Rules for Rendering Sewer Service

APR 21 1991

RULE 1. Definitions

(A) The "COMPANY" is West 16th St. Sewer Co. acting through its officers, managers, or other duly authorized employees or agents.

(B) The "CUSTOMER" is any person, firm, corporation or governmental body which has contracted with the Company for sewer service or is receiving sewer from Company or whose facilities are connected for utilizing such service.

(C) A "COLLECTING SEWER" is a pipeline which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage wastes to a central point for disposal.

(D) A "CUSTOMER'S SERVICE SEWER" is a pipe with appurtenances installed, owned, and maintained by the Customer, used to conduct sewage from the Customer's premises to the collecting sewer.

(E) A "SERVICE CONNECTION" is the point at which the Customer's service sewer is connected to the collecting sewer.

(F) The "DATE OF CONNECTION" shall be the date of the permit for installation and connection issued by the Company. In the event no permit is taken and a connection is made, the date of connection shall be the date of commencement of construction upon the property.

(G) "DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal household activities.

(H) "NON-DOMESTIC SEWAGE" is all sewage other than domestic sewage, including, but not limited to, commercial or industrial wastes. (See Rule 9 pertaining to Improper Waste and Excessive Use.)

(I) "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or sub-surface water away from the foundation.

RULE 1. Definitions (continued)

(J) "PH" is the relative degree of acidity or alkalinity of water as indicated by the hydrogen ion concentration. PH is water indicated on a scale reading from 1-14, with 7 being neutral, below 7 acid, and above 7 alkaline; more technically defined as the logarithm of the reciprocal of the hydrogen ion concentration.

(K) "B.O.D." (Denotes Biochemical Oxygen Demand) is the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory conditions expressed in milligrams per liter.

(L) "SUSPENDED SOLIDS" is the concentration of insoluble materials suspended or dispersed in waste expressed in milligrams per liter on a dry weight basis as determined by standard procedures.

(M) "DEVELOPER" means any person, firm, corporation, partnership, or other entity that directly or indirectly holds title to, or sells or leases, or offers to sell or lease, or advertises for sale or lease any 2 or more lots in a subdivision.

(N) "SUBDIVISION" means any land in the state which is divided or proposed to be divided into 2 or more lots or other divisions of land whether contiguous or not or uniform in size or not, for the purpose of sale or lease, and includes any resubdivision thereof.

Rules for Rendering Sewer Service

APR 24 1991

RULE 2. Applications for Sewer Service

(A) A written application for sewer service, signed by the Customer, accompanied by the appropriate consideration or information as provided by these rules and regulations, will be required from each Customer before sewer service is provided to any premises. Said application must state the name of the owner of said premises. Every Customer upon signing an application for any service rendered by the Company or upon taking of sewer service, shall be considered to have expressed consent to the Company's rates, rules and regulations. The Company shall have the right to reject any application, for failure to comply with the rules and regulations herein. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for such reasonable period of time as is specified by the Company at the time of the making of such contract.

(B) The Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company's lines, giving the location of any buildings. The Company will then advise the form and the character of the waste collection facilities available.

(C) No substantial addition to the water using equipment or appliances connected to the sewer system of the Company shall be made except upon written notice to and with the written consent of the Company.

(D) Any change in the location of an existing service connection requested by the Customer shall be made at his expense.

(E) A Customer's sewer service will not be extended along public streets or roadways or through property of others in connecting with collecting sewers. If a service connection is requested at a point not already served by a collecting sewer of adequate capacity, the collecting sewer shall be extended as provided in these rules.

RULE 3. Bills and Payment for Sewer Service

(A) The charges for monthly sewer service shall be at the rates specified in the applicable rates and charges for monthly service. The point of assumption of sewage shall be at the service connection

(B) Customers are liable for payment for all monthly maintenance charges for sewer service to the premises from the date of connection until the Company is given five (5) days notice of the date, place, and time of disconnection by registered mail and the Company has had an opportunity to observe the disconnect.

(C) Bills for sewer service will be mailed or delivered to the Customer's last address as shown by the records of the Company, but failure to receive a bill will not relieve the Customer from obligation to pay the same.

(D) Payments shall be made at the office of the Company or at such other places conveniently located as may be designated by the Company.

(E) A separate bill shall be rendered for each Customer's sewer service.

(F) The Company shall have the right to render bills quarterly in advance and such bills shall be due and payable on the due date indicated on the bill.

(G) The Company or the Customer will not be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.

(H) All bills for sewer service become delinquent after the due date stated on the bill. Service may be discontinued after thirty (30) days written notice by the Company. Bills not paid within a delinquency of thirty (30) days bear delinquent late charge for non-payment of ten percent (10%) of the unpaid balance.

RULE 3. Bills and Payment for Sewer Service (continued)

(I) If a Customer is a tenant, the Company may require the owner of the property to be ultimately responsible for payment of bills for service, provided the Company has made reasonable and timely efforts to collect bills due from the Customer. All notices of delinquent bills or disconnection shall also be sent to the owner of the property.

(J) When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the monthly charge. Customers termination with less than one month's service shall pay not less than the monthly minimum.

RULE 4. Discontinuation of Service

(A) The Company reserves the right upon giving of thirty (30) days written notice to the Customer by certified mail, return receipt requested and a copy to the Missouri Public Service Commission, to discontinue service for non-payment of sewer bills or for violation of, or refusal to comply with these rules and regulations.

(B) In case of violation by the Customer of any of the provisions of rule 9 or if a condition shall exist which, in the opinion of the Company renders further service to the Customer dangerous to his health and safety or to the health and safety of other parties, or any other lawful reason, the Company may discontinue service immediately upon the giving of verbal or written notice to the Customer and the Commission.

(C) In all cases of discontinuance of sewer service for non-payment of a bill, sewer service may be discontinued at the option of the Company and will not be resumed again except upon payment by the Customer of a fee of \$150.00 to cover the cost of effectuating resumption of sewer service, plus delinquent service charges.

(D) Discontinuance of sewage service to a premise for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from the Customer.

RULE 5. Liability of the Company

(A) The company shall not be responsible for damages for any failure to remove waste water from the premises, or for sewer backup or flooding, or for interruption of service, if such failure or interruption is without negligence on its part.

(B) The Company shall not be liable for damages resulting to Customer or to third persons, unless due to negligence on the part of the Company, and without any contributory negligence on the part of the Customer or such third party.

(C) The Company shall not be liable for damages because of any interruption of sewer service or for damages caused by defective piping and appliances on the Customer's premises.

(D) Employees or agents of the Company are expressly forbidden to demand or accept any compensation for any service rendered to its Customers except as covered in the Company's rules and regulations.

(E) No employee or agent of the Company shall have the right or authority to bind it by any promise, agreement or representation contrary to the letter or intent of these rules and regulations. Nor shall any employee or agent of the Company have authority to bind it by any promise, agreement, or representation not provided for in these rules unless such authority is in writing and signed by the President of the Company.

RULE 6. Interruptions in Sewer Service

(A) The Company reserves the right to discontinue sewer service in its collecting sewer at any time, without notice, for making repairs, extensions or alterations to the collection system or station equipment. The Company may ask the customer to limit waste discharges into the system during the time repairs are being made.

(B) No refunds of charges for sewer service will be made for interruptions of service unless the interruption was due to willful misconduct by the Company.

(C) In order to avoid overloading capacities of Company collecting sewers and treatment facilities, the Company reserves the right, at all times, to determine the limit of and regulate, in a reasonable and non-discriminatory manner, the maximum amounts or strength of the wastes discharged into Company collecting sewers.

RULE 7. Service Sewer Connection and Taps

MISSOURI
Public Service Commission

(A) The Company will locate the point to which service sewer connection will be made and Company will furnish a "Y" branch, when a "Y" has not previously been installed, or other outlet at the collecting sewer which shall be located in the public right-of-way or Company easement. All taps are to be made by licensed plumbers, subject to inspection and approval by the Company. Application must be filed in writing 24 hours in advance stating the street, house number, name of applicant, name of property owner, and time at which tap is to be made. The Company will not be required to supply sewer service until each such tap has been inspected and approved by it. Customer will be liable for any damages to Company collecting sewers resulting from such work.

(B) The Customer's service sewer connection from the collecting sewers to the Customer's building shall be installed by and maintained at the expense of the Customer. A service sewer connection shall not be used to supply more than a single property without the consent of the Company.

Rules for Rendering Sewer Service

RULE 8. Inside Piping and Customer Service Sewer

(A) The Customer will provide the Service Sewer at his expense and risk. As a condition of service inside requirements of all governmental units having jurisdiction and the Company's Rules and Regulations, must be met at the time of connection to the system. The Company shall deny service or may discontinue service where footing drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.

(B) A separate and independent Customer Service Sewer shall be required for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the Customer's service sewer from the front building may be extended to the rear building and the whole considered as one Customer's service sewer.

(C) Old Customer service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.

(D) The Customer's service sewer shall be cast iron soil pipe, ASTM specification or equal; vitrified clay sewer pipe, ASTM specification or equal; or other suitable material approved by the Company. Joints shall be tight and waterproof. Cast iron pipes with leaded joints may be required where the Customer's service sewer is exposed to damage by tree roots. If installed in filled or unstable ground, the Customer's service sewer shall be of cast iron soil pipe, except that non-metallic material may be addepted if laid on a suitable concrete bed or cradle as approved by the said Company.

(E) The size and slope of the Customer's service sewer shall be subject to the approval of the Company, but in no event shall the diameter be less than four inches (4"). The slope of such four-inch (4") pipe shall not be less than one-eighth inch (1/8") per foot.

(F) Whenever possible, the Customer's service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three feet (3') of any bearing wall. The depth shall be sufficient to afford protection from frost. The Customer's service sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipes and fittings

Rules for Rendering Sewer Service

RULE 8. Inside Piping and Customer Service Sewer (continued)

(G) In all buildings in which any building drain is too low to permit adequate gravity flow to the collecting sewer, sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used.

(H) All excavations required for the installation of a Customer's service sewer shall be open trench work unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published Engineering and Specifications of the Manufacturer of the materials used and all applicable local plumbing codes, except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.

(I) The connection of the Customer's service into the collecting sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's collecting sewer is vitrified clay pipe of 12" diameter or less and there is no properly located "Y" branch at a suitable location, a "Y" branch shall be installed at a location specified by the Company. If the Company's collecting sewer is greater than 12" in diameter, or is PVC of any size, a neat hole may be cut at a location specified by the Company, and a saddle installed to which the Customer's service sewer will be connected. The invert of the Customer's service sewer at the point of connection shall be at the centerline or higher elevation than the invert of the Company's collecting sewer. A smooth neat joint shall be made, and the connection made secure and watertight by encasement in concrete.

(J) The Customer is obligated to construct, repair, and maintain the service sewer from the collecting sewer to the building of the applicant and such construction and maintenance by the customer shall be subject to the approval of an authorized inspector of the Company and shall be in accordance with these Rules and Regulations as well as construction information of the Company in force at that time.

RULE 9. Improper Waste or Excessive Use

MISSOURI
Public Service Commission

(A) The following requirements for the use of the sanitary sewer system shall be observed. Violation of these requirements will result in the discontinuance of service to the Customer.

(B) No person shall discharge or cause to be discharged any storm water, surface water, ground water, swimming pool waste water, roof runoff, subsurface drainage, cooling water or polluted industrial process waters to any Company's collecting sewers.

(C) No person shall discharge or cause to be discharged any of the following described waters or wastes to the Company's collecting sewers:

(1) Any liquid or vapor having a temperature higher than 150 degrees F.

(2) Any water or waste which may contain more than 100 parts per million, by weight, of fat, oil, or grease.

(3) Any water or waste which may contain more than 25 parts per million, by weight, of soluble oils.

(4) Any gasoline, benzene, naptha, fuel oil, or other flammable or explosive liquid, solid, or gas.

(5) Any garbage that has not been properly shredded.

(6) Any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewage works.

(7) Any waters or wastes having a PH lower than 5.0 or higher than 9.0, or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the sewage works.

Rules for Rendering Sewer Service

APR 24 1991

RULE 11. Extension of collecting Sewers

MISSOURI
Public Service Commission

(A) This rule shall govern the extension of collecting sewers by the Company in areas where there are no collecting sewers in the streets and/or roadways. The Company will extend its collecting sewers along streets or roads within its certified area to serve new customers under the following terms and conditions:

(1) Upon receipt of written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required, including manholes, cleanouts, lift stations, reconstruction of existing sewers (if necessary), and the direct costs associated with supervision, engineering, permits, and bookkeeping. Applicable income tax cost will be added to this estimate calculated at the maximum rate.

(2) Applicant(s) shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution in-aid-of construction equal to the amount determined in A.1, plus the appropriate customer connection fee(s).

(3) If, as a result of reasonably unforeseen circumstances, the actual cost of the extension exceed the estimated cost of the extension, the Applicant(s) shall pay the added cost.

(4) Extensions made under this rule shall be and remain the property of the Company in consideration of its perpetual upkeep and maintenance.

(5) If an extension is being proposed by a subdivision developer and expansion of the treatment plant will be necessary to serve the customers in the subdivision, the Company shall determine the "treatment plant expansion cost". The "treatment plant expansion cost" will be added to the cost of extending the collector sewers to be paid by the developer. As each residential customer in the subdivision connects, the Company shall refund to the developer \$600.00, except the total amount of such refunds shall not exceed the "treatment plant expansion cost". Refunds for commercial customers shall be based on volume and strength of sewage discharge as it relates to the equivalent of a single family residence.

Rules for Rendering Sewer Service

RULE 11. Extension of Collecting Sewers (continued) Public Service Commission

(B) The cost to an Applicant or Applicants connecting to a sewer that was contributed by other Applicants shall be as follows:

(1) For single-family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension (including income taxes) by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing mains shall be excluded.

(2) For single-family residential Applicants that are applying for service in areas that are unplatted in subdivision lots, the Applicant's cost shall be equal to the total cost of the extension divided by the total length of the extension in feet times 100 feet.

(3) For industrial, commercial, or multi-family residential Applicants, the cost will be equal to the amount calculated for a single-family residence in Paragraphs 1 or 2 above multiplied times a water usage factor. The water usage factor shall be determined by dividing the average monthly usage in gallons by 7,000 gallons, but shall not be less than 1.

(C) Refunds of contributions shall be made to Applicant(s) as follows:

(1) Should the actual cost of extension be less than the estimated cost, the Company shall refund the difference as soon as the actual cost has been ascertained.

(2) After the Company has closed its books for the year in which a contribution was made, it will determine its actual income tax cost associated with each extension and refund any excess income tax costs collected from each Applicant.

(3) During the first ten years after the extension is completed, the Company will refund to the Applicants who paid for the extension monies collected from Applicants in accordance with Rule 11B above.

Rules for Rendering Sewer Service

APR 24 1991

RULE 12. General

(A) Every Customer, upon signing an application for service or accepting service rendered by the Company, shall be considered to have expressed consent to be bound by these rates, rules and regulations.

(B) The Company's rules and regulations governing rendering of service are set forth in these numbered sheets. The rates applicable to appropriate class of service are set forth in rate schedules and constitute a part of these rules and regulations.

(C) The Company reserves the right, subject to the authority of the Public Service Commission of Missouri, to prescribe additional rates, rules or regulations or to alter existing rates, rules or regulations as it may deem necessary or proper.

(D) At the effective date of these rules and regulations, all new facilities, construction contracts, and written agreements shall conform to these rules and regulations in accordance with the statutes of the State of Missouri and authority of the Public Service Commission of Missouri. Pre-existing facilities which do not conform with these rules may remain, if said facilities do not cause any service problems and reconstruction is impractical in the Company's judgment.

(E) The Company shall have the right to enter upon the Customer's premises for the purpose of inspection for compliance with these rules and regulations. Company personnel shall identify themselves and such inspections shall be conducted during reasonable hours.
