A. Sheet Numbering

MISSOURI
Public Service Commission

Numbers appear in the upper-right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between existing sheets with whole numbers, a decimal is added. For example, the first sheet added between sheets 24 and 25 would be 24.1.

B. Sheet Revision Numbers

Revision numbers also appear in the upper-right corner of the sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the fourth revised sheet 24 cancels the third revised sheet. Consult the check sheet for the sheet currently in effect.

2.1 Undertaking of the Carrier

2.1.1 Scope

The Carrier is an interexchange telecommuni-
cations company providing long distance
services to Customers in the State of Missouri
through the resale of WATS-like service.

2.1.2 Limitations

The services provided pursuant this tariff are
offered subject to the availability of
facilities and the other provisions of this
tariff.

The Carrier does not undertake to transmit
communications or messages, but rather
furnishes facilities, service and equipment
for such transmissions by the Customer or
Authorized User.

The Carrier retains the right to deny service
to any Customer who fails to comply with the
rules and regulations of this tariff, or other
applicable rules, regulations or laws.

- B. Customer is responsible for the payment of all charges for any and all services or facilities furnished by the Company to Customer. The Customer's monthly charges for Carrier's service are based upon the total time the Customer actually uses the service, together with his use of service options. Except where otherwise provided for in this tariff, for billing purposes, the duration of each call will be rounded off to the nearest higher minute.
- C. Subject to availability, the Customer may use Account and/or Project Codes to identify the users groups on his account and to allocate the cost of his service accordingly. The numerical composition of such codes shall be set forth by Carrier to assure compatibility with Carrier's accounting and automation systems and to avoid duplication of Account and/or Project Codes.
- D. The Customer shall reimburse the Carrier for damages to the Carrier's facilities caused by any negligence or willful act or acts on the part of the Customer and/or any Authorized User. After receipt of payment for the damages, Carrier will cooperate with the Customer in prosecuting a claim against any third party causing damage.
- E. The Customer shall pay and hold the Carrier harmless from the payment of all charges of local exchange carriers or other entities for services and/or facilities connecting the Customer and the Carrier.

mutually agreed upon by the Customer and Carrier, a charge will be made to the Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the Customer by Carrier and not fully reimbursed by installation and monthly charges. If, based on such an order, any construction has either begun or been completed, but no such services provided, the non-recoverable cost of such construction shall be borne by the Customer.

2.8 Special Services

2.8.1 General

For the purpose of this tariff, a Special Service is deemed to be any service requested by the Customer for which there is no prescribed rate in this tariff. Special Services charges will be developed on an individual case basis and may be established by contract between Carrier and the Customer. Such contract or ICB rates will be filed with the Commission as required by applicable rules and regulations.

2.8.2 Basis for Charges

Special Service charges will be based on the estimated cost of furnishing such services including the cost of operating and maintaining such a service, the cost of equipment and materials used in providing such a service, the cost of installation including engineering, labor, supervision, transportation, and the cost of any other specific item associated with the particular Special Service request.

Special Services rates apply in the following circumstances:

- A. If at the request of the Customer, Carrier obtains facilities not normally used to provide services to its Customers;
- B. If at the request of the Customer, Carrier provides technical assistance not normally required to provide service;
- C. Where special signaling, conditioning, equipment, or other features are required to make Customer-provided equipment compatible with Carrier service;
- D. When at the specific request of the Customer, installation and/or routine maintenance is performed outside of the regular business hours. Such charges will be based upon the actual labor, material, and other costs incurred by, or billed to Carrier in the provision of the particular Special Service.
- E. If installation and/or routine maintenance is extended beyond normal business hours at the request of the Customer and these circumstances are not the fault of Carrier, Special Service charges may apply. Such circumstances include, but are not limited to, stand-by in excess of one-hour, weekend, holiday or night time cutover, and additional installation testing in excess of the normal testing required to provide service.

3.1.1 General Description

YD-2006-0148
Public Service Commission
MISSOURI

Dialed Access Switched Services are measured use, full-time services and are offered on a monthly basis, utilizing intercity communications facilities. When appropriate access arrangements exist, these switched services are available on a presubscription (equal access) basis. Otherwise, the services require that a Customer access the Ameritel network via a seven-digit (950-1975) toll-free access number, or with an Ameritel-provided automatic dialing device. The individual Customer's charges for the use of such intercity communications facilities are based upon the time of day, the total minutes the Customer utilizes such facilities and the distance of each call. Carrier may occasionally offer promotional discounts.

Such discounts will be for a specified period of time, will not exceed published rates, and will be offered to all qualifying Customers on a non-discriminatory basis, under any rules prescribed by the Commission.

3.1.2 Standard Ameritel MTS Service

Standard MTS Service is available from any location within the Service Location Areas, and originates over Ameritel's switched access facilities. Standard Ameritel MTS Service is equivalent to the Message Telecommunications Services provided by other interexchange carriers.

3.5 Timing of Calls

- A. All calls are timed by the Carrier in one minute increments unless otherwise stipulated by the Carrier. Timing begins at the "starting event" and ends at the "terminating event", unless otherwise specified. Time between the starting event and the terminating event is the call duration.
- B. The starting event occurs when the Carrier's terminal experiences an "Incoming Signaling Protocol Successful", i.e., upon the seizure of an inbound trunk.
- C. The terminating event occurs when the Carrier's terminal receives a signal from the local exchange telephone company that either the calling party or the called party has hung up.
- D. There shall be no charge for unanswered calls. Upon receiving reasonable and adequate notice of billing from a Customer or End User for any such call, the Carrier may issue a credit to the Customer or End User in an amount equal to the charge for the call. Calls which are in progress longer than one minute will be presumed to have been answered unless demonstrated otherwise.

B. Airline mileage is obtained by using the "V" and "H" coordinates assigned to each point as contained in AT&T's current tariff on file with the Federal Communication Commission. To determine the airline distance between any two cities, proceed as follows:

1. Obtain the "V" and "H" coordinates for each city. The "V" coordinate is the first four digits in the "VH" column. The "H" coordinate is the next four digits.
2. Obtain the difference between the "V" coordinates of each of the cities. Obtain the difference between the "H" coordinates.
3. Square each difference obtained in step 2 above.
4. Add the square of the "V" difference and the "H" difference obtained in step 3 above.
5. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.
6. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
