.
- D. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.
- E. If ComCall and Call Waiting are on the same line, the Call Waiting feature is deactivated for the duration of the intercom connection. During this time, an incoming call will receive a busy signal.
- F. In addition to the provisions of the General Exchange Tariff, Section 17, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of ComCall or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.

SIMPLELINK ENHANCEDSM

40.4 PRICES (cont'd)

D. Other Applicable Charges and Payments

Unique Service Connection Charges are not applicable when establishing or changing to SimpleLink Enhanced, but service connection charges shall apply to new or additional services.

E. Early Termination Charges

Customers terminating a SimpleLink Enhanced plan prior to the expiration of the term period are subject to early termination charges.

Early termination charges are equal to 50% of the Minimum Monthly Revenue Commitment (MMRC) multiplied by the number of months remaining in the customer's term period. If a customer's partial monthly revenue is less than the MMRC, the customer is liable for 50% of the difference between the MMRC and the actual billed revenue. The early termination charge will be billed in a lump sum to customer's designated main billing telephone number.

Early termination liability charges are not applicable if during the SimpleLink Enhanced term period the customer converts to another Company access or usage plan with a term equal to or greater than the existing SimpleLink Enhanced plan, and a revenue commitment equal to or greater than the SimpleLink Enhanced MMRC.

F. Service Guarantee

Within 90 days of subscribing to a SimpleLink Enhanced two-year or three-year term plan, customers may cancel this service without incurring the termination liability charges specified in this tariff. This guarantee does not apply to customers who terminate or convert to another Company toll, access and/or usage commitment product for the purpose of subscribing to SimpleLink Enhanced.

COMCALLSM

MISSOURI

Public Service Commission

41.1 GENERAL REGULATIONS

- A. ComCall allows single line customers to set up internal (intercom) communications between multiple telephone extensions. The customer establishes intercom calls by dialing a code and hanging up the telephone handset. The code activates distinctive ringing to alert intercom users of an intercom call.
- B. ComCall is available in conjunction with compatible residence and business service where proper technology and facilities are available.
- C. Three-Way Calling is necessary for the operation of ComCall. Three-Way Calling rates are shown in the Custom Calling Services section of this Tariff.
- D. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.
- E. If ComCall and Call Waiting are on the same line, the Call Waiting feature is deactivated for the duration of the intercom connection. During this time, an incoming call will receive a busy signal.
- F. In addition to the provisions of the General Exchange Tariff, Section 17, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of ComCall or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.

General Exchange Tariff
Section 42
Exchange Interconnection Service
Original Sheet 1

EXCHANGE INTERCONNECTION SERVICE

42.1 GENERAL

42.1.1 This Section provides for the availability and use of specific Telephone Company provided facilities in the provisioning of discretionary services by an Enhanced Service Provider (ESP) hereafter referred to as customer.

42.1.2 These regulations and rates are in addition to the regulations and rates specified in other Telephone Company tariffs where referenced. Failure to observe these rules and regulations gives the Telephone Company the right to discontinue the service.

42.2 SERVICE DESCRIPTION

42.2.1 This service is provided to customers in the form of a Local Serving Arrangement (LSA) and Optional Service Features.

42.2.2 The LSA forms the local access arrangement that provides the customer access to the exchange network. It is a prerequisite to ordering any Optional Service Feature (OSF) which is provided in this Tariff. Each LSA consists of three (3) components: Access Link, Features/Functions and Transport.

42.2.3 An OSF offers the customer basic options that facilitate the customer's opportunity to offer enhanced services to its patrons in a flexible manner.

42.3 EXPLANATION OF TERMS

42.3.1 Access Link - The local loop facilities from the customer's premises to the first point of termination at the customer's serving central office.

42.3.2 Channel Interconnections - Central office equipment that connects an individual multiplexed channel to a switch termination.

42.3.3 Switch Termination - Central office equipment and wiring that connects an access link or channel interconnection to the central office switch.

42.3.4 Dial-Tone Office - The central office providing the LSA.

42.3.5 Multiplexed Arrangement - Central office equipment that combines individual channels together for transport over a single communications facility.

42.3 EXPLANATION OF TERMS-(Continued)

42.3.6 Enhanced Service - Services offered over Telephone Company transmission facilities which employ computer processing applications that act on the format, content, code, protocol or similar aspects of the patron's transmitted information; provide the patron additional, different or restructured information or involve patron interaction with stored information; i.e., use of computer processing applications for:

- A. Change in format of patron information and delivery of information in the changed format,
- B. Provision of additional information, or
- C. Patron interaction with stored information.

(AT) 42.3.7 Optional Expanded Calling Scope - An optional service which extends the local calling scope of the LSA. This optional service is available only in specified exchanges, where Local-Metropolitan and Special Optional Local-Metropolitan Services are offered in the Local Exchange Tariff.

(FC) 42.3.8 Features/Functions - The interface/interconnect between the Access Link and the Telephone Company exchange network.

42.3.9 Local Serving Arrangement (LSA) - This is the basic arrangement which provides the customer access to the Telephone Company Exchange network.

42.3.10 Optional Service Feature (OSF) - Basic options associated with a LSA.

42.3.11 Originating - Calls incoming to the customer from the Telephone Company exchange network.

42.3.12 Patron - A user of the enhanced services being offered by the customer.

42.3.13 Terminating - Calls outgoing from the customer to the Telephone Company exchange network.

(FC) 42.3.14 Transport - Switched call processing and delivery.

EXCHANGE INTERCONNECTION SERVICE

42.4 UNDERTAKING OF THE TELEPHONE COMPANY

42.4.1 The Telephone Company will provide all of the service components necessary for the provisioning of Exchange Interconnection Service up to and including the network interface at the customer's premises.

42.4.2 The calling scope for the LSA is the geographic area which includes all wire centers comprising the local calling scope of a specified metropolitan exchange area or local exchange area.

(RT)

(FC) 42.4.3 The LSA and related Optional Service Features offered in this Tariff are only available where facilities permit.

(FC) 42.4.4 Miscellaneous services, which are technically compatible to the services offered in this Tariff, may be provided at the rates and charges specified in the applicable sections of this or other tariffs of the Company.

42.5 LIMITATIONS

42.5.1 Components of an LSA (Access Link, Features/Functions and Transport) are not to be offered separately. Further, only switch terminations offered from this Tariff may be associated with a Multiplexed Arrangement.

42.5.2 Directory Listings will not be provided as a part of Exchange Interconnection Service. Directory listings will be provided for customers at rates specified in the Directory Listings Section of this Tariff.

42.5.3 Rates for local directory assistance calls, which are provided by the Telephone Company, will apply as specified in the Directory Assistance Service Section of this Tariff, except that no call allowances, offset or exemptions will be allowed.

42.5 LIMITATIONS-(Continued)

42.5.4 An OSF offered in this Tariff is available only when provided in conjunction with an LSA as offered in this Tariff.

42.6 OBLIGATIONS OF THE CUSTOMER

42.6.1 Customers will provide the terminal equipment, derivation equipment or communications systems, as required for use with the services offered in this Tariff.

42.6.2 Synchronization of the digital network will be provided in accordance with TA-NPL-000436 DIGITAL SYNCHRONIZATION NETWORK PLAN, ANSI T1.101 - 1987 SYNCHRONIZATION INTERFACE STANDARDS FOR DIGITAL NETWORKS and TR-NPL-000275 SYNCHRONIZATION OF THE INTRA-LATA DIGITAL NETWORK.

42.7 APPLICATION OF CHARGES

42.7.1 Local Serving Arrangement

Rates and Charges for the provision of the LSA are encompassed in three service component charges:

- A. The Access Link Charge relates to local loop facilities between the customer and the first point of termination in the customer's serving central office. Foreign Serving Office Service rates and charges do not apply to the LSA.
- B. Features/Function Charges relate to the interface/interconnect between the Access Link and the Transport facility.
- C. The Transport Charge relates to the provision of switching and transmission facilities that are necessary to facilitate end-to-end connectivity between the customer and his patrons.
 - 1. Originating Transport applies to the inward delivery of calls to the customer's premises.
 - 2. Terminating Transport applies to the outward delivery of calls from the customer's premises to locations within the local calling scope of the dial-tone office.

42.7 APPLICATION OF CHARGES-(Continued)

42.7.2 Installation Charges

The application of Installation Charges as found in Section 42, Paragraphs 42.8.1 and 42.8.2, of this Tariff are as follows:

A. Installation Charges

1. First - Applies to the first unit per customer request, per due date, per account, at each central office from which service is provided.
2. Additional - Applies to each additional unit(s) on the same request as the initial unit, same due date, same account and same location.

B. Subsequent Installation Charges apply only to Local Serving Arrangements as follows:

1. First - Applies to the first unit per customer request, per due date, per account, at each central office served, when a Channel Interconnection is added to an existing Multiplexed Arrangement.
2. Additional - Applies to each additional unit(s) on the same request as the initial unit, same due date, same account and same location.

42.8 RATES AND CHARGES

42.8.1 Local Serving Arrangement (1)(2)

A. Circuit Switched-Voice Grade Connection

A voice grade serving arrangement that provides a customer network access, one and two-way communications capability and access to available Optional Service Features via a connection to the circuit switched network. All calls are set up and taken down on a call-by-call basis.

- (1) When a customer requests an LSA from a serving office in an exchange outside the exchange area in which the customer's premises is located Foreign Exchange Service Charges apply.
- (2) Refer to the Local Exchange Tariff for Hunting Arrangement Rates and Charges.

EXCHANGE INTERCONNECTION SERVICE

42.8 RATES AND CHARGES (cont'd)

42.8.3 Optional Service Features

2. Network Subscriber Information Interface (NSII)

A. Where available, NSII provides:

(CT)
|
(CT)
(CP)
|
(CP)

- originating call information,
- the ability to activate and deactivate an intermittent dial tone or a visible light signal (Message Waiting Indication) on patrons' lines in multiple Company offices throughout the LATA (1), and/or
- the ability to direct Message Waiting Indicator (MWI) messages to one pre-defined SS7 Point Code of the customer's suitably equipped Alternate Network service provider within the LATA (2).

(MT)
(MT)

It allows the customer (Voice Messaging Service Provider) to perform these functions in multiple offices through a connection to a single Message Node office.

(CT)
|
(CT)

The customer may request a specific central office to serve as the Message Node office, but the Company retains final authority in choosing the Message Node office for each NSII arrangement. The delivery of Originating Call Information from Company offices is included in the monthly rate for this feature. NSII is subject to capacity limitations of the voice messaging platform, the NSII link, and the Local Serving Arrangement.

(CT)
(CT)

B. A Local Serving Arrangement is required in conjunction with NSII. The same Local Serving Arrangement cannot be used in conjunction with both NSII and Subscriber Information Interface. If both of these Optional Service Features are used by a customer in the same location, separate Local Serving Arrangements are required and will be distinguished from one another by the use of different USOC codes.

(CT)

(CP)
(CP)

- (1) Originating Call Information and Message Waiting Indication activation/deactivation capabilities are limited to Voice Messaging Service Providers' patrons whose local exchange telephone service is served by equipped switching systems within the Message Node Service Area.
- (2) The Alternate Network telephone numbers must be in the same LATA as the customer's Local Serving Arrangement.

CALLER ID SERVICE

RECEIVED

43.1 GENERAL

MAY 13 1994

43.1.1 Caller ID Service provides for the transmission of Calling Number (CPN) to the customer's access line(s). When line is on-hook, the CPN is transmitted to the line during the silent interval between the first and second ring. Caller ID customers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.

43.1.2 The Southwestern Bell Telephone calling party may prevent the delivery of CPN to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

If the calling party activates blocking, the CPN will not be transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator identifies the Caller ID customer that the calling party has elected to block the delivery of the telephone number.

Line blocking for the delivery of the calling number upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive office of the agency registers with Southwestern Bell Telephone a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability.

The blocking of the CPN will not be provided on calls originating from Public, Semi-Public and Customer-Owned Pay Telephone Services.

43.1.4 Caller ID Service will be provided in connection with individual and multiline residence and business lines, where facilities permit. Party line, PBX trunk, Centrex, Plexar, Public and Semi-Public Telephone Services are excluded from subscribing to this tariff offering.(1)

(AT)

43.1.4 Caller ID Service is offered on a subscription basis which requires the customer to order the service. Where Caller ID Service is available, any calling party, whether they subscribe to Caller ID Service or not, has per call blocking capability.

(AT) (1) Refer to the appropriate tariff section for rates and provisioning of Caller ID Service for Plexar Service.

BY 2nd R.S. #1
Public Service Commission
MISSOURI

43.2.2 Caller ID Service is not available with distinctive ringing services having a silent interval length insufficient for CPN transmission.

43.2.3 Identification of specific stations or extensions served by CPE is not possible. The main directory number will be displayed.

43.2.4 Caller ID Service will not be displayed for calls made on a multiparty line. The called party will receive an "unavailable" indicator.

43.2.5 Caller ID Service will be transmitted and displayed for calls made from another central office only if it is linked by appropriate facilities.

43.2.6 Caller ID information may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: (a) routing or completion of calls, (b) billing of calls, (c) account management purposes, (d) services directly related to the call or transaction, (e) verification of calling party identity and (f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. This applies if the number delivery service subscriber has an existing relationship with the customer. Caller ID customers failing to comply with any of these conditions will have their service terminated.

44.1 GENERAL REGULATIONS

44.1.1 BizSaver provides a discount to business customers that subscribe to a select group of services as specified below and applies to the customer's monthly billing. The services included with BizSaver are provided at rates specified elsewhere in this Tariff.

44.1.2 BizSaver "A" includes the following:

- Any combination of 2 Custom Calling Services (excluding Speed Calling) and/or Call Control Option features
- Personalized Ring

BizSaver "B" includes the following:

- Any combination of 2 Custom Calling Services (excluding Speed Calling) and/or Call Control Option features
- An Additional Listing

Any of these services can still be provided on an individual basis as provided in the appropriate tariff sections.

44.1.3 BizSaver is available only to business customers, excluding some multiline hunting arrangements and trunk facilities (e.g., Plexar and Centrex), and is subject to the availability and limitations specified in the individual tariff sections for the individual services.(1)

44.2 RATES

44.2.1 The following discount is applicable to the customer's monthly bill.

44.2.2

	<u>USOC</u>	<u>Monthly Discount</u>	<u>Service and Equipment Charge(2)</u>
BizSaver "A"	NLRBA	(NR) \$ 5.00	(NR) \$14.50
BizSaver "B"	NLRBB	(NR) \$ 2.00	(NR) \$14.50

- (1) The Service and Equipment Charge applicable to upgrading from residence to business service is waived when the customer upgrades and orders BizSaver.
- (2) The Service and Equipment Charge applies only to subsequent order activity. It is not applicable to initial installations.
